INDEPENDENT AUDITOR'S REPORT

To the Participants and Plan Administrator of
The Scotts Company LLC Associates' Pension Plan
Marysville, Ohio

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed an audit of the financial statements of The Scotts Company LLC Associates' Pension Plan (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2023 and 2022, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audit of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audit need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained a certification from a qualified institution, The Northern Trust Company (the Trustee of the Plan), as of and for the years ended December 31, 2023 and 2022, stating that the certified investment information, as described in Note 4 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audit and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section:

- the amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- the information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audit did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter - Supplemental Schedules Required by ERISA

The supplemental Schedule of Assets Held for Investment Purposes at End of Year as of December 31, 2023 and Schedule of Reportable Transactions for the year ended December 31, 2023 are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- the form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.
- the information in the supplemental schedules related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

NOTES TO FINANCIAL STATEMENTS

NOTE 1. DESCRIPTION OF PLAN

The Scotts Company LLC Associates' Pension Plan (the "Plan") is a defined benefit plan covering domestic non-union employees of The Scotts Company LLC (the "Company"), who were eligible participants in the Plan prior to January 1, 1998. The Plan was frozen effective December 31, 1997. Participants no longer accrue benefits; however, the Plan will remain in existence as long as necessary to pay already accrued benefits to participants who meet the hour and age requirements. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended ("ERISA").

The following description of the Plan provides only general information. Participants should refer to the Plan document for a complete description of the Plan's provisions, such as eligibility, vesting, allocation and funding.

Effective January 1, 2023, the Plan was amended and restated to incorporate previously adopted amendments to the Plan, to update claims review and appeals procedures, to update indemnification terms and to provide for arbitration of certain claims.

Administration

The Company's Benefits Administrative Committee (the "Plan Administrator") is responsible for the general operation and administration of the Plan.

Contributions

The Plan is funded solely by the Company. The Plan has met the minimum funding requirements as determined by ERISA for the years ended December 31, 2023 and 2022.

Vesting

During the time the Plan was effective, pension benefits became fully vested after five years of service.

Administrative Expenses

Administrative expenses of the Plan are paid by either the Plan or the Company.

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation

The financial statements of the Plan have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America ("GAAP").

**The Scotts Company LLC
Associates' Pension Plan**

NOTES TO FINANCIAL STATEMENTS

Investments

Investments are recorded at fair value as determined by The Northern Trust Company (the "Trustee"). Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Interest is recorded as earned.

The Plan presents in the Statements of Changes in Net Assets Available for Benefits the net appreciation (depreciation) in the fair value of its investments, which consists of the realized gains or losses and the unrealized appreciation (depreciation) on those investments. Interest and dividend income earned within investment holdings of the Plan's collective investment trust investments are recorded as appreciation in the fair value of investments. Gains and losses on sales of investments are based on the average cost method.

Payment of Benefits

Benefits are recorded when paid.

Actuarial Method

The actuarial cost method used to determine actuarially accrued liabilities and normal cost is the standard unit credit cost method. The actuarial value of assets is the fair value of the assets. Assumptions, such as interest rates and mortality, are used in valuing the liabilities and benefits of the Plan. Due to the changing nature of these assumptions and the uncertainties inherent in defining assumptions, it is at least reasonably possible that changes in these assumptions will occur in the near term and that such changes could be material.

Use of Estimates

The preparation of financial statements in conformity with GAAP requires the Plan to make estimates and assumptions that affect the reported amounts of net assets available for benefits at the date of the financial statements, reported amounts of the actuarial present value of accumulated plan benefits as of the benefit information date, changes in net assets available for benefits during the reporting period and, when applicable, disclosures of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

Risks and Uncertainties

The Plan's investments include interests in collective investment trusts holding investment contracts subject to varying degrees of risk, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the Statements of Net Assets Available for Benefits.

The Scotts Company LLC
Associates' Pension Plan

NOTES TO FINANCIAL STATEMENTS

Subsequent Events

For the year ended December 31, 2023, the Plan has evaluated subsequent events for potential recognition and disclosure through September 25, 2024, the date the financial statements were available for issuance.

NOTE 3. ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS

The actuarial present value of accumulated plan benefits represents future benefit payments attributable to participant service determined in accordance with plan provisions as of the date of the actuarial valuation.

