INDEPENDENT AUDITORS' REPORT

To the Plan Administrator
Rable Machine, Inc. Employees Stock Ownership Trust
Mansfield, Ohio

Opinion
We have audited the financial statements of Rable Machine, Inc. Employees Stock Ownership Trust (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets available for benefits as of September 30, 2023 and 2022, and the related statement of changes in net assets available for benefits for the year ended September 30, 2023, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets available for benefits of Rable Machine, Inc. Employees Stock Ownership Trust as of September 30, 2023 and 2022, and the changes in its net assets available for benefits for the year ended September 30, 2023, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion
We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements
Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal controls. Misstatements are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users made on the basis of these financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks.
- Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter—Supplemental Schedule Required by ERISA

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of assets (held at end of year), referred to as "supplemental information," is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The supplemental information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedule is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

NOTES TO FINANCIAL STATEMENTS
September 30, 2023 and 2022

NOTE 1 - PLAN DESCRIPTION

The following brief description of Rable Machine, Inc. Employees Stock Ownership Trust (the "Plan") provides only general information. Participants should refer to the plan agreement for a complete description of the Plan's provisions.

Rable Machine, Inc. (the "Company") established an Employee Stock Ownership Plan effective October 1, 1990. The Plan is designed as an employee stock ownership plan ("ESOP") and is designed to comply with Section 4975(e)(7) and the regulations thereunder of the Internal Revenue Code of 1986, as amended (the "Code") and is subject to the applicable provisions of the Employee Retirement Income Security Act of 1974, as amended ("ERISA").

General
The ESOP is a non-contributory plan covering substantially all employees of the Company. Employees become eligible after completing one year of service and attaining age 21.

The Plan is responsible for payment of the administrative expenses of the Plan, unless otherwise paid by the Company.

Employer Contributions
Each year, the Company will determine the amount to contribute to the Plan. This contribution is discretionary.

Payment of Benefits
Upon termination of service due to death, disability, retirement or other reasons, distributions of the balance in a participant's Company stock account will be distributed in cash. Vested benefits that do not exceed $25,000 will be distributed in a single lump-sum payment. Vested benefits that exceed $25,000 will be distributed equally in five annual installment payments. If the vested benefit exceeds $1,050,000, adjusted annually for inflation since 2014, the Plan may extend the annual installments beyond five years, but not to exceed ten years.

Voting Rights
Shares of Company stock held in the Trust shall be voted by the Trustee in most instances. In certain extraordinary situations, such as a corporate merger, Treasury regulations may require pass-through of voting rights in Company stock which has been fully paid for to Plan participants and beneficiaries.

Participant Accounts and Forfeitures
Each participant's account is credited with an allocation of shares of the Company's common stock and forfeitures of terminated participants' non-vested accounts. Allocations are based on a participant's eligible compensation relative to total eligible compensation, as defined in the plan agreement. There were no forfeitures of terminated participants' non-vested accounts during 2023. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting
Vesting in a participant's account balance is based on years of continuous service and is subject to the following vesting percentage provisions:

Years of Service	Vesting Percentage
1	0%
2	20%
3	40%
4	60%
5	80%
6 or more	100%

Put Option
Under the terms of the Plan and federal income tax regulations, any Company stock that is distributed and held by participants will include a put option. The put option is a right to demand that the Company buy any shares of its stock distributed to participants. The put price is representative of the fair value of the stock. The Company can, at its discretion, pay for the purchase of the Company stock in a single sum or in installments with interest over a period not to exceed five years or ten years in certain circumstances.

Diversification
Diversification is offered to participants close to retirement so that they may have the opportunity to move part of the value of their investment in Company stock into investments that are more diversified. Participants, starting at the age of 45, with at least 20 years of participation in the Plan may elect to diversify a portion of their account. At age 45 a participant may elect to diversify up to 5% of the number of shares of Company stock allocated to their account, and an additional 5% at age 50. In addition to the foregoing, participants who have attained age 55 and completed 10 years of service may diversify up to 25% of the number of shares of Company stock allocated to their account during the 5 years after becoming eligible to make the election and up to 50% in the 6th year. In lieu of directing the investment of such shares of Company stock, a participant may also elect to have a transfer of the value of the stock into the participant's 401(k) account sponsored by the Company.

NOTE 2 - SUMMARY OF ACCOUNTING POLICIES

Basis of Accounting
The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates
The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America (U.S. GAAP) requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein and disclosure of contingent assets and liabilities. Accordingly, actual results could differ from those estimates.

Investment Valuation and Income Recognition
The common stock of the Company is measured at its estimated fair value. Net depreciation includes the Plan's decrease in estimated fair value year over year.

Payment of Benefits
Benefits are recorded when paid.

