PAYCHEX POOLED EMPLOYER 401(k) PLAN

FINANCIAL STATEMENTS (MODIFIED CASH BASIS)

Years Ended December 31, 2022 and 2021

INDEPENDENT AUDITORS' REPORT

To the Pooled Plan Provider
Paychex Pooled Employer 401(k) Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed the audits of the financial statements of the Paychex Pooled Employer 401(k) Plan (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 ("ERISA"), as permitted by ERISA Section 103(a)(3)(C) ("ERISA Section 103(a)(3)(C) audit"). The financial statements comprise the statements of net assets available for benefits (modified cash basis) as of December 31, 2022 and 2021, and the related statements of changes in net assets available for benefits (modified cash basis) for the years then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan ("investment information") by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified by a bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA ("qualified institution").

Management has obtained certifications from a qualified institution as of December 31, 2022 and 2021 and for the years then ended, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditors' Responsibilities for the Audit of the Financial Statements section:

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with the modified cash basis of accounting.
- The information in the accompanying financial statements related to assets held by and certified by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

KRESTON GLOBAL

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America ("GAAS"). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Emphasis of Matter - Basis of Accounting

We draw your attention to Note 2 to the financial statements, which describes the basis of accounting. The financial statements are prepared on the modified cash basis of accounting, which is a basis of accounting other than accounting principles generally accepted in the United States of America. Our opinion is not modified with respect to this matter.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with the modified cash basis of accounting; this includes determining that the modified cash basis of accounting is an acceptable basis for the preparation of the financial statements in the circumstances. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on these financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certifications, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of the modified cash basis of accounting.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with the modified cash basis of accounting.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audits, significant audit findings, and certain internal control-related matters that we identified during the audits.

Other Matter - Supplemental Schedules Required by ERISA

The supplemental schedules (modified cash basis) of assets (held at end of year) as of December 31, 2022 and delinquent participant contributions for the year then ended are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules (modified cash basis), other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedules (modified cash basis) that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules (modified cash basis), we evaluated whether the supplemental schedules (modified cash basis), other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedules (modified cash basis), other than the information in the supplemental schedules (modified cash basis) that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedules (modified cash basis) related to assets held by and certified by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

(1) Description of plan

The following description of the Paychex Pooled Employer 401(k) Plan (the "Plan") provides only general information. Participants should refer to the plan document or summary plan description, both of which are available from the Pooled Plan Provider ("PPP"), and the applicable adoption agreement for the participant's employer, for a more complete description of the Plan's provisions.

General - The Plan is established and administered by Paychex Retirement LLC ("Paychex"), the PPP, effective January 1, 2021. The Plan was established under the provisions of the Setting Every Community Up for Retirement Enhancement Act of 2019 (the "SECURE Act"). The Plan is a defined contribution plan covering eligible employees of participating employers, and is intended to qualify under Internal Revenue Code of 1986, as amended (the "Code") sections 401(a) and 501(a). The Plan is intended to constitute a multiple employer plan, as described under Code sections 410(a), 411, 413, and 415. Each participating employer elects their own provisions related to eligibility, contributions, notes receivable from participants, vesting, and payments of benefits. The Plan is subject to the applicable provisions of the Employee Retirement Income Security Act of 1974, as amended ("ERISA").

The Plan is administered as a pooled employer plan ("PEP"), as defined in section 3(43) of ERISA, in accordance with the requirements of Section 413(e) of the Code, the regulations thereunder, and other applicable authority. A PEP allows numerous unrelated businesses of any size to participate in a single retirement plan that is managed by a PPP who must register as such with the Department of Labor ("DOL") and the Department of Treasury. The PPP is a named fiduciary of a PEP and acts as the plan administrator. The PPP has overall responsibility for the operation and administration of the Plan.

Participating employers in a PEP may have different plan provisions for their respective eligible employees. Accordingly, each adopting employer executes an adoption agreement with terms and conditions specific to such employer. Employees of participating employers who are not excluded by certain provisions in the plan document may enter the Plan on various entry dates coinciding with or following the date on which those employees meet the eligibility requirements as outlined within their respective employer's adoption agreement.

