Independent Auditor's Report

The Saint Francis Health System Retirement Committee
Saint Francis Health System Inc. 401(k) Savings Plan
Tulsa, Oklahoma

Opinion

We have audited the financial statements of Saint Francis Health System, Inc. 401(k) Savings Plan, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets available for benefits as of December 31, 2023 and 2022, and the related statement of changes in net assets available for benefits for the year ended December 31, 2023, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets available for benefits of Saint Francis Health System, Inc. 401(k) Savings Plan as of December 31, 2023 and 2022, and the changes in its net assets available for benefits for the year ended December 31, 2023, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Saint Francis Health System, Inc. 401(k) Savings Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Saint Francis Health System, Inc. 401(k) Savings Plan's ability to continue as a going concern for one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and, therefore, is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit;
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements;
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances but not for the purpose of expressing an opinion on the effectiveness of Saint Francis Health System, Inc. 401(k) Savings Plan's internal control. Accordingly, no such opinion is expressed;
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements; and
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Saint Francis Health System, Inc. 401(k) Savings Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedule Required by ERISA

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental Schedule H, Line 4i-Schedule of Assets Held at End of Year as of December 31, 2023, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA.

Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including its form and content, is presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedule is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

Note 1 - Description of Plan

The following description of the Saint Francis Health System, Inc. 401(k) Savings Plan (the Plan) provides only general information. Participants should refer to the summary plan description and Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution profit sharing plan covering substantially all employees of Saint Francis Health System, Inc. (the Employer) and certain related entities who are not highly compensated employees, as that term is defined in the Plan. Employees are eligible to defer salary as soon as administratively feasible following date of hire. An employee becomes eligible to receive matching and non-elective contributions after the completion of one year of service and the attainment of age 21 and must be employed on the entry date (either January 1 or July 1). For eligibility purposes to receive Employer contributions, one year of service is a specified computation period of 12 consecutive months during which an employee has at least 1,000 hours of service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA).

Contributions

Participants can elect to defer up to 100% of their pretax compensation as defined in the Plan document. For 2023, participant contributions were limited to \$22,500, with an additional \$7,500 catch-up contribution for participants over 50 years old. New employees who do not make an affirmative salary deferral election are automatically enrolled in the Plan at a salary deferral percentage of 3.0% of eligible compensation with their deferral invested in the age-appropriate Fidelity Freedom Fund or other similar investment fund approved by the Saint Francis Health System Retirement Committee until changed by the participant. The Employer's matching contribution is equal to 50.0% of the first 8.0% of eligible compensation, as defined in the Plan document, that a participant contributes.

Effective January 1, 2023, participants can elect after tax contributions into a Roth plan. The same contribution limits and match contributions as above are applicable.

Effective January 1, 2023, the fixed non-elective contributions changed to an annual discretionary contribution to be determined based on financial performance. To be eligible for the discretionary contribution, the employee had to have been enrolled in Employer matching contributions and be employed on December 31st. The December 31st requirement is waived for those who retire, are disabled, or pass away during the year. The funding for 2023 was set at 3% of eligible earnings and was funded in 1st quarter 2024.

Rollover Contributions

The Plan accepts rollover contributions from qualified plans such as 401(k), profit sharing, or pension plans, in addition to qualified annuity plans, 403(b) plans or annuity contracts, and governmental 457(b) plans. The Plan also accepts direct transfers of after-tax contributions from other tax-qualified plans and rollovers from individual retirement accounts. These contributions are fully vested at all times.

Participant Account

Each participant's account is credited with the participant's contributions, the Employer's matching contributions, and the Employer's elective contributions, as well as allocation of Plan earnings. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the participants' vested account.

Vesting

Participants are 100.0% vested in their salary deferral and voluntary contributions at all times. Participants are fully vested in Employer matching contributions upon completion of six vesting years of service, as defined in the Plan document, based on a graduated vesting schedule. The Employer non-elective contributions vest upon the completion of six vesting years of service, as defined by the Plan document, based on a graduated vesting schedule. A participant who is an employee will also become fully vested in Employer contributions upon attainment of normal retirement age, total and permanent disability, or the death of the participant.

