(2) EIN: **47-0836395**

d The opinion of an independent qualified public accountant is **not attached** as part of Schedule H because:

(1) ☐ This form is filed for a CCT, PSA, DCG or MTIA. (2) ☐ It will be attached to the next Form 5500 pursuant to 29 CFR 2520.104-50.

Part IV Compliance Questions

4 CCTs and PSAs do not complete Part IV. MTIAs, 103-12 IEs, and GIAs do not complete lines 4a, 4e, 4f, 4g, 4h, 4k, 4m, 4n, or 5. 103-12 IEs also do not complete lines 4j and 4l. MTIAs also do not complete line 4l. DCGs do not complete lines 4e, 4f, 4k, 4l, and 5, and DCGs generally complete the rest of Part IV collectively for all plans in the DCG, except as otherwise provided (see instructions).

During the plan year:

	Yes	No	Amount
a Was there a failure to transmit to the plan any participant contributions within the time period described in 29 CFR 2510.3-102? Continue to answer "Yes" for any prior year failures until fully corrected. (See instructions and DOL's Voluntary Fiduciary Correction Program.)		☒	
b Were any loans by the plan or fixed income obligations due the plan in default as of the close of the plan year or classified during the year as uncollectible? Disregard participant loans secured by participant's account balance. (Attach Schedule G (Form 5500) Part I if "Yes" is checked.)		☒	
c Were any leases to which the plan was a party in default or classified during the year as uncollectible? (Attach Schedule G (Form 5500) Part II if "Yes" is checked.)		☒	
d Were there any nonexempt transactions with any party-in-interest? (Do not include transactions reported on line 4a. Attach Schedule G (Form 5500) Part III if "Yes" is checked.)		☒	
e Was this plan covered by a fidelity bond?	☒		1000000
f Did the plan have a loss, whether or not reimbursed by the plan's fidelity bond, that was caused by fraud or dishonesty?		☒	
g Did the plan hold any assets whose current value was neither readily determinable on an established market nor set by an independent third party appraiser?		☒	
h Did the plan receive any noncash contributions whose value was neither readily determinable on an established market nor set by an independent third party appraiser?		☒	
i Did the plan have assets held for investment? (Attach schedule(s) of assets if "Yes" is checked, and see instructions for format requirements.)	☒		
j Were any plan transactions or series of transactions in excess of 5% of the current value of plan assets? (Attach schedule of transactions if "Yes" is checked and see instructions for format requirements.)	☒		
k Were all the plan assets either distributed to participants or beneficiaries, transferred to another plan, or brought under the control of the PBGC?		☒	
l Has the plan failed to provide any benefit when due under the plan?		☒	
m If this is an individual account plan, was there a blackout period? (See instructions and 29 CFR 2520.101-3.)		☒	
n If 4m was answered "Yes," check the "Yes" box if you either provided the required notice or one of the exceptions to providing the notice applied under 29 CFR 2520.101-3.			

5a Has a resolution to terminate the plan been adopted during the plan year or any prior plan year? ☐ Yes ☒ No
If "Yes," enter the amount of any plan assets that reverted to the employer this year _____.

INDEPENDENT AUDITORS' REPORT

Board of Trustees
Omaha Construction Industry Pension Fund
Omaha, NE

Opinion

We have audited the accompanying financial statements of Omaha Construction Industry Pension Fund, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets available for benefits as of December 31, 2023 and 2022, the related statements of changes in net assets available for benefits for the years then ended and the related notes to the financial statements.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of Omaha Construction Industry Pension Fund as of December 31, 2023 and 2022, and the changes in its net assets available for benefits for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Omaha Construction Industry Pension Fund and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Omaha Construction Industry Pension Fund's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments; administering the plan; and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Omaha Construction Industry Pension Fund's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Omaha Construction Industry Pension Fund's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedules Required by ERISA

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedules of assets (held at end of year) and reportable transactions are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with generally accepted auditing standards.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedules is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

OMAHA CONSTRUCTION INDUSTRY PENSION FUND
NOTES TO FINANCIAL STATEMENTS
FOR THE YEARS ENDED DECEMBER 31, 2023 AND 2022

NOTE 1 – DESCRIPTION OF THE PLAN

The following description of the Omaha Construction Industry Pension Fund (Plan) provides only general information. Participants should refer to the Plan Agreement for a complete description of the Plan's provisions.

General

The Plan is a multiemployer defined benefit pension plan. It was established in 1967 as a result of collective bargaining agreements between the Associated General Contractors' Employers' Association of Omaha, Nebraska and various local labor unions. The name "Associated General Contractors Employers Association of Omaha, Nebraska" was changed to "Omaha Building Contractors Employers Association".

The plan is financed entirely by contributions as specified in the various collective bargaining agreements, and is managed by a Board of Trustees consisting of an equal number of representatives from Labor and Management.

Plan Benefits

The plan provides normal retirement benefits, early retirement benefits, joint and 50% survivor benefits, ten years certain and life benefits and total and permanent disability benefits.

A participant terminating employment with all participating employers who has earned 5 years of future service, but has not become eligible for early or normal retirement will have a non-forfeitable right to a percentage of his normal retirement benefits, payable at normal retirement age. An actuarially equivalent benefit is available at early retirement ages allowed under the plan.

The eligibility requirement for Normal Retirement Benefits is age 65 or, if later, the fifth anniversary of participation; or age 60 with 25 years of credited service; or age 55 with 30 years of service.

The eligibility requirement for Early Retirement benefits is age 55 with 5 years of service with a reduction of 5/12 of 1% per month of age less than 65 with 10 years of service or reduced by 5/12 of 1% per month of age less than 60 with 25 years of service. There is no reduction with 30 years of service.

The eligibility requirement for Disability Benefits is 10 years of credited service and having worked 500 hours in covered employment in the plan year immediately preceding disability.

The following table summarizes the amendments made to the Plan to increase the future service benefit and to increase the pension benefit for those existing pensioners and for those who had applied for a pension by the effective date:

A non-forfeitable right to a vested benefit is available for those who have at least 5 years of future service in the Plan. The vested benefit will be based on a percentage of the accrued benefit available as a normal retirement benefit or a reduced early retirement benefit as shown on the following tables:

Participants with one or more hours of service on or after January 1, 1998:

Contributions

Contributions by employers are payable on a monthly basis and are deposited with First National Bank of Omaha. Contribution rates are negotiated between the Unions and the Employers. Most of the Participating Employers' and Unions' business activity is in the construction industry working in Nebraska and Iowa. Employers must remit the contributions to the Pension Plan along with a report on a monthly basis. There is no collateral or other security held by the Plan to secure these contributions.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared using the accrual method of accounting in accordance with generally accepted accounting principles.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles in the United States of America requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. For more information on fair value measurements see Note 5. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Assessed Withdrawal Liability Receivable

The Plan's policy is to recognize a receivable at the settlement agreement value, net of any allowance for collectability once a withdrawal liability has been actuarially determined and formally assessed by the Plan. This is discounted to the receivables present value only if that adjustment is significant.

OMAHA CONSTRUCTION INDUSTRY PENSION FUND

NOTES TO FINANCIAL STATEMENTS

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, Continued

Revenue Recognition

Employers' contributions receivable represents accrued contributions from employers for hours worked in the current year received by the Plan after the end of the year. Delinquent employer contributions are not recorded as revenue until the amounts are known and received. This effectively establishes an allowance for doubtful accounts of all outstanding delinquent contributions that the amounts are either not yet known or collected.

Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those future periodic payments, including lump sum distributions that are attributable under the plan provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated participants or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present participants or their beneficiaries. Benefits under the Plan are accumulated based on participants' years of credited service. The accumulated plan benefits for active employees will equal the accumulation, with interest, of annual benefit accruals as of the benefit information date. Benefits payable under all circumstances – retirement, death, disability, and termination of employment – are included, to the extent they are deemed attributable to employee service rendered to the valuation date.

The actuarial present value of accumulated plan benefits is determined by an independent actuary and is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal or retirement) between the valuation date and the expected date of payment. The forgoing actuarial assumptions are based on the presumption the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

Funding Policy

The funding policy as of January 1, 2023 and 2022 is based on the sum of two cost elements: (1) the normal cost and (2) amortization of the unfunded actuarial accrued liabilities. The minimum funding requirements as required by ERISA have been met.

Date of Management's Review

Subsequent events were evaluated through October 4, 2024, which is the date the financial statements were available to be issued.

