The TDY 401(k) Plan Administrative Committee and Participants of
Teledyne Technologies Incorporated 401(k) Plan

Report on the Audit of the Financial Statements

Opinion

We have audited the financial statements of Teledyne Technologies Incorporated 401(k) Plan, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets available for benefits as of December 31, 2023 and 2022, and the related statement of changes in net assets available for benefits for the year ended December 31, 2023, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets available for benefits of Teledyne Technologies Incorporated 401(k) Plan as of December 31, 2023 and 2022, and the changes in its net assets available for benefits for the year ended December 31, 2023, in accordance with accounting principles generally accepted in the United States of America (GAAP).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Teledyne Technologies Incorporated 401(k) Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Teledyne Technologies Incorporated 401(k) Plan's ability to continue as a going concern within one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- exercise professional judgment and maintain professional skepticism throughout the audit.
- identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Teledyne Technologies Incorporated 401(k) Plan's internal control. Accordingly, no such opinion is expressed.
- evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Teledyne Technologies Incorporated 401(k) Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter

Supplemental Schedule Required by ERISA

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedules of Schedule H, Line 4(a) – Schedule of Delinquent Participant Contributions for the year ended December 31, 2023, and Schedule H, Line 4(i) – Schedule of Assets (Held at End of Year) as of December 31, 2023, are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedule, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedules is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

Teledyne Technologies Incorporated 401(k) Plan
Notes to Financial Statements
December 31, 2023

1. Description of the Plan

General

The Teledyne Technologies Incorporated 401(k) Plan (the “Plan”) is a defined contribution plan available to eligible U.S. domestic employees of Teledyne Technologies Incorporated (“Plan Sponsor”) and certain subsidiaries (collectively, Teledyne or the Company). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (“ERISA”). The Plan was adopted and effective on April 1, 2000, and has been subsequently amended and restated effective on December 31, 2015, with the most recent amendment adopted on December 1, 2022. For a more complete description of the Plan’s provisions please refer to the Plan document.

On May 14, 2021, Teledyne acquired FLIR Systems, Inc. (“FLIR”) which is the sponsor of the FLIR Systems, Inc. 401(k) Savings Plan (the “FLIR Plan”). On April 28, 2021, the Board of Directors of the Company authorized the merger of the FLIR Plan into the Teledyne Plan. On July 12, 2021, the FLIR Plan merged into the Teledyne Plan, and net assets of approximately \$590.5 million were transferred into the Teledyne Plan.

In October 2023, Teledyne acquired Xena Networks ApS, the parent of Xena Networks, Inc. (“Xena”). Xena employees who were eligible for the Plan, effective October 13, 2023, were permitted to rollover their eligible account balances from the Xena Networks. 401(k) Plan.

Employer Contributions

Generally, the Company will match 50% of 6% of qualifying wages the employee defers to the Plan, provided that total matching contributions do not exceed 3% of the employees’ compensation for any plan year. For employees who are eligible to accrue a benefit under the Teledyne Technologies Incorporated Pension Plan or the Teledyne Technologies Incorporated Pension Plan for Defined Active Participants (together, the “Pension Plans”), the Company will match 50% of the qualifying employee contributions up to a maximum of \$1,000 annually for each participant. FLIR employees that joined the Teledyne Plan have matching contributions of 50% of qualifying wages the employee defers to the Plan, provided that the total matching contributions do not exceed the IRS annual contribution limit. Employees become eligible for Company matching contributions following 90 days of service or unless expressly provided by the terms of an acquisition/sales agreement. For any exceptions to the employer contribution details above, please refer to the Plan document.

Employee Contributions

Generally, participants can defer between 1% and 50% (highly compensated employees between 1% and 15% on a pretax and/or Roth basis and up to 8% on an after-tax basis), subject to Internal Revenue Code (the “Code”) limitations, of their eligible wages and contribute them to the Plan. An employee who first becomes an eligible employee shall be deemed to have elected to contribute 6% of eligible wages following 90 days of service unless or until such deemed election is revoked by the employee. Participants who have attained the age of 50 may make catch-up contributions as defined by the Plan. These catch-up contributions are not eligible for the Company match.

The Plan allows participants to make contributions designated as “Roth contributions”, that is, contributions subject to federal income taxation in the year made but the earnings on which are not subject to federal income tax and “after-tax” contributions that are not Roth contributions. Only pretax and Roth contributions are eligible for the Company match. After-tax contributions are not eligible for the Company match.

