403(B) THRIFT PLAN FOR EMPLOYEES OF THE NATIONAL ORGANIZATION FOR RARE DISORDERS, INC.

Notes to Financial Statements
December 31, 2023 and 2022

1. DESCRIPTION OF PLAN

The following description of 403(b) Thrift Plan for the Employees of The National Organization for Rare Disorders, Inc. (the Plan) provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

a. General

The Plan is a tax-deferred savings plan covering substantially all employees of The National Organization for Rare Disorders, Inc. (the Plan Sponsor) (NORD). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan Administrator is responsible for the oversight of the Plan and determines the appropriateness of the Plan's investment offerings and monitors investment performance.

b. Eligibility

All employees are eligible to participate in the Plan upon employment, excluding non-resident aliens and independent contractors. Participants are eligible for the Plan Sponsor non-elective 5% base contribution upon employment.

c. Contributions

Each year, participants may contribute a percentage up to 100% of pre-tax annual compensation, up to the maximum allowed by the Internal Revenue Services (IRS). Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified retirement plans (rollover contributions). The Plan includes an auto-enrollment provision whereby all newly eligible employees are automatically enrolled in the Plan at 3% which escalates annually 1% up to a maximum of 7%. Participants may opt-out or elect a different deferral amount at any time. Participants direct the investment of their contributions into various investment options offered by the Plan.

The Plan Sponsor provides for a non-elective 5% base contribution for employees that are participating in the Plan, which totaled \$469,007 for the year ended December 31, 2023.

d. Participant Accounts

Each participant's account is credited with the participant's contributions and the Plan Sponsors' contributions, plus an allocation of plan earnings. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant's earnings, account balances or specific participant transactions, as defined in the plan document. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

403(B) THRIFT PLAN FOR EMPLOYEES OF THE NATIONAL ORGANIZATION FOR RARE DISORDERS, INC.

Notes to Financial Statements
December 31, 2023 and 2022

1. DESCRIPTION OF PLAN (Continued)

e. Vesting

Participants are immediately vested in their voluntary contributions and actual earnings thereon. Participants become vested in the Plan Sponsor contributions based on years of service as follows:

<u>Years of Service</u>	<u>Vesting Percentage</u>
Less than 2 years	0%
Less than 3 years	25%
Less than 4 years	50%
Less than 5 years	75%
5 years or more	100%

Participants become 100% vested upon reaching normal retirement age, death or disability.

f. Plan Loans

The Plan allows for participants to borrow directly from Mutual of America Life Insurance Company (Mutual of America), a qualified institution, with their account balance acting as collateral. Participants may borrow a maximum amount equal to the lesser of \$50,000 or 50% of their vested account balance. The minimum loan allowed is \$1,000. The loan terms cannot exceed five years, unless for the loan is used to acquire a principal residence, in which case the maximum repayment period is ten years. Principal and interest are paid directly to Mutual of America through payroll deductions. There were \$6,306 and \$1,821 in loan collateral amounts with Mutual of America as of December 31, 2023 and 2022, respectively, which are included in the interest accumulation account in the accompanying statements of net assets available for benefits.

g. Payment of Benefits

Upon normal retirement at age 65 or termination of services, a participant may elect to receive a lump-sum equal to the value of the participant's vested account balance or leave their balance in the Plan if the balance is over \$1,000. The Plan allows for early retirement at the age of 55. The Plan requires balances up to \$1,000 be paid out to participants upon termination. There are also retirement benefits available upon disability or death.

The Plan allows in-service withdrawals upon attainment of age 59½. A participant may also request a withdrawal upon demonstration to the Plan Administrator that they are suffering a "hardship". Hardship is defined in applicable regulations promulgated or to be promulgated pursuant to the applicable section of the Internal Revenue Code (IRC) or standards established by the Secretary of the Treasury or their delegate.

h. Forfeitures

Forfeitures represent non-vested Plan Sponsor contributions forfeited by participants who terminate their employment or who withdraw from the Plan. Forfeited non-vested accounts may be used to reduce employer contributions or to pay plan expenses. There were \$1 and \$1,391 of unallocated forfeitures for the years ended December 31, 2023 and 2022, respectively. The Plan Sponsor used \$22,239 of forfeitures to reduce Plan Sponsor contributions during 2023.