Administrative Expenses

Expenses incurred in connection with the general administration of the Plan are recorded as deductions in the accompanying statements of changes in net assets available for benefits. Certain investment-related expenses are included in net appreciation in fair value of investments presented in the accompanying statements of changes in net assets available for benefits.

OMAHA CONSTRUCTION INDUSTRY PENSION FUND NOTES TO FINANCIAL STATEMENTS

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, Continued

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

NOTE 3 – TAX STATUS

The Internal Revenue Service has informed the Plan Sponsors by a letter dated September 14, 2015, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code ("IRC"). The Plan sponsor believes that the Plan is currently designed and operated in compliance with applicable requirements of the Internal Revenue Code and the Plan and related trust continue to be tax-exempt. Therefore, no provision for income taxes has been included in the Plan's financial statements.

The plan has adopted guidance on accounting for uncertainty in income taxes issued by the Financial Accounting Standards Board. Management of the Plan believes that the Plan has taken no uncertain tax positions that require adjustment to the financial statements in order to comply with the provisions of this guidance. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

NOTE 4 – PLAN TERMINATION

In the event the Plan terminates, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

- 1) To provide Benefits for those Participants already receiving Retirement Benefits; and
- 2) To provide Benefits for those participants then eligible to retire and receive Retirement Benefits; and
- 3) To provide Benefits for those Participants who have ten (10) Years of Service but have not reached their respective 65th birthdays; and
- 4) To provide for all other Non-Forfeitable Benefits under the Plan; and
- 5) Use the balance of available funds in a non-discriminatory manner for the benefit of all Participants not heretofore provided for under the Plan at the date of termination.

Benefits under this plan are insured by the Pension Benefit Guaranty Corporation (PBGC) if the plan terminates. Generally, the PBGC guarantees most vested normal retirement benefits, early retirement benefits and certain disability and survivor's pensions. However, PBGC does not guarantee all types of benefits under covered plans, and the amount of benefit protection is subject to certain limitations.

The PBGC guarantees vested benefits at the level in effect on the date of plan termination. However, if a plan has been in effect less than five (5) years before it terminates, or if benefits have been increased within the five (5) years before plan termination the whole amount of the plan's vested benefits or the benefit increase may not be guaranteed. In addition, there is a ceiling on the amount of monthly benefit that PBGC guarantees which is adjusted periodically.

NOTE 5 – FAIR VALUE MEASUREMENTS

The framework for measuring fair values provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described as follows.

Level 1	Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
Level 2	Inputs to the valuation methodology include: • quoted prices for similar assets or liabilities in active markets; • quoted prices for identical or similar assets or liabilities in inactive markets; • inputs other than quoted prices that are observable for the asset or liability; • inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.
Level 3	Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2023 and 2022.

Cash Equivalents (Money Markets): Valued at cost, which is equal to net asset value at year-end.

Common and Collective Trusts: Valued at the NAV of units of the fund held by the Plan. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair market value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchases/sales) may occur daily. Were the plan to initiate a full redemption of the collective trust, the investment adviser reserves the right to temporarily delay withdrawal from the trust in order to ensure the securities liquidations will be carried out in an orderly business manner. Additional information on redemptions of these investments can be found on the table under the heading "Fair Value of Investments in Entities that Use Net Asset Value with Redemption Restrictions".

Mutual Funds: Valued at the daily closing price as reported by the fund. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the plan are deemed to be actively traded.

OMAHA CONSTRUCTION INDUSTRY PENSION FUND

NOTES TO FINANCIAL STATEMENTS

NOTE 5 – FAIR VALUE MEASUREMENTS, Continued

Investment Partnerships: Valued based on the NAV per share held by the Plan. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair market value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchases/sales) may occur daily. Additional information on redemptions of these investments can be found on the table under the heading “Fair Value of Investments in Entities that Use Net Asset Value with Redemption Restrictions”.

The method described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan’s asset at Fair Value as of December 31, 2023 and 2022. As required, assets and liabilities are classified in their entirety based on the lowest level of input that is significant to the fair value measurement. In accordance with generally accepted accounting principles, certain investments that are measured at fair value using the net asset value per share (or its equivalent) practical expedient have not been classified in the fair value hierarchy. The fair value amounts presented in the following tables are intended to permit reconciliation of the fair value hierarchy to the amounts presented in the statements of net assets available for benefits.

