Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Part II Beginning of Year Carryover and Prefunding Balances

	(a) Carryover balance	(b) Prefunding balance
7 Balance at beginning of prior year after applicable adjustments (line 13 from prior year)	0	8901269
8 Portion elected for use to offset prior year's funding requirement (line 35 from prior year)	0	0
9 Amount remaining (line 7 minus line 8)	0	8901269
10 Interest on line 9 using prior year's actual return of <u>-17.09</u> %	0	-1521227
11 Prior year's excess contributions to be added to prefunding balance:		
a Present value of excess contributions (line 38a from prior year)		2737950
b(1) Interest on the excess, if any, of line 38a over line 38b from prior year Schedule SB, using prior year's effective interest rate of <u>5.58</u> %		152778
b(2) Interest on line 38b from prior year Schedule SB, using prior year's actual return		0
c Total available at beginning of current plan year to add to prefunding balance		2890728
d Portion of (c) to be added to prefunding balance		400000
12 Other reductions in balances due to elections or deemed elections	0	2400000
13 Balance at beginning of current year (line 9 + line 10 + line 11d – line 12)	0	5380042

Part III Funding Percentages

14 Funding target attainment percentage	14	112.16 %
15 Adjusted funding target attainment percentage	15	126.87 %
16 Prior year's funding percentage for purposes of determining whether carryover/prefunding balances may be used to reduce current year's funding requirement	16	114.66 %
17 If the current value of the assets of the plan is less than 70 percent of the funding target, enter such percentage	17	%

Part IV Contributions and Liquidity Shortfalls**18** Contributions made to the plan for the plan year by employer(s) and employees:

(a) Date (MM-DD-YYYY)	(b) Amount paid by employer(s)	(c) Amount paid by employees	(a) Date (MM-DD-YYYY)	(b) Amount paid by employer(s)	(c) Amount paid by employees
07/24/2024	3000000	0			
Totals ▶			18(b)	3000000	18(c) 0

19 Discounted employer contributions – see instructions for small plan with a valuation date after the beginning of the year:

a Contributions allocated toward unpaid minimum required contributions from prior years.	19a	0
b Contributions made to avoid restrictions adjusted to valuation date	19b	0
c Contributions allocated toward minimum required contribution for current year adjusted to valuation date	19c	2762719

20 Quarterly contributions and liquidity shortfalls:

- a** Did the plan have a "funding shortfall" for the prior year? ☐ Yes ☒ No
- b** If line 20a is "Yes," were required quarterly installments for the current year made in a timely manner? ☐ Yes ☐ No
- c** If line 20a is "Yes," see instructions and complete the following table as applicable:

Liquidity shortfall as of end of quarter of this plan year			
(1) 1st	(2) 2nd	(3) 3rd	(4) 4th

Part V	Assumptions Used to Determine Funding Target and Target Normal Cost
---------------	--

21 Discount rate:

SCHEDULE H (Form 5500) Department of the Treasury Internal Revenue Service Department of Labor Employee Benefits Security Administration Pension Benefit Guaranty Corporation	Financial Information This schedule is required to be filed under section 104 of the Employee Retirement Income Security Act of 1974 (ERISA), and section 6058(a) of the Internal Revenue Code (the Code). ▶ File as an attachment to Form 5500.	OMB No. 1210-0110
		2023
		This Form is Open to Public Inspection

For calendar plan year 2023 or fiscal plan year beginning 01/01/2023 and ending 12/31/2023		
A Name of plan SUNDSTRAND DE PUERTO RICO PENSION PLAN	B Three-digit plan number (PN) ▶	038
C Plan sponsor's name as shown on line 2a of Form 5500 RTX CORPORATION	D Employer Identification Number (EIN) 06-0570975	

Part I	Asset and Liability Statement
---------------	--------------------------------------

1 Current value of plan assets and liabilities at the beginning and end of the plan year. Combine the value of plan assets held in more than one trust. Report the value of the plan's interest in a commingled fund containing the assets of more than one plan on a line-by-line basis unless the value is reportable on lines 1c(9) through 1c(14). Do not enter the value of that portion of an insurance contract which guarantees, during this plan year, to pay a specific dollar benefit at a future date. **Round off amounts to the nearest dollar.** MTIAs, CCTs, PSAs, and 103-12 IEs do not complete lines 1b(1), 1b(2), 1c(8), 1g, 1h, and 1i. CCTs, PSAs, and 103-12 IEs also do not complete lines 1d and 1e. See instructions.

Assets		(a) Beginning of Year	(b) End of Year
a Total noninterest-bearing cash	1a		
b Receivables (less allowance for doubtful accounts):			
(1) Employer contributions	1b(1)	3000000	3000000
(2) Participant contributions	1b(2)		
(3) Other	1b(3)	149971	0
c General investments:			
(1) Interest-bearing cash (include money market accounts & certificates of deposit)	1c(1)		
(2) U.S. Government securities	1c(2)		
(3) Corporate debt instruments (other than employer securities):			
(A) Preferred	1c(3)(A)		
(B) All other	1c(3)(B)		
(4) Corporate stocks (other than employer securities):			
(A) Preferred	1c(4)(A)		
(B) Common	1c(4)(B)		
(5) Partnership/joint venture interests	1c(5)		
(6) Real estate (other than employer real property)	1c(6)		
(7) Loans (other than to participants)	1c(7)		
(8) Participant loans	1c(8)		
(9) Value of interest in common/collective trusts	1c(9)		
(10) Value of interest in pooled separate accounts	1c(10)		
(11) Value of interest in master trust investment accounts	1c(11)	39513678	44763499
(12) Value of interest in 103-12 investment entities	1c(12)		
(13) Value of interest in registered investment companies (e.g., mutual funds)	1c(13)		
(14) Value of funds held in insurance company general account (unallocated contracts)	1c(14)		
(15) Other	1c(15)		

1d Employer-related investments:		(a) Beginning of Year	(b) End of Year
(1) Employer securities	1d(1)		
(2) Employer real property	1d(2)		
e Buildings and other property used in plan operation	1e		
f Total assets (add all amounts in lines 1a through 1e)	1f	42663649	47763499
Liabilities			
g Benefit claims payable	1g		
h Operating payables	1h		
i Acquisition indebtedness	1i		
j Other liabilities	1j		
k Total liabilities (add all amounts in lines 1g through 1j)	1k	0	0
Net Assets			
l Net assets (subtract line 1k from line 1f)	1l	42663649	47763499

Part II Income and Expense Statement

2 Plan income, expenses, and changes in net assets for the year. Include all income and expenses of the plan, including any trust(s) or separately maintained fund(s) and any payments/receipts to/from insurance carriers. Round off amounts to the nearest dollar. MTIAs, CCTs, PSAs, and 103-12 IEs do not complete lines 2a, 2b(1)(E), 2e, 2f, and 2g.

Income		(a) Amount	(b) Total
a Contributions:			
(1) Received or receivable in cash from: (A) Employers	2a(1)(A)	3000000	
(B) Participants	2a(1)(B)		
(C) Others (including rollovers)	2a(1)(C)		
(2) Noncash contributions	2a(2)		
(3) Total contributions. Add lines 2a(1)(A) , (B) , (C) , and line 2a(2)	2a(3)		3000000
b Earnings on investments:			
(1) Interest:			
(A) Interest-bearing cash (including money market accounts and certificates of deposit)	2b(1)(A)		
(B) U.S. Government securities	2b(1)(B)		
(C) Corporate debt instruments	2b(1)(C)		
(D) Loans (other than to participants)	2b(1)(D)		
(E) Participant loans	2b(1)(E)		
(F) Other	2b(1)(F)		
(G) Total interest. Add lines 2b(1)(A) through (F)	2b(1)(G)		0
(2) Dividends: (A) Preferred stock	2b(2)(A)		
(B) Common stock	2b(2)(B)		
(C) Registered investment company shares (e.g. mutual funds)	2b(2)(C)		
(D) Total dividends. Add lines 2b(2)(A) , (B) , and (C)	2b(2)(D)		0
(3) Rents	2b(3)		
(4) Net gain (loss) on sale of assets: (A) Aggregate proceeds	2b(4)(A)		
(B) Aggregate carrying amount (see instructions)	2b(4)(B)		
(C) Subtract line 2b(4)(B) from line 2b(4)(A) and enter result	2b(4)(C)		
(5) Unrealized appreciation (depreciation) of assets: (A) Real estate	2b(5)(A)		
(B) Other	2b(5)(B)		
(C) Total unrealized appreciation of assets. Add lines 2b(5)(A) and (B)	2b(5)(C)		

