INDEPENDENT AUDITOR'S REPORT

To the Plan Administrator and Participants
Public Service Credit Union Cash Balance Pension Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of the Public Service Credit Union Cash Balance Pension Plan, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits and accumulated plan benefits as of December 31, 2023 and 2022, and the related statements of changes in net assets available for benefits and changes in accumulated plan benefits for the year ended December 31, 2023, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained a certification from a qualified institution as of December 31, 2023 and 2022 and for the year ended December 31, 2023 stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audits of the Financial Statements section:

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- The information in the accompanying financial statements related to assets held by and certified by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audits of the Financial Statements section of our report. We are required to be independent of the Public Service Credit Union Cash Balance Pension Plan and to meet our ethical responsibilities in accordance with the ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Public Service Credit Union Cash Balance Pension Plan's ability to continue as a going concern for one year after the date the financial statements are issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audits of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing audits in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audits.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audits in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Public Service Credit Union Cash Balance Pension Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.

- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Public Service Credit Union Cash Balance Pension Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audits, significant audit findings, and certain internal control-related matters that we identified during the audits.

Other Matters – Supplemental Schedules Required by ERISA

The supplemental schedules of assets (held at end of year) and reportable transactions are presented for purposes of additional analysis and are not a required part of the financial statements, but are supplemental information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedules that agreed to or are derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedules related to assets held by and certified by a qualified institution agrees to, or are derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

PUBLIC SERVICE CREDIT UNION CASH BALANCE PENSION PLAN

NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 2023 AND 2022

Note 1 – Description of the Plan

General

The Public Service Credit Union Cash Balance Pension Plan (the Plan) is a noncontributory defined benefit plan established by Public Service Credit Union (the Credit Union). The Plan provides for retirement, disability, and survivor death benefits and is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The following description of the Public Service Credit Union Cash Balance Pension Plan (the Plan) is provided for general information purposes only. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

Administration

The Plan Sponsor is the Credit Union. The Plan Administrator is an employee of the Credit Union and is responsible for oversight of the Plan. The Plan Administrator has formed a committee made up of Credit Union officers and members of the human resources department that determines the appropriateness of the Plan's investment offerings and monitors investment performance and fees. The Plan's Trustees are officers of the Credit Union.

The Plan's Investment Custodians are Matrix Trust Company and CMFG Life Insurance Company. The Investment Custodian holds all of the Plan's assets and executes all of the Plan's transactions. CUNA Mutual Group, an affiliate of CMFG Life Insurance Company, provides actuarial services to the Plan.

Eligibility

The Plan is a noncontributory defined benefit plan that covers any eligible employee of the Credit Union who has attained age 21 and has completed one year of service. Participants enter the Plan on the first day of the plan year following completion of the eligibility requirements.

Pension Benefits

Benefits for retired or terminated employees or their beneficiary are based on a grouping method. A participant's year of credited service multiplied by a dollar amount or a percentage of the participant's average compensation of 36 consecutive calendar months. Classification A consists of two employees with a benefit of 3% of average compensation times credited services up to 38 years. All other participants are under Classification B with a benefit of 1.842% of average compensation times credited service up to 38 years. Normal retirement age is the participant's 65th birthday.

PUBLIC SERVICE CREDIT UNION CASH BALANCE PENSION PLAN

NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 2023 AND 2022

The Plan was amended and restated effective January 1, 2020, to include a cash balance feature for all employees who became participants after April 30, 2017. The benefit formula will be based on a participant's accrued benefit determined on principal credit and interest credit. The principal credit is credited at the end of each principal credit period. The interest credit period means each plan month. The principal credit is equal to the following amount based on the group the participant is in. Group A includes participants with less than 5 years of service. For each participant of Group A, the principal credit will equal 4% of determination period compensation. Group B includes participants with 5 but less than 10 years of service. For each participant of Group B, the principal credit will equal 5% of determination period compensation. Group C includes participants with 10 or more years of service. For each participant of Group C, the principal credit will equal 6% of determination period compensation. Only participants who complete one year of service during the plan year are eligible to receive the principal credit. The interest credit rate is 4.6%.

