Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the accompanying financial statements (modified cash basis) and the supplementary schedules of Barron Collier Partnership Savings Plan (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C). The financial statements comprise the Statements of Net Assets Available for Plan Benefits (modified cash basis) as of December 31, 2022 and 2021, and the related Statements of Changes in Net Assets Available for Plan Benefits (modified cash basis) for the years then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of Barron Collier Partnership Savings Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan by Principal Life Insurance Company that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets held are prepared and certified by Principal Life Insurance Company in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

Management has obtained certifications from Principal Life Insurance Company as of and for the years ended December 31, 2022 and 2021, stating that the certified investment information, as described in Note A to the financial statements, is complete and accurate.

INTEGRITY SERVICE EXPERIENCE

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section:

- The amounts and disclosures in the financial statements referred to above, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with the modified cash basis of accounting which is a comprehensive basis of accounting other than accounting principles generally accepted in the United States of America.
- The information in the financial statements referred to above related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Barron Collier Partnership Savings Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Basis of Accounting

As described in NOTE B, these financial statements and the supplementary schedules were prepared on the modified cash basis of accounting, which is a comprehensive basis of accounting other than accounting principles generally accepted in the United States of America.

Management's Responsibilities for the Financial Statements

Plan management is responsible for the preparation and fair presentation of these financial statements in accordance with the modified cash basis of accounting described in Note B; this includes determining that the modified cash basis of accounting is an acceptable basis for the preparation of the financial statements in these circumstances. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, Plan management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Barron Collier Partnership Savings Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Plan management is also responsible for maintaining a current Plan instrument, including all Plan amendments; administering the Plan; and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentation, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risk of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence made by management, as well as evaluate the overall presentation of the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Barron Collier Partnership Savings Plan's internal controls. Accordingly, no such opinion is expressed.

- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Barron Collier Partnership Savings Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of the modified cash basis of accounting with is a comprehensive basis of accounting other than accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplementary Schedules Required by ERISA

The supplementary schedules of Reportable Transactions and Assets Held for Investment Purposes (modified cash basis) are presented for the purpose of additional analysis and are not a required part of the financial statements but are required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplementary schedules, other than that agreed to or derived from certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with generally accepted auditing standards. For information included in the supplementary schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplementary schedules, we evaluated whether the supplementary schedules, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplementary schedules, other than the information in the supplementary schedules that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplementary schedules related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

BARRON COLLIER PARTNERSHIP SAVINGS PLAN
NOTES TO THE FINANCIAL STATEMENTS
December 31, 2022 and 2021

Page 8 of 35

NOTE A - DESCRIPTION OF PLAN

The following description of Barron Collier Partnership (the "Company") (Sponsor) Savings Plan (the "Plan") Plan 001 provides only general information. Participants should refer to the Summary Plan Description or Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a self-directed 401(k) defined contribution retirement plan covering substantially all eligible employees of the Barron Collier Partnership, LLP (the "Partnership") and affiliated entities collectively (the "Company"). The Plan was originally adopted on January 1, 1980 and is intended to provide participants with future retirement benefit opportunities. The Plan is subject to the provisions of IRS Code Section 401(k), which allows for employee contributions. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan was amended during the year ended December 31, 2020 effective January 2020, then restated effective February 17, 2022.

Plan administration

For the years ended December 31, 2022 and 2021, the trustee/custodian of the Plan was Principal Life Insurance Company (Third Party Administrator). Employer and participant contributions as well as all Plan investments are held and managed by the trustee/custodian, which invests cash received, interest, and dividend income in accordance with participant direction, and makes distributions to participants.

Contributions

Participants are automatically enrolled in the Plan to contribute 1% of compensation. The employee can elect to defer up to a maximum of 20% of compensation, to the Plan by completing a salary elective deferral agreement. An eligible participant's annual salary reduction (deductible) contributions may not exceed the lesser of 100 percent of the participant's compensation or \$20,500 for calendar year 2022 and \$19,500 in 2021, respectively. Some participants may contribute more by taking advantage of "catch up" provisions now authorized by federal law, \$6,500 for the years ended December 31, 2022 and 2021, respectively. The Plan provides for two types of employer contributions. The Company will contribute a "matching" contribution amount equal to 50% of the employee deferral amount up to 6% of the employee's compensation. The Company may also contribute a "discretionary" profit-sharing contribution.

