Independent Auditor's Report

To the Trustees and Participants of the
Air Tractor, Inc. 401(k) Retirement Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of Air Tractor, Inc. 401(k) Retirement Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2023 and 2022, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 2023 and 2022, and for the years then ended, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section:

- the amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America (US GAAP).
- the information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meet the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (US GAAS). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with US GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date that the financial statements are issued (or when applicable, one year after the date that the financial statements are available to be issued).

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the *Scope and Nature of the ERISA Section 103(a)(3)(C) Audit* section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with US GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgement made by a reasonable user based on the financial statements.

In performing an audit in accordance with US GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

The Trustees and Participants of the
Air Tractor, Inc. 401(k) Retirement Plan

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of US GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with US GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter — Supplementary Information Required by ERISA

The supplementary information listed in the table of contents as of December 31, 2023 is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplementary information, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with US GAAS. For information included in the supplementary information that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplementary information, we evaluated whether the supplementary information, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- the form and content of the supplementary information, other than the information in the supplementary information that agrees to or is derived from the certified investment information, are presented, in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.
- the information in the supplementary information related to assets held by and certified to by qualified institutions agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Air Tractor, Inc. 401(k) Retirement Plan

Notes to Financial Statements

Note 1. Description of the Plan

The following description of the Air Tractor, Inc. 401(k) Retirement Plan (the Plan) provides only general information. Participants should refer to the Plan document, which is available from Plan management, for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan established on March 28, 1997 for the exclusive benefit of eligible employees of Air Tractor, Inc. (the Company). The following employees are not eligible to participate in the Plan: (a) collective bargaining employees, (b) nonresident aliens who do not receive any earned income from the Company which constitutes United States source income, and (c) leased employees. All other employees shall initially be eligible to participate in the Plan on the first day of the month coinciding with or following the date in which he or she has attained the age of 21 and completed 90 days of service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Board of Directors is responsible for oversight of the Plan.

Contributions

Each year, participants may contribute up to 100 percent of pretax annual compensation, subject to Internal Revenue Service (IRS) regulations, as defined in the Plan. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. Participants may also designate some of their contributions as after-tax contributions to a Roth 401(k) option. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollover). Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan includes an auto-enrollment provision whereby all eligible employees without an existing salary reduction agreement are automatically enrolled in the Plan unless they affirmatively elect not to participate in the Plan. Automatically enrolled participants have their deferral rate set at 3 percent of eligible compensation and their contributions invested in a designated fund. The Plan also includes provisions for an auto-escalation feature whereby automatically enrolled participants will have their deferral rate increased by 1 percent each Plan year until the deferral rate reaches 10 percent or until changed by the participant. The Company may contribute to the Plan a discretionary amount up to \$1,000 and a matching contribution up to \$2,000 per eligible employee. For the years ended December 31, 2023 and 2022, the Company made discretionary contributions in the amount of \$423,956 and \$367,122, respectively. Contributions are subject to certain limitations.

Participant Accounts

Each participant's account is credited with the participant's contributions and allocations of the Company's contributions, as well as allocations of Plan earnings. Participant accounts are adjusted daily for interest and dividends and gains and losses. Allocation of investment income to participants' accounts is determined based on each participant's proportionate interest in the investment. Discretionary employer contributions and forfeitures are allocated in the same ratio that each participant's compensation for the Plan year bears to the total participants for the Plan year. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Air Tractor, Inc. 401(k) Retirement Plan

Notes to Financial Statements

Vesting

Participants are vested immediately in their contributions plus actual earnings thereon. An employee with more than three years of service (1,000 or more hours in a year) is 100% vested in the Company's contribution portion of their accounts. Employees with fewer than three years of service are not vested in any portion of in the Company's contribution portion of their accounts.

Payment of Benefits

Upon separation of service due to retirement at age 65 or death or disability, if earlier, or termination of employment in the case of vested benefits, the balances in the employee's separate accounts are paid to the participant or his beneficiaries after the participant's separation from service.

Forfeited Accounts

In the event a participant leaves the Plan and there are unvested amounts in his account due to employer contributions, those amounts are held as forfeitures and included as net assets available for benefits. If the participant becomes eligible to rejoin the Plan, he has the right to reclaim those amounts, subject to certain criteria in the Plan documents.

At December 31, 2023 and 2022, forfeited nonvested accounts totaled \$605 and \$6,543, respectively. These accounts may be allocated to participants as an additional Company contribution. During 2023 and 2022, \$39,884 and \$2,250, respectively, from forfeited nonvested accounts was allocated to participants as an additional discretionary contribution.

Note 2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared using the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP) requires Plan management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Plan management determines the Plan's valuation policies utilizing information provided by the investment advisers and custodians. See Note 4 for discussion of fair value measurements.

Air Tractor, Inc. 401(k) Retirement Plan

Notes to Financial Statements

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded at the ex-dividend date. Net appreciation (depreciation) in fair value of investments includes the Plan's gains and losses on investments bought and sold as well as held during the year. Contributions from Plan participants and the matching contributions from the Company are recorded in the year in which the employee contributions are withheld from compensation.

Contributions

Contributions from Plan participants and the matching contributions from the Company are recorded in the year in which the employee contributions are withheld from compensation.

Payment of Benefits

Benefits are recorded when paid.

