INDEPENDENT AUDITOR'S REPORT

Audit Committee of the
Deseret 401(k) Plan:

Opinion

We have audited the financial statements of Deseret 401(k) Plan (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets available for benefits as of December 31, 2023 and 2022, and the related statement of changes in net assets available for benefits for the year ended December 31, 2023, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2023 and 2022, and the changes in its net assets available for benefits for the year ended December 31, 2023, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedule Required by ERISA

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of assets (held at end of year) as of December 31, 2023 is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedule is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

DESERET 401(k) PLAN

NOTES TO FINANCIAL STATEMENTS

AS OF DECEMBER 31, 2023 AND 2022, AND FOR THE YEAR ENDED DECEMBER 31, 2023

1. DESCRIPTION OF PLAN

The following description of the Deseret 401(k) Plan (the “Plan”) provides only general information. Participants should refer to the Plan document and summary plan description for a more complete description of the Plan’s provisions.

General—The Plan is a defined contribution plan covering substantially all eligible employees of companies or organizations affiliated with The Church of Jesus Christ of Latter-day Saints (“Participating Employers”) who have reached age 21 and have worked or are scheduled to work 1,000 hours per year. Empower Trust Company, LLC and Empower Retirement, LLC (“Empower”) serve as the custodian and recordkeeper, respectively, of the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Deseret Mutual Benefit Administrators (DMBA) functions as the Plan sponsor, trustee and Plan administrator. DMBA is licensed as a third-party administrator with the State of Utah. DMBA provides the Plan with management and administrative services. DMBA is a non-profit corporation affiliated with The Church of Jesus Christ of Latter-day Saints and provides additional administrative services for the Plan Sponsors. Most directors are also employees of the Participating Employers.

Contributions—Contributions to the Plan include (i) salary reduction contributions authorized by participants, (ii) matching contributions made by the participating employers, (iii) participant rollovers from other plans, and (iv) for eligible employees hired on or after April 1, 2010, the Plan permits an employer discretionary retirement contribution. Discretionary contributions are determined by Plan Sponsors annually. Participants have the option to make Roth elective salary reduction contributions to the plan. Participants can contribute no less than 1% of their eligible compensation up to the maximum before and after tax dollar limitations as set by the Internal Revenue Code (IRC), which is matched by the participating employers as follows:

Employee Contribution	Plan Sponsors’ Matching
1.0 %	1.0 %
2.0	2.0
3.0	3.0
4.0	3.5
5.0	4.0

Employee contributions in excess of 5% of the participant’s eligible compensation are not matched by the Plan Sponsors.

The Plan includes an auto-enrollment provision whereby all newly eligible employees are automatically enrolled in the Plan unless they affirmatively elect not to participate in the Plan. Automatically enrolled participants have their deferral rate set at 6% of eligible compensation and their contributions invested

in a designated balanced fund until changed by the participant. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions; these additional contributions are ineligible for a participating employer matching contribution.

Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Contributions are subject to certain IRC limitations.

Participant Accounts—Individual accounts are maintained for each participant of the Plan. Each participant's account is credited with the participant's contribution and related matching and discretionary contributions and Plan earnings. Participant accounts are also charged with withdrawals and an allocation of plan losses and administrative expenses that are paid by the Plan. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's account.

Investments—Participants may direct the investment of their contributions and/or account balances into BlackRock LifePath target date index funds, registered investment company funds, collective trust funds, and a fully benefit-responsive investment contract.

Vesting—Participants are vested immediately in all their contributions and participating employer contributions, plus actual earnings thereon.

Notes Receivable from Participants—Participants with a minimum account balance of \$1,000 are eligible to borrow against their account balances, except for the portion of their account balance resulting from Plan Sponsor discretionary contributions. Loans may range from \$500 to \$50,000, depending on the amount of the participant's eligible account balance, but cannot exceed 50% of the participant's account balance. Loan terms range from 12 to 60 months and are available for general short-term purposes.

