## INDEPENDENT AUDITORS' REPORT

To the Retirement Committee of  
Scripps Clinic Medical Group, Inc. Cash Balance Pension Plan  
La Jolla, California

### Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of Scripps Clinic Medical Group, Inc. Cash Balance Pension Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits in liquidation and of accumulated plan benefits in liquidation as of December 31, 2023 and 2022, the related statements of changes in net assets available for benefits in liquidation and in accumulated plan benefits in liquidation for the years then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of and for the years ended December 31, 2023 and 2022, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

### Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditors' Responsibilities for the Audit of the Financial Statements Section:

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP).

- The information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

**Basis for Opinion**

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

**Emphasis of Matter – Plan Termination and Liquidation Basis**

As discussed in Note 1 to the financial statements, Scripps Clinic Medical Group, the Plan sponsor, voted to terminate the Plan effective December 31, 2022, and management determined liquidation is imminent. As a result, the liquidation basis of accounting was used in presenting the financial statements for the years ended December 31, 2023 and 2022. Our opinion is not modified with respect to this matter.

**Responsibilities of Management for the Financial Statements**

Management is responsible for the preparation and fair presentation of the financial statements in accordance with U.S. GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not effect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are issued or available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

### **Auditors' Responsibilities for the Audit of the Financial Statements**

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant account estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of U.S. GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with U.S. GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

### **Other Matter - Supplemental Schedules Required by ERISA**

The supplemental schedule of reportable transactions, for the year ended December 31, 2023, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, is presented, in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

### NOTE 1. DESCRIPTION OF THE PLAN

The following description of the Scripps Clinic Medical Group, Inc. Cash Balance Pension Plan (the Plan) is provided for general information purposes only. Participants should refer to the plan agreement or the summary plan description for a more complete description of the Plan's provisions.

**Plan Termination:** The Plan Sponsor voted to terminate the Plan effective December 31, 2022. Participants became 100 percent vested in their accrued benefit and the net assets of the Plan were allocated. The Pension Benefit Guaranty Corporation (PBGC) has provided the Plan with a letter approving the liquidation and termination of the Plan, dated October 26, 2023. The Plan Sponsor instructed the third-party administrator to amend the Plan to provide for such termination and be liquidated in accordance with the terms and provisions of the Plan, including any rules or regulations promulgated by the PBGC. The Plan purchased annuity contracts from Midland National Life Insurance Company amounting to \$419,500 to provide benefits to current retirees of the Plan, which is included in purchases of annuity contracts in the accompanying statements of changes in net assets available for benefits. All ongoing benefit payments will be satisfied by the insurance company under the terms of the contract. The remaining plan participants received a lump sum payment from the Plan totaling \$73,673,020 and transfers to another plan totaling \$3,474,197. All plan assets have been distributed as of December 29, 2023.

**General:** The Plan is a defined benefit pension plan covering the employees of Scripps Clinic Medical Group, Inc. (the Employer). It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

The Plan is administered by the Scripps Clinic Medical Group, Inc. Retirement Committee (the Committee and Plan Administrator). The primary duty of the Committee is to administer the Plan in accordance with the terms of the Plan and Trust Agreement and to serve as an intermediary between and among the employees, the Company, and the Trustee.

**Eligibility:** Employees who are classified as 50% full time equivalent or greater are eligible to participate in the Plan after one year of service. Union employees, non-resident aliens, independent contractors, and those classified as Fellows, Residents, or Training Program Participants are not eligible employees. As of December 31, 2022, the Plan was frozen and no new participants were allowed into the Plan.

**Contributions:** The Employer shall make contributions in amounts deemed necessary by an independent actuary to fund benefits provided by the Plan. Any actuarial gains will be used to reduce future Employer contributions.