NOTE A - DESCRIPTION OF PLAN, CONTINUED

Contributions, continued

There were no discretionary contributions made by the Company during the years ended December 31, 2022 or 2021.

Eligible compensation excludes bonuses, overtime and commissions for discretionary contributions (but not for elective deferrals or matching contributions).

Plan members may make "after tax" Roth contributions.

Forfeitures

Forfeitures resulting from termination of Plan participation of non-vested employees may be used to pay Plan expenses. Any forfeitures remaining after paying Plan expenses are used to offset employer contributions.

For the years ended December 31, 2022 and 2021, approximately \$0 and \$14,712 had been forfeited and used to pay administrative costs of the Plan and/or reduce employer contributions.

Participant accounts

Each participant's account is credited with the participant's contribution, the allocation of the Company's contribution and the participant's pro rata share of the Plan earnings as determined and allocated under the Plan as well as the allocated plan expenses. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Upon termination employees can elect to leave their account balance in the Plan if the balance is greater than \$5,000. As of December 31, 2022 and 2021, the amount held in the Plan for terminated vested participants is \$6,181,547 and \$12,450,000, respectively.

Participants may select any of the pooled separate investment accounts, the collective investment trusts, and guaranteed interest options to invest their respective participant account as described in Note E.

NOTE A - DESCRIPTION OF PLAN, CONTINUED

Vesting

Upon attainment of normal retirement age (age 65), or early retirement age (the later of attainment of age 55 or 5 years of service), or if employment terminates prior to attainment of retirement age due to death or disability, the participant is 100% vested. However, upon termination of employment for any other reason, a participant is entitled to a portion of their account (excluding salary deferred amounts and any related income earned thereon which are immediately 100% vested) in accordance with the following five year vesting schedule for both employer match and discretionary contributions:

<u>Years of Service*</u>	<u>Employer Contributions</u>
Less than two (2)	0%
Two (2)	20%
Three (3)	40%
Four (4)	66.66%
Five (5) or more	100%

*Vesting in the employer match and discretionary contributions of the participant accounts is based on participant's years of continuous service. The employee is immediately vested in the employee's respective elective deferral contributions and related earnings.

Payment of benefits

Payments are made upon termination of service, retirement, early retirement, death, disability or financial hardship. The participant receives payment in a lump-sum if the vested amount is \$5,000 or less. If the vested portion exceeds \$5,000, the participant may choose to receive a lump-sum cash payment or a monthly payment for life. Financial hardship distributions are permitted as described by Federal Rules. Per the Bipartisan Budget Act of 2018, financial hardship includes certain casualty loss damage (as defined) to the participant's primary residence whether or not the residence is in a federally declared disaster area. Effective January 1, 2020, the Bipartisan Budget Act of 2018 was amended to allow all earnings on elective deferral contributions to be taken in a hardship withdrawal. It is no longer a requirement to take a loan before a hardship withdrawal. Request for withdrawal as defined by the Internal Revenue Code is requested and approval is granted by the Plan's trustees, the participant may withdraw all or any part of the vested account, excluding income earned on such contributions. Upon death of a participant, the vested balance of the participant's account is distributed to the participant's beneficiary in an elected form, either a lump sum cash payment or an annuity option available to the participant at retirement other than a monthly income that continues for the life of a survivor upon death. Benefits due terminated employees, either through retirement or otherwise, are recorded when paid.

NOTE A - DESCRIPTION OF PLAN, CONTINUED

Loans - notes receivable from participants

Loans are available to participants under the Plan. The maximum loan is the lesser of 50% of the participant's vested account or \$50,000. The minimum loan amount is \$1,000. Participants are allowed only one loan to be outstanding at any point in time. Only one loan can be approved during a 12-month period. The maximum loan term is five years. Loans are secured by the vested balances in the participant's account and bear interest at rates between 3.25% and 9.75%, which is commensurate with local prevailing rates, as determined by the Plan administrator at December 31, 2022.

