Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Independent Auditors' Report

Plan Administrator
LifePoint Bell Memorial Non-Union Pension Plan:

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of the LifePoint Bell Memorial Non-Union Pension Plan (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 ("ERISA"), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of October 31, 2023 and 2022, the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan ("investment information") by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA ("qualified institution").

Management has obtained certifications from a qualified institution as of and for the years ended October 31, 2023 and 2022, stating that the certified investment information, as described in Note 4 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the *Auditors' Responsibilities for the Audit of the Financial Statements* section of our report,

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America ("GAAP").
- The information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management has determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America ("GAAS"). Our responsibilities under those standards are further described in the *Auditors' Responsibilities for the Audit of the Financial Statements* section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are issued or are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the Financial Statements

Except as described in the *Scope and Nature of the ERISA Section 103(a)(3)(C) Audit for the Financial Statements* section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter - Supplemental Schedules Required by ERISA

The supplemental schedule of assets (held at end of year) as of October 31, 2023 and schedule of reportable transactions for the year ended October 31, 2023 are presented for the purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion

- The form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or are derived from the certified investment information, are presented in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedules related to assets held by and certified to by a qualified institution agrees to, or are derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

LIFEPOINT BELL MEMORIAL NON-UNION PENSION PLAN

Notes to the Financial Statements

October 31, 2023 and 2022

(1) Description of plan

The following brief description of the LifePoint Bell Memorial Non-Union Pension Plan (the "Plan") provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions. Lifepoint, Inc. (the "Plan Sponsor") is the sponsor of the Plan and is also designated as the plan administrator.

(a) General

The Plan is a non-contributory defined benefit pension plan. The Plan covers eligible employees of UP Health System - Bell, a subsidiary of the Plan Sponsor. The purpose of the Plan is to provide retirement benefits at each eligible employee's retirement date and related death benefits for the employee's beneficiary. The Plan has been subsequently amended to reflect certain changes in the tax law and Plan provisions. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"), as amended.

(b) Eligibility

Prior to October 31, 2005, substantially all employees, with the exception of leased employees and employees covered under a collective bargaining agreement, were eligible to participate in the Plan on November 1 or May 1 after attaining their 21st birthday and completing 1,000 hours within 12 months of service.

Effective October 31, 2005, the Plan was amended to freeze future accrual of benefits and to freeze participation to any new employees hired on or after October 31, 2005.

(c) Pension benefits

Plan participants become entitled to monthly pension benefits upon reaching their normal retirement age of 65 with 5 years of service. A participant's pension benefit is equal to 1.25% of final average monthly compensation plus 1.75% of final average monthly compensation in excess of covered compensation, multiplied by credited service to a maximum of 40 years.

Participants may also elect to receive an early retirement benefit upon reaching age 55 and 10 years of vesting service. Accrued normal retirement benefit is reduced five-ninths of 1% for each of the first 60 months and five-eighteenhs of 1% for each of the next 60 months by which benefit payments commence prior to the normal retirement date.

Participants can choose various annuity options to receive the value of their accumulated plan benefits. If less than \$5,000 in accumulated benefits exist, benefits will be paid in a single lump-sum distribution.

LIFEPOINT BELL MEMORIAL NON-UNION PENSION PLAN

Notes to the Financial Statements

October 31, 2023 and 2022

(d) Funding policy

The Plan provides for only Plan Sponsor contributions. The Plan Sponsor's funding policy is to contribute for each Plan year not less than the amount required by ERISA to meet the minimum funding standard as calculated by an enrolled actuary. The minimum amount of such contributions shall be sufficient to fund the Plan's current service costs on a current basis and to fund prior service costs. For the years ended October 31, 2023 and 2022, there was no minimum funding requirement of ERISA.

Although it has not expressed any intention to do so, the Plan Sponsor has the right under the Plan to discontinue its contributions at any time and to terminate the Plan, subject to the provisions set forth in ERISA.

(e) Vesting

All accrued benefits became fully vested when future benefit accruals were frozen.

(f) Death and disability benefits

If an active participant dies before receiving benefits from the Plan, the Plan automatically provides death benefit coverage to the beneficiary of the participant in an amount equal to 50% of the actuarial equivalent value of the benefit earned up to the date of death. Active participants who have completed 10 years of service and who become totally and permanently disabled while employed, but prior to normal retirement, will be eligible for a disability benefit equal to the monthly benefit accrued as of the time they become disabled.

(2) Summary of significant accounting policies

(a) Basis of accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

(b) Investment valuation and income recognition

Investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan determined the valuation policies utilizing information provided by Principal Bank ("Principal") for the years ended October 31, 2023 and 2022. See Note 6 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividend income is recorded on the ex-dividend date. Net depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

LIFEPOINT BELL MEMORIAL NON-UNION PENSION PLAN

Notes to the Financial Statements

October 31, 2023 and 2022

(c) Payment of benefits

Benefits payments are recorded when paid.

