**Statement by Enrolled Actuary**

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

| Part I | Service Provider Information (see instructions) |
|--------|-------------------------------------------------|

You must complete this Part, in accordance with the instructions, to report the information required for **each person** who received, directly or indirectly, \$5,000 or more in total compensation (i.e., money or anything else of monetary value) in connection with services rendered to the plan or the person's position with the plan during the plan year. If a person received **only** eligible indirect compensation for which the plan received the required disclosures, you are required to answer line 1 but are not required to include that person when completing the remainder of this Part.

1 Information on Persons Receiving Only Eligible Indirect Compensation

- a Check "Yes" or "No" to indicate whether you are excluding a person from the remainder of this Part because they received only eligible indirect compensation for which the plan received the required disclosures (see instructions for definitions and conditions)..... ☒ Yes ☐ No
- b If you answered line 1a "Yes," enter the name and EIN or address of each person providing the required disclosures for the service providers who received only eligible indirect compensation. Complete as many entries as needed (see instructions).

## INDEPENDENT AUDITOR'S REPORT

Plan Administrator  
Loparex, Inc. Cullman Union Retirement Plan  
Defined Benefit Pension Plan  
Cary, North Carolina

### Scope and Nature of the ERISA Section 103(a)(3)(C) Audit for the 2021 Financial Statements

We have performed audits of the financial statements of **Loparex, Inc. Cullman Union Retirement Plan** (Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statement of net assets available for benefits as of December 31, 2022 and 2021, and the related statement of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 2022 and 2021, and for the years then ended stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

## **Opinion**

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section:

- The amounts and disclosures in the financial statements referred to above, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- The information in the financial statements referred to above related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

## **Basis for Opinion**

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

## **Responsibilities of Management for the Financial Statements**

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current Plan instrument, including all Plan amendments; administering the Plan; and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

## **Auditor's Responsibilities for the Audit of the Financial Statements**

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

### **Other Matter – Supplemental Schedule(s) Required by ERISA**

The Schedule of Assets Held for Investment Purposes for the year ended December 31, 2022, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including their form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, is presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

**Loparex Inc. Cullman Union Retirement Plan**  
**Defined Benefit Pension Plan**  
**Notes to the Financial Statements**

---

**1. Description of the Plan**

The Loparex Inc. Cullman Union Retirement Plan (Plan) was established on January 1, 1983, and was amended and restated effective January 1, 2008. The following description of the Plan is provided for general information purposes only. Participants should refer to the Plan agreement for more complete information.

**General** – The Plan is a noncontributory defined benefit pension plan covering union members of the Cullman Alabama Plant of Loparex Inc. (Company), who have attained age 21 and have completed one year of service. As of December 31, 2008, Plan benefits were frozen for all employees. The Cullman plant was closed July 31, 2011. The Plan is subject to the provisions of the Employee Retirement Security Act of 1974 (ERISA), as amended.

**Pension Benefits** – Employees with five years of Plan participation are entitled to monthly pension benefits beginning at normal retirement age (65). The Plan permits early retirement beginning at the age of 60. The early retirement benefit is the participant's accrual benefit determined as of the participant's early retirement date and reduced by  $\frac{1}{4}$  of 1% for each month that the early retirement date precedes the normal retirement date. Participants may elect to receive their pension benefits in the form of a joint and survivor annuity or paid in a lump sum.

**Death Benefits** – A participant's surviving spouse will be entitled to receive a death benefit on the event of the death of a participant prior to the commencement of a monthly pension benefit but following the participant's completion of 5 years of service.

Benefits for Plan participants are based on a formula pursuant to which participants earn a benefit for each year of participation times a multiplier as defined in the Plan document in effect prior to Plan benefits being frozen.

**2. Summary of Significant Accounting Policies**

**Basis of Accounting** – The Plan's financial statements are prepared on the accrual basis of accounting.

**Use of Estimates** – The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, disclosure of contingent assets and liabilities, and the actuarial present value of accumulated Plan benefits at the date of the financial statements, and changes therein. Actual results could differ from those estimates.

**2. Summary of Significant Accounting Policies (cont'd)**

**Investments Valuation and Income Recognition** – Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 6 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

**Payment of Benefits** – Benefit payments to participants are recorded upon distribution.

**Administrative Expenses** – The Plan's expenses are paid either by the Plan or the Company, as provided by the Plan document. Expenses that are paid directly by the Company are excluded from these financial statements. Certain investment related expenses are included in net appreciation of fair value of investments presented in the accompanying statement of changes in net assets available for benefits.

**Subsequent Events** – The Plan has evaluated subsequent events through August 7, 2024, the date the financial statements were available to be issued.

**3. Information Prepared and Certified by Custodian**

The Company, acting in its capacity as the Plan administrator, has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. The following is a summary of the unaudited information regarding the Plan as of December 31, 2022 and 2021, and for the years then ended, included in the Plan's financial statements and supplemental schedules, that was prepared by or derived from information prepared by Principal Life Insurance Company, the Plan's custodian, and furnished to the Company. The Company has obtained certification from the custodian as of December 31, 2022 and 2021, and for the years then ended that such information is complete and accurate.

**4. Funding Policy**

The Company makes contributions to the Plan annually in the amount necessary to satisfy the Employee Retirement Income Security Act of 1974 (ERISA) funding standards. Contributions are intended to provide for benefits attributed to service to date. Company contributions meet the minimum funding requirements of ERISA and the Internal Revenue Code (IRC).

**5. Actuarial Present Value of Accumulated Plan Benefits**

Accumulated Plan benefits represent the present value of future periodic payments, including lump-sum distributions that are attributable under the Plan's provisions to the services participants have rendered. Accumulated Plan benefits include benefits expected to be paid to retired or terminated vested participants or their beneficiaries and beneficiaries of participants who have died.

The actuarial present value of accumulated Plan benefits is determined by the Plan's consulting actuaries and is that amount that results from applying actuarial assumptions to adjust the accumulated Plan benefits to reflect the time value of money (through discounts for interest), and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment. The significant actuarial assumptions used in the valuations as of January 1, 2022 and 2021, were:

**Life Expectancy of Participants** – As of January 1, 2020, Based on PRI-2012 total dataset mortality table projected to future years with historical and assumed mortality improvement (MI) rates using the Principal Mortality Improvement Scale (PFG2017-10). Principal 2017-10 MI scale is based on MP-2021 study and model issued by the SOA with the exception of the following assumptions:

- 10-year convergence period on age and cohort.
- Long-term rates assumptions using sex-distinct and age-based rates developed from Social Security Trustees Reports.

As of January 1, 2019, Based on RP-2006 total dataset mortality table projected to future years with historical and assumed mortality improvement (MI) rates using the Principal Mortality Improvement Scale (PFG2013-10). RP-2006 is a baseline mortality rates table underlying the SOA RP-2014 experience study as of central year of the experience data for 2004-2008 years. The Principal Mortality Improvement scale is based on the Society of Actuaries MI model RPEC\_2014\_v2017 and Principal-selected assumption set published November 2017.

**Retirement Age Assumptions** – The assumed average retirement age was 65.

**Defined Benefit Pension Plan**  
**Notes to the Financial Statements (cont'd)**

---

**5. Actuarial Present Value of Accumulated Plan Benefits (cont'd)**

**Interest Rates** – The assumed interest rate used to discount the accrued Plan benefits was 5.25% as of January 1, 2022 (4.75% as of January 1, 2021).

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated Plan benefits.

As of January 1, 2022, (the date of the most recent actuarial reports), the actuarial present value of accumulated Plan benefits was as follows:

|                                                       | <u>2022</u>         |
|-------------------------------------------------------|---------------------|
| Vested benefits:                                      |                     |
| Participants in pay status                            | \$ 3,869,869        |
| Inactive participants                                 | <u>1,943,919</u>    |
| Total actuarial present value of accumulated benefits | <u>\$ 5,813,788</u> |

The changes in actuarial present value of accumulated Plan benefits for the year ended January 1, is as follows:

|                                                                          | <u>2022</u>         |
|--------------------------------------------------------------------------|---------------------|
| Actuarial present value of accumulated benefits at beginning of the year | <u>\$ 6,455,179</u> |
| Increase during the year attributable to:                                |                     |
| Increase for interest due to decrease in the discount period             | 297,844             |
| Benefits paid                                                            | (373,878)           |
| Benefits accumulated and plan experience                                 | (259,773)           |
| Change in assumptions                                                    | <u>(305,584)</u>    |
| Net decrease                                                             | <u>(641,391)</u>    |
| Actuarial present value of accumulated benefits at end of the year       | <u>\$ 5,813,788</u> |

Changes in assumptions include an updated mortality assumption and segment interest rates used for liabilities in the calculation of annual cost, rate of return and inflation rate assumption.

**6. Fair Value Measurements**

Investments consist of pooled separate accounts (PSA) which are measured at fair value using the net asset value per share (or its equivalent) practical expedient. Investments may be redeemed at their net asset values (NAV) as of the measurement date. The NAV is based on the value of the underlying assets owned by the PSA, minus any liabilities, and then divided by the number of shares outstanding. The funds have no unfunded commitments. The following categories are included in the PSAs:

**Large U.S. Equity:** Seeks to provide long-term growth of capital by primarily investing in companies with large market capitalizations.

**Mid U.S. Equity:** Seeks to provide long-term growth of capital by primarily investing in companies with medium market capitalizations.

**Small U.S. Equity:** Seeks to provide long-term growth of capital by primarily investing in companies with small market capitalizations.

**International Equity:** Invests the majority of assets in securities of companies with small to medium market capitalizations that meet the following criteria: (1) principal place of business or principal office is located in emerging market countries or outside of the United States; (2) principal securities are traded in an emerging market or on a foreign exchange; and (3) derive 50 percent or more of their total revenue from goods or services produced in emerging market countries or produced or sold outside of the United States.

**Fixed Income:** Invests in assets that are fixed income investments such as bonds or certificates of deposit for which the real return rates or periodic income is received at regular intervals and at reasonably predictable levels.

**Loparex Inc. Cullman Union Retirement Plan**  
**Defined Benefit Pension Plan**  
**Notes to the Financial Statements (cont'd)**

**7. Tax Status**

The Internal Revenue Service has determined and informed the Company, by a letter dated May 14, 2010, that the Plan satisfies the qualification requirements of applicable sections of the Internal Revenue Code (IRC). The Plan administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2017.

**8. Plan Termination**

In the event of the termination of the Plan, the rights of all participants and beneficiaries to benefits, to the extent funded, will be non-forfeitable and the net value of the Plan's assets will be apportioned and distributed in accordance with the provisions of the Plan. The Pension Benefit Guaranty Corporation insures certain benefits under the Plan if the Plan terminated.

In no event, however, shall any of the assets of the Plan revert to any participating employer, the union or any local union.

Certain benefits under the Plan are insured by the Pension Benefit Guaranty Corporation (PBGC) (a U.S. governmental agency) if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's pensions.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide those benefits and may also depend on the level of benefits guaranteed by the PBGC.

**Notes to the Financial Statements (cont'd)**

---

**9. Risks and Uncertainties**

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets available for benefits.

Plan contributions are made, and the actuarial present value of accumulated Plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

**10. Party-in-Interest Transactions**

Principal Life Insurance Company is the custodian of the Plan, therefore, qualifies as a party-in-interest. The Plan has investments in pooled separate accounts managed by Principal Life Insurance Company and are party-in-interest transactions. As described in Note 2, the Plan paid certain expenses related to investment activity to various service providers. These transactions are party-in-interest transactions under ERISA. Fees incurred by the Plan for investment management services are included in net appreciation (depreciation) in fair value of the investment, as they are paid through revenue sharing, rather than a direct payment.

Methods selected by plan sponsor

**Asset method**

The asset valuation method is prescribed by law for plans that elect to use a value other than market value.

For each of the preceding two years, an expected value of assets at the end of the year is compared to the end of year market value. The resulting gain or loss is recognized evenly over three plan years.

The expected value includes contributions, distributions, any deducted administrative expenses, and expected earnings (based on the lesser of the assumed interest rate or the maximum allowable rate). The deferred gains and losses are added to the current market value and then restricted to no more than 110% and no less than 90% of that market value.

When actual returns exceed the assumed return, the actuarial value of assets will lag below market value. The lag and the smoothing effect are limited since the value must be within 10% of market value.

**Segment rates**

24-month average with no weighting to prior law basis. Use rates where August is the last month included in the average.

**PBGC premium basis**

Variable Rate Premiums are calculated using census, market value of assets and interest rates in effect on the current valuation date. Interest rates are the 24-month average rates used for annual cost but without the interest rate corridor defined in IRC §430(h)(2)(C)(iv). You elected this Alternative interest method for the 01/01/2020 plan year and this method must be used for five years before a change can be made.

Methods elected by actuary

**Retirees**

Assets and liabilities for current and future retirees are included.

