INDEPENDENT AUDITOR'S REPORT

To the Plan Administrator and Plan Participants of
Immediate Health Employee Stock Ownership Plan
Westerville, Ohio

Opinion

We have audited the financial statements of Immediate Health Employee Stock Ownership Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets available for benefits as of December 31, 2023 and 2022, the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2023 and 2022, and the changes in its net assets available for benefits for the years then ended, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are issued or available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedule Required by ERISA

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule as outlined on the Table of Contents is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's (DOL's) Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including its form and content, is presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying supplemental schedule is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

EMPLOYEE STOCK OWNERSHIP PLAN

NOTES TO THE FINANCIAL STATEMENTS

NOTE 1: DESCRIPTION OF PLAN

The following description of the Immediate Health Employee Stock Ownership Plan (the Plan) provides only general information. Participants should refer to the Plan document or Summary Plan Description for a more complete description of the Plan's provisions.

General

Immediate Health Associates, Inc. (the Company and the Plan Sponsor) established the Plan effective January 1, 2006. The Plan has been amended and restated twice with the latest restatement effective January 1, 2012. The Plan operates, in relevant part, as an employee stock ownership plan (ESOP) and is designed to comply with Sections 401(a) and 4975(e)(7) and the regulations thereunder of the Internal Revenue Code of 1986, as amended (IRC) and is subject to the applicable provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

The Plan is administered by an administrative committee, which is comprised of eight persons, appointed by the Company's Board of Directors. The Plan's trustee is an officer of the Company appointed by the Company's Board of Directors. The trustee is responsible for the Plan's assets and the execution of all Plan transactions in accordance with the Trust Agreement. The Company is the asset custodian and executes all of the Plan's transactions under the direction of the trustee. The records of the Plan are maintained by a third-party administrator.

Eligibility

A non-leased employee of the Company becomes eligible as a participant in the Plan upon reaching age 21 with one year of service, and completing 1000 hours of service. Participation commences on the entry date, which is the first day of the plan year in which you first become eligible.

Contributions

Contributions to the Plan are at the discretion of the Company's Board of Directors. The Plan does not provide for participant contributions. Contributions are subject to Internal Revenue Service limitations. Contributions to the Plan totaled \$1,000,000 and \$1,106,508 for the years ended December 31, 2023 and 2022, respectively.

Dividends

The Company declared dividends of \$4,873,093 and \$1,008,644 during the years ended December 31, 2023 and 2022, respectively.

Participant Accounts

Individual accounts are maintained for each plan participant. Allocations of discretionary contributions, and forfeitures shall be allocated based upon the ratio of each participant's allocation points to the total allocation points at the end of each Plan year. A participant shall have allocation eligibility as to discretionary contributions and forfeitures for any plan year in which such participant completes 1,000 or more hours of service with the Company and is employed by the Company on the last day of such plan year. Each participant receives allocation points based on a formula determined by eligible compensation and years of service at the end of each Plan year.

IMMEDIATE HEALTH
EMPLOYEE STOCK OWNERSHIP PLAN

NOTES TO THE FINANCIAL STATEMENTS

NOTE 1: DESCRIPTION OF PLAN (CONTINUED)

Participant Accounts (Continued)

Each participant's account is credited on the last day of each Plan year with an allocation of shares of the Company's common stock and forfeitures of terminated participants' non-vested accounts.

As of each valuation date, the Plan allocates to the applicable participant accounts the net appreciation based on the ratio of each participant's account balance to the total of all participant account balances.

Dividends, if declared, on the shares are allocated based on each participant's stock account balance to the total of all participant stock account balances.

Vesting

Accrued benefits in the Plan shall vest at the rate of zero percent (0%) upon completion of less than two vesting years, 20% upon completion of the second vesting year, 40% upon completion of the third, 60% upon completion of the fourth, 80% upon completion of the fifth and 100% upon completion of the sixth vesting year.

Participants who have less than five years of eligible service and are terminated due to death, disability or retirement at age 65 or over are 100% vested.

Dividends declared during the year ended December 31, 2023, included a \$4,500,000 "Special Dividend". The Plan was amended effective January 1, 2023, to allow participants receiving an allocation of the Special Dividend to be immediately 100% vested with respect to that allocation.

Payment of Benefits

Distributions on account of death, disability, or retirement are made in a lump sum up to \$50,000 in the Plan year following the event. Distributions for other separations from service may be delayed by the Plan Administrator up to an additional five Plan years after such termination of service. Distributions in excess of \$50,000 will be paid in substantially equal annual installments not to exceed five years.

Diversification and In-Service Distributions

Diversification is offered to participants close to retirement so that they may have the opportunity to move part of the value of their investment in company stock into investments which are more diversified. Participants who are at least age 55 with at least 10 years of participation in the plan may elect to diversify a portion of their account. Diversification is offered to each eligible participant over a six-year period. In each of the first five years, a participant may diversify up to 25 percent of the number of shares allocated to his or her account, less any shares previously diversified. In the sixth year, the percentage changes to 50 percent. Participants who elect to diversify receive a cash distribution.

In-service distributions are offered to participants who are at least 59.5 and have previously fully utilized any available diversification distributions. An eligible participant may request an in-service distribution up to 50% of their vested account balance after reduction for any diversification distributions. In-service distributions are subject to discretionary approval by the Plan Administrator on a non-discriminatory basis and certain other limitations.

IMMEDIATE HEALTH
EMPLOYEE STOCK OWNERSHIP PLAN

NOTES TO THE FINANCIAL STATEMENTS

NOTE 1: DESCRIPTION OF PLAN (CONTINUED)

Forfeitures

Forfeitures resulting from the termination of participants who are less than fully vested are used to reinstate previously forfeited accounts. Any remaining forfeitures are allocated to those participants who have completed 1,000 hours of service during the Plan year in which the forfeitures occurred, in the same manner as the Company contributions are allocated. Forfeitures of 224.71 and 541.50 shares were reallocated to participants in the years ended December 31, 2023 and 2022, respectively.

