Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of Northwest Colorado Visiting Nurse Association d/b/a Northwest Colorado Health Retirement Plan (the Plan), an employee benefit plan subject to the *Employee Retirement Income Security Act of 1974* (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2023 and 2022, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from qualified institutions as of December 31, 2023 and 2022, and for the years then ended, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section:

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- The information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that these financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.

- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter – Supplemental Schedule Required by ERISA

The supplemental schedule listed in the table of contents is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, is presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Note 1. Description of the Plan

The following description of Northwest Colorado Visiting Nurse Association d/b/a Northwest Colorado Health Retirement Plan (the Plan) provides only general information. Participants should refer to the plan document and *Summary Plan Description* for a more complete description of the Plan's provisions, which are available from the plan administrator.

General

The Plan is a defined contribution plan for the benefit of substantially all employees of Northwest Colorado Visiting Nurse Association d/b/a Northwest Colorado Health (the Company). Related employers who also participate in the Plan include West Routt Rural Health Council Inc. d/b/a Haven. The Plan is subject to the provisions of the *Employee Retirement Income Security Act of 1974* (ERISA). AIG Retirement Services (AIG) was the insurance company and custodian for the Plan. Empower Trust Company, LLC (Empower) (formerly, Massachusetts Mutual Life Insurance Company (MassMutual)) is the trustee, custodian and insurance company for the Plan. For the years ended December 31, 2023 and 2022, the Company maintained assets in the custodianship of AIG Retirement Services and Empower.

Contributions

The Plan permits eligible employees through a salary deferral election to have the Company make annual contributions of up to 100% of eligible compensation. Employee rollover and catch-up contributions are also permitted. Employees who have one year of service, as defined, are eligible for Company contributions. The Plan allows the employer to vary the amount of the employer contributions during the plan year. During December 31, 2023 and 2022, the Company elected to make matching contributions of 100% of employees' salary deferral amounts on the first 3% of employees' compensation. Company profit-sharing contributions are discretionary as determined by the Company's Board of Directors. Contributions are subject to certain limitations. Forfeitures are used to reduce Company contributions.

Participant Investment Account Options

Investment account options available include various separate accounts and investment contracts with an insurance company. Each participant has the option of directing his or her contributions into any of the investment accounts and may change the allocation daily; however, for certain investment accounts, in an effort to reduce market timing and excessive trading, certain restrictions apply.

Participant Accounts

Each participant's account is credited with the participant's contribution, the respective Company's contribution, and plan earnings, and is charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Notes to Financial Statements
December 31, 2023 and 2022**

Vesting

The Plan has a three-year vesting schedule for employer matching and profit-sharing contributions as noted in the table below:

Years of Service	Vested Percentage
1	40%
2	70%
3	100%

Vesting in the Company's contribution portion of their accounts plus earnings thereon is based on years of continuous service. Employees are not eligible for Company contributions until after one year of service and 1,000 hours of service; however, the Company makes matching contributions on a monthly basis. Employees who receive matching funds and then fail to complete the one-year service or the 1,000 hours requirements forfeit those funds upon termination of service. The nonvested balance is also forfeited upon termination of service. Forfeitures are used to reduce the Company's future contributions to the Plan.

Participants hired prior to July 1, 2019 are 100% vested in employer matching and profit-sharing contributions.

Payment of Benefits

Upon termination of service due to death, disability or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account or annual installments over a 10-year period. For termination of service for other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution.

Upon termination of service, employees with a vested account balance less than \$1,000 will have their vested account balance distributed to them in a lump-sum payment. Upon termination of service, an employee with a vested account balance greater than \$1,000 but less than \$5,000 will have their vested account balance distributed to them in an individual retirement account. Upon termination of service, an employee with a vested account balance greater than \$5,000 may elect to receive a lump-sum payment, purchase an annuity contract equal to the value of his or her account, roll over the account balance to an account of his or her choice, or maintain the balance in the Plan and continue to share in investment gains and losses. Certain withdrawal restrictions are in place if a participant is invested in the fixed accounts.

