Independent Auditors' Report

The Plan Administrator and Plan Participants
General Dynamics Corporation 401(k) Plan 6.0:

Opinion

We have audited the financial statements of the General Dynamics Corporation 401(k) Plan 6.0 (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets available for benefits as of December 31, 2023 and 2022, and the related statement of changes in net assets available for benefits for the year ended December 31, 2023, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2023 and 2022, and the changes in its net assets available for benefits for the year ended December 31, 2023, in accordance with U.S. generally accepted accounting principles.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with U.S. generally accepted accounting principles, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control related matters that we identified during the audit.

Supplemental Schedules Required by ERISA

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedules of Schedule H, Line 4(a) - Schedule of Delinquent Participant Contributions for the year ended December 31, 2023 and Schedule H, Line 4(i) - Schedule of Assets (Held at End of Year) as of December 31, 2023 are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedules is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

401(k) PLAN 6.0

Notes to Financial Statements
December 31, 2023 and 2022

(1) Plan Description

The following description of the General Dynamics Corporation 401(k) Plan 6.0 (the Plan) provides only general information. Participants should refer to the Plan Document for a more complete description of the Plan's provisions.

(a) General

The Plan is a defined contribution plan covering eligible employees of General Dynamics Corporation (the Company, Employer, Plan Administrator, or the Plan Sponsor) and its subsidiaries. Employees subject to a collective bargaining agreement are not eligible to participate in this Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan participates in the General Dynamics Corporation 401(k) Plan Master Trust (Master Trust) along with certain other plans also sponsored by the Company.

(b) Plan Administration

Fidelity Management Trust Company (Fidelity) holds the Plan's assets as the Plan's trustee and Fidelity Workplace Services, LLC is the Plan's recordkeeper.

(c) Contributions

Participants hired prior to January 1, 2023 were eligible to participate in the Plan upon hire without age restriction. Participants hired on or after January 1, 2023, and have reached age 18 or older are eligible to participate in the Plan upon hire. As described in the supplements to the Plan Document, participants may contribute from 1% up to 50% of eligible compensation as pre-tax deferrals, Roth deferrals or after-tax contributions, up to the statutory limits defined by the Internal Revenue Code (IRC). The Plan has an automatic enrollment feature under which new employees who do not make a contrary election as described in the Plan Document will automatically be enrolled in the Plan. The Plan's automatic enrollment deferral rate is 6%. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified plans (rollovers). The Plan has an Employer matching contribution of 100% of the first 6% of eligible compensation contributed to the Plan. The Plan is intended to be a safe harbor plan as defined in the IRC.

Participants at certain business units may be eligible to receive an Employer discretionary contribution based on a percentage of their eligible compensation or other applicable formula. At December 31, 2023 and 2022, \$10,426,254 and \$11,920,075, respectively, of such discretionary contributions were included as a receivable in the Plan's financial statements.

(d) Participant Accounts

Each participant directs his or her contributions to be invested in various funds. Changes to investment elections can be made according to rules set by the Company in the Plan Document. Each participant's account is credited with the participant's contribution and allocations of (a) the Employer's contribution and (b) Plan earnings and losses, less an allocation of administrative expenses. The benefit to which a participant is entitled is the vested balance of his or her account.

The assets of the Plan that are invested in the General Dynamics Corporation Common Stock are in a separate fund (the GD Stock Fund) which constitutes an Employee Stock Ownership Plan (an ESOP) under certain sections of the IRC, as amended. Participants are given the right to take a distribution of regularly scheduled dividends of the General Dynamics Corporation Common Stock held in the GD Stock Fund in cash or leave the funds in the Plan to be reinvested in General Dynamics Corporation Common Stock, as provided by the Plan.

GENERAL DYNAMICS CORPORATION

401(k) PLAN 6.0

Notes to Financial Statements

December 31, 2023 and 2022

(e) ***Vesting***

Participants' contributions and safe harbor Employer contributions and actual earnings thereon are always 100% vested. Vesting in any Employer matching or discretionary contributions varies by business unit and generally does not exceed three years.

(f) ***Notes Receivable from Participants***

The Plan permits active participants to borrow the lesser of \$50,000 less the highest outstanding note receivable (or participant loans or loan) balance during the last 12 months, or 50% of the vested amount in their accounts (subject to limits defined in the Plan Document and by the IRC). Loans are secured by the remaining balance in the participants' accounts. Participants are required to repay the loan by regular payroll deductions over a period of up to five years. The Plan also offers primary residence loans (with terms up to 20 years). Participants can have up to two loans outstanding at any one time, one of which may be a primary residence loan. Loans are issued at the U.S. prime rate of interest plus 1%. Participant loans are recorded at amortized cost, which is the remaining unpaid principal balance plus any accrued but unpaid interest. Delinquent loans are reclassified as distributions based upon the terms of the Plan Document.

(g) ***Payment of Benefits***

Participants are eligible to receive benefit payments upon retirement, death, disability or termination of employment. On termination of service, a participant (or designated beneficiary) may elect to (a) receive a lump-sum amount equal to the value of the participant's vested interest in his or her account, (b) roll over the value of the participant's vested interest in his or her account into an eligible retirement plan, (c) receive annual or monthly fixed-amount installment payments, or (d) receive a partial distribution of his or her total vested account balance. Active participants may be eligible to receive in-service or hardship withdrawals, or withdrawals allowed under the IRC for participants that reach age 59½, subject to the provisions in the Plan Document.

(h) ***Forfeited Accounts***

Forfeitures are used to reduce Employer contributions. At December 31, 2023, participants' forfeited nonvested accounts were not significant. Forfeitures used during 2023 to reduce Employer contributions were not significant.

(i) ***Net Transfers Within Master Trust***

Net transfers to and from plans within the Master Trust are a result of individual participants transferring jobs which causes them to become a participant in a different plan that also participates in the Master Trust.

(j) ***Transfer from Other Plan***

Effective December 31, 2023, the Progeny Systems, LLC 401(k) Plan (Progeny) was merged into the Plan. Progeny's investments, outside of the participant-directed brokerage accounts, were liquidated to non-interest bearing cash and the account balances and notes receivable from participants in Progeny were merged into the Plan in the amounts of \$181,839,657 and \$1,500,918, respectively. Effective January 1, 2024, participants who were formerly eligible to participate in Progeny became eligible to participate in the Plan.

(k) ***Risks and Uncertainties***

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, liquidity, and credit risks, as well as the risks associated with global events. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such

GENERAL DYNAMICS CORPORATION
401(k) PLAN 6.0

December 31, 2023 and 2022

changes could materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits.

(2) **Summary of Significant Accounting Policies**

(a) ***Basis of Accounting***

The accompanying financial statements are prepared on the accrual basis of accounting.

(b) ***Investment Valuation and Income Recognition***

The Plan's investments other than fully benefit-responsive investment contracts (referred to herein as guaranteed investment contracts or GICs) are reported at fair value. Fair value is the price that would be received by the Plan for an asset or paid by the Plan to transfer a liability (an exit price) in an orderly transaction between market participants on the measurement date in the Plan's principal or most advantageous market for the asset or liability. Contract value is the relevant measure for the Plan's GICs, because contract value is the amount Plan participants generally receive when executing transactions under the terms of the contract and Plan provisions.

Purchases and sales of investments are recorded on the trade date. Participation in net income of the Master Trust and investment income (loss) consists of dividend income, interest income, and net appreciation (depreciation) in the fair value of investments. Dividends are recognized on the ex-dividend date, the date on which an entity or an individual must own the stock to receive the pending dividend. Interest income is recorded on an accrual basis. Net appreciation (depreciation) includes the gains and losses on investments bought and sold as well as held during the year.

(c) ***Investment Concentrations***

Through its investment in the Master Trust, the Plan holds shares of General Dynamics Corporation Common Stock representing approximately 16% and 18% of its investments as of December 31, 2023 and 2022, respectively.

(d) ***Payment of Benefits***

Benefits are recorded when paid.

(e) ***Use of Estimates***

The preparation of financial statements in accordance with U.S. generally accepted accounting principles (U.S. GAAP) requires Plan management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein. Actual results could differ from those estimates.

(f) ***Administrative Expenses***

The Master Trust generally pays the administrative expenses of the Plan. The Plan Document provides that the Company may reimburse the Plan for administrative expenses. Administrative expenses reimbursed by the Company were not material.

Company employees perform certain administrative functions that are not reimbursed by the Master Trust. The Plan Document provides that the Company is entitled to reimbursement for these and certain other costs incurred on behalf of the Plan. The Company did not seek reimbursement for any costs in 2023.

Administrative expenses included in the Statement of Changes in Net Assets Available for Benefits are expenses that have been specifically identified as expenses of this Plan. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses.

GENERAL DYNAMICS CORPORATION

401(k) PLAN 6.0

Notes to Financial Statements

December 31, 2023 and 2022

(3) Tax Status

The Internal Revenue Service (IRS) issued a favorable determination letter on December 13, 2017, indicating that the Plan is a qualified plan under Section 401(a) of the IRC. The Plan is exempt from federal income tax under Section 501(a) of the IRC. Although the Plan has been amended subsequent to the date of the latest determination from the IRS, the Plan Sponsor and the Plan's counsel believe the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC.

U.S. GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2023 and 2022, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions. There are currently no audits in progress for any tax periods. Under the IRS statute of limitations, the Plan is no longer subject to income tax examinations for years prior to 2020.

(4) Investments

(a) General

The Plan's investments are held by the Master Trust, which was established for the investment of the Plan's assets and the assets of certain other plans also sponsored by the Company. Net assets and participation in the net income (loss) of the Master Trust are allocated to the participating plans according to each plan's participants' investment elections and earnings and losses thereon.

(b) ***Fully Benefit-Responsive Investment Contracts***

The Master Trust holds two fully benefit-responsive synthetic investment contracts that are reported at contract value, which is generally the amount a participant would receive if he or she would initiate a withdrawal or transfer from the contract under the provisions of the Plan. Contract value represents contributions made to the contract, plus earnings, less participant withdrawals and administrative expenses. Each synthetic investment contract consists of a wrapper with Metropolitan Life Insurance Company (MetLife) (the Issuer) and underlying investments primarily in debt securities. The wrapper contracts provide participants with a stable, fixed-rate of return on investments, and protection of principal from changes in market interest rates. MetLife's financial strength rating from Standard & Poor's at December 31, 2023 was AA-. The crediting interest rate resets semi-annually and is based on an agreed-upon formula with the Issuer but cannot be less than zero. The key factors that influence future interest crediting rates could include the following: the level of market interest rates; the difference between the fully benefit-responsive investment contracts' book and market values; the amount and timing of Participant contributions; transfers and withdrawals into/out of the fully benefit-responsive investment contracts; and the duration of the underlying investments backing the fully benefit-responsive investment contracts. Participants will receive the principal and accrued interest upon withdrawal for events such as transfers to other Plan investment options or payments for retirement, termination of employment, disability, death and in-service withdrawals as permitted by the Plan.

The investment contracts specify certain conditions under which distributions from each contract would be payable at amounts below contract value. Such circumstances include termination or merger of the Master Trust, premature contract termination initiated by the Company, and certain other Company-initiated events that result in distributions exceeding a set amount. The contracts limit the circumstances under which the Issuer may terminate the contract. Examples of circumstances which would allow the Issuer to terminate the contract include the loss of its qualified status of a Plan in the Master Trust, uncured material breaches of responsibilities, or material and adverse changes to the provisions of the Plans in the Master Trust. If one of these events were to occur, the Issuer could terminate the contract at an amount less than contract value. Currently, Plan management believes that the occurrence of an event that would cause the Master Trust to transact contract distributions at less than contract value is not probable.

(c) ***Fair Value Measurements***

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described as follows:

- Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
- Level 2 - Inputs to the valuation methodology include:
 - Quoted prices for similar assets or liabilities in active markets;
 - Quoted prices for identical or similar assets or liabilities in inactive markets;
 - Inputs other than quoted prices that are observable for the assets or liabilities;
 - Inputs that are derived principally from, or corroborated by, observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Notes to Financial Statements

December 31, 2023 and 2022

- Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2023 and 2022:

General Dynamics Corporation Common Stock, Investments in Other Equity Securities, Interest Bearing Cash and Overnight Deposit Accounts: Valued at the closing price reported on the active market in which the individual securities are traded (Level 1).

Registered Investment Companies: Valued at the closing price reported on the active market in which the individual securities are traded (Level 1). The fair values of private mutual funds are determined using the net asset value as provided by the fund managers (Level 2). Investments in the private mutual funds are redeemable daily at net asset value and there are no restrictions on redemptions.

Participant-Directed Brokerage Accounts: The fair values of interest-bearing cash, mutual funds, common stocks, and units of exchange traded funds are determined by obtaining quoted prices on nationally recognized securities exchanges (Level 1). The fair values of certificates of deposit are based on current bid prices (Level 2). The accounts also hold corporate debt which is valued at the most recent bid prices (sales prices if their principal market is an exchange) in the principal market in which they are traded, as determined by recognized dealers in such securities, or are valued on the basis of information provided by a pricing service (Level 2). Government securities are valued based on institutional bid evaluations (Level 2).

Corporate Debt and Mortgage and Asset-Backed Securities: Valued at their most recent bid prices (sales prices if their principal market is an exchange) in the principal market in which such securities are traded, as determined by recognized dealers in such securities, or are valued on the basis of information provided by a pricing service (Level 2).

Government Securities: These securities are valued based on institutional bid evaluations (Level 2).

Units of Collective Trusts: The fair values of these private investment securities are determined using the net asset value as provided by the fund managers (Level 2). Investments in collective trusts are redeemable daily at net asset value and there are no restrictions on redemptions.

(6) Party-in-Interest Transactions

The Plan may, at the discretion of the Plan's participants or via the Employer matching contribution, invest through the Master Trust an unlimited amount of its assets in the Company's common stock. The Master Trust held 15,872,805 and 16,470,387 shares of the Company's common stock as of December 31, 2023 and 2022, respectively. Dividends earned by the Master Trust on the Company's common stock were \$85,691,722 for the year ended December 31, 2023.

The Plan also invests, through the Master Trust, in investment funds managed by the trustee or affiliates of the trustee of the Plan or by one of its investment managers. The Northern Trust Company provides certain investment management and consulting services to the Plan. The Plan also invests, through the Master Trust, in investment funds managed by The Northern Trust Company, or its affiliates. These funds are considered party-in-interest investments. In addition, the Plan invests, through the Master Trust, in common stocks and fixed-income securities of certain of its service providers which are also considered party-in-interest investments. These transactions qualify as exempt party-in-interest transactions. Fees paid to other service providers also qualify as exempt party-in-interest transactions.

Notes receivable from participants are also considered exempt party-in-interest transactions.

(7) Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits at December 31, 2023 and 2022, as reported in the financial statements to the Form 5500:
