Report on the Audit of the Financial Statements

Opinion

We have audited the accompanying financial statements of Kaman Corporation 401(k) Plan, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets available for benefits as of December 31, 2023 and 2022, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of Kaman Corporation 401(k) Plan as of December 31, 2023 and 2022, and the changes in its net assets available for benefits for the years then ended, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Kaman Corporation 401(k) Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Kaman Corporation 401(k) Plan's ability to continue as a going concern for one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Kaman Corporation 401(k) Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Kaman Corporation 401(k) Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control related matters that we identified during the audit.

Supplemental Schedule Required by ERISA

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of assets (held at end of year) as of December 31, 2023 is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

Plan Administrator
Kaman Corporation 401(k) Plan

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedule is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

KAMAN CORPORATION 401(k) PLAN
Notes to Financial Statements
December 31, 2023 and 2022

(1) Summary of Significant Accounting Policies

Basis of Presentation

The accompanying financial statements have been prepared on the accrual basis, except for benefits which are recorded when paid, which is in accordance with accounting principles generally accepted in the United States of America.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein. Actual results could differ from those estimates.

Trustee

Kaman Corporation (the "Corporation") retains Fidelity Management Trust Company ("Fidelity") to serve as trustee, record keeper, administrative service provider and investment manager for the Kaman Corporation 401(k) Plan (the "Plan").

Plan Administrator and Fiduciary

Kaman Corporation, as the plan administrator, is responsible for the general administration of the Plan. The plan administrator acts under the supervision of an Administrative Committee, whose members are appointed by the Chief Executive Officer. The Administrative Committee has the authority and responsibility to oversee the operation and administration of the Plan. The authority and responsibility of the members of the Administrative Committee shall be jointly and severally shared except to the extent that the members allocate such responsibilities among themselves.

The Administrative Committee may designate one or more other persons to act as fiduciaries, render advice and carry out fiduciary responsibilities of the Plan. Upon designation of such other person(s) to act as fiduciaries and allocation of any fiduciary responsibility to such person or when such person is designated to carry out any such responsibility, then the Administrative Committee shall not be liable for an act or omission of such person in carrying out such responsibility, except as required by law.

Valuation of Investments

The Managed Income Portfolio II (the "Portfolio") is a stable value fund that is a commingled pool of Fidelity Group Trust for Employee Benefit Plans. The Portfolio may invest in fixed interest insurance investment contracts, money market funds, corporate and government bonds, mortgage-backed securities, bond funds, and other fixed-income securities. Fair value of the Portfolio is the net asset value ("NAV") of its holdings at year-end. Underlying securities for which quotations are readily available are valued at their most recent bid prices or are valued on the basis of information provided by a pricing service. Fair value of the underlying investment contracts is estimated using a discounted cash flow model. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

The mutual funds in the Plan are valued at fair value.

Purchases and sales of investments are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net (depreciation) appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefits are recorded when paid.

KAMAN CORPORATION 401(k) PLAN
Notes to Financial Statements (continued)
December 31, 2023 and 2022

Risks and Uncertainties

The Plan invests in various investment securities as directed by the participants. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits.

(2) Plan Provisions

The following brief description of the Plan is provided for general informational purposes only. Participants should refer to the Plan documents, which are in the custody of the Administrative Committee, or the Summary Plan Description for more complete information. The Plan, sponsored by the Corporation and its participating subsidiaries, is available to employees after completion of an eligibility period.

Eligibility

The eligibility period was at least thirty (30) consecutive days of service immediately following the initial date of employment or a minimum of 500 hours of service in the 12 consecutive month periods immediately following the initial date of employment. If the requirements for consecutive days of service or hours of service are not satisfied in the first year, they may be fulfilled in any subsequent Plan year.

Contributions

In general, a participant may contribute between 1% and 50% of his or her annual compensation on a pre-tax, a post-tax or Roth basis or a combined basis. Such contributions are subject to nondiscrimination tests imposed by the Internal Revenue Code ("Code") as a means to assure that the Plan does not discriminate in favor of highly compensated individuals. Eligible employees are also able to make pre-tax catch-up and Roth catch-up contributions, which are not subject to employer match contributions.

For each dollar that an eligible participant contributes to the pre-tax and / or Roth accounts up to 5% of compensation, his or her employer makes an employer contribution of one dollar (\$1.00). All employer contributions are made subject to the availability of the sponsor's or an adopting employer's net income.

Plan Fees

Participants pay fees which relate to loan origination and distribution fees and short-term trading fees. These fees amounted to \$24,431 and \$22,651 for the years ended December 31, 2023 and 2022, respectively. Other reasonable expenses of administration of the Plan and related Trust shall be charged against the assets of the Plan to the extent not paid by the Corporation (see Note 7).

Withdrawals and Loans

The Plan allows a participant to withdraw funds from his or her post-tax account. Participants cannot make withdrawals from their pre-tax or employer accounts (which contain employer contributions) prior to age 59-1/2 while actively employed, except under specified "hardship" circumstances in accordance with the terms of the Plan and various federal regulations. Participants may obtain loans from their pre-tax, rollover, Roth, Roth rollover and employer match account funds in accordance with the terms of the Plan and various federal regulations.

KAMAN CORPORATION 401(k) PLAN
Notes to Financial Statements (continued)
December 31, 2023 and 2022

Distributions

The forms of distribution available under the Plan include a lump sum payment, partial lump sum payment, and installment payments that can be elected in semi-monthly, monthly, quarterly, semi-annual or annual installments.

A Required Minimum Distribution (RMD) is the amount of money that must be withdrawn from a participant's retirement savings account by April 1st of each year following the later of (1) attaining age 72 or (2) the year in which retirement is achieved.

Vesting

A participant is always 100% vested in his or her own contributions, including earnings (or losses) thereon. Upon termination of employment, other than upon retirement at or after the Participant's Early or Normal Retirement Date (as defined within the Kaman Corporation Employees' Pension Plan), death, or permanent or total disability while actively employed, a participant shall have a vested interest in his or her employer account, including earnings (or losses) thereon, determined as follows:

- (a) If the participant has completed at least three years of service, he or she will have a fully vested interest in his or her employer account.
- (b) A participant with less than three years of service will have no vested interest in his or her employer account.

Forfeitures

Non-vested employer account funds shall be forfeited by a participant whose employment is terminated and shall be used thereafter to reduce subsequent employer contributions or to pay reasonable administrative expenses of the Plan. At December 31, 2023 and 2022, forfeited non-vested accounts totaled \$38,629 and \$74,751, respectively. In 2023 and 2022, the Plan used forfeitures totaling \$479,952 and \$437,682, respectively, to offset employer contributions or administrative expenses.

(3) Fair Value Measurements

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

The Plan uses a three-level fair value hierarchy that prioritizes the inputs used to measure fair value. This hierarchy requires the Plan to maximize the use of observable inputs and minimize the use of unobservable inputs. The three levels of inputs used to measure fair value are as follows:

- Level 1 — Quoted prices in active markets for identical assets or liabilities.
- Level 2 — Observable inputs other than quoted prices included in Level 1, such as quoted prices in markets that are not active or other inputs that are observable or can be corroborated by observable market data.
- Level 3 — Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities. This includes certain pricing models, discounted cash flow methodologies and similar techniques that use significant unobservable inputs.

The Plan assets are valued at fair value. The following is a description of the valuation methodologies used for the investments measured at fair value, including the general classification of such instruments pursuant to the valuation hierarchy. There have been no changes in the methodologies used at December 31, 2023 and 2022.

Mutual Funds – Mutual funds are traded actively on public exchanges. The share prices for mutual funds are published at the close of each business day. Holdings of mutual funds are classified as Level 1 investments.

KAMAN CORPORATION 401(k) PLAN
Notes to Financial Statements (continued)
December 31, 2023 and 2022

Collective Trust Fund - Collective trust funds are valued at the NAV of units of a bank collective trust. The NAV is used as a practical expedient to estimate fair value. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchases and sales) may occur daily. If the Plan initiates a full redemption of the collective trust, the issuer reserves the right to require 12 months' notification in order to ensure that securities liquidations will be carried out in an orderly business manner.

The tables below segregate the Plan's financial assets that are measured at fair value on a recurring basis (at least annually) into the most appropriate level within the fair value hierarchy based on the inputs used to determine the fair value at the measurement date.

