Independent Auditors' Report

To the Plan Participants and Plan Administrative Committee
The Travelers 401(k) Savings Plan:

Opinion

We have audited the financial statements of The Travelers 401(k) Savings Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statement of net assets available for benefits at December 31, 2023 and December 31, 2022, and the related statement of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets available for benefits of the Plan at December 31, 2023 and December 31, 2022, and the changes in its net assets available for benefits for the years then ended, in accordance with U.S. generally accepted accounting principles.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with U.S. generally accepted accounting principles, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not

a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control related matters that we identified during the audit.

Supplemental Schedule Required by ERISA

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of Schedule H, line 4i - Schedule of Assets (Held at End of Year) at December 31, 2023 is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedule is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

THE TRAVELERS 401(K) SAVINGS PLAN

NOTES TO FINANCIAL STATEMENTS

1. DESCRIPTION OF THE PLAN

The following brief description of The Travelers 401(k) Savings Plan (the Plan) is provided for general information purposes. Participants should refer to the Plan document and the summary plan description for a more complete description of the Plan's provisions.

General

The Travelers Companies, Inc. (TRV) sponsors a defined contribution plan (the Plan), for the benefit of TRV and participating subsidiary employers (collectively, the Company) to provide retirement and other benefits to eligible employees of the Company. The 401(k) Plan of a TRV subsidiary was merged into the Plan, effective January 1, 2023, but did not have a material impact on the Plan. TRV has appointed the Administrative Committee as the delegated authority for administrative matters involving the Plan and the Benefit Plans Investment Committee as the delegated authority for management and control of the assets of the Plan (including the designation of investment funds). Fidelity Management Trust Company (FMT) is the trustee for the trust maintained in connection with the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA).

Participation

All U.S. employees of participating companies, as defined by the Plan, are eligible to participate immediately upon employment, subject to limited exclusions.

Employee Contributions

Eligible employees who elect to participate in the Plan may contribute up to 75% of their eligible compensation (as defined by the Plan) into the Plan subject to the statutory limitation of \$22,500. A participant who is, or will be, age 50 or older by the end of the year could make additional catch-up contributions of up to \$7,500. Employee contributions can be made pre-tax, after-tax through the Roth 401(k) or a combination of both up to the applicable limit. Newly hired eligible employees are automatically enrolled at a 5% pre-tax contribution rate if they do not affirmatively make an election (i) not to participate; (ii) to participate at a different rate; or (iii) to contribute on an after-tax Roth 401(k) basis. Temporary status employees are eligible to participate in the Plan; however, they will not be automatically enrolled.

The Plan allows for rollover contributions to be made to the Plan by eligible participants. These rollover contributions are eligible distributions from employer plans or individual retirement accounts (excluding Roth IRAs) either by a direct rollover to the Plan or by a distribution followed by a contribution within sixty days of receipt.

Employer Contributions

The Company matches 100% of the Plan participant's contributions up to the first 5% of annual eligible pay, subject to a maximum annual match amount of \$7,500. In addition to participant contributions, the Paying It Forward Savings Program, provides an annual employer contribution based on student loan repayments made by eligible employees. This annual contribution will reduce the employer match so that the sum total of the two contributions does not exceed the lesser of 5% of compensation or \$7,500. The Company matching contribution and Paying It Forward contribution are made once a year and are invested according to the participant's current investment election for new contributions going into the Plan. Employer contributions totaling \$145,636,816 for plan year 2023 were made to the Plan in January 2024, and employer contributions totaling \$130,096,774 for plan year 2022 were made to the Plan in February 2023. Except for cases of retirement or termination due to reduction in force, disability or death, the matching contribution was made only for participants employed on the last working day of December.

The Plan also provides a supplemental contribution to certain eligible participants. The supplemental contribution amount for each eligible participant is fixed for each year the participant remains actively employed with the Company. Supplemental

THE TRAVELERS 401(K) SAVINGS PLAN

NOTES TO FINANCIAL STATEMENTS, Continued

1. DESCRIPTION OF THE PLAN, Continued

contributions totaling \$177,624 for plan year 2023 and \$201,239 for plan year 2022 were made to the Plan in January 2024 and January 2023, respectively.