1. DESCRIPTION OF PLAN (Continued)

i. SECURE Act 2.0

On December 29, 2022, the Consolidated Appropriations Act of 2023, which included SECURE Act 2.0, was executed. SECURE Act 2.0 contains over ninety new retirement provisions, with varying effective dates through 2027. Since SECURE Act 2.0 provisions include both required and optional elements, the Plan Administrator will determine the optional provisions to elect and amend the plan document accordingly. Most of the significant provisions will become effective in 2024, and thereafter. Accordingly, there is no material impact to the Plan's 2023 financial statements.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation

The Plan prepares its financial statements in accordance with generally accepted accounting principles (U.S. GAAP) established by the Financial Accounting Standards Board (FASB). References to U.S. GAAP in these notes are to the FASB Accounting Standards Codification (ASC).

Use of Estimates

The preparation of financial statements in accordance with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value, except for fully benefit-responsive investment contracts which are reported at contract value (see Notes 9 and 10). Non-benefit-responsive investment contracts are reported at fair value. Units held by the Plan in variable annuity accounts and separate accounts are based on each fund's daily net asset value (NAV) as a practical expedient, which is considered by the Plan's management to be the best approximation of fair value. All investments are not traded on public exchanges and are redeemable only by the issuer. The Plan Sponsor determines the Plan's valuation policies utilizing information provided by the qualified institutions. See Note 4 for discussion of fair value measurement.

Investment contracts held by a defined contribution plan are required to be reported at fair value except for fully benefit-responsive investment contracts. Contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan.

Purchases and sales of investments are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation of investments includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

Contributions

Contributions from plan participants and the Plan Sponsor non-elective contributions are recorded in the year which the participant contributions are withheld from compensation.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Payment of Benefits

Benefits are recorded when paid.

Plan Loans

Plan loans are measured at their unpaid principal balance plus any accrued unpaid interest. Interest income on plan loans is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2023 and 2022. If a participant ceases to make loan repayments and the Plan Administrator deems the participant loan to be in default, the participant loan balance is reduced, and a benefit payment is recorded.

Administrative Expenses

Certain expenses of maintaining the Plan are paid directly by the Plan Sponsor and are excluded from these financial statements. Fees related to plan record keeping, investment advisory services and the administration of notes receivable from participants and benefit payments are paid by the Plan and are included in administrative expenses. Investment-related expenses are included in net appreciation of investments.

Subsequent Events

Subsequent events have been evaluated through September 13, 2024, which is the date the financial statements were available to be issued. There were no events that met the criteria for recognition or disclosure in the financial statements.

3. INFORMATION PREPARED AND CERTIFIED BY THE PLAN'S QUALIFIED INSTITUTIONS

The Plan Administrator has elected the method of annual reporting compliance permitted by ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Teachers Insurance and Annuity Association of America (TIAA) and College Retirement Equity Fund (CREF) and Mutual of America Life Insurance Company (Mutual of America), the qualified institutions, have certified to the completeness and accuracy of all investments reported in the accompanying statements of net assets available for benefits as of December 31, 2023 and 2022, and the supplemental schedule, Form 5500, Schedule H, Part IV, Line 4i - Schedule of Assets Held at End of Year as of December 31, 2023, and the related investment transactions and investment income reported in the accompanying statement of changes in net assets available for benefits for the year ended December 31, 2023.

At the request of the Plan Administrator, the Plan's independent auditors did not perform auditing procedures with respect to certified investment information, except for comparing such certified investment information included in the accompanying financial statements and supplemental schedule, Form 5500, Schedule H, Part IV, Line 4i - Schedule of Assets Held at End of Year as of December 31, 2023.

4. FAIR VALUE MEASUREMENT

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants as of the measurement date. ASC Topic 820, *Fair Value Measurement*, establishes a hierarchy of the valuation techniques based upon whether the inputs to those valuation techniques reflect assumptions other market participants would use based upon market data obtained from independent sources (also referred to as observable inputs).

The fair value hierarchy is as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability; and
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value:

Separate accounts: The separate accounts are valued at the accumulation unit value, which is determined daily as the number of accumulation units held multiplied by the accumulation unit value, using NAV as a practical expedient, which is considered to be the best approximation of fair value. The NAV is used as a practical expedient to estimate the fair value, unless it is probable that all or a portion of the separate account will be sold for an amount different from NAV. As of December 31, 2023 and 2022, the Plan had no plans to sell the separate accounts at an amount different from NAV. The accumulation unit value is first established when a new fund starts and is then determined daily based on the NAV of shares of the underlying fund, plus the fund's dividends and less the account's separate charges.

