Report of Independent Auditors

The Plan Administrator of
Darigold, Inc. 401(k) Savings Plan

Report on the Audits of the Financial Statements

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of Darigold, Inc. 401(k) Savings Plan, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2023 and 2022, and the related statement of changes in net assets available for benefits for the year ended December 31, 2023, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of Darigold, Inc. 401(k) Savings Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 2023 and 2022, and for the year ended December 31, 2023, stating that the certified investment information, as described in Note 5 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audits of the Financial Statements section:

- the amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America (GAAP).
- the information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audits of the Financial Statements section of our report. We are required to be independent of Darigold, Inc. 401(k) Savings Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Darigold, Inc. 401(k) Savings Plan's ability to continue as a going concern within one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audits of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- exercise professional judgment and maintain professional skepticism throughout the audits.
- identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.

- obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Darigold, Inc. 401(k) Savings Plan's internal control. Accordingly, no such opinion is expressed.
- evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Darigold, Inc. 401(k) Savings Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audits, significant audit findings, and certain internal control-related matters that we identified during the audits.

Other Matter

Supplemental Schedules Required by ERISA

The supplemental schedules Schedule H, line 4(i) – schedule of assets (held at year end) and Schedule H, line 4(a) – schedule of delinquent participant contributions as of and for the year ended December 31, 2023, are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- the form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosures under ERISA.
- the information in the supplemental schedules related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Darigold, Inc. 401(k) Savings Plan

Notes to Financial Statements

Note 1 – Description of Plan

The following description of the Darigold, Inc. 401(k) Savings Plan (the Plan) provides only general information. Participants should refer to the Plan document, as amended, for more complete information regarding the Plan provisions.

General – The Plan is a defined contribution plan established by Darigold, Inc. (the Company) under the provisions of Section 401(a) of the Internal Revenue Code (IRC), which includes a qualified cash or deferred arrangement as described in Section 401(k) of the IRC. In addition, the Plan meets the 401(k) safe harbor provisions of the IRC. The Plan is also subject to provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Eligibility – All regular employees who are not non-resident aliens and who are not members of a collective bargaining unit become participants in the Plan on the first day of the month following 30 days of service.

Contributions – Employees may elect to make pre-tax or Roth elective deferrals up to 85% of their annual compensation, as defined by the Plan, subject to limitations under the IRC.

The Company matches contributions up to a maximum of 4% of employee compensation, as defined by the Plan, and contributes an additional 5% of compensation as employer non-matching contributions to all eligible participants.

Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans (rollover contributions).

All eligible employees, who have not elected otherwise, have an automatic deferral contribution of 3% withheld from the employees' compensation as pre-tax 401(k) deferral contributions.

Investment options – Participants direct the investment of current account balances and future contributions among investment funds offered under the Plan. The funds include registered investment company funds and a collective trust fund offered through Fidelity Investments. Additionally, participants may elect to enroll in Brokerage Link, which enables investment in stocks, funds, and other investment options. Participants may change their investment election and transfer amounts between funds on a daily basis. Those employees who do not select an investment fund are automatically invested in a default investment option.

Risks and uncertainties – The Plan provides for various investment fund options which in turn invest in a combination of stocks, bonds, and other investment securities. Investment securities, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility risks. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and those changes could materially affect the amounts reported in the statements of net assets available for benefits.

Vesting – Participants are fully vested in their contributions. Of the 5% of employer non-matching contribution made to a participant's account each payroll period, 3% will be fully vested at all times.

Darigold, Inc. 401(k) Savings Plan

Notes to Financial Statements

The vesting provisions for the employer matching and 2% non-matching contributions are subject to a modified 2-year schedule as follows:

<u>Years of Service</u>	<u>Vested Percentage</u>
Less than 1	0%
1	50%
2	100%

For employees eligible prior to January 1, 2009, upon attainment of age 50 and one year of service, disability or death, participants or their beneficiaries become fully vested. For employees eligible on or after January 1, 2009, upon attainment of age 55 and one year of service, disability or death, participants or their beneficiaries become fully vested.

