Scope and Nature of the ERISA Section 103(a)(3)(C) Audits

We have performed audits of the financial statements of Denver Museum of Nature & Science Retirement Plan (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statement of net assets available for benefits as of December 31, 2023 and 2022 and the related statement of changes in net assets available for benefits for the year ended December 31, 2023 and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from qualified institutions as of December 31, 2023 and 2022 and for the year ended December 31, 2023 stating that the certified investment information, as described in Note 4 to the financial statements, is complete and accurate.

Disclaimer of Opinion

We do not express an opinion on the accompanying financial statements of the Plan. Because of the significance of the matter described in the *Basis for Disclaimer of Opinion* section of our report, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion on the financial statements.

Basis for Disclaimer of Opinion

As described in Note 3, the Plan has excluded from investments in the accompanying statement of net assets available for benefits certain annuity and custodial accounts issued to current and former employees prior to January 1, 2009, as permitted by the DOL's Field Assistance Bulletin No. 2009-02, *Annual Reporting Requirements for 403(b) Plans*. The investment income and distributions related to such accounts have also been excluded from the accompanying statement of changes in net assets available for benefits. The amount of these excluded annuity and custodial accounts and the related income and distributions are not determinable. Accounting principles generally accepted in the United States of America (GAAP) require that these accounts and the related income and distributions be included in the accompanying financial statements. The Plan has not maintained sufficient accounting records and supporting documents relating to these annuity and custodial accounts issued to current and former employees prior to January 1, 2009. Accordingly, we were unable to apply auditing procedures sufficiently to determine the extent to which the financial statements may have been affected by these conditions.

To the Plan Administrator
Denver Museum of Nature & Science
Retirement Plan

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with GAAP and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are issued or available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments; administering the Plan; and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or that may become due to such participants.

Auditor's Responsibilities for the Audits of the Financial Statements

Our responsibility is to conduct the audits of Denver Museum of Nature & Science Retirement Plan's financial statements in accordance with auditing standards generally accepted in the United States of America and to issue an auditor's report. However, because of the matter described in the *Basis for Disclaimer of Opinion* section of our report, we were not able to obtain sufficient appropriate evidence to provide a basis for an audit opinion on these financial statements.

We are required to be independent of the Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits.

Supplemental Schedule Required by ERISA

The supplemental schedule of assets held at end of year as of December 31, 2023 is presented for the purpose of additional analysis and is not a required part of the financial statements but is supplemental information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. Because of the significance of the matter described in the *Basis for Disclaimer of Opinion* section, it is inappropriate to and we do not express an opinion on the supplemental schedule referred to above.

Note 1 - Plan Description

The following description of Denver Museum of Nature & Science Retirement Plan (the "Plan") provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General

The Plan, which was effective on September 26, 1973, is a defined contribution plan covering all nonbargaining, nonstudent employees of the Colorado Museum of Natural History, A Colorado Non-Profit Corporation, DBA Denver Museum of Nature & Science (the "Museum") immediately upon their date of hire. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

The board of directors of the Museum administers the Plan. Teachers Insurance and Annuity Association of America (TIAA) and College Retirement Equities Fund (CREF) (collectively, TIAA-CREF); Empower Annuity Insurance Company of America (Empower Annuity); and Empower Trust Company, LLC (Empower Trust) serve as trustees, manage plan assets, and maintain the Plan's records.

Contributions

The Plan provides for employee salary deferral contributions up to a maximum of 100 percent of annual eligible compensation subject to maximum tax-deferred limitations established by the Internal Revenue Code. The Plan allows participants to contribute up to 100 percent of their annual eligible compensation on an after-tax basis. This maximum percentage may be reduced by the plan administrator in certain circumstances. Eligible employees who have reached age 50 during the plan year may elect to make catch-up contributions, as limited by the Internal Revenue Service (IRS). The Plan also permits rollover contributions from other qualified retirement plans. Employees are automatically enrolled at a deferral rate equal to 5 percent of eligible compensation unless they make an election not to defer or defer a different percentage. Employee contributions and catch-up contributions to the Plan are made through regular payroll deductions.

The Museum may make a discretionary matching contribution. For the plan year ended December 31, 2023, the Museum's match was 100 percent of participants' contributions on the first 5 percent of eligible compensation deferred. Participants who have completed one year of service, equal to 1,000 hours in a 12-month period, will be eligible to receive museum discretionary matching contributions.

Participant Accounts

Each participant's account is credited with the participant's contributions and allocations of the Museum's contributions and plan earnings and charged with an allocation of administrative expenses and plan losses. Allocations are based on participants' compensation or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Participants may direct the investments of their account balances into various investment options offered by the Plan.

Vesting

Participants' contributions, the employer contributions, and related earnings are fully vested at all times and are not subject to forfeiture for any reason.

December 31, 2023 and 2022

Note 1 - Plan Description (Continued)

Participant Notes Receivable

Participants may borrow from their accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50 percent of their account balances. The notes receivable are secured by the balance in the participant's account and bear interest at rates that range from 5.25 percent to 10.50 percent, which are commensurate with local prevailing rates determined periodically by the plan administrator. Principal and interest are paid ratably through monthly payroll deductions. The notes receivable have a maximum term of 5 years, or 10 years if for a participant's primary residence, and current notes receivable mature at various dates through March 2030.

Benefit Payments

On termination of service due to death, disability, retirement, or termination of employment, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account or various installment annuities. The Plan allows for terminated participant account balances of \$5,000 or less to be automatically distributed as a lump sum.

The Plan allows in-service distributions and partial distributions to participants age 59½ or older who have not terminated employment with the Museum. The Plan also provides for hardship withdrawals for defined hardship events. The IRS has required minimum distributions once a participant reaches age 72 during the previous plan year and is no longer employed by the Museum.

Revenue Sharing

The Plan has a revenue-sharing agreement where participants receive a credit against their expenses for investing in the custodian's investment options. During the year ended December 31, 2023, the Plan received \$41,115 in revenue credit from the custodian, which is included in net appreciation in fair value of assets on the statement of changes in net assets available for benefits.

Termination

While it has not expressed any intent to do so, the Museum has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in the plan agreement and ERISA.

Related Party and Party-in-interest Transactions

Certain plan investments are managed by TIAA-CREF, Empower Annuity, and Empower Trust. TIAA-CREF, Empower Annuity, and Empower Trust are service providers for the Plan; therefore, these transactions qualify as party-in-interest transactions, as defined under ERISA guidelines. Participant notes receivable are also party-in-interest transactions.

Note 2 - Summary of Significant Accounting Policies

Investment Valuation

The Plan's investments are valued as noted below.

The non-benefit-responsive fixed annuity funds are not considered benefit responsive and are presented at fair value. The Empower Annuity non-benefit-responsive fixed annuity funds invest in the general assets of Empower Annuity; however, since there are no specific securities in Empower Annuity's general account related to this contract and due to the contract terms, including the frequency of the interest rate reset intervals, contract value approximates fair value. Contract value represents deposits made to the contract, plus earnings at guaranteed crediting rates, less withdrawals and fees. The fair value of the TIAA Traditional Annuity was determined by discounting the related cash flows based on current yields of similar instruments with comparable durations and taking into consideration the creditworthiness of the issuer.

December 31, 2023 and 2022

Note 2 - Summary of Significant Accounting Policies (Continued)

The fully benefit-responsive fixed annuity funds are valued at contract value. Contract value represents deposits made to the contract, plus earnings at guaranteed crediting rates, less withdrawals and fees.

The registered investment companies and pooled separate accounts are valued at net asset value per share (NAV) (or its equivalent) of the funds, which is based on the fair value of the funds' underlying assets. There are no redemption restrictions or unfunded commitments on these investments.

All other investments are valued based on quoted market prices reported in active markets. See Note 6 for additional information.

Participant Notes Receivable

Participant notes receivable are recorded at their unpaid principal balances plus any accrued interest. Participant notes receivable are written off when deemed uncollectible.

Benefit Payments

Benefits are recorded when paid. There were benefit payments requested but not paid (due to redemption restrictions) totaling \$25,410 for the year ended December 31, 2023.

Redemption Restrictions

Certain contracts under the TIAA Traditional Annuity investment have limits on the ability of the participant to transfer or withdraw from the fund. Lump-sum withdrawals from the Group Retirement Annuity (GRA) subcontract are available within 120 days after termination of employment, subject to a 2.5 percent surrender charge; otherwise, withdrawals must be paid over 10 annual installments over a period of approximately nine years. Under the Retirement Annuity (RA) subcontract, lump-sum distributions are generally not permitted, and withdrawals must be paid over 10 annual installments over a period of approximately nine years.

Administrative Expenses

Various administrative costs are paid by the Museum.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions and deductions during the reporting period. Actual results could differ from those estimates.

Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the financial statements.

Subsequent Events

The financial statements and related disclosures include evaluation of events up through and including September 17, 2024, which is the date the financial statements were available to be issued.

December 31, 2023 and 2022

Note 3 - Excluded Investments

The Plan has excluded from investments in the accompanying statement of net assets available for benefits as of December 31, 2023 and 2022 certain annuity and custodial accounts issued to current and former employees prior to January 1, 2009, as permitted by the DOL's Field Assistance Bulletin No. 2009-02, *Annual Reporting Requirements for 403(b) Plans*. The investment income and distributions related to such accounts have also been excluded from the accompanying statement of changes in net assets available for benefits for the year ended December 31, 2023. The amount of these excluded annuity and custodial accounts and the related income and distributions are not determinable. Accounting principles generally accepted in the United States of America require that these accounts and the related income and distributions be included in the accompanying financial statements.

