Independent Auditors' Report

To the Plan Administrator
West Fraser, Inc. 401(k) Plan for OSB Employees
Cordova, Tennessee

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed the audits of the financial statements of West Fraser, Inc. 401(k) Plan for OSB Employees (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 29, 2023 and December 31, 2022, the related statements of changes in net assets available for benefits for the period ended December 29, 2023 and for the year ended December 31, 2022, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of and for the period ended December 29, 2023 and as of and for the year ended December 31, 2022, stating that the certified investment information, as described in note 3 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditors' Responsibilities for the Audit of the Financial Statements section:

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- The information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are issued or available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on these financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certifications, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

WEST FRASER INC. 401(k) PLAN FOR OSB EMPLOYEES

Notes to Financial Statements
December 29, 2023 and December 31, 2022

Note 1 - Description of Plan

The following description of West Fraser, Inc. 401(k) Plan for OSB Employees (the "Plan") provides only general information. Participants should refer to the Plan document or Summary Plan Description for a more complete description of the Plan's provisions, which are available from the plan administrator.

General

The Plan was a defined contribution plan available to substantially all employees of West Fraser Wood Products, Inc. (the "Company") who are eighteen (18) years of age or older, other than employees who were specifically excluded pursuant to the plan document. Employees were eligible to participate as soon as they are employed by the Company. The Plan was administered by the Company and utilizes Fidelity Workplace Services LLC (FWS) as the recordkeeper and Fidelity Management Trust Company (Fidelity) as trustee of the Plan's assets. The Plan was subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

The Plan was amended, effective January 1, 2022 to change the Plan name from "Norbord USA 401(k) & Profit Sharing Plan" to "West Fraser, Inc. 401(k) Plan for OSB Employees".

Effective January 1, 2023, the participants of the Plan, with the exception of the Bemidji location, merged into the Plan Sponsor's related Plan, West Fraser, Inc. 401(k) Plan. Effective December 29, 2023, the participants at the Bemidji location merged into the related plan. Accordingly, net assets totaling \$104,541,361 were transferred to the successor plan during 2023.

Contributions

Participant contributions may be pre-tax up to eighty percent (80%) of their eligible compensation, as defined in the Plan, subject to Internal Revenue Service (IRS) limitations. Participants could also make after-tax roth contributions. The Plan included an auto-enrollment provision whereby all newly eligible employees were automatically enrolled in the Plan unless they affirmatively elected not to participate in the Plan. Automatically enrolled participants had their deferral rate set at four percent (4%) (six percent (6%), for the Minnesota location only) pre-tax of eligible compensation.

Participants could also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollovers). Additionally, participants age fifty (50) or older who were making contributions to the Plan were allowed to make catch-up contributions as defined in the Plan.

The Company made matching contributions of fifty percent (50%) of the first four percent (4%) of compensation that a participant defers, except for employees at the Bemidji location. Bemidji employees received a match on a graded schedule, based on the years of service, as follows:

Note 1 - Description of Plan (continued)

Contributions (continued)

<u>Years of Service</u>	<u>Employer Match</u>
less than 15 years	60% of 6% of compensation deferred
15-19 years	70% of 6% of compensation deferred
more than 20 years	80% of 6% of compensation deferred

The Company could also make retirement contributions of four percent (4%) of the participant's eligible compensation for all employees, except employees at the Bemidji location. Bemidji employees receive a five percent (5%) retirement contribution.

The Company could also make discretionary profit sharing contributions. There were no discretionary profit sharing contributions made for 2023 or 2022.

Participant investment account options

The Plan allowed participants to direct their contributions and account balances among the different investment options offered by Fidelity.

Participant accounts

Each participant's account was credited with the participant's contribution and the Company matching and retirement contributions, plus a proportionate interest in the investment earnings or losses of the funds in which the contributions are invested. Participant accounts were charged with an allocation of certain administrative expenses that were based upon the participant earnings, account balances, or specific participant transactions, as defined by the plan document. All other administrative expenses were paid by the Plan sponsor. The benefit to which a participant was entitled was the benefit that could be provided from the participant's vested account.

Vesting

Participants were immediately vested in their contributions plus earnings and losses thereon. Participants vested in the Company's matching and discretionary and related earnings and losses based upon years of service. A participant was 100% vested after one year of credited service. In the event of death, disability, normal retirement age (65), or if the Plan was discontinued, participants became 100% vested in all account balances.

Notes receivable from participants

Participants could borrow up to the lesser of \$50,000 or 50% of their vested account balance. The minimum amount that can be borrowed is \$1,000. The loans were secured by the balance in the participant's account and bear interest at the prime interest rate plus one percent (1%). Principal and interest was repaid ratably through payroll deductions. A participant could have no more than one (1) loan outstanding at any time.

Note 1 - Description of Plan (continued)

Payment of benefits

Upon termination of service for any reason, a participant could request to receive the value of the vested interest in his or her account as a distribution in the form of a lump-sum payment or substantially equal installments. Withdrawals by a participant while still employed were limited to those requested due to events of financial hardship as defined by the plan document, rollover contributions from another plan, or upon attainment of age 59½.

Forfeited accounts

If an employee terminated before his or her Company matching and retirement contributions have become fully vested, such unvested portion of the account is forfeited. Participant forfeitures that were not used to pay plan expenses were used to reduce future Company contributions.

