Report of Independent Auditors

To the Administrator of Columbia University Voluntary Retirement Savings Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We were engaged to perform an audit of the financial statements of Columbia University Voluntary Retirement Savings Plan (the “Plan”), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2023 and 2022, and the related statement of changes in net assets available for benefits for the year ended December 31, 2023, including the related notes (collectively referred to as the “financial statements”).

Management, having determined it is permissible in the circumstances, has elected to have the audit of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audit need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from qualified institutions as of December 31, 2023 and 2022 and for the year ended December 31, 2023, stating that the certified investment information, as described in Note 4 to the financial statements, is complete and accurate.

Disclaimer of Opinion

We do not express an opinion on the accompanying financial statements of the Plan. Because of the significance of the matter described in the Basis for Disclaimer of Opinion section of our report, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion on these financial statements.

Basis for Disclaimer of Opinion

The Plan sponsor's accounting records for contracts and custodial accounts issued to current or former employees prior to January 1, 2009 do not provide sufficient evidence supporting investments, benefit payments, investment income and net assets available for benefits to permit the application of adequate auditing procedures.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the Financial Statements

Our responsibility is to conduct an audit of the Plan's financial statements in accordance with auditing standards generally accepted in the United States of America and to issue an auditors' report. However, because of the matter described in the Basis for Disclaimer of Opinion section of our report, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion on these financial statements.

We are required to be independent of the Plan, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit.

Supplemental Schedule Required by ERISA

Schedule H, Part IV, Line 4i - Schedule of Assets (Held at End of Year) as of December 31, 2023 ("supplemental schedule"), is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. Because of the significance of the matter described in the Basis for Disclaimer of Opinion section of our report, it is inappropriate to and we do not express an opinion on this supplemental schedule.

Columbia University Voluntary Retirement Savings Plan

Notes to Financial Statements

December 31, 2023 and 2022

1. Plan Description

The following description of the Columbia University Voluntary Savings Retirement Plan (the "Plan") is provided for general information purposes only. Participants should refer to the Plan Document for more complete information.

General

The Plan was established to provide retirement income benefits to eligible employees of the Columbia University (the "University") and their beneficiaries. The University is the Plan Sponsor and Administrator. Eligible employee means any employee of the University or an affiliated employer, and is defined as any employee (whether full-time or part-time) who is paid directly from the University payroll and who receives an Internal Revenue Service ("IRS") Form W-2 from the University, except i) a nonresident alien who does not receive earned income from the University, i.e., income from sources within the United States, or ii) a nonresident alien who does receive earned income from the University but all of the earned income from the University is exempt from United States income tax under a tax treaty.

The Plan is funded solely through elective deferrals made by participants, which are held in funding vehicles and invested in investment funds as selected by participants. The assets of the Plan are administered, distributed, forfeited and otherwise governed by the provisions of the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

The Plan includes an automatic enrollment feature for participants who are new hires or rehires post July 1, 2013 and eligible participants under the Retirement Plan for Officers of Columbia University.

Contributions

Subject to the provisions of the Plan, a participant may make elective deferrals to the Plan by completing a Salary Reduction Agreement ("SRA") in such form as determined by the Plan Administrator. This SRA is legally binding and irrevocable with respect to amounts payable while the agreement is in effect but may be changed or terminated with respect to amounts not yet paid, in accordance with the administrative procedures established by the Administrator.

Rollover Contributions

The Plan allows for rollover contributions of balances that plan participants accumulated in non-Columbia University plans. These rollovers are administered by the Plan's service providers and are subject to ERISA rules and regulations.

Vesting of Plan Contributions

A participant is 100% vested in his or her plan contributions once they are made, and the earnings thereon shall be at all times nonforfeitable. This does not limit the deduction from a participant's account of such fees and charges that may be imposed by the insurance companies or custodian of the Plan, or other plan expense charges which may be charged to the account under applicable law, the removal of plan contributions made under a Mistake of Fact form, or the University's right to reallocate contributions or earnings which were incorrectly allocated to any account.

