Financial Statements and Supplemental Schedules

December 31, 2023 and 2022

INDEPENDENT AUDITORS' REPORT

Retirement Committee
Securian Financial Group, Inc.
Retirement Plan
St. Paul, Minnesota

Opinion

We have audited the financial statements of Securian Financial Group, Inc. Retirement Plan, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets available for pension benefits as of December 31, 2023 and 2022, and the related statements of changes in net assets available for pension benefits for the years then ended, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets available for pension benefits of Securian Financial Group, Inc. Retirement Plan as of December 31, 2023 and 2022, and the changes in its net assets available for pension benefits for the years then ended, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the *Auditors' Responsibilities for the Audit of the Financial Statements* section of our report. We are required to be independent of Securian Financial Group, Inc. Retirement Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Securian Financial Group, Inc. Retirement Plan's ability to continue as a going concern for one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Securian Financial Group, Inc. Retirement Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Securian Financial Group, Inc. Retirement Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedules Required by ERISA

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedules of assets (held at end of year) and reportable transactions as of or for the year ended December 31, 2023 are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedules is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

**Notes to Financial Statements
December 31, 2023 and 2022**

(1) Plan Description

The following brief description of the Securian Financial Group, Inc. Retirement Plan (the Plan) is provided for general information purposes. Participants should refer to the Plan document for more complete information. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended.

The Plan is a noncontributory, defined benefit plan sponsored by Securian Financial Group, Inc. (the Company). Any individuals employed by the Company, or by one or more Participating Companies, as a common law employee, with the exception of full-time life insurance salesmen for the Company unless specifically stated, who have completed 1,000 hours of service and are at least 21 years old are eligible to participate in the Plan. Under the terms of the Plan, the Company's contributions may, at the discretion of the Plan Trustees, be invested among one or more investment options as the Trustees shall deem advisable.

Participants in the Plan accrue monthly retirement benefits equal to 1.0% of their average monthly compensation plus 0.45% of their average monthly compensation in excess of covered compensation during the highest five consecutive of their last ten years of service multiplied by their respective years of participation (maximum of 35 years). Vesting of benefits is based on service time, defined by the Plan as the first day of the Plan year proceeding the date the employee is first employed. Accrued benefits become 100% vested after five years of service. Any amounts accruing to the Plan through forfeiture of a participant's non-vested accrued benefits shall be applied to reduce the Company's cost of funding the Plan.

Under the terms of the Plan, participants are eligible for normal retirement benefits as of the first day of the month coinciding with or following the later of the participant's 65th birthday or the fifth anniversary of the date the participant commenced participation in the Plan. An optional early retirement election is available for participants meeting certain age and years of service requirement.

Under terms of the Plan, a participant's spouse will be entitled to a survivor annuity upon the participant's death if the participant had an earned vested benefit and had not been terminated or waived the coverage.

Participants who terminate active employment due to total and permanent disability will continue to accumulate benefits until the earlier of recovery, death, the date retirement benefits become payable or the date which payments under the Company's long term disability plan to the employee cease and the employment relation terminates.

(2) Summary of Significant Accounting Policies

Basis of Presentation

The accompanying financial statements have been prepared on an accrual basis of accounting in accordance with U.S. generally accepted accounting principles (GAAP). GAAP requires management to make certain estimates and assumptions that affect reported amounts of net assets available for pension benefits and changes therein, disclosure of contingent assets and liabilities at the date of the financial statements and the actuarial present value of accumulated plan benefits and changes therein. Actual results could vary from those estimates.

Separate Account Deposits

Separate Account deposits of the Plan are under an immediate participation guaranteed contract with Minnesota Life Insurance Company (Minnesota Life), a wholly-owned subsidiary of the Company. The deposits are currently maintained in pooled separate accounts of Minnesota Life.

Pooled separate account deposits are stated at the underlying fair value of the pooled separate account investments, which consists primarily of mutual funds, fixed maturity securities, equity securities and cash and cash equivalents. The estimated fair values of pooled separate accounts are based on the fair value of the underlying assets owned by the pooled separate account and are generally based on observable inputs.

Purchases, transfers, and withdrawals of units of the pooled separate accounts are based on the fair value of the accounts at the date of purchase, transfer, or withdrawal.