Forfeitures – Forfeitures are the nonvested portion of a participant's account that is lost upon termination of employment. Forfeitures are used to reduce future company matching and non-matching contributions. Forfeitures were used to reduce employer contributions by \$491,606 during 2023. Unallocated forfeitures as of December 31, 2023 and 2022, totaled \$281,112 and \$422,207, respectively.

Plan administration – Darigold, Inc. has been designated as the administrator of the Plan. Fidelity Management Trust Company serves as the Plan trustee.

Participant accounts – Each participant's account is credited with the participant's contribution, the Company's contributions, and an allocation of Plan earnings or losses and investment expenses. Participant accounts are valued on a daily basis based on quoted market prices as determined by the trustee. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Benefit payments – The value of the participant's individual account is payable as a lump-sum payment upon severance from employment. If the participant's severance from employment is for any reason other than death, and the vested balance in the account exceeds \$5,000, the participant is responsible for directing the method and timing of distribution. If the participant's vested account balance does not exceed \$5,000, the account balance will automatically be distributed as a lump sum payment on the first distribution date following severance from employment. Participants maintaining employment can elect to receive all or any portion of pre-tax contributions made to the Plan if the payment meets the conditions of a hardship withdrawal.

Notes receivable from participants – A participant may borrow up to 50% of his or her vested account balance up to a maximum of \$50,000. Loans are secured by the balance of the participant's account. Principal and interest on loans are repayable through payroll deductions. All new loans must be repaid within a period of five years. As of December 31, 2023, the interest rate on outstanding loan balances is between 4.25% and 9.50% with varying maturity dates through December 2028.

Darigold, Inc. 401(k) Savings Plan

Notes to Financial Statements

Note 2 – Summary of Significant Accounting Policies

Basis of accounting – The accompanying financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America, using the accrual basis of accounting.

Investment valuation – Investments are stated at fair value as certified by the Plan's trustee, Fidelity Management Trust Company.

Fair value is the price that would be received to sell an asset or paid to transfer a liability (i.e., the exit price) in an orderly transaction between market participants at the measurement date (Note 3).

Income recognition – Interest income is recorded on the accrual basis. Dividend income is recorded on the ex-dividend date. Purchases and sales of securities are recorded on a trade date basis.

Net appreciation in fair value of investments – Net appreciation in fair value of investments represents the change in fair value of investments from one period to the next including realized gains and losses.

Notes receivable from participants – Notes receivable from participants are measured at amortized cost, which represents the unpaid principal balance plus accrued but unpaid interest. Delinquent notes receivable from participants are recorded as distributions based on the terms of the Plan document.

Payment of benefits – Benefits are recorded when paid.

Administrative expenses – The Company pays routine administrative expenses of the Plan. Loan fees and trade fees associated with the Brokerage Link accounts are charged to participants.

Use of estimates – The preparation of financial statements in accordance with generally accepted accounting principles requires the use of estimates and assumptions that may affect certain amounts and disclosures. Accordingly, actual results could differ from those estimates.

Subsequent events – Subsequent events are events or transactions that occur after the statement of net assets available for benefits date but before the financial statements are issued. The Plan recognizes in the financial statements the effects of all subsequent events that provide additional evidence about conditions that existed at the date of the statement of net assets available for benefits, including the estimates inherent in the process of preparing the financial statements. The Plan's financial statements do not recognize subsequent events that provide evidence about conditions that did not exist at the date of the statement of net assets available for benefits but arose after the statement of net assets available for benefits date and before the financial statements are issued. The Plan has evaluated subsequent events through September 26, 2024, which is the date the financial statements were available to be issued.

Darigold, Inc. 401(k) Savings Plan

Notes to Financial Statements

Note 3 – Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3).

The three levels of the fair value hierarchy are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; and inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2023 and 2022.

Registered investment companies – Shares of registered investment company funds are valued using the net asset value (NAV) provided by the administrator of the fund. The NAV is based on the value of the underlying assets owned by the fund, minus its liabilities, and then divided by the number of shares outstanding. The NAV is a quoted price in an active market and is classified within Level 1 of the valuation hierarchy.

Brokerage link – Accounts consist primarily of mutual funds, common stocks, options, warrants, and cash equivalents that are valued on the basis of readily determinable market prices. These assets are generally classified within Level 1 of the valuation hierarchy.