(d) Administrative expenses

Certain expenses of maintaining the Plan are paid directly by the Plan Sponsor and are excluded from these financial statements. Fees paid by the Plan incurred in connection with the general administration of the Plan are included in administrative expenses. Fees incurred by the Plan for the investment related services are included in net depreciation in fair value of investment.

(e) Use of estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America ("GAAP") requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein, disclosure of contingent assets and liabilities, and the actuarial present value of accumulated Plan benefits at the date of the financial statements and changes therein. Actual results could differ from those estimates.

(f) Events occurring after reporting date

The Plan Sponsor has evaluated events and transactions that occurred between October 31, 2023 and August 12, 2024, which is the date that the financial statements were available to be issued, for possible recognition or disclosure in the financial statements.

(3) Actuarial present value of accumulated plan benefits

Accumulated plan benefits are those future periodic payments, including lump sum distributions, that are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries.

Benefits accumulated under the Plan are based on employee's length of service and compensation as of October 31, 2005. Benefits payable under all circumstances (retirement, death, disability, and termination of employment) are included to the extent they are deemed attributable to employee service rendered at the valuation date.

The actuarial present value of accumulated plan benefits is determined by an independent actuary and is that amount which results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements for death, disability, or retirement) between the valuation date and the expected date of payment.

LIFEPOINT BELL MEMORIAL NON-UNION PENSION PLAN

Notes to the Financial Statements

October 31, 2023 and 2022

The significant assumptions used by the Plan's consulting actuaries as of November 1, 2022, are as follows:

Assumed rate of return	7.00%
Mortality	PRI-2012 Generational Mortality Table with Improvement Scale MP-2021
Benefit commencement age	Based on experience
Actuarial method	Unit Credit

The Plan's mortality rate for 2021 used the Improvement Scale MP-2021.

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. If the Plan were to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits. The computations of the actuarial present value of accumulated plan benefits were made as of November 1, 2022. Had the valuations been performed as of October 31, 2022, there would be no material differences.

(4) Certified information

Certain information related to the investments presented and disclosed in the accompanying financial statements and supplemental schedules of assets (held at end of year) and reportable transactions, the fair value of investments held and net depreciation in fair value of investments and interest and dividend income was obtained or derived from information supplied to the plan administrator and certified as complete and accurate by Principal as of October 31, 2023 and 2022 and for the period from February 22, 2022 to October 31, 2023 and by Wells Fargo, N.A. for the period from November 1, 2021 to February 21, 2022.

LIFEPOINT BELL MEMORIAL NON-UNION PENSION PLAN

Notes to the Financial Statements

October 31, 2023 and 2022

(5) Accumulated plan benefits

A schedule of the actuarial present value of accumulated plan benefits as of November 1, 2022 follows:

Actuarial present value of accumulated benefits:	
Retired	\$ 6,743,308
Deferred vested	1,847,063
Active vested	<u>1,163,165</u>
Total vested benefits	9,753,536
Active non-vested benefits	<u>10,749</u>
Accumulated benefit value	<u>\$ 9,764,285</u>

The schedule of changes in the actuarial present value of accumulated plan benefits for the year ended November 1, 2022 is as follows:

Actuarial present value of accumulated plan benefits at beginning of year	\$ <u>9,776,592</u>
Decrease during the year attributable to:	
Benefits payments	(691,786)
Interest	660,149
Other	<u>19,330</u>
Net decrease	<u>(12,307)</u>
Accumulated present value of accumulated plan benefits at end of year	<u>\$ 9,764,285</u>

(6) Fair value measurements

Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") 820, *Fair Value Measurements*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described below:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

LIFEPOINT BELL MEMORIAL NON-UNION PENSION PLAN

Notes to the Financial Statements

October 31, 2023 and 2022

Level 2 - Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following are descriptions of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at October 31, 2023 and 2022.