**Vested benefits**

A benefit is included in vested benefits if it meets the requirements under PBGC. The benefit is multiplied by the participant's vesting percentage applicable to each benefit on the valuation date.

The following ancillary benefits are always treated as nonvested: disability benefits payable to retirement age unless in pay status, pre-retirement death benefits in excess of the survivor annuity death benefit and post retirement death benefits for non-retired participants except as noted in the Plan provisions.

Assumptions and methods elected by actuary - plan accounting (ASC 960)

With the exceptions below, all assumptions and methods are the same as those used in determining your plan's regular funding target and target normal cost.

## **Mortality**

Based on Pri-2012 Total dataset base rate mortality table projected generationally using the using the Principal Mortality Improvement Scale (Principal 2017-10).

### **Base rates**

#### Before benefit payment period

Employee amount-weighted, male and female

#### During benefit payment period

Retiree amount-weighted, male and female

The Society of Actuaries (SOA) is an actuarial organization that periodically reviews mortality data and publishes mortality tables and improvement scales. In October 2019, the SOA released the Pri-2012 Mortality Tables for private-sector retirement plans in the U.S. The Pri-2012 report contains different sets of mortality tables based on complete dataset or various subsets. The Total dataset base rate table was selected based on information provided by the plan sponsor.

Pri-2012 section 12.4. provided three approaches for designated beneficiaries in the calculation of joint-and-survivor annuities. We believe "Approach 1" is reasonable for this plan and has been selected due to data limitations in identifying contingent survivors. In addition, we believe beneficiary mortality isn't materially different while both participants are alive.

### **Mortality improvement (MI)**

Principal 2017-10 MI scale: this scale is based on MP-2021 study and model issued by SOA with the exception of the following user-selected assumptions:

- 10-year convergence period on age and cohort
- Long-term rates (LTR) assumptions using sex-distinct and age-based rates developed from Social Security Trustees Reports.

See Mortality Documentation for rationale and additional information.

**Interest rate used to value liabilities**

5.25%

The interest rate used to value ASC 960 liabilities is developed as long-term expected geometric return on plan assets. Arithmetic expected return is calculated as the weighted average of broad asset classes' arithmetic returns of the plan's target asset allocation, and then converted to the geometric under lognormal distribution assumption. For details, see Long-Term Capital Market Assumptions link.

**Treatment of administrative expenses**

No adjustments are made for administrative expenses, either through a reduction in the discount rate or by calculating a present value of future expenses.

Plan sponsors may change their administrative expense handling at any time. Our approach provides consistent handling of ASC 960 liabilities from year to year, whether expenses are paid with plan assets or directly by the employer.

Note - expenses paid with plan assets are required to be included in funding normal cost. As a result, the plan is reimbursed annually through required funding. Exception – contributions are not required due to assets sufficiently in excess of liabilities to fund both expenses and normal cost. In this case, administrative expenses are taken from the excess assets.

**Statement by Enrolled Actuary**

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

**Optional forms of benefit payments**

The optional forms of benefit payments are:

Monthly annuity payable for life, 10 years certain and life

Monthly annuity payable as a survivorship life annuity with survivorship percentages of 50, 75, or 100.

The optional form conversion basis, on and after August 1, 2009, uses the applicable interest rate and applicable mortality table as set forth in Code Section 417. The applicable interest rate uses the month of November preceding the first day of the calendar year that contains the annuity starting date. However, a participant's retirement benefit shall never be less than the benefit calculated as of July 31, 2009, using the actuarial equivalent factors and formulas listed in Appendix I of the plan document.

**Changes in Principal Eligibility or Benefit Provisions**

There have been no changes in principal eligibility or benefit provisions since the last valuation.

**Significant Event**

The enrolled actuary has not been made aware that any significant events have occurred during the year.

Schedule SB, Line 24 – Change in Actuarial Assumptions  
Loparex Inc. Cullman Union Retirement Plan  
EIN 36-3029659 Plan No. 002

Certain non-prescribed assumptions have been changed since last year. These assumptions were changed to better reflect the anticipated experience of your plan. See the attachment, Part V – Statement of Actuarial Assumptions/Methods, for the rationale for each assumption.

The assumed asset return for the current year has increased from 5.25% to 5.50%. This rate is used in the calculation of the actuarial value of plan assets.

The inflation assumption has increased from 2.25% to 2.40%.