Collective trust – Units held in the collective trust are valued using the NAV practical expedient of the collective trust as reported by the trust managers. The NAV practical expedient is based on the fair value of the underlying assets owned by the fund, minus its liabilities, and then divided by the number of units outstanding. The collective trust has a daily redemption frequency with no restrictions or notice period for redeeming on the measurement date.

Darigold, Inc. 401(k) Savings Plan

Notes to Financial Statements

The valuation methods used by the Plan may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables disclose by level the fair value hierarchy as it pertains to Plan investments:

Investment Assets at Fair Value as of December 31, 2023

Note 4 – Tax Status

The Plan document is a prototype standardized defined contribution plan that received a favorable opinion letter from the Internal Revenue Service on June 30, 2020, which stated that the Plan, as then designed, was in accordance with applicable sections of the IRC. Although the Plan has been amended since receiving the opinion letter, the Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

In accordance with guidance on accounting for uncertainty in income taxes, the Plan administrator has evaluated the Plan's tax positions and does not believe the Plan has any uncertain tax positions that require disclosure or adjustment to the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Darigold, Inc. 401(k) Savings Plan

Notes to Financial Statements

Note 5 – Information Certified by the Trustee

The Plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Fidelity Management Trust Company, the trustee of the Plan, has certified to the completeness and accuracy of:

- Investments and notes receivable from participants reflected on the accompanying statements of net assets available for benefits as of December 31, 2023 and 2022.
- Net appreciation in fair value of investments, interest and dividend income, and interest income on notes receivable from participants reflected on the accompanying statement of changes in net assets available for benefits for the year ended December 31, 2023.
- Investments and participant loans reflected on the schedule of assets (held at end of year) as of December 31, 2023.

Note 6 – Party-In-Interest Transactions

Plan investments are managed by the Plan's trustee, Fidelity Management Trust Company; therefore, transactions with the trustee and related entities (collectively, Fidelity) qualify as party-in-interest transactions.

Note 7 – Form 5500

The Form 5500 has certain items that differ from amounts shown on the accompanying financial statements. These differences represent items that relate to classification only and had no effect on net assets available for benefits for either period.

Note 8 – Plan Termination

Although it has expressed no intent to do so, the Company has the right to terminate the Plan subject to the provisions of ERISA. In the event of a complete or partial termination of the Plan, or upon complete discontinuance of contributions, the entire interest of each of the affected participants will become fully vested.

Note 9 – Delinquent Participant Contributions

During 2022, the Plan had a late deposit of participant contributions. The Company made a contribution outside of its remittance policy in March 2022 of \$10,307. The contribution did not contain a correction for lost earnings for the delinquent contribution.

During 2023, the Plan had a late deposit of a participant loan repayment. The Company made the contribution outside of its remittance policy in August 2023 for \$299. The loan repayment was corrected outside the Voluntary Fiduciary Correction Program (VFCP) during 2023.

Report of Independent Auditors

The Plan Administrator of
Darigold, Inc. 401(k) Savings Plan

Report on the Audits of the Financial Statements

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of Darigold, Inc. 401(k) Savings Plan, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2023 and 2022, and the related statement of changes in net assets available for benefits for the year ended December 31, 2023, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of Darigold, Inc. 401(k) Savings Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 2023 and 2022, and for the year ended December 31, 2023, stating that the certified investment information, as described in Note 5 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audits of the Financial Statements section:

- the amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America (GAAP).
- the information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audits of the Financial Statements section of our report. We are required to be independent of Darigold, Inc. 401(k) Savings Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Darigold, Inc. 401(k) Savings Plan's ability to continue as a going concern within one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audits of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- exercise professional judgment and maintain professional skepticism throughout the audits.
- identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.

- obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Darigold, Inc. 401(k) Savings Plan's internal control. Accordingly, no such opinion is expressed.
- evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Darigold, Inc. 401(k) Savings Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audits, significant audit findings, and certain internal control-related matters that we identified during the audits.

Other Matter

Supplemental Schedules Required by ERISA

The supplemental schedules Schedule H, line 4(i) – schedule of assets (held at year end) and Schedule H, line 4(a) – schedule of delinquent participant contributions as of and for the year ended December 31, 2023, are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- the form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosures under ERISA.
- the information in the supplemental schedules related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Darigold, Inc. 401(k) Savings Plan

Notes to Financial Statements

Note 1 – Description of Plan

The following description of the Darigold, Inc. 401(k) Savings Plan (the Plan) provides only general information. Participants should refer to the Plan document, as amended, for more complete information regarding the Plan provisions.

General – The Plan is a defined contribution plan established by Darigold, Inc. (the Company) under the provisions of Section 401(a) of the Internal Revenue Code (IRC), which includes a qualified cash or deferred arrangement as described in Section 401(k) of the IRC. In addition, the Plan meets the 401(k) safe harbor provisions of the IRC. The Plan is also subject to provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Eligibility – All regular employees who are not non-resident aliens and who are not members of a collective bargaining unit become participants in the Plan on the first day of the month following 30 days of service.

Contributions – Employees may elect to make pre-tax or Roth elective deferrals up to 85% of their annual compensation, as defined by the Plan, subject to limitations under the IRC.

The Company matches contributions up to a maximum of 4% of employee compensation, as defined by the Plan, and contributes an additional 5% of compensation as employer non-matching contributions to all eligible participants.

Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans (rollover contributions).

All eligible employees, who have not elected otherwise, have an automatic deferral contribution of 3% withheld from the employees' compensation as pre-tax 401(k) deferral contributions.

Investment options – Participants direct the investment of current account balances and future contributions among investment funds offered under the Plan. The funds include registered investment company funds and a collective trust fund offered through Fidelity Investments. Additionally, participants may elect to enroll in Brokerage Link, which enables investment in stocks, funds, and other investment options. Participants may change their investment election and transfer amounts between funds on a daily basis. Those employees who do not select an investment fund are automatically invested in a default investment option.

Risks and uncertainties – The Plan provides for various investment fund options which in turn invest in a combination of stocks, bonds, and other investment securities. Investment securities, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility risks. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and those changes could materially affect the amounts reported in the statements of net assets available for benefits.

Vesting – Participants are fully vested in their contributions. Of the 5% of employer non-matching contribution made to a participant's account each payroll period, 3% will be fully vested at all times.

Darigold, Inc. 401(k) Savings Plan

Notes to Financial Statements

The vesting provisions for the employer matching and 2% non-matching contributions are subject to a modified 2-year schedule as follows:

<u>Years of Service</u>	<u>Vested Percentage</u>
Less than 1	0%
1	50%
2	100%

For employees eligible prior to January 1, 2009, upon attainment of age 50 and one year of service, disability or death, participants or their beneficiaries become fully vested. For employees eligible on or after January 1, 2009, upon attainment of age 55 and one year of service, disability or death, participants or their beneficiaries become fully vested.

Forfeitures – Forfeitures are the nonvested portion of a participant's account that is lost upon termination of employment. Forfeitures are used to reduce future company matching and non-matching contributions. Forfeitures were used to reduce employer contributions by \$491,606 during 2023. Unallocated forfeitures as of December 31, 2023 and 2022, totaled \$281,112 and \$422,207, respectively.

Plan administration – Darigold, Inc. has been designated as the administrator of the Plan. Fidelity Management Trust Company serves as the Plan trustee.

Participant accounts – Each participant's account is credited with the participant's contribution, the Company's contributions, and an allocation of Plan earnings or losses and investment expenses. Participant accounts are valued on a daily basis based on quoted market prices as determined by the trustee. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Benefit payments – The value of the participant's individual account is payable as a lump-sum payment upon severance from employment. If the participant's severance from employment is for any reason other than death, and the vested balance in the account exceeds \$5,000, the participant is responsible for directing the method and timing of distribution. If the participant's vested account balance does not exceed \$5,000, the account balance will automatically be distributed as a lump sum payment on the first distribution date following severance from employment. Participants maintaining employment can elect to receive all or any portion of pre-tax contributions made to the Plan if the payment meets the conditions of a hardship withdrawal.

Notes receivable from participants – A participant may borrow up to 50% of his or her vested account balance up to a maximum of \$50,000. Loans are secured by the balance of the participant's account. Principal and interest on loans are repayable through payroll deductions. All new loans must be repaid within a period of five years. As of December 31, 2023, the interest rate on outstanding loan balances is between 4.25% and 9.50% with varying maturity dates through December 2028.

