Independent Auditor's Report

To the Plan Administrator and Trustees
South Bay Lube, Inc. 401(k) Plan
Sarasota, Florida

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of South Bay Lube, Inc. 401(k) Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for plan benefits as of December 31, 2023 and 2022, the related statement of changes in net assets available for plan benefits for the year ended December 31, 2023, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audit of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audit need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 2023 and 2022, and for the year ended December 31, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audit and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section:

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP).
- The information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with U.S. GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are issued or available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.

- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audit did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of U.S. GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with U.S. GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matters

Supplemental Schedule Required by ERISA

The supplemental Schedule of Assets (Held at Year End) as of December 31, 2023, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

South Bay Lube, Inc. 401(k) Plan

Notes to Financial Statements

December 31, 2023

I. Description of the Plan

The following description of South Bay Lube, Inc. 401(k) Plan (the Plan), provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a qualified safe harbor defined contribution 401(k) plan covering all eligible employees of South Bay Lube, Inc. (the Company). It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended and was established effective January 1, 2022. The Plan was most recently amended effective December 1, 2023.

Eligibility

Employees are eligible to participate in the Plan beginning the first day of the month immediately after they attain twenty-one years of age and complete six months of service.

Participant Accounts

Each participant's account is credited with the participant's contribution, safe harbor matching contributions, allocation of the Plan's earnings, and applicable administrative expenses. Allocations of earnings are based on the participant account balances in the Plan's investments. Each participant self directs their individual account in various mutual funds or money markets offered by the Custodian. The participant is entitled to the benefit provided by the participant's vested account balance.

Contributions

Participants are automatically enrolled in the Plan when they become eligible at a 3% deferral rate. This percentage can be changed by the participant once enrolled in the Plan. Each year, participants may contribute up to the maximum allowable limits of the Internal Revenue Service (IRS). For the year ended December 31, 2023, this limit was \$22,500 of annual compensation. Both Roth and traditional contribution options are available under the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. For 2023, the annual catch-up contribution limit was \$7,500.

The Plan is a qualified safe harbor 401(k) plan, which means it provides a special safe harbor contribution to participants who satisfy the applicable eligibility requirements. Eligible participants receive a matching contribution equal to 100% of the amount they contribute up to the first 3% of compensation, plus 50% of the amount they contribute between 3% and 5% of compensation.

Vesting

The Plan was designed to qualify as a safe harbor 401(k) plan. Therefore, participants are 100% vested in their entire account balance.

Investment Options

The Plan qualifies as participant-directed under ERISA Section 404(c). Upon enrollment in the Plan, a participant may direct and allocate their contributions to the investment options available. Employer contributions are allocated according to the participants' allocations. The percentage of contributions allocated to each of the investment options is at the discretion of the participant. Participants may change their investment options at any time using the Custodian's website or via telephone.

Plan Expenses

The Company pays the Plan's administrative service fees. For the year ended December 31, 2023, the Plan's administrative expenses were \$11,942.

I. Description of the Plan (Continued)

Forfeitures

The Plan permits forfeitures to be used to offset employer contributions. There were no forfeitures for the year ended December 31, 2023.

Benefits Paid to Participants

If a participant ceases to be employed by the Company for any reason other than death or total and permanent disability prior to satisfying the age and service requirements for normal retirement (sixty-five), the terminated participant may elect, with the consent of his or her spouse, to receive any vested amounts plus the earnings thereon. Withdrawals may be subject to tax withholdings and penalties. If a participant's vested balance is \$5,000 or less, then they will receive a single-sum payment as soon as administratively feasible following termination of employment.

A participant who has reached age 59 ½ may request an in-service distribution from the Plan. The Plan requires that certain minimum distribution be made from the Plan.

Hardship Distributions

Hardship distributions are permitted by the Plan at the discretion of the Company for allowable expenditures.

Notes Receivable from Participants

Participants may borrow from their individual fund accounts at a minimum of \$1,000 up to a maximum equal to the lesser of 50% of their vested account or \$50,000 reduced by any outstanding loan balance. A participant is permitted to have a maximum of one loan outstanding at any one time. Each loan shall bear interest at a rate equal to the prime rate plus 1%. For the year ended December 31, 2023, the interest rates ranged from 5.75% - 9.50%. Principal and interest are paid ratably through payroll deductions. Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the plan document. No allowance has been established for uncollectible notes receivable from participants as of December 31, 2023 and 2022.

Plan Termination

The Company anticipates that the Plan will continue without interruption but reserves the right to terminate the Plan. In the event of Plan termination, the net assets of the Plan will be distributed to the participants and beneficiaries of the Plan.

2. Summary of Significant Accounting Policies

Financial Statements

The financial statements and notes are representation of the Plan Administrator who is responsible for their integrity and objectivity. The accounting policies conform to accounting principles generally accepted in the United States of America and have been consistently applied in the preparation of the financial statements.

Basis of Accounting

The accompanying financial statements are presented on the accrual basis of accounting.

Use of Estimates and Assumptions

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires the Plan Administrator to make estimates and assumptions that affect certain reported amounts of assets, liabilities, changes in net assets, and the disclosure of contingent assets and liabilities. Actual results could differ from those estimates and assumptions.

2. Summary of Significant Accounting Policies (Continued)

Fair Value Measurement

The Company adopted the Fair Value Measurement and Disclosures Topic of the FASB Accounting Standards Codification for fair value measurements of financial assets and liabilities that are recognized and disclosed at fair value in the financial statements on a recurring basis. The Fair Value Measurements and Disclosures Topic established a single authoritative definition of fair value, sets a framework for measuring fair value, and requires additional disclosures about fair value measurement. The financial statements reflect the adoption of the Fair Value Measurements and Disclosures Topic.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value based on quoted market prices as reported on the last business day of the year. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Net Appreciation in the Fair Value of Investments

The Plan presents, in the statement of changes in net assets available for plan benefits, the net appreciation in the fair value of its investments. This consists of the realized gains and losses and the unrealized appreciation and depreciation of those investments.

Benefits Paid to Participants

Benefits are recorded when paid.

3. Financial Information Certified by Matrix Trust Company and UMB Bank

The Plan Administrator has obtained certification from the custodian that information provided to the Plan Administrator by the custodian related to the following investments is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditor not to perform any auditing procedures with respect to information which appears throughout the financial statements and supplemental schedule related to the following investments.

The following is a summary of the asset information as of December 31, 2023 and 2022, included throughout the Plan's financial statements and supplemental schedule, that was prepared by or derived from information provided by the custodians and furnished to the Plan Administrator.

4. Fair Value Measurements

The Fair Value Measurements and Disclosures Topic provides enhanced guidance for using fair value to measure assets and liabilities and clarifies the principle that fair value should be based on the assumptions market participants would use when pricing the assets or liabilities and establishes a hierarchy that prioritizes the information used to develop those assumptions. The hierarchy gives the highest priority to unadjusted quoted prices in active markets (Level 1 measurements) and lowest priority to unobservable inputs (Level 3 measurements).

The three levels for measuring fair value are based on the reliability of inputs and are as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodology used for assets measured at fair value at December 31, 2023 and 2022.

Mutual funds: Shares are generally valued at Net Asset Value Per Share (NAVPS) based upon net asset value of the underlying portfolio securities and are published on a national exchange valued at the end of each day.

The method described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables present information about the Plan's assets that are measured at fair value on a recurring basis as of December 31, 2023 and 2022, and indicate the fair value hierarchy of the valuation techniques used to determine such fair value.

5. Party-in-Interest to the Plan

Section 3(14) of ERISA defines a party-in-interest to include, among others, fiduciaries or employees of the Plan, any person who provides services to the Plan, or an employer whose employees are covered by the Plan. The supplemental Schedule of Assets (Held at End of Year) identifies which of the investments held are party-in-interest investments. At December 31, 2023 and 2022, the total market value of these investments was \$599,115 and \$298,672 or approximately 97% and 99% of total net assets available for benefits, respectively.

6. Tax Status

The Plan has adopted a standardized form of a volume submitter plan. The volume submitter plan has received an opinion letter dated March 14, 2023 from the IRS as to the Plan's qualified status and has been relied upon by this Plan. The Plan Administrator believes the Plan is designed and is being operated in compliance with the applicable provisions of the Internal Revenue Code.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain tax position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan Administrator has analyzed the tax position taken by the Plan, and has concluded that as of December 31, 2023, there are no uncertain tax positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan is subject to income tax examinations for the 2022 through 2023 plan years.

7. Risks and Uncertainties

The Plan invests in a variety of investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for plan benefits.

8. Subsequent Events

The Plan Administrator has evaluated all events subsequent to the statement of net assets available for plan benefits date of December 31, 2023, through the date these financial statements were available for issuance, September 23, 2024, and has determined that there are no subsequent events that require disclosure.

Independent Auditor's Report

To the Plan Administrator and Trustees
South Bay Lube, Inc. 401(k) Plan
Sarasota, Florida

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of South Bay Lube, Inc. 401(k) Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for plan benefits as of December 31, 2023 and 2022, the related statement of changes in net assets available for plan benefits for the year ended December 31, 2023, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audit of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audit need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 2023 and 2022, and for the year ended December 31, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audit and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section:

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP).
- The information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with U.S. GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are issued or available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.

- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audit did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of U.S. GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with U.S. GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matters

Supplemental Schedule Required by ERISA

The supplemental Schedule of Assets (Held at Year End) as of December 31, 2023, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Notes to Financial Statements

December 31, 2023

I. Description of the Plan

The following description of South Bay Lube, Inc. 401(k) Plan (the Plan), provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a qualified safe harbor defined contribution 401(k) plan covering all eligible employees of South Bay Lube, Inc. (the Company). It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended and was established effective January 1, 2022. The Plan was most recently amended effective December 1, 2023.

Eligibility

Employees are eligible to participate in the Plan beginning the first day of the month immediately after they attain twenty-one years of age and complete six months of service.

Participant Accounts

Each participant's account is credited with the participant's contribution, safe harbor matching contributions, allocation of the Plan's earnings, and applicable administrative expenses. Allocations of earnings are based on the participant account balances in the Plan's investments. Each participant self directs their individual account in various mutual funds or money markets offered by the Custodian. The participant is entitled to the benefit provided by the participant's vested account balance.

Contributions

Participants are automatically enrolled in the Plan when they become eligible at a 3% deferral rate. This percentage can be changed by the participant once enrolled in the Plan. Each year, participants may contribute up to the maximum allowable limits of the Internal Revenue Service (IRS). For the year ended December 31, 2023, this limit was \$22,500 of annual compensation. Both Roth and traditional contribution options are available under the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. For 2023, the annual catch-up contribution limit was \$7,500.

The Plan is a qualified safe harbor 401(k) plan, which means it provides a special safe harbor contribution to participants who satisfy the applicable eligibility requirements. Eligible participants receive a matching contribution equal to 100% of the amount they contribute up to the first 3% of compensation, plus 50% of the amount they contribute between 3% and 5% of compensation.

Vesting

The Plan was designed to qualify as a safe harbor 401(k) plan. Therefore, participants are 100% vested in their entire account balance.

Investment Options

The Plan qualifies as participant-directed under ERISA Section 404(c). Upon enrollment in the Plan, a participant may direct and allocate their contributions to the investment options available. Employer contributions are allocated according to the participants' allocations. The percentage of contributions allocated to each of the investment options is at the discretion of the participant. Participants may change their investment options at any time using the Custodian's website or via telephone.

Plan Expenses

The Company pays the Plan's administrative service fees. For the year ended December 31, 2023, the Plan's administrative expenses were \$11,942.

I. Description of the Plan (Continued)

Forfeitures

The Plan permits forfeitures to be used to offset employer contributions. There were no forfeitures for the year ended December 31, 2023.

Benefits Paid to Participants

If a participant ceases to be employed by the Company for any reason other than death or total and permanent disability prior to satisfying the age and service requirements for normal retirement (sixty-five), the terminated participant may elect, with the consent of his or her spouse, to receive any vested amounts plus the earnings thereon. Withdrawals may be subject to tax withholdings and penalties. If a participant's vested balance is \$5,000 or less, then they will receive a single-sum payment as soon as administratively feasible following termination of employment.

A participant who has reached age 59 ½ may request an in-service distribution from the Plan. The Plan requires that certain minimum distribution be made from the Plan.

Hardship Distributions

Hardship distributions are permitted by the Plan at the discretion of the Company for allowable expenditures.

Notes Receivable from Participants

Participants may borrow from their individual fund accounts at a minimum of \$1,000 up to a maximum equal to the lesser of 50% of their vested account or \$50,000 reduced by any outstanding loan balance. A participant is permitted to have a maximum of one loan outstanding at any one time. Each loan shall bear interest at a rate equal to the prime rate plus 1%. For the year ended December 31, 2023, the interest rates ranged from 5.75% - 9.50%. Principal and interest are paid ratably through payroll deductions. Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the plan document. No allowance has been established for uncollectible notes receivable from participants as of December 31, 2023 and 2022.

Plan Termination

The Company anticipates that the Plan will continue without interruption but reserves the right to terminate the Plan. In the event of Plan termination, the net assets of the Plan will be distributed to the participants and beneficiaries of the Plan.

2. Summary of Significant Accounting Policies

Financial Statements

The financial statements and notes are representation of the Plan Administrator who is responsible for their integrity and objectivity. The accounting policies conform to accounting principles generally accepted in the United States of America and have been consistently applied in the preparation of the financial statements.

