Independent Auditor's Report

The Advisory Committee
Concote Corporation 401(k) Plan
Coppell, Texas

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of Concote Corporation 401(k) Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C). The financial statements comprise the statements of net assets available for benefits as of December 31, 2023 and 2022, and the related statement of changes in net assets available for benefits for the year ended December 31, 2023, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA (ERISA Section 103(a)(3)(C) audit). As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency (qualified institution), provided that the investment information is prepared and certified to by the qualified institution in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

Management has obtained a certification from a qualified institution as of December 31, 2023 and 2022, and for the year ended December 31, 2023, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and the procedures performed as described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report:

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America (GAAP); and
- The certified investment information in the accompanying financial statements agrees to, or is derived from, in all material respects, the information prepared and certified by a qualified institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are available to be issued.

Management is responsible for maintaining a current plan instrument, including all plan amendments. Management is also responsible for administering the Plan and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the *Scope and Nature of the ERISA Section 103(a)(3)(C) Audit* section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter – Supplemental Schedule Required by ERISA

The supplemental schedule of Schedule H, Line 4i - Schedule of Assets (Held at End of Year) as of December 31, 2023, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements.

The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion

- The form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, is presented, in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.
- The certified investment information in the supplemental schedule agrees to, or is derived from, in all material respects, the information prepared and certified by a qualified institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Concote Corporation 401(k) Plan

Notes to Financial Statements

1. Description of the Plan

General

The Concote Corporation 401(k) Plan (the Plan) is a defined contribution plan established effective July 1, 1992, as amended and restated on January 1, 2022, to provide retirement, disability, and death benefits for qualified employees of Concote Corporation (the Company) and its affiliates. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended. The following description of the Plan provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

Plan Administration

The Plan is administered by a committee (the Advisory Committee) whose members are elected by the Company's board of directors. Voya Retirement Insurance and Annuity Company (Voya) serves as custodian and issuer of the insurance products held by the Plan.

Eligibility

The Plan covers all full-time employees of the Company who have one year (of 1,000 hours) of service and are age 21 or older. Eligible plan participants may begin making contributions as of January 1 or July 1 after meeting eligibility requirements.

Contributions

The Plan provides that participants may contribute from 1% to 100% of annual compensation on a pre-tax or Roth after-tax basis, as defined by the Plan document, not exceeding the Internal Revenue Service (IRS) limit. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified benefit or contribution plans.

Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers various pooled separate accounts and an insurance investment contract as investment options for participants.

The Company contributes a safe harbor matching contribution equal to 100% of the first 3% of base compensation that a participant contributes to the Plan plus 50% of the next 2% of base compensation that a participant contributes to the Plan. Additionally, profit sharing and discretionary match amounts may be contributed at the option of the Company's board of directors and is based on each participant's compensation. The Company did not make a profit-sharing contribution or discretionary match contribution to the Plan during 2023.

Participant Accounts

Each participant's account is credited with the participant's contributions, the Company's contributions, and allocations of Plan earnings and expenses, if applicable. Allocations are based on participant account balances or earnings. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account balance.

Concote Corporation 401(k) Plan

Notes to Financial Statements

Vesting

Participants are immediately vested in their contributions and employer safe harbor match contributions plus actual earnings thereon. Vesting in the Company's discretionary match and profit-sharing contributions portion of their accounts is based on years of continuous service. A participant is 100% vested in Company contributions according to the following schedules:

Years of Service	Safe Harbor Match (%)	Discretionary Match (%)	Profit-Sharing (%)
Less than 2	100	-	-
2	100	20	20
3	100	40	40
4	100	60	60
5	100	80	80
6	100	100	100

Forfeited Accounts

At December 31, 2023 and 2022, forfeited non-vested account balances totaled \$45,544 and \$42,061, respectively. These accounts will be used to pay expenses of the Plan and to reduce future employer contributions. During 2023, no forfeitures were utilized to reduce employer contributions or pay plan expenses.

Payment of Benefits

On termination of service due to death, disability or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, installment payments, or partial distributions of a minimum of \$1,000. Hardship withdrawals are permitted from elective contributions.

2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements are prepared on the accrual basis of accounting.

Contributions

Participant contributions and any related Company matching contributions are recognized in the period during which the Company makes the respective payroll deduction from the participant's compensation.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles in the United States of America requires the plan administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Concote Corporation 401(k) Plan

Notes to Financial Statements

Investment Valuation and Income Recognition

Investments held by a defined contribution plan are required to be reported at fair value, except for fully benefit-responsive investment contracts which are reported at contract value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Contract value is the relevant measure for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants normally would receive if they were to initiate permitted transactions under the terms of the Plan.

The Plan's Advisory Committee determines the Plan's valuation policies utilizing information provided by the investment advisers, trustee and insurance company. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. The Plan presents, in the statement of changes in net assets available for benefits, the net appreciation or depreciation in fair value of its investments which consists of realized gains and losses and unrealized appreciation and depreciation on these investments.