At the end of each month, forfeitures of non-vested amounts during that quarter are first made available to reinstate previously forfeited account balances of former participants. The remaining forfeitures, if any, are used to reduce Employer contributions. Unallocated forfeiture balances as of December 31, 2023 and 2022, were approximately \$1,629,000 and \$1,191,000 respectively, and forfeitures used to reduce Employer contributions during 2023 were \$2,600,000.

Payment of Benefits

Participants are entitled to distributions from the Plan upon death, disability or termination of employment. Upon termination of service, a participant will be eligible to receive his or her vested benefits under the Plan. The forms of distribution include: (1) a lump-sum distribution; (2) a partial distribution; or (3) installment payments. Prior to December 15, 2014, the forms of distribution also included a qualified joint and survivor annuity if the participant is married on the date his or her service with the Employer terminates, or a qualified optional survivor annuity; or a single-life annuity if the participant is unmarried on the date his or her service with the Employer terminates, or, if the participant so elects in a timely and proper manner. Effective December 15, 2014, the annuity forms of distribution are only applicable to amounts that were merged into the Plan from the Basic Retirement Plan and Trust of Saint Francis Health System, Inc. A terminated participant with a vested balance of \$5,000 or less will receive an automatic distribution of funds if he or she does not elect payment on his or her own.

Additionally, participants may request a distribution from their salary deferral contribution accounts and rollover accounts due to financial hardship, as defined in the Plan document. Distributions may be made at the participant's election prior to termination upon attainment of age 59 ½ or Total and Permanent Disability.

Notes Receivable from Participants

Participants may borrow from their fund accounts, a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their account balance. The notes are secured by the balance in the participant's account. The interest rate, determined monthly, is set at prime rate plus 1%. Principal and interest will be paid ratably through personal bank withdrawals over a period not to exceed five years, unless the proceeds of the note were used to acquire the participant's residence, in which case the note terms can range up to 10 years. A participant may have no more than one outstanding note at any one time.

Plan Termination

Although it has not expressed any intent to terminate the Plan, the Employer reserves the right to amend or terminate the Plan at any time. In the event of Plan termination, participants will automatically become fully vested in their accounts regardless of their years of service, subject to the provisions of ERISA.

Note 2 - Summary of Accounting Policies

Administrative Expenses

Certain expenses of the Plan are paid by the Employer. Expenses incurred for attorney and audit fees and salary expense incurred by the Employer related to the administration of the Plan are paid by the Employer. Expenses that are paid directly by the Employer are excluded from these financial statements. In addition, certain investment related expenses are included in net appreciation in fair value of investments presented in the accompanying statement of changes in net assets available for benefits.

Investment Valuation and Income Recognition

Investments held by the Plan are stated at fair value except for the fully benefit-responsive investment contract, which is reported at contract value. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (an exit price). See Note 4 for further discussion of fair value measurements.

The Principal Life Insurance Company (Principal) guaranteed interest balance is a fully benefit-responsive group annuity contract (GAC) and is stated at contract value (see Note 4). Contract value is the relevant measurement attributable to fully benefit-responsive GAC because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The contract value of the fully benefit-responsive GAC represents contributions plus earnings, less participant withdrawals and administrative expenses.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded as earned on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants represent participant loans that are recorded at their unpaid principal balance plus any accrued but unpaid interest. Interest income on notes receivable from participants is recorded when it is earned. Related fees are recorded as administrative expenses and are expensed when they are incurred. If a participant had ceased to make loan repayments and the Plan administrator deemed the participant loan to be a distribution, the participant loan balance would be reduced and a benefit payment recorded.

Use of Estimates

The preparation of the financial statements in conformity with accounting principles generally accepted in the United States (U.S. GAAP) requires management to make estimates and assumptions that affect the amounts reported in the financial statements, accompanying notes, and supplemental schedule. Actual results could differ from those estimates.

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting. Benefit payments are recorded when paid.

Note 3 - Investments

Certain members of management serve as Trustees of the Plan. Fidelity Management Trust Company (FMTTC) serves as custodian. Fidelity Workplace Services, LLC is the Plan's record-keeper.

A participant must direct the custodian to invest all of the assets in his or her account into one or more of the available investment options. Assets of the Plan for which a participant fails to direct the investments are invested in the age-appropriate Fidelity Freedom Fund or other similar investment fund approved by the Retirement Committee.

