Independent Auditor's Report

To the Plan Administrator
Agri-King, Inc. Employee Stock Ownership Plan
Fulton, Illinois

Opinion

We have audited the accompanying financial statements of Agri-King, Inc. Employee Stock Ownership Plan, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets available for benefits as of November 30, 2023, and 2022, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of Agri-King, Inc. Employee Stock Ownership Plan as of November 30, 2023 and 2022, and the changes in its net assets available for benefits for the years then ended, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Agri-King, Inc. Employee Stock Ownership Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Agri-King, Inc. Employee Stock Ownership Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Agri-King, Inc. Employee Stock Ownership Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Agri-King, Inc. Employee Stock Ownership Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedules Required by ERISA

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of assets (held at end of year) as of November 30, 2023 is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with generally accepted auditing standards.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including the form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedule is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

Agri-King, Inc.
Employee Stock Ownership Plan
Notes to Financial Statements
November 30, 2023 and 2022

Note 1. Description of Plan

The following brief description of the Agri-King, Inc. Employee Stock Ownership Plan (Plan) is provided for general information only. Participants should refer to the Plan agreement for more complete information.

A. *General.* The Agri-King, Inc. Employee Stock Ownership Plan was established November 30, 1975. The plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

B. *Eligibility.* All nonunion employees of Agri-King, Inc. (the Company) are generally eligible to participate in the Plan after attaining an age of 18 and one year of service, providing they worked at least 1,000 hours during such Plan year. Participants who do not have at least 1,000 hours of service during such Plan year or are not employed on the last working day of a Plan year are generally not eligible for an allocation of Company contributions for such year.

C. *Contributions.* The Plan provides for discretionary Company contributions as determined by the Company's Board of Directors. These contributions are limited to 15% of the compensation paid or accrued to the participants during the plan year, except that if for any plan year an amount less than the maximum 15% of compensation is contributed, the difference may be carried forward and, in any succeeding plan year, and amount up to the cumulative difference may be contributed, limited to a total contribution not exceeding 25% of participants' compensation. Only participants who have completed a year of service during the Plan year and who are actively employed on the last day of the Plan year are eligible to receive an allocation of the Company's contribution. The total of the Company's contributions to the Plan and the Company and participant's contributions to other plans sponsored by the Company for any individual participant cannot exceed the lesser of 25% of the participant's compensation or $61,000. Participants are not allowed to make contributions to the Plan.

D. Payment of Benefits. On termination of service, a participant will receive a lump-sum payment in the form of Company stock and cash in an amount equal to the vested value of his or her account. When Company stock is distributed to a participant or beneficiary, the recipient will be granted a "put option" which allows them to put this stock back to the Company. The available option period is 60 days following the date of distribution.

E. Administrative Expenses. As provided in the Plan agreement, administrative expenses may be paid either by the Plan or by the Company. The Company has historically paid the operating expenses for the Plan. Expenses that are paid by the Company are excluded from these financial statements.

F. Voting Rights. The Trustee, Newport Trust Company, is required to vote all shares as directed by the Administrator. The Trustee is not permitted to vote any shares for which instructions have not been given by the Administrator.

G. *Participant Accounts.* Each participant's account is credited with an allocation of (a) the Company's contribution; (b) Plan earnings; and (c) forfeitures of terminated participants' non-vested accounts. Allocations are based on participants' earnings or account balances as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

H. *Vesting.* In the event of death, disability or retirement, the participant, or their beneficiary, becomes 100% vested in the account. If a participant terminated employment for any reason other than death, disability or retirement, the participant is entitled to the vested value of the account. Participants become 20% vested after two years of service with the vesting percentage increasing 20% each subsequent year until fully vested after six years of service.

I. *Put Option.* Under federal income tax regulations, the employer stock that is held by the Plan and its participants and is not readily tradable on an established market, or is subject to trading limitations, includes a put option. The put option is a right to demand that the Company buy any shares of its stock distributed to participants for which there is no market. The put price is representative of the current appraised value of the stock. The purpose of the put option is to ensure that the participant has the ability to ultimately obtain cash.

J. *Forfeitures.* Plan forfeitures are allocated to each participant's account based upon the relation of the participant's eligible compensation to total eligible compensation for the Plan year. Forfeitures allocated to participants during November 30, 2023 and 2022, were totaled $20,078 and $36,298, respectively.