Interest earned on the loans by the Plan is separately recognized. Loan balances are reflected at the unpaid principal balance at year end. At December 31, 2022 and 2021, no allowance for credit losses has been recorded. If a participant does not make loan repayments and the plan administrator considers the participant loan to be in default, the loan balance is reduced, and the delinquent participant note receivable is recorded as a benefit payment based on the terms of the Plan document.

Loans not repaid at the date of employee termination are recorded as distributions.

Expenses

Administrative expenses incurred by the Trustee/Custodian, the Servicing Agent and/or Investment Advisors are paid for by the employer or by the Plan with Plan assets. Such expenses include but are not limited to, expenses for ERISA required bonding, recordkeeping, and fees and expenses of the trustee.

Plan eligibility

Employees qualify for participation in the elective deferral portion and the employer contribution portion of the Plan upon completion of one half year of service (of at least 1,000 hours) and attainment of age 18. The Plan offers monthly entry dates in the month on or after the participant meets the eligibility requirements.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The following is a summary of the significant accounting policies used in the preparation of these financial statements:

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, CONTINUED

Basis of accounting

Barron Collier Partnership Savings Plan prepares its financial statements using the modified cash basis of accounting. Under this comprehensive basis of accounting, no provision has been made to record items which have been incurred but not paid or earned but not received. This includes items such as interest receivable.

Accordingly, the accompanying financial statements are not intended to present financial position or results of operations in conformity with accounting principles generally accepted in the United States of America.

Investment contracts (guaranteed interest) and collective investment trusts including Morley held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to certain of the insurance investment contracts and collective investment trusts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. Interest accounts promise contract value for a benefit event (termination, death, disability and retirement); however, there is a possible surrender charge when funds are withdrawn prior to their maturity. The guaranteed interest accounts and the collective investment trusts are not considered benefit responsive.

Fair market value is the amount plan sponsors would receive currently if they were to withdraw or transfer funds within the plan prior to their maturity. This fair market value represents contract value adjusted to reflect current market interest rates only to the extent such market rates exceed credit rates.

The Statements of Net Assets Available for Plan Benefits present the fair value of the Plan assets as well as the adjustment of the guaranteed interest investment contracts and the collective investment trusts from fair value to contract value. The Statements of Changes in Net Assets Available for Plan Benefits are prepared on a contract value basis.

Investments

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between

market participants at the measurement date. The values of each pooled separate accounts and collective investment trusts are determined at the close of each business day based on using the net asset value (NAV) as a practical expedient which represents the price at which the Fund is able to initiate a transaction. These investments are excluded from the fair value hierarchy. The value of the accounts are expressed in units. The unit value is the dollar value of one unit and is determined at the close of each business day by dividing the value of the entire account by the total number of units in the account. The values of the forfeiture accounts are equal to actual cash value and or outstanding balance at the respective year-end. Insurance company general accounts, which are considered not fully benefit-responsive, are valued at contract value. Participant loans are reported at their unpaid principal balances. Consistent with the modified cash basis of accounting, interest income on loans is only recorded when received.

Events limiting contract value treatment (Morley)

Market value events may limit the ability of the Collective Investment Trust (Fund) to transact at contract value with the issuer. Market value events are events or conditions that occur which are outside of the normal operation of the Fund and lead to any Fund disbursements which have or will have a material adverse effect on the operations of the Fund and a financial effect on the investment contract or wrap issuer's interest hereunder.

Such events may include but are not limited to: Fund administration is amended or changed, merger or consolidation of investors, group terminations or layoffs, implementation of an early retirement program, termination or partial termination of the Fund, failure to meet certain tax qualifications, participant communication that is designed to influence participants not to invest in the Fund, transfers to competing options without meeting the equity wash provisions of the Fund, and plan sponsor withdrawals without the appropriate notice to the Fund and/or issuer.