Notes to Financial Statements

Note 2 – Summary of Significant Accounting Policies

Basis of accounting – The accompanying financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America, using the accrual basis of accounting.

Investment valuation – Investments are stated at fair value as certified by the Plan's trustee, Fidelity Management Trust Company.

Fair value is the price that would be received to sell an asset or paid to transfer a liability (i.e., the exit price) in an orderly transaction between market participants at the measurement date (Note 3).

Income recognition – Interest income is recorded on the accrual basis. Dividend income is recorded on the ex-dividend date. Purchases and sales of securities are recorded on a trade date basis.

Net appreciation in fair value of investments – Net appreciation in fair value of investments represents the change in fair value of investments from one period to the next including realized gains and losses.

Notes receivable from participants – Notes receivable from participants are measured at amortized cost, which represents the unpaid principal balance plus accrued but unpaid interest. Delinquent notes receivable from participants are recorded as distributions based on the terms of the Plan document.

Payment of benefits – Benefits are recorded when paid.

Administrative expenses – The Company pays routine administrative expenses of the Plan. Loan fees and trade fees associated with the Brokerage Link accounts are charged to participants.

Use of estimates – The preparation of financial statements in accordance with generally accepted accounting principles requires the use of estimates and assumptions that may affect certain amounts and disclosures. Accordingly, actual results could differ from those estimates.

Subsequent events – Subsequent events are events or transactions that occur after the statement of net assets available for benefits date but before the financial statements are issued. The Plan recognizes in the financial statements the effects of all subsequent events that provide additional evidence about conditions that existed at the date of the statement of net assets available for benefits, including the estimates inherent in the process of preparing the financial statements. The Plan's financial statements do not recognize subsequent events that provide evidence about conditions that did not exist at the date of the statement of net assets available for benefits but arose after the statement of net assets available for benefits date and before the financial statements are issued. The Plan has evaluated subsequent events through September 26, 2024, which is the date the financial statements were available to be issued.

Notes to Financial Statements

Note 3 – Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3).

The three levels of the fair value hierarchy are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; and inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2023 and 2022.

Registered investment companies – Shares of registered investment company funds are valued using the net asset value (NAV) provided by the administrator of the fund. The NAV is based on the value of the underlying assets owned by the fund, minus its liabilities, and then divided by the number of shares outstanding. The NAV is a quoted price in an active market and is classified within Level 1 of the valuation hierarchy.

Brokerage link – Accounts consist primarily of mutual funds, common stocks, options, warrants, and cash equivalents that are valued on the basis of readily determinable market prices. These assets are generally classified within Level 1 of the valuation hierarchy.

Collective trust – Units held in the collective trust are valued using the NAV practical expedient of the collective trust as reported by the trust managers. The NAV practical expedient is based on the fair value of the underlying assets owned by the fund, minus its liabilities, and then divided by the number of units outstanding. The collective trust has a daily redemption frequency with no restrictions or notice period for redeeming on the measurement date.

Darigold, Inc. 401(k) Savings Plan

Notes to Financial Statements

The valuation methods used by the Plan may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables disclose by level the fair value hierarchy as it pertains to Plan investments:

Investment Assets at Fair Value as of December 31, 2023				
	Level 1	Level 2	Level 3	Total

Note 4 – Tax Status

The Plan document is a prototype standardized defined contribution plan that received a favorable opinion letter from the Internal Revenue Service on June 30, 2020, which stated that the Plan, as then designed, was in accordance with applicable sections of the IRC. Although the Plan has been amended since receiving the opinion letter, the Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

In accordance with guidance on accounting for uncertainty in income taxes, the Plan administrator has evaluated the Plan's tax positions and does not believe the Plan has any uncertain tax positions that require disclosure or adjustment to the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Darigold, Inc. 401(k) Savings Plan

Notes to Financial Statements

Note 5 – Information Certified by the Trustee

The Plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Fidelity Management Trust Company, the trustee of the Plan, has certified to the completeness and accuracy of:

- Investments and notes receivable from participants reflected on the accompanying statements of net assets available for benefits as of December 31, 2023 and 2022.
- Net appreciation in fair value of investments, interest and dividend income, and interest income on notes receivable from participants reflected on the accompanying statement of changes in net assets available for benefits for the year ended December 31, 2023.
- Investments and participant loans reflected on the schedule of assets (held at end of year) as of December 31, 2023.

