Northwest Energy Efficiency Alliance Retirement Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of Northwest Energy Efficiency Alliance Retirement Plan, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2023 and 2022, and the related statement of changes in net assets available for benefits for the year ended December 31, 2023, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from qualified institutions as of December 31, 2023 and 2022 and for the year ended December 31, 2023, stating that the certified investment information, as described in *Note 3* to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditors' Responsibilities for the Audit of the Financial Statements section:

- The amounts and disclosures in the financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- The information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Northwest Energy Efficiency Alliance Retirement Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Northwest Energy Efficiency Alliance Retirement Plan's ability to continue as a going concern within one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments; administering the plan; and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

Auditors' Responsibilities for the Audit of the Financial Statements - Continued

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Northwest Energy Efficiency Alliance Retirement Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Northwest Energy Efficiency Alliance Retirement Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedule Required by ERISA

The supplemental schedule of assets (held at end of year) as of December 31, 2023, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, is presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

NORTHWEST ENERGY EFFICIENCY ALLIANCE RETIREMENT PLAN

Notes to Financial Statements

1. Plan Description

The following brief description of Northwest Energy Efficiency Alliance Retirement Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General - The Plan is a defined contribution plan covering all eligible employees of Northwest Energy Efficiency Alliance, Inc. (NEEA) subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

The custodians of the Plan are Variable Annuity Life Insurance Company (VALIC), AIG Federal Savings Bank (AIG), and Charles Schwab Trust Bank (Schwab). All participant account balances are held by the custodians. The participant directs the investment of all contributions and earnings thereon, and may change their investment directives at any time.

Eligibility - All eligible employees of NEEA, as defined in accordance with universal availability standards, are eligible to participate in elective deferrals to the Plan on their date of hire. Qualified employees are eligible for employer contributions upon the first day of the month coinciding with the date they satisfy the eligibility requirements, which includes a three month service requirement.

Contributions - Participants may make elective salary deferral contributions to the Plan, subject to statutory limitations. Participants who have attained age 50 during the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing rollovers from other qualified defined benefit or contribution plans.

NEEA currently makes discretionary employer contributions to the Plan equal to 3 percent of each eligible employee's compensation, plus an additional 2 percent for employees with 10 or more years of service. NEEA also makes a safe harbor contribution equal to 3 percent of employee's compensation. In addition, NEEA contributes a match of participant contributions equal to 100 percent of the participant's elective contributions up to 2 percent of the employee's compensation. NEEA may change or discontinue these contributions at any time.

Participant Accounts - Each participant's account is credited with his or her contributions, an allocation of NEEA's contributions, and an allocation of Plan earnings or losses. Deducted from each participant's account are any distributions made to the participant and an allocation of Plan administrative fees. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the balance of the participant's vested account.

1. Plan Description - Continued

Vesting - Participants are immediately vested in their contributions and actual earnings thereon. A participant is credited with a year of service in which they work at least 1,000 hours. Participants who reach normal retirement age, become disabled, or die, will become fully vested in their entire account balance. The vesting schedule for NEEA's discretionary and matching contribution and actual earnings thereon is as follows:

Years of Service	Percentage
Less than 1 year	-0- %
1 year	33
2 years	66
3 years	100

Participants are immediately vested in NEEA's safe harbor contributions and actual earnings thereon.

Payment of Benefits - Upon attaining age 59 and a half, termination of service, disability, or death, a participant or beneficiary may elect to receive the entire vested account balance, either in a lump sum or, at the participant's election, in periodic installments. Terminated participants whose account balance is \$5,000 or less will automatically receive a lump-sum distribution. Hardship distributions derived from elective deferrals are permitted if certain criteria are met.

Notes Receivable from Participants - Participants may borrow from their accounts with Schwab a minimum of \$1,000 and up to a maximum equal to the lesser of \$50,000 or 50 percent of their account balance. Principal and interest are paid ratably through payroll deductions. Loan terms cannot extend beyond five years from the date of the loan unless the loan is used to acquire the principal residence of the participant. Loans are secured by the balance of the participant's account and bear interest at 8.25 percent, which is commensurate with local prevailing rates, and have a maturity date of October 2025.