In March 2022, the Securing a Strong Retirement Act of 2022 ("Secure Act 2.0") was signed into law. Under the provisions of the Secure Act 2.0, effective for plan years beginning after December 31, 2024, new 401(k) and 403(b) plans must automatically enroll eligible employees at deferral rates between 3% and 10%, increasing by 1% each year, to a maximum of at least 10%, but no more than 15% of eligible compensation. Although the Plan was established prior to this legislation, under the terms of the Secure Act 2.0, participating employers who join the Plan in 2022 or later are subject to this automatic enrollment provision starting in 2025.

(1) Description of plan (continued)

Plan administration - Paychex has registered with the appropriate regulatory authorities to act as the PPP of the Plan and has retained Paychex Retirement Services, a division of Paychex, Inc. to act as the recordkeeper and third-party administrator of the Plan. Mid Atlantic Trust Company ("Mid Atlantic") serves as the trustee of the Plan. Mesirow Financial Investment Management, Inc. ("MFIM") serves as the investment manager for the Plan. Additionally, participating employers may utilize their own investment advisory firms.

Contributions - Participants may make contributions from their pretax annual compensation, as defined in the plan document, not to exceed annual limitations specified in the Code. Participants may also make Roth 401(k) deferrals if the participating employer has elected this option in the employer's adoption agreement with the Plan, subject to the same annual limitations specified in the Code. Participant contributions are recorded in the year in which the employer transfers payroll deductions from the participants' earnings to the Plan.

Participants may also make rollover contributions to the Plan representing distributions from other qualified defined benefit or contribution plans. Additionally, participants age 50 or older, who are making contributions to the Plan, are allowed to make catch-up contributions, as defined in the plan document. Participants direct the investment of all contributions into various investment options offered by the Plan.

Participating employers may elect auto enrollment and escalation features. Accordingly, if so elected, participating employers will automatically withhold a defined percentage of an eligible participant's compensation based on the terms in the participating employer's adoption agreement, unless the participant affirmatively opts out or elects a different deferral percentage.

Depending on the provisions in each employer's adoption agreement, an employer may make discretionary matching contributions to the Plan on behalf of its deferring employees, or make matching contributions equal to a specified percentage of the amount of employee contributions made by the Plan's participants. Additionally, employers may elect in their respective adoption agreements to make a profit-sharing contribution at an amount determined in accordance with the formula specified in the respective employer's adoption agreement, and/or make safe harbor contributions intended to meet the requirements of Section 401(k)(12) of the Code. Employer contributions, if any, are recorded in the year in which the contributions are made. Employer contributions to the Plan during the years ended December 31, 2022 and 2021 aggregated $57,941,355 and $8,245,067, respectively. All employer contributions are subject to Code limitations.

Participant investment account options - The Plan currently offers various mutual funds and a money market fund as investment options for participants.

(1) Description of plan (continued)

Participant accounts - Each participant's Plan account is credited with the participant's contributions, and allocations of (a) the respective employer's contributions, if any, and, (b) the Plan's investment earnings, and charged with the Plan's investment losses and an allocation and/or a direct charge of administrative expenses. Allocations are based on participant elections and the allocation formula(s) set forth in each employer's adoption agreement. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested Plan account.

Vesting - Participants are immediately vested in their own contributions and any traditional safe harbor contributions made by their employer, plus actual earnings thereon. Other employer contributions made on behalf of participants, and earnings thereon, vest in accordance with the schedule specified in each employer's adoption agreement.

Forfeited accounts - During the years ended December 31, 2022 and 2021, forfeited nonvested accounts totaled approximately $1,158,000 and $89,000, respectively. These accounts may be used to reduce future employer contributions, to pay the Plan's expenses, and/or may be allocated as a nonelective contribution, and must be used by the end of the subsequent year in which the forfeitures occurred. Forfeitures used for these purposes during the years ended December 31, 2022 and 2021 were approximately $577,000 and $0, respectively.