The Plan invests in various investment securities that are exposed to various risks, such as interest rate, market volatility and credit risks. Market risks include global events which would impact the value of investment securities, such as a pandemic or global conflict. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note 4 - Fair Value Measurements

The fair value framework establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The fair value hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets and liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3).

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs. In measuring the fair value of the Plan's assets and liabilities, the Plan uses market data or assumptions that it believes market participants would use in pricing an asset or liability, including assumptions about risk, where appropriate. The three levels of the fair value hierarchy are described below:

Level 1 – Unadjusted quoted prices in active markets that are accessible to the reporting entity at the measurement date for identical assets and liabilities.

Level 2 – Inputs other than quoted prices in active markets for identical assets and liabilities that are observable either directly or indirectly for substantially the full term of the asset or liability. Level 2 inputs include the following:

- Quoted prices for similar assets or liabilities in active markets
- Quoted prices for identical or similar assets or liabilities in markets that are not active
- Observable inputs other than quoted prices that are used in the valuation of the asset or liabilities (e.g., interest rate and yield curve quotes at commonly quoted intervals)
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The following is a description of the valuation techniques and inputs used for assets measured at fair value. There have been no changes in the techniques and inputs used at December 31, 2023 or 2022.

Mutual funds (including money market mutual funds): Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-ended mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Self-directed brokerage accounts: Account primarily consists of mutual funds and money market funds.

The methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The determination of the fair value of the Plan's investments is the responsibility of the Saint Francis Health System Retirement Committee, who utilize the assistance of third parties, including the Plan's custodian and record keeper to manage and create the policies and processes used to determine the fair value of Plan assets. The Saint Francis Health System Retirement Committee or their agents also utilize third-party pricing services and obtain selected support from investment advisors to assist in determining valuations.

The following tables set forth by level, within the fair value hierarchy, the Plan's financial assets at fair value. Assets measured at fair value as of December 31, 2023, is as follows:

	Level 1	Level 2	Level 3	Total
Mutual funds	\$ 745,621,885	\$ —	\$ —	\$ 745,621,885

Note 5 - Fully Benefit-Responsive Investment Contract

The guaranteed interest balance relates to a Principal Guaranteed Interest Balance Contract, which is a non-participating annuity contract developed by Principal. The contract is a traditional account-backed, group annuity contract that pays a stated rate of interest, for a specified period of time, guaranteed by Principal.

Under the contract, a Principal Guaranteed Interest Balance (GIB) is established each calendar year to reflect current investment conditions and to accept the Plan's expected contributions for the year. Each GIB states a cell interest rate that is established prior to the receipt of that year's contributions and is guaranteed for five years. The composite crediting rate (CCR) is also declared each calendar year and credited to participants' accounts. The CCR is a fixed rate for the 12-month period. This rate is determined using the weighted average of the interest rates for each active GIB under the contract. At the end of the fifth year, the first GIB matures and the proceeds roll forward into a sixth GIB along with new Plan contributions. Consequently, the number of GIB cells in effect at any one time will not exceed five cells.

Interest will be credited to each deposit from the date accepted until the last day of the guarantee period, the date of payment, or application, whichever is earliest. Interest will be credited at the stated rate for each GIB. Interest credited to this deposit arrangement will be compounded daily from the date the deposit is accepted until the day before the date of payment.

Generally, payments for each GIB will be made in accordance with the last-in, first-out method. Under this method, all deposits made during a deposit period will be available to provide payments for death, disability, retirement, termination of employment, loan, hardship withdrawal or age 59½ in-service withdrawal before the close of the deposit period. No further payments will be permitted from this deposit arrangement after the close of the deposit period unless all subsequent funding vehicles are exhausted. No restrictions or surrender charge will apply to amounts withdrawn as a result of retirement, death, disability, loan, unforeseen hardship, separation from service or attainment of age 65, or 59 ½ in-service withdrawal as defined in the contract.

Investment transfers and exchanges are allowed, with no restrictions, except exchanges to competing funds will be subject to a 90-day equity wash. An equity wash means funds must first be exchanged into a non-competing fund for 90 days prior to exchanging to a competing fund. Competing funds are defined by Principal Life at the time of sale and typically include money market funds, short-term, short intermediate and limited term bond funds, and any other fund that maintains an average duration of less than three years.