In the normal course of business, such events or conditions would not limit the ability of the Fund to transact at contract value with the participants in the Fund. The Fund is managed to maintain a certain amount of liquidity to provide for the day-to-day liquidity needs of participants as well as the occasional market value event.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, CONTINUED

Termination events by the issuers within the Fund (Morley)

An issuer can terminate an investment contract upon the event of default by the contract holder, Advisor or Trustee if the issuer determines in its reasonable discretion, such event has had, or is likely to have a material adverse effect on the issuer's interest with respect to the contract.

Such events may include but are not limited to: management of the portfolio is not in accordance with investment guidelines, a breach of any material obligation under the wrap agreement, any representation or warranty made by the contract holder becomes untrue in any material way, a replacement of the Adviser without prior consent of the issuer, the Fund is terminated or ceases to qualify as a group trust or plans cease to meet the appropriate tax qualification, or the wrap becomes a prohibited transaction within the meaning of Section 406 of ERISA.

Fully benefit responsive investment valuation within the Fund (Morley)

Investments in contracts within the Fund are presented in the portfolio of investments at contract value, which represents invested principal plus accrued interest thereon. The contracts are nontransferable but provide for benefit responsive withdrawals and participant transfers to noncompeting options by Plan participants at contract value. In the event facts and circumstances provide evidence that contract value is impaired, the contracts would be presented at fair value. In determining contract value, the Trustee considers such factors as the benefit responsiveness of the contracts, the ability of the parties to the contracts to perform in accordance with the terms of the contracts and the likelihood of default by the issuer of an investment security. Investments within the Fund may be considered fully benefit responsive but the fund itself is not considered fully benefit responsive.

Investments in regulated investment companies or collective investment trusts are valued at the net asset value per share/unit on valuation date.

Investment contracts within the Fund (Morley)

Investment contracts can be structured as nonparticipating, participating or a combination thereof. Conventional Guaranteed Investment Contracts (GICs) issued by insurance companies are primarily nonparticipating, wherein the contract holder does not participate in any gains and losses incurred due to performance of the

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, CONTINUED

Investment contracts within the Fund (Morley), continued

underlying portfolio relative to the book value at times of withdrawals. Conversely, synthetic investment contracts, or wrap contracts, issued by insurance companies or banks, are primarily participating, wherein the contract holder participates in gains and losses incurred due to the performance of the underlying portfolio relative to book value at times of withdrawals. Gains and losses are amortized through future crediting rate resets. Participating structures are the most common structure utilized in this Fund.

GIC contracts are typically issued with a fixed crediting rate and a fixed maturity date that does not change over the life of the contract. Wrap contracts typically reset on a monthly or quarterly basis as negotiated with the wrap issuer and do not have a final stated maturity date. The wrap contracts in this Fund are predominately reset on a monthly basis with a one-month look back for the portfolio statistics. The wrap contract issuer guarantees a minimum 0% crediting rate although a wrap does not absorb any loss for credit default in an underlying portfolio.

The gross crediting rate formula is negotiated in the wrap contract and is typically represented as:

$$CR = (MV/BV)^{(1/D)} * (1 + YTM) - 1 \text{ where:}$$

MV = market value of portfolio

BV = book value of portfolio

D = weighted average duration of portfolio

YTM = annualized dollar or duration weighted yield to maturity of the portfolio

The net crediting rate is equal to the gross crediting rate minus the wrap fee due the contract issuer and if applicable, minus the sub-advisor fees for specific investment strategies. Crediting rates reflect the amortization of realized and unrealized gains and losses in the underlying portfolio over the duration of the portfolio and, in consequence, may not reflect the actual returns achieved in the portfolio. From time to time the crediting rate may be significantly greater or less than current market interest rates.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, CONTINUED

Investment contracts within the Fund (Morley), continued

A number of factors can influence future crediting rates, which may include but are not limited to: portfolio cash flows, underlying portfolio performance, current market interest rates for reinvestment, duration posture, change in credit ratings, default or bankruptcy by an asset or wrap issuer, the unexpected receipt of principal and interest payments, extraordinary withdrawals and certain wrap contract terms, including wrap fees.

