Weighted Average Retirement Age

Plan Year: 1/1/2023 to 12/31/2023

Valuation Date: 1/1/2023

The weighted average retirement age of 65 is the average of the assumed retirement ages for all active participants as of the valuation date weighted based on the funding target and rounded to the nearest whole age. For an active late retiree, the assumed retirement age may be later than the Plan's normal retirement age. Each participant's rate of retirement is assumed to be 100% as of the participant's assumed retirement age.

Line 25. Change in Method.

There has been a change in both the enrolled actuary, and a change in the business organization providing actuarial services to the plan. Additionally, the new enrolled actuary uses different valuation software than the prior enrolled actuary. In comparing results of the prior enrolled actuary to, no changes in non-prescribed assumptions or other changes in method were made. The Funding Target and Target Normal Cost determined with the new software are each within 3% and the Actuarial Value of Plan Assets are within 2% of those values as determined by the prior enrolled actuary as of the prior year valuation date, using the same actuarial assumptions. The other conditions listed in Announcement 2017-56 have also been satisfied, so automatic approval for this change is provided by that Announcement.

The valuation date was changed from the last day of the plan year to the first day of the plan year in connection with the plan termination, The other conditions listed in Announcement 2017-56 for approval for this change have been satisfied, so automatic approval for this change is provided by that Announcement.
