Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the accompanying financial statements of BioHorizons Implant Systems, Inc. 401(k) Retirement Plan, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2023 and 2022, and the related statement of changes in net assets available for benefits for the year then ended December 31, 2023, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the BioHorizons Implant Systems, Inc. 401(k) Retirement Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 2023 and 2022 and for the year ended December 31, 2023, stating that the certified investment information, as described in Note 2 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section:

- The amounts and disclosures in the financial statements referred to above, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- The information in the financial statements referred to above related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of BioHorizons Implant Systems, Inc. 401(k) Retirement Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about BioHorizons Implant Systems, Inc. 401(k) Retirement Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments; administering the plan; and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of BioHorizons Implant Systems, Inc. 401(k) Retirement Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about BioHorizons Implant Systems, Inc. 401(k) Retirement Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter - Supplemental Schedules Required by ERISA

The supplemental schedules of Schedule H, line 4a – Schedule of Delinquent Participant Contributions and Schedule H, line 4i - Schedule of Assets (Held at End of Year) as of and for the year ended December 31, 2023, are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with generally accepted auditing standards. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedules related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

401(k) Retirement Plan
Notes to Financial Statements
December 31, 2023 and 2022

Note 1. Description of Plan and Summary of Significant Accounting Policies

The following description of the BioHorizons Implant Systems, Inc. 401(k) Retirement Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a complete description of the Plan's provisions.

- A. **General** - The Plan is a defined contribution plan, which covers substantially all employees who have three months of service and are age twenty-one or older. Employees covered by a collective bargaining agreement and non-U.S. employees are not eligible to become Plan participants. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).
- B. **Contributions** - Participants may contribute up to the lesser of ninety percent of their pretax annual compensation or the annual limit as set by the Internal Revenue Service. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan.

For the years ended December 31, 2023 and 2022, the employer match formula was 100 percent of the first five percent of participants' compensation contributed to the Plan.

All contributions are subject to certain limitations.

- C. **Participant Accounts** - Each participant's account is credited with the participant's contributions, allocations of the Employer's contribution and Plan earnings, and is charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined in the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.
- D. **Vesting** - Participants are immediately vested in their voluntary contributions plus actual earnings thereon. Vesting in the remainder of their accounts is based on years of continuous service. A participant is 100% vested after four years of credited service.

Note 1. Description of Plan and Summary of Significant Accounting Policies - Continued

- E. **Payment of Benefits** - A former participant or a participant's beneficiary, who is eligible to receive benefits, will receive his or her vested benefits in a single lump sum payment. Upon termination, vested account balances that do not exceed \$5,000 are automatically distributed to the participant as soon as administratively possible. The Plan also allows distributions to employed participants in the event an immediate financial hardship is incurred and to employees who are over the age of 59 ½.
- F. **Forfeited Accounts** - Forfeited accounts are used to reduce future employer contributions and pay certain administrative expenses of the Plan. Forfeited nonvested accounts of \$68,823 and \$14,846 for the years ended December 31, 2023 and 2022, respectively, were not allocated to the individual participant accounts. These account balances will be available to offset employer contributions and pay administrative expenses.
- G. **Administration** - The Plan's administrator is BioHorizons Implant Systems, Inc. (the Company). Fidelity Management Trust Company has been appointed custodian and trustee of the Plan for the years ended December 31, 2023 and 2022. Substantially all administrative costs are paid by the Company.

Basis of Accounting

The Plan's policy is to prepare its financial statements on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America. Revenues are recognized in the period in which they are earned. Expenses are recognized in the period in which they are incurred.

Investments held by a defined contribution plan are required to be reported at fair value, except for fully benefit-responsive investment contracts which are reported at contract value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Sponsor determines the Plan's valuation policies.

Purchases and sales of securities are recorded on a trade-date basis. Net appreciation or depreciation in fair value of investments is the difference between the proceeds received or aggregate fair market value of investments determined at the end of the year and the aggregate fair value of investments determined at the beginning of the year or cost if acquired during the year. Dividends are recorded on the ex-dividend date.