Note 6 – Party-In-Interest Transactions

Plan investments are managed by the Plan's trustee, Fidelity Management Trust Company; therefore, transactions with the trustee and related entities (collectively, Fidelity) qualify as party-in-interest transactions.

Note 7 – Form 5500

The Form 5500 has certain items that differ from amounts shown on the accompanying financial statements. These differences represent items that relate to classification only and had no effect on net assets available for benefits for either period.

Note 8 – Plan Termination

Although it has expressed no intent to do so, the Company has the right to terminate the Plan subject to the provisions of ERISA. In the event of a complete or partial termination of the Plan, or upon complete discontinuance of contributions, the entire interest of each of the affected participants will become fully vested.

Note 9 – Delinquent Participant Contributions

During 2022, the Plan had a late deposit of participant contributions. The Company made a contribution outside of its remittance policy in March 2022 of \$10,307. The contribution did not contain a correction for lost earnings for the delinquent contribution.

During 2023, the Plan had a late deposit of a participant loan repayment. The Company made the contribution outside of its remittance policy in August 2023 for \$299. The loan repayment was corrected outside the Voluntary Fiduciary Correction Program (VFCP) during 2023.

Report of Independent Auditors

The Plan Administrator of
Darigold, Inc. 401(k) Savings Plan

Report on the Audits of the Financial Statements

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of Darigold, Inc. 401(k) Savings Plan, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2023 and 2022, and the related statement of changes in net assets available for benefits for the year ended December 31, 2023, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of Darigold, Inc. 401(k) Savings Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 2023 and 2022, and for the year ended December 31, 2023, stating that the certified investment information, as described in Note 5 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audits of the Financial Statements section:

- the amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America (GAAP).
- the information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audits of the Financial Statements section of our report. We are required to be independent of Darigold, Inc. 401(k) Savings Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Darigold, Inc. 401(k) Savings Plan's ability to continue as a going concern within one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audits of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- exercise professional judgment and maintain professional skepticism throughout the audits.
- identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.

- obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Darigold, Inc. 401(k) Savings Plan's internal control. Accordingly, no such opinion is expressed.
- evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Darigold, Inc. 401(k) Savings Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audits, significant audit findings, and certain internal control-related matters that we identified during the audits.

Other Matter

Supplemental Schedules Required by ERISA

The supplemental schedules Schedule H, line 4(i) – schedule of assets (held at year end) and Schedule H, line 4(a) – schedule of delinquent participant contributions as of and for the year ended December 31, 2023, are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- the form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosures under ERISA.
- the information in the supplemental schedules related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Darigold, Inc. 401(k) Savings Plan

Notes to Financial Statements

Note 1 – Description of Plan

The following description of the Darigold, Inc. 401(k) Savings Plan (the Plan) provides only general information. Participants should refer to the Plan document, as amended, for more complete information regarding the Plan provisions.

General – The Plan is a defined contribution plan established by Darigold, Inc. (the Company) under the provisions of Section 401(a) of the Internal Revenue Code (IRC), which includes a qualified cash or deferred arrangement as described in Section 401(k) of the IRC. In addition, the Plan meets the 401(k) safe harbor provisions of the IRC. The Plan is also subject to provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Eligibility – All regular employees who are not non-resident aliens and who are not members of a collective bargaining unit become participants in the Plan on the first day of the month following 30 days of service.

Contributions – Employees may elect to make pre-tax or Roth elective deferrals up to 85% of their annual compensation, as defined by the Plan, subject to limitations under the IRC.

The Company matches contributions up to a maximum of 4% of employee compensation, as defined by the Plan, and contributes an additional 5% of compensation as employer non-matching contributions to all eligible participants.

Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans (rollover contributions).

All eligible employees, who have not elected otherwise, have an automatic deferral contribution of 3% withheld from the employees' compensation as pre-tax 401(k) deferral contributions.