A participant is eligible for early retirement upon attaining the age of 55 and at least 10 years of service. Those participants who elect early retirement will receive the same pension benefit as normal retirement. The normal form in which employees will receive their pension benefits is a Joint and Survivor Life Annuity (or a Life Annuity if not married), with the following exception. Employees with \$5,000 or less in accumulated pension benefits who terminate employment prior to retirement, death or disability will receive a lump sum or rollover distribution equal to the present value of their accumulated pension benefits. Employees with more than \$5,000 in accumulated pension benefits who terminate employment prior to retirement, death or disability will receive a deferred vested retirement benefit payment upon reaching normal retirement age. However, employees who terminate with less than six years of service will forfeit the right to receive their accumulated pension benefits.

Upon commencement of their retirement, an employee may elect one of several types of annuities depending on if they wish to have their spouse or beneficiary continue to receive payments upon their death after retirement. Alternatively, they may elect to receive a lump sum distribution.

Death Benefits

If a participant dies prior to commencement of a normal retirement pension, deferred vested pension, early retirement pension or disability pension, but after satisfying the vesting requirements, then the Participant's Beneficiary will receive a death benefit equal to the Actuarial Equivalent of the Vested Accrued Benefit. Payment of a minimum spouse's death benefit to a participant's surviving spouse shall commence as of the first day of the month following the later of the month in which the participant dies.

Vesting

Plan participants are subject to six-year cliff vesting for participants in the Plan prior to April 30, 2017. Effective January 1, 2018, vesting schedule is a three-year cliff. Participants also become 100% vested in employer contributions when termination of employment is the result of attaining retirement age and upon death, while still employed.

NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 2023 AND 2022

Note 2 – Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements are prepared on the accrual basis of accounting. Income from investments is recorded when it is earned. Contributions are recorded when authorized and in the period to which they pertain. Expenses are recorded in the accounting period in which they are incurred.

Estimates

The preparation of financial statements in accordance with generally accepted accounting principles in the United States of America (GAAP) requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's investment committee determines the Plan's valuation policies utilizing information provided by the investment Custodian and investment advisers. See Note 4 for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation or depreciation in fair value of investments includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Actuarial Present Value of Accumulated Benefits

Accumulated benefits are those estimated future periodic payments that are attributable under the Plan's provisions to services rendered by the employees to the valuation date. Accumulated benefits include benefits to be paid to retired or terminated employees or their beneficiaries, and current employees or their beneficiaries.

Actuaries from CUNA Mutual Group estimated the actuarial present value of accumulated benefits, which is the amount that results from applying actuarial assumptions to adjust the accumulated benefits earned by the participants to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment. The significant actuarial assumptions used in the valuations as of December 31, 2023 and 2022 were: (a) life expectancy of participants (RP 2014 combined table projected to 2024 and RP 2014 combined table projected to 2023, respectively), (b) retirement age assumptions (the assumed average age was age 65 for both years), and (c) the investment returns assumptions. The interest rate used to discount the obligation was 6.50% for both years. The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated benefits.

PUBLIC SERVICE CREDIT UNION CASH BALANCE PENSION PLAN

NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 2023 AND 2022

Interest rates used for actuarial calculations to measure the funding target are based on a modified yield curve. Benefit obligations expected to be paid in the next 5 years are discounted with a short-term corporate bond rate. Obligations expected to be paid more than 5 years but less than 20 years from now are discounted using an intermediate corporate bond rate. Obligations expected to be paid more than 20 years from now are discounted with a long-term bond rate. For the year ended December 31, 2023, those three interest rates were 4.37%, 4.96% and 4.95% for short-term, intermediate-term and long-term, respectively. For the year ended December 31, 2022, those three interest rates were 2.13%, 3.62% and 3.93% for short-term, intermediate-term and long-term, respectively.

Payment of Benefits

Benefit payments to participants and beneficiaries are recorded at the time of distribution. At the direction of the Plan's administrator, a single premium to buy an annuity for a retiring employee can be distributed. Purchased annuities are contracts under which the contract holder is obligated to pay benefits to named participants or their beneficiaries.

Fees and Expenses

Professional fees incurred to operate the Plan, such as attorney and audit fees, are paid directly by the Plan Sponsor and are excluded from these financial statements. Other fees and expenses relating to the day-to-day plan operations are paid by the Plan. These fees are recorded when paid. Investment related expenses are included in the net appreciation or depreciation in fair value of investments.

Subsequent Events

The financial statements and related disclosures include evaluation of events up through and including September 17, 2024, which is the date the financial statements were available to be issued.

On March 1, 2024, a plan amendment was enacted that froze the cash balance plan. Any employee who was not a participant as of February 29, 2024 will not accrue additional benefits under the Plan. Benefits will continue to be paid in accordance to the original plan for those who had participated before the cash balance plan was frozen.

Note 3 – Unaudited Investment Information Certified by the Custodian

Plan management has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted under such election, the following information has been certified by Matrix Trust Company as to its completeness and accuracy and was not subjected to any auditing procedures performed by the Plan's independent auditors:

1. All investment balances reflected in the accompanying statements of net assets available for benefits as of December 31, 2023 and 2022;
2. All investment activity reflected in the statement of changes in net assets available for benefits for the year ended December 31, 2023; and

PUBLIC SERVICE CREDIT UNION CASH BALANCE PENSION PLAN

NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 2023 AND 2022

3. All investment-related information included in the Supplemental Schedule H, Line 4i - Schedule of Assets (Held at End of Year) as of December 31, 2023 and the Schedule H, Line 4j - Schedule of Reportable Transactions for the year ended December 31, 2023.

Note 4 – Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified contractual term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2023 and 2022.

Mutual funds: Valued at daily closing prices as reported by the Fund. Mutual Funds held by the Plan are open-ended mutual funds that are registered with the SEC. These funds are required to publish their daily net asset value and to transact at that price. The Mutual Funds held by the Plan are deemed to be actively traded.

Stable Value Fund: Classified as Level 3 and fair value is calculated by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit-worthiness of the issuer.

The preceding methods described may produce a fair value calculation that may not be indicative of the net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

PUBLIC SERVICE CREDIT UNION CASH BALANCE PENSION PLAN

NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 2023 AND 2022

The tables below segregate all financial assets as of December 31, 2023 and 2022 that are measured at fair value on a recurring basis (at least annually) into the most appropriate level within the fair value hierarchy based on the inputs used to determine the fair value at the measurement date:

	As of December 31, 2023

Gains and losses (realized and unrealized) included in changes in net assets for the years ended December 31, 2023 and 2022 are reported in net appreciation or depreciation in fair value of investments in the statement of changes in net assets available for benefits. Transfers in and out of the Plan's Level 3 assets during the years ended December 31, 2023 and 2022 are the result of semiannual automatic rebalancing to meet investment directives established by the Trustee of the Plan.

The following table represents the Plan's Level 3 financial instruments, the valuation techniques used to measure the fair value of those financial instruments as of December 31, 2023 and 2022, respectively, and the significant unobservable inputs and the ranges of values for those inputs:

Instrument	Fair Value 12/31/2023	Fair Value 12/31/2022	Principal Valuation Technique	Significant Unobservable Inputs	Range of Significant Input Values	Weighted Average
Stable Value Fund	\$ 845,296	\$ 7,855	Discounted Cash Flows	Discount Rate	1.80% - 1.95%	1.88%

In estimating fair value of the investments in Level 3, the Investment Committee may use third-party pricing sources or appraisers. In substantiating the reasonableness of the pricing data provided by third-parties, the Investment Committee evaluates a variety of factors including review of methods and assumptions used by external sources, recently executed transactions, existing contracts, economic conditions, industry and market developments, and overall credit ratings.