Notes receivable from participants - Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 47.5% of their vested Plan account balance. The notes are secured by the balance in the participant's Plan account and bear interest at the prime rate at the time of the loan plus 1%. Principal and interest are paid ratably through payroll deductions and must be repaid within 4 ½ years, unless the loan is for the purchase of a primary residence, in which case, the repayment period may extend up to 10 years. Participants may not have more than two loans outstanding at any time.

Payment of benefits - On termination of service due to death, disability, retirement, or other reasons, a participant may receive distributions from the Plan in an amount equal to the vested value in the participant's account. These distributions may be in the form of a single or partial lump sum payment, a rollover into another qualified plan or individual retirement account, or in monthly, quarterly, or annual installments subject to the required minimum distribution rules. A participant who attains the age of 59 ½ years may apply for an in-service distribution of any portion of his or her vested balance. Additionally, a participant may receive a "hardship" distribution from the Plan if such distribution qualifies under provisions prescribed by the Internal Revenue Service ("IRS"). Hardship distributions and distributions less than $5,000 are made in the form of a single lump sum payment.

(2) Summary of significant accounting policies

Basis of accounting - The financial statements of the Plan are prepared on the modified cash basis of accounting. Under this method, additions to net assets available for benefits, except for certain investment transactions, are recognized when received rather than when earned, and deductions to net assets available for benefits, except for certain investment transactions, are recognized when paid rather than when the obligation is incurred. Investments are accounted for on a fair value basis. Accordingly, the financial statements are intended to present net assets available for benefits and changes in net assets available for benefits in accordance with the modified cash basis of accounting, which is a basis of accounting other than accounting principles generally accepted in the United States of America.

Use of estimates - The preparation of financial statements in conformity with the modified cash basis of accounting requires management to make estimates and assumptions that affect certain reported amounts of assets and liabilities and changes therein, and disclosures of contingent assets and liabilities. Accordingly, actual results may differ from those estimates.

Investment valuation and income recognition - Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The PPP determines the Plan's valuation policies utilizing information provided by the investment custodian. See Note 4 for discussions of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded as received. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) in fair value of investments includes capital gain distributions earned from mutual funds as well as the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes receivable from participants - Notes receivable from participants are measured at their unpaid principal balance plus accrued but unpaid interest. Interest income on notes receivable from participants is recorded when received. Related fees are recorded as direct charges to participants as administrative expenses and are expensed when paid.

Payment of benefits - Benefits are recorded when paid.

Administrative expenses - Certain expenses of the Plan, including but not limited to audit and trustee fees, are paid by Paychex and are not included on the statements of changes in net assets available for benefits (modified cash basis). Other Plan related expenses, consisting primarily of recordkeeping fees, administrative fees, and other professional fees are paid for by participating employers. Investment advisor fees are paid from the Plan. Expenses paid from the Plan have been recorded as administrative expenses on the statements of changes in net assets available for benefits (modified cash basis). Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are also included in administrative expenses. Additionally, certain investment related expenses are included in net appreciation (depreciation) in fair value of investments.

(3) Information prepared and certified by the trustee

The PPP has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Mid Atlantic, the trustee of the Plan, has certified that the following data included in the accompanying financial statements and supplemental schedules are complete and accurate with respect to investments:

- Investments at fair value
- Other receivables - investments pending settlement
- Net appreciation (depreciation) in fair value of investments
- Dividends and interest
- Schedule of assets (held at end of year)

The Plan's independent public accountants did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedules.

(4) Fair value measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3).

The three levels of the fair value hierarchy under Financial Accounting Standards Board Accounting Standards Codification 820 are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include quoted prices for similar assets and liabilities in active markets; quoted prices for identical or similar assets and liabilities in inactive markets; inputs other than quoted market prices that are observable for the asset or liability; and inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The fair value measurement level of an asset or liability within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

(4) Fair value measurements (continued)

The following is a description of the valuation methodologies used for assets measured at fair value. There were no changes in methodologies used during the years ended December 31, 2022 and 2021.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their net asset value ("NAV") and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Money market fund: Valued at the quoted NAV of shares held by the Plan at year-end.