Payment of Benefits

Benefit payments are recorded when paid.

Administrative Expenses

Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Company. Expenses that are paid by the Company are excluded from these financial statements. Investment related expenses paid to investment advisors, transfer agents, and others described in each fund prospectus or other published documents are deducted by the investment funds or accounts prior to the allocation of the Plans' investment earnings activity and are therefore included in net appreciation/depreciation of fair value of investments.

3. Certified Investment Information

The plan administrator has elected the method of annual reporting compliance permitted by ERISA Section 103(a)(3)(c) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Voya, a qualified institution, has certified that the following data included in the accompanying financial statements and supplemental schedule is complete and accurate.

- Investments as reflected in the statements of net assets available for benefits as of December 31, 2023 and 2022.
- Total investment income, as reflected in the statement of changes in net assets available for benefits for the year ended December 31, 2023.
- Investment values disclosed in Note 4.

Concote Corporation 401(k) Plan

Notes to Financial Statements

- Investment information disclosed in Note 5.
- Investments, as reflected in the Schedule H, Line 4i - Schedule of Assets (Held at End of Year) as of December 31, 2023.

The plan administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to this certified investment information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

4. Fair Value Measurements

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) Topic 820, *Fair Value Measurements*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC Topic 820 are described as follows:

Basis of Fair Value Measurement

Level 1 - This level consists of unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities.

Level 2 - This level consists of quoted prices in markets that are not considered to be active or financial instruments for which all significant inputs are observable, either directly or indirectly.

Level 3 - This level consists of prices or valuations that require inputs that are both significant to the fair value measurement and unobservable.

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2023 and 2022.

Fair Value of Measurements in Entities that use Net Asset Value

The fair value of investments in pooled separate accounts, which represent all investments held at fair value, is measured by using NAV as the practical expedient to estimate fair value and is determined by the investment manager of the fund based on the fair value of the underlying assets owned by the fund, minus its liabilities, and then divided by the number of units outstanding. The fair value of the pooled separate accounts based on NAV per share as of December 31, 2023 and 2022 is \$11,331,344 and \$9,474,109, respectively.

Concote Corporation 401(k) Plan

Notes to Financial Statements

Investments Measured Using the Net Asset Value per Share Practical Expedient

The following table summarizes investments for which fair value is measured using the NAV per share practical expedient, as of December 31, 2023 and 2022. There are no participant redemption restrictions for this investment; the redemption notice period is applicable only to the Plan:

December 31,

Investment Type	Fair Value		Unfunded Commitments	Redemption Frequency	Redemption Notice Period

Bonds (b)	823,485	462,513	None	Daily	Up to 270 days
Asset Allocation (c)	1,156,171	1,036,926	None	Daily	Up to 270 days
Balanced (d)	5,112,973	4,713,930	None	Daily	Up to 270 days
Large Cap Value/Blend (e)	1,747,731	1,417,526	None	Daily	Up to 270 days
Large Cap Growth (f)	709,390	755,699	None	Daily	Up to 270 days
Small/Mid/Specialty (g)	895,843	538,308	None	Daily	Up to 270 days
Global International (h)	859,037	523,720	None	Daily	Up to 270 days
Total Investments at net asset value	\$11,331,344	\$ 9,474,109			

Following is a description of the valuation methodologies used for assets and liabilities measured at fair value:

- (a) *Stability of Principal* - Assets are invested in conservative investment options that but not necessarily guaranteed to hold principal value of an investment stable through all of the market conditions. These options may credit a stated rate of return or minimum periodic interest rate that may vary. Dividend rates and income levels fluctuate with market conditions and are not guaranteed. These investment options including money market portfolios are neither insured nor guaranteed by the US government.
- (b) *Bonds* - Assets are invested in net income securities that have been determined to be appropriate for its investment goal. Investors here are primarily seeking income or growth of income with less emphasis on capital appreciation. Funds in this asset class vary greatly in their risk profiles. The issuer, credit quality of the underlying investments, and the average duration of the portfolio play important roles in determining the risk profile of the fund. Fixed- income funds those that have significant investments in below-investment grade bonds or bonds of foreign issuers would be categorized as high yield or international bonds.
- (c) *Asset Allocation* - These funds are also known as “lifestyle” or “life cycle” funds. They invest in a combination of assets such as aggressive stocks, international stocks, large company stocks, government bonds, foreign bonds or money markets. The allocation percentage to each asset type may be fixed, bounded by a range, or determined at the discretion of the manager. Managers of these funds review market conditions regularly and refine the asset allocation mixture they believe will achieve the best risk adjusted performance based on the stated objectives and target allocations of the particular fund different constructs can be risk tolerance or length of time to investment goal.
- (d) *Balanced* - These funds seek to balance growth of principal and current income by investing in a combination of stocks and bonds (generally holding 60 to 70% equity and 30 to 40% fixed income).