Benefit Payments

Benefit payments take place in the form of withdrawals of lump sums or annuity payments as allowed by the investment option. A participant may commence distributions from his or her account at any time following termination of employment due to retirement, death, disability, resignation or dismissal. Retirement is generally at age 65, but a phased retirement agreement is available at age 55. Distributions during employment can also occur due to hardship, withdrawals at age 59 and a half or qualified military withdrawals.

Administration

The general administration of the Plan and the responsibility for carrying out the Plan's provisions are performed by the Vice President for Human Resources of the University.

Investment Options and Participant Accounts

Participants direct the investment of their account balance into various investment options offered by the Plan and may change their investment options at any time, subject to the terms of the service provider agreements governing the investment options.

Plan investments are managed under the terms of agreements between the University and the Teachers Insurance and Annuity Association ("TIAA") and College Retirement Equities Fund ("CREF") (collectively, "TIAA-CREF"), who serve as insurance companies, and Vanguard Fiduciary Trust Company ("Vanguard"), who serves as custodian. Participants may elect to allocate contributions among the TIAA Traditional Annuities, TIAA Real Estate, CREF and TIAA-CREF registered investment companies, and the Vanguard and Calvert Trust Company ("Calvert") registered investment companies. The allocations may be in any whole number or percentage proportion, including full allocation to any annuity or account. Each participant's account is credited with the employee contribution and charged with an allocation of administrative expenses and Plan earnings (losses). Allocations are based on participant earnings or account balances, as defined. Effective June 1, 2022, participants may also direct the investment of their accounts into mutual funds via a self-directed brokerage account with either TIAA-CREF or Vanguard.

The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Teachers Insurance and Annuity Association

Participants can choose from a series of annuity investment options. Refer to the TIAA prospectuses for detailed descriptions of the investment options. TIAA is a legal reserve life insurance and annuity company.

The TIAA traditional annuity contracts are guaranteed insurance contracts. Contributions to the TIAA Traditional Annuities are used to purchase a guaranteed amount of future retirement benefits. TIAA provides to participants fixed dollar annuities, which are considered unallocated contracts.

Until September 2017, TIAA Traditional Annuities were offered through the Retirement Annuity ("RA") and Group Supplemental Retirement Annuity ("GSRA") contracts. The TIAA Traditional Annuity holdings within the RA contracts have liquidity restrictions and distributions and withdrawals from these contracts can only be made in 10 annual installments through Transfer Payout Annuities and are considered "nonbenefit responsive". As of September 2017, TIAA Traditional Annuities are offered through GSRA and Retirement Choice Plus ("RCP") contracts for all newly invested funds. The TIAA Traditional Annuity holdings within the GSRA and RCP contracts contain no liquidity restrictions and are considered "benefit responsive".

TIAA Traditional Annuities within the RCP contracts are also used as the investment vehicle for the Revenue Credit Account (refer to Other Revenue in Note 2) through the RCP contract, and as such, these contracts are considered non-participant directed.

The TIAA Real Estate Account is a pooled separate account investing mostly in real estate and real estate related investments.

December 31, 2023 and 2022

Other Annuity Contracts

Participants can choose the NYL Guaranteed Interest Account ("NYL GIA"), a group annuity contract offered by New York Life, ("NYL") a mutual life insurance company. Participant contributions are used to purchase a contract with a guaranteed principal that credits a fixed rate of interest for a specific period of time. New York life provides participants with fixed dollar annuities, which are considered unallocated contracts.

The group annuity contract may be terminated by the contract holder at any time, provided written notice of terminations is received by NYL at least 30 days but not more than 60 days prior to the intended termination date. At contract termination, the Plan may elect to receive either an immediate lump sum distribution subject to a market value adjustment or receive a contract value distribution in 6 annual installments over a period of 5 years. The NYL GIA is considered to be benefit responsive and as such is reported at contract value.

College Retirement Equities Fund – Variable Annuities

Participants have a choice of eight variable annuities to which they can direct their investments. Refer to the CREF prospectuses for detailed descriptions of the investment options.

