Independent Auditors' Report

To the Participants and Plan Administrator of the
GTS Technology Solutions, Inc. 401(k) Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the accompanying financial statements of GTS Technology Solutions, Inc. 401(k) Plan, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) ERISA Section 103(a)(3)(C) audit. The financial statements comprise the statements of net assets available for benefits as of December 31, 2023, and 2022, and the related statement of changes in net assets available for benefits for the year ended December 31, 2023, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of GTS Technology Solutions, Inc. 401(k) Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 2023, and 2022, and for the year ended December 31, 2023, stating that the certified investment information, as described in Note C. to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section—

- the amounts and disclosures in the financial statements referred to above, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- the information in the financial statements referred to above related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of GTS Technology Solutions, Inc. 401(k) Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about GTS Technology Solutions, Inc. 401(k) Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments; administering the plan; and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks.

Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of GTS Technology Solutions, Inc. 401(k) Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about GTS Technology Solutions, Inc. 401(k) Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter- Supplemental Schedule Required by ERISA

The supplemental Schedule of Assets Held for Investment Purposes as of December 31, 2023, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with generally accepted auditing standards. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion—

- the form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, is presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- the information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Notes to Financial Statements

A. Description of the Plan

The following description of the GTS Technology Solutions, Inc. 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General. The Plan is a defined contribution plan that was established January 1, 2016, by GTS Technology Solutions, Inc. (the Company) and is maintained for the benefit of eligible employees, as defined in the Plan document. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Company is the Plan's sponsor and serves as plan administrator.

Eligibility. Employees of the Company are eligible to participate in the Plan upon reaching age 21 and after completing three months of service. Employees enter the Plan on the first day of the following eligible month.

Contributions. A Participant may contribute to the Plan through payroll deductions up to the maximum amount allowed by the Internal Revenue Code. Annual participant salary deferrals are limited by the Internal Revenue Code to \$22,500 for 2023. In addition, participants who have attained age 50 are permitted to contribute additional "catch-up" salary deferrals.

Participant Rollover Contributions. Eligible employees are allowed to make rollover contributions of amounts received from other tax-qualified employer-sponsored retirement plans.

Employer Matching Contributions. Any participant who elects to make a contribution is eligible to receive a discretionary matching contribution. For 2023, the Company matches 25% of employee deferrals. For the year ended December 31, 2023, the Company made Employer Matching Contributions to the Plan of \$257,508.

In addition to the above Employer Matching Contributions, the Company may, in its discretion, make a Profit Sharing Contribution on behalf of eligible participants. The Plan did not declare or fund a Profit Sharing Contribution for the year ended December 31, 2023.

Vesting. Participants are immediately and fully vested in their Elective Deferral contributions and earnings thereon. The vested balance of the employer match and employer profit sharing contributions, if any, and earnings thereon, is based on years of vesting service completed, in accordance with the following:

<u>Years of Vesting Service Completed</u>	<u>Percentage Vested</u>
1 Year	25%
2 Years	50%
3 Years	100%

A. *Description of the Plan (continued)*

Participant Accounts. Individual accounts are maintained for each participant. Each participant's account is credited with contributions and invested in accordance with the participant's investment instructions. Interest and dividends earned by the investments are credited to the accounts based on unit shares held in the account, and the accounts are adjusted daily for appreciation or depreciation in the market value of the mutual fund shares. Participants may direct the investment of their account balances among investment options offered by the Plan.

Payment of Benefits. Upon termination of employment, a participant may elect to receive the value of the vested interest in his or her account in either a lump-sum distribution or substantially equal installments. The Plan does not permit distributions prior to termination of service except for participants who have attained age 59½ or for hardship withdrawals in the event of immediate and heavy financial need for the purchase of a principal residence, the payment of medical expenses, payment of post-secondary education, payment of burial or funeral expenses, or payment for the cost of preventing eviction from or foreclosure on the mortgage of a principal residence.

Forfeited Accounts. The forfeited nonvested accounts totaled \$8,982 and \$4,376 as of December 31, 2023, and 2022, respectively. Forfeitures of \$510 were used to reduce Employer Matching Contributions for 2023.

Notes Receivable from Participants. Participants may borrow from their fund accounts up to the lesser of \$50,000 or 50% of their vested account balance. The loans are secured by the balance in the participant's account and bear interest at a rate commensurate with local prevailing rates. Principal and interest are repaid ratably through payroll deductions over a period not to exceed five years, except in the case of a loan used to acquire a principal residence. Interest earnings on loans are allocated to the participant's account.

Expenses of the Plan. Expenses incurred in the administration and operation of the Plan may be paid by the Company or from the assets of the Plan. Additionally, non-employee participants of the Plan pay their portion of the per participant fee. Administration and operation expenses in 2023 were \$9,441.

B. *Summary of Significant Accounting Policies*

Basis of Accounting. The financial statements of the Plan are prepared on the accrual method of accounting in accordance with accounting principles generally accepted in the United States of America.

GTS Technology Solutions, Inc. 401(k) Plan
Notes to Financial Statements

B. Summary of Significant Accounting Policies (continued)

Pooled Separate Accounts. Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the term of the Plan.

Investment Valuation and Income Recognition. The Plan's investments, other than fully benefit-responsive investment contracts which are stated at contract value, are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note D. for a further discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants. Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred.

Payment of Benefits. Benefits are recorded when paid.

Use of Estimates. The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein. Actual results could differ from those estimates.

Contributions. Contributions from Plan participants and the matching contributions from the Employer are recorded in the year in which participant compensation is earned.

Recent Accounting Pronouncements.

Management is not aware of any new accounting pronouncements that have been released, and are not yet effective, which will have a significant impact to its financial position or results of operations in future periods.

Subsequent Events. The Plan has evaluated subsequent events through September 6, 2024, the date the financial statements were available to be issued. See further documentation in Note J. Subsequent Events below.

C. Certified Investments

Certain information related to investments disclosed in the accompanying financial statements and supplemental schedule, including investments held at December 31, 2023, and 2022, and net appreciation in fair value of investments, interest and dividends for the year ended December 31, 2023, was obtained or derived from information supplied to the Plan Administrator and certified as complete and accurate by Voya, the Plan custodian.

D. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques and used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value.

There have been no changes in the methodologies used at December 31, 2023, and 2022.

GTS Technology Solutions, Inc. 401(k) Plan
Notes to Financial Statements

D. Fair Value Measurements (continued)

Mutual Funds: Mutual funds are valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the U.S. Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded. As such, they are classified as Level 1 investments.

Pooled Separate Accounts: The Voya variable funds are pooled separate accounts that invest directly in designated mutual funds or, in some cases, collective investment trusts. The separate account owns and holds the underlying mutual fund or collective trust shares which are valued daily at their net asset values (NAV). The credited interest rate, account balance and formulas upon which payments may be based are observable through the contract and related communications. Therefore, we believe they should be classified as Level 2 investments.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumption to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2023, and 2022:

Assets at Fair Value as of December 31, 2023				
	Level 1	Level 2	Level 3	Total
Mutual funds	\$ 7,083,849	\$ -	\$ -	\$ 7,083,849
Pooled separate accounts	-	415,402	-	415,402
Total investments in Fair Value hierarchy	\$ 7,083,849	\$ 415,402	\$ -	\$ 7,499,251

Assets at Fair Value as of December 31, 2022				
	Level 1	Level 2	Level 3	Total
Mutual funds	\$ 5,560,088	\$ -	\$ -	\$ 5,560,088
Pooled separate accounts	-	639,201	-	639,201
Total investments in Fair Value hierarchy	\$ 5,560,088	\$ 639,201	\$ -	\$ 6,199,289

E. Investment Contract

The Plan also invests in fully benefit-responsive investment contracts (pooled separate accounts via the Voya Fixed Account. Under the Voya program the Plan does not hold individual stocks, bonds, or other assets.

**GTS Technology Solutions, Inc. 401(k) Plan
Notes to Financial Statements**

E. Investment Contract (continued)

The Plan holds the Voya Retirement Insurance and Annuity Company (VRIAC) contract and/or a trust or custodial account with Voya Institutional Trust Company. VRIAC or Voya Institutional Trust Company own the underlying assets.

The Voya Fixed Accounts are credited with declared rates of interest and the Fixed Accounts are subject to a minimum rate described in the contract. Amounts allocated to the Fixed Account are held in the Voya's general account which supports insurance and annuity obligations. VRIAC's general account is managed on an aggregate basis and supports all of Voya's financial commitments. No portion of the general account is attributable to a particular plan nor do plans have any undivided ownership interest in general account assets.

The variable funds are pooled separate accounts that invest directly in designated mutual funds or, in some cases, collective investment trusts. The separate account owns and holds the underlying mutual fund or collective trust shares which are valued daily at their net asset values (NAV). Plans and participants hold "units of participation" in the separate account.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (i) plan termination; (ii) layoffs; or (iii) bankruptcy or reorganization, (iv) merger, (v) tax disqualification, or (vi) early retirement incentive programs. The Plan administrator does not believe that the occurrence of any such event, which would limit the Plan's ability to initiate transactions with the fund at contract value with participants, is probable.

The Voya Fixed Account declared crediting rate will never be below 1 percent annually.

<i>Average yields:</i>	<u>2023</u>	<u>2022</u>
Based on interest rate credited to participants	1.75%	1.65%

F. Related Party Transactions and Party in Interest Transactions

Certain Plan investments are invested in guaranteed investment funds managed by Voya. Voya is the custodian of the Plan and, therefore, these transactions qualify as party-in-interest transactions. Participant loans also qualify as party-in-interest transactions. These transactions are exempt from the prohibited transactions rules. Fees paid by the Plan for investment management services to the trustee were \$9,441 for the year ended December 31, 2023.

Notes to Financial Statements

G. Tax Status

The IRS has determined and informed the Company by a letter dated June 30, 2020, that the Plan is designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the Plan administrator believes that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believe that the Plan is qualified.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

H. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rates, market fluctuations, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits and the statements of changes in net assets available for benefits.

I. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts and distributions will be made as soon as administratively practicable after the Plan terminates.

J. Subsequent Events

Effective March 1, 2024, the Company elected to no longer match 25% of employee deferrals. Rather, the Company elected a flexible discretionary match wherein the Company determines when a matching contribution to the Plan will occur.