NOTE 5 – FAIR VALUE MEASUREMENTS, Continued

¹Morgan Stanley Private Markets Private Equity's investment objective is to seek capital appreciation by creating a diversified portfolio of global private market investment strategies, including investments selected by third party investment managers. The Partnership emphasizes private equity, while also looking to buyouts, venture capital, special situations, distressed securities, growth capital and other non-traditional categories where the Adviser believes the risk adjusted returns or diversification benefits from such categories may be compelling. These are illiquid investments not open to redemptions, and cash will be distributed back to the investors after the investment period is completed.

²Landmark Partners Private Equity was formed to acquire a diversified portfolio of interests in (i) established venture capital funds, buy-out funds, mezzanine funds and other pooled investment vehicles which primarily invest in equity oriented investments and (ii) direct private equity and equity related investments (generally referred to as "limited 'partnerships'"), primarily through secondary market purchases ("secondary transactions") with maximum amount of 10% of capital commitments allocated to primary transactions ("primary transactions"). These are illiquid investments not open to redemptions, and cash will be distributed back to the investors after the investment period is completed.

³Lexington Partners Private Equity was formed to acquire a diversified portfolio of interests in private investment funds, principally established leveraged buyout, mezzanine and venture capital funds primarily through secondary market transactions ("secondary limited partnerships"). The Partnership can also invest up to 10% of its committed capital in newly formed leveraged buyout, mezzanine and venture capital funds ("primary limited partnerships") and invest up to 10% of its committed capital in direct investments in operating companies through secondary market transactions. These are illiquid investments not open to redemptions, and cash will be distributed back to the investors after the investment period is completed.

⁴Intercontinental Real Estate Fund is organized for the objective and purpose of enabling its operating subsidiaries, U.S. Real Estate Investment REIT Fund, Inc (U.S. REIT), Bay State REIT, LLC (Bay State REIT) and U.S. Real Estate Investment Fund Non-REIT, LLC, to make investments in real estate assets; owning, managing, supervising, and disposing of such investments through its subsidiaries; sharing the profits and losses there from and engaging in such activities necessary, incidental, or ancillary thereto; and engaging in any other lawful act or activity for which limited liability companies may be organized under the Act in furtherance of the foregoing; provided, however, that the Fund shall make all qualifying investments only through one or more subsidiaries.

⁵All of the Hamilton Lane Private Equity Fund's investments are in collective private equity investment funds that make private equity and equity-related investments. These investment funds (hereinafter referred to as "fund investments" or "funds") have varying investment strategies and geographical focuses. These are illiquid investments not open to redemptions, and cash will be distributed back to the investors after the investment period is completed.

⁶Hamilton Lane Strategic Opportunities Offshore Fund's investment objective, through the Main Partnership, is to create a portfolio of opportunistically-oriented private market investments that generate attractive risk-adjusted returns through a flexible and diversified investment strategy, including investments in credit co-investments, direct credit and equity investments ("coinvestments") and secondary investments ("fund investments" or "funds"). Co-investments and fund investments are collectively hereinafter referred to as "portfolio investments". These are illiquid investments not open to redemptions, and cash will be distributed back to the investors after the investment period is completed.

⁷The Angelo Gordon Partnership has been established to capitalize on investment opportunities available in middle market direct lending. The Partnership intends to provide corporate financing support to North American middle-market companies, focusing on senior secured debt and other debt instruments, including unitranche facilities, second lien debt, mezzanine loans and equity co-investments. These are illiquid investments not open to redemptions, and cash will be distributed back to the investors after the investment period is completed.

⁸The primary purpose of Mesirow Financial Private Equity Fund VII-B is to seek to generate significant returns for its Partners, principally through long-term capital appreciation, by acquiring, making, holding, funding and disposing of privately negotiated equity and equity-related investments, principally in companies of the nature described in the "Co-Investment Strategy" section of the Offering Memorandum. These are illiquid investments not open to redemptions, and cash will be distributed back to the investors after the investment period is completed.

⁹The primary purpose of Mesirow Financial Segal Marco Select Private Equity Fund II is to seek to generate significant returns for its Partners, principally through long-term capital appreciation, by acquiring, making, holding, funding and disposing of privately negotiated equity and equity-related investments, principally through the purchase and funding of interests in private equity funds, including venture capital, buyout, mezzanine, restructuring, distressed company assets and special situation funds, and other privately-held entities. These are illiquid investments not open to redemptions, and cash will be distributed back to the investors after the investment period is completed.