- (i) *Money market fund*: Valued using \$1 as the net asset value ("NAV").
- (ii) *Mutual funds*: Valued based on the funds' reported closing net asset values as of the last business day of the plan year. The funds are deemed to be actively traded.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan's management believes its valuation method is appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of October 31, 2023 and 2022:

	Fair Value Measurements as of October 31, 2023 using the following inputs			
	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>
Mutual funds	\$ 10,380,262	\$ -	\$ -	\$ 10,380,262

Fair Value Measurements as of October 31, 2022 using the following inputs

	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>
Mutual funds	\$ 10,890,900	\$ -	\$ -	\$ 10,890,900

Investments at fair value	<u>\$ 10,890,900</u>	<u>\$ 52,956</u>	<u>\$ -</u>	<u>\$ 10,943,856</u>

(7) Income tax status

The Plan obtained a favorable determination letter on March 30, 2018, in which the Internal Revenue Service ("IRS") stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code ("IRC"). The Plan is required to operate in conformity with the IRC to maintain its qualification. The Plan has been amended since receiving the determination letter. However, the Plan Administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable provisions of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

GAAP requires plan management to evaluate tax positions taken by the Plan and recognize a tax liability or asset if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that, as of October 31, 2023 and 2022, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or asset or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

(8) Risks and uncertainties

The Plan invests in investment securities which are exposed to various risks, such as interest rate, credit, and overall market volatility. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such change could materially affect the amounts reported in the financial statements.

Plan contributions are made and the actuarial present value of accumulated plan benefits is reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimation and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term could materially affect the amounts reported and disclosed in the financial statements.

LIFEPOINT BELL MEMORIAL NON-UNION PENSION PLAN

Notes to the Financial Statements

October 31, 2023 and 2022

(9) Related party and party-in-interest transactions

The Plan allows purchases and sales of assets through Principal. Certain Plan investments were shares of a money market fund managed by Principal, and therefore, these transactions qualify as party-in-interest transactions under ERISA. As described in Note 1, the Plan paid expenses to various service providers which also qualify as party-in-interest transactions.

(10) Plan termination

In the event of termination, the Plan's assets are allocated, as prescribed by ERISA and its regulations, generally to provide the following benefits in the order indicated:

1. Annuity benefits that former employees or their beneficiaries have been receiving for at least three years or that employees eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan. The priority amount is limited to the lowest benefit that was payable, or would have been payable, on the day before the commencement of the said three-year period to the extent the benefits are based on provisions of the Plan during the five years preceding Plan termination.
2. Other vested benefits insured by the Pension Benefit Guaranty Corporation ("PBGC"), up to the applicable limitations.
3. All other vested benefits (that is, vested benefits not insured by the PBGC).

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination. Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the Plan sponsor and the level of benefits guaranteed by the PBGC.

The freezing of the Plan described in Note 1 is not considered a plan termination.

Summary of Provisions of the Plan

Effective date and plan year

The plan was established effective November 1, 1959, with the latest plan restatement effective November 1, 2019. The plan year ends on each October 31, while the employer's fiscal year ends on each June 30.

Eligibility

Each employee is eligible to become a participant in the plan on the earlier of the November 1 or May 1 immediately following completion of at least 1,000 hours commencing with his date of employment and attainment of age 21. No employee shall become a participant in the plan on or after October 31, 2005.

Service

Service benefit purposes is credited according to the following schedule of calendar year hours, subject to certain break in service rules:

<u>Hours of Service</u>	<u>Credited Service</u>
1,000-1,199	0.6
1,200-1,399	0.7
1,400-1,599	0.8
1,600-1,799	0.9
1,800 or more	1.0

Effective October 31, 2005, no further benefit service will be credited.

Service credited for vesting purposes means the number of calendar years on or before December 31, 2011 in which the employee completes at least 1,000 hours of service plus the number of plan years on or after November 1, 2011 in which the employee completes at least 1,000 hours of service, subject to certain break in service rules.

Compensation

Compensation for plan purposes means W-2 compensation for a calendar year, including certain employee pre-tax contributions. If the employee has less than 1,800 hours of service, compensation shall be increased by a ratio of 1,800 and actual number of hours worked for such calendar year. A participant's annual compensation for plan purposes is limited as required under Code §401(a)(17).

Normal retirement

Condition

For participants whose date of hire is on or after June 1, 1985, the normal retirement date is the first day of the calendar month next following the later of the participant's 65th birthday and the completion of five years of plan participation. For participants whose date of hire is prior to June 1, 1985, the normal retirement date is the first day of the calendar month next following the participant's 65th birthday.

Benefit

The normal retirement benefit, 1/12th of which is payable monthly for the life of the participant, is equal to the sum of the following:

- > 1.25% of average earnings multiplied by the participant's years of benefit service not in excess of 40 years, plus
- > 0.50% of average earnings in excess of the current Covered Compensation for the participant, multiplied by the participant's years of benefit service not in excess of 40 years.

"Average earnings" is the average annual compensation of a participant for the five consecutive calendar years that produce the highest average.

"Covered Compensation" is the average of the taxable wage bases for the 35 years ending with the year the participant attains Social Security retirement age.

No further benefits will accrue under the plan after October 31, 2005.