Participants may withdraw amounts from their accounts subject to certain limitations imposed by the Plan. Such withdrawals are also subject to certain taxes and penalties as assessed by the Internal Revenue Service.

Notes Receivable from Participants

Under Reliance, the plan document includes provisions authorizing loans from the Plan to active, eligible participants. The minimum amount of a loan shall be \$1,000. The maximum amount of a participant's loans is determined by the available loan balance restricted to the lesser of \$50,000 or 50% of the participant's vested account balance. All loans are covered by demand notes and are repayable over a period not to exceed five years (except for loans for the purchase of a principal residence) through payroll withholdings unless the participant is paying the loan in full. Interest on the loans is based on local prevailing rates as determined by the plan administrator.

Notes to Financial Statements
December 31, 2023 and 2022**

Plan Loans

Prior to September 2019, AIG issued loans to plan participants outside the scope of the Plan. Participants pledge as security a portion of their AIG account balance, which represents 100% of the outstanding loan balance. The pledged assets are invested in the Loan Collateral and Escrow Funds and earn an effective interest rate equal to 3%. The amounts pledged as collateral at December 31, 2023 and 2022 were \$16,429 and \$25,140, respectively. Of the amounts pledged as collateral, \$10,624 and \$14,438 related to loans that are considered to be in default by AIG at December 31, 2023 and 2022, respectively. As the Plan still holds the assets of the participants associated with the defaulted notes, these amounts are considered to be plan assets and continue to accrue interest at 3%. When the participant has a distributable event, the amount of the defaulted collateral balance plus any accrued interest will be deducted from his or her account prior to distribution.

The Employee Benefit Security Administration (EBSA) has expressed concern that the pledging of collateral of a participant's balance could be considered a prohibited transaction; however, formal guidance has yet to be issued by the EBSA.

Effective September 13, 2019, the Plan was amended and restated (plan amendment) to modify the Plan so that participants may only take loans out through Empower and the maximum number of loans allowed to be taken out is one.

Forfeited Accounts

At December 31, 2023 and 2022, forfeited nonvested accounts totaled \$2,971 and \$2,179, respectively. These accounts will be used to reduce future employer contributions. Also, in December 31, 2023 and 2022, employer contributions were reduced by \$0 from forfeited nonvested accounts.

Note 2. Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements are prepared on the accrual basis of accounting.

Investments held by a defined contribution plan are required to be reported at fair value, except for fully benefit-responsive investment contracts. Contract value is the relevant measure for the portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts, because contract value is the amount participants normally would receive if they were to initiate permitted transactions under the terms of the Plan.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets and changes in net assets and disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

**Northwest Colorado Visiting Nurse Association
d/b/a Northwest Colorado Health Retirement Plan
Notes to Financial Statements
December 31, 2023 and 2022**

Investment Valuation and Income Recognition

Investments are reported at fair value (except for fully benefit-responsive investment contracts, which are reported at contract value). Quoted market prices, if available, are used to value investments.

Separate accounts are valued at estimated fair value as provided by AIG. Estimated fair value is based on the change in net asset values of the underlying mutual fund investments, dividends, capital gain or loss distributions, and expense charges.

The AIG fixed interest accounts are subject to a market value adjustment if amounts are withdrawn prior to the termination of the contract; thus, the fixed interest accounts are not benefit responsive and are valued at estimated fair value as provided by AIG. The fair value of these fixed investment contracts (excluding fully benefit-responsive investment contracts) are calculated by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the creditworthiness of the issuer.

Fully benefit-responsive investment contracts are valued at contract value. Contract value represents contributions made under the contract, plus interest at the contract rate, less participant withdrawals and administration expenses.

The loan collateral and escrow funds are valued at cost, which approximates fair value.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year, as well as reinvested dividends.

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the plan document.

Administrative Expenses

Administrative expenses may be paid by the Company or the Plan, at the Company's discretion.