Subsequent Events
The Plan has evaluated subsequent events through September 9, 2024, the date the financial statements were available to be issued. Due to economic conditions experienced by the Company in fiscal year 2024, there were significant reductions in force of Plan participants which resulted in a partial plan termination being recognized. As a result, all affected participants became fully vested regardless of years of service.

NOTE 3 - ADMINISTRATION OF PLAN ASSETS

The Plan's assets, which principally consist of sponsor Company common shares, are held by the Trustee of the Plan.

Company contributions are held and managed by the Trustee, which invests cash received, interest, and dividend income and makes distributions to participants.

Certain administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan.

NOTE 4 - INVESTMENTS IN COMMON STOCK OF PLAN SPONSOR

At September 30, 2023 and 2022, the Plan has allocated shares of the Company's no par value common stock with a fair value of $441 and $414 per share, respectively. The investment in the Company's common stock, at September 30, is presented in the following table:

	2023	2022
Number of shares	20,097	20,097
Common stock - fair value	$ 8,862,994	$ 8,320,362
Common stock - cost	$ 1,184,567	$ 1,184,567

NOTE 5 - FAIR VALUE MEASUREMENTS

U.S. GAAP established a fair value hierarchy that prioritizes the inputs to measure the fair value of the assets or liabilities being measured. Fair value is defined as the exchange value that would be received on the measurement date to sell an asset or to value the amount paid to transfer a liability in the principal or most advantageous market available to the entity in an orderly transaction between market participants.

The three levels of the fair value hierarchy are as follows:

- Level 1 inputs are unadjusted quoted market prices in active markets for identical assets or liabilities that the Plan has the ability to access at the measurement date. Level 1 inputs provide the most reliable measure of fair value as of the measurement date.

- Level 2 inputs are based on significant observable inputs, including unadjusted quoted market prices for similar assets and liabilities in active markets, unadjusted quoted prices for identical or similar assets or liabilities in markets that are not active, or inputs other than quoted prices that are observable for the asset or liability.

- Level 3 inputs are significant unobservable inputs for the asset or liability.

The level of the fair value hierarchy within which a fair value measurement in its entirety falls is based on the lowest level input that is significant to the fair value measurement in its entirety.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at September 30, 2023 and 2022.

- Rable Machine, Inc. Common Stock: Measured at estimated fair value based upon an independent valuation. This valuation was based upon a combination of market and income valuation techniques consistent with prior years. The valuation specialist took into account historical and projected cash flow and net income, return on assets, return on equity, market comparables, market conditions and estimated fair value of Company assets and liabilities.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables presents the Plan's fair value hierarchy for the Plan's assets measured at fair value on a recurring basis:

September 30, 2023	Level 1	Level 2	Level 3	Total
Rable Machine, Inc. common stock	$ -	$ -	$ 8,862,994	$ 8,862,994
	$ -	$ -	$ 8,862,994	$ 8,862,994

September 30, 2022	Level 1	Level 2	Level 3	Total
Rable Machine, Inc. common stock	$ -	$ -	$ 8,320,362	$ 8,320,362
	$ -	$ -	$ 8,320,362	$ 8,320,362

Level 3 Gains and Losses

The following table sets forth a summary of changes in the fair value of the Plan's Level 3 assets for the year ended September 30, 2023:

Balance, beginning of year	$ 8,320,362
Unrealized gain relating to instruments still held at the reporting date	542,632
Balance, end of year	$ 8,862,994

Gains and losses (realized and unrealized) included in changes in net assets for the periods above are reported in net depreciation in fair value of investments in the Statement of Changes in Net Assets Available for Benefits.

NOTE 6 - PLAN TERMINATION

Under the Plan, the Company has the right to terminate the Plan at any time. The Company has expressed no present intention to terminate the Plan. In the event of plan termination, participants would become 100% vested in their accounts. Upon termination of the Plan, the Trustee should pay all liabilities and expenses of the trust and distribute the assets in accordance with the Plan agreement.

NOTE 7 - TAX STATUS

The Internal Revenue Service (IRS) has determined and informed the Plan by a letter dated July 7, 2014, that the Plan is qualified and the trust established under the Plan is tax-exempt, under the appropriate sections of the Code. There have been amendments to the Plan since that date, however the Plan Administrator believes the Plan continues to operate as a tax-exempt plan.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of September 30, 2023, there are no uncertain tax positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

NOTE 8 - RISK AND UNCERTAINTIES

The Plan investments consist of the Company's common stock, which is exposed to various risks such as interest rate, market and credit risks, as well as valuation assumptions based on earnings, cash flows and/or other such techniques. Due to the level of risk associated with the investment in the common stock and to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in the value of the common stock will occur in the near term and that such changes could materially affect the amounts reported in the statements of changes in net assets available for benefits.