Investment options – Participants direct the investment of current account balances and future contributions among investment funds offered under the Plan. The funds include registered investment company funds and a collective trust fund offered through Fidelity Investments. Additionally, participants may elect to enroll in Brokerage Link, which enables investment in stocks, funds, and other investment options. Participants may change their investment election and transfer amounts between funds on a daily basis. Those employees who do not select an investment fund are automatically invested in a default investment option.

Risks and uncertainties – The Plan provides for various investment fund options which in turn invest in a combination of stocks, bonds, and other investment securities. Investment securities, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility risks. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and those changes could materially affect the amounts reported in the statements of net assets available for benefits.

Vesting – Participants are fully vested in their contributions. Of the 5% of employer non-matching contribution made to a participant's account each payroll period, 3% will be fully vested at all times.

Darigold, Inc. 401(k) Savings Plan

Notes to Financial Statements

The vesting provisions for the employer matching and 2% non-matching contributions are subject to a modified 2-year schedule as follows:

<u>Years of Service</u>	<u>Vested Percentage</u>
Less than 1	0%
1	50%
2	100%

For employees eligible prior to January 1, 2009, upon attainment of age 50 and one year of service, disability or death, participants or their beneficiaries become fully vested. For employees eligible on or after January 1, 2009, upon attainment of age 55 and one year of service, disability or death, participants or their beneficiaries become fully vested.

Forfeitures – Forfeitures are the nonvested portion of a participant's account that is lost upon termination of employment. Forfeitures are used to reduce future company matching and non-matching contributions. Forfeitures were used to reduce employer contributions by \$491,606 during 2023. Unallocated forfeitures as of December 31, 2023 and 2022, totaled \$281,112 and \$422,207, respectively.

Plan administration – Darigold, Inc. has been designated as the administrator of the Plan. Fidelity Management Trust Company serves as the Plan trustee.

Participant accounts – Each participant's account is credited with the participant's contribution, the Company's contributions, and an allocation of Plan earnings or losses and investment expenses. Participant accounts are valued on a daily basis based on quoted market prices as determined by the trustee. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Benefit payments – The value of the participant's individual account is payable as a lump-sum payment upon severance from employment. If the participant's severance from employment is for any reason other than death, and the vested balance in the account exceeds \$5,000, the participant is responsible for directing the method and timing of distribution. If the participant's vested account balance does not exceed \$5,000, the account balance will automatically be distributed as a lump sum payment on the first distribution date following severance from employment. Participants maintaining employment can elect to receive all or any portion of pre-tax contributions made to the Plan if the payment meets the conditions of a hardship withdrawal.

Notes receivable from participants – A participant may borrow up to 50% of his or her vested account balance up to a maximum of \$50,000. Loans are secured by the balance of the participant's account. Principal and interest on loans are repayable through payroll deductions. All new loans must be repaid within a period of five years. As of December 31, 2023, the interest rate on outstanding loan balances is between 4.25% and 9.50% with varying maturity dates through December 2028.

Notes to Financial Statements

Note 2 – Summary of Significant Accounting Policies

Basis of accounting – The accompanying financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America, using the accrual basis of accounting.

Investment valuation – Investments are stated at fair value as certified by the Plan's trustee, Fidelity Management Trust Company.

Fair value is the price that would be received to sell an asset or paid to transfer a liability (i.e., the exit price) in an orderly transaction between market participants at the measurement date (Note 3).

Income recognition – Interest income is recorded on the accrual basis. Dividend income is recorded on the ex-dividend date. Purchases and sales of securities are recorded on a trade date basis.

Net appreciation in fair value of investments – Net appreciation in fair value of investments represents the change in fair value of investments from one period to the next including realized gains and losses.

Notes receivable from participants – Notes receivable from participants are measured at amortized cost, which represents the unpaid principal balance plus accrued but unpaid interest. Delinquent notes receivable from participants are recorded as distributions based on the terms of the Plan document.

Payment of benefits – Benefits are recorded when paid.

Administrative expenses – The Company pays routine administrative expenses of the Plan. Loan fees and trade fees associated with the Brokerage Link accounts are charged to participants.

Use of estimates – The preparation of financial statements in accordance with generally accepted accounting principles requires the use of estimates and assumptions that may affect certain amounts and disclosures. Accordingly, actual results could differ from those estimates.

