Report of Independent Auditors

To the Board of Directors
Vanderbilt University Medical Center Retirement Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of Vanderbilt University Medical Center Retirement Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2023 and 2022, and the related statement of changes in net assets available for benefits for the year ended December 31, 2023, and the related notes (collectively referred to as the “financial statements”).

Management, having determined it is permissible in the circumstances, has elected to have the audits of the financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor’s Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor’s Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 2023 and 2022, and for the year ended December 31, 2023, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor’s Responsibilities for the Audit of the Financial Statements section

- the amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

- the information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the 2023 Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a

material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control related matters that we identified during the audit.

Other Matter

Supplemental Schedule Required by ERISA

The supplemental schedule of assets (held at end of year) as of December 31, 2023, (referred to as the “supplemental schedule”), is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor’s Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the Department of Labor’s Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion

- the form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the Department of Labor’s Rules and Regulations for Reporting and Disclosure under ERISA.
- the information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Vanderbilt University Medical Center Retirement Plan

Notes to Financial Statements

December 31, 2023

1. Description of Plan

The following description of the Vanderbilt University Medical Center Retirement Plan (the Plan) provides only general information. Vanderbilt University Medical Center (Medical Center or Plan Sponsor) is the plan sponsor. Participants should refer to the Plan document and summary plan description for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan which was adopted on April 30, 2016, to provide retirement benefits for employees of the Medical Center. The assets of the active employees of the Medical Center were transferred into the Plan from the pre-existing Vanderbilt University Retirement Plan. The Plan is comprised of two sub-plans, the Vanderbilt University Medical Center Retirement Plan (VUMC Plan) and the New Faculty Plan. The VUMC Plan covers substantially all employees except for post-doctoral fellows or trainees performing services that are exempt from social security taxes, employees who work less than 20 hours per week, and nonresident aliens; and those employees who are not eligible for the New Faculty Plan. The New Faculty Plan covers all newly hired faculty who are not highly compensated. Eligible employees will cease to be eligible to participate in the New Faculty Plan once he or she ceases to be a faculty employee, ceases to be a non-highly compensated employee, or has completed one year of eligibility service. At that time they will be rolled into the VUMC Plan. No employee may participate in the VUMC Plan and the New Faculty Plan at the same time. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

Eligible retirement plan contributions to the Plan are deductible by the participants for federal income tax purposes under Section 403(b) of the Internal Revenue Code (IRC). Participants may also contribute amounts representing distributions from other qualified retirement plans. Participants may elect to contribute their voluntary contributions as either pre-tax deferrals or after-tax Roth deferrals. Participant contributions are permitted up to the maximum amount allowed by the IRC.

Vanderbilt University Medical Center Retirement Plan

Notes to Financial Statements (continued)

1. Description of Plan (continued)

Eligible employees in the Plan that have completed one year of service must make mandatory deferrals of 3% of compensation (6.47% for employees of Vanderbilt Medical Group). The Medical Center makes mandatory matching contributions on mandatory deferrals of 100% up to 3%. The following employees are not required to make mandatory deferrals or receive mandatory matching contributions:

- Employees who are not yet age 21
- Employees in a collective bargaining unit who participate in a union-sponsored plan
- Full-time temporary faculty members
- Part-time faculty members
- Employees of Vanderbilt Temporary Services or the temporary nurse registry staff
- Certain faculty members, as shown in the Plan document

Eligible employees in the Plan can make elective deferrals. Once eligible for the elective deferrals, employees will receive a match of 100% of the employee's elective deferrals up to 2%, (or up to 3% for the Vanderbilt Medical Group). For eligible employees with one year of service in a collective bargaining unit who have elected not to participate in the union-sponsored plan, the match is 100% of elective deferrals up to 5% of their compensation. Plan Sponsor contributions may not exceed the maximum amount allowable for federal income tax purposes.