Note 2 - Summary of significant accounting policies

Basis of accounting

The financial statements of the Plan are prepared using the accrual method of accounting.

Use of estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions which affect reported amounts of assets and liabilities and changes therein, and disclosures of contingent assets and liabilities. Accordingly, actual results may differ from those estimates.

Investment valuation and income recognition

Investments were reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See note 4 for discussion of fair value measurements.

Purchases and sales of securities were recorded on a trade-date basis. Interest income was recorded on the accrual basis and dividends are recorded on the ex-dividend date. Net appreciation (depreciation) in fair value of investments includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

Note 2 - Summary of significant accounting policies (continued)

Notes receivable from participants

Notes receivable from participants were measured at their unpaid principal balances plus any accrued but unpaid interest. Interest income was recorded on the accrual basis. Related fees were recorded as administrative expenses when they were incurred. No allowance for credit losses has been recorded as of December 29, 2023 and December 31, 2022. If a participant ceased to make loan repayments and the plan administrator deemed the participant loan to be in default, the participant loan balance was reduced and a benefit payment was recorded.

Payment of benefits

Benefits were recorded when paid.

Administrative expenses

Certain expenses of the Plan were paid by the Company and are not included in the statements of changes in net assets available for benefits. Fees related to the administration of notes receivable from participants were charged directly to the respective participant's account and are included in administrative expenses. Certain investment related expenses are included in net appreciation (depreciation) in fair value of investments.

Note 3 - Information prepared and certified by the trustee

The plan administrator elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Fidelity, the trustee of the Plan, has certified that the following data included in the accompanying financial statements is complete and accurate:

- Investments at fair value
- Net appreciation (depreciation) in fair value of investments
- Interest and dividend income
- Notes receivable from participants
- Interest income on notes receivable from participants

The Plan's independent public accountants did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements.

Note 4 - Fair value measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820, *Fair Value Measurement*, are described below.

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include quoted prices for similar assets and liabilities in active markets; quoted prices for identical or similar assets and liabilities in inactive markets; inputs other than quoted market prices that are observable for the asset or liability; and inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based upon the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodology used for assets measured at fair value.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Self-directed brokerage account: The self-directed brokerage account holds investments in securities that have publicly quoted pricing inputs. These accounts have cash, mutual funds and corporate stocks as the underlying assets. Investments are valued at the closing price reported on the active market on which the individual securities are traded.

December 29, 2023 and December 31, 2022

Note 4 - Fair value measurements (continued)

Stable value common collective trusts: Stable value funds that are composed primarily of fully benefit-responsive investment contracts and are valued at the NAV of units of the collective trust. The NAV, as provided by the trustee, is used as practical expedient to estimate fair value. Participant transactions (purchases and sales) may occur daily. If the Plan initiates a full redemption of the collective trust, the issuer reserves the right to require 12 months' notification in order to ensure that securities liquidations will be carried out in an orderly business manner.

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2022. There were no investments as of December 29, 2023 due to the Plan merging into the successor plan.

	Investments at Fair Value as of December 31, 2022			
	Level 1	Level 2	Level 3	Total
Mutual funds	\$ 87,195,418	\$ -	\$ -	\$ 87,195,418
Self-directed brokerage account	474,881	-	-	474,881
Total assets in the fair value hierarchy	\$ 87,670,299	\$ -	\$ -	87,670,299
Investments measured at NAV*				6,047,516
Total				\$ 93,717,815

- * In accordance with Subtopic 820-10, certain investments that are measured at fair value using the next asset value per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statement of net assets available for benefits.

The fair value of the investment in the common collective trust funds has been estimated using the net asset value of the investment. The common collective trust funds are redeemed on a daily basis and do not have any redemption restrictions. Additionally, there are no unfunded commitments.

Net income (loss) per Schedule H of Form 5500	<u>\$ 8,310,821</u>	<u>\$ (20,717,571)</u>

Note 6 - Related party transactions and party-in-interest transactions

Certain Plan investments were mutual funds managed by Fidelity. Fidelity was the trustee as defined by the Plan and therefore, these investments and related investment transactions qualify as party-in-interest transactions. Fees incurred by the Plan for the investment management services are included in net appreciation (depreciation) in fair value of investments, as they are paid through revenue sharing, rather than direct payment. The Plan made direct payments to Fidelity for plan expenses totaling \$15,819 in 2023 and \$96,286 in 2022. The plan sponsor paid directly any other fees related to the Plan's operations.

Note 7 - Plan termination

During 2023, the Plan merged into the West Fraser Inc. 401(k) Plan, effective December 29, 2023. The employees that were merged into the West Fraser Inc. 401(k) Plan will be 100% vested after one (1) of service, with no vesting earned prior to one (1) year of credited service.

WEST FRASER INC. 401(k) PLAN FOR OSB EMPLOYEES

Notes to Financial Statements (Continued)
December 29, 2023 and December 31, 2022

Note 8 - Tax status

The IRS has determined and informed the Company by a letter dated June 30, 2020 that the Plan is designed in accordance with the applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the plan administrative committee believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain tax position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits in progress for any tax periods.

Note 9 - Subsequent events

Plan management has evaluated subsequent events through August 6, 2024, which is the date that the financial statements were available to be issued and noted no items requiring disclosure.