Use of Estimates

The preparation of the financial statements in accordance with accounting principles generally accepted in the United States of America requires the Plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Payment of Benefits

Benefits are recorded when paid.

Self-Directed Brokerage Accounts

The Plan includes self-directed brokerage accounts as an investment option.

Note 3. Fair Value Measurements

The Plan accounts for fair value measurements in accordance with FASB ASC 820. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under ASC 820 are described below:

Level 1 Inputs to the valuation methodology are unadjusted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2023 and 2022.

Mutual funds: Valued at the daily closing prices as reported by the funds. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily NAV and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Money market: Valued at the NAV of shares held by the Plan at year end.

Note 3. Fair Value Measurements - Continued

Self-directed brokerage accounts:

Money market: Valued at the NAV of shares held by the Plan at year end.

Common stock: Valued at the closing price reported on the active market in which the individual securities are traded.

Mutual funds: Valued at the daily closing prices as reported by the funds. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value ("NAV") and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Assets itemized below were measured at fair value during the years ended December 31, 2023 and 2022.

		Assets at Fair Value as of December 31, 2023		
		Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)

Note 4. Notes Receivable from Participants

Participants may borrow from their fund accounts. Participant loans may not exceed the lesser of \$50,000 or 50 percent of the participant's vested account balance. The loans are secured by the balance in the participant's account and bear interest rates ranging from 3.25 to 9.50 percent at December 31, 2023 and 2022. Principal and interest is paid ratably through bi-weekly payroll deductions.

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document.

Note 5. Party-In-Interest Transactions

Plan investments are shares of mutual funds managed by Fidelity. Fidelity is the trustee of the Plan's assets; therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan for services rendered by Fidelity that have been included in administrative expenses in the accompanying financial statements amounted to \$53,764 and \$29,352 during 2023 and 2022, respectively.

Certain administrative functions are performed by officers and employees of the Company. No officer or employee received compensation from the Plan for these services.

Note 6. Concentration of Investments

Included in investments at December 31, 2023 and 2022 are:

Investment	As of December 31, 2023	
	Investment Amount	Percent of Total Investments
Fidelity Freedom Index 2045 Fund IPR	\$ 8,069,921	13%
Fidelity Freedom Index 2040 Fund IPR	5,754,948	10%

Investment	As of December 31, 2022	
	Investment Amount	Percent of Total Investments
Fidelity Freedom Index 2045 Fund IPR	\$ 5,822,586	12%
Fidelity Freedom Index 2040 Fund IPR	4,636,835	10%

A significant decline in the market value of these funds would significantly affect the net assets available for benefits.

Note 7. Plan Amendments

Effective January 1, 2022, the Plan was amended to remove the top paid group election and define highly compensated as noted in Code Section 414(q)(1)(B)(i) adjusted pursuant to Code Section 415(d).

Effective July 1, 2022, the Plan merged in the PO1K Retirement Plan. This restatement also amended the Plan to exclude temporary and seasonal employees from eligibility.

Note 8. Plan Termination

Although they have not expressed any intent to do so, the Employer has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100 percent vested in their accounts.

Note 9. Tax Status

The Plan adopted a non-standardized pre-approved form of a plan sponsored by Fidelity Management Trust Company. The IRS has determined and informed Fidelity Management Trust Company by an opinion letter dated June 30, 2020, that the prototype plan and related trust are designed in accordance with the applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the opinion letter, Plan management and the Plan's tax counsel believe the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC. Accordingly, the accompanying financial statements do not include a provision for income taxes.

Note 10. Risks and Uncertainties

The Plan permits participants to invest in various types of investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Market risks include global events which could impact the value of investments. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets available for plan benefits.

Note 11. ERISA Bond Requirement

The Employee Retirement Income Security Act of 1974 (ERISA) requires that every person who handles funds or other property of the Plan be bonded. The bond coverage is to be determined by the balance of the total plan assets, and is required to be at least equal to the lesser of 10% of the plan's assets at the beginning of the plan year or \$500,000. At December 31, 2023 and 2022, the Plan's sponsor maintained bond coverage in the amount of \$500,000.