¹⁰The Mesirow Financial Real Estate Value Fund III is organized for the object and purpose of making investments in Portfolio Investments, owning, managing, supervising and disposing of such investments, sharing the profits and losses therefrom and engaging in such activities necessary, incidental or ancillary thereto and to engage in any other lawful act or activity for which limited partnerships may be organized under the Act in furtherance of the foregoing. The Partnership intends to invest in REIT-qualifying assets through one or more REIT Subsidiaries established by the Partnership. These are illiquid investments not open to redemptions, and cash will be distributed back to the investors after the investment period is completed.

¹¹The White Oak Spectrum Peer Fund, L.P. is organized to earn substantial current income by originating, extending, and/or investing in a diversified portfolio of primarily senior secured corporate credit and debt instruments consisting of term loans, asset-based loans and equipment financing and opportunistic loans issued by small to middle-market companies located primarily in the United States and Canada. These are illiquid investments not open to redemptions, and cash will be distributed back to the investors after the investment period is completed.

Statements of Changes in Accumulated Benefits

	<u>Period Ended January 1, 2023</u>	<u>Period Ended January 1, 2022</u>
Actuarial present value of accumulated benefits as of January 1, 2022 and 2021	\$ 380,108,385	\$ 370,515,304
Increase (decrease) during the period attributable to:		
Change in actuarial assumptions	3,225,813	(1,090,886)
Benefits accumulated and actuarial experience gain	8,802,390	7,814,528
Interest	28,128,020	27,418,132
Benefits paid	(24,574,624)	(23,955,917)
Operational expenses paid	<u>(575,716)</u>	<u>(592,776)</u>
Net increase	<u>15,005,883</u>	<u>9,593,081</u>
Actuarial present value of accumulated benefits as of January 1, 2023 and 2022	<u>\$ 395,114,268</u>	<u>\$ 380,108,385</u>

The more significant assumptions underlying the actuarial computations are:

Actuarial value of assets - For January 1, 2023 and 2022, the actuarial value of assets is equal to the market value of the assets less unrecognized returns in each of the last five years. Unrecognized return is equal to the difference between the actual market return and the expected return on the actuarial value, and is recognized 20% per year over a five year period. The actuarial value can be no less than 80% nor more than 120% of market value as of the determination date.

Mortality rates - For 2023, 100% for males and 110% for females of the PRI-2012 Blue Collar Mortality Tables for employees and healthy annuitants projected forward using the MP-2021 projection scale. For 2022, 100% for males and 110% for females of the PRI-2012 Blue Collar Mortality Tables for employees and healthy annuitants projected forward using the MP-2021 projection scale.

Future benefit accruals – For 2023 and 2022, 1,750 hours of contributions per year per active vested participants are included in the valuation.

Funding method – Traditional unit credit cost method, effective January 1, 2016. Individual entry age normal with costs spread as a level dollar amount over service.

Assumed future rate of return on investments – 7.40% for 2023 and 2022

Administration Expenses - \$625,000 per year for 2023 and 2022. For the present value of expenses for ASC 960, a 3.00% load (3.00% the prior year) was applied to the ASC 960 liabilities.

OMAHA CONSTRUCTION INDUSTRY PENSION FUND

NOTES TO FINANCIAL STATEMENTS

NOTE 6 – ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS, Continued

Retirement age - 65 or if later, the fifth anniversary of participation, or age 60 with 25 years of credited service; or age 55 with 30 years of credited service.

Pre-retirement death beneficiary benefits - 60 payments of the employees' normal retirement benefits.

Other changes in actuarial assumptions and methods from the prior valuation include the following:

1. The assumed hourly contribution rates were increased to reflect negotiated increases effective during the plan year.
2. Added a 2.5% annual increase to the assumed operational expenses to reflect the best estimate of future expenses based on recent plan experience and expected inflationary increases.
3. The actuary changed their valuation software, which includes a change of timing of when active participants are expected to leave active status from the middle of the year to the beginning of the year.
4. The current liability interest rate was changed from 1.91% to 2.19%. The new rate is within established statutory guidelines.

Other changes in projection assumptions used in this valuation differ from those used in the prior valuation in the following respects:

1. The 2031 increase of the PBGC premium to \$52 per participant is now reflected for projection purposes.

Unfunded Actuarial Liability

As of January 01, 2023 and January 01, 2022, the unfunded actuarial liability was as follows:

	<u>2023</u>	<u>2022</u>
Actuarial accrued liability	\$ 439,787,721	\$ 419,277,432
Fund balance-actuarial value	<u>329,793,888</u>	<u>316,505,441</u>
Unfunded accrued liability	<u>\$ 109,993,833</u>	<u>\$ 102,771,991</u>

NOTE 7 – CONCENTRATION OF CREDIT RISK

As of December 31, 2023, the book balance of deposits in local banks was \$2,767,942 while the bank balance was \$2,523,429, of which \$2,273,429 was not insured by the Federal Depository Insurance Company ("FDIC").

OMAHA CONSTRUCTION INDUSTRY PENSION FUND

NOTES TO FINANCIAL STATEMENTS

NOTE 8 – RISK AND UNCERTAINTIES

The Plan invests in various investments securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities and to uncertainties in estimates and assumptions, it is at least reasonably possible that changes in values of such investments will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

The actuarial present value of accumulated plan benefits is reported based on the certain assumptions pertaining to interest rates, inflation rates, and employee demographics all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process it is at least reasonably possible that changes in these estimates and assumptions in the near-term would be material to the financial statements.

NOTE 9 – WITHDRAWAL LIABILITY

The Plan complies with the provisions of the Multiemployer Pension Plan Amendment Act of 1980 (MPPAA), which requires imposition of a withdrawal liability on a participating employer that partially or totally withdraws from the Plan. Under the provisions of the MPPAA, a portion of the Plan's unfunded vested liability would be allocated to a withdrawing employer. A withdrawal liability is usually paid in quarterly installments as determined by a statutory formula over a maximum of 20 years. The Plan entered into a settlement agreement with a participating employer who withdrew from the Plan and was subject to a withdrawal liability assessment. Quarterly assessments are being paid through December 2027. The Trustees, at times, approve settlements and payment plan arrangements for assessment amounts owed to the Plan.

During 2023, the Plan recognized withdrawal liability income of \$140,715.

At December 31, 2023, the Plan started receiving withdrawal assessment payments under payment plan arrangements from one former participating employer. The receivable amount represents the settlement agreement value (including interest) of the remaining payments. There is not currently any allowance for uncollectible accounts as the Plan expects to collect the entire amount. The plan received three quarterly payments of \$7,450 during 2023.

NOTE 10 – FUTURE CAPITAL COMMITMENTS

The Plan entered into an agreement with Blackstone Infrastructure Partners V Feeder L.P. on March 31, 2023 to invest \$7,700,000. As of the date of this report, no capital has yet been called for this investment.

Resulting in an average expected retirement age of 60.1.

Inactive vested lives

Current inactive vested lives, age 60 (55 with 30 years of service). Lincoln participants, age 55.

Disabled lives

Payable until earlier of early retirement age, recovery or death.

Timing of decrements

Beginning of year

Future hours worked

Vested lives

1,750 hours per year, 0 after assumed retirement age

Non-vested lives

1,150 hours per year, 0 after assumed retirement age

Future hourly contribution rate

Each active participant's contribution rate depending on his craft for the most recent plan year. Participants with unknown crafts use their average contribution rate received from the most recent plan year.

Age of participants with unrecorded birth dates

Based on average entry age of participants with recorded birth dates and same vesting status.

Marriage assumptions

100% assumed married with the male spouse 4 years older than his wife.

Optional form assumption

All non-retired participants assumed to elect the life only form of benefit

ACTUARIAL ASSUMPTIONS (CONT.)

Inactive vested lives over age 74	Continuing inactive vested participants age nearest 74 and older are assumed deceased and are not valued. Participants assumed deceased under age 74 prior to January 1, 2020 are still assumed to be deceased.
QDRO benefits	Benefits to alternate payee included with participant's benefit until payment commences.
Section 415 limit assumptions	
<i>Dollar limit</i>	\$265,000 per year
<i>Assumed form of payment for those limited by Section 415</i>	Qualified joint and 100% survivor annuity
Benefits not valued	Pre-retirement death benefits following withdrawal for active participants. Pre-retirement death benefits following disability.
Benefits vested	No death benefits are vested. Disability benefits are considered vested only in relation to corresponding retirement benefit. Early retirement subsidies are considered vested when participant reaches age 55 and has 5 years of vesting service.