Concote Corporation 401(k) Plan

Notes to Financial Statements

The investment style used here is either moderate allocation or conservative allocation. Some funds have fixed allocations and others allow managers discretion to allocate between equities and bonds, depending on their view of return and risk.

- (e) *Large Cap Value/Blend* - These funds seek long-term growth of capital or a combination of growth and income by investing primarily in stocks of larger mature companies. The investment styles exhibited are value and blend. Stocks are selected for price appreciation and for the value of the current income provided through dividends. These funds generally exhibit a lower level of price volatility, due to the types of companies they favor, such as those able to pay dividends along with older, mature companies.
- (f) *Large Cap Growth* - These funds invest primarily in stocks of larger U. S. Companies employing an investment style of growth. A growth fund invests in the stocks of companies that are growing rapidly. Growth companies tend to revisit all or most of their profits for research and development rather than pay dividends. Growth funds are focused in generating capital gains rather than income. Funds emphasizing growth stocks will typically have a higher price earnings ratios and make little or no dividend payments. Large capitalization companies tend to be more established, with relative volatility, then more aggressive small and midcap stock funds.
- (g) *Small/Mid/Specialty* - Small cap, midcap and specialty funds are in this category, employing investment styles of growth, value, or a blend of growth in value. These funds seek capital appreciation by investing primarily in stocks of small and medium sized companies. Generally, these companies are striving to develop new products or markets and have above average earnings growth potential. Because of their smaller size, these companies may face greater business risk, and investments in these funds generally can carry much higher risk than other domestic funds. Specialty or a sector funds invest in stocks of companies in a particular industry. This narrow focus can significantly increase the risk and volatility of such funds.
- (h) *Global/International* - International funds can have an investment style of foreign large value, foreign large blend, foreign large growth, foreign small/mid value or foreign small/mid growth. These funds invest in stocks of companies outside of the United States. Global funds have an investment style of world stock. These funds invest in stocks of companies in the United States and developed countries outside of the United States. Emerging market funds invest in securities of developing countries and demonstrate the greatest volatility of performance due to the unstable nature of their economies, political structures and currencies. International investing may provide greater diversification benefits to A U. S. Based portfolio than investing in domestic securities alone however foreign investing does not involve additional risk present in the U.S. securities.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Concote Corporation 401(k) Plan

Notes to Financial Statements

5. Investment Contract with Insurance Company

The Plan has a fully benefit-responsive investment contract with Voya. Voya maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and expenses. The investment contract issuer is contractually obligated to repay the principal and specified interest rate that is guaranteed to the Plan.

The investment contract is a fully benefit-responsive investment and is reported at contract value in the statements of net assets available for benefits. The statements of changes in net assets available for benefits is also prepared on a contract value basis. Benefit responsiveness is defined as the extent to which a contract's terms and the Plan permit or require participant-initiated withdrawals at contract value. Contract value is the relevant measure for fully benefit-responsive investment contracts because this is the amount received by participants if they were to initiate permitted transactions under the terms of the Plan.

Contract value, as reported to the Plan by Voya, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The contract value of the investment contract at December 31, 2023 and 2022, was \$377,762 and \$463,103, respectively. The crediting interest rate is based on a formula agreed upon with the issuer. Such interest rates are reviewed on a quarterly basis for resetting.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include (1) amendments to the Plan documents (including complete or partial plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The plan administrator believes that any events that would limit the Plan's ability to transact at contract value with participants are not probable of occurring.

The investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

6. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants will become 100% vested in their employer contributions.

Concote Corporation 401(k) Plan

Notes to Financial Statements

7. Related Party Transactions and Party-in-Interest Transactions

Certain plan investments are shares of a money market fund, fixed investment contract and pooled separate accounts managed by Voya. Voya is the issuer of the insurance products held by the Plan and, therefore, these transactions qualify as party in interest transactions. Fees incurred by the Plan for the investment management services are included in net appreciation of the fair value of the investments.

All of the party-in-interest transactions are exempt from prohibited transaction rules of ERISA.

8. Tax Status

The Plan adopted a pre-approved volume submitter plan document which received an advisory letter dated June 30, 2020, stating that the form of the volume submitter is qualified under Section 401 of the IRC, and therefore, is tax exempt. The plan administrator believes that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believe that the Plan is qualified, and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain tax position that more likely than not would not be sustained upon examination by the IRS and the Department of Labor. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

9. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participant account balances and the amounts reported in the statements of net assets available for benefits.

10. Subsequent Events

The date to which events occurring after December 31, 2023, the date of the most recent financial statements, have been evaluated for possible adjustment to the financial statements or disclosure is September 26, 2024, which is the date on which the financial statements were available to be issued.