Net appreciation (depreciation) in the fair value of pooled separate account deposits is comprised of realized gains (losses) on sales of pooled separate account investments and changes in unrealized appreciation (depreciation) in the fair value of pooled separate account investments.

(2) Summary of Significant Accounting Policies (Continued)

Other Investments

Cash and cash equivalents are carried at cost, which approximates fair value. The Company considers all money market funds and commercial paper with original maturity dates of less than three months to be cash equivalents. The Company places its cash and cash equivalents with high quality financial institutions and, at times, these balances may be in excess of the Federal Deposit Insurance Corporation (FDIC) insurance limit.

The Plan has additional investments that primarily consist of private equity investments in limited partnerships. The fair value of private equity investments is initially determined by reference to the transaction price. Subsequently, the fair value of these private equity investments is obtained from net asset value information provided by the general partner or manager of the investments, the financial statements of which are generally audited annually.

Purchases, transfers, and withdrawals of units of the other investments are based on the fair value of the accounts at the date of purchase, transfer, or withdrawal. Investments, with the exception of private equity funds, are accounted for on a trade date, the date securities are purchased or sold, basis. Investments in private equity funds are accounted for on a settlement date basis.

Net appreciation (depreciation) in the fair value of other investments is comprised of realized gains (losses) on sales of other investments and changes in unrealized appreciation (depreciation) in the fair value of other investments.

Annual Funding

The Plan's minimum funding standards are determined under federal income tax laws by a non-affiliated enrolled actuarial consultant and reviewed by the Company.

For 2023 and 2022, the maximum compensation allowed under the Plan to calculate benefits was \$330,000 and \$305,000, respectively.

The Plan meets the minimum funding requirements of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

Administrative Expenses

The administrative expenses of the Plan were paid by the Company.

Benefit Payments

Benefits are recorded when paid.

Actuarial Present Value of Accumulated Plan Benefit Assumptions

Significant actuarial assumptions as of December 31, 2023 include:

Expenses:	\$350,592 paid from the plan assets.
Mortality Rates:	The PRI-2012 mortality table with mortality improvement scale using Scale MP-2021 for male and female.
Interest Rate:	Based on expected long-term average rate of return on assets of 5.75%.
Retirement Age:	Age 55-58, 6%; 59, 10%; 60-61, 15%; 62, 20%; 63, 15%; 64, 30%; 65-66, 40%; 67-69 25%; 70 and above, 100%. If not eligible at the age, use the greatest previous rate when first eligible.

Subsequent Events

Effective January 1, 2024, the Company amended the Base Plan Document of the Plan. This amendment appointed Principal Financial Group (Principal) as the recordkeeper of the Plan. The Plan is subject to the provisions of the ERISA of 1974, as amended. With the change in recordkeeper, the assets of the Plan are in trust with Principal Trust Company and managed by Aon Investments USA, Inc. The assets of the Plan continue to be invested within similar investment options.

In preparing these financial statements, the Plan has evaluated events and transactions for potential recognition or disclosure through September 17, 2024, the date the financial statements were available to be issued.

(3) Risks

The Plan's financial statements are based on estimates and assumptions that are subject to significant business and economic risks and uncertainties, many of which are beyond management's control or are subject to change. As such, actual results could differ from the estimates used in the Plan's financial statements and the value of the Plan's investments and net assets available for benefits could be adversely affected. The following risks and uncertainties, among others, may have such an effect:

- Economic environment and capital markets-related risks such as those related to interest rates, equity markets and credit spreads.
- Investment-related risks such as those related to valuation.
- Business and operational-related risks such as those related to cyber or other information security, fraud, and overall risk management.
- Catastrophic and pandemic event-related risks that may impact volatility in financial markets and economic activity, and operations.
- Regulatory and legal risks such as those related to changes in tax, fiscal and other legislation, the regulatory environment impact to the Plan and accounting standards.

Management actively monitors and manages risks and uncertainties through a variety of policies and procedures in an effort to mitigate or minimize the adverse impact of any exposures impacting the Plan's financial statements.