Variable annuities: The fair value of accumulation units held by the Plan in variable annuity accounts is based on each unit's daily NAV as a practical expedient, which is considered by the Plan Administrator to be the best approximation of fair value. The NAV is used as a practical expedient to estimate the fair value, unless it is probable that all or a portion of the variable annuity accounts will be sold for an amount different from NAV. As of December 31, 2023 and 2022, the Plan had no plans to sell the variable annuity accounts at an amount different from NAV. Variable annuities are not actively traded. Data for NAVs is available daily to Plan Administrators and client investors via the TIAA and CREF website and provides sufficient corroborative evidence to ascertain the relationship between each fund's NAV and the values of individual underlying holdings. Underlying holdings are primarily valued using market quotations or prices obtained from independent pricing sources. Redemption frequency and notice period is available on a daily basis. There are no unfunded commitments from participants in the Plan who invest in these accounts.

4. FAIR VALUE MEASUREMENT (Continued)

There has been no change in the methodologies used at December 31, 2023 and 2022.

The preceding methods used may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair value. While the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table presents the category, fair value, redemption frequency, and redemption notice period for the Plan's investments and respective fair values of which are estimated using the NAV per share as a practical expedient as of December 31:

Category	Fair Value		Redemption Frequency	Redemption Notice Period

5. TAX STATUS

The Plan Sponsor has obtained an opinion letter dated March 31, 2017, in which the IRS stated that the restated prototype plan document was in compliance with applicable requirements of the IRC. The Plan Administrator timely adopted the restated prototype plan. Although the Plan has been amended since receiving the opinion letter, the Plan Administrator believes that the Plan is currently being operated in accordance with the IRC.

U.S. GAAP requires plan management to evaluate tax positions taken by the Plan and recognizes a tax liability (or asset) if the Plan has taken an uncertain position that more-likely-than-not would not be sustained upon examination by the applicable authorities. The Plan is subject to routine audits by taxing jurisdictions however, there are currently no audits for any tax periods in progress.

6. PLAN TERMINATION

Although it has not expressed any intent to do so, The Plan Sponsor has the right under the Plan to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, all participants will become fully vested and all accrued benefits shall be paid to participants in accordance with the provisions of the Plan.

7. RELATED PARTY AND PARTY-IN-INTEREST TRANSACTIONS

Section 3(14) of ERISA defines a party-in-interest to include, among others, fiduciaries or employees of the Plan, any person who provides services to the Plan or an employer whose employees are covered by the Plan. Accordingly, transactions with investment funds managed and held by the qualified institutions of the Plan are considered party-in-interest transactions. During 2023, the Plan paid the qualified institutions fees of \$795.

8. RISK AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risk. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participant account balances and the amounts reported in the statements of net assets available for benefits.

9. INTEREST ACCUMULATION ACCOUNT

The Plan holds an interest accumulation account with Mutual of America which is a deposit administration contract. The deposit administration contract is intended to provide future benefits to present employees through payments to Mutual of America that are credited to an account, which is not applied to the purchase of single payment deferred annuities for individual participants. Contributions are held in the Mutual of America general account and are maintained in a group annuity account. The account is credited with earnings or losses on the underlying investments and charged for participant withdrawals and administrative expenses. The contract is considered fully benefit-responsive and is presented at contract value. Contract value represents contributions made under the contract, plus earnings or losses, less participant withdrawals, and administrative expenses.

Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. There are no front- or bank-end charges, so the investments in the Mutual of America Interest Accumulation Account are completely liquid. The interest credited to investments in the Mutual of America Interest Accumulation Account is a current rate and is not dependent upon the length of time the assets are invested with Mutual of America. Requests for withdrawal can be made at any time and are processed on the day that they are received.

The interest rate is determined by Mutual of America from time to time and Mutual of America reserves the right to change the interest rates applicable to amounts held in the Interest Accumulation Account at their discretion, but not below the minimum guaranteed interest rate of 1.60%.

10. TIAA TRADITIONAL ANNUITY CONTRACT

The TIAA Traditional Annuity Contract is a guaranteed fixed annuity contract available as an investment option to the Plan's participants. Each contract is fully and unconditionally guaranteed by TIAA and CREF. The TIAA Traditional Annuity Contract is offered through a variety of contract types, including Retirement Annuities (RA), Group Retirement Annuities (GRA), Supplemental Retirement Annuities (SRA), and Group Supplemental Retirement Annuities (GSRA). The type of contract through which a participant invests in the TIAA Traditional Annuity Contract determines the applicability of certain account features, such as the guaranteed minimum interest rate, additional interest declarations, the degree of liquidity of the participant's account, and the options for receiving income upon retirement.