Note 2. Summary of Accounting Policies

Basis of Accounting

The accompanying financial statements are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The common stock of Agri-King, Inc. is valued at fair value, as determined by an independent appraisal. The fair value of the stock as of November 30, 2023 and 2022 was $37.60 and $36.30 per share, respectively. Because of the inherent uncertainty of valuation, the appraised value may differ significantly from the value that would have been used had a ready market for the securities existed, and the differences could be material. The Plan's investments are reported at fair value in the accompanying statement of net assets available for benefit.

Note 2. Summary of Accounting Policies - continued

Payment of Benefits

Benefits are recorded when paid.

Subsequent Events

The Plan has evaluated subsequent events through September 11, 2024, which is the date the financial statements were available to be issued.

Note 3. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1	Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
Level 2	Inputs to the valuation methodology include • quoted prices for similar assets or liabilities in active markets; • quoted prices for identical or similar assets or liabilities in inactive markets; • inputs other than quoted prices that are observable for the asset or liability; • inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.
Level 3	Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Note 3. Fair Value Measurements – continued

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of November 30, 2023 and 2022:

	Assets at Fair Value as of November 30			
	11/30/2023		***11/30/2022***	
	Level 3	*Total*	*Level 3*	*Total*
Investment in Agri-King common stock	$ 17,786,755	$17,786,755	$ 17,171,788	$ 17,171,788
Total assets at fair value	$ 17,786,755	$17,786,755	$ 17,171,788	$ 17,171,788

The following table sets forth a summary of changes in the fair value of the Plan's level 3 assets for the year ended November 30, 2023 and 2022:

	Company Common Stock
November 30, 2023	
Beginning balances	$ 17,171,788
Rounding	(1)
Total gains or losses (realized and unrealized) changes in net assets available for benefits	614,968
Total	$ 17,786,755
November 30, 2022	
Beginning balances	$ 18,929,231
Distribution of shares	(1,142,475)
Total gains or losses (realized and unrealized) changes in net assets available for benefits	(614,968)
Total	$ 17,171,788

Gains and losses (realized and unrealized) included in changes in net assets for the period above are reported in net appreciation in fair value of investments in the Statement of Changes in Net Assets Available for Benefits.

The Plan determines the fair value measurement policies and procedures in consultation with the Company's Board of Directors. Those policies and procedures are reassessed at least annually to determine if the current valuation techniques are still appropriate.

Note 3. Fair Value Measurements – continued

Following is a description of the valuation methodologies used for assets measured at fair value. The were no changes in the methodologies used at November 30, 2023 and 2022.

At November 30, 2023 and 2022, the unobservable inputs used in the fair value measurement were evaluated and adjusted, as necessary, based on current market conditions and other third-party information.

The Agri-King Inc. Company common stock held by the Plan is reported at fair value based upon an independent appraisal. This appraisal was based upon the income valuation technique consistent with prior years as illustrated in the following table.

Instrument	Fair Value	Principle Valuation Technique	Unobservable Inputs
Agri-King, Inc. Common stock	$ 17,786,755	Income	EBITDA Net Income Weighted average cost of capital Discount rate Discount for lack of marketability

The preceding method described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Note 4. Company Dividends

The Company paid dividends to the ESOP of $.41 per share or $193,951 and $.41 per share or $206,409 during the year ended November 31, 2023 and 2022, respectively.

Note 5. Related Party and Party in Interest Transactions

The Plan invests in Company common stock and receives dividends from the Company. These are related party and party in interest transactions. As described in note 2, the Company generally pays all plan expenses. The Plan has a number of service providers. Such providers are parties in interest under ERISA.

Note 6 Risks and Uncertainties

The Plan's investments consist primarily of the Company's common stock, which is exposed to various risks, including interest rate, market, and credit risks, as well as valuation assumptions based on earnings and cash flows. Due to the level of risk associated with the investment in the common stock and to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in the value of the common stock will occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets available for benefits.

Note 7. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, the participants will become 100% vested in their accounts and the trust will continue in effect until all assets are distributed to participants in accordance with the provisions of the Plan.

Note 8. Tax Status

The Internal Revenue Service has ruled, in a determination letter dated August 27, 2014, that the Plan qualifies under Section 401(a) of the Internal Revenue Code and is, therefore, not subject to tax under present income tax laws. The Plan has been amended since applying for this determination letter. The plan administrator believes that the Plan, as amended, still qualifies under the applicable sections of the Internal Revenue Code.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability if the organization has taken a significant uncertain position that more likely than not would not be sustained upon examination by the internal revenue service. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.