Expenses

Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Company. Expenses that are paid by the Company are excluded from these financial statements. Investment-related expenses are included in net appreciation (depreciation) in fair value of investments.

Plan Management's Review of Subsequent Events

The Plan has evaluated subsequent events through September 5, 2024, the date the financial statements were available to be issued. Effective January 1, 2024 the Plan is a 401(k) Safe Harbor Plan and the Safe Harbor qualified matching contributions is 100% of the first 3% of compensation and 50% of the remaining compensation over 3% up to a maximum of 5%, replacing the previous employer match up to \$2,000 and the previous employer discretionary contribution up to \$1,000. Additionally, effective January 1, 2024, plan participants are now vested 100% immediately in the employer Safe Harbor qualified matching contributions.

Note 3. Certified Investments

Certain information related to investments disclosed in the accompanying financial statements and ERISA-required supplementary information, including investments held at December 31, 2023 and 2022, and net appreciation (depreciation) in fair value of investments and interest and dividends for the years then ended, was obtained by management and agreed to or derived from information certified as complete and accurate by Principal Trust Company (Principal), the trustee of the Plan.

During 2023 and 2022, the Plan held an interest in the Galliard Stable Return Fund PN, which has invested all of its assets in Galliard Stable Return Fund Core, a collective trust sponsored by SEI Trust Company. The Galliard Stable Return Fund Core invests in investment contracts and security backed contracts. An investment contract is a contract issued by a financial institution to provide a stated rate of return to the buyer of the contract for a specified period of time. A security backed contract has similar characteristics to a traditional investment contract and is comprised of two parts: the first part is a fixed-income security or portfolio of fixed income securities; the second part is a contract value guarantee (wrapper) provided by a third party. Wrappers provide contract value payments for certain participant-initiated withdrawals and transfers, a floor crediting rate, and return of fully accrued contract value at maturity.

Air Tractor, Inc. 401(k) Retirement Plan

Notes to Financial Statements

There are several risks specific to investment contracts. One of the primary risks involved is credit risk of the contract issuer. Credit risk for security backed contracts includes risks arising from the potential inability of the issuer to meet the terms of the contract wrapper and the potential default of the underlying fixed income securities. Secondly, liquidity is limited because of the unique characteristics of investment contracts and the absence of an actively traded secondary market. Interest rate risk is also present because rates may be fixed with these products.

Note 4. Fair Value Measurements

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability; and
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2023 and 2022.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Self-directed brokerage accounts: Investments held in participant self-directed accounts are securities that are traded in active markets. As such, the fair value will be the price of the security's last trade registered on the security's market of record on the reporting date, which follows the market approach.

Air Tractor, Inc. 401(k) Retirement Plan

Notes to Financial Statements

Common collective trust: Valued at the NAV of units of a bank collective trust. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. Participant transactions (purchases and sales) may occur daily. Were the Plan to initiate a full redemption of the collective trust, the investment advisor reserves the right to temporarily delay withdrawal from the trust in order to ensure the securities liquidations will be carried out in an orderly business manner.

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31:

	2023	2022
Level 1:		
Mutual funds	\$ 24,704,397	\$ 17,096,829
Self-directed brokerage accounts	341,124	192,266
Total assets in the fair value hierarchy	25,045,521	17,289,095
Investments measured at net asset value:		
Common collective trust	1,645,506	2,470,161
Investments at fair value	<u>\$ 26,691,027</u>	<u>\$ 19,759,256</u>

Fair Value of Investments in Entities that Use NAV

The following table summarizes investments measured at fair value based on NAV per share as of December 31:

	2023	2022
Common collective trusts		
Fair value	\$ 1,645,506	\$ 2,470,161
Unfunded commitment	None	None
Redemption frequency	Immediate *	Immediate *
Other redemption restrictions	None *	None *
Redemption notice period	None	None

* Except as discussed above in Note 3

Note 5. Related Party Transactions and Party-in-Interest Transactions

Certain Plan investments are shares of mutual funds, common collective trust funds and deposit accounts held by Principal. Principal is the record keeper and trustee for the Plan during this period, and therefore, these transactions qualify as party-in-interest transactions. All investment fund earnings or losses posted to each Plan participant's account are net of investment management fees charged by each investment fund under the Plan. The Plan has a number of service providers. Such providers are parties in interest under ERISA.

Air Tractor, Inc. 401(k) Retirement Plan

Notes to Financial Statements

Note 6. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100 percent vested in their Company contributions.

Note 7. Tax Status

Effective January 1, 2015, the Plan adopted a non-standardized prototype 401(k) plan, which received a favorable opinion letter from the IRS dated March 31, 2014. The Plan has been amended since the date of the last amendment covered by the above mentioned determination letter.

Effective July 31, 2022, the Plan adopted a non-standardized prototype defined contribution profit sharing plan with Internal Revenue Code Section 401(k) Cash or Deferred Arrangement (CODA) which received a favorable opinion letter from the Internal Revenue Service (IRS) dated June 30, 2020. The Plan has been amended since the date of the last amendment covered by the above mentioned determination letter. However, Plan management believes that the plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code.

US GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 8. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Market risks include global events, which could impact the value of investment securities, such as a pandemic or international conflict. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in values of investment securities will occur in the near term and that such changes could materially affect participant account balances and the amounts reported in the statements of net assets available for benefits.