Note 4 - Certified Information

TIAA-CREF, Empower Annuity, and Empower Trust hold certain of the Plan's investments and participant notes receivable and execute certain related transactions. The investment and participant notes receivable balances and related income and losses included in the accompanying financial statements and supplemental schedule of assets held at end of year are based solely on information certified by TIAA-CREF, Empower Annuity, and Empower Trust.

The Plan has excluded certain assets from the statement of net assets available for benefits at December 31, 2023 and 2022 (see Note 3).

Note 5 - Investment Contracts

The Plan has a benefit-responsive investment contract with Empower Annuity. Empower Annuity maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

Interest is credited on contract balances using a single portfolio rate approach. Under this methodology, a single interest rate is applied to all contributions made to the product, regardless of the timing of those contributions. Interest crediting rates are reviewed on a semiannual basis for resetting but may not be less than 1 to 4 percent. When establishing interest crediting rates for this product, Empower Annuity considers many factors, including current economic and market conditions, the general interest rate environment, and both the expected and actual experience of a reference portfolio within the issuer's general account.

Certain events limit the ability of the Plan to transact at contract value with the insurance company. Such events include the following: (i) amendments to the plan documents (including complete or partial plan termination or merger with another plan), (ii) changes to the Plan's prohibition on competing investment options or deletion of equity wash provision, (iii) bankruptcy of the plan sponsor or other plan sponsor events (e.g., divestitures or spinoffs of a subsidiary) that cause a significant withdrawal from the Plan, or (iv) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The plan administrator believes that the occurrence of any such events, which would limit the Plan's ability to transact at contract value with participants, is not probable. There are no events that allow the issuer to terminate the contract and that require the plan sponsor to settle an amount different than contract value paid either within 90 days or over time.

Note 6 - Fair Value Measurements

Accounting standards require certain assets and liabilities be reported at fair value in the financial statements and provide a framework for establishing that fair value. The framework for determining fair value is based on a hierarchy that prioritizes the valuation techniques and inputs used to measure fair value.

December 31, 2023 and 2022

Note 6 - Fair Value Measurements (Continued)

Level 1

Fair values determined by Level 1 inputs use quoted prices in active markets for identical assets that the Plan has the ability to access.

Level 2

Fair values determined by Level 2 inputs use other inputs that are observable, either directly or indirectly. These Level 2 inputs include quoted prices for similar assets in active markets, quoted prices for identical or similar assets in markets that are not active, and inputs other than quoted prices that are observable for the asset.

Level 3

Level 3 inputs are unobservable inputs, including inputs that are available in situations where there is little, if any, market activity for the related asset. These Level 3 fair value measurements are based primarily on management's own estimates using pricing models, discounted cash flow methodologies, or similar techniques taking into account the characteristics of the asset. For the non-benefit-responsive fixed annuity funds, significant Level 3 inputs include the credit rating of the issuer, market rates, deposits made to the contracts, earnings at guaranteed crediting rates, withdrawals, and fees.

In instances where inputs used to measure fair value fall into different levels of the fair value hierarchy, fair value measurements in their entirety are categorized based on the lowest level input that is significant to the valuation. The Plan's assessment of the significance of particular inputs to these fair value measurements requires judgment and considers factors specific to each asset.

The Plan has excluded certain assets from the statement of net assets available for benefits at December 31, 2023 and 2022 (see Note 3).

The following tables present information about the included plan assets measured at fair value on a recurring basis at December 31, 2023 and 2022:

(1) This class represents investments in actively managed registered investment companies that invest primarily in equity securities, which may include common stocks, options, and futures.

(2) This class represents investments in actively managed registered investment companies with investments in both equity and debt securities. The investments may include common stock, corporate bonds, U.S. and non-U.S. municipal securities, interest rate swaps, options, and futures.

(3) This class represents investments in actively managed registered investment companies that invest primarily in fixed-income securities including, but not limited to, bonds, notes or other investments, such as government securities, commercial paper, certificates of deposits, master notes, or variable amount notes, with the objective of providing high current income consistent with the preservation of capital and the maintenance of liquidity.

There were no transfers, purchases, or issuances of Level 3 assets measured at fair value on a recurring basis for the year ended December 31, 2023.

Quantitative Information about Level 3 Fair Value Measurements

The following table summarizes the valuation methods and inputs used to determine fair value at December 31, 2023 and 2022 for assets measured at fair value on a recurring basis using unobservable inputs (Level 3 inputs):

	Fair Value at December 31, 2023	Fair Value at December 31, 2022	Valuation Technique	Significant Unobservable Inputs Used	Range of Inputs
Assets - TIAA traditional non-benefit-responsive fixed annuity fund	\$ 923,431	\$ 1,049,319	Discounted cash flow and theoretical transfer (exit value)	Risk-adjusted discount rate applied	2023: 4.00% to 6.75% 2022: 3.70% to 6.25%

Note 7 - Tax Status

The Plan, as adopted, is a volume submitter plan, which does not require an application for a determination letter from the IRS. The volume submitter plan has received a favorable notification letter from the IRS dated March 31, 2017. The Plan has not individually sought its own determination letter.