		(a) Amount	(b) Total
(6) Net investment gain (loss) from common/collective trusts.....	2b(6)		
(7) Net investment gain (loss) from pooled separate accounts.....	2b(7)		
(8) Net investment gain (loss) from master trust investment accounts.....	2b(8)		3706258
(9) Net investment gain (loss) from 103-12 investment entities.....	2b(9)		
(10) Net investment gain (loss) from registered investment companies (e.g., mutual funds)	2b(10)		
c Other income	2c		
d Total income. Add all income amounts in column (b) and enter total	2d		6706258

Expenses

e Benefit payment and payments to provide benefits:			
(1) Directly to participants or beneficiaries, including direct rollovers	2e(1)	923027	
(2) To insurance carriers for the provision of benefits.....	2e(2)		
(3) Other	2e(3)		
(4) Total benefit payments. Add lines 2e(1) through (3)	2e(4)		923027
f Corrective distributions (see instructions)	2f		
g Certain deemed distributions of participant loans (see instructions)	2g		
h Interest expense	2h		
i Administrative expenses:			
(1) Salaries and allowances	2i(1)		
(2) Contract administrator fees.....	2i(2)	49507	
(3) Recordkeeping fees.....	2i(3)	7854	
(4) IQPA audit fees.....	2i(4)	125000	
(5) Investment advisory and investment management fees	2i(5)		
(6) Bank or trust company trustee/custodial fees	2i(6)	5426	
(7) Actuarial fees	2i(7)		
(8) Legal fees	2i(8)		
(9) Valuation/appraisal fees	2i(9)		
(10) Other trustee fees and expenses	2i(10)		
(11) Other expenses	2i(11)	495594	
(12) Total administrative expenses. Add lines 2i(1) through (11)	2i(12)		683381
j Total expenses. Add all expense amounts in column (b) and enter total	2j		1606408

Net Income and Reconciliation

k Net income (loss). Subtract line 2j from line 2d	2k		5099850
l Transfers of assets:			
(1) To this plan	2l(1)		
(2) From this plan	2l(2)		

Part III Accountant's Opinion

3 Complete lines 3a through 3c if the opinion of an independent qualified public accountant is attached to this Form 5500. Complete line 3d if an opinion is not attached.

a The attached opinion of an independent qualified public accountant for this plan is (see instructions):

(1) ☒ Unmodified (2) ☐ Qualified (3) ☐ Disclaimer (4) ☐ Adverse

b Check the appropriate box(es) to indicate whether the IQPA performed an ERISA section 103(a)(3)(C) audit. Check both boxes (1) and (2) if the audit was performed pursuant to both 29 CFR 2520.103-8 and 29 CFR 2520.103-12(d). Check box (3) if pursuant to neither.

(1) ☐ DOL Regulation 2520.103-8 (2) ☐ DOL Regulation 2520.103-12(d) (3) ☒ neither DOL Regulation 2520.103-8 nor DOL Regulation 2520.103-12(d).

c Enter the name and EIN of the accountant (or accounting firm) below:

(1) Name: **PRICEWATERHOUSECOOPERS**

(2) EIN: **13-4008324**

d The opinion of an independent qualified public accountant is **not attached** as part of Schedule H because:

(1) ☐ This form is filed for a CCT, PSA, DCG or MTIA. (2) ☐ It will be attached to the next Form 5500 pursuant to 29 CFR 2520.104-50.

Part IV Compliance Questions

4 CCTs and PSAs do not complete Part IV. MTIAs, 103-12 IEs, and GIAs do not complete lines 4a, 4e, 4f, 4g, 4h, 4k, 4m, 4n, or 5. 103-12 IEs also do not complete lines 4j and 4l. MTIAs also do not complete line 4l. DCGs do not complete lines 4e, 4f, 4k, 4l, and 5, and DCGs generally complete the rest of Part IV collectively for all plans in the DCG, except as otherwise provided (see instructions).

During the plan year:

	Yes	No	Amount
a Was there a failure to transmit to the plan any participant contributions within the time period described in 29 CFR 2510.3-102? Continue to answer "Yes" for any prior year failures until fully corrected. (See instructions and DOL's Voluntary Fiduciary Correction Program.)		☒	
b Were any loans by the plan or fixed income obligations due the plan in default as of the close of the plan year or classified during the year as uncollectible? Disregard participant loans secured by participant's account balance. (Attach Schedule G (Form 5500) Part I if "Yes" is checked.)		☒	
c Were any leases to which the plan was a party in default or classified during the year as uncollectible? (Attach Schedule G (Form 5500) Part II if "Yes" is checked.)		☒	
d Were there any nonexempt transactions with any party-in-interest? (Do not include transactions reported on line 4a. Attach Schedule G (Form 5500) Part III if "Yes" is checked.)		☒	
e Was this plan covered by a fidelity bond?	☒		90000000
f Did the plan have a loss, whether or not reimbursed by the plan's fidelity bond, that was caused by fraud or dishonesty?		☒	
g Did the plan hold any assets whose current value was neither readily determinable on an established market nor set by an independent third party appraiser?		☒	
h Did the plan receive any noncash contributions whose value was neither readily determinable on an established market nor set by an independent third party appraiser?		☒	
i Did the plan have assets held for investment? (Attach schedule(s) of assets if "Yes" is checked, and see instructions for format requirements.)		☒	
j Were any plan transactions or series of transactions in excess of 5% of the current value of plan assets? (Attach schedule of transactions if "Yes" is checked and see instructions for format requirements.)		☒	
k Were all the plan assets either distributed to participants or beneficiaries, transferred to another plan, or brought under the control of the PBGC?		☒	
l Has the plan failed to provide any benefit when due under the plan?		☒	
m If this is an individual account plan, was there a blackout period? (See instructions and 29 CFR 2520.101-3.)		☒	
n If 4m was answered "Yes," check the "Yes" box if you either provided the required notice or one of the exceptions to providing the notice applied under 29 CFR 2520.101-3.			

5a Has a resolution to terminate the plan been adopted during the plan year or any prior plan year? ☐ Yes ☒ No
If "Yes," enter the amount of any plan assets that reverted to the employer this year _____.

5b If, during this plan year, any assets or liabilities were transferred from this plan to another plan(s), identify the plan(s) to which assets or liabilities were transferred. (See instructions.)

5b(1) Name of plan(s)	5b(2) EIN(s)	5b(3) PN(s)

5c Was the plan a defined benefit plan covered under the PBGC insurance program at any time during this plan year? (See ERISA section 4021 and instructions.) ☒ Yes ☐ No ☐ Not determined

If "Yes" is checked, enter the My PAA confirmation number from the PBGC premium filing for this plan year 516964.

Financial Statements	
Statements of Net Assets Available for Benefits as of December 31, 2023 and 2022.....	3
Statements of Changes in Net Assets Available for Benefits for the Years Ended December 31, 2023 and 2022	4
Notes to Financial Statements as of December 31, 2023 and 2022	5-22

The supplemental schedules to the Plan's Form 5500 are not required since the Plan's assets are held in a Master Trust. Accordingly, the Plan Administrator must file detailed financial information for the Master Trust, including the supplemental schedules, separately with the Department of Labor.

Report of Independent Auditors

To the Administrator of Sundstrand de Puerto Rico Pension Plan

Opinion

We have audited the accompanying financial statements of Sundstrand de Puerto Rico Pension Plan (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets available for benefits as of December 31, 2023 and 2022, and the related statements of changes in net assets available for benefits for the years then ended, including the related notes (collectively referred to as the "financial statements").

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2023 and 2022, and the changes in its net assets available for benefits for the years then ended, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (US GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with US GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with US GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Sundstrand de Puerto Rico Pension Plan

Notes to Financial Statements

As of December 31, 2023 and 2022

1. Plan Description

The following description of the Sundstrand de Puerto Rico Pension Plan (the “Plan”) is for general information purposes only. Participants should refer to the Summary Plan Description or the Plan Document for a complete description of the Plan’s provisions.

General

The Plan is a noncontributory defined benefit pension plan and covers all Sundstrand de Puerto Rico, Inc. nonexempt employees. Employees are eligible to participate on their first day of service.

Investments of the Plan are held in the RTX Master Retirement Trust (“Master Trust”).

The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”). The Plan Administrator of the Plan (for purposes of Section 3(16) of ERISA) is RTX Corporation (“RTX” or “the Company”), and the Plan is administered by the RTX Corporation’s Pension Administration and Investment Committee (“PAIC”), which operates pursuant to a vote of the RTX Board of Directors.