The loans are secured by the balance in the participant's account and bear an interest rate equal to the prime interest rate plus 1%. Residential loans were previously offered by the plan with an interest rate equal to the 15-year average mortgage rate of the U.S. and regional composite mortgage survey for residential loans without fees or points. Principal and interest are paid ratably primarily through payroll deductions. At December 31, 2023, participant loans had maturities through 2029 at interest rates ranging from 2.5% to 9.5%.

Payment of Benefits—On termination of service, a participant may receive a lump-sum amount equal to the value of his or her account, or may choose to withdraw a portion of the account without proving financial hardship. Upon death, disability, or retirement, besides a lump-sum distribution, a participant may receive his or her account balance in installments as provided by the Plan.

Participants are also eligible to make hardship withdrawals from their deferred contributions in the event of certain financial hardships.

2. SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting—The accompanying financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America (GAAP).

Use of Estimates—The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Risks and Uncertainties—The Plan provides various investment options to its participants. Investment securities are exposed to various risks such as interest rate risk, credit risk, and overall market volatility. Market risks include global events which could impact the value of investment securities, such as a pandemic or international conflict. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the value of participants' account balances and the amounts reported in the financial statements.

Investment Valuation and Income Recognition—The Plan's investments are stated at fair value (except for the fully benefit responsive investment contract which is reported at contract value). Fair value of a financial instrument is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion on fair value measurements.

As required under U.S. GAAP, the Plan's investment in a stable value fund with underlying investments in a fully benefit-responsive investment contract is presented in the statements of net assets available for benefits at contract value. The statement of changes in net assets available for benefits with respect to such contract is also presented on a contract value basis. See Note 4 for discussion on investments at contract value.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants—Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are recorded as distributions based on the terms of the Plan document.

Contributions – Employee contributions, employer matching contributions, and employer discretionary retirement contributions are recorded when withheld.

Administrative Expenses—An annual amount of \$20, which is paid quarterly from participant accounts, is applied toward direct administrative costs. The remaining administrative expenses are paid by the participating employers.

All investment management and transaction fees directly related to the Plan investments are paid by the Plan. Management fees and operating expenses charged to the Plan for investments are deducted from income earned on a daily basis and are not separately reflected. Consequently, management fees and operating expenses are reflected as a reduction of investment return for such investments.

Payment of Benefits—Benefit payments to participants are recorded upon distribution. There were no significant amounts allocated to accounts of persons who have elected to withdraw from the Plan but have not yet been paid at December 31, 2023 and 2022.

Excess Contributions Payable—The Plan is required to return contributions received during the Plan year in excess of the IRC limits. There were no excess contributions received during the year ended December 31, 2023.

Subsequent Events—Subsequent events were evaluated through July 26, 2024, the date the financial statements were available to be issued. No events occurred that require additional disclosure or adjustments to the Plan's financial statements.

3. FAIR VALUE MEASUREMENTS

Accounting Standards Codification Topic 820, *Fair Value Measurements and Disclosures*, provides a framework for measuring fair value. Fair value of a financial instrument is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value, as follows: Level 1, which refers to securities valued using unadjusted quoted prices from active markets for identical assets; Level 2, which refers to securities not traded on an active market but for which observable market inputs are readily available; and Level 3, which refers to securities valued based on significant unobservable inputs. Assets are classified in their entirety based on the lowest level of input that is significant to the fair value measurement.

Asset Valuation Techniques—Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs. The following is a description of the valuation methodologies used for assets measured at fair value.

Registered Investment Companies—Valued at the daily closing price as reported by the fund. Registered investment companies held by the Plan are open-ended mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Collective Trust Funds—Valued at the net asset value as provided by the investment fund’s trustee. The net asset value is used as a practical expedient to estimate fair value. The net asset value is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported net asset value. Participant transactions (purchases and sales) may occur daily. Were the Plan to initiate a full redemption of the collective trust, the investment advisor reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner. There are no unfunded commitments or redemption restrictions at December 31, 2023 and 2022.