VALIC Plan Loans - Participants may pledge their account balances as collateral in order to secure a loan from VALIC, one of the Plan's custodians. Under this arrangement, the loan is between the Plan participant and VALIC, and no amounts are withdrawn from Plan assets. An amount equal to the principal amount of the loan is transferred from the participant's regular investment funds in the Plan to VALIC's Loan Collateral Account, which is a fixed-rate return fund. An additional amount equal to interest on the loan for one quarter, plus potential penalties for non-payment (surrender charges) on the loan are transferred from the participant's regular investment funds in the Plan to VALIC's Loan Escrow Fund, which is also a fixed-rate return fund. As the principal balance of the loan is paid down by the participant, dollars of collateral are released from the Loan Collateral Account and Plan Loan Fund and reinvested in other funds as directed by the participant. Principal and interest are paid ratably by the participant. At December 31, 2023 and 2022, total Plan assets pledged as collateral for plan loans were \$28,685 and \$27,584, respectively.

2. Summary of Significant Accounting Policies

Basis of Accounting - The financial statements of the Plan have been prepared using the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America (GAAP).

Use of Estimates - The preparation of financial statements in conformity with GAAP requires the Plan Administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of additions to, and deductions from, net assets available for benefits during the reporting period. Actual results could differ from these estimates.

Investment Valuation and Income Recognition - At December 31, 2023 and 2022, the Plan's investments in shares of registered investment companies and pooled separate accounts are stated at fair value (*Note 4*). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Plan management determines the Plan's valuation policies utilizing information provided by the investment advisors, custodians, and insurance companies.

The Plan's investment in guaranteed investment contracts have been determined to be fully benefit-responsive contracts and are therefore reported at contract value. Contract value is the relevant measure for fully benefit-responsive contracts because this is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. See *Note 5* for further discussion of guaranteed investment contracts.

The net depreciation in the fair value of investments includes realized and unrealized gains and losses on the fair value of investments bought and sold as well as held during the year. Purchases and sales of investments are recorded on a settlement date basis. Interest income is accrued as it is earned and dividends are recorded as of the ex-dividend date.

Notes Receivable from Participants - Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2023 or 2022. If a participant ceases to make loan repayments, and the Plan Administrator deems the participant to be in default, the receivable balance is reduced and a deemed distribution is recorded.

Benefits Paid to Participants - Distributions are recorded when paid. At December 31, 2023, there were no benefits processed and approved for payment, but not paid.

Plan Expenses - Certain administrative expenses are paid from Plan assets and deducted from participant accounts in accordance with the Plan document. Other expenses, such as legal and accounting, are paid directly by NEEA. Fees related to the administration of participant loans are charged directly to the participant's account and are included in administrative fees. Investment related expenses are included in net investment income.

3. Certified Investments

Certain information related to cash, investments, and notes receivable from participants disclosed in the accompanying financial statements and ERISA-required supplemental schedule, including cash, investments, and notes receivable from participants held at December 31, 2023 and 2022, and net investment income and interest on notes receivable from participants for the year ended December 31, 2023, was obtained by management and agreed to or derived from information certified as complete and accurate by VALIC, AIG, and Schwab (the custodians of the Plan).

4. Fair Value Measurements

GAAP establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets in active markets the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- Quoted prices for similar assets in active markets;
- Quoted prices for identical or similar assets in inactive markets;
- Inputs other than quoted prices that are observable for the asset; and
- Inputs derived principally from or corroborated by observable market data by correlation or other means.

If the asset has a specified (contractual) term, the Level 2 input must be observable for the full term of the asset.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

4. Fair Value Measurements - Continued

The following table sets forth by level, within the fair value hierarchy, the Plan's investments measured at fair value on a recurring basis as of December 31, 2023:

	Level 1	Level 2	Level 3	Total
Shares of registered investment companies	\$ 17,229,298	\$ -	\$ -	\$ 17,229,298

Total investments at fair value				<u>\$ 19,219,905</u>

The following table set forth by level, within the fair value hierarchy, the Plan's investments measured at fair value on a recurring basis as of December 31, 2022:

Total investments at fair value				<u>\$ 16,309,789</u>

NORTHWEST ENERGY EFFICIENCY ALLIANCE RETIREMENT PLAN

Notes to Financial Statements - Continued

4. Fair Value Measurements - Continued

Following is a description of the valuation methodologies used for assets measured at fair value:

Registered investment companies - Fair value of the Plan's shares of registered investment companies is based on reference to quoted market prices provided by AIG or Schwab.