Note 13. Prohibited Transactions

During the plan years ending December 31, 2023, 2022, 2021 and 2020, the Plan Sponsor failed to deposit \$6, \$419,473, \$18,924 and \$3,217, respectively, of participant contributions and loan repayments within the timeframe required by the Department of Labor (DOL). The DOL considers late deposits to be nonexempt prohibited transactions. The Plan Sponsor corrected a portion of these late remittances during 2023. The Plan Sponsor is in the process of completing the remainder of the necessary corrective actions.

Note 14. Subsequent Events

Management of the Plan has evaluated subsequent events through October 1, 2024, the date which the financial statements were available to be issued.

On September 14, 2023, the Plan was restated effective January 1, 2024. The restatement included an update to the automatic enrollment provision. A pre-tax deferral contribution of 6% will be made for employees in accordance with the Administrator's procedures.

On November 13, 2023, the Plan was amended, effective January 10, 2024, to allow participants to make voluntary, non-deductible, after-tax employee contributions subject to a contribution limit of 90% of the participant's compensation.

On March 11, 2024, the Plan was amended, effective January 1, 2024, to change the matching employer contribution to a safe harbor matching employer contribution. The formula is 100% of the first 5% of the eligible participant's compensation.

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the accompanying financial statements of BioHorizons Implant Systems, Inc. 401(k) Retirement Plan, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2023 and 2022, and the related statement of changes in net assets available for benefits for the year then ended December 31, 2023, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the BioHorizons Implant Systems, Inc. 401(k) Retirement Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 2023 and 2022 and for the year ended December 31, 2023, stating that the certified investment information, as described in Note 2 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section:

- The amounts and disclosures in the financial statements referred to above, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- The information in the financial statements referred to above related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of BioHorizons Implant Systems, Inc. 401(k) Retirement Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about BioHorizons Implant Systems, Inc. 401(k) Retirement Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments; administering the plan; and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of BioHorizons Implant Systems, Inc. 401(k) Retirement Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about BioHorizons Implant Systems, Inc. 401(k) Retirement Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter - Supplemental Schedules Required by ERISA

The supplemental schedules of Schedule H, line 4a – Schedule of Delinquent Participant Contributions and Schedule H, line 4i - Schedule of Assets (Held at End of Year) as of and for the year ended December 31, 2023, are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with generally accepted auditing standards. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedules related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

401(k) Retirement Plan
Notes to Financial Statements
December 31, 2023 and 2022

Note 1. Description of Plan and Summary of Significant Accounting Policies

The following description of the BioHorizons Implant Systems, Inc. 401(k) Retirement Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a complete description of the Plan's provisions.

- A. **General** - The Plan is a defined contribution plan, which covers substantially all employees who have three months of service and are age twenty-one or older. Employees covered by a collective bargaining agreement and non-U.S. employees are not eligible to become Plan participants. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).
- B. **Contributions** - Participants may contribute up to the lesser of ninety percent of their pretax annual compensation or the annual limit as set by the Internal Revenue Service. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan.

For the years ended December 31, 2023 and 2022, the employer match formula was 100 percent of the first five percent of participants' compensation contributed to the Plan.

All contributions are subject to certain limitations.

- C. **Participant Accounts** - Each participant's account is credited with the participant's contributions, allocations of the Employer's contribution and Plan earnings, and is charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined in the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.
- D. **Vesting** - Participants are immediately vested in their voluntary contributions plus actual earnings thereon. Vesting in the remainder of their accounts is based on years of continuous service. A participant is 100% vested after four years of credited service.

Note 1. Description of Plan and Summary of Significant Accounting Policies - Continued

- E. **Payment of Benefits** - A former participant or a participant's beneficiary, who is eligible to receive benefits, will receive his or her vested benefits in a single lump sum payment. Upon termination, vested account balances that do not exceed \$5,000 are automatically distributed to the participant as soon as administratively possible. The Plan also allows distributions to employed participants in the event an immediate financial hardship is incurred and to employees who are over the age of 59 ½.
- F. **Forfeited Accounts** - Forfeited accounts are used to reduce future employer contributions and pay certain administrative expenses of the Plan. Forfeited nonvested accounts of \$68,823 and \$14,846 for the years ended December 31, 2023 and 2022, respectively, were not allocated to the individual participant accounts. These account balances will be available to offset employer contributions and pay administrative expenses.
- G. **Administration** - The Plan's administrator is BioHorizons Implant Systems, Inc. (the Company). Fidelity Management Trust Company has been appointed custodian and trustee of the Plan for the years ended December 31, 2023 and 2022. Substantially all administrative costs are paid by the Company.

Basis of Accounting

The Plan's policy is to prepare its financial statements on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America. Revenues are recognized in the period in which they are earned. Expenses are recognized in the period in which they are incurred.

Investments held by a defined contribution plan are required to be reported at fair value, except for fully benefit-responsive investment contracts which are reported at contract value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Sponsor determines the Plan's valuation policies.

Purchases and sales of securities are recorded on a trade-date basis. Net appreciation or depreciation in fair value of investments is the difference between the proceeds received or aggregate fair market value of investments determined at the end of the year and the aggregate fair value of investments determined at the beginning of the year or cost if acquired during the year. Dividends are recorded on the ex-dividend date.

Use of Estimates

The preparation of the financial statements in accordance with accounting principles generally accepted in the United States of America requires the Plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Payment of Benefits

Benefits are recorded when paid.

Self-Directed Brokerage Accounts

The Plan includes self-directed brokerage accounts as an investment option.

Note 2. Information Prepared and Certified by Trustee (Unaudited)

The following information included in the accompanying financial statements and supplemental information was obtained from data that has been prepared and certified to as complete and accurate by the trustee, Fidelity Management Trust Company (Fidelity).

Note 3. Fair Value Measurements

The Plan accounts for fair value measurements in accordance with FASB ASC 820. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under ASC 820 are described below:

Level 1 Inputs to the valuation methodology are unadjusted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2023 and 2022.

Mutual funds: Valued at the daily closing prices as reported by the funds. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily NAV and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Money market: Valued at the NAV of shares held by the Plan at year end.

Note 3. Fair Value Measurements - Continued

Self-directed brokerage accounts:

Money market: Valued at the NAV of shares held by the Plan at year end.

Common stock: Valued at the closing price reported on the active market in which the individual securities are traded.

Mutual funds: Valued at the daily closing prices as reported by the funds. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value ("NAV") and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Assets itemized below were measured at fair value during the years ended December 31, 2023 and 2022.

		Assets at Fair Value as of December 31, 2023		
		Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)

Note 4. Notes Receivable from Participants

Participants may borrow from their fund accounts. Participant loans may not exceed the lesser of \$50,000 or 50 percent of the participant's vested account balance. The loans are secured by the balance in the participant's account and bear interest rates ranging from 3.25 to 9.50 percent at December 31, 2023 and 2022. Principal and interest is paid ratably through bi-weekly payroll deductions.

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document.

Note 5. Party-In-Interest Transactions

Plan investments are shares of mutual funds managed by Fidelity. Fidelity is the trustee of the Plan's assets; therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan for services rendered by Fidelity that have been included in administrative expenses in the accompanying financial statements amounted to \$53,764 and \$29,352 during 2023 and 2022, respectively.

Certain administrative functions are performed by officers and employees of the Company. No officer or employee received compensation from the Plan for these services.

Note 6. Concentration of Investments

Included in investments at December 31, 2023 and 2022 are:

Investment	As of December 31, 2023	
	Investment Amount	Percent of Total Investments
Fidelity Freedom Index 2045 Fund IPR	\$ 8,069,921	13%
Fidelity Freedom Index 2040 Fund IPR	5,754,948	10%

Investment	As of December 31, 2022	
	Investment Amount	Percent of Total Investments
Fidelity Freedom Index 2045 Fund IPR	\$ 5,822,586	12%
Fidelity Freedom Index 2040 Fund IPR	4,636,835	10%

A significant decline in the market value of these funds would significantly affect the net assets available for benefits.

Note 7. Plan Amendments

Effective January 1, 2022, the Plan was amended to remove the top paid group election and define highly compensated as noted in Code Section 414(q)(1)(B)(i) adjusted pursuant to Code Section 415(d).

Effective July 1, 2022, the Plan merged in the PO1K Retirement Plan. This restatement also amended the Plan to exclude temporary and seasonal employees from eligibility.

Note 8. Plan Termination

Although they have not expressed any intent to do so, the Employer has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100 percent vested in their accounts.

Note 9. Tax Status

The Plan adopted a non-standardized pre-approved form of a plan sponsored by Fidelity Management Trust Company. The IRS has determined and informed Fidelity Management Trust Company by an opinion letter dated June 30, 2020, that the prototype plan and related trust are designed in accordance with the applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the opinion letter, Plan management and the Plan's tax counsel believe the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC. Accordingly, the accompanying financial statements do not include a provision for income taxes.

Note 10. Risks and Uncertainties

The Plan permits participants to invest in various types of investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Market risks include global events which could impact the value of investments. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets available for plan benefits.

Note 11. ERISA Bond Requirement

The Employee Retirement Income Security Act of 1974 (ERISA) requires that every person who handles funds or other property of the Plan be bonded. The bond coverage is to be determined by the balance of the total plan assets, and is required to be at least equal to the lesser of 10% of the plan's assets at the beginning of the plan year or \$500,000. At December 31, 2023 and 2022, the Plan's sponsor maintained bond coverage in the amount of \$500,000.

Note 13. Prohibited Transactions

During the plan years ending December 31, 2023, 2022, 2021 and 2020, the Plan Sponsor failed to deposit \$6, \$419,473, \$18,924 and \$3,217, respectively, of participant contributions and loan repayments within the timeframe required by the Department of Labor (DOL). The DOL considers late deposits to be nonexempt prohibited transactions. The Plan Sponsor corrected a portion of these late remittances during 2023. The Plan Sponsor is in the process of completing the remainder of the necessary corrective actions.

Note 14. Subsequent Events

Management of the Plan has evaluated subsequent events through October 1, 2024, the date which the financial statements were available to be issued.

On September 14, 2023, the Plan was restated effective January 1, 2024. The restatement included an update to the automatic enrollment provision. A pre-tax deferral contribution of 6% will be made for employees in accordance with the Administrator's procedures.

On November 13, 2023, the Plan was amended, effective January 10, 2024, to allow participants to make voluntary, non-deductible, after-tax employee contributions subject to a contribution limit of 90% of the participant's compensation.

On March 11, 2024, the Plan was amended, effective January 1, 2024, to change the matching employer contribution to a safe harbor matching employer contribution. The formula is 100% of the first 5% of the eligible participant's compensation.

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the accompanying financial statements of BioHorizons Implant Systems, Inc. 401(k) Retirement Plan, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2023 and 2022, and the related statement of changes in net assets available for benefits for the year then ended December 31, 2023, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the BioHorizons Implant Systems, Inc. 401(k) Retirement Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 2023 and 2022 and for the year ended December 31, 2023, stating that the certified investment information, as described in Note 2 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section:

- The amounts and disclosures in the financial statements referred to above, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- The information in the financial statements referred to above related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of BioHorizons Implant Systems, Inc. 401(k) Retirement Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about BioHorizons Implant Systems, Inc. 401(k) Retirement Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments; administering the plan; and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of BioHorizons Implant Systems, Inc. 401(k) Retirement Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about BioHorizons Implant Systems, Inc. 401(k) Retirement Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter - Supplemental Schedules Required by ERISA

The supplemental schedules of Schedule H, line 4a – Schedule of Delinquent Participant Contributions and Schedule H, line 4i - Schedule of Assets (Held at End of Year) as of and for the year ended December 31, 2023, are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with generally accepted auditing standards. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedules related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Notes to Financial Statements
December 31, 2023 and 2022

Note 1. Description of Plan and Summary of Significant Accounting Policies

The following description of the BioHorizons Implant Systems, Inc. 401(k) Retirement Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a complete description of the Plan's provisions.

- A. **General** - The Plan is a defined contribution plan, which covers substantially all employees who have three months of service and are age twenty-one or older. Employees covered by a collective bargaining agreement and non-U.S. employees are not eligible to become Plan participants. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).
- B. **Contributions** - Participants may contribute up to the lesser of ninety percent of their pretax annual compensation or the annual limit as set by the Internal Revenue Service. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan.

For the years ended December 31, 2023 and 2022, the employer match formula was 100 percent of the first five percent of participants' compensation contributed to the Plan.

All contributions are subject to certain limitations.

- C. **Participant Accounts** - Each participant's account is credited with the participant's contributions, allocations of the Employer's contribution and Plan earnings, and is charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined in the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.
- D. **Vesting** - Participants are immediately vested in their voluntary contributions plus actual earnings thereon. Vesting in the remainder of their accounts is based on years of continuous service. A participant is 100% vested after four years of credited service.

Note 1. Description of Plan and Summary of Significant Accounting Policies - Continued

- E. **Payment of Benefits** - A former participant or a participant's beneficiary, who is eligible to receive benefits, will receive his or her vested benefits in a single lump sum payment. Upon termination, vested account balances that do not exceed \$5,000 are automatically distributed to the participant as soon as administratively possible. The Plan also allows distributions to employed participants in the event an immediate financial hardship is incurred and to employees who are over the age of 59 ½.
- F. **Forfeited Accounts** - Forfeited accounts are used to reduce future employer contributions and pay certain administrative expenses of the Plan. Forfeited nonvested accounts of \$68,823 and \$14,846 for the years ended December 31, 2023 and 2022, respectively, were not allocated to the individual participant accounts. These account balances will be available to offset employer contributions and pay administrative expenses.
- G. **Administration** - The Plan's administrator is BioHorizons Implant Systems, Inc. (the Company). Fidelity Management Trust Company has been appointed custodian and trustee of the Plan for the years ended December 31, 2023 and 2022. Substantially all administrative costs are paid by the Company.

Basis of Accounting

The Plan's policy is to prepare its financial statements on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America. Revenues are recognized in the period in which they are earned. Expenses are recognized in the period in which they are incurred.

Investments held by a defined contribution plan are required to be reported at fair value, except for fully benefit-responsive investment contracts which are reported at contract value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Sponsor determines the Plan's valuation policies.

Purchases and sales of securities are recorded on a trade-date basis. Net appreciation or depreciation in fair value of investments is the difference between the proceeds received or aggregate fair market value of investments determined at the end of the year and the aggregate fair value of investments determined at the beginning of the year or cost if acquired during the year. Dividends are recorded on the ex-dividend date.

Use of Estimates

The preparation of the financial statements in accordance with accounting principles generally accepted in the United States of America requires the Plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Payment of Benefits

Benefits are recorded when paid.

Self-Directed Brokerage Accounts

The Plan includes self-directed brokerage accounts as an investment option.

Note 2. Information Prepared and Certified by Trustee (Unaudited)

The following information included in the accompanying financial statements and supplemental information was obtained from data that has been prepared and certified to as complete and accurate by the trustee, Fidelity Management Trust Company (Fidelity).

Note 3. Fair Value Measurements

The Plan accounts for fair value measurements in accordance with FASB ASC 820. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under ASC 820 are described below:

Level 1 Inputs to the valuation methodology are unadjusted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2023 and 2022.

Mutual funds: Valued at the daily closing prices as reported by the funds. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily NAV and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Money market: Valued at the NAV of shares held by the Plan at year end.

Note 3. Fair Value Measurements - Continued

Self-directed brokerage accounts:

Money market: Valued at the NAV of shares held by the Plan at year end.

Common stock: Valued at the closing price reported on the active market in which the individual securities are traded.

Mutual funds: Valued at the daily closing prices as reported by the funds. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (“NAV”) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Assets itemized below were measured at fair value during the years ended December 31, 2023 and 2022.

		Assets at Fair Value as of December 31, 2023		
		Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)

Note 4. Notes Receivable from Participants

Participants may borrow from their fund accounts. Participant loans may not exceed the lesser of \$50,000 or 50 percent of the participant's vested account balance. The loans are secured by the balance in the participant's account and bear interest rates ranging from 3.25 to 9.50 percent at December 31, 2023 and 2022. Principal and interest is paid ratably through bi-weekly payroll deductions.

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document.

Note 5. Party-In-Interest Transactions

Plan investments are shares of mutual funds managed by Fidelity. Fidelity is the trustee of the Plan's assets; therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan for services rendered by Fidelity that have been included in administrative expenses in the accompanying financial statements amounted to \$53,764 and \$29,352 during 2023 and 2022, respectively.

Certain administrative functions are performed by officers and employees of the Company. No officer or employee received compensation from the Plan for these services.

Note 6. Concentration of Investments

Included in investments at December 31, 2023 and 2022 are:

Investment	As of December 31, 2023	
	Investment Amount	Percent of Total Investments
Fidelity Freedom Index 2045 Fund IPR	\$ 8,069,921	13%
Fidelity Freedom Index 2040 Fund IPR	5,754,948	10%

Investment	As of December 31, 2022	
	Investment Amount	Percent of Total Investments
Fidelity Freedom Index 2045 Fund IPR	\$ 5,822,586	12%
Fidelity Freedom Index 2040 Fund IPR	4,636,835	10%

A significant decline in the market value of these funds would significantly affect the net assets available for benefits.

Note 7. Plan Amendments

Effective January 1, 2022, the Plan was amended to remove the top paid group election and define highly compensated as noted in Code Section 414(q)(1)(B)(i) adjusted pursuant to Code Section 415(d).

Effective July 1, 2022, the Plan merged in the PO1K Retirement Plan. This restatement also amended the Plan to exclude temporary and seasonal employees from eligibility.

Note 8. Plan Termination

Although they have not expressed any intent to do so, the Employer has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100 percent vested in their accounts.

Note 9. Tax Status

The Plan adopted a non-standardized pre-approved form of a plan sponsored by Fidelity Management Trust Company. The IRS has determined and informed Fidelity Management Trust Company by an opinion letter dated June 30, 2020, that the prototype plan and related trust are designed in accordance with the applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the opinion letter, Plan management and the Plan's tax counsel believe the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC. Accordingly, the accompanying financial statements do not include a provision for income taxes.

Note 10. Risks and Uncertainties

The Plan permits participants to invest in various types of investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Market risks include global events which could impact the value of investments. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets available for plan benefits.

Note 11. ERISA Bond Requirement

The Employee Retirement Income Security Act of 1974 (ERISA) requires that every person who handles funds or other property of the Plan be bonded. The bond coverage is to be determined by the balance of the total plan assets, and is required to be at least equal to the lesser of 10% of the plan's assets at the beginning of the plan year or \$500,000. At December 31, 2023 and 2022, the Plan's sponsor maintained bond coverage in the amount of \$500,000.

Note 13. Prohibited Transactions

During the plan years ending December 31, 2023, 2022, 2021 and 2020, the Plan Sponsor failed to deposit \$6, \$419,473, \$18,924 and \$3,217, respectively, of participant contributions and loan repayments within the timeframe required by the Department of Labor (DOL). The DOL considers late deposits to be nonexempt prohibited transactions. The Plan Sponsor corrected a portion of these late remittances during 2023. The Plan Sponsor is in the process of completing the remainder of the necessary corrective actions.

Note 14. Subsequent Events

Management of the Plan has evaluated subsequent events through October 1, 2024, the date which the financial statements were available to be issued.

On September 14, 2023, the Plan was restated effective January 1, 2024. The restatement included an update to the automatic enrollment provision. A pre-tax deferral contribution of 6% will be made for employees in accordance with the Administrator's procedures.

On November 13, 2023, the Plan was amended, effective January 10, 2024, to allow participants to make voluntary, non-deductible, after-tax employee contributions subject to a contribution limit of 90% of the participant's compensation.

On March 11, 2024, the Plan was amended, effective January 1, 2024, to change the matching employer contribution to a safe harbor matching employer contribution. The formula is 100% of the first 5% of the eligible participant's compensation.