The following tables set forth by level within the fair value hierarchy present a summary of the Plan’s investments measured at fair value on a recurring basis at December 31, 2023 and 2022:

	Active Markets for Identical Assets (Level 1)	Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	2023 Total

Investments measured at NAV				<u>5,054,447,720</u>
Total investments				<u>\$ 5,237,872,106</u>

	Active Markets for Identical Assets (Level 1)	Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	2022 Total
Registered investment companies	<u>\$ 472,173,904</u>	<u>\$ -</u>	<u>\$ -</u>	\$ 472,173,904
Investments measured at NAV				<u>4,157,768,375</u>
Total investments				<u>\$4,629,942,279</u>

4. INVESTMENTS AT CONTRACT VALUE

During the year ended December 31, 2023, the Plan introduced a new stable value investment option referred to as the “Voya Enhanced Intermediate Stable Value Fund,” a group annuity contract with Voya Retirement Insurance and Annuity Company (VRIAC). The contract meets the fully benefit-responsive investment contract criteria and therefore is reported at contract value. Fully benefit-responsive investment contracts provide a liquidity guarantee by a financially responsible third party of principal and accrued interest for liquidations, transfers, loans, or hardship withdrawals under the terms of the plan, as long as the plan allows participants reasonable access to their funds. Contract value is the relevant measure for fully benefit-responsive investment contracts because this is the amount received by participants if they were to initiate permitted transactions under the terms of the Plan. Contract value represents contributions made under each contract, plus earnings, less participant withdrawals, and administrative expenses. This contract is designed to provide a guaranteed rate of return with crediting interest rates that reset on a quarterly basis. The crediting interest rate was 5.08% at December 31, 2023.

Deposits made by the Plan to the contract are maintained in an account separate from VRIAC’s general investment account thereby insulating the account from liability arising out of other business activities conducted by VRIAC. The separate account invests in a diversified portfolio of fixed income securities, including corporate, mortgage backed, and government and agency bonds and may include derivative instruments. At December 31, 2023, the contract value of the Plan’s investment in the contract was \$196,699,450.

The Plan’s ability to receive amounts due in accordance with fully benefit-responsive investment contracts is dependent on the third-party issuer’s ability to meet its financial obligations. The issuer’s ability to meet its contractual obligations may be affected by future economic and regulatory developments.

Certain events might limit the ability of the Plan to transact at contract value with the contract issuer. These events may be different under each contract. Examples of such events include the following:

1. Plan termination or merger;
2. Premature termination of the contract;
3. Determination by IRS that the Plan no longer meets Code Section 401(a),

4. Bankruptcy of the plan sponsor or other plan sponsor events that significantly affect the Plan's normal operations;
5. Bankruptcy of VRIAC, the contract issuer to the investment contract.

In addition, certain events allow the issuer to terminate the contracts with the Plan and settle at an amount different from contract value. Those events may be different under each contract. Examples of such events include the following:

1. An uncured violation of the Plan's investment guidelines
2. A breach of material obligation under the contract
3. A material misrepresentation
4. A material amendment to the agreements without the consent of the issuer.

None of the above conditions were present as of the date of these financial statements.

The Plan administrator does not believe that any events that would limit the Plan's ability to transact at contract value with the Plan participants are probable of occurring.

5. PLAN TERMINATION

Although the participating employers and Plan Sponsor have not expressed any intention to do so, they have the right under the Plan to discontinue their contributions at any time and to terminate the Plan subject to provisions of ERISA. In the event of a plan termination, all participants will remain 100% vested in their accounts.

6. FEDERAL INCOME TAX STATUS

Effective January 1, 2020, the Plan adopted a prototype plan document sponsored by FIS Business Systems LLC. FIS Business Systems LLC received an opinion letter dated March 31, 2014 in which the IRS states that the prototype plan document satisfies applicable provisions of the IRC. In addition, the opinion letter stated that an employer who adopts this prototype plan may rely on the prototype plan opinion letter with respect to the qualification of its plan under the IRC. The Plan itself has not received a determination letter from the IRS. However, the Plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

7. EXEMPT PARTY-IN-INTEREST TRANSACTIONS

The Plan issues loans to participants, which are secured by the vested balances in the participants' accounts.
