Report of Independent Auditors

The Stamford Health Board of Directors, Trustees, and Participants
Stamford Health System Retirement Income Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of Stamford Health System Retirement Income Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2023 and 2022 (in liquidation), and the related statements of changes in net assets available for benefits for the years then ended (in liquidation), and the related notes (collectively referred to as the “financial statements”).

Management, having determined it is permissible in the circumstances, has elected to have the audits of the financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor’s Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor’s Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 2023 and 2022, and for the years then ended, stating that the certified investment information, as described in Note 5 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor’s Responsibilities for the Audit of the Financial Statements section

- the amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

- the information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Adoption of Liquidation Basis of Accounting

As discussed in Note 1 to the financial statements, the governing body of the Plan approved a plan of liquidation on May 26, 2021, and management determined liquidation is imminent. As a result, the accompanying financial statements are prepared on a liquidation basis. Our opinion is not modified with respect to this matter.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is

not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control related matters that we identified during the audit.

Other Matter

Supplemental Schedules Required by ERISA

The supplemental schedules of assets (held at end of year) as of December 31, 2023, and reportable transactions for the year then ended (referred to as the “supplemental schedules”), are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor’s Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the Department of Labor’s Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion

- the form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the Department of Labor’s Rules and Regulations for Reporting and Disclosure under ERISA.
- the information in the supplemental schedules related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Stamford Health System Retirement Income Plan

Notes to Financial Statements (In Liquidation)

December 31, 2023

1. Description of the Plan

The following description of the Stamford Health System Retirement Income Plan (the Plan) provides general information about the Plan's provisions. Stamford Health, Inc., and its affiliates (Stamford Health) is the plan sponsor. Participants should refer to the plan document and summary plan description for a more complete description of the Plan's provisions, copies of which may be obtained from the plan sponsor.

General

The Plan is a terminated defined benefit pension plan for eligible employees of Stamford Health. The Plan is administered by the persons appointed by Stamford Health's Board of Directors. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA).

Stamford Health's Pension Committee (the Committee) is responsible for the general administration of the Plan. Northern Trust Company is the trustee of the Plan.

As of January 1, 2003, the Plan included only those employees who were employed, enrolled in, and elected to continue earning future benefits under the Plan as of that date. All employees hired on or after August 1, 2002, and those employees hired prior to August 1, 2002, who elected not to continue earning future benefits in the Plan after January 1, 2003, are earning future benefits under the Stamford Health System Defined Contribution Retirement Plan established on December 31, 2002.

In December 2015, the Plan was amended to cease future benefit accruals under the Plan after July 9, 2016. The amendment also provided eligible participants actively employed by Stamford Health on July 9, 2016, with the service credit for benefit accrual purposes that they would otherwise have been credited with for the 2016 plan year had benefit accruals not ceased as of July 9, 2016. July January

Effective January 1, 2017, the Plan was restated to incorporate all amendments since the prior restatement and to conform the Plan to the requirements of the 2015 Cumulative List of Changes in Plan Qualification Requirements as outlined in Notice 2015-84 that was issued by the Internal Revenue Service (IRS) in December 2015.

1. Description of the Plan (continued)

Plan Termination

On May 26, 2021, the Board of Directors of Stamford Health approved the termination of the Plan, effective December 31, 2021 (Termination Date), according to the standard termination rules under Section 4041(b) of the Employee Retirement Income Security Act of 1974, as amended (“ERISA”) and subsequently determined that the Plan termination is imminent under generally accepted accounting principles per the definitions applicable to Accounting Standards Codification (ASC) 960. An application was filed with the Internal Revenue Service (the “IRS”) in November 2021 for an advance determination as to whether the Plan meets the qualification requirements of the Code section 401(a). The application was approved by the IRS in February 2022.

Approximately \$232,700,000 of Plan assets were distributed by April 11, 2023. The Plan assets were distributed either via a lump sum payment to each active and deferred vested participant who elected such form (approximately \$38,800,000) or via an annuity contract underwritten by Fidelity & Guarantee Life Insurance Company (approximately \$193,900,000). In July 2023, there was an asset transfer to the PBGC for any lost or unresponsive Plan participants or beneficiaries (approximately \$2,800,000) as of the asset distribution date. All participants who received periodic benefits will continue to receive their benefit payments, per the remaining applicable terms of the originally elected form of payment, without disruption under the terms of the aforementioned annuity contract. The rights of Plan participants to their accrued benefits to date are non-forfeitable. Through these payments, the obligations to all Plan participants were satisfied. See Notes 4 and 9.

