Statement by Enrolled Actuary
 To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Independent Auditor's Report

To the Plan Administrator
Deltrol Corp. Office Employees' Retirement Plan
Milwaukee, Wisconsin

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the accompanying financial statements of Deltrol Corp. Office Employees' Retirement Plan, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 ("ERISA"), as permitted by ERISA Section 103(a)(3)(C) ("ERISA Section 103(a)(3)(C) audit"). The financial statements comprise the statement of net assets available for benefits as of December 31, 2023 (in liquidation), and the related statement of changes in net assets available for benefits for the year then ended (in liquidation), and the statement of net assets available for benefits as of December 31, 2022 (ongoing), and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of Deltrol Corp. Office Employees' Retirement Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the plan ("investment information") by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA ("qualified institution").

Management has obtained certifications from a qualified institution as of December 31, 2023 and 2022, and for the year ended December 31, 2023, stating that the certified investment information, as described in Note 8 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section

- the amounts and disclosures in the financial statements referred to above, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America ("GAAP").
- the information in the financial statements referred to above related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America ("GAAS"). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Deltrol Corp. Office Employees' Retirement Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Emphasis of Matter - Liquidation Basis of Accounting

As discussed in Note 1 to the financial statements, management of Deltrol Corp. Office Employees' Retirement Plan (the "Plan") approved termination of the Plan on February 1, 2023. As a result, the Plan has adopted the liquidation basis for the year ended December 31, 2023. Our opinion is not modified with respect to that matter.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with GAAP, and for the design, implementation, and maintenance of internal controls relevant to the preparation of the financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Deltrol Corp. Office Employees' Retirement Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedule Required by ERISA

The supplemental schedule of Schedule H, Line 4j - Schedule of Reportable Transactions for the year ended December 31, 2023, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion

- the form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, is presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- the information in the financial statements referred to above related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Notes to Financial Statements

Note 1: Description of Plan

The following description of the Deltrol Corp. Office Employees' Retirement Plan (the "Plan") provides only general information. Participants should refer to their Summary Plan Description for a more complete description of the Plan's provisions. Deltrol Corp. (the "Company") is the sponsor of the Plan.

General

The Plan was a noncontributory defined benefit plan that covered substantially all salaried or office, nonunion employees of the Company. The Company's contributions were made in the amounts sufficient to fund the Plan's normal cost, amortization of the initial past service cost, amortization of actuarial gains and losses, and interest. The Plan was subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"), as amended. Effective December 31, 2005, the Plan was amended to freeze entry of any new participants. Effective April 30, 2009, the Plan was amended to freeze the accrual of any and all future benefits.

Plan Termination

On February 1, 2023, the Company communicated to all participants its intent to terminate the Plan subject to the provisions of ERISA with a termination date of April 15, 2023. As a result, the Plan's financial statements are presented on the liquidation basis of accounting as of and for the year ended December 31, 2023. On May 9, 2023, the Company entered into an agreement with Mutual of Omaha to purchase a Group Annuity Contract, to be funded entirely by Plan assets. In conjunction with the signed agreement, Mutual of Omaha will assume the obligation to make future annuity payments to a mutually agreed upon listing of Company retirees. See further disclosures related to the Plan termination in Note 6.

Retirement Benefits

The Plan provided that a participant was eligible for normal retirement payments upon reaching the retirement age of 65. Retirement plan benefit amounts were calculated by the actuary based on individual factors, including the employee's compensation history, years of service, age at the date of retirement and the benefit payment option selected. The Plan permitted early retirement beginning at age 60 for employees who completed at least 10 years of service. Early retirement benefits were subject to an adjustment factor.

Vesting

All accrued benefits became fully vested when future benefit accruals were frozen.

Note 2: Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements are prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States ("GAAP"). The 2023 financial statements are presented on the liquidation basis and the 2022 financial statements are presented on the ongoing basis.

Deltrol Corp. Office Employees' Retirement Plan

Note 2: Summary of Significant Accounting Policies (Continued)

Use of Estimates in Preparation of Financial Statements

The preparation of the financial statements in accordance with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein, the disclosure of contingent assets and liabilities, and the actuarial present value of accumulated Plan benefits at the date of the financial statements. Actual results could differ from those estimates and are subject to change in the near term.

The Plan considers the actuarial assumptions related to the calculation of the present value of accumulated Plan benefits to be significant estimates that are subject to change in the near term.

Cash and Cash Equivalents

The Plan considers all highly liquid investments with original maturities of three months or less, including money market fund investments, to be cash and cash equivalents.

Investment Valuation and Income Recognition

The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's investment committee determines the Plan's valuation policies utilizing information provided by the investment advisers and trustee. See Note 3 for details on inputs, valuation techniques and fair value measurement level within the fair value hierarchy.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes investments purchased and sold as well as held during the year.

Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits (see Note 4) are those estimated future periodic payments, including lump-sum distributions, that are attributable under the Plan's provisions to the services employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries and (b) present employees or their beneficiaries. The benefits for retired or terminated employees or their beneficiaries and the accumulated plan benefits for active employees are based on the greater of a specified percentage of their average monthly compensation or the number of years of credited service multiplied by the applicable pension rate in effect as stated in the Plan.

Benefits payable under all circumstances (retirement, death, disability and termination of employment) are included to the extent they are attributable to employee service rendered as of the date the Plan was frozen for employee service.

Note 2: Summary of Significant Accounting Policies (Continued)

Funding Policy

For Plan years beginning after December 31, 2007, the Pension Protection Act of 2006 ("PPA") required minimum contributions to single-employer defined benefit plans based on a comparison of the fair value of Plan assets to the Plan's funding target, as adjusted for certain actuarially determined modifications. In general, if the fair value of Plan assets is less than the funding target, then the annual contribution is the sum of: (1) the present value of all earned or accrued benefits during the plan year, (2) any shortfall amortization charge, (3) any waiver amortization charge and (4) any Plan expenses. If the value of plan assets is greater than the funding target, then the present value of all earned or accrued benefits during the plan year is reduced (but not below zero) for the excess funding balance.

During the Plan year ended December 31, 2023, the funding policy was not changed and the Plan met the minimum funding requirements as required by the PPA and ERISA.

Payment of Benefits

Benefit payments are recorded upon distribution.

Administrative Expenses

The Plan's expenses are paid either by the Plan or the Company, as provided by the Plan document. Expenses that are paid directly by the Company are excluded from these financial statements. Certain expenses incurred in connection with the general administration of the Plan that are paid by the Plan are recorded as deductions in the accompanying statement of changes in net assets available for benefits. In addition, certain investment related expenses are included in net appreciation of fair value of investments presented in the accompanying statement of changes in net assets available for benefits.

Subsequent Events

The Plan has evaluated subsequent events through September 12, 2024, which is the date the financial statements were available to be issued.

Note 3: Fair Value Measurements

GAAP establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority level. Level 2 inputs consist of observable inputs other than quoted prices for identical assets (Level 1). Level 3 inputs are unobservable and have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. Level 2 inputs are used for investments for which Level 1 inputs were not available. Level 3 inputs would only be used if Level 1 or Level 2 inputs were not available.

Deltrol Corp. Office Employees' Retirement Plan

Notes to Financial Statements

Note 3: Fair Value Measurements (Continued)

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used as of December 31, 2023 and 2022.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the U.S. Securities and Exchange Commission. These funds are required to publish their daily net asset value ("NAV") and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at:

	Assets at Fair Value as of December 31, 2022			
	Level 1	Level 2	Level 3	Total
Mutual funds	\$ 16,407,284	\$ -	-	16,407,284

Note 4: Actuarial Present Value of Accumulated Plan Benefits

Prior to the Plan terminating, the Plan actuarially estimated the present value of accumulated plan benefits on a beginning of the Plan year basis. Under the liquidation basis of accounting the Plan's accumulated benefit obligation should be presented as of the Plan year-end. Additionally, the accumulated benefit obligation should be measured based on the amount estimated necessary to fully settle the Plan's obligations pursuant to its plan of liquidation and in accordance with the applicable governing regulations.

As of January 1, 2023, the Plan's accumulated benefit obligation was estimated to be approximately \$11,533,234. The estimate was based on the assumption the Plan was not going to terminate. During 2023, \$536,726 was paid out to participants in existing monthly payments before liquidation and \$15,488,370 was used to purchase annuities with mutual of Omaha for participants entitled to receive monthly payments post-liquidation. The impact of discounting the 2023 liquidating payments back to January 1, 2023 has not been determined.

Note 5: Income Tax Status

The Internal Revenue Service has determined and informed the Company by letter dated March 31, 2010, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code ("IRC"). The Plan Administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable provisions of the IRC, and therefore believes the plan Plan is qualified and related trust is tax-exempt.

Deltrol Corp. Office Employees' Retirement Plan

Notes to Financial Statements

Note 6: Plan Termination

On February 1, 2023, the Company communicated to all participants its intent to terminate the Plan subject to the provisions of ERISA with a proposed termination date of April 15, 2023. In order to terminate the Plan, the Company requested approval from the IRS and the Pension Benefit Guaranty Corporation ("PBGC"). As of May 9, 2023, the Company entered into an agreement with Mutual of Omaha whereby they purchased insurance annuities and Mutual of Omaha assumed responsibility to pay future annuity benefits to the retirees. The pension benefits of the participants in the Plan are 100% vested and the termination will not affect the amount of benefit the participants are entitled to or the forms of payment available under the provisions of the Plan. On May 15, 2023, \$15,488,370 was transferred to Mutual of Omaha. After all participant balances were transferred to Mutual of Omaha, there was still \$1,731,062 of a balance in the Plan due to the Plan being overfunded. On December 18, 2023, the Plan transferred \$438,000 to a qualified defined contribution Plan sponsored by the Company. On December 22, 2023 the remaining \$1,293,062 was distributed to the Company.

