Independent Auditor's Report

**To the Plan Trustees
Parametrix, Inc. Employee Stock Ownership Plan
Puyallup, Washington**

Opinion

We have audited the financial statements of Parametrix, Inc. Employee Stock Ownership Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets available for benefits as of January 5, 2024 and December 30, 2022 and the related statement of changes in net assets available for benefits for the plan year ended January 5, 2024, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets available for benefits of the Plan as of January 5, 2024 and December 30, 2022, and the changes in its net assets available for benefits for the plan year ended January 5, 2024, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (U.S. GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for within one year after the date that the financial statements are issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with U.S. GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with U.S. GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter - Supplemental Schedules Required by ERISA

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplementary information, as listed in the accompanying table of contents, is presented for purposes of additional analysis and is not a required part of the financial statements but is required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with U.S. GAAS.

In forming our opinion on the supplementary information, we evaluated whether the supplementary information, including its form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying supplementary information is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

PARAMETRIX, INC. EMPLOYEE STOCK OWNERSHIP PLAN

Notes to Financial Statements For the Plan Year Ended January 5, 2024

Note 1 - Description of Plan

The following description of the Parametrix, Inc. Employee Stock Ownership Plan (the Plan) provides general information only. Participants should refer to the plan document for complete information regarding the Plan's definitions, benefits, eligibility and other matters.

General - On January 1, 1992, the Plan was established by Parametrix, Inc. (the Company) to provide retirement benefits to eligible employees. The Plan is designed to comply with Section 4975(e)(7) and the regulations thereunder of the Internal Revenue Code of 1986, as amended (IRC), and is subject to the applicable provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

From time to time, the Plan has purchased common stock of the Company using the proceeds of borrowings from the Company and holds the shares in a trust established under the Plan. The borrowings are repaid by fully deductible Company contributions to the trust fund. As the Plan makes each payment of principal, an appropriate percentage of stock is allocated to eligible employees' accounts in accordance with applicable regulations under the IRC. The lender has no rights against the shares once they are allocated under the Plan. There were no outstanding borrowings and all shares were fully allocated to participants as of January 5, 2024 and December 30, 2022.

Eligibility and Participation - Employees who are not covered under collective bargaining agreements and are at least 18 years of age, are generally eligible to participate in the Plan after one year of service, providing they work at least 250 hours during such Plan year. Participants who do not have at least 250 hours of service or who are not employed on the last working day of the plan year are generally not eligible to receive an allocation of the employer contributions for that plan year.

Employer Contributions - Contributions are at the discretion of the Company's Board of Directors, provided that such contributions are limited to amounts that are deductible to the Company under the IRC. Contributions can be paid in cash or in shares of Company common stock, as determined by the Company's Board of Directors. The Company made contributions of cash in the amount of \$4,741,699 and 17,578 shares of Company common stock valued at \$4,758,301 for the plan year ended January 5, 2024. Contributions are allocated among the active participants in the ratio that each participant's eligible compensation bears to the total eligible compensation for the plan year.

Contributions are subject to certain IRC limitations.

Participant Accounts - Each participant's account is credited with an allocations of the Company's nonelective contributions (if any) and plan earnings. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting - Vesting in the Company's contribution portion of participant accounts is based on years of continuous service. A participant is 100% vested after six years of credited service.

PARAMETRIX, INC. EMPLOYEE STOCK OWNERSHIP PLAN

Notes to Financial Statements For the Plan Year Ended January 5, 2024

Note 1 - Continued

Forfeitures - Nonvested benefits are subject to forfeiture after five consecutive breaks in service. Forfeitures are allocated among the active participants in the ratio that each participant's compensation for the plan year bears to the total compensation of all active participants for the plan year. At January 5, 2024 and December 30, 2022, there were \$1,934,293 and \$2,320,169 of unallocated forfeitures, respectively. Forfeitures in the amount of \$1,063,149 were allocated to participants for the plan year ended January 5, 2024.

Payment of Benefits - Distributions on account of death, disability, or retirement are made in a lump sum in the Plan year following the event. Distributions to terminated participants with account balances below \$50,000 are made in a lump sum the Plan year following termination. Distributions for other separations from service commence in the second Plan year following the separation from service and are made in three annual installments. The amount to be distributed is based upon the immediately preceding valuation date. Distributions are made in cash or in the form of Company common stock plus cash for any fractional share of common stock. Under the provisions of the Plan, the Company is obligated to repurchase participant shares, which have been distributed under the terms of the Plan if the shares are not publicly traded or if the shares are subject to trading limitations.

Voting Rights - Each participant is entitled to exercise voting rights attributable to the shares allocated to their account and is notified by the trustees prior to the time that such rights are to be exercised. Any allocated shares to which voting instructions are not received from a participant and any unallocated shares of the Company common stock will be voted by the trustees.

Dividends - Cash dividends on allocated shares may be allocated to participants' accounts or paid in cash directly to participants. No cash dividends were accrued or paid during the plan year ended January 5, 2024.

Put Option - Under federal income tax regulations, the employer stock that is held by the Plan and its participants and is not readily tradable on an established market, or is subject to trading limitations, includes a put option. The put option is a right to demand that the Company buy any shares of its stock distributed to participants for which there is no market. The put price is representative of the current appraised value of the stock. The Company can pay for the purchase with interest over a period of five years. The purpose of the put option is to ensure that the participant has the ability to ultimately obtain cash.

Note 2 - Significant Accounting Policies

Basis of Accounting - The accompanying financial statements are prepared on the accrual basis of accounting.

Use of Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America (U.S. GAAP) requires management to make estimates and assumptions that affect the reported amount of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Plan Year - The plan year is a 52 to 53 week period ending on the Friday closest to December 31.

Investment Valuation and Income Recognition - The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

PARAMETRIX, INC. EMPLOYEE STOCK OWNERSHIP PLAN

Notes to Financial Statements For the Plan Year Ended January 5, 2024

Note 2 - Continued

Purchases and sales are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation or depreciation in the fair value of investments includes the Plan's gains and losses on investments bought and sold as well as held during the plan year.

Payment of Benefits - Benefit payments are recorded when paid.

Administrative Expenses - Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Company. Expenses that are paid by the Company are excluded from these financial statements. Administrative fees paid by the Plan consist of recordkeeping, valuation services, audit fees, and bank fees.

Subsequent Events - The Plan's management has evaluated subsequent events through July 23, 2024, the date on which the Plan's financial statements were available to be issued.

Note 3 - Fair Value Measurements and Plan Investments

U.S. GAAP establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3).

The three levels of the fair value hierarchy are described as follows:

Level 1 - Unadjusted quoted prices available in active markets for identical assets or liabilities;

Level 2 - Inputs other than Level 1 that are observable, either directly or indirectly, such as quoted prices in active markets for similar assets or liabilities, quoted prices for identical or similar assets or liabilities in markets that are not active, or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities; or

Level 3 - Unobservable inputs that are significant to the fair value measurement.

A financial instrument's level within the fair value hierarchy is based upon the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at January 5, 2024 and December 30, 2022.

Cash and Cash Equivalents - The carrying value approximates fair value.

Common Stock of Parametrix, Inc. - Independent appraisals of the fair value of the Company's common stock were obtained as of January 5, 2024 and December 30, 2022. The appraisals were based upon a weighted average using the income approach and market approach. The appraisals indicated estimated fair values of \$270.70 and \$242.13 per share as of January 5, 2024 and December 30, 2022, respectively.

PARAMETRIX, INC. EMPLOYEE STOCK OWNERSHIP PLAN

Notes to Financial Statements For the Plan Year Ended January 5, 2024

Note 3 - Continued

The valuation methodologies used by the Plan may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan's management believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of:

	Fair Value Measurements as of January 5, 2024			
	Level 1	Level 2	Level 3	Total

	<u>\$ 958,376</u>	<u>\$ -</u>	<u>\$ 124,032,545</u>	<u>\$ 124,990,921</u>

A reconciliation of the beginning and ending balances of the Parametrix, Inc. common stock which is valued using significant unobservable inputs (Level 3) is as follows:

	Shares	Cost	Fair Value
Beginning balance, December 30, 2022	512,256	\$ 40,186,254	\$ 124,032,545
Distribution of stock	(16,174)	(1,268,843)	(3,916,185)
Contribution of stock	17,578	4,758,301	4,758,301
Net appreciation in fair value of stock			14,173,101
Ending Balance, January 5, 2024	<u>513,660</u>	<u>\$ 43,675,712</u>	<u>\$ 139,047,762</u>

The fair value of the Company common stock was determined by the trustees in consultation with an independent appraiser engaged to perform an annual appraisal. This appraisal was based on a combination of the market and income valuation approaches consistent with prior years. The appraiser took into account unobservable inputs such as historical and projected cash flow and net earnings, weighted average cost of capital, market comparables and applicable discounts and premiums.

PARAMETRIX, INC. EMPLOYEE STOCK OWNERSHIP PLAN

Notes to Financial Statements For the Plan Year Ended January 5, 2024

Note 3 - Continued

In the event of a purchase or sale of Company stock by the Trust on an interim basis, the trustees will determine the fair value in consultation with an independent appraiser at the relevant transaction date(s). During the plan year ended January 5, 2024, the Plan distributed approximately 16,174 shares of Parametrix, Inc. common stock to participants. The Company purchased the shares directly from the participants at \$242.13 per share.

The Plan trustees assess the annual valuation process and results of the annual and interim third party appraisals prior to rendering a final opinion on the fair value of the stock. This includes an assessment of fair value measurement policies and procedures to determine if current valuation techniques are still appropriate, and an evaluation of unobservable inputs used in the fair value measurement based on current market conditions and other third-party information.

Note 4 - Administration of Plan Assets

Although certain administrative functions are performed by officers or employees of the Company, no such officer or employee receives compensation from the Plan. All other administrative expenses incurred by the Plan are paid directly by the Company with reimbursement received from the Plan at the Company's discretion. Total administrative expenses were \$74,793 for the plan year ended January 5, 2024.

Note 5 - Repurchase Obligation

In accordance with applicable federal income tax regulations, the Plan and/or the Company is expected to honor the rights of certain participants to diversify their account balances or to repurchase their stock in the event of employment termination. The price of the stock is based on the current estimated fair value of the Company's stock at the time the stock is purchased. Terminated participants with account balances below \$50,000 will be repurchased in the year following termination and terminated participants with account balances greater than \$50,000 will be repurchased in three substantially equal installments beginning the second year after separation. Repurchases for retirement, death, or disability will occur in the year following separation. Shares repurchased by the Plan are allocated among the active participants in the ratio that each participant's cash balance bears to the total cash as of the allocation date. Terminated participant vested accounts may be segregated into investments other than Company common stock within the Trust.

During the plan year ended January 5, 2024, \$8,449,854 in cash and shares were distributed to terminated and diversifying participants. Of this amount, the Company repurchased 16,174 shares directly from participants totaling \$3,916,185. The value of the Plan's obligation for repurchases of terminated employees' stock as of January 5, 2024 and December 30, 2022, approximated \$15,387,000 and \$5,914,000, respectively.

Note 6 - Diversification

Diversification is offered to participants close to retirement so that they may have the opportunity to move part of the value of their investment in Company common stock into investments that are more diversified. Participants who have attained age 55 and completed at least ten years of participation in the Plan may elect to diversify a portion of their account balance during an election period of six consecutive plan years. For each of the first five plan years in the election period, the participant may elect to diversify up to a cumulative total of 25% of the number of shares of Company stock then allocated to their account. In the sixth year of the election period the participant may elect to diversify up to a cumulative total of 50% of the number of shares of Company stock then allocated to their account.

PARAMETRIX, INC. EMPLOYEE STOCK OWNERSHIP PLAN

Notes to Financial Statements For the Plan Year Ended January 5, 2024

Note 6 - Continued

Diversification distributions may be in the form of a lump sum distribution or a rollover to the Company's 401(k) plan or a qualified individual retirement account. At January 5, 2024 and December 30, 2022, participant account balances eligible for diversification totaled \$5,096,708 and \$6,670,497, respectively. Diversification distributions in the amount of \$1,350,767 are included in distributions to participants for the plan year ended January 5, 2024.

The Plan has an early diversification provision which gives participants with at least seven years of service the ability to diversify up to 10% of their investment in Parametrix, Inc. common stock. No early diversification distributions were authorized for the plan year ended January 5, 2024.

Note 7 - Related Party and Party-in-Interest Transactions

The Plan invests in Company common stock. Transactions involving Company common stock are related party and party in interest transactions. The Plan has a number of service providers. Such providers are parties in interest under ERISA.

Note 8 - Tax Status

The Plan has received a determination letter from the IRS dated September 19, 2022, stating that the Plan is qualified under the IRC and, therefore, the related trust is exempt from taxation. Once qualified, the Plan is required to operate in conformity with the IRC to maintain its qualification. The Plan has been amended since receiving the determination letter. However, the Plan administrator believes that the Plan is currently designed, and being operated, in compliance with the applicable requirements of the IRC. Therefore, they believe that the Plan was qualified, and the related trust was tax-exempt as of the financial statement date.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability if the organization has taken a significant uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 9 - Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. If the Plan is terminated, participants would become 100% vested in their employer contributions.

Note 10 - Risks and Uncertainties

The Plan investments consist primarily of the Company's common stock, which is exposed to various risks, such as interest rate, market, and credit risks, as well as valuation assumptions based on earnings, cash flows, and other such techniques. Due to the level of risk associated with the investment in the common stock and to uncertainties inherent in estimates and assumptions, it is at least reasonably possible that changes in the value of the common stock will occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets available for benefits.