Fixed annuity contracts (non benefit-responsive) - Investments in VALIC Fixed Account Plus are considered non benefit-responsive. Non benefit-responsive fixed annuity contracts are reported at fair value, which approximates contract value. As these investments are contract-based, observable prices for identical or similar investments do not exist, and accordingly, these investments are valued using unobservable inputs. The contract value equals the accumulated cash contributions and interest credited to the contract, less any withdrawals. Liquidity restrictions apply to certain types of contracts that could impact the value realized upon exiting the contract.

Pooled separate accounts - Pooled separate accounts are valued at the net asset value per unit as provided by the custodians of the Plan. The net asset values are used as a practical expedient to estimate the fair value and are based on the fair value of the underlying investments less liabilities. Participant transactions (purchases and sales) may occur daily. Were the Plan to initiate a full redemption of the pooled separate accounts, the investment advisor reserves the right to temporarily delay withdrawal from the trust in order to ensure securities liquidations are carried out in an orderly manner.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NORTHWEST ENERGY EFFICIENCY ALLIANCE RETIREMENT PLAN

Notes to Financial Statements - Continued

4. Fair Value Measurements - Continued

The following table sets forth additional disclosures for the fair value measurement of investments in certain entities that calculate net asset value per share (or its equivalent) as of December 31:

Investment Type	Fair Value	Unfunded Commitments	Redemption Frequency	Redemption Notice Period
2023				
Pooled separate accounts	\$ 1,724,194	\$ -	Daily	None
2022				
Pooled separate accounts	\$ 1,595,829	\$ -	Daily	None

The pooled separate accounts investment objective is to lower the costs to investors through economies of scale available by combining the assets of multiple investors, to provide daily liquidity, and to provide better diversification. Each investor owns a participating interest that is calculated in units and represents its portion of the holdings of the fund.

The table below sets forth a summary of changes in fair value of the Plan's Level 3 assets for the years ended December 31:

	2023	2022
Beginning balance	\$ 393,891	\$ 308,999
Purchases	8,173	10,229
Sales	(135,651)	(9,446)
Transfers in	-	84,109
Ending balance	<u>\$ 266,413</u>	<u>\$ 393,891</u>

4. Fair Value Measurements - Continued

The following table represents the Plan's Level 3 financial instruments, the valuation techniques used to measure the fair value of those financial instruments, and the significant unobservable inputs and the ranges of value for those inputs at December 31:

Instrument	Fair Value	Principal Valuation Technique	Range of Unobservable Inputs	Significant Input Values	Weighted Average
2023					
VALIC fixed annuity contracts	\$ 266,413	Discounted cash flow	Risk-adjusted discount rate applied	N/A	1.5 - 3%

NORTHWEST ENERGY EFFICIENCY ALLIANCE RETIREMENT PLAN

Notes to Financial Statements - Continued

5. Guaranteed Investment Contracts (Unaudited)

The Plan has entered into fixed annuity contracts issued by VALIC. VALIC maintains these contracts in its general account. These contracts meet the fully benefit-responsive investment contract criteria and therefore are reported at contract value in the accompanying statements of net assets available for benefits. The account is credited with contributions and earnings on the underlying investment, and charged for withdrawals and administrative expenses.

The contracts provide specified interest rates, which are guaranteed by VALIC. Participant accounts that include these contracts are credited by the applicable specified interest rate. VALIC is contractually obligated to repay the principal and interest from its general account or its other assets. There are no reserves against contract value for credit risk of VALIC. Guaranteed interest rates credited to participant accounts are set by VALIC and are based on a formula agreed upon with the issuer. Rates are periodically reviewed by VALIC for resetting.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The contract value of these investment contracts at December 31, 2023, and 2022, was \$1,105,812 and \$1,210,238, respectively.