Voting Rights

The Plan Administrator has the right to direct the Trustee as to the voting of allocated and unallocated shares of Company Stock in any matter which any other shares of the Company may be voted, except that the Participants shall have the right to direct the Trustee as to the voting of stock allocated to their account in certain matters.

Put Option

Under federal income tax regulations, the employer stock that is held by the Plan and its participants and is not readily tradable on an established market, or is subject to trading limitations, includes a put option. The put option is a right to demand that the Company buy any shares of its stock distributed to participants for which there is no market. The put price is representative of the fair market value of the stock. The purpose of the put option is to ensure that the participant has the ability to ultimately obtain cash.

NOTE 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America (GAAP).

Use of Estimates

The preparation of financial statements in accordance with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

The Plan relies significantly on the use of estimates in determining the valuation of the Company's common stock, which is the primary Plan investment.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

IMMEDIATE HEALTH
EMPLOYEE STOCK OWNERSHIP PLAN

NOTES TO THE FINANCIAL STATEMENTS

NOTE 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Payment of Benefits

Benefits are recognized when paid.

Administrative Expenses

Administrative expenses may be paid either by the Plan or by the Company. The Company has historically paid the operating expenses for the Plan.

Subsequent Events

Subsequent events have been evaluated through September 20, 2024, which is the date the financial statements were available to be issued.

NOTE 3: INVESTMENTS

The Plan provides that, to the extent the Plan's administrator and trustees (the Committee) deem practicable, the custodian shall use all available cash, as directed by the Committee, to buy Company stock. If no Company stock is available for purchase, and the Committee determines that the purchase of additional Company stock is not practicable, the custodian may invest in other securities or property as directed by the Committee.

The investment in common stock of the Company is recorded at its estimated fair value at year-end, as determined by an annual independent appraisal as of the Company's fiscal year-end. The independent appraised fair value of the Company at December 31, 2023 and 2022, was \$71.10 and \$135.30 per share, respectively.

The Plan held 90,000 shares of Immediate Health Associates, Inc. common stock as of December 31, 2023 and 2022, with a cost basis of \$900,000.

NOTE 4: FAIR VALUE MEASUREMENTS

Accounting standards establish a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

IMMEDIATE HEALTH
EMPLOYEE STOCK OWNERSHIP PLAN

NOTES TO THE FINANCIAL STATEMENTS

NOTE 4: FAIR VALUE MEASUREMENTS (CONTINUED)

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

For the year ended December 31, 2023, the plan did not hold any Level 1 or Level 2 assets.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value at December 31, 2023 and 2022:

Assets at Fair Value as of December 31, 2023

	Level 3
Common stock	<u>\$ 6,399,000</u>

Assets at Fair Value as of December 31, 2022

	Level 3
Common stock	<u>\$12,177,000</u>

IMMEDIATE HEALTH
EMPLOYEE STOCK OWNERSHIP PLAN

NOTES TO THE FINANCIAL STATEMENTS

NOTE 4: FAIR VALUE MEASUREMENTS (CONTINUED)

Following is a description of the valuation methodology used for assets measured at fair value. There have been no changes in the valuation methodology used at December 31, 2023 and 2022.

Common Stock: The fair value of the Company's common stock held by the Plan is valued at fair value based upon an independent appraisal. This appraisal was based upon a combination of the market and income valuation techniques. Unobservable inputs used by the appraiser with these valuation techniques included EBITDA, net income, weighted average cost of capital, discount rate, discount for lack of marketability and market comparables.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTE 5: RELATED PARTY AND PARTY-IN-INTEREST TRANSACTIONS

Certain Plan investments include shares of the Plan Sponsor. Immediate Health Associates, Inc. is the Plan Sponsor and therefore, these transactions qualify as party-in-interest. As described in Note 1, the Company pays all Plan expenses. The Plan has a number of service providers. Such providers are parties-in-interest under ERISA.

NOTE 6: PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right to terminate the Plan subject to the provisions of ERISA. In the event of termination, each participant's account automatically becomes 100% vested. Subsequently, the interest of each participant in the trust fund will be distributed to such participant or his or her beneficiary at the time prescribed by the Plan terms and the IRC.

NOTE 7: TAX STATUS

The Plan has received a determination letter from the Internal Revenue Service (IRS) dated June 26, 2014, stating that the Plan is qualified under the Internal Revenue Code (IRC) and, therefore, the related trust is exempt from taxation. Once qualified, the Plan is required to operate in conformity with the IRC to maintain its qualification. The Plan has been amended since receiving the determination letter. However, the Plan administrator believes that the Plan is currently designed, and being operated, in compliance with the applicable requirements of the IRC. Therefore, they believe that the Plan was qualified, and the related trust was tax-exempt as of the financial statement date.

IMMEDIATE HEALTH
EMPLOYEE STOCK OWNERSHIP PLAN

NOTES TO THE FINANCIAL STATEMENTS

NOTE 7: TAX STATUS (CONTINUED)

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken a significant uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

NOTE 8: RISKS AND UNCERTAINTIES

The Plan investments consist primarily of the Company's common stock, which is exposed to various risks, such as interest rate, market, and credit risks, as well as valuation assumptions based on earnings, cash flows, and other such techniques. Due to the level of risk associated with the investment in the common stock and to uncertainties inherent in estimates and assumptions, it is at least reasonably possible that changes in the value of the common stock will occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets available for benefits.
