Independent Auditors' Report

To the Plan Administrator of
St. Joseph's Hospital Retirement Plan and Trust

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of the St. Joseph's Hospital Retirement Plan and Trust (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2023 and 2022, and the related statements of changes in net assets available for benefits for the years then ended, and the statement of accumulated plan benefits as of December 31, 2022, and the related statement of changes in accumulated plan benefits for the year then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 2023 and 2022, and for the year ended December 31, 2023, stating that the certified investment information, as described in Note 6 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditors' Responsibilities for the Audit of the Financial Statements section:

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- The information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for at least one year following the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings and certain internal control-related matters that we identified during the audit.

Other Matter — Supplemental Schedules Required by ERISA

The supplemental schedules, Schedule H, Line 4(i) - Schedule of Assets (Held at End of Year), and Schedule H, Line 4(j) - Schedule of Reportable Transactions as of or for the year ended December 31, 2023 are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedules related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

December 31, 2023 and 2022

1. Description of Plan

The following description of the St. Joseph's Hospital Retirement Plan and Trust (the Plan) provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a noncontributory cash balance defined benefit plan established effective January 1, 1974, as restated, October 1, 2015. Prior to the Plan freeze noted below, the Plan covered all employees, excluding union and leased employees, of St. Joseph's Hospital of Buckhannon, Inc. (the Company) who had completed one year of service.

Participation in the Plan and all future benefits to be earned under the Plan for existing participants were frozen effective January 1, 2014 with the exception of annual investment credits. Effective October 1, 2015, the Company entered into an affiliation agreement with the West Virginia United Health System (WVUHS). At that time, the Plan became subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA). There have been no other changes to the provisions of the Plan as a result of this affiliation. The Board of Directors is responsible for oversight of the Plan. The Plan's management determines the appropriateness of the Plan's investment offerings, monitors investment performance, and reports to the Board of Directors.

Participant Accounts

Prior to the date that benefits earned under the Plan were frozen, amounts were credited by the Company to the participants' hypothetical cash balance accounts equal to a percentage of the participant's annual compensation in accordance with the following table:

<u>Years of Vesting Service</u>	<u>Percentage of Compensation</u>
0 - 4	3.25%
5 - 9	3.50%
10 - 14	4.00%
15 - 19	4.50%
20 - 24	5.00%
25 - 29	5.50%
30 plus	6.00%

Participants' hypothetical cash balance accounts also receive annual investment credits equal to the lesser of (a) the average annual yield of six-month United States Treasury Bills for the immediately preceding year; or (b) the adjusted first, second and third segment rates applied under rules similar to the rules of Internal Revenue Code (IRC) Section 417(e)(3)(A)(ii)(iii); but not less than 4%. As of December 31, 2023 and 2022, the investment credit rate was 4.00% and 3.08%, respectively.

Notes to Financial Statements

December 31, 2023 and 2022

Funding Policy

Prior to October 1, 2015, the Plan was considered a church plan and therefore was not subject to the minimum funding requirements of ERISA. At that time, the Plan was significantly underfunded. During 2015, plan management approved a funding schedule necessary to meet the minimum funding requirements of ERISA, which included cumulative annual minimum contributions totaling approximately \$5.1 million through 2022. These actions have provided the necessary funding for the Plan to meet its obligations under the plan document. The Plan's current and future funding policy is for the Company to contribute an amount which will meet or exceed the annual ERISA minimum funding requirement. The minimum funding requirements of ERISA were met in 2023 and 2022.

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA.

Pension Benefits

Plan participants are entitled to their plan benefits after terminating employment with vested rights. Participants become vested in the Plan upon attainment of the normal retirement age (65), although the Plan does allow for early retirement at the age of 55. A participant's early retirement benefit is equal to the normal retirement accrued benefit, actuarially reduced to reflect the commencement of benefits prior to reaching normal retirement age. Upon termination of employment, pension payments are normally paid in the form of a monthly annuity payable for their lifetime or, if married, in the form of a qualified joint or survivor annuity. If participants terminate before rendering three years of service, they forfeit the right to receive their accumulated plan benefits.

Effective May 24, 2022, the Plan was amended to allow for a lump-sum or immediate annuity payment option for eligible terminated vested participants between the dates of June 1, 2022 and July 15, 2022. Approximately one hundred participants elected this payout option to receive the present value of their vested accrued benefits, which totaled approximately \$2.2 million in 2022.

Death and Disability Benefits

If a vested participant dies, a death benefit equal to the value of the employee's accumulated pension benefit is paid to the employee's beneficiary. Vested employees who become totally disabled receive annual disability benefits that are equal to the equivalent normal retirement benefit they have accumulated as of the time they become disabled. Disability benefits are paid until normal retirement age, at which time disabled participants will receive the normal retirement benefit computed as though they had been employed to normal retirement age, with their annual compensation remaining the same as at the time they became disabled.

2. Summary of Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein; disclosure of contingent assets and liabilities; and the actuarial present value of accumulated plan benefits at the date of the financial statements, and changes therein. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's management determines the Plan's valuation policies utilizing information provided by the investment advisers, custodians and insurance company, as applicable. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefits payments to participants are recorded upon distribution.

Administrative Expenses

The Plan's expenses are paid either by the Plan or the Company, as provided by the plan document. Expenses that are paid directly by the Company are excluded from these financial statements. Certain expenses incurred in connection with the general administration of the Plan that are paid by the Plan are recorded as deductions in the statements of changes in net assets available for benefits. In addition, certain investment related expenses are included in net appreciation (depreciation) in fair value of investments in the statements of changes in net assets available for benefits.

Subsequent Events

Subsequent events were evaluated through October 2, 2024, the date the financial statements were available to be issued.

Effective November 29, 2023, the Company's Board of Directors approved a resolution to establish a master trust to provide a source of funding for certain defined benefit plans sponsored by entities within the controlled group of West Virginia United Health System, including the Plan. Principal Trust Company has been named trustee of this master trust arrangement, which was established on January 2, 2024. On that date, all of the Plan's investments were transferred to the newly-established master trust arrangement.

3. Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those future periodic payments, including lump-sum distributions, that are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. Benefits under the Plan are based on employees' compensation during each year of credited service. The accumulated plan benefits for active employees will equal the accumulation, with interest, of the annual benefit accruals as of the benefit information date. Benefits payable under all circumstances, such as retirement, death, disability, and termination of employment, are included, to the extent they are attributable to employee service rendered to the valuation date. Benefits to be provided via annuity contracts excluded from plan assets are excluded from accumulated plan benefits.

St. Joseph's Hospital Retirement Plan and Trust

Notes to Financial Statements

December 31, 2023 and 2022

The actuarial present value of accumulated plan benefits is determined by the Plan's independent actuary and is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal or retirement) between the valuation date and the expected date of payment.

The computations of the actuarial present value of accumulated plan benefits were made as of January 1, 2023. Had the valuation been performed as of December 31, 2022, there would be no material differences. The significant actuarial assumptions used in the valuation were:

Assumption	January 1, 2023
Discount rate	6.75%
Mortality	Pri-2012 Mortality Table projected with scale MP-2021
Retirement age	Age 65

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

There were no changes to any actuarial assumptions for the year ended January 1, 2023.

4. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under authoritative guidance are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly, such as:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

St. Joseph's Hospital Retirement Plan and Trust

Notes to Financial Statements

December 31, 2023 and 2022

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observables and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2023 and 2022.

Money market funds: Valued at the quoted net asset value (NAV) of shares held by the Plan at year end.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the U.S. Securities and Exchange Commission. These funds are required to publish their daily NAV and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Common stocks: Valued at the closing price reported on the active market on which the individual securities are traded.

U.S. government securities: Valued using pricing models maximizing the use of observable inputs for similar securities.

Corporate bonds: Valued using pricing models maximizing the use of observable inputs for similar securities. This includes basing value on yields currently available on comparable securities of issuers with similar credit ratings. When quoted prices are not available for identical or similar bonds, the bond is valued under a discounted cash flows approach that maximizes observable inputs, such as current yields of similar instruments, but includes adjustments for certain risks that may not be observable, such as credit and liquidity risks or a broker quote if available.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2023 and 2022:

Assets at Fair Value as of December 31, 2023	Level 1	Level 2	Level 3	Total
Money market funds	\$ 11,111,258	\$ -	\$ -	\$ 11,111,258

5. Concentrations

As of December 31, 2023 and 2022, the Plan had investments of \$11,104,154 that were concentrated in one fund and \$2,346,722 that were concentrated in two funds, respectively.

6. Information Certified by Custodian

The plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA for 2023 and 2022. Accordingly, Matrix Trust Company, the Custodian of the Plan, has certified to the completeness and accuracy of all investments reported in the accompanying Statements of Net Assets Available for Benefits as of December 31, 2023 and 2022, and the supplemental Schedule H, Line 4(i) - Schedule of Assets (Held at End of Year) as of December 31, 2023, and the related investment activity reported in the Statements of Changes in Net Assets Available for Benefits for the years ended December 31, 2023 and 2022 and the information reported in the supplemental Schedule H, Line 4(j) - Schedule of Reportable Transactions for the year ended December 31, 2023.

7. Related-Party and Party in Interest Transactions

The Plan's investments are administered under a contract with Matrix Trust Company, the Custodian of the Plan. Contributions are held and managed by the Custodian, who invests cash received, interest and dividend income and makes distributions to participants. These transactions are party in interest transactions under ERISA.

As described in Note 2, the Plan paid certain expenses related to plan operations and investment activity to various service providers. Additionally, certain administrative functions of the Plan are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan. These transactions are party in interest transactions under ERISA.

St. Joseph's Hospital Retirement Plan and Trust

Notes to Financial Statements

December 31, 2023 and 2022

8. Plan Termination

In the event the Plan terminates, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

1. Annuity benefits that former employees or their beneficiaries have been receiving for at least three years, or that employees eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan. The priority amount is limited to the lowest benefit that was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would be payable under Plan provisions in effect at any time during the five years preceding Plan termination.
2. Other vested benefits insured by the Pension Benefit Guaranty Corporation (PBGC) (a U.S. government agency) up to the applicable limitations.
3. All other vested benefits (that is, vested benefits not insured by the PBGC).
4. All nonvested benefits.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the plan sponsor and the level of benefits guaranteed by the PBGC.

9. Tax Status

The Plan adopted a prototype plan offered by DailyAccess Corporation, a Verisight Company. The prototype plan received an IRS Determination Letter dated August 14, 2014, that the Plan and related trust are designed in accordance with the applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since the date of the IRS Determination Letter, the plan administrator believes that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC.

Plan management is required to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

10. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the Statements of Net Assets Available for Benefits.

Plan contributions are made, and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

ST. JOSEPH'S HOSPITAL RETIREMENT PLAN AND TRUST

SUMMARY OF PRINCIPAL PLAN PROVISIONS

Appendix 2

Effective Date: October 1, 1974. The most recent amendment and restatement is effective January 1, 2012. The most recent amendment to freeze the plan to future participation and Employer Credits is effective December 31, 2013

Valuation Date: January 1, 2023

Plan Year: 2023

Eligibility: An Employee is eligible to participate in the Plan on the first January 1 coincident with or next following the completion of one Year of Service, provided that the Employee is in an Eligible Job Classification at that time. An Employee who was a participant in the prior plan as of December 31, 1998 continues as a participant in this Plan. The Plan is frozen to new participants effective December 31, 2013.

Accrual Service: For plan years ending before January 1, 1999, accrual service is credited according to the provisions of the plan then in effect. For any plan year beginning after 1998, one year of accrual service is credited if the amount of Hours of Service for such a year is at least 1000. The Plan benefits are frozen effective December 31, 2013.

Vesting Service: For plan years ending before January 1, 1999, Vesting Service is credited according to the provisions of the plan then in effect. For any plan year beginning after 1998, one year of Vesting Service is credited if the Hours of Service for such a year is at least 1000. For the purpose of determining eligibility to participate in the Plan, the completion of 1000 Hours of Service in the year begin on date of hire is regarded as a Year of Service.

Compensation: For plan years beginning on or after January 1, 1999, Compensation is an Employee's W-2 earnings plus any amounts deferred under a salary reduction agreement to a 403(b) plan as well as any elective deferrals to a Section 125 plan. Compensation will be limited to the annual amount, which an Employee must earn, in the immediately preceding Plan Year to be considered a highly compensated employee (as set forth in Code Section 414(g)).

Retirement Dates:

- a. Normal Retirement: A Participant's Normal Retirement Date is the first day of the month coincident with or next following age 65.
- b. Early Retirement: A Participant may elect Early Retirement after attaining age 55.
- c. Disability Retirement: A Participant's Disability Retirement Date is the first of the month coincident with or next following the date as of which the Plan Administrator determines that the Employee has incurred a Total and Permanent Disability, provided that the Employee is then a Participant with at least five Years of Service.

ST. JOSEPH'S HOSPITAL RETIREMENT PLAN AND TRUST SUMMARY OF PRINCIPAL PLAN PROVISIONS

Appendix 2

Payment of the benefits under these provisions commences as of the Participant's Disability Retirement Date.

- d. Postponed Retirement: A Participant may continue to work beyond his Normal Retirement Date.

Retirement Benefits:

- a. Normal Retirement: A Participant's Normal Retirement Benefit is his Accrued Benefit.
- b. Early Retirement: A Participant's Early Retirement Benefit is his Accrued Benefit, adjusted to reflect the commencement of benefits before Normal Retirement Date. The portion of the Accrued Benefit accrued after 1998 will be expressed in an Actuarially Equivalent life annuity form, based on the Participant's age at benefit commencement, and the Applicable Interest Rate.
- c. Disability Retirement: A Participant's Disability Retirement Benefit is equal to his Accrued Benefit, adjusted in the manner of an Early Retirement Benefit, but with an additional actuarial reduction of the portion (1) above, to the extent, if any, by which benefits commence before age 55.
- d. Postponed Retirement: The Postponed Retirement Benefit payable when a Participant actually retires is equal to his Accrued Benefit, adjusted to reflect commencement at a date after Normal Retirement Date.

Accrued Benefit: A Participant's Accrued Benefit is the aggregate of 1) his Prior Plan accrued Benefit, if any, and 2) his Retirement Account, if any. At Normal Retirement Date, the Accrued Benefit, in terms of a Life Annuity, is the Prior Plan Accrued Benefit plus the Actuarial Equivalent of the Retirement Account.

Prior Plan Accrued Benefit: The Prior Plan Accrued Benefit is calculated by a career average pay formula. The total is accrued during active participation and is as follows: (1) 1% of Plan Year Compensation not in excess of the Integration Level (\$7,800), plus (2) 1.5% of such Plan Year Compensation in excess of the Integration Level. However, Accrual Service in excess of 45.5 years is excluded.

Retirement Account: All allocations are frozen as of December 31, 2013.

Interest Credits: Effective January 1, 2000, the Interest Rate equals the lesser of (a) the average annual yield of 12 month U.S. Treasury Bills for the immediately preceding Plan Year or (b) the adjusted third segment rates applied for the second full month preceding the Plan Year; and ((c) not less than the lesser of the rate described above in (b) or 4%.

ST. JOSEPH'S HOSPITAL RETIREMENT PLAN AND TRUST SUMMARY OF PRINCIPAL PLAN PROVISIONS

Appendix 2

Optional Forms of Benefit Payment:

- a. Life Annuity – Basic Option: Monthly payments will be made to the Participant during his lifetime. After his death, no further payments will be made.
- b. 5, 10, or 15 Years Certain and Continuous: Reduced monthly payments will be made to the Participant during his lifetime. If he dies before the period certain ends, payments of the same amount will be made to his designated beneficiary for the balance of the period certain.
- c. Joint and Contingent Option: Reduced monthly payments will be made to the Participant during his lifetime. After his death, payments of 100%, 66 2/3%, or 50% will be continued to his designated beneficiary for such beneficiary's lifetime.
- d. Lump Sum: In lieu of receiving monthly payments, a single payment equal to the actuarial equivalent value of the monthly payments will be made. This payment option is available only in the event that the single sum actuarial equivalent of the vested portion of the Accrued Benefit is \$5,000 or less, and then, it is the only payment option to be made available to the Participant.

In the absence of any other election, a Joint and 50% Contingent Option with the spouse as beneficiary will be considered to have been elected for a married Participant. The Life Annuity Option will be considered to have been elected for an unmarried Participant.

Pre-Retirement Death Benefits: Effective January 1, 1999, if a vested Participant dies before his benefit commencement date, his beneficiary will be entitled to an immediate Pre-Retirement Death Benefit, actuarially equivalent to the vested portion of the Participant's Accrued Benefit. If the single sum actuarially equivalent to the vested portion of the Participant's Accrued Benefit exceeds \$5,000, the beneficiary may elect to receive either such single sum or a life annuity. If the beneficiary is the spouse of the Participant, and the Qualified Pre-Retirement Survivor Annuity payable to the spouse has an actuarial value greater than that of the vested portion of the Participant's Accrued Benefit, then the benefit distributed to the beneficiary will have such greater actuarial value. The death benefit, if any, payable to a Participant who terminated before January 1, 1999, will be as determined under the provisions of the Prior Plan.

The beneficiary of a married Participant will be the Participant's spouse, unless that spouse consents to another beneficiary. A single Participant may designate a beneficiary without any need for consent.

Vesting: A Participant is 100% vested in his Accrued Benefit after completing three years of Vesting Service or after attaining age 55.

Contributions: The Hospital pays the entire cost of the Plan. There are no employee contributions.