The actuarial present value of accumulated plan benefits as of the actuarial valuation date is as follows:

Vested benefits:	<u>January 1, 2023</u>
Participants currently receiving benefits	\$ 66,212,549
Other participants	<u>12,634,305</u>
Total vested benefits	78,846,854
Non-vested benefits	<u>54,250</u>
Total actuarial present value of accumulated plan benefits	<u>\$ 78,901,104</u>

The actuarial present value of accumulated plan benefits increased/(decreased) due to the following:

	<u>January 1, 2023</u>
Total actuarial present value of accumulated plan benefits, beginning	\$ 88,850,822
Actuarial losses	630,995
Benefits paid	(6,754,245)
Increase for interest	2,992,596
Change in actuarial assumptions	<u>(6,819,064)</u>
Total actuarial present value of accumulated plan benefits, ending	<u>\$ 78,901,104</u>

The Scotts Company LLC
Associates' Pension Plan

NOTES TO FINANCIAL STATEMENTS

The significant assumptions used to determine the actuarial present value of accumulated plan benefits are as follows:

Interest rate	4.50% at January 1, 2023 and 3.50% at January 1, 2022
Mortality	At January 1, 2023: Amounts-weighted aggregate rates from the Pri-2012 mortality study projected generationally from 2012 using the MP-2021 Aon Endemic Scale and amounts-weighted aggregate contingent survivor rates from the Pri-2012 mortality study projected generationally from 2012 using the MP-2021 Aon Endemic Scale; At January 1, 2022: Amounts-weighted aggregate rates from the Pri-2012 mortality study projected generationally from 2012 with Scale MP-2021 and amounts-weighted aggregate contingent survivor rates from the Pri-2012 mortality study projected generationally from 2012 with Scale
Percentage married	80% of active participants. Males are assumed to be three years older than their spouses.
Retirement	Average retirement age assumption remains at 64. Terminated vested participants are assumed to begin receiving benefits at age 65.

NOTE 4. INFORMATION PREPARED AND CERTIFIED BY TRUSTEE

The following information included in the accompanying financial statements and supplemental schedules was obtained from data that has been prepared and certified as complete and accurate by the Trustee:

	2023	2022
Investments at fair value	\$ 56,198,203	\$ 59,017,073
Interest and dividend income	\$ 53,721	\$ 19,219
Net appreciation (depreciation) in fair value of investments	\$ 5,229,629	\$ (13,898,614)

NOTE 5. FAIR VALUE MEASUREMENTS

Fair value is defined as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or the most advantageous market for the asset or liability in an orderly transaction between market participants at the measurement date. A three-level fair value hierarchy prioritizes the inputs used to measure fair value. The hierarchy requires entities to maximize the use of observable inputs and minimize the use of unobservable inputs. The three levels of inputs used to measure fair value are as follows:

Level 1 - Quoted prices in active markets for identical assets or liabilities.

Level 2 - Observable inputs other than quoted prices included in Level 1, such as quoted prices for similar assets and liabilities in active markets; quoted prices for similar assets and liabilities in markets that are not active; or other inputs that are observable or can be corroborated by observable market data.

The Scotts Company LLC
Associates' Pension Plan

NOTES TO FINANCIAL STATEMENTS

Level 3 - Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities. This includes pricing models, discounted cash flow methodologies and similar techniques that use significant unobservable inputs.

The following describes the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2023 and 2022.

- Cash and cash equivalents: Valued using quoted market prices, broker or dealer quotations, or alternative pricing sources with reasonable levels of price transparency.
- Collective investment trusts: The fair value is based on net asset value as reported by the trust, which is reported at fair value. Participant transactions (purchases and sales) may occur daily. Additions and redemptions are, under ordinary circumstances, made as of the valuation date on which such unit value is calculated, pursuant to notice or direction from the trust to the trustee at least fifteen business days before the valuation date (or as otherwise determined by the trust or trustee).

The methods described above may produce a fair value that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table presents the Plan's investments measured at fair value on a recurring basis at December 31, 2023:

	Level 1	Level 2	Level 3	Total
Cash and cash equivalents	\$ —	\$ 808,313	\$ —	\$ 808,313

Collective investment trusts, measured at net asset value				<u>55,389,890</u>
Total investments at fair value				<u>\$56,198,203</u>

The following table presents the Plan's investments measured at fair value on a recurring basis at December 31, 2022:

	Level 1	Level 2	Level 3	Total

Collective investment trusts, measured at net asset value				<u>57,461,754</u>
Total investments at fair value				<u>\$59,017,073</u>

NOTE 6. TAX STATUS

The Plan obtained its latest determination letter on December 18, 2017, based on plan amendments through January 1, 2017, in which the Internal Revenue Service ("IRS") stated that the Plan, as then designed, was in compliance with

The Scotts Company LLC
Associates' Pension Plan

NOTES TO FINANCIAL STATEMENTS

the applicable requirements of the Internal Revenue Code. The Plan administrator and the Company believe that the Plan is being operated in compliance with the applicable requirements of the Internal Revenue Code. Accordingly, no provision for federal income taxes has been made.