403(B) THRIFT PLAN FOR EMPLOYEES OF THE NATIONAL ORGANIZATION FOR RARE DISORDERS, INC.

Notes to Financial Statements
December 31, 2023 and 2022

10. TIAA TRADITIONAL ANNUITY CONTRACT (Continued)

As the SRA and GSRA are fully benefit-responsive guaranteed contracts, contract value is the relevant attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. These investments are included in the financial statements at contract value as reported to the Plan by TIAA and CREF and as allowed in accordance with U.S. GAAP. Contract value, as reported to the Plan by TIAA and CREF, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses.

Participants who chose to allocate a portion of their retirement savings to the TIAA Traditional Annuity Contract make contributions that purchase a specific amount of lifetime income based on the contractual rate schedule in effect at the time the premium is paid. The participant's principal, plus a specified rate of interest, is guaranteed by TIAA and CREF's claims-paying ability. The guaranteed annual interest rate is 3% for all premiums remitted under all TIAA Traditional Annuity Contract accumulating contracts entered into by the Plan's participants. The TIAA Traditional Annuity Contract also provides an opportunity for participants to receive additional amounts, which TIAA and CREF's Board of Trustees may declare on a year-by-year basis. These additional amounts, when declared, remain in effect for the twelve-month "declaration year" that begins each March 1st for accumulation annuities and January 1st for lifetime payout annuities; they are not guaranteed for future years. The TIAA Traditional Annuity Contract does not permit TIAA and CREF to terminate the agreement prior to the scheduled maturity date.

All RA contracts require withdrawals in the form of a lifetime payout annuity or in periodic installments over a ten-year period. All GRA contracts may be withdrawn in a single lump-sum within 120 days of termination of employment; this transaction is subject to a 2.50% surrender charge. All SRA and GSRA contracts provide for full participant-directed liquidity. When a participant's accumulation in the TIAA Traditional Annuity Contract is converted to a lifetime payout annuity, the present value of the stream of payments is equal to the accumulated balance, and the entire amount is recorded as a distribution in the statement of changes in net assets available for benefits.

Certain events, such as the premature termination of the contract by the Plan or the termination of the Plan itself, would limit the Plan's ability to transact at contract value with the contract issuers. The Plan Administrator believes the occurrence of such events that would limit the Plan's ability to transact at contract value with the Plan's participants is not probable.

11. PARTICIPANT ACCOUNT BALANCES

In November 2007, the Department of Labor (DOL) issued amended regulations eliminating an exemption granted to 403(b) plans from the annual Form 5500 reporting, disclosure and audit requirements under Part 1 of Subtitle B of Title I of ERISA, as amended. The DOL acknowledged in its Field Assistance Bulletin No. 2009-02, *Annual Reporting Requirements for 403(b) Plans*, that full annual reporting compliance "may not be possible" and "the guiding principle must be to ensure that the appropriate efforts are made to act reasonably, prudently, and in the interest of the Plan's participants and beneficiaries". Notwithstanding, the DOL's specific recognition of the "compliance challenges" engendered by its new requirements, U.S. GAAP provides no such relief requiring all contracts and custodial accounts to be included and maintained.

Notes to Financial Statements
December 31, 2023 and 2022

11. PARTICIPANT ACCOUNT BALANCES (Continued)

Prior to the amended regulations and the amendment of the plan document, the Plan was not viewed as a separate reporting entity. Historically, the Plan was viewed as a collection of individual accounts with which participants could engage in a range of actions with limited involvement, if any, by the Plan Sponsor. Accordingly, various accounting and payroll records related to the Plan's 403(b) annuity contracts and custodial accounts issued to employees prior to January 1, 2009, were not required to be maintained by the Plan, nor were they required to be maintained or retained by service providers at the Plan level. Consequently, the Plan's financial statements have been prepared based on the available records, which were accessed using reasonable means and then analyzed by the Plan Sponsor. As certain records were not available dating back to the inception of the Plan, the effect, if any, on the completeness of opening balances, and thus on the accuracy of the Plan's financial statements, cannot be determined.

12. DELINQUENT PARTICIPANT CONTRIBUTIONS

During 2022, the Plan Sponsor failed to segregate and remit in a timely manner, certain participant contributions (salary reduction amounts) and loan repayments from its assets within the required time period as specified by the United States DOL Reg. 2520.3012. Failure to segregate and remit contributions within the specified time period is a prohibited transaction according to the provisions of ERISA and the IRC. The Plan Sponsor corrected and funded the lost earnings during January 2024.