Employer withdrawals will correspond to the value of each maturing GIB at the time of payout. In lieu of the installment payouts the Employer may withdraw a single sum (for a qualified plan) subject to a surrender charge. If the cell interest rate for each active GIB is greater than or equal to the applicable U.S. Treasury rate plus 1.50% (at the time of withdrawal), no surrender charge will apply. If the cell interest rate for each active GIB is less than the applicable U.S. Treasury rate plus 1.50% (at the time of withdrawal), a surrender charge may apply.

In general, payments from a GIB will be made in full within three business days after the requested date of payment. At Principal's option, payment may be delayed up to 30 days due to chaotic market conditions. If payments are delayed, amounts to be paid or transferred will continue to earn interest at the applicable rate, until the date payment or transfer occurs. There are certain events not initiated by the Plan participants, such as the Plan's failure to qualify under the Internal Revenue Code (the Code), full or partial termination of the Plan, involuntary termination of employment as a result of a corporate merger or other significant business restructuring, that could limit the ability of the Plan to transact with the issuer at GIB contract value. The Plan may terminate the contract by taking each of the underlying GIB contracts as they mature, with no charge. The Employer does not believe the occurrence of any events that would limit the Plan's ability to transact at contract value with participants is probable.

This GIB shall terminate on the date on which there are no deposit arrangements in effect under it. Disposition of the GIB, other than at termination of the Plan, will be in a single sum at the end of the guarantee period. Payment will be made the day after the guarantee period ends. No event or circumstances would allow the contract issuer to terminate the fully benefit-responsive investment contract with the Plan and settle at an amount different from contract value.

Upon notification that termination of the Plan has occurred, the funds may be used to purchase annuities for participants or transferred to another funding agent. The value of each GIB shall be determined as follows:

- The value of the GIB on the date such purchase or transfer is effectively reduced by uncollected expenses
- The surrender charge, as applicable

Note 6 - Income Tax Status

The Plan uses a pre-approved plan document sponsored by FMR LLC, which received an opinion letter from the Internal Revenue Services (IRS), dated June 30, 2020, stating that the pre-approved document satisfies the applicable provision of the Code. The Plan's management believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Code.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 7 - Related-Party and Parties-in-interest Transactions

Plan investments of approximately \$808,145,000 and \$704,999,000 at December 31, 2023 and 2022, respectively, are shares of mutual funds and money market funds managed by FMTC. Additionally, National Financial Services LLC, a subsidiary of Fidelity Global Brokerage Group, Inc. and affiliate to FMTC, handles the brokerage and mutual fund operations of the self-directed brokerage accounts. Plan investments of \$11,122,420 and \$13,071,028 at December 31, 2023 and 2022, respectively, are shares in a GIB managed by Principal. These transactions qualify as party-in-interest transactions and are exempt from the prohibited transaction rules.

Note 8 - Plan Restatement

Effective January 1, 2023, the Plan was restated to replace the non-elective contribution to an annual discretionary non-elective contribution to be determined based on financial performance. To be eligible for the discretionary non-elective contribution, the employee must have met the one-year service requirement, worked 1,000 hours, and be employed on December 31st. The December 31st requirement is waived for those who retire, are disabled, or pass away during the year. The Social Security integration was also eliminated. This restatement also enabled participants to elect after tax contribution into a Roth plan.

Note 9 - Transfer to Saint Francis Health System, Inc. 403(b) Savings Plan

During 2022, certain employees were considered to be highly compensated employees and as such became eligible for the Saint Francis Health System, Inc. 403(b) Savings Plan. As a result, those employees were enrolled into the 403(b) Plan and their 401(k) deferral and investment elections were transferred out of the Plan to the Saint Francis Health System, Inc. 403(b) Savings Plan during 2023.

Note 10 - Subsequent Events

Effective January 1, 2024, the Plan was amended to adjust the vesting schedule from a six-year vesting schedule as described in Note 1 to the financial statements to a five-year schedule. Active participants in the Saint Francis Health System, Inc. 403(b) Savings Plan became eligible for the Plan with subsequent contributions being remitted to the Plan. Those participant balances will remain the 403(b) plan. The eligibility requirement was also amended to remove the age requirement and to change the entry date for the employer contribution to the first day of the month after the service requirement is met. No other material subsequent events have occurred since December 31, 2023, that required recognition in the accompanying financial statements.