Basis of Accounting

The accompanying financial statements are presented on the accrual basis of accounting.

Use of Estimates and Assumptions

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires the Plan Administrator to make estimates and assumptions that affect certain reported amounts of assets, liabilities, changes in net assets, and the disclosure of contingent assets and liabilities. Actual results could differ from those estimates and assumptions.

2. Summary of Significant Accounting Policies (Continued)

Fair Value Measurement

The Company adopted the Fair Value Measurement and Disclosures Topic of the FASB Accounting Standards Codification for fair value measurements of financial assets and liabilities that are recognized and disclosed at fair value in the financial statements on a recurring basis. The Fair Value Measurements and Disclosures Topic established a single authoritative definition of fair value, sets a framework for measuring fair value, and requires additional disclosures about fair value measurement. The financial statements reflect the adoption of the Fair Value Measurements and Disclosures Topic.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value based on quoted market prices as reported on the last business day of the year. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Net Appreciation in the Fair Value of Investments

The Plan presents, in the statement of changes in net assets available for plan benefits, the net appreciation in the fair value of its investments. This consists of the realized gains and losses and the unrealized appreciation and depreciation of those investments.

Benefits Paid to Participants

Benefits are recorded when paid.

3. Financial Information Certified by Matrix Trust Company and UMB Bank

The Plan Administrator has obtained certification from the custodian that information provided to the Plan Administrator by the custodian related to the following investments is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditor not to perform any auditing procedures with respect to information which appears throughout the financial statements and supplemental schedule related to the following investments.

The following is a summary of the asset information as of December 31, 2023 and 2022, included throughout the Plan's financial statements and supplemental schedule, that was prepared by or derived from information provided by the custodians and furnished to the Plan Administrator.

	2023	2022
Investments, at fair value	\$ 597,767	\$ 300,859
Cash	10,639	-
Money market	8,251	-
Notes receivable from participants	9,246	1,977

Matrix Trust Company also certified to the completeness and accuracy of net appreciation in fair value of investments of \$65,543, interest income on notes receivable of \$530, and dividend income of \$12,721 for the year ended December 31, 2023.

4. Fair Value Measurements

The Fair Value Measurements and Disclosures Topic provides enhanced guidance for using fair value to measure assets and liabilities and clarifies the principle that fair value should be based on the assumptions market participants would use when pricing the assets or liabilities and establishes a hierarchy that prioritizes the information used to develop those assumptions. The hierarchy gives the highest priority to unadjusted quoted prices in active markets (Level 1 measurements) and lowest priority to unobservable inputs (Level 3 measurements).

The three levels for measuring fair value are based on the reliability of inputs and are as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodology used for assets measured at fair value at December 31, 2023 and 2022.

Mutual funds: Shares are generally valued at Net Asset Value Per Share (NAVPS) based upon net asset value of the underlying portfolio securities and are published on a national exchange valued at the end of each day.

The method described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables present information about the Plan's assets that are measured at fair value on a recurring basis as of December 31, 2023 and 2022, and indicate the fair value hierarchy of the valuation techniques used to determine such fair value.

5. Party-in-Interest to the Plan

Section 3(14) of ERISA defines a party-in-interest to include, among others, fiduciaries or employees of the Plan, any person who provides services to the Plan, or an employer whose employees are covered by the Plan. The supplemental Schedule of Assets (Held at End of Year) identifies which of the investments held are party-in-interest investments. At December 31, 2023 and 2022, the total market value of these investments was \$599,115 and \$298,672 or approximately 97% and 99% of total net assets available for benefits, respectively.

6. Tax Status

The Plan has adopted a standardized form of a volume submitter plan. The volume submitter plan has received an opinion letter dated March 14, 2023 from the IRS as to the Plan's qualified status and has been relied upon by this Plan. The Plan Administrator believes the Plan is designed and is being operated in compliance with the applicable provisions of the Internal Revenue Code.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain tax position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan Administrator has analyzed the tax position taken by the Plan, and has concluded that as of December 31, 2023, there are no uncertain tax positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan is subject to income tax examinations for the 2022 through 2023 plan years.

7. Risks and Uncertainties

The Plan invests in a variety of investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for plan benefits.

8. Subsequent Events

The Plan Administrator has evaluated all events subsequent to the statement of net assets available for plan benefits date of December 31, 2023, through the date these financial statements were available for issuance, September 23, 2024, and has determined that there are no subsequent events that require disclosure.