Participant Accounts

Each participant's account is credited (charged) with the participant's contributions, an allocation of Plan Sponsor contributions, investment earnings (losses) and administrative expenses. Allocations are based on participant's compensation or account balances as defined in the Plan document. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their elective and mandatory salary deferral and Plan Sponsor's contributions plus actual earnings (losses) thereon.

1. Description of Plan (continued)

Notes Receivable From Participants

Participants who have account balances with Fidelity Management Trust Company (Fidelity) may borrow from their accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their Fidelity account balance. The notes receivables are secured by the balance in the participant's account and bear interest at a fixed rate of 4.25% to 9.50 %, which is commensurate with local prevailing rates as determined quarterly by the Plan administrator. Principal and interest are paid directly by the participant to the Plan.

Participants who have account balances with TIAA or The Variable Annuity Life Insurance Company (VALIC) may borrow amounts directly from those providers in amounts ranging from \$1,000 up to the lesser of \$50,000 or 50% of their account balances held by those providers. Adequate security is required, and a portion of the participant's account is held as collateral in case of default. Collateral held in the Plan was \$1,270,080 and \$1,284,234 as of December 31, 2023 and 2022, respectively. Principal payments increase the amount of funds available for the participant's use. A fixed or variable interest rate is charged to each participant with an outstanding loan. A portion of that interest is paid directly to the provider, and the remaining interest is credited to the participant's account.

Payment of Benefits

On termination of service due to death, permanent disability, retirement or termination of service due to other reasons, or when a participant reaches age 59½, a participant may elect to receive either a lump-sum payment, periodic payments over a specified period or a lifetime monthly payment that may continue to a designated beneficiary if the participant dies after retirement equal to his or her entire account balance.

Hardship Withdrawals

The Plan permits distributions in the event of a hardship, as defined in the Plan document. These distributions are taxable and subject to a tax penalty equal to 10% of the hardship distribution amount if the participant is younger than age 59½. Hardship withdrawals are limited to the participant's elective account balance.

Notes to Financial Statements (continued)

1. Description of Plan (continued)

Administrative Expenses

Certain expenses of maintaining the Plan are paid directly by the Plan Sponsor and are excluded from these financial statements. Certain fees incurred by the Plan for the investment management services are included in net appreciation in fair value of investments. Recordkeeping fees and Plan level advisory fees are included in administrative expenses.

Plan Termination

Although it has not expressed any intent to do so, the Plan Sponsor has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA.

2. Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis of accounting.

Payment of Benefits

Benefits are recorded when paid.

Notes Receivable From Participants

Notes receivable from participants represent participant loans that are recorded at their unpaid principal balance plus any accrued but unpaid interest. Interest income on notes receivable from participants is recorded when it is earned. Related fees are recorded as administrative expenses and are recorded when they are incurred. No allowance for credit losses has been recorded as of December 31, 2023 or 2022.

Vanderbilt University Medical Center Retirement Plan

Notes to Financial Statements (continued)

2. Summary of Significant Accounting Policies (continued)

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America (GAAP) requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein, and disclosure of contingent assets and liabilities and the supplemental schedule. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are stated at fair value (except for the fully benefit-responsive investment contracts, which are reported at contract value). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Board of Trustees determines the Plan's valuation policies utilizing information provided by the investment advisers, investment providers, and insurance company. See Notes 4 and 5 for further discussion of investment valuation.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividend income is recorded on the ex-dividend date. Net appreciation in fair value of investments includes the Plan's gains and losses on investments bought and sold as well as held during the year.

3. Investments

Certain information related to investments and notes receivable from participants reported and disclosed in the accompanying financial statements and supplemental schedule, including the fair value and contract value of investments and notes receivable from participants held at December 31, 2023 and 2022, and net appreciation in fair value of investments, interest and dividend income, and interest income on notes receivable from participants for the year ended December 31, 2023, was obtained or derived from information supplied to the Plan administrator and certified as complete and accurate by VALIC, Fidelity, or TIAA.

