Independent Auditor's Report

**To the Plan Participants and Plan Administrator
Sprint Retirement Pension Plan
Overland Park, Kansas**

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of Sprint Retirement Pension Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C). The financial statements comprise the statements of net assets available for benefits and of accumulated plan benefits as of November 30, 2023 and 2022, and the related statements of changes in net assets available for benefits and of changes in accumulated plan benefits for the year ended November 30, 2023, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA (ERISA Section 103(a)(3)(C) audit). As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency (qualified institution), provided that the investment information is prepared and certified to by the qualified institution in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

Management has obtained certifications from a qualified institution as of November 30, 2023 and 2022, and for the year ended November 30, 2023, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report:

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America (GAAP).

- The certified investment information in the accompanying financial statements agrees to, or is derived from, in all material respects, the information prepared and certified by a qualified institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for within one year after the date that the financial statements are issued or available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certifications, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter - Supplemental Schedules Required by ERISA

The supplementary information, as listed in the accompanying index, is presented for purposes of additional analysis and is not a required part of the financial statements but is required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplementary information, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplementary information that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplementary information, we evaluated whether the supplementary information, other than the information agreed to or derived from the certified investment information, including its form and content, are presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplementary information, other than the information in the supplementary information that agreed to or is derived from the certified investment information, is presented, in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.
- The certified investment information in the supplementary information agrees to, or is derived from, in all material respects, the information prepared and certified by a qualified institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Sprint Retirement Pension Plan

Notes to the Financial Statements

Note 1. Description of the Plan

The following brief description of the Sprint Retirement Pension Plan (the "Plan") is provided for general information only. For more complete information, participants should refer to the Plan document and the Summary Plan Description, which can be obtained by calling Retirement Services at 866-333-7311.

General

The Plan is classified as a defined benefit pension plan under the Internal Revenue Code ("IRC") and is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). It was established by Sprint Corporation ("Sprint") and adopted by substantially all of its wholly-owned subsidiaries.

On April 1, 2020, T-Mobile US, Inc. ("T-Mobile") closed on its business combination agreement with Sprint to merge in an all-stock transaction and as a result, Sprint Communications LLC (the "Company" or "Plan Sponsor"), which was a wholly-owned subsidiary of Sprint became wholly-owned subsidiary of T-Mobile. Upon completion of the merger, T-Mobile acquired the assets and assumed the liabilities associated with the Plan. The Plan assets acquired and obligations assumed were recognized at fair value on the merger close date.

The Plan is administered by the Company's Employee Benefits Committee ("Committee" or "Plan Administrator"). The Committee has overall responsibility for the operation and administration of the Plan. The Committee has delegated day-to-day administrative responsibilities to the Senior Manager, Pension & Retiree Plans of T-Mobile. The Plan's investments are held in a trust under the custody of The Northern Trust Company of Chicago, Illinois ("Northern Trust" or "Trustee"). The Trustee is appointed by the Employee Benefits Committee and the trust is maintained for the exclusive benefit of Plan participants. The Trustee invests the Plan's funds and pays out benefits to eligible participants. See [Note 3 - Investments](#) for additional information.

For purposes of these financial statements, the 2023 Plan year represents the year ended November 30, 2023, and the 2022 Plan year represents the year ended November 30, 2022.

Company Contributions

The Company's funding policy is to make contributions to the Plan that satisfy the ERISA minimum contributions requirements plus any additional contributions to ensure that the Plan's funded target liability percentage (the ratio of the actuarial value of assets to target liability – both values determined under ERISA funding rules) remains in excess of 80% for the Plan year. This policy is set to ensure compliance with the minimum funding requirements of ERISA. As a result, the 2023 contributions met the minimum funding requirements of ERISA.

Pension Benefits

Effective December 31, 2005, accrual of additional benefits ceased for all current Plan participants. Active Plan participants earn continuous service for vesting and retirement eligibility purposes after such date. Benefits are vested after completing five years of continuous service. New employees first hired by the Company after August 11, 2005 cannot become a participant in the Plan.

The Plan's benefit formula provides pension benefits prospectively from January 1, 1994, based upon years of service and adjusted career average salary. Annual benefits were determined by applying a two-part formula. Part One used average annual pay for the 60 months ended December 31, 1993 multiplied by credited years of service through December 31, 1993 times 1.5%. For Part Two, the amount calculated in Part One was then added to 1.5% of eligible annual pay for each subsequent year until the sooner of the date of retirement, termination, or December 31, 2005. The annual compensation of each participant taken into account in determining benefit accruals could not exceed the compensation limit per IRC Sec. 401(a)(17).

The Plan has been subject to amendments related to certain groups of employees whose rights have been preserved according to the provisions of their predecessors' company pension plans. Benefits are determined based upon the larger of the amount calculated under the most recent Plan formula compared to the preserved benefit formula.

The Plan provides for normal, early retirement, special early retirement, death and disability retirement, and deferred vested retirement upon meeting certain conditions. Plan benefits may be paid in the form of a single life annuity or in various forms of a joint and survivor annuity. Certain participants may qualify for a lump sum withdrawal.

Sprint Retirement Pension Plan

Notes to the Financial Statements

Administration and Plan Expenses

Certain costs and expenses of the Plan are paid from the funds of the Plan. The payment of such costs is subject to limitations in ERISA and the Plan.

Note 2. Summary of Significant Accounting Policies

The following is a summary of the significant accounting policies of the Plan:

Basis of Accounting

The accompanying financial statements are prepared under the accrual method of accounting in accordance with accounting principles generally accepted in the United States ("U.S. GAAP").

Use of Estimates

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts in the financial statements. Areas in which estimates have been made include, but are not limited to, the actuarial present value of accumulated plan benefits and the fair value of certain investments as of the date of the financial statements. Actual results could differ from these estimates.

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

Investment Valuation and Income Recognition

Investments of the Plan are stated at fair value, which is determined using quoted market prices or estimated fair values ([Note 4 – Fair Value Measurements](#)). Purchases and sales of securities are recorded on the trade dates. Dividend income is recorded on the ex-dividend date. Income from all the investments is recorded as earned on an accrual basis. Net realized gains and losses are recorded in the accompanying financial statements based on the settlement amount of investments at the time of sale or valuation, and net unrealized gains and losses are recorded based on the estimated fair value of the underlying investment at the measurement date.

Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those future periodic payments including, where applicable, lump-sum distributions, that are attributable under the Plan's provisions to the service participants have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated participants or their beneficiaries, (b) beneficiaries of participants who have died, and (c) present participants or their beneficiaries. The accumulated plan benefits are based upon a participant's compensation and the benefit formula described above. Accumulated benefits under all circumstances (retirement, death, disability and termination of employment) are included to the extent they are deemed attributable to employee service rendered through the valuation date.

The actuarial present value of accumulated plan benefits is determined by an independent actuary and is estimated through the application of actuarial assumptions to adjust the accumulated plan benefits. Adjustments typically are to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as death, disability, withdrawal or retirements) between the valuation date and the expected date of payment.

Sprint Retirement Pension Plan

Notes to the Financial Statements

Significant assumptions underlying the actuarial computations made as of November 30, 2023 and 2022, were as follows:

Mortality:	For both the Plan years ended November 30, 2023 and 2022, separate rates for non-annuitants (based on Pri-2012 "Employees" table), healthy retirees (based on Pri-2012 "Healthy Retirees" table) and contingent survivors (based on Pri-2012 "Contingent Survivors" table), without collar or amount adjustments and projected from 2012 using Scale MP-2021.
Disabled Mortality:	The disabled version of the tables described above.
Interest Rate Assumptions:	For the Plan years ended November 30, 2023 and 2022, the interest rate for determining the present value of accumulated benefits was 7.30% and 6.90% per annum, respectively, including a reduction of 0.80%, to reflect anticipated administrative expenses associated with providing benefits. The interest rates are based on the assumed rate of return on plan assets under ASC 715.
Retirement Age:	For both the Plan years ended November 30, 2023 and 2022, age-related rates ranging from 55-72 for participants with at least 5 years of service, based upon experience studies on the Company's population conducted in 2021.
Turnover:	A moderate scale consistent with the Company's prior experience. The turnover assumption for the Plan years ended November 30, 2023 and 2022, was based upon an experience study on the Company's population conducted in 2021.

The increase in the interest rate (discount rate) was the primary reason for the \$49 million decrease to the actuarial present value of accumulated plan benefits as of November 30, 2023.

If the Plan were to terminate, different actuarial assumptions and other factors might be applicable in determining actuarial present value of accumulated plan benefits.

Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits. During the 2023 and 2022 Plan years, the Plan occasionally purchased futures, options and swap contracts as a substitute for direct investments in equities and U.S. Treasury securities. Investments are governed by an investment policy outlined by the Plan Sponsor for the Plan.

Plan contributions are made and the actuarial present value of accumulated plan benefits is reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term could be material to the financial statements.

Futures and Forward Transactions

In order to gain exposure to or protect from changes in the market, the Plan may buy and sell financial futures and forward contracts. Risks of entering into futures and forward contracts include the possibility that there may be a change in the value of the contract that may not exactly correlate with changes in the value of the underlying securities. Upon entering into a futures contract, the Plan is required to deposit an initial margin, either in cash or securities, based on the rules of the relevant futures exchange. Subsequent payments (variation margin) are made or received by the fund each day. The variation margin payments are equal to the daily changes in the contract value and are recorded as realized gains and losses. Futures contracts are settled on a daily basis; therefore, there was no market value as of November 30, 2023 and 2022.

Option Transactions

In order to produce incremental earnings, protect gains, and facilitate buying and selling of securities for investment purposes, the Plan may buy and sell put and call options and write covered call and cash-secured put options on

Sprint Retirement Pension Plan

Notes to the Financial Statements

securities, stock and interest rate indexes and foreign currencies. The risk in writing a call option is that the Plan gives up the opportunity of profit if the market price of the security, index or currency increases. The risk in writing a put option is that the Plan may incur a loss if the market price of the security, index or currency decreases and the option is exercised. The risk of buying an option is that the Plan pays a premium whether or not the option is exercised. Option contracts are valued daily and unrealized gains (losses) are recorded. The Plan will realize a gain or loss upon expiration or closing of the option transaction. When an option is exercised, the proceeds on sale of a written call option, the purchase cost of a written put option, or the cost of security for a purchased put or call option is adjusted by the amount of premium received or paid.

Swap Transactions

In order to mitigate variability in certain risks such as interest rate risk, credit risk or to speculate on changes in the underlying prices, the Plan may enter into a swap agreement to exchange future cash flows according to a prearranged formula. Usually at the time when the contract is initiated, cash flows associated with the swap are determined by a variable such as an interest rate, credit events, foreign exchange rate, equity price or commodity price. The cash flows are calculated over a notional principal amount, which is usually not exchanged between counterparties. Consequently, swaps can be used to create unfunded exposures to an underlying asset, since counterparties can earn the profit or loss from movements in price without having to post the notional amount in cash or collateral. The Plan will realize a gain or loss upon expiration or closing of the swap transaction.

Reclassifications

Certain 2022 balances have been reclassified in order to conform to the 2023 presentation.

Note 3. Certified Investments

The Plan's investments are held in a trust under the custody of Northern Trust. All investment information disclosed in the accompanying financial statements and supplemental schedules, including investments held, accrued investment income and receivables and payables for unsettled securities as of November 30, 2023 and 2022, and net realized and unrealized gains in the fair value of investments, interest, dividends, and other investment income for the year ended November 30, 2023, was obtained or derived from information supplied to the Plan Sponsor and certified as complete and accurate by Northern Trust. Accordingly, the Plan Sponsor instructed the Plan's independent auditor not to perform any auditing procedures with respect to the investment information certified by Northern Trust as complete and accurate, except for comparing such information certified by Northern Trust to information included in the Plan's financial statements and supplemental schedules.

Note 4. Fair Value Measurements

Fair value is defined as the price that would be received from selling an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. When determining the fair value for assets and liabilities, the Plan considers the principal or most advantageous market in which it would transact and considers assumptions that market participants would use when pricing the asset or liability, such as inherent risk, transfer restrictions, and risk of nonperformance. The methods used to determine the fair market value may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions, including unobservable inputs, to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Accounting Standards Codification ("ASC") 820, Fair Value Measurement, establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy requires the Plan to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. A financial instrument's categorization within the fair value hierarchy is based upon the lowest level of input that is significant to the fair value measurement. The three levels of the fair value hierarchy under ASC 820 for financial assets and financial liabilities are described below:

Level 1 - Quoted prices in active markets for identical assets or liabilities;

Level 2 - Inputs other than quoted prices in active markets for identical assets or liabilities that are observable, either directly or indirectly, such as quoted prices in active markets for similar assets or

Sprint Retirement Pension Plan

Notes to the Financial Statements

liabilities, quoted prices for identical or similar assets or liabilities in markets that are not active, or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities;

Level 3 - Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities.