### NOTE 1. DESCRIPTION OF THE PLAN (CONTINUED)

**Normal Retirement Benefits:** Generally, retirement benefits become payable at the participant's normal retirement age (65). The Plan requires the establishment and maintenance of an "account" for each participant solely for use in determining accumulated benefits and benefit payments under the Plan. The balance in the participant's hypothetical account equals the sum of:

- An employer contribution credited as of the last day of each pay period in which a participant completes at least one hour of service. The contribution amount is reduced proportionately if plan compensation is less than the compensation limitation.
- Interest credited semi-annually on June 30th and December 31st by applying the actual rate of return on the Plan's investment for the semi-annual period. The actual return can be positive or negative for an interest crediting period however, positive returns credited for a 12-month plan year cannot exceed 4%. In addition, positive returns cannot exceed 1.98% for the period January 1 through June 30. A participant's account value, upon retirement, will never be less than the total of all their hypothetical employer contributions (less prior benefit payments) even if there have been periods of negative return.

Neither the maintenance of any account, nor the making of any credits thereto, is intended to be an allocation of assets of the Plan or the creation of the right of any person to receive specific assets of the Plan.

Accumulated plan benefits are generally paid in a lump sum or monthly payment upon retirement in the form of a life annuity or joint and survivor annuity (actuarially reduced), although other elections are available.

**Accrued Benefit:** A participant's accrued benefit is equal to his or her cash balance account. The Accrued Benefit is expressed as a balance rather than as an annuity.

**Deferred Retirement Benefits:** Participants who continue employment after the normal retirement date receive retirement benefits computed as of the deferred retirement date, as defined.

**Disability and Death Benefits:** Participants who become totally and permanently disabled while still active in the Plan are eligible to receive disability pension benefits which are equal to the actuarial equivalent of the participant's vested accrued normal retirement benefit. Payments under the Plan may begin on the first day of the month following the date of disability. If a participant dies prior to the retirement date, their beneficiary will receive a death benefit equal to the actuarial equivalent of the Participant's vested accrued benefit at date of death.

### NOTE 1. DESCRIPTION OF THE PLAN (CONTINUED)

**Vesting:** Vesting in the Participant's accrued benefit attributable to Company contributions and the earnings thereon is based on years of service. Years of service for vesting purposes is based upon the completion of 1000 hours of service within the plan year. Participant vesting is as follows: A participant is 20% vested after one year of service, 40% after two years and is fully vested after 3 years of service. Additionally, participants shall be 100% vested without regard to years of service, upon attainment of age 65, or upon death or permanent disability while a participant in the Plan. As noted in Note 1, all participants became 100% vested in their accounts upon termination of the Plan as of December 31, 2022.

**Termination Benefits:** In the event employment is terminated for any reason other than normal retirement, early retirement, deferred retirement, death or total and permanent disability, participants are entitled to the vested percentage of their accumulated pension benefits. Payment of such benefits begins at the normal or early retirement date unless immediate payment is elected. If the vested account balance is \$1,000 or less, it will be paid as soon as administratively feasible after termination.

In-service withdrawals of a participant's accrued benefit can be made at or after the age of 62. Withdrawals are limited to one per year.

### NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

**Method of Accounting:** The Plan adopted the liquidation basis of accounting, effective December 31, 2022. This basis of accounting is required when, among other things, liquidation of the Plan is imminent, as defined in Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) No. 205. *Presentation of Financial Statements – Liquidation Basis of Accounting*. As a result of the plan termination as noted in Note 1, liquidation became imminent on December 31, 2022. The statements of net assets and accumulated Plan benefits, and the statements of changes in net assets, and changes in accumulated plan benefits are the principal financial statements presented under the liquidation basis of accounting.

**Use of Estimates:** The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires plan management to make estimates and assumptions that affect the reported amounts and disclosures at the date of the financial statements and reported amounts during the reporting period. Actual results could differ from the estimated amounts.

**Investment Valuation and Income Recognition:** Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value.

### NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

**Investment Valuation and Income Recognition (Continued):** Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) in the fair value of investments includes realized gains and losses on investments that were both purchased and sold during the year as well as unrealized appreciation or depreciation of the investments held at year-end.

**Cash and Cash Equivalents:** The Plan considers cash on hand and demand deposits in banks as cash and all highly liquid investments with a maturity of three months or less to be cash equivalents.

**Actuarial Present Value of Accumulated Plan Benefits:** Accumulated plan benefits are those future periodic payments under the Plan including lump sum distributions, which are attributable under the Plan's provisions to the service that employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died and (c) present employees or their beneficiaries. Benefits under the Plan are based on the compensation earned by participants during their years of credited service. Benefits payable under all circumstances (retirement, death, disability and termination of employment) are included to the extent they are deemed attributable to employee service rendered to the valuation date.

