To Management, Plan Administrator, and Plan Trustees
Trademark Global, LLC 401(k) Plan
Lorain, Ohio

Except as discussed in the following paragraph, in planning and performing our audit of the financial statements of Trademark Global, LLC 401(k) Plan (the “Plan”), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as of and for the year ended December 31, 2023, in accordance with auditing standards generally accepted in the United States of America, we considered the Plan’s internal control over financial reporting (internal control) as a basis for designing auditing procedures that are appropriate in the circumstances for the purpose of issuing our report on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Plan’s internal control. Accordingly, we do not express an opinion on the effectiveness of the Plan’s internal control.

We were engaged to perform an ERISA Section 103(a)(3)(C) audit of those financial statements as permitted by 29 CFR 2520.103-8 of the Department of Labor’s Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. As permitted by ERISA Section 103(a)(3)(C), our audit did not extend to any statements or information related to assets held for investment of the Plan (investment information) by Principal Life Insurance Company that prepared and certified the statements or information regarding assets so held in accordance with 29 CFR 2520.103-5. Our audit also did not include a consideration of internal control relating to the investment information.

Our consideration of internal control was for the limited purpose described in the preceding paragraphs and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and, therefore, material weaknesses or significant deficiencies may exist that were not identified. However, as discussed below, we identified a certain deficiency in internal control that we consider to be a material weakness.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies in internal control, such that there is a reasonable possibility that a material misstatement of the Plan’s financial statements will not be prevented, or detected and corrected, on a timely basis. We consider the following deficiency in the Plan’s internal control to be a material weakness:

Inaccurate Deductions

Issue

We noted that contribution deductions and employer match were not properly calculated for participants receiving an off-cycle payroll check.

Recommendation

We recommend plan management correct these errors and make the affected participant accounts whole by contributing the amounts required by the Employee Plan Compliance Resolution System relating to the missed deferrals, employer match, and associated earnings, as well as implement controls or programming check changes to prevent the recurrence of such errors.

This communication is intended solely for the information and use of Plan management, the plan administrator, the plan trustees, and others within the Plan, and is not intended to be, and should not be, used by anyone other than these specified parties.