4. Fair Value Measurements

Accounting Standards Codification (ASC) 820, *Fair Value Measurements*, provides the framework for measuring fair value. The fair value framework establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The fair value hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets and liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described below.

Level 1 – Unadjusted quoted prices in active markets that are accessible to the reporting entity at the measurement date for identical assets and liabilities.

Level 2 – Inputs other than quoted prices in active markets for identical assets and liabilities that are observable either directly or indirectly for substantially the full term of the asset or liability. Level 2 inputs include the following:

- Quoted prices for similar assets and liabilities in active markets
- Quoted prices for identical or similar assets or liabilities in markets that are not active
- Observable inputs other than quoted prices that are used in the valuation of the asset or liabilities (e.g., interest rate and yield curve quotes at commonly quoted intervals)
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means

Level 3 – Unobservable inputs for the asset or liability (i.e., supported by little or no market activity). Level 3 inputs include management's own assumption about the assumptions that market participants would use in pricing the asset or liability (including assumptions about risk).

The level in the fair value hierarchy within which the fair value measurement is classified is determined based on the lowest level input that is significant to the fair value measurement in its entirety.

Following is a description of the valuation techniques and inputs used for each general type of investment measured at fair value by the Plan. There have been no changes to the methodologies used at December 31, 2023 and 2022.

Vanderbilt University Medical Center Retirement Plan

Notes to Financial Statements (continued)

4. Fair Value Measurements (continued)

- (i) Money market funds: Valued at the net asset value (NAV) of shares held by the Plan at year-end.
- (ii) Registered investment company shares: Valued at the NAV of shares held by the Plan at year-end determined using quoted market prices in an active market.
- (iii) TIAA Real Estate Fund: Valued at NAV, which is based on the market value of the underlying investments held by the pooled separate account at year-end. The NAV is not a publicly quoted price in an active market. The fair market value of the TIAA Real Estate Fund (pooled separate account) is updated daily and readily available on the TIAA website. TIAA Real Estate Fund is not redeemable daily; transfers out of the fund can be executed on any business day but are limited to once per calendar quarter.
- (iv) Fixed annuity contracts: Valued at fair value which approximates contract value. The fair value is based on a quantitative model using assumptions of future interest rates and related discounted cash flows that are not observable in the market. See Note 5 for additional information on the fixed annuity contracts.
- (v) Self-directed brokerage accounts: Self-directed accounts are invested primarily in mutual funds and are valued at the NAV of shares held by the Plan at year-end determined using quoted market prices in an active market.
- (vi) Pooled separate accounts: The VALIC pooled separate accounts are invested primarily in mutual funds and are valued at the NAV of shares held by the Plan at year-end.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan's management believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Notes to Financial Statements (continued)

5. Fixed Annuity Contracts With Insurance Company

The Plan held fixed annuity contracts, which are investment contracts, with three insurance companies, Principal Life Insurance Company (Principal), VALIC and TIAA during 2023 and 2022. The insurance companies maintain the Plan's contributions in their respective general accounts which are credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. Because they do not meet the definition of fully benefit-responsive, the VALIC Loan Collateral and Escrow Funds and the TIAA Traditional Non-Benefit-Responsive contract are included in the financial statements at fair value, which approximates contract value as reported to the Plan by VALIC and TIAA. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. There are no reserves against contract value for credit risk of the contract issuer or otherwise.