The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period.

The Plan evaluated the significance of transfers between input types based upon the nature of the financial instrument and the size of the transfer relative to total net assets available for benefits. For the year ended November 30, 2023, there were no material transfers in or out of investments with fair values measured by quoted prices to or from observable levels of input.

Investments Measured at Fair Value on a Recurring Basis

Investments measured at fair value on a recurring basis consisted of the following types of instruments as of November 30, 2023:

Total investments measured at fair value	\$ 203,676	\$ 987,790	\$ 43,079	\$ 1,258,547

(1) In accordance with Subtopic 820-10, investments that were measured at fair value using the net asset value (or its equivalent) practical expedient have not been categorized in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the amounts presented in the Statements of Net Assets Available for Benefits.

Following is a description of the valuation methodologies used for investments measured at fair value. Methodologies used for the Plan year ended November 30, 2023, are consistent with the prior year.

- Common and preferred stocks – The majority of equities are valued at the closing price reported on the active market on which the individual securities are traded. Remaining equities are valued based on prices currently available for comparable securities or cash flow analyses, which may be adjusted with observable or unobservable inputs, related to risk and recoverability.
- Commingled funds – Investments in commingled funds, which primarily consist of collective trust funds, are valued at the respective net asset value ("NAV") as published by the funds at the end of each day. The value of each unit is determined by subtracting total liabilities from the total value of the assets, including accrued income, and dividing the amount remaining by the number of units outstanding on the valuation date. There are limited restrictions as to the redemption of these investments and the Plan does not have any contractual obligations to further invest in any of these funds. While the underlying assets of each fund are actively traded on an exchange, the commingled funds are not. The NAV is a quoted price in a market that is not active and classified within Level 2 of the fair value hierarchy. Investments in commingled funds also includes collective short term investment fund which is classified with Level 1 of the fair value hierarchy based on the nature of the fund. This fund seeks to maximize current income on cash reserves and operates with a stable net asset value of \$1.00 per participating interest, by offering a competitive rate of return through a portfolio of high-grade short-term money market instruments.
- Corporate bonds and related securities – Certain bonds are valued based on yields currently available for comparable securities of issuers with similar credit ratings, but may be adjusted for certain risks, which may not be observable, such as issue-specific features or market sector events that may influence marketability.
- Government and municipal securities – Certain securities are valued based on corroborated indicative quotes using observable market-based data currently available for comparable securities of issuers.
- Registered investment companies – Registered investment companies are valued at the daily closing price as reported by the funds and transact daily at that price. The funds are registered as open-end funds with the Securities and Exchange Commission. Certain funds are deemed to be actively traded while others are only available to investors that meet specific criteria and are not considered to be actively traded.
- Partnerships – The majority of investments are valued based on a reported NAV determined by calculating the value of assets owned less liabilities and divided by the number of shares issued. The calculated NAV

Sprint Retirement Pension Plan

Notes to the Financial Statements

maximizes observable inputs such as cash flow analyses and includes adjustments for certain risks, which may not be observable, such as appraisals and redemption conditions. In addition, the Plan invests in partnerships that utilizes NAV as a practical expedient and are not classified in the fair value hierarchy.

- Other investments – Remaining investments include options and swaps, which are valued based on prices currently available for comparable investments of issuers. When quoted prices are not available for identical or similar investments, the option or swap is valued using techniques to convert future cash flows to discounted present amounts and includes adjustments for certain risks that may not be observable, such as current market expectations on the future amounts.

Level 3 Activity

Purchases and Transfers Between Levels – The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another.

For the Plan year ended November 30, 2023, \$2.1 million of partnership investments were purchased and classified as Level 3 as valuation used significant other observable inputs. In addition, no investments were reclassified from Level 3 to Level 2.

For the Plan year ended November 30, 2022, \$10.7 million of partnership investments were purchased and classified as Level 3 as valuation used significant other observable inputs. In addition, no investments were reclassified from Level 3 to Level 2.

The following table sets forth a summary of the Plan's alternative investments where the fair value is not readily determinable but a reported NAV is used, as a practical expedient, to estimate the fair value:

	Fair Value Estimated Using Net Asset Value per Share					
	As of November 30,		As of November 30,		Redemption Frequency	Redemption Notice Period
	2023	2022	2023	2022

Partnerships (a)	—	241	None	None	N/A	N/A
Partnerships (b)	6,416	20,847	6,105	9,152	Monthly	21 days
Partnerships (c)	3,157	2,914	643	936	N/A	N/A
Total	\$ 9,573	\$ 24,002				

- Consists of a limited liability company that allocates substantially all of its assets across a variety of underlying hedge fund investment vehicles, generally fixed income and equity orientations with many different investment styles. During the 2017 plan year, the Plan Sponsor opted to redeem its holding in the fund and the majority of the investment has been liquidated as of November 30, 2017. The remaining balance as of November 30, 2022, was maintained by the fund to hold, manage and dispose of the Plan Sponsor's pro rata share of certain investments transferred to the fund.
- Consists of a closed private equity fund with the objective of outperforming the Credit Suisse Leveraged Loan Index by investing primarily in bank debt instruments of non-investment grade companies. The fund uses a selective approach focused on the larger, rated issuers within the bank loan universe to provide a margin of safety and downside risk protection relative to the smaller issuers within the bank loan universe.
- Consists of a limited partnership organized to operate as a private credit fund. The fund invests in U.S. middle market companies via directly-originated senior secured cash flow loans and specialty finance loans. There are no redemption provisions for this fund. There is an investment period in which investments (the principle amount) can be recycled and interest income is distributed quarterly. At the end of the investment period, capital will be returned to investors as loans in the portfolio are repaid.

Net unrealized/realized losses on derivatives	<u>\$ (54,523)</u>

Note 6. Securities Lending

The Plan Sponsor's Committee has an agreement with Northern Trust that authorizes Northern Trust to lend securities held in the Plan to third parties. Northern Trust must obtain collateral from the borrower in the form of cash, letters of credit issued by an entity other than the borrower, or acceptable securities. Both the collateral and the securities loaned are marked-to-market on a daily basis so that all loaned securities are fully collateralized at all times. In the event the loaned securities are not returned by the borrower, Northern Trust will, at its own expense, either replace the loaned securities or, if unable to purchase those securities on the open market, credit the Plan in cash equal to the fair value of the loaned securities.