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken uncertain tax positions that more-likely-than-not would not be sustained upon examination by applicable taxing authorities. The Plan Administrator has analyzed tax positions taken by the Plan and has concluded that, as of December 31, 2023, there are no uncertain tax positions taken, or expected to be taken, that would require recognition of a liability or that would require disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions. Currently, no audits for any tax periods are in progress.

NOTE 7. PLAN TERMINATION

In the event the Plan terminates, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

- To accrued benefits which were in pay status as of the beginning of the three-year period prior to termination or which would have been in pay status as of the beginning of such period if retirement had occurred and benefits had begun prior to the beginning of such period, at the lowest pay level in such period and at the lowest benefit level under the Plan during the five years prior to termination.
- To accrued benefits up to the insurance limitations set by the Pension Benefit Guaranty Corporation ("PBGC").
- To all other nonforfeitable accrued benefits, except benefits which became nonforfeitable upon Plan termination.
- To any other benefits under the Plan.
- Any assets remaining in the Plan trust fund due to actuarial error, after the satisfaction of all benefits rights or contingent rights accrued under the Plan, shall, subject to the pertinent provisions of Federal or state law, be returned to the Company.

Certain benefits under the Plan should be insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits and certain disability and survivors' pensions. However, the PBGC does not guarantee all types of benefits under the Plan and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan should be guaranteed at the level in effect on the amount of an individual's monthly benefit that the PBGC guarantees. That ceiling applies to those pensioners who elect to receive their benefits in the form of a single-life annuity and are at least 65 years old at the time of retirement or Plan termination (whichever comes later). Annuitants who are younger and/or elect to receive their benefits in some form more valuable than a single-life annuity have ceilings which are actuarially adjusted downward.

**The Scotts Company LLC
Associates' Pension Plan**

NOTES TO FINANCIAL STATEMENTS

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide those benefits and may also depend on the level of benefits guaranteed by the PBGC.

NOTE 8. PARTY-IN-INTEREST TRANSACTIONS

The Plan invests in the NT Collective Short Term Investment Fund, managed by the Trustee, which is classified as cash and cash equivalents on the Statements of Net Assets Available for Benefits. Therefore, transactions involving this fund qualify as party-in-interest.

The Plan also invests in collective investment trusts that are managed by AON Hewitt Investment Consulting ("AHIC"). As AHIC is the investment adviser, transactions involving these collective investment trusts qualify as party-in-interest.

In addition, the Plan has arrangements with other service providers and these arrangements qualify as party-in-interest.

Valuation of Plan Assets

Smoothed fair market value of assets over the current and prior two years, adjusted for contributions, benefit payments, administrative expenses, and expected earnings. The average value of assets calculated in this manner is further limited to not less than 90% nor more than 110% of fair market value.

A characteristic of this method is that the expected distribution of the value of plan assets is skewed toward understatement relative to the corresponding market values for expected long-term rates of return in excess of the third segment rate under IRC section 430(h)(2)(C)(iii).

The funding valuation reflects the following assumption change:

- A change in the unlimited expected rate of return on assets from 3.50% to 4.50%.

This change was made to better reflect the anticipated plan experience. This non-prescribed assumption change did not reduce the funding shortfall. Consequently, approval of the Commissioner is not required.

Valuation of Plan Assets

Smoothed fair market value of assets over the current and prior two years, adjusted for contributions, benefit payments, administrative expenses, and expected earnings. The average value of assets calculated in this manner is further limited to not less than 90% nor more than 110% of fair market value.

A characteristic of this method is that the expected distribution of the value of plan assets is skewed toward understatement relative to the corresponding market values for expected long-term rates of return in excess of the third segment rate under IRC section 430(h)(2)(C)(iii).

Benefit

The benefit is equal to the post-1975 accrued benefit, adjusted as if the participant had survived until his earliest retirement date, elected the joint and 50% survivorship option, and then died. For a terminated vested participant, there is a charge for each year coverage is in effect after termination of employment. Benefit commences upon participant normal retirement date. If the participant attained age 55 and 10 years of service, an actuarially reduced benefit is available.

After the participant becomes eligible for early retirement, he or she may elect one of the following options:

1% Election—Amount which would have been payable to spouse under the joint and 100% survivorship annuity option if the participant had retired at the time of death, reduced by 1% for each year option is in effect.

½% Election—Amount which would have been payable to spouse under the joint and 50% survivorship annuity option if the participant had retired at the time of death.

Unless a different option is elected, the spouse of a participant who remains in service after age 65 and dies prior to actual retirement, shall receive a benefit under the 1% election described above without, however, any reduction for years in effect after the participant became age 65.

The funding valuation reflects the following assumption change:

- A change in the unlimited expected rate of return on assets from 3.50% to 4.50%.

This change was made to better reflect the anticipated plan experience. This non-prescribed assumption change did not reduce the funding shortfall. Consequently, approval of the Commissioner is not required.
