Independent Auditors' Report

To the Plan Administrator and Management Intermountain Farmers Association Salary Investment Plan and Trust

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of the Intermountain Farmers Association Salary Investment Plan and Trust (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statement of assets available for benefits as of December 31, 2023 and 2022, the related statement of changes in assets available for benefits for the year ended December 31, 2023, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Intermountain Farmers Association Salary Investment Plan and Trust's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of and for the year ended December 31, 2023 and 2022, stating that the certified investment information, as described in Note 7 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the *Auditors' Responsibilities for the Audit of the Financial Statements* section—

- the amounts and disclosures in the financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- the information in the financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the *Auditors' Responsibilities for the Audit of the Financial Statements* section of our report. We are required to be independent of the Intermountain Farmers Association Salary Investment Plan and Trust and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments; administering the plan; and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the Financial Statements

Except as described in the *Scope and Nature of the ERISA Section 103(a)(3)(C) Audit* section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter—Supplemental Schedule Required by ERISA

The supplemental schedule of assets (held at end of year) as of December 31, 2023 is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion—

- the form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, is presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- the information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

1. Description of the Plan

The following description of the Intermountain Farmers Association Salary Investment Plan and Trust (the Plan) provides only general information. Participants should refer to the Plan document, adoption agreement, and summary plan description for a more complete description of the Plan's provisions.

General

The Plan was adopted by Intermountain Farmers Association (the Employer or the Company). The Plan is a safe harbor defined contribution plan covering eligible employees. Eligible employees may begin participating in the Plan at the available entry dates of January 1 or July 1 after completion of one year of service and the attainment of at least 21 years of age. Non-resident aliens are excluded from participating in the Plan. The Plan is established and maintained for the exclusive benefit of the participating employees. Provisions of the Plan are subject to the guidelines of the Employee Retirement Income Security Act of 1974, as amended (ERISA). Subsequent to year end and effective January 1, 2024, the company elected to change the age of eligibility from 21 to 19. Additionally, participant's will be eligible to enroll the first day of the month following 90 days of employment and will automatically be enrolled at a deferral rate of 3% with an auto increase of 1% each year up to 6%.

Contributions

Contributions to the Plan include: (i) salary reduction contributions authorized by participants, (ii) matching contributions made by the Company, (iii) discretionary profit-sharing contributions made by the Company; and (iv) participant rollovers from other plans.

Participants may elect both the amount of salary reduction contributions (up to 90% of an employee's eligible compensation) and the allocation of salary reduction contributions among the various investment alternatives within the Plan. Salary reduction contributions may not exceed the maximum amount allowable under the Internal Revenue Code, which was \$22,500 (\$30,000 for employees who are age 50 or older) for the year ended December 31, 2023. The Plan allows participants to elect traditional or Roth salary reduction contributions to the Plan.

The Company provided a 50% matching contribution on each participant's salary reduction contribution that does not exceed 4% of the participant's eligible compensation as well as a safe harbor contribution for all eligible employees of 3% of eligible compensation during 2023. Subsequent to year end, and effective January 1, 2024, the company elected to make the basic matching contribution equal to 100% of participant's elective deferrals not exceeding 1% of participant's compensation and 50% of participant's elective deferrals in excess of 1% but not in excess of 6% of participant's compensation.

Participants may also contribute to the Plan amounts representing distributions from other qualified defined benefit or defined contribution plans.

Participant Accounts

Each participant's account is credited with the participant's contributions and Company matching contributions, as well as allocations of the Company's profit-sharing contribution and Plan earnings or losses. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. Participants may direct the investment of their account balance into various investment options offered by the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account balance.

Vesting

Participants are immediately vested in their contributions, rollover contributions, and the safe harbor contributions, plus actual earnings thereon. Participants, who attain the age of 55 or become disabled, as determined by the Plan Administrator, become 100% vested in Employer matching contributions. Participants are vested in the Employer matching contributions according to the following vesting schedule.

Years of Service	Vested Percentage
1	20%
2	40%
3	60%
4	80%
5	100%

Subsequent to year end and as of January 1, 2024, the company elected to change the vesting schedule to start vesting after two years of employment and fully vest over a period of 5 years. The company also elected to change the retirement age to 59.5 years effective January 1, 2024.

Notes Receivable from Participants

Notes receivable from participants represent participants' loans that are recorded at their unpaid principal balance plus accrued but unpaid interest. Interest income on notes receivable from participants is recorded when earned. Participants may borrow a minimum of \$1,000 up to a maximum amount equal to the lesser of (1) \$50,000 reduced by the maximum outstanding balance of a previous loan in the 12 months immediately preceding origination of the new loan, or (2) 50% of the amount of their vested account balances. The terms of notes receivable from participants may not exceed 5 years except where the loan is for the purchase of a principal residence, in which event the term of the loan may not exceed 10 years. A participant may have only two notes receivable outstanding at any time. The notes are to be repaid through payroll deductions.

The notes are secured by vested balances in the participants' accounts and bear interest at fixed rates of 1% over the prime rate on the first business day of the month the loan is originated. The interest rate on all outstanding loans as of December 31, 2023 ranged between 4.25% and 9.50% with maturity dates ranging between 2024 and 2030.

Payment of Benefits and Withdrawals

On termination of service due to death, disability, or retirement, participants generally receive their account balances in a lump sum payment. Upon termination of service due to other reasons, participants may receive a lump-sum payment or leave the funds in the Plan, at their option.

The Plan will make distributions not to exceed \$5,000 to participants who incur severance of employment before attaining the later of age 62 or normal retirement age without consent needed. Distributions subject to automatic rollover into an IRA for such participants shall only be made if the distribution amount exceeds \$1,000.

Participants may withdraw their salary reduction contributions if they incur a qualifying financial hardship or become disabled, as determined by the Plan Administrator. Participants age 59½ or older may withdraw up to 100% of their vested account balance.

Forfeitures

Forfeitures of non-vested participant account balances may be used to reduce administrative expenses of the Plan paid by the Employer and to reduce future required Employer contributions to the Plan. Forfeitures for the year ended December 31, 2023 were \$11,721 with earnings of \$57. Forfeitures utilized for these purposes during the year ended December 31, 2023 totaled \$11,778. . There was a balance of \$0 in the forfeiture account as of December 31, 2023 and 2022.

Administrative Expenses

Administrative expenses paid directly by the Plan are applied against participant accounts of the Plan. During the year ended December 31, 2023, administrative expenses paid by the Plan totaled \$29,956. The Company pays certain other administrative expenses of the Plan and provides certain services to the Plan at no charge.

Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants become fully vested in their accounts.

2. Summary of Significant Accounting Policies***Basis of Accounting***

The accompanying financial statements of the Plan are prepared using the accrual method of accounting in accordance with accounting principles generally accepted in the United States of America (US GAAP).

Use of Estimates

The preparation of financial statements in accordance with US GAAP requires the Plan's management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Risks and Uncertainties

The Plan provides for investments that are exposed to various risks such as interest rate, credit, liquidity, overall market volatility, and changes in economic conditions. Due to the level of risk associated with certain investments, it is reasonably possible that changes in the values of investments will occur in the near term and that such changes could materially affect the amounts reported in the statements of assets available for benefits.

Investment Valuation and Income Recognition

As of December 31, 2023 and 2022, the Plan held investments in mutual funds and a guaranteed investment contract. Mutual funds are stated at fair value based on quoted market prices and the investment in the guaranteed investment contract is reported at contract value based on the daily valuation formula disclosed in the contract.

Net appreciation (depreciation) in the value of investments represents net realized and unrealized gains or losses. Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Interest is recorded on the accrual basis.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. Delinquent participant loans are recorded as distributions when the participant has a distributable event.

Payment of Benefits

Benefits are recorded when paid by the Plan.

Subsequent Events

Plan management has evaluated events occurring subsequent to year-end through July 19, 2024, which is the date the financial statements were available to be issued.

3. Fully Benefit Responsive Guaranteed Investment Contract

The Key Guaranteed Portfolio Fund (the Fund) is a general account product. The Fund is backed by the general assets of Great-West Life & Annuity Insurance Company (the Issuer). Contract value is the relevant measurement factor for the Plan's fully benefit-responsive guaranteed investment contract because contract value is the amount participants receive when permitted transactions are initiated under the terms of the Plan. The Fund qualifies as a fully benefit-responsive investment contract because it meets all the following criteria:

- The investment contract is directly between the Fund and the Issuer and prohibits the Fund from assigning or selling the contract or its proceeds to another party without the consent of the Issuer.
- The Issuer is obligated to (i) repay principal and interest, or (ii) apply prospective crediting rate adjustments with an assurance the crediting rate will not be less than zero.
- The terms of the investment contract require all permitted participant-initiated transactions with the Fund to occur at contract value with no conditions, limits, or restrictions. Permitted participant-initiated transactions are those transactions allowed by the underlying defined-contribution plan, such as withdrawals for benefits, loans, or transfers to other funds within the Plan.
- An event that limits the ability of the Fund to transact at contract value with the Issuer (for example, premature termination of the contracts by the Fund, plant closings, plan termination, bankruptcy, mergers, and early retirement incentives) and that also limits the ability of the Fund to transact at contract value with the participants in the Fund must be probable of not occurring.
- The Fund itself must allow participants reasonable access to their funds.

The interest crediting rate is determined quarterly and resulted in an average annual yield earned and credited to participants of approximately 1.23% and .94% during 2023 and 2022, respectively. The minimum crediting rate as of December 31, 2023 and 2022 was 1.23% and .93%, respectively.

The methodology for calculating the interest crediting rate is based on the earnings of the underlying assets in the entire medium-long term portfolio compared to the minimum interest crediting rate, as stated in the contract, and prevailing market conditions. The interest crediting rate is reset quarterly.

There is no event that limits the ability of the Plan to transact at contract value with the Issuer. There are also no events or circumstances that would allow the Issuer to terminate the fully benefit-responsive group annuity insurance contract with the Plan and settle at an amount different from contract value. The credit rating of the Issuer as of December 31, 2023 was Aa3 as reported by Moody's Investors Service.

4. Fair Value Measurements

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Financial Accounting Standards Board established a framework for measuring fair value in the form of a fair value hierarchy, which prioritizes inputs into valuation techniques used to measure fair value into three broad levels. This hierarchy requires assets to be classified by level in their entirety based upon the lowest level of input that was significant to the fair value measurement. The three levels of the fair value hierarchy are as follows:

Level 1 – Quoted prices in active markets for identical assets or liabilities.

Level 2 – Observable inputs other than Level 1, including quoted prices for similar assets or liabilities, quoted prices in less active markets, or other observable inputs that can be corroborated by observable market data.

Level 3 – Unobservable inputs supported by little or no market data for financial instruments whose value is determined using pricing models, discounted cash flow methodologies, or similar techniques, as well as instruments for which the determination of fair value requires significant management judgment or estimation.

The following tables summarize the fair values of the Plan's investments and the levels of inputs under which those investments were valued.

December 31, 2023	Level 1	Level 2	Level 3	Total
Mutual funds	\$ 30,951,699	\$ -	\$ -	\$ 30,951,699

December 31, 2022	Level 1	Level 2	Level 3	Total
Mutual funds	\$ 26,647,636	\$ -	\$ -	\$ 26,647,636

5. Exempt Party-In-Interest Transactions

Certain Plan investments are managed by Empower Retirement, LLC, the trustees of the Plan. These investments, as of December 31, 2023 and 2022, include \$2,231,102 and \$2,269,948 respectively, in a guaranteed investment contract, and \$4,821,559 and \$4,276,964, respectively, in mutual funds. These transactions qualify as exempt party-in-interest transactions. The notes receivable from participants are also exempt party-in-interest transactions.

6. Federal Income Tax Status

The Internal Revenue Service has informed Plan management by a letter dated June 30, 2020, that the Plan and related trust were designed in accordance with the applicable regulations of the IRC. Plan management believes that the Plan is currently designed and operated in compliance with the applicable requirements of the IRC, and the Plan and related trust continue to be tax-exempt. Therefore, no provision for income taxes has been included in the Plan's financial statements.

US GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by tax authorities. The Plan Administrator has analyzed the tax positions of the Plan and has concluded that as of December 31, 2023 and 2022, there were no uncertain tax positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits in tax jurisdictions for tax years for which the applicable statutes of limitations have not expired; however, there are currently no audits for any tax periods in progress.

7. Information Certified by the Trustee

The Plan Administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under that election, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the following information certified by Empower Annuity Insurance Company of America and Empower Trust Company, LLC, the trustees of the Plan, except for comparing such information certified by the trustees to information included in the Plan's financial statements and supplemental schedule:

- All investment assets held by the Plan
- Notes receivable from participants
- The recording of transactions related to all investment assets and notes receivable from participants, including related earnings (losses) and interest and dividends.