Participant Accounts

Separate accounts are maintained by the record-keeper for each participant. Each participant may direct his or her account balance into one or more investment options offered by the Plan or a self-directed brokerage link investment option. The self-directed brokerage link investment option allows the participant to direct contributions to be invested in any investment permitted under the Plan, including mutual funds, common stock and bonds. Asset management fees charged for the administration of all funds are charged against net assets available for benefits of the respective fund.

Teledyne Technologies Incorporated 401(k) Plan
Notes to Financial Statements (continued)

1. Description of the Plan (continued)

Vesting

Participants who are eligible to accrue a benefit under the Pension Plans are 100% vested in their 401(k) Plan contributions, Company matching contributions and all earnings thereon. Participants who are not eligible to accrue a benefit under the Pension Plans will at all times have a 100% vested interest in their accounts, except for the Company Match Account and all earnings thereon which is fully vested after five years of vesting service. For FLIR employees hired before July 12, 2021, the Company match account and all earnings thereon follows a three-year annual vesting schedule.

Participant Loans

Active employees can borrow up to 50% of their vested account balances. The loan amounts are further limited to a minimum of \$500 and a maximum of \$50,000, and an employee can have no more than one loan outstanding at any given time. Interest rates are determined based on commercially accepted criteria, and payment schedules vary based on the type of loan. Loans may be paid in full or in part at any time. Loans are repayable over periods of up to five years (15 years for loans to purchase the participant's primary residence). Payments are generally made through payroll deductions.

Plan Termination

In the event that the Plan is terminated, or the Plan Sponsor permanently discontinues making contributions, all amounts credited to the accounts of affected participants will be distributed to participants as defined in the Plan document under the provisions of ERISA. In the event the Plan is terminated, Participants would become 100% vested in their accounts.

Withdrawals and Distributions

The Plan allows for participants to make withdrawals from the Plan upon reaching age 59½. Additionally, the value of participants' contributions and the value of all Company matching contributions are payable to participants upon death, disability, retirement or upon termination of employment with the Company. At the participant's election, payment may be made in cash, as a single lump sum, or in installments. In addition, employees who rolled their funds over as a result of the Reynolds Industries, Incorporated acquisition and have at least 20 years of service may make a withdrawal of their pretax Company matching contributions and all earnings thereon.

Administrative Expenses

The Company pays administrative expenses, which include recordkeeping and trustee fees as well as expenses incurred in administering the Plan. Participants pay loan origination and servicing fees.

2. Significant Accounting Policies

Basis of Accounting

The accompanying financial statements of the Plan have been prepared on an accrual basis.

Payment of Benefits

Benefits are recorded when paid.

Valuation of Investments

The Plan's investments are stated at fair value.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2023 and 2022.

Mutual Funds: Valued at the quoted net asset value of shares held by the Plan at year-end.

Teledyne Technologies Common Stock: Teledyne Technologies Common Stock: The Teledyne Technologies Common Stock Fund is a real-time traded stock fund, valued at the closing price reported on the exchange on which the security is traded.

2. Significant Accounting Policies (continued)

Self-Directed Brokerage Link: Valued at quoted market prices in an active market on the last business day of the Plan year.

Fidelity Managed Income Portfolio (Fidelity MIP): The beneficial interest of each participant in Fidelity MIP is represented by units. Units are issued and redeemed daily at Fidelity MIP's constant net asset value ("NAV") of \$1 per unit. Distribution to Fidelity MIP's unit-holders is declared daily from the net investment income and automatically reinvested in the Fidelity MIP on a monthly basis, when paid. It is the policy of the Fidelity MIP to use its best efforts to maintain a stable net asset value of \$1 per unit; although, there is no guarantee that the Fidelity MIP will be able to maintain this value. Participant directed redemptions have no restrictions; however, the Plan is required to provide a one-year redemption notice to liquidate its entire share in the Fidelity MIP. There are no restrictions within the Fidelity MIP related to frequency or notice periods for redemptions out of the Fidelity MIP; however, the Fidelity MIP may take up to 12 months to fulfill a payout in the event that withdrawals are directed by the Plan Sponsor. Any transfers out of the Fidelity MIP must be held in a noncompeting investment option for 90 days before subsequent transfers to a competing fund can occur.