Participant Accounts

Each participant's account is credited with the participant's contributions, employer contributions and allocations of Plan earnings as defined by the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Participants generally may elect to have their contributions invested in the funds listed in the Plan's provisions as they choose and may generally also transfer their balances daily among these funds. Limitations apply to investment of participant accounts in TRV stock as well as to direct exchanges from the Stable Value Fund to the Vanguard U.S. Treasury Money Market Fund. The TRV common stock fund is closed to new investments, with the exception of dividends. Participants are permitted to exchange balances out of the TRV common stock fund, but they cannot direct any new contributions to, or make an exchange into, this fund.

Vesting

Participants are 100% vested in their contributions, the supplemental contributions and related earnings. In general, participants are vested in their Company matching contributions, Paying It Forward annual contributions, and related earnings after three years of service. Participants also become vested in full if they reach age 62 while employed, terminate employment due to a disability, die prior to termination of employment or while in qualified military service, or upon termination of the Plan.

Forfeitures

Forfeitures are transferred to a forfeiture account, which is maintained for the benefit of the Plan as a whole and is not attributable to any given participant. The balance of the forfeiture account may be used to correct errors in the accounts of other participants, restore prior forfeitures, pay Plan administrative expenses or reduce matching contributions to the Plan, as directed by TRV. At December 31, 2023 and 2022, the forfeiture account totaled \$1,963,076 and \$1,571,837, respectively. Forfeitures used totaled \$2,324,934 and \$2,920,887 for 2023 and 2022, respectively.

Voting Rights

Each participant is entitled to exercise voting rights attributable to the shares of TRV stock allocated to their account and will be notified prior to the time that such rights are to be exercised. FMTC will vote shares for which no directions have been timely received, and shares not credited to any participant's account, in proportion to the vote cast by participants who have timely voted.

Notes Receivable from Participants

Participants may request to receive a loan from the Plan subject to a minimum of \$1,000 and a maximum of the lesser of 50% of the participant's vested account balance or \$50,000 minus the highest outstanding loan balance during the past 12 months. Participants can only have two loans outstanding at any one time. The interest rate is established at the inception of a new loan and is equal to the prime lending rate as reported by Reuters as of the last business day of the month prior to the month in which the loan originates, plus one percentage point. Generally, loans are repaid by payroll deduction over a maximum period of five years (twenty years if the loan is designated as a primary residence loan). A one-time set-up fee of \$35 per loan is charged against the participant's account. In addition, ongoing quarterly loan maintenance fees of \$3.75 per loan are charged against the participant's account for each calendar quarter in which a balance on such loan is outstanding. At December 31, 2023, there were 10,062 outstanding loans totaling \$94,324,598. At December 31, 2022, there were 9,587 outstanding loans totaling \$86,996,926.

THE TRAVELERS 401(K) SAVINGS PLAN

NOTES TO FINANCIAL STATEMENTS, Continued

1. DESCRIPTION OF THE PLAN, Continued

Distributions and Withdrawals

Participants or beneficiaries may receive distributions from vested accounts under the Plan upon termination of employment, retirement, or death. Distributions are made in the form of a lump-sum payment, or, if the vested account balance is greater than \$5,000, participants may elect to have distributions made in full, partial or periodic installments. If a participant's vested account balance following termination of employment is more than \$1,000, but not more than \$5,000, and the participant does not provide distribution instructions, the account will automatically be rolled over to a Fidelity IRA.

Participants are allowed to take in-service withdrawals from vested accounts after age 59½. Prior to that age, withdrawals are allowed from selected accounts in the event of a defined financial hardship to satisfy the financial need, reduced by prior withdrawals from the accounts. Withdrawals are also allowed for any reason from accounts funded by rollover contributions, as well as from certain after-tax accounts and predecessor accounts. The after-tax accounts relate to employee after-tax contributions (which are separate from Roth 401(k) contributions) made under the rules applicable to prior plans. The predecessor accounts eligible for early withdrawal are accounts that were established in various prior plans that require separate recordkeeping. Other special withdrawal rights may apply to certain specified accounts or with respect to certain specified participants or upon the occurrence of a qualified disaster.

In-service withdrawals from accounts holding Roth 401(k) contributions are generally allowed under the same circumstances as withdrawals from accounts holding pre-tax 401(k) contributions, but Roth 401(k) contributions are generally withdrawn last. The Plan also provides for an in-plan Roth conversion for amounts eligible for withdrawal (other than for hardship). An in-plan Roth conversion permits the participant to pay income tax on pre-tax amounts and convert them to Roth status.

A withdrawal or distribution can be in the form of cash, in the form of TRV common shares to the extent an account is invested in TRV common shares, or in kind in certain circumstances. Any hardship withdrawal prior to age 59½ is in the form of cash.

Fidelity BrokerageLink Investments Fees

The Fidelity BrokerageLink investment option allows a participant to establish a brokerage account with Fidelity, which provides the opportunity to select from thousands of mutual funds, stocks, bonds, certificates of deposit, U.S. Treasury securities, mortgage-backed securities and other financial instruments. While there are no BrokerageLink annual account fees charged to participants, the investment options available through BrokerageLink have associated fees.

Administrative Expenses

Administrative expenses of the Plan are paid by the participants of the Plan to the extent not paid by the Company and allowable by the Plan.

2. SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation

The accompanying Plan financial statements were prepared in conformity with U.S. generally accepted accounting principles (GAAP).

Plan investments, other than fully benefit-responsive investment contracts, are stated at fair value (see Note 3). Fully benefit-responsive investment contracts are valued at contract value, which is the relevant measurement attribute because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. Purchases and sales of all securities are recorded on a trade-date basis.

Notes receivable from participants are valued at their outstanding balances.

THE TRAVELERS 401(K) SAVINGS PLAN

NOTES TO FINANCIAL STATEMENTS, Continued

2. SIGNIFICANT ACCOUNTING POLICIES, Continued

Use of Estimates

The preparation of these financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates and assumptions.

Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, changes in the values of investment securities will occur in the near term that could materially affect participants' account balances and the amounts reported in the Statement of Net Assets Available for Benefits.

The Plan provides for investment in TRV's common stock fund; however, no new contributions (including Company match contributions) or investment transfers into the TRV common stock fund are allowed. Dividends paid on shares in participants' accounts invested in the TRV common stock fund continue to be reinvested in the TRV common stock fund, unless participants elect to receive dividends in cash. At December 31, 2023 and 2022, approximately 4% and 5%, respectively, of the Plan's total assets were invested in the common stock of TRV. The underlying value of the TRV common stock is entirely dependent upon the performance of the Company and the market's evaluation of such performance.

Income Recognition

Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) in fair value of investments includes gains and losses in investments sold during the year as well as appreciation and depreciation of the investments held at the end of the year.

Payment of Benefits

Benefit payments are recorded when paid.

3. FAIR VALUE MEASUREMENTS

The Plan's estimates of fair value for financial assets are based on the framework established in the fair value accounting guidance. The framework is based on the inputs used in valuation, gives the highest priority to quoted prices in active markets and requires that observable inputs be used in the valuations when available. The disclosure of fair value estimates in the fair value accounting guidance hierarchy is based on whether the significant inputs into the valuation are observable. In determining the level of the hierarchy in which the estimate is disclosed, the highest priority is given to unadjusted quoted prices in active markets and the lowest priority to unobservable inputs that reflect the Plan's significant market assumptions. The level in the fair value hierarchy within which the fair value measurement is reported is based on the lowest level input that is significant to the measurement in its entirety. The three levels of the hierarchy are as follows:

- Level 1 - Unadjusted quoted market prices for identical assets in active markets that the Plan has the ability to access.
- Level 2 - Quoted prices for similar assets in active markets; quoted prices for identical or similar assets in inactive markets; or valuations based on models where the significant inputs are observable (e.g., interest rates, yield curves, prepayment speeds, default rates, loss severities, etc.) or can be corroborated by observable market data.
- Level 3 - Valuations based on models where significant inputs are not observable. The unobservable inputs reflect the Plan's own assumptions about the inputs that market participants would use.

THE TRAVELERS 401(K) SAVINGS PLAN

NOTES TO FINANCIAL STATEMENTS, Continued

3. FAIR VALUE MEASUREMENTS, Continued

Valuation of Investments Reported at Fair Value in Financial Statements

The fair value of a financial instrument is the estimated amount at which the instrument could be exchanged in an orderly transaction between knowledgeable, unrelated, willing parties, i.e., not in a forced transaction. The estimated fair value of a financial instrument may differ from the amount that could be realized if the security was sold in an immediate sale, e.g., a forced transaction. Additionally, the valuation of investments is more subjective when markets are less liquid due to the lack of market based inputs, which may increase the potential that the estimated fair value of an investment is not reflective of the price at which an actual transaction would occur.