The Plan and Northern Trust each receive a percentage of the net income derived from securities lending activities. For the Plan year ended November 30, 2023, there were no securities lending activities with no corresponding income earned.

Although the Plan's securities lending activities are collateralized as described above, they involve both market and credit risk. In this context, market risk refers to the possibility that the borrowers of securities will be unable to collateralize the loan upon a sudden material change in the fair value of the loaned securities or the collateral. Credit risk refers to the possibility that counterparties involved in the securities lending program may fail to perform in accordance with the terms of the contract.

Note 7. Party-in-interest Transactions

The Plan's assets are held in a trust under the custody of Northern Trust. In return for these services, Northern Trust is paid certain administrative fees related to the trust. Goldman Sachs serves as oversight investment manager of the

Sprint Retirement Pension Plan

Notes to the Financial Statements

Plan's assets. In return for these services, Goldman Sachs was paid oversight management fees with Plan assets offset by investment fund return credits resulting in refunds for the Plan year ended November 30, 2023. In addition to the annual actuarial valuation performed by Willis Towers Watson, Willis Towers Watson also performs and is paid for services related to the Plan's benefit payment management and administration. Payments from the Plan to these service providers are party-in-interest transactions.

Note 8. Plan Termination

The Company reserves the right to amend or terminate the Plan at any time.

In the event the Plan terminates, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

- A. Annuity benefits that former participants or their beneficiaries have been receiving for at least three years, or that participants eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan. The priority amount is limited to the lowest benefit that was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would be payable under Plan provisions in effect at any time during the five years preceding Plan termination.
- B. Other vested benefits insured by the Pension Benefit Guaranty Corporation ("PBGC"), a United States governmental agency, up to the applicable limitations discussed below.
- C. All other vested benefits (that is, vested benefits not insured by the PBGC).
- D. All non-vested benefits.

Certain benefits under the Plan are insured by the PBGC if the Plan were terminated. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's pension benefits. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination. However, there is a statutory ceiling on the amount of a participant's monthly benefit that the PBGC guarantees. Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide those benefits and may also depend on the level of benefits guaranteed by the PBGC and the financial condition of the Plan Sponsor.

Note 9. Tax Status

The Plan obtained its latest determination letter dated January 29, 2014, in which the Internal Revenue Service ("IRS") stated that the Plan, as then designed, is compliant with the applicable requirements of the IRC. The Plan has been amended since receiving the determination letter. However, the Plan Sponsor believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC and the Plan continues to be exempt. As a result, no provision for income taxes has been included in the Plan's financial statements.

U.S. GAAP requires the Plan Sponsor to evaluate tax positions taken by the Plan and recognize a tax liability or asset if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan Sponsor has analyzed the tax positions taken by the Plan, and has concluded that as of November 30, 2023 and 2022, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements.

The Plan is subject to audits by the IRS; however, there are currently no audits for any tax periods in progress.

Notes to the Financial Statements

Note 10. Subsequent Event

Management has evaluated subsequent events through September 9, 2024, the date on which the financial statements were available to be issued. Effective July 1, 2024, the Plan was amended to allow eligible participants to elect to receive their Plan benefit in the form of a single lump sum or an immediate lifetime annuity. Eligible participants must make an affirmative election by the deadline prescribed by the Plan Administrator. If an eligible participant does elect to participate in the voluntary opportunity, the participant's benefit will be payable in accordance with regular provisions of the Plan. Each participant's benefit, whether paid in a lump sum or immediate annuity, will be calculated as of November 1, 2024, applying the existing actuarial factors provided by the Plan, and will be paid or commence no later than November 29, 2024. No other subsequent events were identified requiring adjustment or disclosure in these financial statements.

Schedule SB, Part V Statement of Actuarial Assumptions/Methods

Economic Assumptions

Interest rate basis

- Applicable month August
- Interest rate basis 3-Segment Rates

Interest rates	Reflecting Corridors	Not Reflecting Corridors
• First segment rate	4.75%	1.27%
• Second segment rate	5.18%	2.99%
• Third segment rate	5.92%	3.51%
• Effective interest rate	5.43%	3.15%

As permitted by law, rates reflecting stabilization are used to determine the funding target and target normal cost, and thus the minimum required contribution under IRC §430 for the plan. Because these assumptions are subject to a corridor based on average interest rates over a 25-year period, they may differ from (and currently are higher than) current market interest rates, and may be inconsistent with other economic assumptions used in the valuation.

Assumed return for asset smoothing ¹	Plan year beginning: 12/1/2021: 5.00% 12/1/2020: 4.30%
---	--

Annual rates of increase

- Compensation Not applicable since benefit accruals for all employees are frozen
- Future Social Security wage bases Not applicable
- Statutory limits on compensation 0.00%

¹ The assumed return for asset smoothing is used in the development of the Actuarial Value of Assets (AVA). The assumed return for each year can be no greater than the third segment rate (reflecting corridors). For 12/1/2021, the third segment rate was 6.11%. For 12/1/2020, the third segment rate was 6.27%.

Administrative expenses

Plan-related expenses are derived by considering the expenses paid from the trust in the previous year, adjusted to reflect anticipated PBGC premiums for the current year. For this valuation, plan-related expenses are estimated to be \$20,200,000. No investment related expenses are included in this estimate.

Demographic Assumptions

Inclusion date

The valuation date coincident with or next following the date on which the employee becomes a participant

New or rehired employees

It was assumed there will be no new or rehired employees

Mortality

- Healthy

Separate rates for non-annuitants (based on RP-2014 "Employees" table) and annuitants (based on RP-2014 "Healthy Annuitants" table), without collar or amount adjustments, adjusted backward to 2006 with MP-2014, and then projected forward with static projection as specified in the regulations under §1.430(h)(3)-1 using Scale MP-2020

- Disabled

The prescribed disabled mortality assumption under IRC §430(h)(3)(A), in accordance with Revenue Ruling 96-7

Termination

Rates varying by age. Representative termination rates are shown below:

Future Incidence of Unpredictable Contingent Events	The Company has determined that there is no reasonable expectation of permanent shutdown of department or facility or future job elimination. Therefore, unless otherwise specified, the future incidence of Special Early Retirement eligibility (an Unpredictable Contingent Event) is assumed to be zero.
Form of payment	65% of participants are assumed to elect a single life annuity, 20% of participants are assumed to elect a 100% joint and survivor annuity, and 15% of participants are assumed to elect a 50% joint and survivor annuity. 100% of participants eligible to receive a GTE or US Sprint benefit are assumed to elect the benefit as a lump sum.
Percent married	80% of eligible participants are assumed to be married. Used to value pre-retirement surviving spouse benefits and in determining the optional forms expected to be elected at commencement
Spouse age	Male spouses are assumed to be 3 years older than female spouses
Timing of benefit payments and decrements	Annuity payments are payable monthly at the beginning of the month and lump sum payments are payable on date of decrement; decrements are assumed to occur at the middle of the year

Methods

Valuation date	First day of plan year
Funding target	Present value of accrued benefits as required by regulations under IRC §430
Target normal cost	Present value of benefits expected to accrue during the plan year plus plan-related expenses expected to be paid from plan assets during the plan year as required by regulations under IRC §430

Actuarial value of assets

Average of the fair market value of assets on the valuation date and the dates 12 months and 24 months preceding the valuation date, adjusted for contributions, benefits, administrative expenses and expected earnings (with such expected earnings limited as described in IRS Notice 2009-22). The average asset value must be within 10% of market value, including discounted contributions receivable (discounted using the effective interest rate for plan year preceding the valuation date.) The method of computing the actuarial value of assets complies with rules governing the calculation of such values under the Pension Protection Act of 2006 (PPA). These rules produce smoothed values that reflect the underlying market value of plan assets but fluctuate less than the market value. As a result, the actuarial value of assets will be lower than the market value in some years and greater in other years. However, over the long term under PPA's smoothing rules, the method has a significant bias to produce an actuarial value of assets that is below the market value of assets.

Benefits not valued

All benefits described in the Plan Provisions section of this report were valued based on discussions with the Company regarding the likelihood that these benefits will be paid. WTW has reviewed the plan provisions with the Company and, based on that review, is not aware of any significant benefits required to be valued that were not.

Sources of Data and Other Information

The plan sponsor, through its third party administrator, furnished participant data as of December 1, 2022. Information on assets, contributions and plan provisions was supplied by the plan sponsor. Data and other information were reviewed for reasonableness and consistency, but no audit was performed. Assumptions or estimates were made when data were not available. We are not aware of any errors or omissions in the data that would have a significant effect on the results of our calculations.

Assumptions Rationale – Significant Economic Assumptions

Interest rate	The basis chosen was selected by the plan sponsor from among choices prescribed by law, all of which are based on observed market data over certain periods of time
Plan-related expenses	As required by regulations, plan-related expenses are calculated by estimating the expenses to be paid from the trust during the coming year (including, for example, expected PBGC premiums and actuarial, accounting, legal, and administration fees to be paid from the trust)

Assumptions Rationale – Significant Demographic Assumptions

Healthy Mortality	Assumptions used for funding purposes are as prescribed by IRC §430(h)
Disabled Mortality	Assumptions used for funding purposes are as prescribed by IRC §430(h), in accordance with Revenue Ruling 96-7
Form of Payment	Form of payment assumptions were based on an experience study conducted in 2021, with annual consideration of whether any conditions have changed that would be expected to produce different results in the future.
Termination	Termination rates were based on an experience study conducted in 2021, with annual consideration of whether any conditions have changed that would be expected to produce different results in the future.
Retirement	Retirement rates were based on an experience study conducted in 2021, with annual consideration of whether any conditions have changed that would be expected to produce different results in the future

Source of Prescribed Methods

Funding methods

The methods used for funding purposes as described in Appendix A, including the method of determining plan assets, are “prescribed methods set by law”, as defined in the actuarial standards of practice (ASOPs). These methods are required by IRC §430, or were selected by the plan sponsor from a range of methods permitted by IRC §430.

Changes in Assumptions and Methods

Change in assumptions and methods since prior valuation

- The segment interest rates used to calculate the funding target and target normal cost were updated from an applicable month of August 2021 to August 2022 as required by IRC §430
- The mortality table used to calculate the funding target and target normal cost was updated to use the MP-2020 projection scale as specified in the regulations under §1.430(h)(3)-1
- The assumed plan-related expenses added to the target normal cost were changed from \$19,700,000 for the prior valuation to \$20,200,000 for the current valuation to reflect an increase in the expected PBGC premiums and other administrative expenses. The amount has been updated from the prior year; however, the process for estimating plan-related expenses has not changed.

EIN/PN	48-0457967/001
Plan Name	Sprint Retirement Pension Plan
Valuation Date	December 1, 2022
Enrolled Actuary	Fred Heger
Enrollment Number	23-07303

The actuarial assumptions that are not mandated by IRC § 430 and regulations, represent the enrolled actuary's best estimate of anticipated experience under the plan, subject to the following conditions:

The actuarial valuation, on which the information in this Schedule SB is based, has been prepared in reliance upon the employee and financial data furnished by the plan administrator and the trustee. The enrolled actuary has not made a rigorous check of the accuracy of this information but has accepted it after reviewing it and concluding it is reasonable in relation to similar information furnished in previous years. The amounts of contributions and dates paid shown in Item 18 of Schedule SB were listed in reliance on information provided by the plan administrator and/or trustee.

Schedule SB, Part V Statement of Actuarial Assumptions/Methods

Economic Assumptions

Interest rate basis

- Applicable month August
- Interest rate basis 3-Segment Rates

Interest rates	Reflecting Corridors	Not Reflecting Corridors
• First segment rate	4.75%	1.27%
• Second segment rate	5.18%	2.99%
• Third segment rate	5.92%	3.51%
• Effective interest rate	5.43%	3.15%

As permitted by law, rates reflecting stabilization are used to determine the funding target and target normal cost, and thus the minimum required contribution under IRC §430 for the plan. Because these assumptions are subject to a corridor based on average interest rates over a 25-year period, they may differ from (and currently are higher than) current market interest rates, and may be inconsistent with other economic assumptions used in the valuation.

Assumed return for asset smoothing ¹	Plan year beginning: 12/1/2021: 5.00% 12/1/2020: 4.30%
---	--

Annual rates of increase

- Compensation Not applicable since benefit accruals for all employees are frozen
- Future Social Security wage bases Not applicable
- Statutory limits on compensation 0.00%

¹ The assumed return for asset smoothing is used in the development of the Actuarial Value of Assets (AVA). The assumed return for each year can be no greater than the third segment rate (reflecting corridors). For 12/1/2021, the third segment rate was 6.11%. For 12/1/2020, the third segment rate was 6.27%.

Administrative expenses

Plan-related expenses are derived by considering the expenses paid from the trust in the previous year, adjusted to reflect anticipated PBGC premiums for the current year. For this valuation, plan-related expenses are estimated to be \$20,200,000. No investment related expenses are included in this estimate.

Demographic Assumptions

Inclusion date

The valuation date coincident with or next following the date on which the employee becomes a participant

New or rehired employees

It was assumed there will be no new or rehired employees

Mortality

- Healthy

Separate rates for non-annuitants (based on RP-2014 "Employees" table) and annuitants (based on RP-2014 "Healthy Annuitants" table), without collar or amount adjustments, adjusted backward to 2006 with MP-2014, and then projected forward with static projection as specified in the regulations under §1.430(h)(3)-1 using Scale MP-2020

- Disabled

The prescribed disabled mortality assumption under IRC §430(h)(3)(A), in accordance with Revenue Ruling 96-7

Termination

Rates varying by age. Representative termination rates are shown below:

Future Incidence of Unpredictable Contingent Events

The Company has determined that there is no reasonable expectation of permanent shutdown of department or facility or future job elimination. Therefore, unless otherwise specified, the future incidence of Special Early Retirement eligibility (an Unpredictable Contingent Event) is assumed to be zero.

Form of payment

65% of participants are assumed to elect a single life annuity, 20% of participants are assumed to elect a 100% joint and survivor annuity, and 15% of participants are assumed to elect a 50% joint and survivor annuity. 100% of participants eligible to receive a GTE or US Sprint benefit are assumed to elect the benefit as a lump sum.

Percent married

80% of eligible participants are assumed to be married. Used to value pre-retirement surviving spouse benefits and in determining the optional forms expected to be elected at commencement

Spouse age

Male spouses are assumed to be 3 years older than female spouses

Timing of benefit payments and decrements

Annuity payments are payable monthly at the beginning of the month and lump sum payments are payable on date of decrement; decrements are assumed to occur at the middle of the year

Actuarial value of assets

Average of the fair market value of assets on the valuation date and the dates 12 months and 24 months preceding the valuation date, adjusted for contributions, benefits, administrative expenses and expected earnings (with such expected earnings limited as described in IRS Notice 2009-22). The average asset value must be within 10% of market value, including discounted contributions receivable (discounted using the effective interest rate for plan year preceding the valuation date.) The method of computing the actuarial value of assets complies with rules governing the calculation of such values under the Pension Protection Act of 2006 (PPA). These rules produce smoothed values that reflect the underlying market value of plan assets but fluctuate less than the market value. As a result, the actuarial value of assets will be lower than the market value in some years and greater in other years. However, over the long term under PPA's smoothing rules, the method has a significant bias to produce an actuarial value of assets that is below the market value of assets.

Benefits not valued

All benefits described in the Plan Provisions section of this report were valued based on discussions with the Company regarding the likelihood that these benefits will be paid. WTW has reviewed the plan provisions with the Company and, based on that review, is not aware of any significant benefits required to be valued that were not.

Sources of Data and Other Information

The plan sponsor, through its third party administrator, furnished participant data as of December 1, 2022. Information on assets, contributions and plan provisions was supplied by the plan sponsor. Data and other information were reviewed for reasonableness and consistency, but no audit was performed. Assumptions or estimates were made when data were not available. We are not aware of any errors or omissions in the data that would have a significant effect on the results of our calculations.

Source of Prescribed Methods

Funding methods

The methods used for funding purposes as described in Appendix A, including the method of determining plan assets, are “prescribed methods set by law”, as defined in the actuarial standards of practice (ASOPs). These methods are required by IRC §430, or were selected by the plan sponsor from a range of methods permitted by IRC §430.

Changes in Assumptions and Methods

Change in assumptions and methods since prior valuation

- The segment interest rates used to calculate the funding target and target normal cost were updated from an applicable month of August 2021 to August 2022 as required by IRC §430
- The mortality table used to calculate the funding target and target normal cost was updated to use the MP-2020 projection scale as specified in the regulations under §1.430(h)(3)-1
- The assumed plan-related expenses added to the target normal cost were changed from \$19,700,000 for the prior valuation to \$20,200,000 for the current valuation to reflect an increase in the expected PBGC premiums and other administrative expenses. The amount has been updated from the prior year; however, the process for estimating plan-related expenses has not changed.

Schedule SB, Part V Summary of Plan Provisions

Plan Provisions

The plan was originally effective January 1, 1966. All amendments included in the January 1, 2013 plan restatement are reflected in this valuation. The most recent amendment effective July 1, 2019 allowed for a voluntary distribution window for certain former employees to receive a one-time cash out of their benefit in 2019.

Eligibility

Covered Employees

All regular employees of participating companies are covered by the Plan upon meeting the membership eligibility requirements below.

Membership continues in this Plan if an employee was a member of the United System Employee Retirement Plan or US Sprint Communications Company Pension Plan on December 31, 1989.

Former Centel employees became participants on December 31, 1993. Otherwise, effective January 1, 1990, an employee becomes a member on the first day of the calendar month coincident with or next following the date he completes one year of continuous service. Part-time employees must work 1,000 hours and 12 consecutive months to become members.

“Former Centel Union Employees” become participants in the plan on the date on which they become employees.

Membership is closed to employees hired on or after August 12, 2005 (including legacy Nextel employees).

Definitions

Definitions

“Continuous service” means all service rendered as an employee prior to the later of his normal retirement date or date of termination of employment. Continuous service is measured in nearest full years for non-union employees, and measured in hours of service for union employees.

“Credited service” means all service rendered as an employee prior to the later of his normal retirement date or date of termination of employment. Credited service is measured in years and months for non-union employees and measured in hours of service for union employees.

Other Plan Provisions

Minimum Benefits From Predecessor Plans (United, US Sprint, GTE, and Centel) for Certain Active Members

**United Plan Member or
United Transferred
Employee on
December 31, 1989**

The minimum benefit for a non-union member equals:

- (i) 1.2% of his average final compensation multiplied by his credited service prior to January 1, 2000, plus
- (ii) 35% of his average final compensation in excess of new covered compensation, multiplied by credited service prior to January 1, 2000, or if a member prior to January 1, 1987, and if greater, .25% of his average final compensation in excess of covered compensation multiplied by the lesser of the number of years of credited service he would have had at normal retirement (if he terminated prior to normal retirement) or 15, further multiplied by the ratio of his credited service prior to January 1, 2000 to the number of years of credited service he would have had at normal retirement.

Reductions for early commencement and forms of benefits other than life only are the same as indicated above. An additional minimum applies if a member is age 60 or over, and eligible for early or special early retirement. This minimum benefit is equal to 1% of the member's average final compensation multiplied by his credited service prior to January 1, 2000.

This benefit calculation is frozen as of December 31, 1999.

**US Sprint Communications
Company Pension Plan
Member on
December 31, 1989**

The minimum benefit equals the accrued benefit under the US Sprint Plan as of December 31, 1989. Reductions for early commencement and forms of benefit other than life are based on the factors in the US Sprint Plan and the age at benefit commencement.

GTE Transferred Employee on December 31, 1989

The GTE minimum benefit equals the greater of (i) or (ii) as follows:

- (i) 1.35% times average final compensation prior to July 1, 1996 times credited service prior to July 1, 1996, or
- (ii) credited service prior to July 1, 1996 multiplied by the sum of (1) and (2):
 - (1) 1.15% times average final compensation prior to July 1, 1996 and below the Social Security Integration Level plus,
 - (2) 1.45% times such average final compensation above the Social Security Integration Level.

Reductions for early commencement are based on the following schedule if the member's age and service equal at least 76 (provided the member has at least 15 years of credited service):

Age	Reduction
49 or younger	18%
50 – 54	1/4% per month from age 55
55 or older	0%

Reductions for alternate forms of benefits are based on the factors in the US Sprint Communications Company Pension Plan.

Former Centel Non-Union Employee

The Centel minimum benefit equals the sum of (i) and (ii) as follows:

- (i) 1.7% times Centel Career Average Compensation times credited service on or after January 1, 1985 and prior to January 1, 1994.
- (ii) the sum of (1) and (2) as follows:
 - (1) 1.125% times the portion of Centel Average Final Compensation that is not in excess of \$750, all multiplied by credited service as of December 31, 1984.
 - (2) 1.5% times the portion of Centel Average Final Compensation that exceeds \$750, all multiplied by credited service as of December 31, 1984.

Certain employees will be eligible for additional minimum benefits due to service as an IBEW Business Manager, service with the Centel Telephone Company of Ohio, or participation in prior Centel plans.

For employees retiring at age 55 or later, these benefits are unreduced for commencement at ages 60 and later and reduced by .3% for each month by which benefit commencement precedes age 60.

Former Centel Union Employee

The Centel minimum benefit equals credited service times the dollar amount for the applicable pension band under the Centel Union Plan.

Certain employees will be eligible for additional minimum benefits due to service as an IBEW Business Manager or participation in prior Centel plans.

Benefits commencing before age 65 will be reduced by 5/12% for each month by which benefit commencement precedes age 65. However, for employees with 30 or more years of service, benefits are unreduced for commencement at ages 60 and later.

Effective January 1, 2000, certain Centel unions have frozen the benefits, which are payable unreduced upon retirement for employees with 30 or more years of service and age 60 and older. Shown below are the affected unions and the date as of which the benefit level for unreduced retirement is frozen.

Union	Freeze Date
CWA 2277	May 16, 1999
CWA 3672	May 26, 1999
IBEW 1181	March 16, 1997

Maximum Benefits

The maximum pension is subject to the conditions of IRC §415, payable as a qualified joint and survivor benefit in the case of retirement at the social security retirement age. It is actuarially increased if retirement occurs later and actuarially reduced if retirement occurs earlier. Additional limitations apply if the member has less than ten years of participation and if contributions were made under any defined contribution plan in which the member participates.

Normal Form of Allowance

If the member is not married on his date of retirement, the benefit is payable for life, with no benefit payable upon his death.

If the member is married on his date of retirement, the normal form of benefit is an actuarially reduced benefit payable for his life, with the provision that after his death an allowance at one-half the rate of his reduced allowance will be continued during the life of and paid to his spouse if she survives him. The reduced allowance is determined in such a way that the total benefit is of equivalent value to the annuity described above for an unmarried member.

If the value of the equivalent actuarial benefit is less than \$5,000, the plan may make a single lump sum payment to the member.

Optional Forms

A member may elect to convert his allowance, at least 90 days prior to the due date of the first payment of his retirement allowance, into any one of several benefits of equivalent actuarial value to the benefit payable to an unmarried member.

Appendix Amendments

The benefits of several predecessor plans are provided under appendix amendments. These benefits are restricted to members who were covered under the predecessor plans.

Assets and liabilities associated with the former Wintel Group, Quincy Telephone Company, United Business Communications, Inc., Unitel, Calma Company, Information Systems of America, Uniwatch, Inc., United Computing International, Inc., United Communications Systems, Inc. and United Transmission, Inc. are included with those for United Telecommunications, Inc. In each case, liabilities are limited to the frozen Plan benefits accrued at the time each company ceased to participate in the Plan. Such frozen benefits have been estimated in certain cases.

The valuation reflects minimum benefits for employees of Carolina Telegraph and Telephone Company as of July 1, 1975 as guaranteed under Appendix P and for employees of Florida Telephone Corporation as of March 1, 1974 as guaranteed under Appendix W and minimum benefits for employees who have Winter Park or On-Line account balances under Appendix Z or BB.

Effective December 31, 2005, the amount of the Appendix amendment benefit is frozen for each participant in the plan.

Schedule SB, Part V Summary of Plan Provisions

Plan Provisions

The plan was originally effective January 1, 1966. All amendments included in the January 1, 2013 plan restatement are reflected in this valuation. The most recent amendment effective July 1, 2019 allowed for a voluntary distribution window for certain former employees to receive a one-time cash out of their benefit in 2019.

Eligibility

Covered Employees

All regular employees of participating companies are covered by the Plan upon meeting the membership eligibility requirements below.

Membership continues in this Plan if an employee was a member of the United System Employee Retirement Plan or US Sprint Communications Company Pension Plan on December 31, 1989.

Former Centel employees became participants on December 31, 1993. Otherwise, effective January 1, 1990, an employee becomes a member on the first day of the calendar month coincident with or next following the date he completes one year of continuous service. Part-time employees must work 1,000 hours and 12 consecutive months to become members.

“Former Centel Union Employees” become participants in the plan on the date on which they become employees.

Membership is closed to employees hired on or after August 12, 2005 (including legacy Nextel employees).

Definitions

Definitions

“Continuous service” means all service rendered as an employee prior to the later of his normal retirement date or date of termination of employment. Continuous service is measured in nearest full years for non-union employees, and measured in hours of service for union employees.

“Credited service” means all service rendered as an employee prior to the later of his normal retirement date or date of termination of employment. Credited service is measured in years and months for non-union employees and measured in hours of service for union employees.

Other Plan Provisions

Minimum Benefits From Predecessor Plans (United, US Sprint, GTE, and Centel) for Certain Active Members

**United Plan Member or
United Transferred
Employee on
December 31, 1989**

The minimum benefit for a non-union member equals:

- (i) 1.2% of his average final compensation multiplied by his credited service prior to January 1, 2000, plus
- (ii) 35% of his average final compensation in excess of new covered compensation, multiplied by credited service prior to January 1, 2000, or if a member prior to January 1, 1987, and if greater, .25% of his average final compensation in excess of covered compensation multiplied by the lesser of the number of years of credited service he would have had at normal retirement (if he terminated prior to normal retirement) or 15, further multiplied by the ratio of his credited service prior to January 1, 2000 to the number of years of credited service he would have had at normal retirement.

Reductions for early commencement and forms of benefits other than life only are the same as indicated above. An additional minimum applies if a member is age 60 or over, and eligible for early or special early retirement. This minimum benefit is equal to 1% of the member's average final compensation multiplied by his credited service prior to January 1, 2000.

This benefit calculation is frozen as of December 31, 1999.

**US Sprint Communications
Company Pension Plan
Member on
December 31, 1989**

The minimum benefit equals the accrued benefit under the US Sprint Plan as of December 31, 1989. Reductions for early commencement and forms of benefit other than life are based on the factors in the US Sprint Plan and the age at benefit commencement.

GTE Transferred Employee on December 31, 1989

The GTE minimum benefit equals the greater of (i) or (ii) as follows:

- (i) 1.35% times average final compensation prior to July 1, 1996 times credited service prior to July 1, 1996, or
- (ii) credited service prior to July 1, 1996 multiplied by the sum of (1) and (2):
 - (1) 1.15% times average final compensation prior to July 1, 1996 and below the Social Security Integration Level plus,
 - (2) 1.45% times such average final compensation above the Social Security Integration Level.

Reductions for early commencement are based on the following schedule if the member's age and service equal at least 76 (provided the member has at least 15 years of credited service):

Age	Reduction
49 or younger	18%
50 – 54	1/4% per month from age 55
55 or older	0%

Reductions for alternate forms of benefits are based on the factors in the US Sprint Communications Company Pension Plan.

Former Centel Non-Union Employee

The Centel minimum benefit equals the sum of (i) and (ii) as follows:

- (i) 1.7% times Centel Career Average Compensation times credited service on or after January 1, 1985 and prior to January 1, 1994.
- (ii) the sum of (1) and (2) as follows:
 - (1) 1.125% times the portion of Centel Average Final Compensation that is not in excess of \$750, all multiplied by credited service as of December 31, 1984.
 - (2) 1.5% times the portion of Centel Average Final Compensation that exceeds \$750, all multiplied by credited service as of December 31, 1984.

Certain employees will be eligible for additional minimum benefits due to service as an IBEW Business Manager, service with the Centel Telephone Company of Ohio, or participation in prior Centel plans.

For employees retiring at age 55 or later, these benefits are unreduced for commencement at ages 60 and later and reduced by .3% for each month by which benefit commencement precedes age 60.

Former Centel Union Employee

The Centel minimum benefit equals credited service times the dollar amount for the applicable pension band under the Centel Union Plan.

Certain employees will be eligible for additional minimum benefits due to service as an IBEW Business Manager or participation in prior Centel plans.

Benefits commencing before age 65 will be reduced by 5/12% for each month by which benefit commencement precedes age 65. However, for employees with 30 or more years of service, benefits are unreduced for commencement at ages 60 and later.

Effective January 1, 2000, certain Centel unions have frozen the benefits, which are payable unreduced upon retirement for employees with 30 or more years of service and age 60 and older. Shown below are the affected unions and the date as of which the benefit level for unreduced retirement is frozen.

Maximum Benefits

The maximum pension is subject to the conditions of IRC §415, payable as a qualified joint and survivor benefit in the case of retirement at the social security retirement age. It is actuarially increased if retirement occurs later and actuarially reduced if retirement occurs earlier. Additional limitations apply if the member has less than ten years of participation and if contributions were made under any defined contribution plan in which the member participates.

Normal Form of Allowance

If the member is not married on his date of retirement, the benefit is payable for life, with no benefit payable upon his death.

If the member is married on his date of retirement, the normal form of benefit is an actuarially reduced benefit payable for his life, with the provision that after his death an allowance at one-half the rate of his reduced allowance will be continued during the life of and paid to his spouse if she survives him. The reduced allowance is determined in such a way that the total benefit is of equivalent value to the annuity described above for an unmarried member.

If the value of the equivalent actuarial benefit is less than \$5,000, the plan may make a single lump sum payment to the member.

Optional Forms

A member may elect to convert his allowance, at least 90 days prior to the due date of the first payment of his retirement allowance, into any one of several benefits of equivalent actuarial value to the benefit payable to an unmarried member.

Appendix Amendments

The benefits of several predecessor plans are provided under appendix amendments. These benefits are restricted to members who were covered under the predecessor plans.

Assets and liabilities associated with the former Wintel Group, Quincy Telephone Company, United Business Communications, Inc., Unitel, Calma Company, Information Systems of America, Uniwatch, Inc., United Computing International, Inc., United Communications Systems, Inc. and United Transmission, Inc. are included with those for United Telecommunications, Inc. In each case, liabilities are limited to the frozen Plan benefits accrued at the time each company ceased to participate in the Plan. Such frozen benefits have been estimated in certain cases.

The valuation reflects minimum benefits for employees of Carolina Telegraph and Telephone Company as of July 1, 1975 as guaranteed under Appendix P and for employees of Florida Telephone Corporation as of March 1, 1974 as guaranteed under Appendix W and minimum benefits for employees who have Winter Park or On-Line account balances under Appendix Z or BB.

Effective December 31, 2005, the amount of the Appendix amendment benefit is frozen for each participant in the plan.
