The Retirement Committee of
Merit Energy Company Savings Trust

Report on the Audit of the Financial Statements

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of Merit Energy Company Savings Trust, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2023 and 2022, and the related statement of changes in net assets available for benefits for the year ended December 31, 2023, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of Merit Energy Company Savings Trust's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 2023 and 2022, and for the year ended December 31, 2023, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section:

- the amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America (GAAP).
- the information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Merit Energy Company Savings Trust, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Merit Energy Company Savings Trust's ability to continue as a going concern within one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or, which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- exercise professional judgment and maintain professional skepticism throughout the audit.
- identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Merit Energy Company Savings Trust's internal control. Accordingly, no such opinion is expressed.

- evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Merit Energy Company Savings Trust's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter

Supplemental Schedule Required by ERISA

The supplemental schedule of assets as of December 31, 2023, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- the form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, is presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosures under ERISA.
- the information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Merit Energy Company Savings Trust

Notes to Financial Statements

Note 1 – Description of Plan

The following brief description of the Merit Energy Company Savings Trust (the Plan) is provided for general information purposes only. Participants should refer to the Plan document for more complete information.

General – The Plan, as amended and restated, is a defined contribution plan established by Merit Energy Company (the Employer) under the provisions of Section 401(a) of the Internal Revenue Code (IRC), which includes a qualified deferred arrangement as described in Section 401(k) of the IRC, for the benefit of eligible employees of the Employer who become entitled to participate in the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA). The Plan was restated effective October 29, 2021.

The Plan is administered by a committee (the Retirement Committee) appointed by the Employer. Administrative expenses are paid quarterly by the employer for all active employees. For employees that are no longer active, administrative expenses are deducted from the participants' accounts prior to billing with Plan for the remainder. Fidelity Management Trust Company (the Trustee, Fidelity) maintains custody of the Plan's assets. Effective December 1, 2016, the Plan elected to pay administrative expenses from forfeitures.

Eligibility – Employees who are age 19 or older are eligible to participate in the Plan on the first day of employment. Employees who make deferral contributions are eligible for employer matching contributions when they start participating in the Plan.

Contributions

Employee – Each eligible employee may elect to contribute to the Plan on a pre-tax basis up to 60% of such participant's compensation. Effective October 29, 2021, participants may also elect to make after-tax contributions. Each participant's annual contribution shall not exceed the maximum amount allowed for deferral for U.S. federal income taxes, which was \$22,500 for 2023. Participants over 50 years old may make additional catch-up contributions up to \$6,500. The Plan includes an auto-enrollment provision whereby all newly eligible employees are automatically enrolled in the Plan unless they affirmatively elect not to participate in the Plan. Automatically enrolled participants have their deferral rate set at 6% of eligible compensation and their contributions invested in a designated fund until elected otherwise by the participant. For all employees with deferral rates less than 10%, their deferral rates are automatically increased by 1% each year until the deferral rate reaches 10%.

Employer – The Employer makes contributions equal to 100% up to the first 10% of eligible compensation deferred to the Plan. However, the Employer reserves the right to temporarily or permanently discontinue its contributions at any time.

Contributions are subject to regulatory limitations.

Vesting – Participating employees are vested immediately in their contributions, and in any Employer-matching contributions, plus related earnings at all times.

Merit Energy Company Savings Trust

Notes to Financial Statements

Payment of benefits – On termination of service due to death, disability, or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, or annual installments over a 10 year period. For termination of service for other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution.

Participant accounts – Each participant's account is credited with the participant's contributions and the Employer matching contributions. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to, which a participant is entitled is the benefit that can be provided from the participant's vested account. Participants direct the investment of their account into various investment options offered by the Plan.

Investment options – As directed by participants, the Plan purchases units of participation in 29 distinct investment portfolios administered by the Plan Trustee, Fidelity. Under the Plan, participants are allowed to transfer funds between any investment options.