Note 5 – Stable Value Fund Contract With Insurance Company

The Plan entered into a group annuity contract with CMFG Life Insurance Company (CMFG) under which the Plan must maintain a minimum deposit of \$5,000 with no required minimum annual deposits. CMFG maintains the contributions in an unallocated fund to which it adds interest at a rate of 1.95% and 1.55% for 2023 and 2022, respectively. The interest rate is subject to change on a quarterly basis. When changed, the new rate applies to all funds deposited.

NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 2023 AND 2022

Note 6 – Related Party Transactions and Party-in-Interest Transactions

Certain plan investments are managed by Matrix Trust Company who is the Plan's Investment Custodian. During the year ended December 31, 2023, the Plan paid direct compensation to the Investment Custodian for services rendered. Indirect compensation (that is netted against investment income on the statement of changes in net assets available for benefits) is paid to the Investment Custodian from total annual operating expenses charged on the balance of fund investments, depending on the particular fund. Transactions involving these investments are considered party-in-interest transactions; however, these transactions are not considered prohibited transactions under 29 CFR 408(b) of the ERISA regulations.

Note 7 – Funding Policy

The Plan Administrator's funding policy is to make annual contributions to the Plan that meet or exceed the minimum funding requirement. Pursuant to actuarial computations, \$-0- was required to be funded to the Plan for the years ended December 31, 2023 and 2022.

Note 8 – Plan Termination

Although it has not expressed any intention to do so, the Plan Sponsor has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA. Upon termination of the Plan, the rights of all participants in the amount of their benefits accrued to the date of termination, to the extent then funded become nonforfeitable.

In the event that the Plan is terminated, the net assets of the Plan will be divided among participants and beneficiaries in accordance with the following priorities:

- a. Equally among retired participants and their beneficiaries to whom payment commenced at least three years prior to the date of termination and participants who could have retired and received payments of their benefits at least three years prior to the date of termination.
- b. To all benefits guaranteed and insured by the Pension Benefit Guaranty Corporation (PBGC).
- c. To all other vested accrued benefits not insured by the PBGC.
- d. To all other accrued benefits provided under the Plan.

Any excess funds will revert to the Plan Sponsor as specified in the plan agreement.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor benefits. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date the Plan is terminated. There is a statutory ceiling, which is adjusted periodically, on the amount of an individual's monthly benefit that the PBGC guarantees.

Note 9 – Plan Amendment and Tax Status

The Plan utilizes a pre-approved plan document. This document has been filed with the Internal Revenue Service (IRS) by the document provider for purposes of obtaining a favorable opinion letter. The most recently obtained opinion letter is dated March 30, 2018. While the plan document has been amended subsequent to this date and has not yet received an updated IRS opinion letter, the Trustees believe that the Plan is currently designed and being operated in compliance with applicable requirements of the Internal Revenue Code and, therefore, the Plan qualifies under Section 401(a) and is tax-exempt as of December 31, 2023.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the applicable taxing authorities. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

The Plan permitted provisions of SECURE Act 2.0 during the year ended December 31, 2023. Written amendments to the plan document to reflect these operational changes will be adopted at a later date in accordance with the deadlines pursuant to applicable laws and IRS guidance.

Note 10 – Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Plan contributions are made and the actuarial present value of accumulated benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimation and assumption processes, it is at least reasonably possible that changes in these estimates and assumptions in the near term could materially affect the amounts reported and disclosed in the financial statements.

Note 11 – Nonparticipant-Directed Investments

All of the Plan's investments are nonparticipant-directed. Therefore, the information presented within the financial statements at pages 4 and 5 reflects the net assets and significant components of the changes in net assets relating to the nonparticipant-directed investments.