Upon retirement, investments in the TIAA Real Estate Account and the CREF variable annuities may remain in each or be invested in the Traditional Annuities.

Teachers Insurance and Annuity Association–College Retirement Equities Fund – Institutional Mutual Funds

Participants have a choice of various TIAA-CREF Institutional Mutual Funds to which they can direct their investments. TIAA-CREF Institutional Mutual Funds are not eligible to be annuitized by TIAA.

Vanguard Fiduciary Trust Company – Mutual Funds

Participants have a choice of a variety of mutual funds to which they can direct their investments. Refer to the Vanguard prospectuses for detailed descriptions of the investment options.

Calvert Trust Company – Mutual Funds

Participants have a choice of a variety of mutual funds to which they can direct their investments. Refer to the Calvert prospectuses for detailed descriptions of the investment options.

Self-Directed Brokerage Accounts – Mutual Funds

Participants may invest in mutual funds via the self-directed brokerage options offered through both TIAA-CREF and Vanguard.

TIAA Plan Loans

Plan loans were available to participants from funds owned by TIAA through December 31, 2018 and were therefore not included in Plan assets. Participants who took a Plan loan must enter 110% of the loan amount into the TIAA Traditional GSRA Annuity as collateral. Although plan loans made from TIAA funds are not considered plan assets, the participant's balances held in TIAA Traditional GSRA Annuity as collateral for the Plan loans are plan assets. The minimum loan amount was \$1,000 with a maximum amount of \$50,000 or 45% of a participant's account balance, whichever was less. The maximum term of a plan loan was 5 years or 10 years if the loan was for the purchase of a principal residence with the longest-term Plan loan maturing December 2029. Interest is paid by the participant to TIAA with rates ranging from 3.89% to 7.88% during the year ended December 31, 2023. Plan loans of \$2,031,344 and \$2,781,493 were outstanding at December 31, 2023 and 2022, respectively. Were a plan loan to go into default, the collateral

Columbia University Voluntary Retirement Savings Plan

Notes to Financial Statements

associated with the loan would not be distributed to TIAA unless the participant was otherwise eligible for a distribution.

Participant Loans

The participant loan amount is taken from the participants' available vested amounts of the funds in which the account is invested with either TIAA or Vanguard. Per IRS requirements, the maximum amount that a participant can borrow when added to any outstanding loan balances cannot exceed the lesser of:

- \$50,000, reduced by the excess, if any, of the highest outstanding loan balance from the plan during the one-year period ending on the day before the date of the new loan over the current outstanding loan balance as of the date of the new loan; or
- 50% of the vested account balance as of the date the loan is made. At the time the loan is made, up to 50% of the vested account balance will be considered security for the loan.

The Plan has an option to charge a one-time loan application fee which will be deducted from participants' loan proceeds. The Plan also has the option to charge an annual maintenance fee that will be automatically deducted from the participants' account balance. For both TIAA and Vanguard, the maximum term of a participant loan (other than primary residence) is 5 years, with 10 years for a loan for a primary residence. The longest-term participant loan matures in December 2033. The loan interest rate and the procedure for determining the loan interest rate is subject to change and at the discretion of the Plan Administrator, which range from 4.25% to 9.5% during the year ended December 31, 2023. The interest is credited back to the account upon repayment of the loan. As of December 31, 2023 and 2022, outstanding TIAA participant loans were \$9,948,680 and \$9,372,410, respectively. As of December 31, 2023 and 2022, outstanding Vanguard participant loans were \$6,762,443 and \$5,667,620, respectively. The total of \$16,711,123 and \$15,040,030 as of December 31, 2023 and 2022, respectively, is reflected as notes receivable from participants on the statements of net assets available for benefits.

2. Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements are prepared on the accrual basis of accounting and in conformity with accounting principles generally accepted in the United States of America.

Investment Valuation and Income Recognition

Investments in registered investment companies, the pooled separate account and variable annuities are stated at fair value based on the net asset value on the last day of the plan year. The Trustees of the University Retirement Trust determine the Plan's valuation policies utilizing information provided by the investment advisors, custodians and insurance companies. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

Shares of registered investment company mutual funds and institutional mutual funds, variable annuities and the pooled separate account are reported at quoted market prices, which represent the net asset value (NAV) of shares held by the Plan at year end. NAV, calculated daily, is applied to daily purchase and sale transactions in addition to being used to determine ending market values. Accumulation units for variable annuities and the TIAA real estate pooled separate account are recorded at fair value at the NAV of units held by the Plan at year end.

Columbia University Voluntary Retirement Savings Plan

Notes to Financial Statements

December 31, 2023 and 2022

Annuity contracts are valued at the amount that would be received by the participant at the reporting date if the amounts were withdrawn or funds transferred within the Plan prior to maturity. Annuity contracts may be deemed to be benefit responsive and carried at contract value or non-benefit responsive and carried at fair value. Contract value is the aggregation of contributions, plus interest, less withdrawals and expenses, if any.

The TIAA Traditional Annuity RA contract is non-benefit responsive and reported at contract value which approximates fair value. Contract value approximates a discounted cash flow value calculated using an appropriate risk-adjusted market discount rate which correlates closely with TIAA Traditional Annuity's historical crediting rates. At December 31, 2023 and 2022, the balance of the RA contracts was \$72,644,016 and \$76,543,308, respectively.

The GSRA and RCP contracts are fully benefit responsive and reported at contract value. Contract value is the relevant measure for fully benefit responsive investment contracts because this is the amount received by participants if they were to initiate permitted transactions under the terms of the Plan. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. At December 31, 2023 and 2022, the balance of the participant directed GSRA contracts was \$371,655,914 and \$396,255,582, respectively, and the RCP contracts was \$129,218,843 and \$105,584,532, respectively, totaling \$500,874,757 and \$501,840,114, respectively.

The TIAA traditional annuity guarantees principal and pays a guaranteed minimum interest, which was 3% during 2023. Additional amounts above the guaranteed minimum interest rate may be declared at the discretion of the TIAA Board of Trustees on a year-by-year basis. When declared, the additional amounts remain in effect for the declaration year that begins each March 1 and are not guaranteed for future years. Together the guaranteed minimum and additional amounts make up the crediting rate in the accumulation phase. TIAA groups premium dollars received over defined periods into vintages for the purposes of determining the crediting rate for applicable declaration year during the accumulation period. During the year ended December 31, 2023, the average crediting rates for the GSRA contract was 3.89%, the average crediting rates for the RA contract was 4.81% and the average crediting rates for the RCP contract was 4.34%.

NYL GIA contracts are valued at contract value, which is the amount that will be received by participants if they were to initiate permitted transactions under the terms of the Plan. With certain restrictions participants may deposit, withdraw and transfer their balances to other investment options daily at contract value. At December 31, 2023 and 2022, the balance of NYL GIA was \$1,368,955 and \$1,674,453, respectively.

The NYL GIA guarantees principal and pays a fixed interest over a six-month period. The crediting rate resets every January 1 and July 1. The Minimum Interest Rate is equal to the lesser of (a) 3.00%; and (b) a rate that is not less than 1.00% and determined by using an adjusted average of the five-year Constant Maturity Treasury Rate as reported by the Federal Reserve for the six months period ending two months prior to the Reset date. The average crediting rate was 3.60% during the year ended December 31, 2023.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded as earned. Dividends are recorded on the ex-dividend date, or as soon as the investment advisor is informed of the ex-dividend date.

Net appreciation (depreciation) in the fair value of investments consists of the realized gains or losses and the unrealized appreciation or depreciation on those investments.

Notes to Financial Statements

December 31, 2023 and 2022

Benefits to Participants

Benefits to participants are recorded when paid.

Administrative Expenses

Administrative expenses directly related to the Plan, which consist primarily of fees for audit services, education, and preparation of participant related communication materials, are paid by the Plan from the Revenue Credit Account (refer to Other Revenue section of this Note), a component of net assets available for benefits. Certain other administrative expenses paid by the University (primarily production/ mailing costs) are not reflected in the Plan's financial statements.