The gross crediting rate formula is also subject to re-negotiation by the contract issuer and/or the contract holder. Events which may warrant the use of a different crediting rate formula or variables utilized in the formula illustrated above include, but are not limited to, depressed market value to book value ratios, credit events or pricing pressures within the wrapped portfolio that impacts market valuation.

Synthetic investment contracts are comprised of both investment and contractual components. The investment component consists of securities or shares of units of a pooled portfolio of fixed-income securities, referred to as the underlying investments. Underlying investments may include, but are not limited to:

- Asset-backed securities
- Corporate bonds
- Mortgage-backed securities
- Securities issued or backed by the U.S. government agencies, government sponsored enterprises or similar U.S. government entities or instrumentalities
- Shares of mutual funds primarily invested in the above
- Units of commingled pools primarily invested in the above
- Money market instruments

This investment component is "wrapped" by contracts issued by third-party financial institutions. This wrap becomes the contractual component and provides for benefit withdrawals and investment exchanges at the full contract value of the synthetic investment contracts (i.e., principal plus accrued interest) notwithstanding the actual market value of the underlying investments (i.e., fair value of security plus accrued interest). In this manner, wrap contracts are designed to smooth out the impact of normal market fluctuations associated with the performance of the underlying investments.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, CONTINUED

Investment contracts within the Fund (Morley), continued

Wrap contract issuers place restrictions on minimum/maximum portfolio durations and on the minimum credit quality of the underlying investments.

Most of the investments underlying the synthetic contracts have expected average lives. That is, they have a target maturity date that is subject to change depending on market conditions. Should the expected average life of the investments shorten or extend, the crediting rate on the contract is normally reset to reflect the investments' net yield to maturity. If the underlying investments prepay prior to their expected maturity, the cash flows from the investments are typically reinvested in new investments.

At December 31, 2022, the Fund held various synthetic investment contracts in which the underlying investment consisted of units of various collective trust funds sponsored by the Trustee and managed by the Investment Advisor. Below is a summary of these affiliated collective trust funds:

Investment contracts within the Fund (Morley), continued

The above is illustrative only and based on the assumptions given below. The crediting rate on the portfolio and total returns actually achieved by investors in the future may vary significantly from the above illustration due to market, plan and cash flow events.

- The basis for current market interest rate is the actual yield to maturity of underlying assets.
- The above represents an estimate based on current crediting rate calculation conventions.
- The illustrative crediting rate calculations are gross of wrap fees which typically average 14 basis points.
- Assumptions used in crediting rate calculation at December 31, 2022:
 - Market value to book value ratio = 92.84%, initial gross crediting rate 2.601% and duration = 3.18 years.
 - The participant cash flow example above reflects the manager's methodology in paying benefits and managing overall portfolio allocations.
 - Immediate one time hypothetical 10% decrease in net assets due to participant transfers occurring after the interest rate change.
 - One quarter increase of current yield equals the current yield multiplied by 1.25.
 - Effect on the crediting rate as of the date of the latest statement and at the end of the next four quarters assumes the portfolio rate resets quarterly.
 - Reset rate based on interest rate impact on the portfolio market value and underlying investments yield to maturity. Assumes market value grows by interest earnings over next reset periods.

At December 31, 2022 and 2021, all investment contracts held within the Morley Fund were deemed fully benefit-responsive. The change in the difference between the fair value and contract value of the Fund's fully benefit-responsive investment contracts during 2022 and 2021 is reflected below:

	December 31		
	2022	2021	Change
Investments at fair value	\$ 13,861,874,120	\$ 13,577,800,798	\$ 284,073,322
Adjustments to contract value	1,124,255,900	(184,258,252)	1,308,514,152

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, CONTINUED

Investment income within the Fund (Morley)

Investment income is accrued as earned. Investment income earned daily by the SSgA Government Short-Term Investment Fund is recorded on the accrual basis. Income from guaranteed investment contracts is recorded at the contract rate. In the case of synthetic investment contracts, the contract rate is also referred to as the crediting rate. Crediting rates on synthetic contracts are net of fees to the issuer of the wrap contract (wrap fees). For fully benefit-responsive synthetic investment contracts, earnings on the underlying assets are factored into the next computation of the crediting rate reset.

Income recognition

Transactions are accounted for using the transaction (trade) date. Realized gains or losses are determined on the basis of actual cost. In accordance with the policy of stating investments at fair market value, any change in unrealized appreciation or depreciation including realized gains and losses for the year is separately reflected in the statement of changes in net assets available for Plan benefits.

Contributions receivable are recorded only when contributions were not received by the Plan for a particular portion of the respective fiscal year.

Income tax status

The Plan adopted a Prototype Non-Standardized Profit Sharing Plan with a cash or deferral arrangement which received a favorable opinion letter from the Internal Revenue Service (IRS) on July 22, 2003, which stated that the Plan and the related trust are designed in accordance with applicable sections of the Internal Revenue Code. The Plan received its initial favorable determination from the Internal Revenue Service in a letter dated November 22, 1995. The Plan's counsel believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

The modified cash basis of accounting requires the Plan administrator to evaluate tax positions taken by the Plan and recognize a tax liability for any uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by tax authorities; however, there are currently no audits for any tax periods in progress.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, CONTINUED

Income tax status, continued

The Plan's annual return Form 5500 for the prior three (3) fiscal years remain open for examination.

Parties-in-interest transactions

Certain Plan investments are managed by Principal Life Insurance Co., which is the trustee/custodian as defined by the Plan and is considered a party-in-interest. Principal also performs certain Plan administrative functions. Certain administrative functions are performed by officers and employees of the Company (the officers, employees and Company are considered a party-in-interest). No such officer or employee of the Company receives compensation from the Plan.

Plan termination

Although the Company has not expressed any intent to do so, the Plan may be terminated at any time subject to the provisions of ERISA. Upon termination, all assets are to be distributed to vested Plan participants or their beneficiaries. In the event of such termination, participants would become 100% vested in their individual accounts.

Use of estimates

The preparation of financial statements in accordance with the modified cash basis of accounting requires the Plan administrator to make estimates and assumptions that affect the reported amounts of assets, liabilities and disclosure of contingent assets and liabilities at the date of the statement of net assets available for Plan benefits and the changes during the reporting period. Accordingly, actual results could differ from these estimates.

Fair value of financial instruments

FASB ASC 825-10-50-21 (formerly Financial Accounting Standards Board Statement No. 107), "Disclosures About Fair Value of Financial Instruments," requires disclosure of fair value information about financial instruments for which it is practicable to estimate that value. The carrying amounts of cash and money market accounts approximate fair value due to the short maturity of those instruments.

Subsequent events

Subsequent events have been evaluated through July 26, 2023, which is the date the financial statements were available to be issued.

NOTE C - MARKET RISK

The Plan investments included pooled separate accounts, which invest in various investment securities and in various companies within various markets. All of the Plan's investments are recorded at fair market value in accordance with the reporting requirements governing the Plan. Net changes in asset value are reflected as net appreciation (depreciation) in fair value of investments. All such investments are subject to interest rate risks, various market and economic risk factors as well as the national and global economies and it is at least reasonably possible that changes in the values (loss of principal) of investment securities will occur in the near term and that such changes could materially affect the participant's account balances and amounts reported in the Plan's financial statements and supplementary schedules.

NOTE D - FAIR VALUE MEASUREMENTS

Fair value measurements

FASB ASC 820-10-50-1 (formerly Financial Accounting Standards Board Statement No. 157), "Fair Value Measurements," establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The Plan's investments are reported at fair value in the accompanying statement of net assets available for Plan benefits. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to measure the fair value of certain financial instruments could result in a different fair value at the reporting date.