The TIAA Traditional Benefit-Responsive contract, the TIAA Plan Loan Default Fund, the VALIC Fixed Account Plus, the Principal Fixed Account, and the VALIC Short Term Fixed Account meet the fully benefit-responsive investment contract criteria and therefore are reported at contract value. Contract value is the relevant measure for fully benefit-responsive investment contracts because this is the amount received by participants if they were to initiate permitted transactions under the terms of the Plan. Contract value, as reported to the Plan by Fidelity (who is the Third-Party Administrator of the Principal contract), TIAA and VALIC, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

For the fixed annuity contracts with TIAA, the crediting interest rate is reset annually and is based on a formula agreed upon with the issuer, but may not be less than 1% to 3%, depending on the sub-contract. The fixed annuity contracts with TIAA are offered through a variety of sub-contracts which determines the applicability of certain account features, such as the degree of liquidity of the participant's account and the options for receiving income upon retirement, thus some of the TIAA annuity contracts are fully benefit-responsive and some are not. The Retirement Annuity (RA) sub-contract does not allow lump-sum cash withdrawals from the fixed annuity contracts and transfers must be spread over a period of 10 annual installments. For the Group Retirement Annuity (GRA) sub-contract, lump-sum withdrawals are available from the fixed annuity contract only within 120 days after termination of employment and are subject to a surrender charge. All other withdrawals and transfers from the RA or GRA fixed annuity sub-contract to other investment options available to the Plan must be spread over a period of 10 annual installments (or five annual installments for withdrawals after termination of employment). For the Retirement Choice (RC)

Vanderbilt University Medical Center Retirement Plan

Notes to Financial Statements (continued)

5. Fixed Annuity Contracts With Insurance Company (continued)

sub-contract, participant withdrawals and transfers must be taken in 84 monthly installments, except that a lump sum distribution is available, if permitted under the Plan, in the 120-day period following termination of employment subject to a surrender charge. The RA, GRA, and RC sub-contracts are non-fully benefit-responsive. The Supplemental Retirement Annuity (SRA), Group Supplemental Retirement Annuity (GSRA), and Retirement Choice Plus (RCP) sub-contracts have no liquidity restrictions and are fully benefit-responsive.

For the fully benefit-responsive insurance contracts with VALIC, the crediting interest rate is based on a formula agreed upon with the issuer but may not be less than 3% if the participant's account was set up before December 1, 2003, and 2% if the participant's account was set up after this date but before December 31, 2013. Such interest rates are reviewed on a monthly basis for resetting. Effective January 1, 2012, contracts issued to new participants have an indexed guaranteed interest rate which was between 1% and 3% for 2023.

The Plan's ability to receive amounts due is dependent on the issuer's ability to meet its financial obligations. The issuer's ability to meet its contractual obligations may be affected by future economic and regulatory developments.

Certain events might limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the Plan document (including complete or partial plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan Sponsor or other Plan Sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA, or (5) premature termination of the contract. No events are probable of occurring that might limit the ability of the Plan to transact at contract value with the contract issuers or that would limit the ability of the Plan to transact at contract value with the participants.

6. Risks and Uncertainties

The Plan utilizes various investment instruments. Investment securities, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Vanderbilt University Medical Center Retirement Plan

Notes to Financial Statements (continued)

7. Related-Party and Party-in-Interest Transactions

Certain Plan investments in money market funds, registered investment company shares, pooled separate accounts, and fixed annuity contracts are managed by the custodians of the Plan and, therefore, these transactions qualify as party-in-interest transactions. As discussed in Note 1, the Plan pays fees to various service providers and holds notes receivable from participants, which also qualify as party-in-interest transactions under ERISA.

8. Tax Status

The Plan has been designed to qualify under Section 403(b) of the Internal Revenue Code (the Code) and, therefore, it is not eligible to receive a determination letter from the Internal Revenue Service (IRS). The Plan is required to operate in conformity with the Code to maintain its qualification under Section 403(b). The plan administrators has indicated that it will take the necessary steps, if any, to bring the Plan's operations into compliance with the applicable requirements of Section 403(b) of the Code and, therefore, believes the Plan is qualified and the related custodial accounts and tax-deferred annuities are tax-exempt.

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. Plan management has analyzed the tax positions taken by the Plan and has concluded that there are no uncertain positions taken or expected to be taken. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

9. Subsequent Events

Management evaluated subsequent events for the Plan through October 1, 2024, the date the financial statements were available to be issued.