Benefits, Eligibility and Vesting

Under the terms of the Plan, participants do not become vested until completing five years of service. At that time, a participant becomes 100% vested. There is no partial vesting of benefits. Participants are eligible for pension benefits upon retirement. Generally, participants are eligible for retirement at age 65. Employees may elect to receive their pension benefits in the form of a joint and survivor annuity or other actuarially equivalent form of payment. Eligible employees are entitled to monthly pension benefits based on a percentage of compensation (as defined) for each plan year but not less than \$96 multiplied by the years of credited service.

At retirement, eligible participants may elect to receive early retirement benefits, reduced in a manner set forth in the plan document, based upon age and service at termination.

If a vested participant dies before receiving a retirement benefit and has completed 10 years of service, a 55% contingent annuity benefit is payable immediately, reduced in a manner set forth in the plan document based upon age at death. If a vested participant dies before receiving a retirement benefit and is married but has not completed 10 years of service, a 55% spouse’s benefit is payable and payment commences when the participant would have attained age 60, reduced in a manner set forth in the plan document based upon age at death.

If, upon termination, the present value of the pension benefit as of the participant’s normal retirement age is equal to or less than \$5,000, the vested portion of the benefit will be transferred to an IRA account if the participant does not elect otherwise.

Contributions

The Company makes contributions to the Plan to ensure assets are sufficient to pay the benefits of the Plan. The Plan does not permit contributions by participants.

2. Summary of Significant Accounting Policies

Basis of Presentation

The accompanying financial statements are prepared on the accrual basis of accounting.

Investment Valuation and Income Recognition

The Plan’s interest in the Master Trust is stated at fair value. Net investment income (loss) from the Master Trust is allocated proportionately on a monthly basis based on the Plan’s interest in the Master Trust. See Note 5 for additional information.

Sundstrand de Puerto Rico Pension Plan

Notes to Financial Statements

As of December 31, 2023 and 2022

Contributions

Employer contributions are funded and recorded as determined by actuarial computation. See Note 4 for additional information.

Benefit Payments

Benefit payments to participants are recorded when paid.

Administrative Expenses

All expenses of the Plan, which primarily consist of professional and administrative fees, are paid by the Plan. Expenses specifically related to the Plan are included in the Statements of Changes in Net Assets Available for Benefits under "Administrative expenses." Additionally, expenses paid directly by the Master Trust, which primarily consist of investment management and performance fees, are allocated proportionally on a monthly basis based on the Plan's interest in the Master Trust and are included in the Statements of Changes in Net Assets Available for Benefits under "Master Trust investment income or loss."

Use of Estimates

The Plan's financial statements have been prepared in conformity with U.S. Generally Accepted Accounting Principles ("GAAP"). This requires the Plan Administrator to make significant estimates and assumptions that affect the reported amounts of net assets available for benefits at the date of the financial statements, the actuarial present value of accumulated plan benefits as of the benefit information date, the changes in net assets available for benefits during the reporting period, and, when applicable, the disclosures of contingent assets and liabilities at the date of the financial statements. Actual results could differ from the estimates included in the financial statements.

3. Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those future periodic payments, including lump-sum distributions, that are attributable, under the Plan's provisions, to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, and (b) beneficiaries of deceased employees, and (c) present employees or their beneficiaries. Benefits under the plan are accumulated based on employees' compensation during each year of credited service. The accumulated plan benefits for active employees will equal the accumulation, with interest, of the annual benefit accruals as of the benefit information date. Benefits payable under all circumstances (such as retirement, death, disability, and termination of employment) are included to the extent that they are deemed attributable to employee service rendered to the valuation date.

The actuarial present value of accumulated plan benefits is determined by the Company's consulting actuary and is the amount which results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for retirement, death, disability, or withdrawal) between the valuation and the expected date of payment.

The significant actuarial assumptions used in the valuation as of December 31, 2022 and 2021, are as follows:

Discount rate	As of December 31, 2022: 5.70% As of December 31, 2021: 3.20%
Mortality basis	As of December 31, 2022 and 2021: Pri-2012, mixed collar adjustments with 5% decrease in rates; MP-2021 generational projection applied

Sundstrand de Puerto Rico Pension Plan

Notes to Financial Statements

As of December 31, 2023 and 2022

from 2012. Separate contingent mortality election following death of retiree.

Retirement

Various rates, varying by age from 60 to 70

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. If the Plan were to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

Assumption Changes

The changes in actuarial assumptions since the prior valuation of the Plan are as follows:

- The discount rate was changed from 3.20% to 5.70% to reflect updated market conditions.

As of December 31, 2022, the most recent valuation date, the actuarial present value of accumulated plan benefits is as follows:

Vested Benefits	
Active participants	\$ 18,985,992
Participants with deferred benefits	4,794,247
Participants receiving benefits	<u>10,344,184</u>
Total vested benefits	34,124,423
Nonvested benefits	<u>1,532,161</u>
Total actuarial present value of accumulated plan benefits	<u>\$ 35,656,584</u>

The following is an analysis of changes in the present value of accumulated benefits:

Actuarial present value of accumulated plan benefits as of December 31, 2021	\$ 50,583,551
Benefits accumulated	2,695,926
Actuarial (gains)/losses	676,817
Decrease in discount period	1,688,667
Benefits paid	(1,025,345)
Change in actuarial assumptions	<u>(18,963,032)</u>
Actuarial present value of accumulated plan benefits as of December 31, 2022	<u>\$ 35,656,584</u>

4. Funding Policy

The employer's contributions are actuarially determined and generally fund any existing unfunded liability on account of qualified service prior to the valuation date in accordance with the amortization schedules prescribed by ERISA minimum funding requirements (as amended by the Pension Protection Act of 2006). At the Company's discretion, and to the extent allowable under maximum tax deductibility regulations, contributions above the ERISA minimum funding requirements may be made to the Plan. Contributions for the years ended December 31, 2023 and 2022, met the minimum funding requirements of ERISA.

Sundstrand de Puerto Rico Pension Plan

Notes to Financial Statements

As of December 31, 2023 and 2022

5. Master Trust

Summary Financial Information

The Plan's assets are held in the Master Trust, which was established for the investment of assets of the Plan and several other retirement plans sponsored by the Company or its affiliates. The PAIC regularly reviews the asset allocation and performance of the investments held in the Master Trust. The assets of the Master Trust are held by The Bank of New York Mellon ("BNY Mellon" or "Trustee").

The investment policy applicable to the Plan, as approved by the PAIC, permits asset diversification to include a combination of cash and cash equivalents, fixed-income securities, publicly traded U.S. and international equity securities, private equity and private real estate funds, and other investments such as commingled funds, real estate, insurance contracts and derivatives. Participating plans receive units of participation in the Master Trust based on their contributions to the Master Trust.

Investment securities are exposed to various risks, such as interest rate, market, currency, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the value of investment securities will occur and such changes could materially affect the amounts reported in the Plan's Statements of Net Assets Available for Benefits.

Sundstrand de Puerto Rico Pension Plan
Notes to Financial Statements
As of December 31, 2023 and 2022

The following table includes the Statements of Net Assets for the Master Trust, along with the Plan's interest in the Master Trust, as of December 31, 2023.

	Master Trust Balances	Plan's Interest in Master Trust Balances
Assets

Fair Value Measurements

The accounting standard for fair value measurements provides a framework for measuring fair value and requires expanded disclosures regarding fair value measurements. Fair value is defined as the price that would be received for an asset or the exit price that would be paid to transfer a liability in the principal or most advantageous market in an orderly transaction between market participants on the measurement date. The accounting standard established a fair value hierarchy which requires an entity to maximize the use of observable inputs, where available. The following summarizes the three levels of inputs required:

- Level 1:** Unadjusted quoted prices in active markets for identical assets or liabilities.
- Level 2:** Observable inputs, other than Level 1 prices, such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs which are observable or have been corroborated by observable market data for substantially the full term of the related assets or liabilities.
- Level 3:** Unobservable inputs supported by little or no market activity that are significant to the fair value of the assets or liabilities.

A financial instrument's level within the fair value hierarchy is based on the lowest level of input that is significant to the fair value measurement. Certain investments that are measured at fair value using the net asset value per share (or its equivalent) as a practical expedient have not been classified in the fair value hierarchy. See valuation policy section for further information.

The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another.

Total liabilities in fair value hierarchy	\$ 95,682,443	\$ -	\$ -	\$ -	\$ 95,682,443

(1) In accordance with Accounting Standards Codification ("ASC") Subtopic 820-10, certain investments that are measured at fair value using the net asset value per share (or its equivalent) as a practical expedient have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the amounts presented in the Statement of Net Assets for the Master Trust.

