Independent Auditors' Report

To the Plan Administrator and Participants
TLC Operations, Inc. Retirement Plan
Raleigh, North Carolina

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed an audit of the financial statements of TLC Operations, Inc. Retirement Plan, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 ("ERISA"), as permitted by ERISA Section 103(a)(3)(C) ("ERISA Section 103(a)(3)(C) audit"). The financial statements comprise the statement of net assets available for benefits as of December 31, 2023 and 2022, and the related statement of changes in net assets available for benefits for the year ended December 31, 2023, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audit of the financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audit need not extend to any statements or information related to assets held for investment of the plan ("investment information") by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA ("qualified institution").

Management has obtained certifications from a qualified institution as of December 31, 2023 and 2022 and for the year ended December 31, 2023, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion on the Financial Statements

In our opinion, based on our audit and on the procedures performed as described in the Auditors' Responsibilities for the Audit of the Financial Statements section—

- the amounts and disclosures in the financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- the information in the financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion on the Financial Statements

We conducted our audit in accordance with auditing standards generally accepted in the United States of America ("GAAS"). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of TLC Operations, Inc. Retirement Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about TLC Operations, Inc. Retirement Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments; administering the plan; and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of TLC Operations, Inc. Retirement Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about TLC Operations, Inc. Retirement Plan's ability to continue as a going concern for a reasonable period of time.

Our audit did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter—Supplemental Schedule Required by ERISA

The supplemental Schedule H, Part IV, Line 4i – Schedule of Assets (Held at End of Year) is presented for purposes of additional analysis and is not a required part of the financial statements, but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion—

- the form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, is presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- the information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

TLC Operations, Inc. Retirement Plan

Notes to Financial Statements December 31, 2023

1. Plan Description

The following description of the TLC Operations, Inc. Retirement Plan (the "Plan") provides only general information. Participants should refer to the Plan documents for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan that operates under Section 403(b) of the Internal Revenue Code covering substantially all employees of TLC Operations, Inc. ("the Organization" or "Plan Sponsor"). Employees are eligible to contribute to the plan upon hire, except for employees who normally work less than 20 hours per week. Employees are generally eligible to receive employer contributions upon completion of two years of service, as defined by the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Contributions

Each year participants may contribute amounts up to the allowable deferral limit defined by the Internal Revenue Service ("IRS"). Participants who have attained age 50 before the end of the Plan year are eligible to make catch up contributions. The Plan Sponsor may make discretionary matching contributions for participants who actively contribute elective deferrals to the Plan. No discretionary matching contributions were made in 2023. The Plan Sponsor may also make discretionary non-elective contributions to all eligible employees. During 2023, discretionary non-elective contributions of 2% of eligible compensation were made to all eligible employees. Contributions are subject to certain IRS limitations.

Participant Accounts

Each participant's account is credited with the employees' contributions and the Organization's discretionary contributions and allocations of plan earnings and losses. Allocations of Plan earnings and losses are based on participant earnings or account balances, as defined in the Plan documents. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Investment Options

Upon enrollment in the Plan, a participant may direct contributions into selected investment options as made available and determined by the Plan Administrator. The Plan currently offers mutual funds and an insurance contract. Participants have daily access to their investment balances. Changes are self-directed by the participants.

Vesting

Participants are vested immediately in their elective deferral contributions and employer contributions plus actual earnings thereon.

Notes Receivable from Participants

Participants may borrow from their plan accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their account balance. The loans are secured by the balance in the participant's account and bear interest at a reasonable rate. Principal and interest is paid ratably through regular payroll deductions.

TLC Operations, Inc. Retirement Plan

Notes to Financial Statements December 31, 2023

Payment of Benefits

Upon retirement, disability, death, or termination, a participant may elect to receive the value of his or her account in either a lump sum or annual installments. In-service distributions are also permitted at age 59.5.

2. Summary of Significant Accounting Policies Accounting Records

Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America ("GAAP") requires the Plan Administrator to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Notes Receivable from Participants

Loans to participants are reported at their unpaid principal balances plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when incurred. No allowance for credit losses has been recorded as of December 31, 2023 and 2022. Participant loans in the amount of \$5,492 were deemed to be in default during 2023 and recorded as distributions.

Investment Valuation and Income Recognition

The Plan's investments are reported at fair value, except for the fully benefit responsive investment contract. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements. See Note 5 for investment contract information.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Plan Expenses

Certain expenses of maintaining the Plan are paid directly by the Plan Sponsor and are excluded from these financial statements. Investment related expenses are included in net appreciation of fair value of investments. Fees for the administration of loans, distributions, and other participant requested services are charged directly to the participant's account and are included in administrative expenses. There is an ERISA Budget Account ("EBA") held outside the Plan that is available to offset eligible Plan expenses. Earnings of \$5,088 from the EBA were allocated to participants at a rate of 0.15 percent during 2023.