	Total carrying value at December 31, 2023	Quoted prices in active market (Level 1)	Significant other observable inputs (Level 2)	Significant unobservable inputs (Level 3)

Fair Value of Investments in Entities that Use NAV

The following tables summarize investments measured at fair value based on NAV per share as of December 31, 2023 and 2022.

(4) Plan Termination

Although the Corporation has not expressed any intent to do so, in the event the Plan terminates, a participant will become fully vested in their employer account and all assets remaining in the Plan, after payment of any expenses properly charged to the Plan, shall be distributed to the participants in accordance with the value of each participant's account as of the date on which payment is made.

(5) Participant Accounts and Notes Receivable From Participants

Generally, the Plan allows participants to transfer existing account balances between the funds or to change their instructions for investment of future contributions on a daily basis.

Participants can transfer balances or change investment instructions for some or all of their account balances, but must designate these amounts in one percent (1%) increments. Employer contributions follow the same investment instructions as the employee contributions. Transactions are recorded at their NAV at the close of business on the day the investment instructions are received at Fidelity (this is called a "trade-date" basis); however, instructions received after the New York Stock Exchange closes will become effective the following business day.

Notes receivable from participants represent loans issued to participants in accordance with the terms of the Plan. A loan provision gives participants the ability to borrow from their pre-tax, rollover, Roth, Roth rollover and employer match accounts. The minimum loan is \$1,000. The maximum loan amount is one-half of a participant's total vested interest, or \$50,000 less the highest outstanding loan balance(s) in the previous 12 months, whichever is less, as long as the loan(s) does not exceed the balance available in the pre-tax, rollover, Roth, Roth rollover and employer match accounts. No more than two loans may be outstanding at any time. Interest rates for loans is determined quarterly, and is set at 1 percent above the prime rate, as defined, with the exception of the rollover of loans from another employee benefit plan which is "qualified" under Section 401(a) of the Code, provided the rollover meets applicable legal requirements and is made in connection with an acquisition or other similar corporate transaction. The federal government imposes certain rules and restrictions on these loans.

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent notes receivable from participants are recorded as a distribution based upon the terms of the plan document. The notes receivable from participants' balances were decreased by \$635 and \$23,951 for the years ended December 31, 2023 and 2022, respectively, for loans in default that have been deemed distributions at year-end.

(6) Federal Income Taxes

The Plan received a determination letter dated August 11, 2014 from the Internal Revenue Service ("IRS") indicating the Plan (generally effective January 1, 2008) is designed in accordance with the applicable sections of the Code. The Corporation believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the Code.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2023 and 2022, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

(7) Party-In-Interest Transactions

Transactions resulting in Plan assets being transferred to or used by a related party are prohibited under ERISA unless a specific exemption applies. Fidelity is a party-in-interest as defined by ERISA as a result of being the trustee, record keeper and administrative service provider of the Plan. The Plan invests in funds managed by Fidelity. These transactions are covered by an exemption from the "prohibited transactions" provisions of ERISA and the Code.

The Plan received revenue sharing credits from Fidelity Mutual Funds of \$267,402 and \$303,549 for the years ended December 31, 2023 and 2022, respectively. This amount, which is shown as other income, net in the accompanying financial statements, is used to offset other expenses. Direct expenses paid by the Plan for administrative expenses totaled \$141,402 and \$111,980 for the years ended December 31, 2023 and 2022, respectively. The Plan Sponsor pays directly any other fees related to the Plan's operations.

(8) Transfer of Loans

On September 16, 2022, the Corporation acquired all of the assets and related liabilities of Parker-Hannifin Corporation's Aircraft Wheel and Brake division. In the year ended December 31, 2022, certain employees from the Aircraft Wheel and Brake division elected to roll over \$15,172 of loans into the Plan.

(9) Subsequent Events

On April 19, 2024, the Company announced the completion of its acquisition by Arcline Investment Management, L.P. ("Arcline"), a growth-oriented private equity firm with deep experience investing in technology-driven, meaningful-to-the-world industrial businesses, in an all-cash transaction with a total enterprise value of approximately \$1.8 billion. Upon completion of the transaction, Kaman become a privately-held company. The Company's acquisition by Arcline did not have an impact on the provisions or net asset status of its 401(k) plan.

The Plan has evaluated subsequent events through July 11, 2024, the date the financial statements were available to be issued. Other than the matter noted above, no material subsequent events were identified that require disclosure.