(2) Commingled funds include investments in funds, of which 4% have daily redemption terms, 93% have monthly to bi-annual redemption terms, and 3% have redemption terms only on specified dates. There were no Commingled funds with a lockup period greater than one year, and approximately 23% of Commingled funds could be subject to gating provisions as of December 31, 2022. There were no unfunded commitments to Commingled funds as of December 31, 2022.

(3) Private equity and private real estate funds include investments in funds which can never be redeemed during the life of the funds. The remaining life of Private equity and private real estate funds range from 0 to 12 years. There were \$2,687 million unfunded commitments to Private equity and private real estate funds as of December 31, 2022.

Level 3 Investments

For the years ended December 31, 2023 and December 31, 2022, there were no material transfers in or out of Level 3 for the Master Trust.

The following tables represents the Master Trust's Level 3 financial instruments as of December 31, 2023 and December 31, 2022, the valuation techniques used to measure the fair value of those financial instruments, and the significant unobservable inputs and the ranges of the values for those inputs.

Sundstrand de Puerto Rico Pension Plan

Notes to Financial Statements

As of December 31, 2023 and 2022

As of December 31, 2023:

Level 3 Investment	Fair Value	Principal Valuation Technique	Significant Unobservable Inputs	Range of Significant Input Values
Real estate	\$1,465,955,795	Discounted Cash Flow Analysis	Discount Rate Exit Cap Rate	6.5% - 10.5% 5.0% - 8.5%

As of December 31, 2022:

Level 3 Investment	Fair Value	Principal Valuation Technique	Significant Unobservable Inputs	Range of Significant Input Values
Real estate	\$1,649,517,050	Discounted Cash Flow Analysis	Discount Rate Exit Cap Rate	6.0% - 11.0% 5.0% - 7.4%

In estimating fair value of the investments in Level 3, the Plan Administrator may use third-party pricing sources. In substantiating the reasonableness of the pricing data provided by third-parties, the Plan Administrator evaluates a variety of factors including review of methods and assumptions used by external sources, recently executed transactions, existing contracts, economic conditions, industry and market developments, and overall credit ratings.

Valuation Policy

The Plan's interest in the Master Trust is stated at fair value. The Trustee values the Master Trust investments as follows:

Cash and cash equivalents, which includes a short-term investment fund, are valued at amortized cost, which approximates fair value. The short-term investment fund is not valued using a quoted price in an active market and is therefore classified as a Level 2 investment in the fair value hierarchy.

Investments in fixed income securities (U.S. Government, domestic and foreign bonds, asset backed securities, and term loans) are valued by a pricing service which determines valuations for normal institutional-size trading units of such securities using methods based upon market transactions for comparable securities and various relationships between securities which are generally recognized by institutional traders, or at fair value as determined in good faith by the Trustee of the Master Trust and management.

Investments in equity securities (common and preferred) and equity securities sold short, if any, are valued at the exchange traded closing price if available.

Investments in registered investment companies are valued at their last reported net asset value.

Investments in commingled funds, private equity funds, and private real estate funds are stated at fair market value, which primarily utilizes net asset values reported by the investment manager or fund administrator. Management reviews additional valuation and pricing information from fund managers, including audited financial statements, to evaluate the net asset values.

Real estate assets are valued quarterly and consistently with the Real Estate Information Standards. The income approach (discounted cash flow model), sales comparison

Sundstrand de Puerto Rico Pension Plan

Notes to Financial Statements

As of December 31, 2023 and 2022

approach, or cost approach are utilized depending on the approach that most accurately portrays the anticipated behavior of the property and buyers in the market.

Unallocated insurance contracts are valued at their contract price which approximates fair value.

Valuation policies for derivative investments are disclosed in the Derivatives Policy section.

Investments denominated in foreign currencies are translated into U.S. Dollars using the last reported exchange rate.

Securities and other assets for which market quotations are not readily available or for which the above valuation procedures are deemed not to reflect fair value are valued in a manner that is intended to reflect their fair value.

Investment Income (Loss)

The Trustee maintains separate records of each plan's proportionate share in the Master Trust's investment accounts. The Plan's share of investment income (loss) and net appreciation (depreciation) in the fair value of investments of the Master Trust is included in the Statements of Changes in Net Assets Available for Benefits as Master Trust investment income (loss). The net appreciation (depreciation) in the fair value of investments consists of the realized gains (losses) and the change in unrealized appreciation (depreciation) on those investments.

Under the Master Trust Agreement, each plan's assets are jointly invested. The Plan uses the unit participation method to calculate the Plan's interest in the Master Trust. Under this method, contributions made to and benefits paid from the Master Trust result in increases or decreases in units of participation. All Master Trust income or loss results in a change in unit value.

Dividends are recorded on the ex-dividend date and interest income is accrued as earned. All security transactions are recorded on the trade date. Premiums and discounts on debt securities are amortized to maturity. Gains or losses on sales of securities are based on average cost.

Derivatives Policy

The Master Trust enters into contractual arrangements classified as derivatives in carrying out its investment strategy, principally to: (1) manage a portion of the Master Trusts' portfolio against exposure to certain risks, (2) gain exposure to a market more rapidly or less expensively than could be accomplished through the use of the cash markets, and (3) increase investment returns by reducing the cost of structuring the portfolio or capturing value disparities between financial instruments. The Master Trust may utilize both exchange traded derivatives such as equity and fixed income futures and option contracts and over-the-counter ("OTC") derivatives such as forward contracts and swaps. Select major financial institutions are used in derivatives transactions. When engaging in OTC derivatives and forward foreign currency exchange contracts ("forward currency contracts"), there is exposure to credit loss in the event of nonperformance by the counterparties to these transactions. As needed for material exposures, the Master Trust manages these exposures through credit approvals, limits, monitoring procedures, and, to the extent possible, by restricting the period over which unpaid balances are allowed to accumulate. The Master Trust does not anticipate nonperformance by counterparties to these contracts.

The following is a summary of the significant accounting policies associated with the Master Trust's use of derivatives:

Sundstrand de Puerto Rico Pension Plan

Notes to Financial Statements

As of December 31, 2023 and 2022

Futures Contracts

The Master Trust was invested in futures contracts during the years ended December 31, 2023 and December 31, 2022. A futures contract is a contractual agreement to make or take delivery of a standardized quantity of a specified grade or type of commodity or financial instrument at a specified future date in accordance with terms specified by a regulated futures exchange.

The Master Trust may use equity index, fixed income, interest rate, foreign exchange, and commodities futures contracts to manage exposure to the market. Buying futures contracts increases the Master Trust's exposure to the underlying instrument. Selling futures contracts decreases the Master Trust's exposure to the underlying instrument held or mitigates the risk of changes in fair value of other investments held in the Master Trust.

Futures contracts are valued at the last settlement price at the end of each day on the exchange upon which they are traded. Upon entering into a futures contract, the Master Trust is required to deposit either in cash or securities an amount equal to a certain percentage of the nominal value of the contract ("initial margin"). Pursuant to the futures contract, the Master Trust agrees to receive from, or pay to, the broker an amount of cash equal to the daily fluctuation in the value of the futures contract. The accumulated balance of such receipts or payments is recorded within "Cash held at broker for derivative contracts" on the Statement of Net Assets for the Master Trust. The Master Trust will also record an unrealized gain or loss on futures contracts, which is calculated as the difference between the notional cost and the notional market value of open futures contracts. The unrealized gains or losses on are recorded within "Unrealized appreciation (depreciation) on futures contracts" on the Statement of Net Assets for the Master Trust.

Futures contracts involve, to varying degrees, credit and market risks. The Master Trust enters into futures contracts on exchanges where the exchange acts as the counterparty to the transaction. Thus, credit risk on such transactions is limited to the failure of the exchange. The daily settlement on the futures contracts serves to greatly reduce credit risk. Losses in value may arise from changes in the value of the underlying instrument or if there is an illiquid secondary market for the contracts. In addition, there is the risk that the change in the value of the futures contract may not correlate exactly with the change in value of the corresponding investments held in the Master Trust.

At December 31, 2023, U.S. Government Bonds with a par value of \$211,640,000 (fair value of \$179,413,204) and Corporate Bonds with a par value of \$6,360,000 (fair value of \$5,745,287) were pledged by the Master Trust as collateral for open futures contracts. At December 31, 2023, a cash balance of \$4,102,683 was pledged by the Master Trust to cover margin requirements for open futures contracts.