Subsequent events – Subsequent events are events or transactions that occur after the statement of net assets available for benefits date but before the financial statements are issued. The Plan recognizes in the financial statements the effects of all subsequent events that provide additional evidence about conditions that existed at the date of the statement of net assets available for benefits, including the estimates inherent in the process of preparing the financial statements. The Plan's financial statements do not recognize subsequent events that provide evidence about conditions that did not exist at the date of the statement of net assets available for benefits but arose after the statement of net assets available for benefits date and before the financial statements are issued. The Plan has evaluated subsequent events through September 26, 2024, which is the date the financial statements were available to be issued.

Note 3 – Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3).

The three levels of the fair value hierarchy are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; and inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2023 and 2022.

Registered investment companies – Shares of registered investment company funds are valued using the net asset value (NAV) provided by the administrator of the fund. The NAV is based on the value of the underlying assets owned by the fund, minus its liabilities, and then divided by the number of shares outstanding. The NAV is a quoted price in an active market and is classified within Level 1 of the valuation hierarchy.

Brokerage link – Accounts consist primarily of mutual funds, common stocks, options, warrants, and cash equivalents that are valued on the basis of readily determinable market prices. These assets are generally classified within Level 1 of the valuation hierarchy.

Collective trust – Units held in the collective trust are valued using the NAV practical expedient of the collective trust as reported by the trust managers. The NAV practical expedient is based on the fair value of the underlying assets owned by the fund, minus its liabilities, and then divided by the number of units outstanding. The collective trust has a daily redemption frequency with no restrictions or notice period for redeeming on the measurement date.

Darigold, Inc. 401(k) Savings Plan

Notes to Financial Statements

The valuation methods used by the Plan may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables disclose by level the fair value hierarchy as it pertains to Plan investments:

Investment Assets at Fair Value as of December 31, 2023

Note 4 – Tax Status

The Plan document is a prototype standardized defined contribution plan that received a favorable opinion letter from the Internal Revenue Service on June 30, 2020, which stated that the Plan, as then designed, was in accordance with applicable sections of the IRC. Although the Plan has been amended since receiving the opinion letter, the Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

In accordance with guidance on accounting for uncertainty in income taxes, the Plan administrator has evaluated the Plan's tax positions and does not believe the Plan has any uncertain tax positions that require disclosure or adjustment to the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Darigold, Inc. 401(k) Savings Plan

Notes to Financial Statements

Note 5 – Information Certified by the Trustee

The Plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Fidelity Management Trust Company, the trustee of the Plan, has certified to the completeness and accuracy of:

- Investments and notes receivable from participants reflected on the accompanying statements of net assets available for benefits as of December 31, 2023 and 2022.
- Net appreciation in fair value of investments, interest and dividend income, and interest income on notes receivable from participants reflected on the accompanying statement of changes in net assets available for benefits for the year ended December 31, 2023.
- Investments and participant loans reflected on the schedule of assets (held at end of year) as of December 31, 2023.

Note 6 – Party-In-Interest Transactions

Plan investments are managed by the Plan's trustee, Fidelity Management Trust Company; therefore, transactions with the trustee and related entities (collectively, Fidelity) qualify as party-in-interest transactions.

Note 7 – Form 5500

The Form 5500 has certain items that differ from amounts shown on the accompanying financial statements. These differences represent items that relate to classification only and had no effect on net assets available for benefits for either period.

Note 8 – Plan Termination

Although it has expressed no intent to do so, the Company has the right to terminate the Plan subject to the provisions of ERISA. In the event of a complete or partial termination of the Plan, or upon complete discontinuance of contributions, the entire interest of each of the affected participants will become fully vested.

Note 9 – Delinquent Participant Contributions

During 2022, the Plan had a late deposit of participant contributions. The Company made a contribution outside of its remittance policy in March 2022 of \$10,307. The contribution did not contain a correction for lost earnings for the delinquent contribution.

During 2023, the Plan had a late deposit of a participant loan repayment. The Company made the contribution outside of its remittance policy in August 2023 for \$299. The loan repayment was corrected outside the Voluntary Fiduciary Correction Program (VFCP) during 2023.