Certain events allow the issuer to terminate the contracts with the Plan and settle at an amount different from contract value. Those events may be different under each contract. Examples of such events include the following: 1) an uncured violation of the Plan's investment guidelines; 2) a breach of material obligation under the contract; 3) a material misrepresentation; or 4) a material amendment to the agreements without the consent of the issuer.

In addition, the Plan has entered into a fully benefit-responsive guaranteed investment contract with the Standard Insurance Company (Standard). Standard maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

Because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. The guaranteed investment contract is presented on the face of the statements of net assets available for benefits at contract value. Contract value, as reported to the Plan by Standard, represents contributions made under the contract, plus earnings, less participant withdrawals, and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The contract value of this investment contract at December 31, 2023 and 2022, was \$2,317,296 and \$2,312,939, respectively.

NORTHWEST ENERGY EFFICIENCY ALLIANCE RETIREMENT PLAN

Notes to Financial Statements - Continued

5. Guaranteed Investment Contracts (Unaudited) - Continued

The Plan can elect to end its participation in the contract at any time. If the Plan elects to end participation, the Plan will receive the lesser of the guaranteed contract value or market value; if the market value is less than the Stable Asset Fund, the Plan may have the option of transferring its investment to a fixed rate, fixed maturity, general account contract of Standard, in which case the Plan's guaranteed value would be maintained.

The guaranteed investment contract allows Standard to terminate the contract with 30 days advance written notice solely for reasonable cause, including Plan disqualification or failure to maintain Plan assets of at least \$25,000. Upon termination by Standard, a market value adjustment or other withdrawal restrictions may apply. The Plan sponsor may choose to pay the market value adjustment directly, if applicable, so that participants' contract values are not affected.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the Plan documents (including complete or partial Plan termination or merger with another plan); (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions; (3) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan; or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan Administrator does not believe any events that would limit the Plan's ability to transact at contract value with participants are probable of occurring.

6. Transactions with Parties in Interest

The following transactions qualify as party-in-interest transactions:

- Certain Plan investments are managed by VALIC, AIG, and Schwab. These investments and investment transactions qualify as party-in-interest transactions. Certain investment management fees are included in the net investment income, as they are paid through revenue sharing, rather than a direct payment.
- The Plan invests in certain annuity contracts and custodial accounts sponsored or managed by VALIC, AIG, or Standard. Fees incurred by the Plan for the investment management services are included in the net investment gain, as they are paid through revenue sharing rather than a direct payment.
- Northwest Energy Efficiency Alliance is the Plan sponsor and pays for certain administrative costs on behalf of the Plan.
- Participants in the Plan are permitted to borrow funds from their vested balances. These transactions qualify as party-in-interest transactions. Notes receivable from participants and the related interest earned are described in *Note 2*.

Notes to Financial Statements - Continued

7. Plan Termination

Although it has not expressed any intent to do so, NEEA has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to ERISA provisions. However, no such action may deprive any participant or beneficiary under the Plan of any vested right.

8. Income Tax Status

The Plan is utilizing a volume submitter document and is relying on the volume submitter's opinion letter from the Internal Revenue Service (IRS) dated March 31, 2017. The letter states the Plan is designed in accordance with the applicable requirements of the Internal Revenue Code (IRC).

Although the Plan has been amended since receiving the opinion letter, the Plan Administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRS and, therefore, believe that the Plan is qualified, and the related trust is tax-exempt. Therefore, no provision for income tax has been included in the Plan's financial statements.

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more-likely-than-not would not be sustained upon examination by the IRS. The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2023 and 2022, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

9. Risks and Uncertainties

The Plan's assets are invested in a variety of investments. Investment securities, in general, are exposed to various risks such as interest rate, credit, and overall market volatility risks. Market risks include global events which could impact the value of investment securities, such as a pandemic or international conflict. Due to the level of risk associated with certain investment securities, it is reasonably possible changes in the values of investment securities will occur in the near-term, and those changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.