Eligibility and Vesting

Employees were eligible to participate in the Plan on the first day of any month following 12 months of employment, during which the employee completed at least 975 service hours, provided they were not covered by another qualified pension plan endorsed by Stamford Health and were not under an educational program sponsored by Stamford Health. A participant was not credited with more than one year of service, for any purpose under the Plan, in a year of termination/re-establishment. A participant became 100% vested in his or her accrued benefit upon completion of five years of service and is entitled to receive benefits at the beginning of his/her normal retirement age (65).

1. Description of the Plan (continued)

Benefits

The accrued benefit of any participant in the Plan as of the Termination Date, to the extent it was not frozen prior to that date, were frozen as of and after that date. The Plan provides for retirement benefits based on a formula related to a participant's years of service. For participants hired prior to January 1, 1995, the normal form of payment is a life annuity with 120 payments certain. For married participants, the normal form is an actuarial equivalent Joint and 50% Survivor Annuity with 120 payments certain.

For participants hired on or after January 1, 1995, the normal form is a life annuity or, for married participants, an actuarial equivalent Joint and 50% Survivor Annuity.

Effective June 1, 2003, the Plan was amended to accommodate employees working part-time after age 65. The provision requiring suspension of benefits in any month that the part-time employee worked at least 40 hours was amended so that benefits are suspended if the employee works at least 80 hours.

Effective April 29, 2004, the following amendments were made to the Plan:

- To prohibit per diem employees, who work on an as needed basis, hired prior to August 1, 2002 that were not participants of the Plan as of August 1, 2002 from participating in the Plan.
- To prohibit participants who incur a break in service of greater than one year for reasons other than disability, after December 31, 2002, from accruing additional benefits under the Plan.
- To provide for an actuarial equivalent benefit to be paid in cases of delayed commencement of benefits following a participant's normal retirement date.

1. Description of the Plan (continued)

Administrative Expenses

The Plan incurs administrative expenses directly related to the Plan, which consisted primarily of actuarial fees, trustee fees, and Pension Benefit Guaranty Corporation (PBGC) fees. These expenses are reported on the statements of changes in net assets available for benefits as administrative expenses. Expenses relating to purchases, sales, or transfers of the Plan's investments are charged to the particular investment fund to which the expenses relate. All other administrative expenses are paid by the Company on behalf of the Plan.

For the years ended December 31, 2023, and 2022, the accompanying financial statements have been prepared using the liquidation basis of accounting. When a plan uses liquidation basis of accounting, it considers the period over which the liquidation will occur, as well as the nature of expenses that will be incurred and reported by the Plan during the liquidation period. These future expense amounts have been accrued in the statement of net assets available for benefits in liquidation as "accrued expenses expected to be incurred in liquidation".

2. Summary of Significant Accounting Policies

Basis of Presentation

The financial statements have been prepared on the liquidation basis of accounting. As a result, Plan assets are stated at their estimated net realizable values and liabilities are stated at their net settlement amounts.

Use of Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles (GAAP) requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes and supplemental schedules. Actual results could differ from those estimates.

Notes to Financial Statements (continued) (In Liquidation)

2. Summary of Significant Accounting Policies (continued)

Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market volatility, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term, and that such changes could materially affect the amounts reported in the accompanying financial statements.

Investment Valuation and Income Recognition

As of December 31, 2023, the Plan's investments consisted only of cash and cash equivalents held with the Northern Trust Company.

As of December 31, 2022, marketable securities (common stock, government securities, corporate debt securities and mutual funds) were valued at fair value (quoted market value). Alternative investments (nontraditional, not readily marketable asset classes), some of which were structured such that the Plan held limited partnership interests, were stated at fair value as estimated in an unquoted market. Individual investment holdings of the Plan may have, in turn, included investments in both non-marketable and market-traded securities. Valuations of these investments and, therefore, the Plan's holdings, may have been determined by the investment manager or general partner. Values may have been based on historical cost, appraisals, or other estimates that require varying degrees of judgment. Generally, fair value reflects net contributions to the investee and an ownership share of realized and unrealized investment income (loss) and expenses. The investments may have indirectly exposed the Plan to securities lending, short sales of securities, and trading in futures and forwards contracts, options and other derivative products. The Plan's risk was limited to its carrying value. The financial statements of the investees were audited annually by independent auditors.