For investments that have quoted market prices in active markets, the Plan uses the unadjusted quoted market prices as fair value and includes these prices in the amounts disclosed in Level 1 of the hierarchy. The Plan receives the quoted market prices from third party, nationally recognized pricing services. When quoted market prices are unavailable, the Plan utilizes these pricing services to determine an estimate of fair value. The fair value estimates provided from these pricing services are included in the amount disclosed in Level 2 of the hierarchy. If quoted market prices and an estimate from a pricing service are unavailable, the Plan produces an estimate of fair value based on internally developed valuation techniques, which, depending on the level of observable market inputs, will render the fair value estimate as Level 2 or Level 3. Where applicable, the Plan bases its estimates of fair value for assets on the bid price as it represents what a third-party market participant would be willing to pay in an arm's length transaction.

Plan investments (excluding fully benefit-responsive investment contracts) are stated at fair value as of December 31, 2023 and 2022, except for short-term money-market investments that are valued at cost plus accrued interest, which approximates their fair value and are included in Level 1.

Mutual funds are valued at their quoted net asset value. The Plan receives prices daily at the close of trading from a nationally recognized pricing service that are based on observable market transactions and includes these estimates in the amount disclosed in Level 1.

The unit interests in the collective/common trust funds are valued at the net asset value per unit, which is the basis for current transactions and is published by the sponsor of the collective/common trust funds. The Plan reports the net asset value of these unit interests in Level 2.

Common stocks traded on national securities exchanges are valued at their closing market prices and are included in Level 1.

For the majority of Fidelity BrokerageLink investments, the Plan receives prices from a nationally recognized pricing service that are based on observable market transactions and includes these estimates in the amount disclosed in Level 1 (common stock, mutual funds, preferred stock, and government bonds). When current market quotes in active markets are unavailable for certain equities, the Plan receives an estimate of fair value from the external pricing service. The Plan includes the fair value estimate for these equities in Level 2. The fair value of the certificates of deposit is estimated using the external pricing service, and is disclosed in Level 2. The fair value of the corporate bonds is provided by the external pricing service, and is disclosed in Level 2 since significant inputs are market observable.

The following tables present the level within the fair value hierarchy at which the Plan's financial assets are measured on a recurring basis (in thousands).

4. FULLY BENEFIT-RESPONSIVE INVESTMENT CONTRACTS WITH FINANCIAL INSTITUTIONS

The Plan's Stable Value Fund (the Fund) is composed primarily of Synthetic Guaranteed Investment Contracts (GICs).

Synthetic GICs. A Synthetic GIC is an investment contract issued by an insurance company or other financial institution, also known as a wrap contract, backed by a portfolio of bonds or other fixed income securities that are owned by the Fund. The assets underlying the contract are maintained separate from the issuer's general assets, usually by the Fund's trustee or a third party custodian. The contracts are obligated to provide an interest rate not less than zero.

4. FULLY BENEFIT-RESPONSIVE INVESTMENT CONTRACTS WITH FINANCIAL INSTITUTIONS, Continued

The assets underlying the contracts consist of commingled funds sponsored by Goldman Sachs Asset Management (GSAM), Loomis Sayles, or IR+M.. The contract value of the Synthetic GICs at December 31, 2023 and 2022 was \$652,840,375 and \$764,184,531, respectively.

Primary variables impacting future crediting rates of the Synthetic GICs include current yield of the assets within the contract, duration of the assets covered by the contract, and existing difference between the fair value and contract value of the assets within the contract. Synthetic GICs are designed to reset the respective crediting rate, typically on a monthly basis. These contracts provide that realized and unrealized gains and losses on the underlying assets are not reflected immediately in the assets of the Fund, but rather are amortized, over the duration of the underlying assets or other agreed upon period, through adjustments to the future interest crediting rates. The issuer guarantees that all qualified participant withdrawals will occur at contract value, which represents contributions made under the contract, plus credited interest, less withdrawals made under the contract and administrative expenses.

Events Limiting Ability to Receive Contract Value. Certain events limit the ability of the Plan to transact at contract value with the issuer. While the events may differ from contract to contract, the events typically include: (i) amendments to the Plan documents; (ii) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions; (iii) complete or partial termination of the Plan or its merger with another plan; (iv) the failure of the Plan or its trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA; (v) unless made in accordance with the withdrawal provisions of the Plan, the withdrawal from the wrap contract at the direction of TRV, including withdrawals due to the removal of a specifically identifiable group of employees from coverage under the Plan (such as a group layoff or early retirement incentive program), or the closing or sale of a subsidiary, employing unit or affiliate, the bankruptcy or insolvency of the Company, or the Company's establishment of another tax qualified defined contribution plan; (vi) the establishment of an employee benefit plan in which Plan participants are eligible to participate; (vii) any change in law, regulation, ruling, administrative or judicial position or accounting requirement, in any case applicable to the Plan or Fund; (viii) the delivery of any communication to Plan participants designed to influence a participant not to invest in the Fund; or, (ix) if it is no longer permissible to account for one or more benefit-responsive agreements held in the Fund on a contract value basis under certain circumstances. At this time, the Company does not believe that the occurrence of any events, such as those described above, which would limit the Plan's ability to transact at contract value with participants, is probable.

Contract Termination. Synthetic GIC wrap contracts generally are evergreen contracts that permit termination upon notice at any time, and provide for automatic termination if the contract value or the fair value of the underlying assets equals zero. If the fair value equals zero, the issuer of the wrap contract is obligated to pay the difference between the fair value and the contract value.

If the Fund defaults in its obligations under the contract and the default is not cured within a cure period, the issuer may terminate the contract and the Fund will retain the fair value of the underlying assets as of the date of termination. The Synthetic GICs generally permit the issuer or investment manager to convert the wrapped portfolio to a declining duration strategy, in which case the contract would terminate at a date that corresponds to the duration of the underlying fixed income portfolio on the date of an amortization election (Amortization Election). After the effective date of an Amortization Election, the fixed income portfolio must conform to the guidelines agreed upon by the issuer and the investment manager for the Amortization Election period. Such guidelines are intended to result in the fair value equaling or exceeding the contract value of the wrapped portfolio by such termination date. The Fund may make an Amortization Election if the contract permits the issuer to terminate at fair value, the issuer terminates the contract, and the contract provides for such an Amortization Election.

The Synthetic GICs are placed with financial institutions that have been approved by GSAM Stable Value, LLC's credit review process. Currently, the Stable Value Fund's wrap contract issuers have a Standard & Poor's credit rating of A+ or equivalent or higher. Additionally, a minimum Standard & Poor's average credit rating of AA- or equivalent is required at purchase for the issuers of the underlying fixed income investments.

5. PARTY-IN-INTEREST TRANSACTIONS

Transactions resulting in Plan assets being transferred to or used by a related party are prohibited under ERISA unless a specific exemption applies. The following transactions with related parties are specifically exempted from the “prohibited transactions” provisions of ERISA and the Internal Revenue Code:

- The Plan invests in funds managed by an affiliate of FMTC, a party-in-interest as defined by ERISA as a result of being trustee of the Plan.
- The Plan also engages in transactions involving the acquisition or disposition of common stock of TRV, a party-in-interest with respect to the Plan. Acquisitions are limited to dividends paid on shares in participant accounts invested in the TRV common stock fund for which the participant has not elected to receive dividends in cash.

6. PLAN TERMINATION

Although it has not expressed any intent to do so, TRV has the right under the Plan to terminate the Plan subject to the provisions of ERISA. Upon such termination, the Plan administrator may direct the Plan trustee to distribute participant account balances. Upon termination of the Plan, participant account balances would vest in full.

7. TAX STATUS

The Internal Revenue Service has determined and informed the Company by a letter dated August 24, 2017 that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code. The Plan has been amended since receiving the determination letter, and the Company believes that the amended Plan is currently designed and being operated in compliance with the applicable sections of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Plan’s financial statements. At December 31, 2023 and 2022, the Plan had no uncertain tax positions.

8. SUBSEQUENT EVENTS

There were no subsequent events requiring adjustment to the financial statements or disclosure through June 18, 2024, the date that the Plan’s financial statements were available to be issued.