RATIONALE FOR SELECTION OF ACTUARIAL ASSUMPTIONS

The non-prescribed actuarial assumptions were selected to provide a reasonable long term estimate of developing experience. The assumptions are reviewed annually, including a comparison to actual experience. The following describes our rationale for the selection of each non-prescribed assumption that has a significant effect on the valuation results.

ERISA rate of return used to value liabilities

Future rates of return were modeled based on the Plan's current investment policy asset allocation and composite, long-term capital market assumptions taken from Horizon Actuarial's 2023 survey of investment consultants.

Based on this analysis, we selected a final assumed rate of 7.40%, which we feel is reasonable. This rate may not be appropriate for other purposes such as settlement of liabilities.

Due to the special rules related to withdrawal liability for a construction industry plan and the nature of the building trades industry, we believe the valuation interest rate is also appropriate for withdrawal liability purposes.

Mortality

The PRI-2012 Blue Collar Mortality Tables for employees and healthy annuitants projected forward using the MP-2021 projection scale was chosen as the base table for this population.

The blue collar table was chosen based on the industry of plan participants.

Finally, a 100% multiplier for males and 110% multiplier for females was applied in order to more closely match projected deaths to actual post-retirement death experience. The period of actual data studied to develop this multiplier was from January 1, 2018 to December 31, 2022 for this plan blended with the PRI-2012 Blue Collar mortality tables. Based on information from the CDC on COVID-19 deaths through June 7, 2023, this study was adjusted to reflect an ongoing expectation of slightly higher deaths due to COVID-19 by 1) including an increase in deaths due to COVID-19 for the study period prior to March 15, 2020 and 2) excluding the high increase in deaths due to COVID-19 for the study period March 15, 2020 to March 15, 2022.

RATIONALE FOR SELECTION OF ACTUARIAL ASSUMPTIONS (CONT.)

Retirement	Actual rates of retirement by age were last studied for this plan for the period January 1, 2017 to December 31, 2021. No further adjustments were deemed necessary at this time
Withdrawal	Actual rates of withdrawal by age were last studied for this plan for the period January 1, 2017 to December 31, 2021. No further adjustments were deemed necessary at this time.
Future hours worked	Based on review of recent plan experience.

ACTUARIAL METHODS

Funding method <i>ERISA funding</i>	Traditional unit credit cost method, effective January 1, 2016.
<i>Funding period</i>	Individual entry age normal with costs spread as a level dollar amount over service.
Population valued <i>Actives</i>	Employees with at least 250 hours during the preceding plan year.
<i>Inactive vested</i>	Vested participants with less than 250 hours during the preceding plan year.
<i>Retirees</i>	Participants and beneficiaries in pay status as of the valuation date.
Asset valuation method <i>Actuarial value</i>	The actuarial value of assets is equal to the market value of assets less unrecognized returns in each of the last five years. Unrecognized return is equal to the difference between the actual market return and the expected return on the actuarial value, and is recognized at 20% per year over a five year period. The actuarial value can be no less than 80% nor more than 120% of market value as of the determination date.
<i>Unfunded vested benefits</i>	For the presumptive method, actuarial value, as described above, is illustrated.

STATEMENT BY ENROLLED ACTUARY

Schedule MB, line 11 - Justification for Change in Actuarial Assumptions

The assumptions and methods differ from those used the preceding year in the following respects:

- The assumed hourly contribution rates were increased to reflect negotiated increases effective during the plan year.
- We added a 2.5% annual increase to the assumed operational expenses to reflect our best estimate of future expenses based on recent plan experience and expected inflationary increases.
- We changed our valuation software, which includes a change in the timing of when active participants are expected to leave active status from the middle of the year to the beginning of the year.
- The current liability interest rate was changed from 1.91% to 2.19%. The new rate is within established statutory guidelines.

Actuary's Statement of Reliance

In completing this Schedule MB, the enrolled actuary has relied upon the correctness of the financial information presented in the pension fund audit and upon the accuracy and completeness of participant census data provided by the plan administrator.