(4) Fair Value of Financial Instruments

The fair value of the Plan's financial assets and financial liabilities has been determined by the Company using available market information as of December 31, 2023 and 2022. Although the Company is not aware of any factors that would significantly affect the fair value of financial assets and financial liabilities, such amounts have not been comprehensively revalued since those dates. Therefore, estimates of fair value subsequent to the valuation dates may differ significantly from the amounts presented herein. Considerable judgment is required to interpret market data to develop the estimates of fair value. The use of different market assumptions and/or estimation methodologies may have a material effect on the estimated fair value amounts.

Notes to Financial Statements (Continued)

(4) Fair Value of Financial Instruments (Continued)

For reporting purposes, current value is equal to fair value.

Financial Assets and Financial Liabilities Reported at Fair Value

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability (exit price) in an orderly transaction between market participants at the measurement date. In determining fair value, the Company primarily uses the market approach which utilizes prices and other relevant information generated by market transactions involving identical or comparable assets or liabilities. To a lesser extent, the Company also uses the income approach which uses discounted cash flows to determine fair value. When applying either approach, the Company maximizes the use of observable inputs and minimizes the use of unobservable inputs. Observable inputs reflect the assumptions market participants would use in valuing a financial instrument based on market data obtained from sources independent of the Company. Unobservable inputs reflect the Company's estimates about the assumptions market participants would use in valuing financial assets and financial liabilities based on the best information available in the circumstances.

The Plan is required to categorize its financial assets and financial liabilities recorded in the statements of net assets available for pension benefits according to a three-level hierarchy. A level is assigned to each financial asset and financial liability based on the lowest level input that is significant to the fair value measurement in its entirety. The levels of fair value hierarchy are as follows:

Level 1 – Fair value is based on unadjusted quoted prices for identical assets or liabilities in an active market.

Level 2 – Fair value is based on significant inputs, other than quoted prices included in Level 1, that are observable in active markets for identical or similar assets and liabilities.

Level 3 – Fair value is based on at least one or more significant unobservable inputs. These inputs reflect the Company's assumptions about the inputs market participants would use in pricing the assets or liabilities.

The Company uses prices and inputs that are current as of the measurement date. In periods of market disruption, the ability to observe prices and inputs may be reduced, which could cause an asset or liability to be reclassified to a lower level.

Refer to note 2 Summary of Significant Accounting Policies for additional information on techniques used to measure fair value.

The following table summarizes the Plan's financial assets and financial liabilities measured at fair value on a recurring basis as of December 31, 2023:

The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the amounts presented in the statement of net assets available for pension benefits.

Investments in pooled separate accounts

Investments in pooled separate accounts are stated at the corresponding unit value of the pooled separate account. The estimated fair value of pooled separate accounts are based on the fair value of the underlying assets owned by the pooled separate account and are generally based on observable inputs and are classified within Level 2. Assets within the pooled separate accounts include: mutual funds, fixed maturity securities, equity securities and cash and cash equivalents.

Cash equivalents

Cash equivalents primarily include money market instruments. Money market instruments are generally valued using unadjusted quoted prices in active markets and are reflected in Level 1.

Private equity funds

Investment in private equity funds primarily include limited partnership investments. The fair value of these investments is estimated by using the net asset value per share (or its equivalent) as a practical expedient.

There were no transfers in to or out of Level 3 for the years ended December 31, 2023 and 2022.

The Plan did not have any financial assets or liabilities reported at fair value on a nonrecurring basis that are required to be disclosed.

(4) Fair Value of Financial Instruments (Continued)

Financial Assets and Financial Liabilities Reported at Fair Value (Continued)

The following table summarizes the fair value of the Plan's financial assets and liabilities that calculate a net asset value per share on a recurring basis as of December 31:

	2023 Fair value	2022 Fair value
Private equity funds (1)	\$ 99,701,873	\$ 112,248,218
Total financial assets	<u>\$ 99,701,873</u>	<u>\$ 112,248,218</u>

(1) These accounts include several private equity funds that invest primarily in debt and venture capital partnerships.

Private equity investments cannot be redeemed. Distributions are received through the liquidation of the underlying assets of the fund. It is estimated that the underlying assets of the funds would generally be liquidated within five to ten years. The Plan has no intent to sell these investments. As of December 31, 2023 and 2022, there were unfunded private equity commitments of \$16,844,819 and \$17,478,862, respectively.

(5) Party-In-Interest Transactions

Transactions resulting in Plan assets being transferred to or used by a party-in-interest are prohibited under ERISA unless a specific exemption applies. Minnesota Life is a party-in-interest as it receives contributions and other deposits under the terms of an immediate participation guaranteed contract issued to the Trustees of the Plan. These transactions are covered by an exemption from the "prohibited transactions" provisions of ERISA and the Internal Revenue Code (the Code). For the years ended December 31, 2023 and 2022, the Plan Sponsor paid the contract management fees related to the plan.

As provided in the plan document, the Plan Sponsor pays all expenses related to the medical-benefit component described in note 7 401(h) Account and is subsequently reimbursed by the plan for the expenses paid.

Securian Asset Management, Inc. is a party-in-interest as it manages certain portfolios under the Plan. These transactions are covered by an exemption from the "prohibited transactions" provisions of ERISA and the Code. For the years ended December 31, 2023 and 2022, the Plan Sponsor paid Securian Asset Management, Inc., the investment management fees related to the plan.

(6) Obligation for Pension Benefits

Pursuant to ERISA requirements, if a termination is the result of bankruptcy or near bankruptcy of the Plan's sponsor and the Plan's assets are not adequate to pay all benefits vested prior to the termination, the Pension Benefit Guaranty Corporation (PBGC) will take over the Plan and pay those benefits which it guarantees. In this case, some participants may receive a smaller benefit than if the Plan had continued. Whether a particular participant's accumulated Plan benefits will be paid depends on both the priority of those benefits as described in the Plan and the level of benefits guaranteed by the PBGC at that time. The Plan paid assessments to the PBGC of \$350,592 and \$324,896 for the years ended December 31, 2023 and 2022, respectively. See note 9 Benefits Insured by the PBGC for additional disclosure on benefits insured by the PBGC.

If, however, the Plan is terminated for any reason other than bankruptcy or near bankruptcy of the Plan's sponsor and has insufficient assets, the sponsor will be required to pay to the Plan an amount which, together with Plan assets, will satisfy all benefits accumulated to the date of the Plan termination.

While the Company has not expressed any intent to terminate the Plan or discontinue contributions, it is free to do so at any time, subject to the provisions set forth in ERISA. If the Plan should terminate at some future time, all participants will become 100% vested in benefits earned as of the termination date.

**SECURIAN FINANCIAL GROUP, INC.
RETIREMENT PLAN**

Notes to Financial Statements (Continued)

(7) 401(h) Account

The Plan includes a medical-benefit component in addition to the normal retirement benefits to fund a portion of the postretirement obligations for retirees and their beneficiaries in accordance with Section 401(h) of the Code. Contributions are maintained within pooled separate accounts and mutual funds. The Plan's investments in the 401(h) account may not be used for, or diverted to, any purpose other than providing health benefits for retirees and their beneficiaries. The related obligations for health benefits are not included in this Plan's obligations reported in note 8 Actuarial Present Value of Accumulated Plan Benefits but are reflected as obligations within the reporting of the health and welfare plan. Plan participants do not contribute to the 401(h) account. Employer contributions to the 401(h) account are determined annually and are at the discretion of the Plan Sponsor. A portion of the Plan's net assets are restricted to fund a portion of the postretirement health benefits for retirees and their beneficiaries in accordance with Code Section 401(h).

(8) Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) current employees or their beneficiaries. The actuarial assumptions described in note 2 Summary of Significant Accounting Policies are based on the presumption that the Plan will continue. Accumulated plan benefits for active employees are based on their average compensation during the five years preceding the valuation date. If the Plan were to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

The computations of the actuarial present value of accumulated plan benefits was made as of January 1, 2023. Had the valuations been performed as of December 31, 2022, there would be no material differences.

The actuarial present value of accumulated plan benefits at December 31, 2022 was as follows:

Vested benefits:	
Participants and beneficiaries currently receiving payments	\$ 242,150,406
Participants terminated with vested deferred benefits	125,796,942
Other participants	368,552,337
	<u>736,499,685</u>
Nonvested benefits	17,595,311
Actuarial present value of accumulated plan benefits	<u>\$ 754,094,996</u>

The change in the actuarial present value of accumulated plan benefits for the period December 31, 2021 through December 31, 2022 was as follows:

Actuarial present value of accumulated plan benefits as of the beginning of period	\$ 733,816,514
Increase (decrease) during the year attributable to:	
Benefits paid	(32,699,561)
Benefits accumulated and (gains) losses	11,802,049
Benefits increased for interest	41,175,994
Actuarial present value of accumulated plan benefits as of the end of period	<u>\$ 754,094,996</u>

**SECURIAN FINANCIAL GROUP, INC.
RETIREMENT PLAN**

Notes to Financial Statements (Continued)

(9) Benefits Insured by the PBGC

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal retirement age benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination. However, there is a statutory ceiling on the amount of an individual's monthly benefit that the PBGC guarantees. For plan terminations occurring during 2023 and 2022, that ceiling, which is adjusted periodically, was \$6,750 and \$6,205 per month, respectively. The ceiling applies to those annuitants who elect to receive their benefits in the form of a straight-life annuity and are at least 65 years old at the time of retirement or plan termination, whichever comes later. For younger annuitants or for those who elect to receive their benefits in some form other than a straight-life annuity, the corresponding ceilings are actuarially adjusted downward. The ceilings may be higher for those over 65 who elect to receive their benefits. Benefit increases attributable to plan amendments effective within five years before a plan's termination date may not be fully guaranteed even though total benefit entitlements fall below the aforementioned ceilings. The PBGC generally guarantees the larger of 20% of the benefit increase or \$20 per month for each full year the benefit increase was in effect and which results in benefits below the ceilings.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide those benefits and may also depend on the level of benefits guaranteed by the PBGC.

(10) Federal Income Taxes

The Internal Revenue Service (IRS) has determined and informed the Company by letter dated March 30, 2018 that the Plan and related trust are designed in accordance with applicable sections of the Code. The Plan Administrator and the Plan's legal counsel believe that the Plan is designed and is currently being operated in compliance with the applicable provisions of the Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

The Plan recognized unrelated business taxable income (UBTI) on pass-through investments. The Plan deposited \$166,704 and \$447,050 of estimated income taxes for the 2023 and 2022 tax years, respectively, related to the UBTI activity.

Actuarial methods for funding**Asset methods**

The asset valuation method is an average of the adjusted market value for each year during the last two years preceding the valuation date. The adjusted market value is the market value at each determination date adjusted to the valuation date based on actual cash flows and expected interest at the lesser of the expected rate of return and the third segment rate. This amount is adjusted to be no greater than 110% and no less than 90% of the fair market value, as defined in IRC Section 430.

A characteristic of this asset method is that, over time, it is slightly more likely to produce an actuarial value of assets that is less than the market value of assets than an actuarial value that is greater than the market value.

The market value of assets are in Separate Accounts under a contract issued by Minnesota Life Insurance Company, and in other investments including cash, cash equivalents, mutual funds, common stock, private equity in limited partnerships, and other assets. The assets are adjusted for payables, other liabilities, and for the value of receivable contributions. The total of net assets available for pension benefits is obtained from the independent auditors' report.

Schedule SB, Part V — Statement of Actuarial Assumptions/Methods**Participant methods**

Participants or former participants are included or excluded from the valuation as described below:

- **Participants included:** The plan sponsor provides us with data on all employees as of the valuation date, but only those employees who have completed the plan's eligibility requirements are included in the valuation of liabilities.
- **Participants excluded:** No actuarial liability is included for nonvested participants who terminated prior to the valuation date. For this purpose, participants with a break in service on the valuation date are treated as terminated participants.
- **Insurance contracts:** Mercer understands that the Plan has purchased irrevocable commitments to fund retirees' liability. The value of these insurance contracts is included in Plan assets and retirees are reflected in liability calculations. Securian does not include retirees for purposes of determining flat rate PBGC premiums.

Minimum funding methods

The funding target for minimum funding calculations is computed using the traditional unit credit method of funding. The objective under this method is to fund each participant's benefits under the plan as they accrue. Thus, the total pension to which each participant is expected to become entitled at retirement is broken down into units, each associated with a year of past or future credited service.

A detailed description of the calculation follows:

- The plan's valuation date is the beginning of the plan year.
- An individual's **funding target** is the present value of future benefits based on credited service and average pay as of the beginning of the plan year, and an individual's **target normal cost** is the present value of the benefit expected to accrue in the plan year. If multiple decrements are used, the funding target and the target normal cost for an individual are the sum of the component funding targets and target normal costs associated with the various anticipated separation dates.
- The plan's **target normal cost** is the sum of the individual target normal costs, and the plan's **funding target** is the sum of the individual funding targets for all participants under the plan.

Schedule SB, Part V — Summary of Plan Provisions**Summary of major plan provisions**

Effective date and plan year	Original plan: June 1, 1947 Restated plan: January 1, 2020 Most recent amendment: January 1, 2020 Plan year: Calendar Year
Status of the plan	The plan has ongoing benefit accruals and new employees are eligible to participate in the plan once they satisfy the participation requirements.
Significant events that occurred during the year	None
Definitions	
• Eligible employees	Employees of Securian (or Minnesota Life prior to 2011) excluding full-time life insurance salesmen.
• Participation Date	Effective 1/1/2002, participation commences on the January 1 or July 1 coincident with or next following the later of employment date or age 21. Employees must also complete 1000 hours in the first year of employment or any subsequent plan year (not required for membership before 1/1/2002).
• Vesting service	Years of service begin the first day of the plan year the employee was first employed by the employer or an affiliate.
• Credited service	One year of credited service is given for each calendar year during which 1,000 hours are worked. Prior to 2002 (and continuing as a minimum for those with 3 years of vesting service on 1/1/2002), service was granted for 1,000 hours in a Participation Year (12 months measured from Participation Date).
• Pensionable earnings	Regular wages, overtime, and bonuses. Before 1/1/1993, commissions, bonuses, Performance Share Program distributions, and other forms of irregular remuneration were excluded.
• Final average earnings	Average monthly compensation is the monthly equivalent of the average compensation paid during the highest 5 consecutive completed calendar years out of the last 10. Years without 1000 hours are ignored.
• Covered Compensation	Average of the Social Security wage earning bases for the 35-year period ending with the year Social Security normal retirement age is attained.
• Accrued Benefit	A) 1.20% for each year of participation prior to 2012; 1.00% for each year of participation on or after 2012, multiplied by average monthly compensation, plus B) 0.45% of average monthly compensation in excess of Covered Compensation multiplied by total years of participation. Total years of participation in either portion of formula cannot exceed 35.
Normal retirement	
• Eligibility	Age 65, or the 5th anniversary of the participation, if later.
• Benefit	Accrued Benefit as a single life annuity. No actuarial reduction for Qualified Joint and 50% to Survivor optional form for benefits accrued prior to February 1, 2006, and for benefits accrued after February 1, 2006 for “grandfathered” participants who meet eligibility requirements.
Early retirement	
• Eligibility	Age 55 and 15 years of participation, or age 60 and 10 years of participation.

Schedule SB, Part V — Summary of Plan Provisions

• Benefit	The accrued benefit reduced by .50% for each of the first 60 months and .33% for each of the next 60 months by which the participant's early retirement date precedes the earlier of: 1) the participant's normal retirement date or 2) the date the participant's age plus years of participation equal or exceed 90, but no earlier than the participant's 60th birthday.						
Deferred vested							
• Eligibility	Upon termination of employment for any reason other than retirement, disability, or death, the participant shall have a vested accrued benefit in accordance with the following vesting schedule:						
	<table> <tr> <th>Years of service</th><th>Percentage of accrued benefit</th></tr> <tr> <td>Less than 5</td><td>0%</td></tr> <tr> <td>5 or more</td><td>100%</td></tr> </table>	Years of service	Percentage of accrued benefit	Less than 5	0%	5 or more	100%
Years of service	Percentage of accrued benefit						
Less than 5	0%						
5 or more	100%						
• Benefit	The amount of the vested accrued benefit payable beginning at normal retirement date. If the participant has enough years of participation to retire with an early retirement benefit, he may do so in accordance with the early retirement provisions of the plan.						
Disability							
• Benefit	<p>If a participant ceases to be actively employed because of total disability, he shall continue to accrue years of service and years of participation under the plan during the period of total disability. The participant's average monthly compensation during total disability is equal to the average monthly compensation for the participant as of the onset of total disability.</p> <p>The accrual shall continue until the earlier of death, recovery from total disability, or retirement.</p>						
Pre-retirement death							
• Benefit prior to early retirement	If the participant is not eligible for early retirement, the surviving spouse is entitled to the survivor portion of the life and 50% to survivor annuity to which the participant would have been entitled had the participant terminated on the day immediately preceding his or her death, first payable at what would have been the participant's earliest retirement date.						
• Benefit after early retirement	If a participant is eligible for, but does not elect early retirement, the surviving spouse is entitled to the survivor portion of a life and 50% to survivor annuity that would have been available if the participant had elected the life and 50% to survivor annuity and had retired on the last day immediately preceding his or her death.						
Form of benefits							
• Automatic form for unmarried participants	Single Life Annuity						
• Automatic form for married participants	50% Joint & Survivor Annuity						
• Optional forms	a) Life Annuity--5, 10, or 15 Years Certain b) Qualified Joint and 50% to Survivor Annuity c) Qualified Optional Joint and 75% to Survivor Annuity d) Joint Life Annuity--100% to Survivor e) Lump Sums only available if actuarially equivalent present value is \$50,000 or less						

Schedule SB, Part V — Summary of Plan Provisions

• Optional form conversion factors	Select Optional forms: 5 years C&C uses 0.985; 10 years C&C uses 0.945; 15 years C&C uses 0.885; otherwise, 417(e) mortality and 417(e) interest for the 3rd calendar month preceding the Plan Year of distribution.
• Variable Annuity Election	Grandfathered participants may elect a variable annuity at retirement of up to 100% of accrued benefits. Nongrandfathered participants may elect: (1) up to 100% of benefits accrued prior to February 1, 2006, (2) up to 50% of benefits accrued after February 1, 2006 and prior to January 1, 2012. Allocation into the variable annuity is graded from 100% fixed at retirement to the elected allocation over a period of 36 months. Variable annuity benefits are adjusted on a monthly basis using the plan's hurdle rate of return of 3.5% against a Separate Account of Minnesota Life Insurance Company selected by the Trustees.
Miscellaneous	
• Maximum compensation	Compensation for any 12-month period used to determine accrued benefits may not exceed the limits in IRC Section 401(a)(17) for the calendar year in which the 12-month period begins. This limit is indexed annually. For 2023, the limit is \$330,000.
• Maximum benefits	Annual benefits may not exceed the limits in IRC Section 415. This limit is indexed annually. For 2023 the limit is \$265,000.

Benefits included or excluded

Unless noted below, all benefits provided by the plan, as restated and amended through Amendment #3, are included in this valuation:

- **Most recent plan amendments included:** The most recent amendments are included in the January 1, 2020 restatement
- **Plan amendments excluded:** None.
- **Late retirement increases:**
 - *Active participants:* The plan provides benefit suspension notices to participants who work beyond normal retirement; therefore, late retirement actuarial increases only apply to participants who defer retirement beyond age 70½. This valuation does not include increases for current participants over age 70.
 - *Deferred vested participants:* Current deferred vested participants over normal retirement age are valued without including the late retirement actuarial increase. There are a very small number of affected participants and this has a limited impact on liability.
- **Internal Revenue Code limitations:** The limitations of Internal Revenue Code Section 415(b) and 401(a)(17) have been incorporated into our calculations.
- **IRC Section 416 rules for top-heavy plans:** We did not test whether this plan is top-heavy (when the present value of benefits for key employees equals or exceeds 60% of the present value for all participants). However, we expect that the plan is not top-heavy due to the large number of rank-and-file participants; therefore, the funding target and target normal cost do not reflect any liability for top-heavy benefit accruals.

Schedule SB, Part V — Summary of Plan Provisions**Plan provisions specific to funding****Additional benefits included or excluded**

- **IRC Section 436 benefit restrictions:**
 - *Unpredictable contingent event benefits:* This valuation excludes restricted contingent event benefits that occurred before the valuation date but includes contingent event benefits which are expected to occur on or after the valuation date regardless of anticipated funding-based limitations.
 - *Plan amendments:* See above.
 - *Prohibited payments:* Limitations on prohibited benefits (if any) are reflected for annuity starting dates before the valuation date but are ignored for annuity starting dates on or after the valuation date.
 - *Benefit accruals:* The plan's funding target does not reflect any limitation on benefit accruals. The target normal cost does not reflect any limitation on benefit accruals.
- **Unpredictable contingent event benefits:** The plan does not have any unpredictable contingent event benefits.

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.