Note 3. Certification of Plan Insurance Companies, Custodians and Trustee

The plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, AIG (a qualified institution), a custodian and insurance company of the Plan, Reliance (a qualified institution), a trustee and custodian of the Plan, and Empower (a qualified institution), an insurance company of the Plan, have certified the following information included in the accompanying financial statements and supplemental schedule is complete and accurate:

- Investments and notes receivable from participants as shown in the statements of net assets available for benefits as of December 31, 2023 and 2022
- Investment income (loss) and interest income from notes receivable as shown in the statements of changes in net assets available for benefits for the years ended December 31, 2023 and 2022
- Investment information and notes receivable from participants included in the accompanying supplemental schedule of assets (held at year-end) as of December 31, 2023

The Plan's independent auditors did not perform auditing procedures with respect to this certified investment information, except for comparing such certified investment information to the related investment information included in the financial statements and ERISA-required supplemental schedule.

Note 4. Disclosures About Fair Value of Plan Assets and Liabilities

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Fair value measurements must maximize the use of observable inputs and minimize the use of unobservable inputs. There is a hierarchy of three levels of inputs that may be used to measure fair value:

- Level 1** Quoted prices in active markets for identical assets or liabilities
- Level 2** Observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities
- Level 3** Unobservable inputs supported by little or no market activity and are significant to the fair value of the assets or liabilities

Investments at fair value	<u>\$ 5,536,444</u>			

(A) In accordance with Subtopic 820-10, the Plan's investments in pooled separate accounts, that were measured at net asset value per share (or its equivalent) totaling \$1,162,948 and \$1,015,278 at December 31, 2023 and 2022, respectively, have not been classified in the fair value hierarchy. There are no commitments or redemption notices, and frequency of redemption is daily for these investments.

Following is a description of the valuation methodologies and inputs used for assets measured at fair value on a recurring basis and recognized in the accompanying statements of net assets available for benefits, as well as the general classification of such assets pursuant to the valuation hierarchy. There have been no significant changes in the valuation techniques during the year ended December 31, 2023. The Plan had no liabilities measured at fair value on a recurring basis. In addition, the Plan had no assets or liabilities measured at fair value on a nonrecurring basis. For assets classified within Level 3 of the fair value hierarchy, the process used to develop the reported fair value is described below.

Investments

Where quoted market prices are available in an active market, securities are classified within Level 1 of the valuation hierarchy. If quoted market prices are not available, then fair values are estimated by using quoted prices of securities with similar characteristics or independent asset pricing services and pricing models, the inputs of which are market-based or independently sourced market parameters, including, but not limited to, yield curves, interest rates, volatilities, prepayments, defaults, cumulative loss projections and cash flows. Such securities are classified in Level 2 of the valuation hierarchy. In certain cases where Level 1 or Level 2 inputs are not available, securities are classified within Level 3 of the hierarchy. See the table below for inputs and valuation techniques used for Level 3 securities.

Level 3 Activity

Activity, transfers into and out of Level 3 and the reasons for those transfers are as follows:

	Fixed Accounts	Loan Collateral and Escrow Funds	Reason for Transfer
2023			
Purchases	\$ 3,795	\$ 863	\$ -
Sales	\$ 9,270	\$ (1,446)	\$ -
2022			
Purchases	\$ 4,728	\$ 1,699	\$ -
Sales	\$ 12,951	\$ (2,776)	\$ -

There were no realized or unrealized gains or losses for 2023 and 2022 included in net appreciation (depreciation) in the accompanying statements of changes in net assets available for benefits.

Unobservable (Level 3) Inputs

The following tables present quantitative information about unobservable inputs used in recurring Level 3 fair value measurements at December 31, 2023 and 2022.

	Fair Value at 2023	Valuation Technique	Unobservable Inputs	Range
Fixed accounts	\$ 178,995	Discounted cash flow	Contractual interest rate	1.00% – 3.00%
Loan collateral and escrow funds	\$ 16,429	Discounted cash flow	Contractual interest rate	3.00%

	Fair Value at 2022	Valuation Technique	Unobservable Inputs	Range
Fixed accounts	\$ 184,469	Discounted cash flow	Contractual interest rate	1.00% – 3.00%
Loan collateral and escrow funds	\$ 25,140	Discounted cash flow	Contractual interest rate	3.00%

Uncertainty of Fair Value Measurements

The following is a description of the sensitivity of significant unobservable inputs, the interrelationships between those inputs and other unobservable inputs used in recurring fair value measurement and how those inputs might magnify or mitigate the effect of changes in the unobservable inputs on the fair value measurement.

Investment Contract with Insurance Company

The significant unobservable input used in the fair value measurement of the Plan's investment contract with an insurance company is the interest rate of the investment contract. Changes in the contractual interest rate would result in a significant change in fair value to the extent the change deviates from changes in market interest rates. Generally, an increase (decrease) in the difference between the contractual interest rate and the market interest rate is accompanied by a directionally opposed change in the fair value.

Note 5. Investment Contract with Insurance Company

In 2018, the Plan entered into a fully benefit-responsive investment contract with Empower (formerly, Mass Mutual Life Insurance Life Insurance Company (Insurance Company)). The Insurance Company maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate guaranteed to the Plan.

The guaranteed investment contract is fully benefit responsive; therefore, contract value is the relevant measurement. Contract value, as reported to the Plan by the Insurance Company, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against the contract value for credit risk of the contract issuer or otherwise.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the plan documents (including complete or partial plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The plan administrator does not believe the occurrence of any such value event, which would limit the Plan's ability to transact at contract value with participants, is probable.

The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

Mass Mutual Guaranteed Interest Account	<u>\$ 62,118</u>	<u>\$ 118,309</u>

Note 6. Party-in-Interest Transactions

Party-in-interest transactions include those with fiduciaries or employees of the Plan, any person who provides services to the Plan, an employer whose employees are covered by the Plan, an employee organization whose members are covered by the Plan, a person who owns 50% or more of such an employer or employee association, or relatives of such persons.

Certain plan investments are units of separate accounts of the Plan's custodians and insurance company. The Plan's Empower and AIG fixed accounts are maintained in Reliance's and AIG's general accounts.

The Plan is charged fees and expenses through investment expense ratios. The investment expense ratios vary by fund. These investment expense ratios are charged against the funds and are reflected in the value of the investments held by the Plan. The investment expense ratios include, as applicable, management expenses, administration expenses, 12b-1 fees, record keeping and distribution fees, sub-transfer agency fees, and shareholder servicing fees. The total fees and expenses not charged against the funds and paid by the Plan for 2023 and 2022 were \$48,607 and \$46,021, respectively.

The Plan incurs expenses for certain accounting and auditing services. For the years ended December 31, 2023 and 2022, these expenses were paid by the Company. The Company also provides certain administrative services at no cost to the Plan.

Note 7. Plan Termination

Although it has not expressed an intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan, subject to the provisions of ERISA. In the event of plan termination, participants will remain 100% vested in their accounts.

Note 8. Plan Tax Status

The Plan, together with the investment vehicles, is intended to be a tax-sheltered annuity plan under Section 403(b) of the Internal Revenue Code of 1986, as amended. The Plan has not requested or obtained a determination letter. However, the plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code and that the Plan was qualified, and the related trust was tax-exempt as of the financial statement date.

Note 9. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note 10. Nonexempt Transactions

Defined contribution plans are required to remit employee contributions to the Plan as soon as they can be reasonably segregated from the employer's general assets, but no later than the 15th business day of the month following the month in which the participant contributions are withheld by the employer.

Note 11. Subsequent Events

Subsequent events have been evaluated through September 27, 2024, which is the date the financial statements were available to be issued.

Effective June 1, 2024, the Plan was amended, and participants are auto enrolled at 1% with an annual increase of 1% up to a maximum of 10% at the beginning of each plan year.