At December 31, 2022, U.S. Government Bonds with a par value of \$302,960,000 (fair value of \$265,980,881) and Corporate Bonds with a par value of \$5,340,000 (fair value of \$4,605,109) were pledged by the Master Trust as collateral for open futures contracts. At December 31, 2022, a cash balance of \$99,419,113 was pledged by the Master Trust to cover margin requirements for open futures contracts.

	81,173	\$ 9,822,443,024	6,416	\$ 800,467,787

Forward Currency Contracts

The Master Trust was invested in forward currency contracts during the years ended December 31, 2023 and December 31, 2022. A forward currency contract is a commitment to purchase or sell a foreign currency at a future settlement date and at a negotiated rate.

Forward currency contracts are utilized to manage a portion of the currency exposure that results from the Master Trust's holdings of equity and fixed income securities denominated in foreign currencies.

Forward currency contracts are marked-to-market at the prevailing forward exchange rate of the underlying currencies, and the difference between contract value and market value is recorded within "Other derivatives" on the Statement of Net Assets for the Master Trust. When the forward exchange contract is settled, the Master Trust transfers the unrealized appreciation (depreciation) to a realized gain (loss) equal to the change in the value of the forward exchange contract when it was entered into and the value at the time it was settled or offset. Sales and purchases of forward currency contracts having the same settlement date and broker are offset, and any gain (loss) is realized on the date of offset.

Certain risks may arise upon entering into a forward currency contract from the potential inability of counterparties to meet the terms of their contracts. Additionally, when utilizing forward currency contracts to manage currency exposure, the Master Trust gives up the opportunity to profit from favorable exchange rate movements during the term of the contract.

Option Contracts

The Master Trust was invested in option contracts during the years ended December 31, 2023 and December 31, 2022. The market value of option contracts held in the Master Trust is recorded within "Other derivatives" on the Statement of Net Assets of the Master Trust. An option contract is a contract in which the writer of the option contract grants the buyer of the option contract the right to purchase from ("call option"), or sell to ("put option"), the writer a designated instrument at a specified price within a specified period of time. Certain option contracts, including option contracts on indices, will require cash settlement by the Master Trust if the option contract is exercised. The Master Trust may enter into put or call option contracts in order to manage potential adverse price movements in the value of the portfolio assets, as a temporary substitute for selling selected investments, to lock in the purchase price of a security or currency that it expects to purchase in the near future, as a temporary substitute for the purchase of selected investments, and/or to enhance potential gain.

When the Master Trust purchases or writes an option contract, an amount equal to the premium paid or received by the Master Trust is recorded as an asset or liability and is subsequently adjusted to the current market value of the option contract purchased or written. Option contracts

Sundstrand de Puerto Rico Pension Plan

Notes to Financial Statements

As of December 31, 2023 and 2022

purchased or written are valued at the last sale price or, in the absence of a sale, the mean between the closing bid and ask prices or at the most recent ask price (bid for purchased option contracts) if no bid and ask price are available. OTC purchased or written option contracts are valued using dealer supplied quotations. Gain and loss is recognized when the option contract expires or is settled.

If the Master Trust writes a covered call option contract, the Master Trust foregoes, in exchange for the premium, the opportunity to profit during the option contract period from an increase in the value of the underlying security above the exercise price. If the Master Trust writes a put option contract, it accepts the risk of a decline in the value of the underlying security below the exercise price. OTC option contracts have a risk of the potential inability of counterparties to meet the terms of their contracts. The Master Trust's maximum exposure to purchased option contracts is limited to the premium initially paid. In addition, certain risks may arise upon entering into option contracts and a change in value of the option contract may not correlate exactly with changes in the value of the underlying security.

Swaps

The Master Trust was invested in swap contracts during the years ended December 31, 2023 and December 31, 2022. The Master Trust may invest in interest rate swap contracts, credit default swap contracts, and currency swap contracts. The market value of swap contracts held in the Master Trust is recorded within "Other derivatives" on the Statement of Net Assets of the Master Trust.

The Master Trust uses interest rate swap contracts to manage its exposure to interest rates. Interest rate swap contracts entered into by the Master Trust typically represent the exchange by the Master Trust with a counterparty of a commitment to make variable rate and fixed rate payments with respect to a notional amount of principal. Such contracts may have a term of one to ten years, but typically require periodic interim settlement in cash, at which time both the value of the index or security and the specified variable interest rate are reset for the next settlement period. During the period that the swap contract is open, the contract is marked-to-market as the net amount due to or from the Master Trust in accordance with the terms of the contract based on the closing level of the relevant index or security and interest accrual through the valuation date. Changes in the value of the swap contract are recorded as unrealized gains or losses, while periodic cash settlements are recorded as realized gains or losses.

The Master Trust may invest in credit default swap contracts. Credit default swap contracts entered into by the Master Trust typically represent the exchange by the Master Trust with a counterparty of a commitment to provide a level of credit protection for a commitment to receive interest at a fixed rate based on the potential risk of default of the relevant underlying issuer. Providing credit protection to a counterparty tends to increase a Master Trust's exposure to the underlying instrument. Receiving credit protection from a counterparty tends to decrease a Master Trust's exposure to the underlying instrument held by the Master Trust or hedge the fair value of other Master Trust investments. Credit default swap contracts may have a term of one to ten years, but typically require periodic interim settlement in cash. During the period that the credit default swap contract is open, the contract is marked-to-market in accordance with the terms of the contract based on the current interest rate spreads and credit risk of the referenced obligation of the underlying issuer and interest accrual through valuation date. Changes in the value of the credit default swap contract are recorded as unrealized gains or losses, while periodic cash settlements are recorded as realized gains or losses.

Entering into a swap contract involves, to varying degrees, elements of credit, market and interest rate risk in excess of the amounts reported in the statement of net assets available for benefits. Notional principal amounts are used to express the extent of involvement in the transactions but are

Sundstrand de Puerto Rico Pension Plan

Notes to Financial Statements

As of December 31, 2023 and 2022

not delivered under the contract. Accordingly, credit risk is limited to any amounts receivable from the counterparty. To reduce credit risk from potential counterparty default, the Master Trust enters into swap contracts with counterparties whose creditworthiness has been approved by the Trustee of the Trust. The Master Trust bears the market risk arising from any change in index or security values or interest rates.

6. Termination Policies

The Company has not expressed any intent to terminate the Plan or discontinue its contributions. However, in the event the Plan is discontinued:

- (a) The assets comprising the Plan, including the net income (loss) of the Plan shall be revalued at market by the Trustee.
- (b) The Plan provides that the net assets of the Plan shall be allocated among the participants and beneficiaries of the Plan in the order provided by ERISA.
- (c) To the extent unfunded vested benefits exist, ERISA provides that such benefits are payable by the Pension Benefit Guaranty Corporation (the "PBGC") to participants, up to specified limitations, as described in ERISA.

Whether all participants receive their full or partial benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the plan sponsor and the level of benefits guaranteed by the PBGC.

The Company may terminate the Plan in whole or in part at any time. This summary of termination priorities is provided for general information purposes only. Participants should refer to the Plan Document for more information.

7. Certain Transactions Involving Related Parties and Parties-in-Interest

BNY Mellon, as the Trustee and Custodian of the Plan, incurs expenses in connection with these services to the Plan and Master Trust, and is therefore a party-in-interest with respect to the Plan. Certain investments within the Master Trust were advised by or affiliated with BNY Mellon. The Plan Sponsor, RTX, is a party-in-interest with respect to the Plan and incurs expenses in connection with the administration of the Plan and the Master Trust.

The Plan also incurs certain administrative expenses paid to parties-in-interest.

All of these transactions either fall outside the scope of or are exempt from ERISA's prohibited transaction rules.

8. Tax Status

The Commonwealth of Puerto Rico Treasury Department ruled on November 12, 2015 that the Plan, as then in effect, qualified under Section 1081.01 of the Puerto Rico Internal Revenue Code of 2011, as amended (the Code), and that the trust established thereunder is not subject to tax under Puerto Rico income tax law. The Plan is currently designed and operated in compliance with the requirements of Section 1165(a) of the Puerto Rico Internal Revenue Code of 1994, as amended. The assets of the Plan are held in a Master Trust. Section 1022(i)(1) of ERISA provides that a pension trust is exempt from income tax under Section 501(a) of the Internal Revenue Code if all of the plan's participants are residents of Puerto Rico. Management believes that the Plan and Master Trust are designed and are currently being operated in compliance with applicable tax

Sundstrand de Puerto Rico Pension Plan

Notes to Financial Statements

As of December 31, 2023 and 2022

regulations. Therefore, no provision for income taxes has been included in the Plan's financial statements.

The Plan adopted the provisions of uncertain tax positions that provide criteria for the recognition, measurement, presentation, and disclosure of uncertain tax positions. The Plan may from time to time hold investments that give rise to certain tax liabilities. Based upon management's assessment, the Plan has not recognized any tax liabilities at December 31, 2023 and 2022. The Plan is subject to examinations by taxing jurisdictions; however, there are currently no audits for any tax period in progress. The Plan Administrator believes the Plan is no longer subject to tax examination for years prior to 2019.

9. Risks and Uncertainties

The Plan financial statements are based on the application of GAAP, which require the Plan to make estimates and assumptions about future events that affect the amounts reported in financial statements and the accompanying notes.

Contributions to the Plan are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, employee compensation, and demographics. Due to the changing nature of these assumptions, it is at least reasonably possible that changes in these assumptions will occur in the near term and, due to the uncertainties inherent in setting assumptions, that the effect of such changes could be material to the financial statements. The investments of the Plan, which are held in the Master Trust, are exposed to various risks, such as interest rate, currency, market, and credit risks. See Note 5 for additional information with respect to investment risk.

10. Subsequent Events

The Plan has evaluated subsequent events and transactions subsequent to December 31, 2023 through the date the Plan's financial statements were available to be issued, September 25, 2024.

On December 19, 2023, the RTX Benefit Design and Administration Committee approved the closure of new entrants to the Plan, effective January 1, 2024.

 Plan Sponsor: RTX Corporation
 Valuation Date: January 1, 2023

SCHEDULE SB ATTACHMENTS

Schedule SB, Part V Statement of Actuarial Assumptions/Methods

Economic Assumptions

Interest rate basis

Applicable month September 2022

Interest rate basis Segment Rates from 4th Month Preceding Valuation Date

Interest rates	Reflecting Stabilization	Not Reflecting Stabilization
First segment rate	4.75%	1.41%
Second segment rate	5.00%	3.09%
Third segment rate	5.74%	3.58%
Effective interest rate	5.41%	3.38%

Annual rates of increase

Compensation 4.50%

Future Social Security wage
bases N/A

Statutory limits on compensation N/A

Crediting rate on cash balance
accounts N/A

Plan-related expenses \$250,000

As permitted by law, rates reflecting stabilization are used to determine the funding target and target normal cost, and thus the minimum required contribution under IRC §430 for the plan. Because these assumptions are subject to a corridor based on average interest rates over a 25-year period, they may differ from (and currently are higher than) current market interest rates, and may be inconsistent with other economic assumptions used in the valuation.

Rates not reflecting stabilization are used to determine PBGC variable rate premiums if the alternative method is used, and are used to determine the PBGC FTAP and the PBGC 4010 FS.

SCHEDULE SB ATTACHMENTS

Benefit commencement dates	Preretirement death benefit: The later of death of the active participant or the date the participant would have attained age 60. Deferred vested benefit: Commence assumed at age 65. Disability benefit: Upon disablement Retirement benefit: Upon termination of employment
Form of payment (Active retirements)	Five year certain and life annuity
Percent married	80%
Spouse age	Females three years younger than males.
Covered pay	For current year hires, the maximum of pay rate and the prior year's pensionable earnings, annualized and increased by 4.50%. For participants on leave of absence, pay rate. For all other participants, prior year's pensionable earnings increased by 4.50%.
Loads	None
At-risk assumptions	N/A
Timing of benefit payments	Annuity payments are payable monthly at the beginning of the month.

Plan Name:	Sundstrand de Puerto Rico Pension Plan
EIN / PN:	06-0570975/038
Plan Sponsor:	RTX Corporation
Valuation Date:	January 1, 2023

SCHEDULE SB ATTACHMENTS

Methods

Valuation date	First day of plan year
Funding target	Present value of accrued benefits as required by regulations under IRC §430
Target normal cost	Present value of benefits expected to accrue during plan year plus plan-related expenses expected to be paid from plan assets during plan year as required by regulations under IRC §430
Decrement Timing	The approach used is called rounded middle of year (rounded MOY) decrement timing. Most events are assumed to occur at the middle of year during which the eligibility condition will be met or the start/end date will occur. For death and disability decrements, the rate applied is based on the participant's rounded age (nearest integer age) at the beginning of the year, to align with the methodology generally used to create those rate tables. For retirement and withdrawal decrements: the age is generally the participant's rounded age at the middle of the year.
Actuarial value of assets	<p>Average of the fair market value of assets on the valuation date and the dates 12 and 24 months before the valuation date, adjusted for contributions, benefits, administrative expenses and expected earnings (with such expected earnings limited as described in IRS Notice 2009-22). The average asset value must be within 10% of market value, including discounted contributions receivable (discounted using the effective interest rate for the 2022 plan year.)</p> <p>The method of computing the actuarial value of assets complies with rules governing the calculation of such values under the Pension Protection Act of 2006 (PPA). These rules produce smoothed values that reflect the underlying market value of plan assets but fluctuate less than the market value. As a result, the actuarial value of assets will be lower than the market value in some years and greater in other years. However, over the long term under PPA's smoothing rules, the method has a significant bias to produce an actuarial value of assets that is below the market value of assets.</p>
Benefits not valued	<p>All benefits described in the supplemental Summary of Plan Provisions were valued. WTW has reviewed the plan provisions with RTX and, based on that review, is not aware of any significant benefits required to be valued that were not.</p> <p>The plan pays small benefits (with a present value up to \$5,000) in a single lump sum payment. Such lump sums are not explicitly valued as such; rather such participants' benefits are valued using the form of payment described above.</p>

Sources of Data and Other Information

RTX, through its third party administrator, furnished participant data as of 1/1/2023. Information on assets, contributions and plan provisions was supplied by the plan sponsor. Data and other information were reviewed for reasonableness and consistency, but no audit was performed. Based on discussions with the plan sponsor, assumptions or estimates were made when data were not available, and the data was adjusted to reflect any significant events that occurred between the date the data was collected and the measurement date. In consultation with RTX and its third party administrator, missing or inconsistent data were reviewed, and certain data assumptions were reflected as documented in a data action plan. We are not aware of any errors or omissions in the data that would have a significant effect on the results of our calculations.

Assumptions Rationale - Significant Economic Assumptions

Funding discount rate	The basis chosen was selected by the plan sponsor from among choices prescribed by law, all of which are based on observed market data over certain periods of time.
Rates of increase in compensation, future Social Security Wage bases, and statutory limits on compensation	Assumed increases were chosen by the plan sponsor and, as required by U.S. GAAP they represent an estimate of future experience. We believe that the selected assumption does not significantly conflict with what would be reasonable.
Plan-related expenses	Administrative expenses are estimated based on historical experience and future expectation.

Assumptions Rationale - Significant Demographic Assumptions

Healthy/Disabled Mortality	Assumptions used for funding purposes are as prescribed by IRC §430(h).
Termination / Retirement / Disability	The disability assumptions were selected by RTX based on prior reviews of participant experience data. An experience study prepared in 2015 was the basis for the updated termination and retirement assumptions.
Benefit commencement date for deferred benefits	The assumptions were selected by RTX based on an experience study prepared in 2015.
Form of payment	The form of payment was set by RTX based on a review of actual participant elections.
Marital Assumptions	
Percent married	The assumed percentage married was set based on RTX's observations regarding its employee population.

Spouse age

The assumed age difference for spouses is based on general population statistics on the age difference for married individuals of retirement age.

Prescribed Methods

Funding methods

The methods used for funding purposes as described in Appendix A, including the method of determining plan assets, are “prescribed methods set by law”, as defined in the actuarial standards of practice (ASOPs). These methods are required by IRC §430, or were selected by the plan sponsor from a range of methods permitted by IRC §430.

Schedule SB – Statement by Enrolled Actuary

Plan Sponsor	RTX Corporation
EIN/PN	06-0570975/038
Plan Name	Sundstrand de Puerto Rico Pension Plan
Valuation Date	January 1, 2023
Enrolled Actuary	Jay Mitchel, F.S.A., E.A.
Enrollment Number	23-05718

The actuarial assumptions that are not mandated by IRC § 430 and regulations, represent the enrolled actuary's best estimate of anticipated experience under the plan, subject to the following conditions:

The actuarial valuation, on which the information in this Schedule SB is based, has been prepared in reliance upon the employee and financial data furnished by the plan administrator and the trustee. The enrolled actuary has not made a rigorous check of the accuracy of this information but has accepted it after reviewing it and concluding it is reasonable in relation to similar information furnished in previous years. The amounts of contributions and dates paid shown in Item 18 of Schedule SB were listed in reliance on information provided by the plan administrator and/or trustee.

a Contributions allocated toward unpaid minimum required contributions from prior years	19a 0
b Contributions made to avoid restrictions adjusted to valuation date.	19b 0
c Contributions allocated toward minimum required contribution for current year adjusted to valuation date.	19c 2,762,719
20 Quarterly contributions and liquidity shortfalls:	
a Did the plan have a "funding shortfall" for the prior year?	☐ Yes ☒ No
b If line 20a is "Yes," were required quarterly installments for the current year made in a timely manner?	☐ Yes ☐ No
c If line 20a is "Yes," see instructions and complete the following table as applicable:	
Liquidity shortfall as of end of quarter of this plan year	
(1) 1st	(2) 2nd
(3) 3rd	(4) 4th

Part V	Assumptions Used to Determine Funding Target and Target Normal Cost		
21	Discount rate:		
a	Segment rates:	<div style="display: flex; justify-content: space-around;"> <div>1st segment: 4.75 %</div> <div>2nd segment: 5.00 %</div> <div>3rd segment: 5.74 %</div> </div>	☐ N/A, full yield curve used
b	Applicable month (enter code).....		21b 4
22	Weighted average retirement age		22 63
23	Mortality table(s) (see instructions) ☐ Prescribed - combined ☒ Prescribed - separate ☐ Substitute		
Part VI	Miscellaneous Items		
24	Has a change been made in the non-prescribed actuarial assumptions for the current plan year? If "Yes," see instructions regarding required attachment. ☐ Yes ☒ No		
25	Has a method change been made for the current plan year? If "Yes," see instructions regarding required attachment. ☐ Yes ☒ No		
26	Demographic and benefit information		
a	Is the plan required to provide a Schedule of Active Participants? If "Yes," see instructions regarding required attachment.		☒ Yes ☐ No
b	Is the plan required to provide a projection of expected benefit payments? If "Yes," see instructions regarding required attachment ...		☒ Yes ☐ No
27	If the plan is subject to alternative funding rules, enter applicable code and see instructions regarding attachment		27
Part VII	Reconciliation of Unpaid Minimum Required Contributions For Prior Years		
28	Unpaid minimum required contributions for all prior years.....		28 0
29	Discounted employer contributions allocated toward unpaid minimum required contributions from prior years (line 19a)		29 0
30	Remaining amount of unpaid minimum required contributions (line 28 minus line 29)		30 0
Part VIII	Minimum Required Contribution For Current Year		
31	Target normal cost and excess assets (see instructions):		
a	Target normal cost (line 6c).....		31a 2,042,366
b	Excess assets, if applicable, but not greater than line 31a		31b 2,042,366
32	Amortization installments:		
a	Net shortfall amortization installment	Outstanding Balance 0	Installment 0
b	Waiver amortization installment	0	0
33	If a waiver has been approved for this plan year, enter the date of the ruling letter granting the approval (Month _____ Day _____ Year _____) and the waived amount		33
34	Total funding requirement before reflecting carryover/prefunding balances (lines 31a - 31b + 32a + 32b - 33)....		34 0
	Carryover balance	Prefunding balance	Total balance
35	Balances elected for use to offset funding requirement.....	0	0
36	Additional cash requirement (line 34 minus line 35)		36 0
37	Contributions allocated toward minimum required contribution for current year adjusted to valuation date (line 19c)		37 2,762,719
38	Present value of excess contributions for current year (see instructions)		
a	Total (excess, if any, of line 37 over line 36)		38a 2,762,719
b	Portion included in line 38a attributable to use of prefunding and funding standard carryover balances		38b 0
39	Unpaid minimum required contribution for current year (excess, if any, of line 36 over line 37)		39 0
40	Unpaid minimum required contributions for all years.....		40 0
Part IX	Pension Funding Relief Under the American Rescue Plan Act of 2021 (See Instructions)		
41	If an election was made to use the extended amortization rule for a plan year beginning on or before December 31, 2021, check the box to indicate the first plan year for which the rule applies. ☐ 2019 ☐ 2020 ☒ 2021

Schedule SB – Statement by Enrolled Actuary

Plan Sponsor	RTX Corporation
EIN/PN	06-0570975/038
Plan Name	Sundstrand de Puerto Rico Pension Plan
Valuation Date	January 1, 2023
Enrolled Actuary	Jay Mitchel, F.S.A., E.A.
Enrollment Number	23-05718

The actuarial assumptions that are not mandated by IRC § 430 and regulations, represent the enrolled actuary's best estimate of anticipated experience under the plan, subject to the following conditions:

The actuarial valuation, on which the information in this Schedule SB is based, has been prepared in reliance upon the employee and financial data furnished by the plan administrator and the trustee. The enrolled actuary has not made a rigorous check of the accuracy of this information but has accepted it after reviewing it and concluding it is reasonable in relation to similar information furnished in previous years. The amounts of contributions and dates paid shown in Item 18 of Schedule SB were listed in reliance on information provided by the plan administrator and/or trustee.

SCHEDULE SB ATTACHMENTS

Schedule SB, Part V Statement of Actuarial Assumptions/Methods

Economic Assumptions

Interest rate basis

Applicable month September 2022

Interest rate basis Segment Rates from 4th Month Preceding Valuation Date

Interest rates	Reflecting Stabilization	Not Reflecting Stabilization
First segment rate	4.75%	1.41%
Second segment rate	5.00%	3.09%
Third segment rate	5.74%	3.58%
Effective interest rate	5.41%	3.38%

Annual rates of increase

Compensation 4.50%

Future Social Security wage
bases N/A

Statutory limits on compensation N/A

Crediting rate on cash balance
accounts N/A

Plan-related expenses \$250,000

As permitted by law, rates reflecting stabilization are used to determine the funding target and target normal cost, and thus the minimum required contribution under IRC §430 for the plan. Because these assumptions are subject to a corridor based on average interest rates over a 25-year period, they may differ from (and currently are higher than) current market interest rates, and may be inconsistent with other economic assumptions used in the valuation.

Rates not reflecting stabilization are used to determine PBGC variable rate premiums if the alternative method is used, and are used to determine the PBGC FTAP and the PBGC 4010 FS.

Demographic Assumptions

Inclusion date	The valuation date coincident with or next following the date on which the employee becomes a participant.
New or rehired employees	It was assumed there will be no new or rehired employees.
Healthy Mortality-	
Funding	Separate rates for non-annuitants (based on RP-2014 "Employees" table without collar or amount adjustments, adjusted backward to 2006 with MP-2014, and then projected forward with a static projection as specified in the regulations under §1.430(h)(3)-1 using Scale MP-2021) and annuitants (based on RP-2014 "Healthy Annuitants" table without collar or amount adjustments, adjusted backward to 2006 with MP-2014, and then projected forward with a static projection as specified in the regulations under §1.430(h)(3)-1 using Scale MP-2021).
Disabled Mortality-	
Funding	Separate rates for non-annuitants (based on RP-2014 "Employees" table without collar or amount adjustments, adjusted backward to 2006 with MP-2014, and then projected forward with a static projection as specified in the regulations under §1.430(h)(3)-1 using Scale MP-2021) and annuitants (based on RP-2014 "Healthy Annuitants" table without collar or amount adjustments, adjusted backward to 2006 with MP-2014, and then projected forward with a static projection as specified in the regulations under §1.430(h)(3)-1 using Scale MP-2021).
Termination	Rates varying by age and service See Exhibit A
Disability	Rates varying by age See Exhibit B
Retirement	Rates varying by age See Exhibit C

Plan Name:	Sundstrand de Puerto Rico Pension Plan
EIN / PN:	06-0570975/038
Plan Sponsor:	RTX Corporation
Valuation Date:	January 1, 2023

SCHEDULE SB ATTACHMENTS

Benefit commencement dates	Preretirement death benefit: The later of death of the active participant or the date the participant would have attained age 60. Deferred vested benefit: Commence assumed at age 65. Disability benefit: Upon disablement Retirement benefit: Upon termination of employment
Form of payment (Active retirements)	Five year certain and life annuity
Percent married	80%
Spouse age	Females three years younger than males.
Covered pay	For current year hires, the maximum of pay rate and the prior year's pensionable earnings, annualized and increased by 4.50%. For participants on leave of absence, pay rate. For all other participants, prior year's pensionable earnings increased by 4.50%.
Loads	None
At-risk assumptions	N/A
Timing of benefit payments	Annuity payments are payable monthly at the beginning of the month.