Other Revenue

Other revenue represents a negotiated agreement with TIAA-CREF with specific allocation methods for revenue sharing to the Plan. The credit will be deposited into the Revenue Credit Account as defined by the Plan and may only be used either to pay direct, reasonable and necessary expenses of the Plan for which the Plan is authorized to pay or to provide benefits for Plan participants and beneficiaries. Other revenue related to this agreement amounted to \$1,773,882 for the year ended December 31, 2023.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities at the dates of the financial statements. Actual results could differ from those estimates and such differences could be material.

Risk and Uncertainties

The Plan provides for various investment options in investment securities. Investments are exposed to various risks, such as interest rate, market, and credit risks. Market values of investments can decline for a number of reasons, including changes in prevailing market and interest rates, increased market volatility due to the global pandemic, international conflict, inflationary pressure, increases in defaults, and credit rating downgrades. Due to the level of risk associated with certain investments, it is at least reasonably possible that changes in the values of investments will occur in the near term and that such changes could materially affect participants' accounts balances and the amounts reported in the statement of net assets available for benefits.

Reclassifications

Certain amounts in the 2022 financial statements have been reclassified to conform to the current year's presentation. These reclassifications have no impact on the Plan's total net assets available for benefits or changes in net assets previously reported.

3. Fair Value Measurements

FASB Accounting Standards Codification (“ASC”) 820, *Fair Value Measurement*, establishes a hierarchy of valuation inputs based on the extent to which the inputs are observable in the marketplace. Observable inputs reflect market data obtained from sources independent of the reporting entity and unobservable inputs reflect the entities own assumptions about how market participants would value an asset or liability based on the best information available. Valuation techniques used to measure fair value under ASC 820 utilize relevant observable inputs and minimize the use of unobservable inputs. The standard describes a fair value hierarchy based on three levels of inputs, of which the first two are considered observable and the last unobservable, that may be used to measure fair value.

The following describes the hierarchy of inputs used to measure fair value and the primary valuation methodologies used by the Plan for financial instruments measured at fair value on a recurring basis. A financial instrument’s categorization within the valuation hierarchy is based upon the lowest level of input that is significant to the fair value measurement. The three levels of inputs are as follows:

Level 1 Quoted prices in active markets for identical assets or liabilities.

Level 2 Inputs other than Level 1 that are observable, either directly or indirectly, such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the same term of the assets or liabilities.

Level 3 Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities.

A financial instrument’s categorization within the valuation hierarchy is based on the lowest level of input that is significant to the fair value measurement. In determining the categorization of the Plan’s investments within the fair value hierarchy, the Plan has considered market information, including observable net asset values, and the length of time until the investment will become redeemable. The categorization of a financial instrument within the hierarchy is based upon the pricing transparency of that instrument and does not necessarily correspond to the Plan’s perceived risk of that instrument.

The preceding fair value methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date. There have been no changes in the fair value methods used as of December 31, 2023 and 2022.

- (2) Lifecycle funds are investments that seek high total return over time, through a combination of capital appreciation and income with allocations of investments changing based on a specific retirement date.
- (3) Includes self-directed brokerage accounts that exclusively hold mutual funds, which are reported at quoted market prices and represent the NAV of shares held by the Plan at December 31, 2023 and 2022.

For the year ended December 31, 2023, there were no transfers in or out of Level 3.

The pooled separate account invests in real estate and real estate related investments. Although the underlying assets of the pooled separate accounts cannot be quickly sold and converted to liquid assets, the TIAA general account provides a liquidity guarantee to meet participant redemption, transfer, or cash withdrawal requests varying from one to three days. Redemptions out of the investment are limited to once per quarter. Internal transfers into the TIAA Real Estate Account will be prohibited if the transfer causes the value of the participant's total accumulation in the account to exceed \$150,000. The purpose of this limitation is to ensure more predictable account inflows and outflows, which is expected to facilitate efficient portfolio management over the long-term.