The actuarial present value of accumulated plan benefits was determined by an actuary and is that amount which results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal or retirement) between the valuation date and the expected date of payment. As noted in Note 1, the Plan was terminated and accumulated plan benefits are no longer calculated for non-retired participants. For participants with a cash balance, their actual cash balance was used to determine their accumulated plan benefits.

The following table outlines the significant actuarial assumptions used in the valuation for the plan years ending December 31, 2023 and 2022. For plan year ending December 31, 2022, the assumptions were used only for participants with a monthly benefit (i.e., retirees). Assumptions were modified to reflect the Plan's termination and expected benefit payments as part of the termination:

### NOTE 4. FAIR VALUE MEASUREMENTS

The fair value measurement topic of the FASB ASC establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described below:

- Level 1. Inputs to valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
- Level 2. Inputs to the valuation methodology include: quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.
- Level 3. Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value at December 31, 2023 and 2022.

- Mutual funds are valued at net asset value ('NAV') of shares held by the Plan at year end.
- Interest bearing cash includes investments in a money market deposit account. The net asset value of the account represents the price at which the Plan believes it would be able to initiate a transaction.

### NOTE 4. FAIR VALUE MEASUREMENTS (CONTINUED)

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan Administrator believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2022. Classification within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement.

	Assets at fair value as of December 31, 2022			
	Level 1	Level 2	Level 3	Total
Cash, interest bearing	\$ 205,831	\$ --	\$ --	\$ 205,831
Mutual funds	74,956,085	--	--	74,956,085
Total assets in the fair value hierarchy	<u>\$ 75,161,916</u>	<u>\$ --</u>	<u>\$ --</u>	<u>75,161,916</u>
Investments, at fair value				<u>\$ 75,161,916</u>

### NOTE 5. FORFEITURES

Forfeitures accumulate from excess Company contributions and employees who have terminated prior to full vesting of their accrued benefit. Forfeitures will be used to reduce future Company contributions or plan expenses. There were no forfeitures included in net assets available for benefits at December 31, 2023 and 2022.

### NOTE 6. FUNDING

The Plan is funded by the Employer in such amounts as are deemed necessary by the independent actuary to provide for the benefits required by the Plan. Contributions are made by the Employer in amounts that are estimated to remain a constant percentage of employees' compensation each year such that all employees' benefits will be fully provided for by the time they retire, in accordance with the funding requirements of ERISA. Any actuarial gains arising from actual experience under the Plan are used to reduce future contributions by the Company and are not used to increase any benefits payable under the Plan. Employer contributions for 2022 met the minimum funding requirements of ERISA.

Beginning May 2022, contributions ceased due to the Plan having surplus assets. Approximately \$7M of the surplus assets were allocated to participant accounts during the year ended December 31, 2022.

### **NOTE 7. FEDERAL INCOME TAX STATUS**

The Plan was effective January 1, 2013, and the Employer has received a favorable determination letter from the Internal Revenue Service (IRS) dated February 3, 2021 stating that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code (IRC). The Plan Administrator and the Plan's tax counsel believe that the Plan is designed and currently being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the taxing authority. The Plan Administrator has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2023, there are no uncertain tax positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audit by taxing jurisdictions, however, there are currently no audits in progress.

### **NOTE 8. PARTICIPANT WITHDRAWALS AND DISTRIBUTIONS**

At December 31, 2023 and 2022, there were no unpaid distributions included in accounts of participants who have elected to withdraw from participation in the Plan.

### **NOTE 9. PARTY-IN-INTEREST TRANSACTIONS**

As of December 31, 2023, certain plan investments were invested in funds managed by Charles Schwab Bank, the Plan's Trustee, and Alliance Bernstein, the Plan's Investment Advisor. Therefore, these transactions qualified as party-in-interest transactions under ERISA.

### **NOTE 10. SUBSEQUENT EVENTS**

Management has evaluated its December 31, 2023 and 2022 financial statements for subsequent events through September 18, 2024, the date of issuance of the financial statements.

### **NOTE 11. RISKS AND UNCERTAINTIES**

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets available for benefits.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.