Stamford Health System Retirement Income Plan

Notes to Financial Statements (continued) (In Liquidation)

2. Summary of Significant Accounting Policies (continued)

As of December 31, 2022, fair value of alternative investments was determined by the Plan's management for each investment based upon, as a practical expedient, the net asset values of each investment. There is uncertainty in determining fair value of alternative investments arising from factors such as lack of active markets (primary and secondary), lack of transparency into underlying holdings, time lags associated with reporting by the investee companies and the subjective evaluation of liquidity restrictions. As a result, the estimated fair values reported in the accompanying statements of net assets available for benefits might differ from the values that would have been used had a ready market for alternative investment interests existed and there is at least a reasonable possibility that estimates will change.

The Plan's valuation methods described above may produce a fair value that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different estimate of fair value at the reporting date.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

Payments of Benefits

Benefits are recorded when paid.

3. Funding Policy

Stamford Health's contributions are determined on the basis of actuarial valuations and are designed to cover the current costs of the Plan and a contribution toward the liquidation of the unfunded past service cost. The calculations of the present value of accumulated plan benefits under the Plan and of the actuarially determined prior service costs were made by the Plan's external actuary. For the years ended December 31, 2023 and 2022, the Plan met the minimum funding requirements of ERISA.

Stamford Health System Retirement Income Plan

Notes to Financial Statements (continued) (In Liquidation)

4. Accumulated Plan Benefits

Accumulated plan benefits represent the actuarial present value of estimated future periodic payments, including lump-sum distributions that are attributable under the Plan's provisions to the services rendered by the employees to the valuation date. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. Benefits under the Plan are based on employees' average final compensation, defined as the five highest plan years of compensation in the last ten years of employment. Benefits payable under all circumstances: retirement, death, disability, and termination of employment are included, to the extent they are deemed attributable to employee service rendered, up to the valuation date.

As of December 31, 2023, due to the termination and settlement of obligations described in Note 1, there is no accumulated plan benefit remaining.

5. Investments

Other than the fair value of an investment in Bounty Minerals Holdings, LLC as of December 31, 2022 and the related net appreciation (depreciation) in fair value of the investment for the year then ended, certain information related to the investments for the Plan disclosed in the accompanying financial statements and supplemental schedules, including investments held at December 31, 2023 and 2022, and net appreciation (depreciation) in fair value of investments, interest and dividends for the years then ended, was obtained or derived from information provided to the plan administrator and certified as complete and accurate by Northern Trust Company. The following investment information was not certified by the trustee:

	December 31	
	2023	2022
Bounty Minerals Holdings, LLC	\$ —	\$ 3,527,166

6. Fair Value Measurements

For assets and liabilities required to be measured at fair value, the Plan measures fair value based on the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

The fair value framework establishes a hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets and liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described below:

- Level 1 – Unadjusted quoted prices in active markets that are accessible to the reporting entity at the measurement date for identical assets and liabilities.
- Level 2 – Inputs other than quoted prices in active markets for identical assets and liabilities that are observable either directly or indirectly for substantially the full term of the asset or liability.
- Level 3 – Significant unobservable inputs for the asset or liability (i.e., supported by little or no market activity). The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2023 and 2022.

Cash and Cash Equivalents: Valued at the closing price reported on the active market on which the individual securities are traded.

Mutual Funds (publicly traded) and Corporate Debt Securities: Measured at fair value based upon quoted market prices.

Government Securities: Value based on quoted prices for similar instruments in active markets, quoted prices for identical or similar instruments in markets that are not active, and model-based valuation techniques for which all significant assumptions are observable in the market or can be corroborated by observable market data for substantially the full term of the assets. Inputs are obtained from various sources, including market participants, dealers and brokers.

6. Fair Value Measurements (continued)

Partnerships and Hedge Funds: Valued at net asset value as a practical expedient based on net contributions to the investee and an ownership share of realized and unrealized investment income (loss) and expenses. Values may be based on estimates that require varying degrees of judgment (see Note 2).

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by fair value hierarchy level, the Plan's assets at fair value as of December 31, 2023 and 2022:

	2023			
	Level 1	Level 2	Level 3	Total
Cash and cash equivalents	\$ 485,144	\$ –	\$ –	\$ 485,144
Total assets at fair value	\$ 485,144	\$ –	\$ –	\$ 485,144

6. Fair Value Measurements (continued)

	2022			
	Level 1	Level 2	Level 3	Total
Cash and cash equivalents	\$ 8,506,553	\$ –	\$ –	\$ 8,506,553
Corporate debt securities	227,578,240	–	–	227,578,240

Mutual funds	282,605	–	–	282,605
	<u>\$ 236,367,398</u>	<u>\$ 18,815,593</u>	<u>\$ –</u>	<u>255,182,991</u>

Investments measured at net
asset value:

Partnerships ^(a)	7,712,587
Hedge funds ^(b)	297,828

Total assets at fair value \$ 263,193,406

^(a) Partnerships are private equity investments that seek to generate acceptable returns in private companies over an investment period. The Plan considers redemptions that could occur within 120 days of its measurement date to be near-term. All of the partnership investments have redemption restrictions in place based on the Plan's future funding commitments of \$0 and \$1,024,983 as of December 31, 2023, and 2022, respectively.

^(b) Hedge funds and funds of hedge funds pursue a variety of investment strategies. The Plan holds multiple hedge funds and funds of hedge funds in an attempt to diversify exposures to multiple investment strategies and their respective risks, while attempting to reduce volatility. The underlying investments can include domestic and international equity securities, fixed income securities, convertible debt, distressed debt, merger arbitrage, real estate, private investments, and hedge funds (in the case of funds of funds). The redemption terms vary among funds but in most cases the Plan can normally redeem monthly or quarterly with 30 to 120 days' notice.

7. Tax Status

The Plan has received a determination letter from the IRS dated February 16, 2022, stating that the terminated Plan is qualified under Section 401(a) of the Internal Revenue Code (the Code) and therefore, the related trust is exempt from taxation. Subsequent to this determination by the IRS, the Plan was amended. This determination letter also stated that the termination of the Plan does not affect its qualified status. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualified status. The plan administrator believes the Plan is being operated in compliance with the applicable requirements of the Code and therefore, believes the Plan is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. Plan management has analyzed the tax positions taken by the Plan and has concluded that there are no uncertain positions taken or expected to be taken. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

8. Party-In-Interest Transactions

Certain of the Plan's assets are invested in funds managed by the trustee of the Plan. These transactions qualify as party-in-interest transactions; however, they are exempt from the prohibited transactions rules under ERISA.

9. Termination of the Plan

Substantially all of the Plan's holdings were fully liquidated by Stamford Health in 2023. Upon liquidation, the net assets of the Plan were distributed to the participants in an order of priority determined in accordance with ERISA and its applicable regulations, and with the Plan document. See Note 1.

Stamford Health System Retirement Income Plan

Notes to Financial Statements (continued) (In Liquidation)

9. Termination of the Plan (continued)

Upon full liquidation of the Plan's assets, and after any final expenses were paid, Stamford Health caused the amount remaining in the Plan to be distributed according to the following categories, in the following order:

- (a) Stamford Health allocated an amount necessary to provide retirement income for participants and other individuals who, three years prior to the Plan's termination date, were either receiving retirement income, or would have been eligible to receive retirement income had they then retired.
- (b) Stamford Health allocated an amount necessary to provide all other retirement income guaranteed under Title IV of ERISA, as determined in accordance with Section 4044 thereof.
- (c) Stamford Health allocated an amount necessary to provide all other retirement income not guaranteed by the Pension Benefit Guaranty Corporation (PBGC), which vests in each participant, assuming that the Plan's termination date is his or her termination of employment date.
- (d) Stamford Health allocated an amount necessary to provide all other retirement income accrued by participants as of the Plan's termination date but not then vested.

After the assets of the Plan were withdrawn and allocated in accordance with the terms above, and all expenses payable by the Plan were paid, any amount remaining in the Plan was returned to Stamford Health.

10. Subsequent Events

Plan management has evaluated subsequent events for the Plan through July 29, 2024, the date the accompanying financial statements were available to be issued. The remaining Plan assets of \$485,144 were transferred to Stamford Health in 2024. No other subsequent events have occurred that require disclosure in, or adjustment to, the accompanying financial statements.