Plan Name:	Sundstrand de Puerto Rico Pension Plan
EIN / PN:	06-0570975/038
Plan Sponsor:	RTX Corporation
Valuation Date:	January 1, 2023

SCHEDULE SB ATTACHMENTS

Methods

Valuation date	First day of plan year
Funding target	Present value of accrued benefits as required by regulations under IRC §430
Target normal cost	Present value of benefits expected to accrue during plan year plus plan-related expenses expected to be paid from plan assets during plan year as required by regulations under IRC §430
Decrement Timing	The approach used is called rounded middle of year (rounded MOY) decrement timing. Most events are assumed to occur at the middle of year during which the eligibility condition will be met or the start/end date will occur. For death and disability decrements, the rate applied is based on the participant's rounded age (nearest integer age) at the beginning of the year, to align with the methodology generally used to create those rate tables. For retirement and withdrawal decrements: the age is generally the participant's rounded age at the middle of the year.
Actuarial value of assets	<p>Average of the fair market value of assets on the valuation date and the dates 12 and 24 months before the valuation date, adjusted for contributions, benefits, administrative expenses and expected earnings (with such expected earnings limited as described in IRS Notice 2009-22). The average asset value must be within 10% of market value, including discounted contributions receivable (discounted using the effective interest rate for the 2022 plan year.)</p> <p>The method of computing the actuarial value of assets complies with rules governing the calculation of such values under the Pension Protection Act of 2006 (PPA). These rules produce smoothed values that reflect the underlying market value of plan assets but fluctuate less than the market value. As a result, the actuarial value of assets will be lower than the market value in some years and greater in other years. However, over the long term under PPA's smoothing rules, the method has a significant bias to produce an actuarial value of assets that is below the market value of assets.</p>
Benefits not valued	<p>All benefits described in the supplemental Summary of Plan Provisions were valued. WTW has reviewed the plan provisions with RTX and, based on that review, is not aware of any significant benefits required to be valued that were not.</p> <p>The plan pays small benefits (with a present value up to \$5,000) in a single lump sum payment. Such lump sums are not explicitly valued as such; rather such participants' benefits are valued using the form of payment described above.</p>

Sources of Data and Other Information

RTX, through its third party administrator, furnished participant data as of 1/1/2023. Information on assets, contributions and plan provisions was supplied by the plan sponsor. Data and other information were reviewed for reasonableness and consistency, but no audit was performed. Based on discussions with the plan sponsor, assumptions or estimates were made when data were not available, and the data was adjusted to reflect any significant events that occurred between the date the data was collected and the measurement date. In consultation with RTX and its third party administrator, missing or inconsistent data were reviewed, and certain data assumptions were reflected as documented in a data action plan. We are not aware of any errors or omissions in the data that would have a significant effect on the results of our calculations.

Assumptions Rationale - Significant Economic Assumptions

Funding discount rate	The basis chosen was selected by the plan sponsor from among choices prescribed by law, all of which are based on observed market data over certain periods of time.
Rates of increase in compensation, future Social Security Wage bases, and statutory limits on compensation	Assumed increases were chosen by the plan sponsor and, as required by U.S. GAAP they represent an estimate of future experience. We believe that the selected assumption does not significantly conflict with what would be reasonable.
Plan-related expenses	Administrative expenses are estimated based on historical experience and future expectation.

Assumptions Rationale - Significant Demographic Assumptions

Healthy/Disabled Mortality	Assumptions used for funding purposes are as prescribed by IRC §430(h).
Termination / Retirement / Disability	The disability assumptions were selected by RTX based on prior reviews of participant experience data. An experience study prepared in 2015 was the basis for the updated termination and retirement assumptions.
Benefit commencement date for deferred benefits	The assumptions were selected by RTX based on an experience study prepared in 2015.
Form of payment	The form of payment was set by RTX based on a review of actual participant elections.
Marital Assumptions	
Percent married	The assumed percentage married was set based on RTX's observations regarding its employee population.

Plan Name:	Sundstrand de Puerto Rico Pension Plan

Plan Sponsor:	RTX Corporation
Valuation Date:	January 1, 2023

SCHEDULE SB ATTACHMENTS

Spouse age

The assumed age difference for spouses is based on general population statistics on the age difference for married individuals of retirement age.

Prescribed Methods

Funding methods

The methods used for funding purposes as described in Appendix A, including the method of determining plan assets, are “prescribed methods set by law”, as defined in the actuarial standards of practice (ASOPs). These methods are required by IRC §430, or were selected by the plan sponsor from a range of methods permitted by IRC §430.

Plan Name: Sundstrand de Puerto Rico Pension Plan

Valuation Date: January 1, 2023

SCHEDULE SB ATTACHMENTS

Schedule SB, Part V Summary of Plan Provisions

1. Eligibility

- a. Eligible Employees: All Sundstrand de Puerto Rico, Inc. non-exempt employees.
- b. Participation Requirements: Eligible Employees become participants on the later of:
 - date of employment
 - May 9, 1992

2. Accrued Benefit

- a. Formula: The sum of (i) and (ii), but not less than (iii):
 - (i) 1.2% of Annual Earnings for each plan year after December 31, 1991
 - (ii) The benefit accrued as of May 8, 1992, if any, under the prior Westinghouse Pension Plan for Operations in Puerto Rico
 - (iii) \$96 x Credited Service
- b. Definitions
 - (i) Annual Earnings: Total compensation including pre-tax contributions to the savings plan and pre-tax contributions to a cafeteria plan, but excluding awards and reimbursements. Base pay rate in the first and last partial year of participation is annualized.
 - (ii) Credited Service: Elapsed time, with fractional years prorated based on 365 days.
 - (iii) Continuous Service (service): Assumed to be the same as Credited Service.

3. Normal Retirement

- a. Date: First of the month following the date on which a participant attains age 65 and completes 5 years of service.
- b. Benefit: The accrued benefit at retirement payable monthly.

4. Early Retirement

- a. Date: First of the month following retirement after the attainment of age 60 and the completion of 10 years of service, but before the Normal Retirement Date.
- b. Benefit: The accrued benefit at retirement payable monthly reduced 4.0% per year for each year the benefit commencement date precedes age 65.
- c. Supplemental Allowance: Available to anyone early retirement eligible and payable to age 62. The amount is the greater of (i) or (ii):
 - (i) \$48 x Credited Service
 - (ii) \$600 plus \$12 multiplied by Credited Service in excess of 10 years.

5. Postponed Retirement

- a. Date: First of the month following retirement after the Normal Retirement Date.
- b. Benefit: The accrued benefit at retirement payable monthly.

Plan Name: Sundstrand de Puerto Rico Pension Plan
EIN / PN: 06-0570975/038
Plan Sponsor: RTX Corporation
Valuation Date: January 1, 2023

SCHEDULE SB ATTACHMENTS

6. Vested Termination

- a. Eligibility: Termination of employment after completing five years of service, but before becoming eligible for early, normal or postponed retirement.
- b. Benefit: The accrued benefit at termination payable monthly commencing on the Normal Retirement Date. A participant can commence payment of the benefit on the first day of any month following the attainment of age 60 and the completion of 10 years of service, with the benefit reduced 6% per year for each year the benefit commencement date precedes the Normal Retirement Date.

7. Pre-retirement Death Benefits

- a. Eligibility: If a vested participant (or former participant) dies before receiving a retirement benefit, the following survivor benefits are payable:
- b. Benefit:
 - (i) If the participant dies after completing 10 years of service, a 55% contingent annuity benefit is payable and payment commences immediately, reduced as described in 4.b. above, or if the contingent annuitant is the spouse, as late as when the participant would have attained age 65.
 - (ii) If the participant dies after becoming vested and is married, but does not meet the requirements of (i) above, a 55% spouse's benefit is payable, and payment commences when the participant would have attained age 60, reduced as described in 6.b. above, or age 65.

8. Form of Payment

- a. Normal Form:
 - (i) Life annuity with 60 monthly payments guaranteed for unmarried participants
 - (ii) An actuarially reduced 55% joint and survivor annuity for married participants
- b. Optional Forms:
 - (i) 5 year certain and continuous annuity
 - (ii) 100% contingent annuity with 60 monthly payments guaranteed
 - (iii) 75% contingent annuity with 60 monthly payments guaranteed
 - (iv) 55% contingent annuity with 60 monthly payments guaranteed
 - (v) 50% contingent annuity with 60 monthly payments guaranteed

The normal form of payment is converted to an optional form using 6% interest rate and GAR-94 Mortality (unisex).
- c. Automatic Lump Sum Payment: for participants whose benefit has a lump sum value of \$5,000 or less under 417(e) government mandated basis.

Note: For Pre-retirement Death Benefits, "spouse" also includes a domestic partner.