The registered investment company variable annuities invest in equities, global equity, index, other index, fixed income, lifecycle and money market funds. All variable annuities have daily liquidity. Participants will be locked out of the variable annuity for 90 days if a purchase, sale and repurchase within that variable annuity is made within a 60-day period. The funds have different trading terms varying from one to three days.

The Level 3 investment asset consists of the TIAA Traditional Annuity unallocated RA contract, which is nonbenefit responsive and not available for sale or transfer on any securities exchange. Accordingly, transactions in similar investment instruments are not observable, and the investments are valued using unobservable inputs (Level 3). While transactions involving the purchases/sales of individual TIAA Traditional Annuity RA contracts are not observable in a public marketplace, contract value approximates fair value. Purchases, sales, withdrawals, and distributions in and out of these contracts are determined solely by participant decisions and their elections to participate in these contracts.

The following tables present information about significant unobservable inputs related to the Plan's investment in assets categorized as Level 3 at December 31, 2023 and 2022:

4. Information Certified by the Custodian and Insurance Companies

The Plan's management has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. The Plan's assets were held by Vanguard, the custodian and TIAA-CREF, as insurance companies. TIAA has been authorized by its directed custodian to certify the investments and investment information for the TIAA-CREF Institutional Mutual Funds and TIAA-CREF self-directed brokerage accounts. TIAA, FSB, a federal savings association, served as directed trustee and custodian for the TIAA-CREF Institutional Mutual Funds and TIAA-CREF self-directed brokerage accounts through July 14, 2023; after which point, TIAA Trust, N.A., a national trust bank, served as directed trustee and custodian for those funds and accounts through December 31, 2023. Certified information related to investments, at fair value, investments, at contract value, interest and dividends, net appreciation in the fair value of investments and all other related investment information in the accompanying financial statements, notes to the financial statements, other than the leveling provided in Note 3, was obtained by management and agreed to or derived from information certified as complete and accurate by the custodian and insurance companies.

5. Plan Termination

The University has not expressed any intent to discontinue the Plan. However, it is free to do so at any time, subject to the provisions set forth in ERISA. In the event such discontinuance results in the termination of the Plan, participants remain 100% vested in their accounts and, subject to certain restrictions in the unallocated insurance contracts, amounts will be distributed in a lump sum.

6. Related Party and Party-in-Interest Transactions

TIAA-CREF, as insurance companies, and Vanguard, as custodian, are related parties. Investments managed by the insurance companies and custodian qualify as party-in-interest transactions which are exempt from prohibited transaction rules. In addition, the University is a related party and a party-in-interest as it provides certain services for the Plan, and notes receivable from Plan participants qualify as party-in-interest transactions. Currently, the University does not seek reimbursement for such services.

7. Federal Income Tax Status

The Plan has been designed to qualify for tax-exempt status under Section 403(b) of the Internal Revenue Code ("the Code"). The terms of the Plan have been prepared to conform to the sample language provided by the IRS in the draft Listing of Required Modifications issued April 4, 2009. The Plan is required to operate in conformity with the Code to maintain the tax-exempt status for plan participants under Section 403(b). The Plan Administrator believes that the Plan is currently

Notes to Financial Statements

December 31, 2023 and 2022

designed and operating in compliance with tax applicable requirements of Section 403(b) of the Code and, therefore, believes the Plan is qualified and the related custodial accounts and tax-deferred annuities are tax-exempt. Therefore, no provision for income taxes has been included in the Plan's financial statements. Accounting principles generally accepted in the United States of America required plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the organization has taken an uncertain position that more likely would not be sustained upon examination by the relevant tax authorities. The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that, as of December 31, 2023 and 2022, there are no uncertain tax positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes it is no longer subject to income tax examinations for years prior to 2020.

8. Subsequent Events

Subsequent events have been evaluated through July 24, 2024, the date the financial statements were available to be issued. There have been no subsequent events that occurred during this period that would require recognition or disclosure in the financial statements as of December 31, 2023 or for the year then ended.