Accrued benefit

The accrued benefit is the monthly benefit with payments beginning at normal retirement that has been earned due to compensation and benefit service as of any determination date. The accrued benefit is payable for the life of the participant and is computed in the same manner as for normal retirement, using the participant's average earnings and benefit service as of the date of determination, and Covered Compensation determined by assuming the current taxable wage base will remain constant for all future years. No further benefits will accrue under the plan after October 31, 2005.

Early retirement

Condition

A participant may retire early after he has attained age 55 and completed 10 years of service.

Benefit

The deferred benefit, to commence at the participant's normal retirement date, is equal to the participant's vested accrued benefit determined as of his early retirement date.

Upon written request to the retirement committee, the participant's benefit may commence at any time after his early retirement date. The accrued benefit is reduced 5/9 of 1% for each of the first 60 months and 5/18 of 1% for each of the next 60 months by which the participant's date of benefit commencement precedes the normal retirement date.

Late retirement

Condition

A participant may choose to postpone his retirement beyond his normal retirement date, in which event no benefit shall be payable until actual retirement.

Benefit

The participant's benefit, commencing on the first day of the month following his actual date of retirement, shall be the greater of the actuarial equivalent of the benefit the participant would have received at his normal retirement date, and the benefit computed using the participant's compensation and benefit service earned as of his actual retirement date.

Disability retirement

Condition

A participant must be eligible for permanent disability payments under the Federal Social Security Act and have completed 10 years of service.

Benefit

The disability retirement benefit, commencing the first day of the first month for which he is entitled to a disability benefit under the Federal Social Security Act, is computed as the participant's accrued benefit determined as of the participant's date of termination of employment due to disability without actuarial adjustment for early commencement.

Death before retirement

Condition

In the event of the death of a participant after becoming eligible for a vested benefit under the plan, and while either (i) actively employed by the employer, or (ii) on deferred vested status but prior to receiving any retirement benefits, a monthly survivorship benefit shall be payable to the participant's surviving spouse.

Benefit

The monthly benefit is payable on the first day of the calendar month following the participant's date of death or the earliest date the participant could have elected benefit payments to commence, whichever is later, and continuing for the lifetime of the surviving spouse. The benefit is determined as 50% of the benefit the spouse would have received if the participant had terminated employment the day before death (or on his actual date of termination if earlier), had lived to the benefit commencement date, and elected an immediate joint and 50% to survivor benefit.

Termination of employment

Condition

If a participant terminates his employment after completing 5 or more years of vesting service, he is entitled to a deferred vested benefit with payment commencing on his normal retirement date.

Benefit

The amount of the benefit is calculated as the product of a vesting percentage and the accrued benefit determined as of the participant's date of termination. The vesting percentage is determined from the following table.

<u>Years of Vesting Service</u>	<u>Vesting Percentage</u>
Less than 5	0%
5 or more	100

Each participant is considered 100% vested in their accrued benefit effective October 31, 2005.

Top-heavy status

If in any year the plan is determined to be top heavy, the following provisions will take effect:

- > A minimum accrued benefit will be determined for each participant equal to 2% of the average earnings, multiplied by the participant's years of service during which the plan is top heavy, limited to 10 such years.
- > Participants will become vested in their accrued benefits according to the following schedule:

<u>Years of Vesting Service</u>	<u>Vesting Percentage</u>
Less than 2	0%
2	20%
3	40%
4	60%
5	80%
6 or more	100%

Optional modes of benefit payments

Subject to the applicable plan conditions, a participant may select an optional method of benefit payment, in lieu of the prescribed life income, which is actuarially equivalent thereto. The purpose of the optional method is to permit the guarantee of retirement income payments for a different period of time (i.e., 10 or 15 years or life income only) or to provide a continued life income to a surviving beneficiary after the death of the participant (for example, 50%, 75% or 100% of the participant's actuarially reduced retirement income from the plan). However, if no option is elected and the participant is married at the date the benefit commences, the monthly benefit will automatically be paid in the form of a 50% joint and survivor annuity.

If the actuarial equivalent single sum amount due a terminated participant is less than \$1,000, such amount shall be distributed to the participant in lieu of any other benefits under the plan. If the actuarial equivalent single sum amount due to a terminated participant is more than \$1,000, but less than \$5,000, the participant shall have the option to elect such amount to be distributed in lieu of any other benefits under the plan.

Actuarial equivalence

Actuarial equivalence is based on the UP-84 Mortality and 6% interest. For purposes of determining single sum benefits, such benefit shall not be less than the amount based on the mortality and interest rates, as defined under Code Section 417(e)(3), in effect for the month of September preceding the first day of the plan year in which the benefit is to be paid.

Contributions to the plan

The employer contributes actuarially determined amounts to finance the plan benefits. No contributions by participating employees are required.

Investment of plan funds

The assets of the pension plan will be invested by the trustee in accordance with the terms of the trust agreement.
