Independent Auditor's Report

To the Plan Administrator
iRobot Fund for the Future 401(k) Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the accompanying financial statements of iRobot Fund for the Future 401(k) Plan, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 ("ERISA"), as permitted by ERISA Section 103(a)(3)(C) ("ERISA Section 103(a)(3)(C) Audit"). The financial statements comprise the statements of net assets available for benefits as of December 31, 2023 and 2022, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of iRobot Fund for the Future 401(k) Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (a "qualified institution").

Management has obtained certifications from a qualified institution as of and for the years ended December 31, 2023 and 2022, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section –

- The amounts and disclosures in the financial statements referred to above, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- The information in the financial statements referred to above related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of iRobot Fund for the Future 401(k) Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about iRobot Fund for the Future 401(k) Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments; administering the plan; and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of iRobot Fund for the Future 401(k) Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about iRobot Fund for the Future 401(k) Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certifications, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter – Supplemental Schedule Required by ERISA

The supplemental Schedule of Assets (Held at End of Year) as of December 31, 2023, is presented for the purpose of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with generally accepted auditing standards. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion –

- The form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment

information, is presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

- The information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

iRobot Fund for the Future 401(k) Plan

Notes to Financial Statements

December 31, 2023 and 2022

(1) Description of Plan

The following brief description of the iRobot Fund for the Future 401(k) Plan (the "Plan") is provided for general information purposes only. Participants should refer to the Plan agreements for a more complete description of the Plan's provisions.

(a) General

The Plan is a defined contribution Plan established by iRobot Corporation, (the "Company") under the provision of Section 401(a) of the Internal Revenue Code ("IRC"), which includes a qualified cash or deferred arrangement as described in Section 401(k) of the IRC, for the benefit of eligible employees of the Company. All employees of the Company, as defined, are eligible to participate, provided that they are at least 19 years of age. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

(b) Plan Administration

The Plan is administered by several officers of the Company who are appointed by the board of directors. The Plan's trustee, Fidelity Management Trust Company, is responsible for the custody and management of the Plan's assets.

(c) Contributions

Eligible participants may contribute the lesser of 50% of their eligible pretax annual compensation, as defined by the Plan, or the maximum allowed by law (\$22,500 for 2023 and \$20,500 for 2022). Participants may alternatively elect to make after-tax Roth 401(k) deferral contributions. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution Plans. The Company may, in its sole discretion, contribute and allocate an employer contribution to each eligible participant's account, calculated on a percentage of the participant's elective deferral. The Plan Sponsor funds employer matching contributions on a basis coinciding with each biweekly payroll cycle. Additional amounts may be contributed at the option of the Company's Board of Directors. Both employee and employer contributions are subject to certain annual limitations under the IRC. The Company currently matches 50% of a participant's section 401(k) and Roth deferrals up to the first 6% of compensation, which amounted to \$3,533,166 and \$4,154,885 for the years ended December 31, 2023 and 2022, respectively.

Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan includes an auto-enrollment provision whereby all newly eligible employees are automatically enrolled in the Plan unless they affirmatively elect not to participate in the Plan. Automatically enrolled participants have their deferral rate set at 6 percent of eligible compensation and their contributions invested in a designated balanced fund until changed by the participant.

Notes to Financial Statements (Continued)

(1) Description of Plan (Continued)

(d) Participant Accounts

Each participant's account is credited with the participant's contributions and allocations of the Company's matching contributions, as well as allocations of Plan earnings. Participant accounts are charged with an allocation of administrative expenses. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

(e) Vesting

Participants have an immediate 100% nonforfeitable vesting in all employee and employer contributions and the earnings thereon.

(f) Investment Options

The assets of the Plan, both employee and employer, are allocated to the various investment options at the direction of the Participant.

(g) Notes Receivable from Participants

Participants may borrow from their accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. Loan terms range from one to five years or up to thirty years for the purchase of a primary residence. The loans are secured by the vested balance in the participant's account and bear interest at rates that are commensurate with local prevailing rates as determined by the Plan administrator (9.50% at December 31, 2023 and 8.00% at December 31, 2022). Principal and interest are paid ratably through payroll deductions.

(h) Payment of Benefits

Upon termination of service, death, disability or retirement, a participant or the beneficiary may elect to receive a lump sum amount equal to the value of the participant's vested interest in his or her account.

(i) Unallocated Assets

Plan assets that have not been allocated to participants as of December 31, 2023 and 2022, totaled \$26 and \$17,832, respectively. These amounts are expected to be used to pay plan administrative expenses and any remaining funds may be allocated to participants in accordance with the Plan agreements. In 2022, unallocated assets resulting from revenue sharing credits totaling \$124,170, were allocated to participants. No such amount were allocated to participants in 2023.