Collective Trusts: Units held in collective trusts ("CT") are valued using the net asset value practical expedient ("NAV practical expedient") of the CT as reported by the CT managers. The NAV practical expedient is based on the fair value of the underlying assets owned by the CT, minus its liabilities, and then divided by the number of units outstanding. The beneficial interest in the net assets of each Portfolio is represented by units. Net asset value per unit is determined each business day. Issues and redemptions of units are recorded, upon receipt of unit holder's instructions in good order, based on the next determined net asset value per unit, normally each day. In unusual market conditions, in accordance with the Declaration of Trust, the Trustee may in its sole discretion, impose restrictions on issues and redemptions of units. The issuance and redemption provisions of the Underlying Funds are consistent with those of the Portfolios. In certain circumstances units may be purchased or redeemed through the exchange of securities, the fair value of which is used to determine the number of units issued or redeemed.

While the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

In accordance with accounting principles generally accepted in the United States ("U.S. GAAP"), each of the Plan's fair value measurements are categorized using a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets
- Quoted prices for identical or similar assets or liabilities in inactive markets
- Inputs other than quoted prices that are observable for the asset or liability
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date.

Notes Receivable from Participants

Notes receivable from participants represent participant loans that are recorded at their unpaid principal balance plus any accrued but unpaid interest. Interest income on notes receivable from participants is recorded when it is earned. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2023 or 2022. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be a distribution, the participant loan balance is reduced, and a benefit payment is recorded.

Use of Estimates

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Recent Accounting Pronouncements

There have been no new accounting pronouncements reflected in the 2023 financial statements.

3. Income Tax Status

The Plan has received a determination letter from the Internal Revenue Service (“IRS”) dated July 21, 2017, stating that the Plan is qualified under Section 401(a) of the Code and, therefore, the related trust is exempt from taxation. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualification. Subsequent to this determination by the IRS, the Plan was amended.

In December 2022, the Plan filed a Form 5300 Application for Determination for Employee Benefit Plan with the IRS to request a favorable determination letter confirming that the Plan, restated effective December 1, 2022, continues to meet the requirements of the Code. This is a determination letter request for approval of the Plan in connection with the acquisition of FLIR Systems, Inc. on May 14, 2021, and the merger of the FLIR Systems, Inc. 401(k) Savings Plan (the “FLIR Plan”) into the Plan effective July 12, 2021. The Plan has received a verbal response from the IRS that there would be no additional questions to the submission. Until a favorable determination letter is received, the Plan administrator continues to believe the Plan is being operated in compliance with the applicable requirements of the Code, and therefore, believes that the Plan, as amended and restated, is qualified and the related trust is tax-exempt.

U.S. GAAP requires plan management to evaluate uncertain tax positions taken by the Plan. The financial statement effects of a tax position are recognized when the position is more likely than not, based on the technical merits, to be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2023, there are no uncertain positions taken or expected to be taken. The Plan has recognized no interest or penalties related to uncertain tax positions. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

4. Parties-in-Interest

During 2023, the Plan invested in mutual funds and common collective trust funds managed by Fidelity. The Fidelity managed funds qualify as exempt party in interest transactions. Trustee and investment fees paid by the Plan during 2023 was \$0.8 million.

One of the investment options available to participants is the Teledyne Technologies Incorporated Stock Fund that included 223,358 and 245,268 shares of Teledyne Technologies Incorporated common stock at December 31, 2023 and 2022, respectively.

5. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market volatility and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants’ account balances and the amounts reported in the statements of net assets available for benefits.

6. Delinquent Participant Contributions

Employee deferrals of \$23 thousand were not remitted to the Plan within the typical time period of the Company. The Company remitted the delayed contributions within six business days after the typical expected date. Lost earnings were minimal and were deposited as soon as administratively possible.

7. Subsequent Events

In order to simplify administration, Teledyne consolidated the company-match contribution formula for all eligible U.S. employees, including FLIR employees that joined Teledyne Plan. Effective January 1, 2024, the Company will match 50% of 8% of qualifying wages the employee defers to the Plan, provided that total matching contributions do not exceed 4% of the employees’ compensation for any plan year. There was no change to the company-match contributions for participants under the Pension Plans.

In June 2024, Teledyne acquired Adimec Holding B.V., the parent of Adimec Electronic Imaging, Inc. (“Adimec”). Adimec employees who were eligible for the Plan, effective June 24, 2024, were permitted to rollover their eligible account balances from the Adimec Electronic Imaging 401(k) Retirement Plan.

Management evaluated subsequent events for the Plan through June 28, 2024, the date the financial statements were available to be issued.