The preceding methodologies described may produce a fair value calculation that may not be indicative of the net realizable value or reflective of future fair values. Furthermore, although the Plan's management believes its valuation methodologies are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2022 and 2021:

	Investments at Fair Value as of December 31, 2022			
	Level 1	Level 2	Level 3	Total
Mutual funds	$ 413,104,643	$ -	$ -	$ 413,104,643
Money market fund	13,763,253	-	-	13,763,253
Total assets in the fair value hierarchy	$ 426,867,896	$ -	$ -	$ 426,867,896

	Investments at Fair Value as of December 31, 2021			
	Level 1	Level 2	Level 3	Total
Mutual funds	$ 105,936,020	$ -	$ -	$ 105,936,020
Money market fund	2,753,147	-	-	2,753,147
Total assets in the fair value hierarchy	$ 108,689,167	$ -	$ -	$ 108,689,167

(5) Plan termination

Although it has not expressed any intent to do so, Paychex has the right to discontinue the allowance of contributions to the Plan at any time and to terminate the Plan subject to the provisions of ERISA. In the event of the Plan's termination, participants would become 100% vested in their employer's contributions.

(6) Tax status

The Plan is intended to qualify under Code Sections 401(a) and 501(a). In May 2021, the Plan's management submitted an application for a favorable determination letter to the IRS with respect to the tax-qualified status of the Plan. Although the IRS has not yet issued a determination letter as of the date of this report, the Plan's management believes that the Plan is being operated in compliance with the applicable requirements of the Code.

The Plan's management is required to evaluate tax positions taken by the Plan and to recognize a tax liability (or asset) if the Plan has taken an uncertain tax position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits in progress for any tax periods.

(7) Plan transfers

In the normal course of business, as participating employers adopt the Plan, assets from individual qualified plans that such participating employers previously sponsored are transferred into the Plan. During the years ended December 31, 2022 and 2021, assets transferred into the Plan totaled $41,682,641 and $30,993,181, respectively. Likewise, as participating employers leave the Plan, assets attributable to these outgoing participating employers are transferred out of the Plan. During the years ended December 31, 2022 and 2021, assets transferred out of the Plan totaled $14,881,242 and $1,145,898, respectively.

(8) Risks and uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risk. Market risks include global events, such as a pandemic or international conflict, which could impact the value of investment securities. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported on the statements of net assets available for benefits (modified cash basis).

(9) Related parties and parties-in-interest transactions

Paychex Retirement Services, a division of Paychex, Inc., is the Plan's third-party administrator and provides recordkeeping services to the Plan. Mid Atlantic serves as the trustee of the Plan. MFIM provides investment management services to the Plan. Additionally, certain participating employers select and utilize their own investment advisory firms. Transactions with each of these service providers to the Plan qualify as party-in-interest transactions. Fees for investment management services and various other services provided to the Plan are also paid for by the Plan.

(9) Related parties and parties-in-interest transactions (continued)

Aggregate fees paid for by the Plan during the years ended December 31, 2022 and 2021 was $2,721,510 and $247,571, respectively, which has been recorded as administrative expenses on the statements of changes in net assets available for benefits (modified cash basis).

(10) Delinquent participant contributions and subsequent event

Employers participating in defined contribution plans are required to remit participant contributions to the applicable plan as soon as they can be reasonably segregated from the employer's general assets. Although all participant contributions have been remitted to the Plan, contributions totaling $2,007,513 and $172,374 were not timely remitted during the years ended December 31, 2022 and 2021, respectively. In July 2022, Paychex remitted lost earnings applicable to a portion of the 2021 delinquent participant contributions to the Plan on behalf of affected participants. In July 2023, Paychex remitted the remaining lost earnings for the 2021 delinquent participant contributions and for a portion of the 2022 delinquent participant contributions on behalf of affected participants.

(11) Subsequent events

The Plan has evaluated subsequent events through December 20, 2023, which is the date the financial statements (modified cash basis) were available to be issued. Other than as disclosed in Note 10, no material matters were identified for disclosure during this evaluation.