The fair value measurement accounting literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level (1) inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority. When available, the Plan measures fair value using Level (1) inputs, however, there were no Level (1) inputs available to the Plan. Level (2) inputs are based on inputs other than quoted prices within Level (1) that are observable for the asset either directly or indirectly. and Level (3) inputs are unobservable and have the lowest priority. Level (3) inputs were only used when Level (1) or Level (2) were not available. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level (1)

inputs because they generally provide the most reliable evidence of fair value. No Level (1) inputs were available to the Plan, and Level (3) inputs were only used when Level (1) or Level (2) inputs were not available.

** Collective Investment Trust

Level (2) fair value measurements

The pooled separate accounts and collective investment trusts invest mainly in domestic stocks and bonds. The majority of the underlying securities have observable Level (1) inputs; however, fair value is estimated based on the Net Asset Value (NAV) of each account as a practical expedient. The NAV of each pooled separate account and collective investment trusts are not publicly quoted.

The Morley Stable Value Fund also has a contract value component vs. fair value of \$179,151 and (\$31,868) and is therefore reflected as such at December 31, 2022 and 2021, respectively. Average yield rate was 1.20% and 0.98% for 2022 and 2021, respectively. This fund is a collective investment trust.

There were no level 2 inputs held at December 31, 2022 or 2021.

NOTE D - FAIR VALUE MEASUREMENTS, CONTINUED

Level (3) fair value measurements

The guaranteed investment contract with an insurance company is not actively traded and significant other observable inputs are not available. Thus, the fair value of the guaranteed investment contract is determined based on the contract value adjusted to reflect market rates to the extent that market rates exceed crediting rates.

The value of notes receivable - participant loans are equal to the unpaid principal balance (which approximates fair value) because the loans are collateralized by each respective participant's account balance.

The Plan's assets are reported at fair value in the accompanying Statements of Net Assets Available for Plan Benefits and consist of the following at December 31:

NOTE E - INVESTMENTS, CONTINUED

Guaranteed interest accounts

The Plan has entered into investment contracts with the Principal Life Insurance Company. Principal maintains the contributions in a general account. Such accounts are not considered benefit responsive. The average yield and crediting interest rates were 0.24% and 0.28% for 2022 and 2021, respectively. The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date. Such interest rates are reviewed every two years for resetting.

Information certified by Trustee

The Plan administrator has elected a method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Principal Life Insurance Company, the trustee/custodian of the Plan, has certified to the completeness and accuracy of all investments reflected on the accompanying statements of net assets available for Plan benefits as of December 31, 2022 and 2021, and the schedule of assets (held at end of year), and the related investment activity reflected in the statements of changes in net assets available for plan benefits for the years ended December 31, 2022 and 2021.

NOTE F - NOTES RECEIVABLE FROM PARTICIPANTS

Notes receivable consist of loans to Plan participants of \$94,944 and \$28,146 as of December 31, 2022 and 2021, respectively. At December 31, 2022 and 2021, the notes carried interest rates of 3.25-9.75%. These notes receivable are managed and in the custody of the trustee/custodian. Interest earned on notes receivable is recognized as a separate item when received by the Plan.

NOTE G - PLAN TRUSTEE/CUSTODIAN'S REPORT

The Trustee/Custodian reports the Plan net rate of return is -16.55% and 14.16% for the years ended December 31, 2022 and 2021, respectively.

NOTE H - CONTRIBUTIONS RECEIVABLE

The Plan had no contributions receivable as of December 31, 2022 or December 31, 2021.

NOTE J - COVID-19

The Cares Act of March 27, 2020 provides that a participant may withdraw up to \$100,000 from the Plan, before December 31, 2020, if the participant was diagnosed with COVID 19 as well as their spouse or dependent or experienced adverse financial consequences from the pandemic. The Act waives the early withdrawal penalty. The withdrawal is taxable over 1 - 3 years and can be repaid within 3 three years. Alternatively, a similarly impacted individual may take a hardship loan from the Plan equal to the lesser of the participant's vested loan balance or \$100,000. Certain loan repayment provisions were also extended.