3. Unaudited Information

The Plan Administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-5(c) of the Department of Labor Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 ("ERISA"). Accordingly, as permitted under such election, Delaware Charter Guarantee and Trust Company d/b/a Principal Trust Company ("Principal Trust") has certified that the following data included in the accompanying financial statements and supplemental schedule is complete and accurate.

<i>December 31,</i>	2023	2022
Investments, at fair value	\$ 3,166,595	\$ 3,968,043
Investments, at contract value	\$ 76,612	\$ 61,681
Notes receivable from participants	\$ 45,477	\$ 22,556

<i>Year Ended December 31,</i>	2023
Interest on guaranteed interest contract	\$ 817
Dividend income on mutual funds	\$ 47,714
Interest on notes receivables from participants	\$ 1,648
Net appreciation in fair value of mutual funds	\$ 429,731

The Plan's independent accountants did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the accompanying financial statements and supplemental schedule.

4. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability; and
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

TLC Operations, Inc. Retirement Plan

Notes to Financial Statements December 31, 2023

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes to the methodology used at December 31, 2023 and 2022.

Mutual funds - These funds are valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables summarize significant assets as of December 31, 2023 and 2022, segregated by the level of the valuation inputs within the fair value hierarchy:

Fair Value Measurements as of December 31, 2023				
	Level 1	Level 2	Level 3	Total
Mutual funds	\$ 3,166,595	\$ -	\$ -	\$ 3,166,595

Fair Value Measurements as of December 31, 2022				
	Level 1	Level 2	Level 3	Total
Mutual funds	\$ 3,968,043	\$ -	\$ -	\$ 3,968,043

5. Investment Contracts

The Plan has a fixed income guarantee option with Principal Life Insurance Company ("Principal Life") through a custodial account with Principal Trust. The contract holder maintains the contributions in general accounts. The accounts are credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. Each premium allocated to the fixed annuity investment contract buys a guaranteed minimum amount of lifetime income based on the rate schedule in effect at the time the premium is credited.

TLC Operations, Inc. Retirement Plan

Notes to Financial Statements December 31, 2023

For investment contracts that are fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. These contracts are included in the financial statements at contract value, as reported to the Plan by Principal Trust. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. There are no reserves against contract value for credit risk of the contract issuer or otherwise.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the Plan documents (including complete or partial plan termination or merger with another plan); (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions; (3) bankruptcy of the Plan Sponsor or other Plan Sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan; or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan Administrator does not believe that any events that would limit the Plan's ability to transact at contract value with participants are probable of occurring.

The following table summarizes the contract value of fully benefit-responsive investment contracts held as of December 31, 2023 and 2022:

<i>December 31,</i>	2023	2022
Principal Life Insurance Company Fixed Income Guaranteed Option	\$ 76,612	\$ 61,681

6. Plan Termination

Although it has not expressed any intent to do so, the Employer has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA and its related regulations. In the event of Plan termination, participants will become fully vested.

7. Tax Status

The Internal Revenue Service has issued an opinion letter on the volume submitter 403(b) plan document that the plan utilizes, dated March 31, 2017. The Plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

8. Risks and Uncertainties

The Plan invests in various investments. Investments are exposed to various risks such as interest rate, market, and credit volatility. Market risks include U.S. and global events that could impact the value of Plan investments. Such events may include public health emergencies such as a pandemic, as well as international conflicts, cybersecurity attacks, supply chain disruptions, global monetary policy decisions, inflation, significant economic influences, and other adverse credit and market events and conditions. Due to the level of risk associated with certain investments, it is at least reasonably possible that changes in the values of investments will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

TLC Operations, Inc. Retirement Plan

Notes to Financial Statements December 31, 2023

9. Related Party and Party-In-Interest Transactions

Plan investments are mutual funds and an insurance contract managed by Principal Trust, as defined by the Plan, and utilize Principal Life Insurance Company as the recordkeeper. Transactions with these parties qualify as party-in-interest transactions. The Plan paid fees of \$3,193 to Principal Life Insurance Company for member requested services.

10. Reconciliation to Form 5500

The following is a reconciliation of the net assets available for benefits per the financial statements at December 31, 2023 and 2022 to the Form 5500:

<i>December 31,</i>	2023	2022
Net assets available for benefits per the financial statements	\$ 3,288,684	\$ 4,053,803
Add: Accrued interest on participant loans	73	33
Net assets available for benefits per the Form 5500	\$ 3,288,757	\$ 4,053,836

The following is a reconciliation of the change in net assets available for benefits per the financial statements at December 31, 2023 to the Form 5500:

<i>Year Ended December 31,</i>	2023
Net decrease in net assets available for benefits per the financial statements	\$ (765,119)
Plus: Current year accrued interest on participant loans	73
Less: Prior year accrued interest on participant loans	(33)
Net decrease in net assets available for benefits per the Form 5500	\$ (765,079)

11. Subsequent Events

The Plan has evaluated subsequent events through July 15, 2024, the date the financial statements were available to be issued.