The Company purchased insurance annuities to fund the Plan benefits of participants that are receiving a monthly payment from the Plan. These participants will continue to be paid in the same amount and form and are not allowed to take a lump sum payment or change their benefits.

The Company also purchased insurance annuities to fund the Plan benefits for participants that are still employed or have terminated but have not started receiving payments. Lump sum payments are not available to these participants. A death benefit will be paid to the beneficiary of entitled participants from the insurer selected by the Company.

Certain benefits under the Plan were insured by the PBGC. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitation. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination. PBGC coverage does not apply to benefits that have been settled through an annuity contract. However, all states have guaranty associations which may protect participant benefits in the event of an insurance company failure.

Note 7: Party-in-Interest Transactions

Certain plan investments are managed by Matrix Trust Company. Matrix Trust Company is the Trustee, as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Fees incurred and paid by the Plan for the investment management services were \$79,455 for the year ended December 31, 2023. These are not considered prohibited transactions.

Deltrol Corp. Office Employees' Retirement Plan

Notes to Financial Statements

Note 8: Information Prepared and Certified by Trustee

The Plan Administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Certain information disclosed in the accompanying financial statements and supplemental schedule, including investments held at December 31, 2023 and 2022, and net appreciation in fair value of investments and, interest and dividends for the year ended December 31, 2023, were obtained or derived from information supplied to the Plan Administrator and certified as complete and accurate by Matrix Trust Company.

Note 9: Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Plan contributions are made, and the actuarial present value of accumulated plan benefits are reported, based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

Schedule SB, Part V – Statement of Actuarial Assumptions/Methods

Description of Funding Method

Under the Pension Protection Act of 2006, minimum required contributions must be determined based on the methodology prescribed in Internal Revenue Code Section 430 and the regulations thereunder. Specifically, the minimum required contribution for a plan year is the sum of

- (1) the target normal cost of the plan for the plan year
- (2) the shortfall amortization charge (if any)
- (3) the waiver amortization charge (if any).

The **target normal cost** is the present value of all benefits expected to accrue during the plan year. This includes benefits attributable to services performed in a preceding plan year which are increased due to increases in compensation during the current plan year.

The **shortfall amortization charge** is the sum of the **shortfall amortization installments** for the most recent seven plan years (including the current plan year). If plan assets are less than the applicable percentage of the funding target, a **shortfall amortization base** will be established equal to the funding shortfall less the outstanding value of all prior shortfall amortization bases. The shortfall amortization installment is the amount necessary to amortize the shortfall amortization base over seven years.

The **funding target** is the present value of all benefits accrued under the plan as of the beginning of the plan year. Both the funding target and target normal cost are based on three segment interest rates, the first segment rate being for benefit payments to be made in 0 to 5 years, the second segment rate being for benefit payments to be made in 5 to 20 years, and the third segment rate being for benefit payment to be made in 20 years or later.

The **waiver amortization charge** is the aggregate total of **waiver amortization installments** for all **waiver amortization bases** established in the preceding five years. Waiver amortization bases are established when a plan sponsor cannot meet the minimum funding requirements for a plan year and applies for a waiver of minimum funding for that year.

If the actuarial value of plan assets is greater than or equal to the funding target, the minimum required contribution is the target normal cost less any excess of the actuarial value of assets over the funding target. The minimum required contribution is not to be less than \$0.

In determining whether the minimum required contribution as of a valuation date has been met, any contributions made after the valuation date are discounted back to the valuation date at the plan's **effective interest rate**. This is the single rate applied to all future contingent benefit payments which produces the same funding target as the three segment interest rates.

Schedule SB, Part V – Statement of Actuarial Assumptions/Methods (continued)

Asset Valuation Method

The actuarial value of the assets is fair market value with no averaging.

Valuation Date

The plan's actuarial valuation date is the first day of the plan year.

Valuation Procedures

We used financial data submitted by the trustee without further audit and participant data as supplied by the plan sponsor. This information would customarily not be verified by a plan's actuary. We have reviewed the information for internal consistency, and we have no reason to doubt its substantial accuracy.

The limitations of Internal Revenue Code Sections 401(a)(17) and 415(b) have been incorporated into our calculations. Both limits were indexed in the maximum contribution calculation since the plan is covered by the PBGC. However, these limits do not have any impact on this plan due to its frozen status.

No liability is held for non-vested, inactive employees who have a break-in-service, or for non-vested employees who have quit, been terminated, or died, even if a break-in-service had not occurred as of the valuation date.

All participants are assumed to work at least 1,000 hours in future years, even if they worked less than 1,000 hours in the preceding year.

The population is a frozen group consisting of 169 participants remaining at January 1, 2023.

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.