(2) Summary of Significant Accounting Policies

(a) Basis of Accounting

The accompanying financial statements of the Plan have been prepared pursuant to accounting principles generally accepted in the United States of America and in accordance with the accrual method of accounting.

Investments held by a defined-contribution Plan are required to be reported at fair value.

iRobot Fund for the Future 401(k) Plan

Notes to Financial Statements (Continued)

(2) Summary of Significant Accounting Policies (Continued)

(b) Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's investments in mutual funds (shares of registered investment companies) are valued at quoted market prices, which represent the net asset value of shares held by the Plan at year-end. The Plan's investment in a stable value collective trust fund is measured using net asset value as a practical expedient. See Note 4 for a discussion of fair value measurements.

Purchases and sales are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

The incorporation of investment data in the accompanying financial statements is based solely on the certified statements provided by Fidelity Management Trust Company, the Trustee for the Plan (see Note 3).

(c) Contributions

Contributions from participants are recorded as they are withheld from the participant's wages. Contributions from the Company are recorded in the period in which the related participant contributions are due.

(d) Notes Receivable from Participants

Notes receivable from participants are reported at their unpaid principal balance plus any accrued but unpaid interest, with no allowance for credit losses, as repayments of principal and interest are received through payroll deductions and the notes are collateralized by the participants' account balances. Interest income on notes receivable from participants is recorded on the accrual basis. Related fees are charged directly to the borrowing participant's account and are included in administrative expenses when incurred. If a participant does not make loan repayments and the plan administrator considers the participant loan to be in default, the loan balance is reduced, and the delinquent participant note receivable is recorded as a benefit payment based on the terms of the Plan document.

(e) Payments of Benefits

Benefits are recorded when paid to the participants or their beneficiaries.

(f) Plan Expenses

Substantially all administrative expenses are paid by the Company. Fees paid by Plan participants include loan issuances, expedited distribution processing, and similar charges.

Investments in registered investment companies (mutual funds) are subject to sales charges (broker commission or load fees) and annual expenses (12b-1 fees). These expenses are deducted prior to the allocation of the Plan's investment earnings activity and thus are not separately identifiable as Plan expenses. Such expenses are included in the net appreciation (depreciation) in fair value of investments.

Notes to Financial Statements (Continued)

(2) Summary of Significant Accounting Policies (Continued)

(g) Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan administrator to make estimates and assumptions that affect the reported amounts of Plan assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Accordingly, actual results could differ from those estimates.

(3) Investments Information Prepared and Certified by the Trustee (Unaudited)

The Plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor Rules and Regulations for Reporting and Disclosure under ERISA. The following information included in the accompanying financial statements as of and for the years ended December 31, 2023 and 2022, was certified by Fidelity Management Trust Company, the Trustee of the Plan, as being complete and accurate:

	<u>2023</u>	<u>2022</u>
Assets:		
Mutual funds, at fair value	\$ 178,423,368	143,855,817

Net appreciation (depreciation) in fair value of investments	\$ 24,322,522	(43,276,422)
Interest	161,451	97,419
Dividends	4,851,943	9,303,207
Interest income on notes receivable	50,983	38,034
Administrative expenses	<u>(186,355)</u>	<u>(118,247)</u>
	<u>\$ 29,200,544</u>	<u>(33,956,009)</u>

The Plan's independent auditors did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

(4) Fair Value Measurements

The Plan determines the fair market values of its financial assets and liabilities, as well as non-financial assets and liabilities that are recognized or disclosed at fair value on a recurring basis, based on the fair value hierarchy established in accordance with accounting principles generally accepted in the United States of America for Fair Value Measurements.

The hierarchy gives the highest priority to Level 1 measurements and the lowest priority to Level 3 measurements.

iRobot Fund for the Future 401(k) Plan

Notes to Financial Statements (Continued)

(4) Fair Value Measurements (Continued)

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

The three levels of the fair value hierarchy are described as follows:

Level 1: Inputs to the valuation methodology are quoted prices available in active markets for identical investments as of the reporting date. The Plan's Level 1 assets include mutual funds, which are valued using the Net Asset Value (NAV) per share held by the Plan at year end. The NAV is based on the value of the underlying assets owned by the fund, minus its liabilities, and then divided by the number of shares outstanding. The NAV is quoted on an active market.

Level 2: Inputs to the valuation methodology are other than quoted prices in active markets, which are either directly or indirectly observable as of the reporting date, and fair value can be determined through the use of models or other valuation methodologies. The Plan does not have any Level 2 assets.

Level 3: Inputs to the valuation methodology are unobservable inputs in situations where there is little or no market activity for the asset or liability and the reporting entity makes estimates and assumptions related to the pricing of the asset or liability including assumptions regarding risk. The Plan does not have any Level 3 assets.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2023 and 2022.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the U.S. Securities and Exchange Commission. These funds are required to publish their daily net asset value and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Stable value collective trust fund: A stable value fund that is composed primarily of fully benefit-responsive investment contracts that is valued at the net asset value of units of the bank collective trust. The net asset value is used as a practical expedient to estimate fair value. This practical expedient would not be used if it is determined to be probable that the fund will sell the investment for an amount different from the reported net asset value. Participant transactions (purchases and sales) may occur daily. If the Plan initiates a full redemption of the collective trust, the issuer reserves the right to require 12 months notification in order to ensure that securities liquidations will be carried out in an orderly business manner. See also Note 5.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different value measurement at the reporting date.

iRobot Fund for the Future 401(k) Plan

Notes to Financial Statements (Continued)

(4) Fair Value Measurements (Continued)

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair values as of December 31, 2023 and 2022:

<u>December 31, 2023</u>	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>
Mutual funds, at fair value	\$ <u>178,423,368</u>	<u>-</u>	<u>-</u>	\$ 178,423,368
Stable value fund*				<u>5,810,793</u>
Total				<u>\$ 184,234,161</u>

<u>December 31, 2022</u>	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>
Mutual funds, at fair value	\$ <u>143,855,817</u>	<u>-</u>	<u>-</u>	\$ 143,855,817
Stable value fund*				<u>6,909,897</u>
Total				<u>\$ 150,765,714</u>

*The Plan's investment in the Fidelity Advisor Stable Value Fund, the value of which is measured at net asset value per share (or its equivalent), has not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statements of net assets available for benefits.

For the years ended December 31, 2023 and 2022, there were no transfers between Levels 1, 2, and 3.

The following table summarizes investments for which fair value is measured using the net asset value per share practical expedient as of December 31, 2023 and 2022, respectively. There are no participant redemption restrictions for these investments; the redemption notice period is applicable only to the Plan.

December 31, 2023	Fair Value	Unfunded Commitments	Redemption Frequency (if Currently Eligible)	Redemption Notice Period
Common/Collective Trust – Fidelity Advisor Stable Value Fund	\$5,810,793	N/A	Daily	12 months

December 31, 2022	Fair Value	Unfunded Commitments	Redemption Frequency (if Currently Eligible)	Redemption Notice Period
Common/Collective Trust – Fidelity Advisor Stable Value Fund	\$6,909,897	N/A	Daily	12 months

(5) Fidelity Advisor Stable Value Portfolio

The Plan has an interest in The Fidelity Advisor Stable Value Portfolio (Portfolio), an open-end commingled pool, operated and maintained by the Fidelity Management Trust Company (“FMTC”), dedicated exclusively to the management of assets of defined contribution Plans. The Portfolio enters into “wrapper” contracts, a benefit-responsive investment, issued by third-parties. As such and in accordance with accounting principles generally accepted in the United States of America, the Portfolio is reported at contract value. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses.

As of December 31, 2023 and 2022, the Portfolio was invested in assets (typically fixed-income securities or bond funds and may include derivative instruments such as futures contracts and swap agreements) and enters into “wrapper” contracts issued by third-parties such as a bank or insurance company and invests in cash equivalents represented by shares in a money market fund

FMTC, in its capacity as trustee for the Fidelity Group Trust for Employee Benefit Plans, has an advisory and service contract with FMR LLC (“FMR”), an affiliate, to provide investment related advice and services to the Portfolio. Investment management and advisory fees are not charged to the Portfolio but are borne by FMTC. FMTC charges the Portfolio a monthly management fee at the annual rate of .55% of the average net assets available for benefits of the Portfolio determined as of the close of business each day.

There are no allowances against contract value for credit risk of the contract issuers or otherwise. The contract value of the fully benefit-responsive investment contract at December 31, 2023 and 2022, was \$5,810,793 and \$6,909,897, respectively. The average yield for the underlying assets was approximately 3.44% and 2.63% for the years ended December 31, 2023 and 2022, respectively. The crediting rate of the contract resets every quarter based on the performance of the underlying investment portfolio. The crediting interest rate for the underlying assets was approximately 1.83% and 1.44% for the years ended December 31, 2023 and 2022, respectively. The crediting interest rate is based on a formula agreed upon with the issuer, based on the yields of the underlying investments at fair value and contract value and considering factors such as projected investment earnings, the current interest environment, investment expenses, and duration of the assets underlying the contract.

The existence of certain conditions can limit the Portfolio’s ability to transact at contract value with the issuers of its investment contracts. Specifically, any event outside the normal operation of the Portfolio which causes a withdrawal from an investment contract may result in a negative market value adjustment with respect to such withdrawal. These events include, but are not limited to, layoffs, bankruptcy, Plan termination, mergers, early retirement incentives, competing fund transfer or violation of equity wash or equivalent rules in place, and changes of employer or Plan qualification status. If the likelihood of such a non-book value withdrawal is imminent, it may be necessary to consider a revaluation of those particular fund contract(s). As of December 31, 2023, the occurrence of an event outside the normal operation of the Portfolio which would cause a withdrawal from an investment contract is not considered to be probable.

iRobot Fund for the Future 401(k) Plan

Notes to Financial Statements (Continued)

(5) Fidelity Advisor Stable Value Portfolio (Continued)

In addition to the limitations noted above, issuers of investment contracts have certain rights to terminate a contract and settle at an amount which differs from contract value. For example, certain breaches by the Portfolio of its obligations, representations, or warranties under the terms of an investment contract can result in its termination at market value, which may differ from contract value. Investment contracts may also provide for termination with no payment obligation from the issuer if the performance of the contract constitutes a prohibited transaction ERISA was already defined or other applicable law. Synthetic investment contracts may also provide issuers with the right to reduce contract value in the event an underlying security suffers a credit event or the right to terminate the contract in the event certain investment guidelines are materially breached and not cured.

(6) Benefits Allocated to Former Participants

Net assets available for benefits at December 31, 2023, includes a total of approximately \$72,144,000 of benefits allocated to the accounts of persons who have withdrawn from participating in contributions to the Plan as of that date.

(7) Related Party and Party-in-Interest Transactions

Certain Plan investments are shares of mutual funds managed by FMR, a company affiliated with FMTC, the trustee of the Plan, and therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan for investment management services were included as a reduction of the return earned on each fund. Certain administrative fees related to the administration of the Plan were paid by the Plan or by the Company. The Plan also compensates Merrill Lynch for investment advisory services, and these expenses are partially offset by commissions received by the Plan for holding investments in certain mutual funds managed by FMR. Fees paid to Merrill Lynch totaled \$70,000 for each of the years ended December 31, 2023 and 2022. Fees paid by the Plan to Fidelity Workplace Services LLC (the Plan's recordkeeper and a wholly-owned subsidiary of FMR) for administrative services and certain transactions totaled \$106,400 and \$32,247, for the years ended December 31, 2023 and 2022, respectively. The Plan also paid audit fees to Worthington, Hughes & Hoar, P.C., totaling \$9,955 and \$16,000 for the years ended December 31, 2023 and 2022, respectively.

(8) Plan Termination

Although the Company has not expressed any intent to do so, it has the right under the Plan to discontinue contributions at any time and to terminate the Plan subject to the provisions of ERISA.

(9) Reconciliation of Financial Statements to Schedule H of Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements to Schedule H of Form 5500 as of December 31, 2023 and 2022:

The above reclassifications are due to a Form 5500 requirement that expenses, gains or losses, and unrealized appreciation or depreciation of common/collective trusts be reported as a single net total line item.

(10) Tax Status

The Internal Revenue Service has determined and informed the sponsoring organization of this prototype Plan, by a letter dated June 30, 2020, that the Plan and related trust are designed in accordance with applicable sections of the IRC. Although the Plan has been amended since submitting the request for the latest determination letter, the Company and the Plan's tax counsel believe that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believe that the Plan is qualified, and the related trust is tax exempt.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan Administrator has analyzed the tax

Notes to Financial Statements (Continued)

(10) Tax Status (Continued)

positions taken by the Plan and has concluded that as of December 31, 2023, there are no uncertain tax positions taken or expected to be taken. The Plan is subject to routine audits by tax authorities; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes the Plan is no longer subject to income tax examinations for years prior to 2020.

(11) Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

(12) Subsequent Events

The Plan administrator and sponsor have evaluated subsequent events through September 11, 2024, which is the date that the Plan's financial statements were available to be issued.

On January 29, 2024, the Company announced its intention to terminate approximately 350 employees, representing approximately 31% of its total workforce. This reduction in workforce may constitute a partial plan termination. However, participants are already 100% vested in their account balances (see Note 1(e)).

On March 25, 2024, the Company's board of directors voted that effective March 15, 2024, the Company will no longer true up employer matching contributions and effective May 6, 2024, the employer matching contribution was reduced from 50% of employee deferrals up to 6% of compensation, to 25% of such deferrals.

Except as described above, no additional material subsequent events have occurred since December 31, 2023, that required recognition or disclosure in these financial statements.