Participant loans – Participants can apply for a loan from their 401(k) account. The amount of any such loan cannot exceed the lesser of 50% of the value of the participant's vested interest in his or her 401(k) account, or \$50,000 reduced by the excess of the highest outstanding loan balances during the past year over the outstanding balance of loans on the date on, which such loan is made. For purposes of the \$50,000 limitation, all outstanding loans to a participant are aggregated. Plan loans must be repaid within five years; however, if the loan is used to acquire the principal residence of the participant, the loan may be repaid over a period not to exceed 10 years. Principal and interest are paid ratable through payroll deductions. All outstanding loan balances will become due and payable in their entirety upon the occurrence of a distributable event stated in the Plan document. The interest rate charged on any loan is fixed and will be equal to the "local prevailing commercial interest rate." Outstanding loans at December 31, 2023, carry interest rates varying between 5.25% and 10.50% with various maturities through August 2033.

Note 2 – Summary of Significant Accounting Policies

Basis of accounting – The Plan's financial statements are prepared in accordance with principles generally accepted in the United States of America, using the accrual method of accounting.

Investment valuation and income recognition – Investments of the Plan are stated at fair value. Securities traded in public markets are valued at their quoted market prices. The Plan's Trustee, Fidelity, certifies the fair value of all investments. If available, quoted market prices are used to value investments.

Fair value is the price that would be received to sell an asset or paid to transfer a liability (the exit price) in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

The value of purchases and sales of securities are reflected on a trade-date basis. Changes in the market value of investments from one period to the next, combined with realized gains and losses based on differences between revalued costs and market value of investments on the trade date, are recognized as net appreciation (depreciation) in fair value of investments in the accompanying statement of changes in net assets available for benefits.

Merit Energy Company Savings Trust

Notes to Financial Statements

Estimates and assumptions – The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan Administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of changes in net assets available for benefits during the reporting period. Actual results could differ from those estimates.

Note 3 – Information Certified by the Trustee

The Plan Administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the DOL's *Rules and Regulations for Reporting and Disclosure* under ERISA. Accordingly, Fidelity Management Trust Company, the trustee of the Plan, has certified to the completeness and accuracy of:

- Investments and notes receivable from participants reflected on the accompanying statements of net assets available for benefits as of December 31, 2023 and 2022.
- Net appreciation in fair value of investments, dividends, and interest, and interest income on notes receivable from participants reflected on the accompanying statement of changes in net assets available for benefits for the year ended December 31, 2023.
- Investments reflected on the schedule of assets (held at end of year).

Note 4 – Fair Value Measurements

Fair value measurements establish a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under fair value measurements are described below:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs. There have been no changes in the techniques used at December 31, 2023 and 2022.

Mutual funds and money market funds – Valued at the daily closing price as reported by the fund. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The funds held by the Plan are deemed to be actively traded. Mutual funds held by the Plan are open end mutual funds that are registered with the U.S. Securities and Exchange Commission.

The technique described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation technique is appropriate and consistent with other market participants, the use of different techniques or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables disclose the fair value hierarchy of the Plan's assets by level as of December 31, 2023 and 2022:

Fair Value Measurement at December 31, 2023				
	Level 1	Level 2	Level 3	Total

Note 5 – Party-in-Interest Transactions

Certain Plan investments are managed by the Trustee, Fidelity. Fidelity is the trustee of the Plan, and, therefore, transactions with these entities qualify as exempt party-in-interest transactions. Fees paid by the Plan for investment management services to the Trustee, Fidelity, were \$66,409 for the year ended December 31, 2023.

Note 6 – Tax Status

The Plan document is a volume submitter defined contribution plan that received a favorable opinion letter from the Internal Revenue Service (IRS) on June 30, 2020, which stated that the Plan, as then designed, was in accordance with applicable sections of the IRC. Although the Plan has been amended since the date of the opinion letter, the Plan Administrator believes that the Plan is designed, and is currently being operated in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset), if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the DOL. The Plan Administrator has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2023, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 7 – Risk and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market volatility, and credit risks. It is reasonably possible, given the level of risk associated with investment securities, that changes in the values of the investments in the near term could materially affect a participant's account balance and the amounts reported in the financial statements.

Note 8 – Plan Termination

Although it has not expressed any intent to do so, the Employer has the right under the Plan agreement to terminate the Plan subject to the provisions of ERISA. Should the Plan terminate, all participants would remain fully vested and their respective accounts would be nonforfeitable.

Note 9 – Reconciliation of Financial Statements to the Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements to net assets reported on Form 5500 at December 31, 2023 and 2022:
