INDEPENDENT AUDITORS' REPORT

To the Plan Administrator, Participants and Beneficiaries
of the Murray's Cheese 401K

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of Murray's Cheese 401K (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 ("ERISA"), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2023 and 2022, and the related statement of changes in net assets available for benefits for the year ended December 31, 2023, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 2023 and 2022, and for the year ended December 31, 2023, stating that the certified investment information, as described in Note C to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditors' Responsibilities for the Audit of the Financial Statements section:

- the amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

- the information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

"EisnerAmper" is the brand name under which EisnerAmper LLP and Eisner Advisory Group LLC and its subsidiary entities provide professional services. EisnerAmper LLP and Eisner Advisory Group LLC are independently owned firms that practice in an alternative practice structure in accordance with the AICPA Code of Professional Conduct and applicable law, regulations and professional standards. EisnerAmper LLP is a licensed CPA firm that provides attest services, and Eisner Advisory Group LLC and its subsidiary entities provide tax and business consulting services. Eisner Advisory Group LLC and its subsidiary entities are not licensed CPA firms.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America ("GAAS"). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current Plan instrument, including all Plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) audit of the Financial Statements section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.

- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matters

Supplemental Schedules Required by ERISA

The supplemental schedules of assets (held at end of year) as of December 31, 2023 and delinquent participant contributions for the year ended December 31, 2023 are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, have been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with generally accepted auditing standards. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- the form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, is presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

- the information in the supplemental schedules related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

NOTE A - DESCRIPTION OF THE PLAN

Effective January 1, 2008 and most recently amended and restated effective January 1, 2021, Murray's Cheese (the "Company" or "Plan Sponsor") established the Murray's Cheese 401K (the "Plan") as a defined contribution plan.

The following description of the Plan provides only general information. Participants should refer to the current Plan agreement for a more complete description of the Plan's provisions.

[1] General:

The Plan is a defined contribution plan covering all employees of the Company, excluding union, leased and non-resident aliens, who have attained the age of 21 and who have at least three months of service, as defined in the Plan. The Plan provides for entry into the Plan on the first day of the month following the completion of the eligibility requirements. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). The insurance company and recordkeeper of the Plan is Voya Retirement Insurance and Annuity Company (“Voya”). Effective December 28, 2023, the Plan changed custodians and transferred the assets to Lincoln Financial Group ("Lincoln"). The transferred assets did not clear Lincoln until January 2, 2024. Therefore, the assets were recorded as deposits in transit on the statement of net assets available for benefits at December 31, 2023.

[2] Contributions:

Each year, participants may contribute up to 100% of pretax annual compensation, as defined in the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make additional catch-up contributions. In addition, participants may contribute up to 100% of after-tax compensation, as defined by the Plan. In no event may participant pre-tax and after-tax contributions exceed any statutory limitations. Rollover contributions are permitted under the Plan. Rollover represents distributions from other qualified defined benefit or contribution plans.

Under the terms of the Plan effective January 1, 2019, the Company will make a safe harbor matching contribution equal to 100% of the participants' pre-tax and after-tax contributions up to 3% of eligible compensation and an additional 50% on the next 2% of the participants' pre-tax and after-tax contributions up to 5% of eligible compensation. Discretionary profit-sharing contributions may be made at the option of the Plan Sponsor. During the year ended December 31, 2023, no discretionary profit-sharing contribution was made by the Company.

Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers various pooled separate accounts and a guaranteed investment contract as investment options for participants.

[3] Participant accounts:

Each participant's account is credited with the participant's contribution, Company matching and profit-sharing contributions, if any, and allocations of Plan earnings. The Plan may also be charged with an allocation of administrative expenses paid by the Plan. Allocations are based on participant earnings or account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

NOTE A - DESCRIPTION OF THE PLAN (CONTINUED)

[4] Vesting:

Participants are immediately vested in their contributions, including elective contributions and safe harbor matching contributions, rollover, plus actual earnings thereon. Vesting in the Company's profit-sharing contribution portion and any non-elective contributions of their accounts is based on years of continuous service and is as follows:

Years of Vesting Service	Vesting Percentage
Less than 2	0%
2 but less than 3	20%
3 but less than 4	40%
4 but less than 5	60%
5 but less than 6	80%
6 or more	100%

[5] Notes receivable from participants:

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000, reduced by the participant's highest outstanding note balance to the Plan during the one-year period ending on the day before the date on which the note is made, or 50% of their vested account balance. All notes, other than those used to purchase a principal residence, must be repaid within five years. The notes are secured by the balance in the participant's account and bear interest at a rate of prime plus 1%, as defined. Principal and interest are paid ratably through weekly payroll deductions over the term of the note, which generally will not exceed 60 months. At December 31, 2023 and 2022, the loans outstanding bear interest ranging from 4.25% to 9.50% and 4.25% to 8.00%, respectively. Delinquent notes receivable from participants are reclassified as distributions based upon the terms of the Plan document. Related fees are recorded as administrative expenses and are expensed when they are incurred.

[6] Payment of benefits:

On termination of service due to death, disability, or retirement, a participant whose vested balance exceeds $5,000 may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, a direct rollover to another qualified plan, or a direct rollover to an individual retirement account, installment payments, request a partial withdrawal, or defer receiving payments until age 70½. Participants whose vested benefits do not exceed $5,000 will receive a single lump-sum payment.

[7] Forfeitures:

The forfeited portion of nonvested accounts will be used either to reduce future employer contributions or to pay plan expenses. At December 31, 2023 and 2022, forfeiture nonvested accounts available were $5. During the year ended December 31, 2023, no forfeitures were used.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The following are the significant accounting policies followed by the Plan:

[1] Basis of accounting:

The financial statements are prepared on the accrual basis of accounting.

Investments held by a defined-contribution plan are required to be reported at fair value, except for fully benefit-responsive investment contracts. Contract value is the relevant measure for the portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts, because contract value is the amount participants normally would receive if they were to initiate permitted transactions under the terms of the Plan.

[2] Investment valuation and income recognition:

The Plan's investments are reported at fair value (except for fully benefit-responsive investment contracts, which are reported at contract value). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note D for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation in fair value of investments includes the Plan's gains and losses on investments bought and sold as well as held during the year.

[3] Payments of benefits:

Benefits are recorded when paid.

[4] Use of estimates:

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and when applicable, disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

[5] Expenses:

Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to the administration of the notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses, other than investment management fees, are included in net depreciation in fair value of investments.

NOTE C - INVESTMENT CERTIFICATION

The Plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the U.S. Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, Voya Retirement Insurance and Annuity Company ("Voya"), has certified to the completeness and accuracy of all investments and related investment activity in the accompanying statements of net assets available for benefits as of December 31, 2023 and 2022, and the statement of changes in net assets available for benefits for the year ended December 31, 2023.

NOTE D - FAIR VALUE MEASUREMENTS

The Financial Accounting Standards Board's ("FASB") Accounting Standards Codification ("ASC") 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. The framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; and inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodology used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2022.

Pooled Separate Accounts – Valued at NAV, as a practical expedient, based on the market value of the underlying investments. The NAV is not a publicly-quoted price in an active market. The pooled separate accounts are comprised of a wide variety of underlying investments as described below.

The preceding method described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table set forth the Plan's investment assets at fair value as of December 31, 2023 and 2022:

	December 31,	
	2023	**2022**
Investment measured at NAV (A):		
Pooled separate accounts	**$ -**	$ 2,150,762

(A) Certain investments that are measured at fair value using the NAV per share (or its equivalent) practical expedient have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the amounts presented in the statements of net assets available for benefits.

NOTE D - FAIR VALUE MEASUREMENTS (CONTINUED)

Pooled separate accounts can be redeemed on daily basis. There are no unfunded commitments or other redemption restrictions.

Changes in Fair Value Levels

The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another.

The following describes the investment strategies for investments valued using NAV as the practical expedient held by the Plan for the years ended December 31, 2022:

Voya Target Retirement 2025 – 2060 Funds – Class R6 – The Voya Target Solution Trust Funds are a suite of portfolios designed to simplify retirement investing with all-in-one, fully managed, diversified investment that evolves as a participant's career does, adjusting over time to become more conservative as the target retirement year approaches. Voya's Target Solution Trusts are designed to specifically balance the evolving risk return profiles of participants as they age to help maximize the probability of a successful retirement. The target date in the fund's name is the approximate date when investors plan to retire and start withdrawing money.

MFS International Growth Fund – Class R6 – The investment seeks capital appreciation. The fund normally invests its assets primarily in foreign equity securities, including emerging market equity securities. Equity securities include common stocks and other securities that represent an ownership interest (or right to acquire an ownership interest) in a company or other issuer. The advisor focuses on investing the fund's assets in the stocks of companies it believes to have above average earnings growth potential compared to other companies (growth companies).

Voya Solution Moderately Aggressive Portfolio – Class R6 – The investment seeks to provide capital growth through a diversified asset allocation strategy. The Portfolio invests in a combination of underlying funds, which are actively managed funds or passively managed funds (index funds). The underlying funds invest in U.S. stocks, international stocks, U.S. bonds, and other fixed-income instruments, and the Portfolio uses an asset allocation strategy designed for investors saving for retirement. The Portfolio's current approximate target investment allocation (expressed as a percentage of its net assets) ("Target Allocation") among the underlying funds is: 78% in equity securities and 22% in fixed-income instruments.

Vanguard Total International Stock Index Fund – Admiral Shares – The investment seeks to track the performance of a benchmark index that measures the investment return of stocks issued by companies located in developed and emerging markets, excluding the United States. The manager employs an indexing investment approach designed to track the performance of the FTSE Global All Cap ex US Index, a float-adjusted market-capitalization-weighted index designed to measure equity market performance of companies located in developed and emerging markets, excluding the United States. The fund invests all, or substantially all, of its assets in the common stocks included in its target index.

Vanguard 500 Index Fund – Admiral Shares – The investment seeks to track the performance of the Standard & Poor's 500 Index that measures the investment return of large-capitalization stocks. The fund employs an indexing investment approach designed to track the performance of the Standard & Poor's 500 Index, a widely recognized benchmark of U.S. stock market performance that is dominated by the stocks of large U.S. companies. The advisor attempts to replicate the target index by investing all, or substantially all, of its assets in the stocks that make up the index, holding each stock in approximately the same proportion as its weighting in the index.

NOTE D - FAIR VALUE MEASUREMENTS (CONTINUED)

Vanguard Total Stock Market Index Fund – Admiral Shares – The investment seeks to track the performance of the CRSP US Total Market Index that measures the investment return of the overall stock market. The fund employs an indexing investment approach designed to track the performance of the index, which represents approximately 100% of the investable U.S. stock market and includes large-, mid-, small-, and micro-cap stocks. It invests by sampling the index, meaning that it holds a broadly diversified collection of securities that, in the aggregate, approximates the full index in terms of key characteristics.

MFS Value Fund – Class R6 – The investment seeks capital appreciation. The fund normally invests the fund's assets primarily in equity securities. Equity securities include common stocks and other securities that represent an ownership interest (or right to acquire an ownership interest) in a company or other issuer. MFS focuses on investing the fund's assets in the stocks of companies the advisor believes are undervalued compared to their perceived worth (value companies).

Voya Large Cap Growth Portfolio – Class R6 – The investment seeks long-term capital appreciation. Under normal market conditions, the fund invests at least 80% of its net assets (plus borrowings for investment purposes) in common stocks of large-capitalization companies. For this fund, large-capitalization companies are companies with market capitalizations which fall within the range of companies in the Russell 1000® Growth Index at the time of purchase. The fund may also invest in derivative instruments, which include index futures and options to hedge against market risk or to enhance returns. It may also invest up to 25% of its assets in foreign securities. The fund is non-diversified.

Vanguard® Balanced Index Fund – Admiral™ Shares – The investment seeks to track the performance of a benchmark index that measures the investment return of the overall U.S. stock market with 60% of its assets; the fund seeks to track the performance of a broad, market-weighted bond index with 40% of its assets. The fund employs an indexing investment approach designed to track the performance of two benchmark indexes. With approximately 60% of its assets, the fund seeks to track the investment performance of the CRSP US Total Market Index. With approximately 40% of its assets, the fund seeks to track the investment performance of the Bloomberg U.S. Aggregate Float Adjusted Index.

Vanguard Mid-Cap Index Fund – Admiral Shares – The investment seeks to track the performance of the CRSP US Mid Cap Index that measures the investment return of mid-capitalization stocks. The fund employs an indexing investment approach designed to track the performance of the CRSP US Mid Cap Index, a broadly diversified index of stocks of mid-size U.S. companies. The advisor attempts to replicate the target index by investing all, or substantially all, of its assets in the stocks that make up the index, holding each stock in approximately the same proportion as its weighting in the index.

Voya Solution Balanced Portfolio – Class R6 – The investment seeks to provide capital growth through a diversified asset allocation strategy. The Portfolio invests in a combination of underlying funds, which are actively managed funds or passively managed funds (index funds). The underlying funds invest in U.S. stocks, international stocks, U.S. bonds, and other fixed-income instruments, and the Portfolio uses an asset allocation strategy designed for investors saving for retirement.

DFA U.S. Small Cap Portfolio – Institutional Class – The investment seeks long-term capital appreciation. The fund, using a market capitalization weighted approach, purchases a broad and diverse group of readily marketable securities of U.S. small cap companies. A company's market capitalization is the number of its shares outstanding times its price per share. Under a market capitalization weighted approach, companies with higher market capitalizations generally represent a larger proportion of the fund than companies with relatively lower market capitalizations.

NOTE D - FAIR VALUE MEASUREMENTS (CONTINUED)

MFS Total Return Bond Fund – Class R6 – From the investment's prospectus. The investment seeks total return with an emphasis on current income but also considering capital appreciation. The fund normally invests at least 80% of its net assets in debt instruments. Debt instruments include corporate bonds, U.S. government securities, foreign government securities, securitized instruments, municipal instruments and other obligations to repay money borrowed. It primarily invests the fund's assets in investment grade quality debt instruments, but may also invest in below investment grade quality debt instruments.

American Funds New Prospective – Class R-6 – The investment seeks long-term growth of capital. The fund seeks to take advantage of investment opportunities generated by changes in international trade patterns and economic and political relationships by investing in common stocks of companies located around the world. In pursuing its investment objective, it invests primarily in common stocks that the investment adviser believes have the potential for growth.

BlackRock High Yield Bond Portfolio – Class K Shares – The investment seeks to maximize total return, consistent with income generation and prudent investment management. The fund invests primarily in non-investment grade bonds with maturities of ten years or less. It normally invests at least 80% of its assets in high yield bonds. The fund may invest up to 30% of its assets in non-dollar denominated bonds, of issuers located outside of the United States. Its investment in non-dollar denominated bonds may be on a currency hedged or unhedged basis. The fund may also invest in convertible and preferred securities.

DFA Global Real Estate Securities Portfolio – Institutional Class – The investment seeks long-term capital appreciation. The Portfolio seeks to achieve exposure to a broad portfolio of securities of U.S. and non-U.S. companies in the real estate industry, with a focus on real estate investment trusts ("REITs") or companies that the advisor considers to be REIT-like entities. It may pursue its investment objective by investing its assets in the DFA Real Estate Securities Portfolio, DFA International Real Estate Securities Portfolio (the "underlying funds"), and/or directly in securities of companies in the real estate industry.

Voya Solution Aggressive Portfolio – Class R6 – The investment seeks growth of capital. The Portfolio invests primarily in a combination of underlying funds, which are actively managed funds or passively managed funds. The underlying funds may or may not be affiliated with the investment adviser. The underlying funds invest in U.S. stocks, international stocks, U.S. bonds, and other fixed-income instruments, and the Portfolio uses an asset allocation strategy designed for investors saving for retirement. The Portfolio's current approximate target investment allocation (expressed as a percentage of its net assets) among the underlying funds is: 91% in equity securities and 9% in fixed-income instruments.

Clear Bridge Small Cap Growth Fund – Class IS – The investment seeks long-term growth of capital. The fund normally invests at least 80% of its assets in equity securities of companies with small market capitalizations and related investments. The portfolio managers use a growth-oriented investment style that emphasizes small U.S. companies.

DFA Commodity Strategy Portfolio – Institutional Class – The investment seeks total return consisting of capital appreciation and current income. The Portfolio seeks to achieve its investment objective by generally investing in a universe of allowable commodity-linked derivative instruments and fixed income investment opportunities. It may invest up to 25% of its total assets in Dimensional Cayman Commodity Fund I Ltd.

American Funds AMCAP Fund – Class R-6 – The investment seeks long-term growth of capital. The fund invests primarily in common stocks of U.S. companies that have solid long-term growth records and the potential for good future growth. The basic investment philosophy of the investment adviser is to seek to invest in attractively valued companies that, in its opinion, represent good, long-term investment opportunities.

NOTE D - FAIR VALUE MEASUREMENTS (CONTINUED)

Vanguard Emerging Markets Stock Index Fund – Admiral Shares – The investment seeks to track the performance of a benchmark index that measures the investment return of stocks issued by companies located in emerging market countries. The fund employs an indexing investment approach designed to track the performance of the FTSE Emerging Markets All Cap China A Inclusion Index. It invests by sampling the index, meaning that it holds a broadly diversified collection of securities that, in the aggregate, approximates the index in terms of key characteristics.

DFA U.S. Targeted Value Portfolio – Institutional Class – The investment seeks long-term capital appreciation. The fund purchases a broad and diverse group of the readily marketable securities of U.S. small and mid-cap companies that the advisor determines to be value stocks with higher profitability. It may purchase or sell futures contracts and options on futures contracts for U.S. equity securities and indices, to increase or decrease equity market exposure based on actual or expected cash inflows to or outflows from the fund.

Neuberger Berman Strategic Income Fund – Class R6 Shares – The investment seeks high current income with a secondary objective of long-term capital appreciation. The fund invests primarily in a diversified mix of debt securities. It may invest in a broad array of securities, including: securities issued or guaranteed as to principal or interest by the U.S. government or any of its agencies or instrumentalities; inflation-linked debt securities; municipal securities; foreign securities, including emerging markets; corporate bonds; commercial paper; mortgage-backed and other asset-backed securities; and loans.

Voya Target In-Retirement Fund – Class R6 – The investment seeks a combination of total return and stability of principal consistent with an asset allocation targeted to retirement. The fund invests primarily in a combination of underlying funds, which are actively managed funds or passively managed funds. The underlying funds invest in U.S. stocks, international stocks, U.S. bonds, and other debt instruments, and the fund uses an asset allocation strategy designed for investors expecting to retire soon or are already retired. The fund's current approximate target investment allocation among the underlying funds is: 35% in equity securities and 65% in debt instruments.

Invesco Comstock Fund – Class R6 – The investment seeks total return through growth of capital and current income. The fund invests, under normal circumstances, at least 80% of its net assets (plus any borrowings for investment purposes) in common stocks, and in derivatives and other instruments that have economic characteristics similar to such securities. It may invest in securities of issuers of any market capitalization; however, it is currently expected that the fund will invest a substantial percentage of its assets in large-capitalization issuers. The fund may invest up to 10% of its net assets in REITs.

Voya MidCap Opportunities Portfolio – Class R6 – The investment seeks long-term capital appreciation. Under normal market conditions, the Portfolio invests at least 80% of its net assets (plus borrowings for investment purposes) in common stock of mid-sized U.S. companies. It normally invests in companies that the sub-adviser ("Sub-Adviser") believes have above average prospects for growth. For this Portfolio, the Sub-Adviser defines mid-sized companies as those companies with market capitalizations that fall within the range of companies in the Russell Midcap® Growth Index at the time of purchase. The Portfolio may invest in real estate-related securities including real estate investment trusts.

DFA Inflation-Protected Securities Portfolio – Institutional Class – The investment seeks to provide inflation protection and earn current income consistent with inflation-protected securities. As a non-fundamental policy, under normal circumstances, the Portfolio will invest at least 80% of its net assets in inflation-protected securities. Inflation-protected securities (also known as inflation-indexed securities) are securities whose principal and/or interest payments are adjusted for inflation, unlike conventional debt securities that make fixed principal and interest payments.

NOTE D - FAIR VALUE MEASUREMENTS (CONTINUED)

American Funds American Balanced Fund – Class R-6 – The investment seeks conservation of capital, current income and long-term growth of capital and income. The fund uses a balanced approach to invest in a broad range of securities, including common stocks and investment-grade bonds. It also invests in securities issued and guaranteed by the U.S. government and by federal agencies and instrumentalities. In addition, the fund may invest a portion of its assets in common stocks, most of which have a history of paying dividends, bonds and other securities of issuers domiciled outside the United States.

Virtus Ceredex Mid-Cap Value Equity Fund – Class R6 – The investment seeks to provide capital appreciation; current income is a secondary objective. Under normal circumstances, the fund invests at least 80% of its net assets in U.S.-traded equity securities of mid-capitalization companies. U.S.-traded equity securities may include American Depositary Receipts ("ADRs"). The sub-adviser considers mid-capitalization companies for this purpose to be those companies that, at the time of initial purchase, have market capitalizations generally within the range of companies included in the Russell Midcap® Index.

Voya Solution Conservative Portfolio – Class R6 – The investment seeks a combination of total return and stability of principal consistent with an asset allocation targeted to retirement. The fund invests in a combination of underlying funds, which are actively managed funds or passively managed funds (index funds). The underlying funds invest in U.S. stocks, international stocks, U.S. bonds, and other fixed-income instruments, and the Portfolio uses an asset allocation strategy designed for investors saving for retirement.

Voya Solution Moderately Conservative Portfolio – Class R6 – The investment seeks a combination of total return and stability of principal through a diversified asset allocation strategy. The Portfolio invests in a combination of underlying funds, which are actively managed funds or passively managed funds (index funds). The underlying funds invest in U.S. stocks, international stocks, U.S. bonds, and other fixed-income instruments, and the Portfolio uses an asset allocation strategy designed for investors saving for retirement.

The investments listed above are no longer available options as of December 31, 2023, as the Plan changed custodians to Lincoln, effective December 28, 2023.

NOTE E - GUARANTEED INVESTMENT CONTRACT

The Plan had a traditional fully benefit-responsive investment contract with Voya totaling $200,436 as of December 31, 2022. The guaranteed investment contract was terminated as of December 31, 2023, as the Plan changed custodians to Lincoln, effective December 28, 2023. Voya maintained the contributions in a general account. The contract was reported at contract value. The account was credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer was contractually obligated to repay the principal and a specified interest rate that was guaranteed to the Plan. The guaranteed investment contract did not permit Voya to terminate the agreement prior to the scheduled maturity date.

Because the guaranteed investment contract was a fully benefit-responsive, contract value was the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. Contract value, as reported to the Plan by Voya, represented contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants could ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There were no reserves against contract value for credit risk of the contract issuer or otherwise. The crediting interest rate was based on a formula agreed upon with the issuer, but not less than 1%. Voya, at its discretion, may have credited interest at a greater rate than the minimum established. The contract and interest rate was reset every five years.

NOTE E - GUARANTEED INVESTMENT CONTRACT (CONTINUED)

The Plan's ability to receive amounts due was dependent on the issuer's ability to meet its financial obligations. The issuer's ability to meet its contractual obligations may have been affected by future economic and regulatory developments

Certain events may have limited the ability of the Plan to transact at contract value with the contract issuer. These events may have been different under each contract. Examples of such events include the following:

1. The Plan's failure to qualify under Section 401(a) of the Internal Revenue Code ("IRC") or the failure of the trust to be tax-exempt under Section 501(a) of the IRC;
2. Premature termination of the contracts;
3. Plan termination or merger;
4. Changes to the Plan's prohibition on competing investment options; or
5. Bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spinoffs of a subsidiary) that significantly affect the Plan's normal operations.

At December 31, 2022, no events were probable of occurring that might limit the ability of the Plan to transact at contract value with the contract issuers and that also would limit the ability of the Plan to transact at contract value with the participants.

In addition, certain events allowed the issuer to terminate the contracts with the Plan and settle at an amount different from contract value. Those events may have been different under each contract. Examples of such events included the following:

1. An uncured violation of the Plan's investment guidelines;
2. A breach of material obligation under the contract;
3. A material misrepresentation; or
4. A material amendment to the agreements without the consent of the issuer.

At December 31, 2023, the contract was terminated and a market value adjustment of $2,292 was issued to Plan.

NOTE F - INCOME TAX STATUS

The Plan has adopted a non-standardized pre-approved profit sharing plan with CODA sponsored by CCH Incorporated DBA ftwilliam.com. On June 30, 2020, the Internal Revenue Service ("IRS") stated in an opinion letter that the prototype adopted by the Plan, as then designed, was in compliance with applicable requirements of the IRC and, therefore, the related trust is exempt from taxation. Although the Plan has been amended since receiving the determination letter, Plan management believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and, therefore, believes the Plan is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by a government authority. The Plan administrator has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2023, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine examinations by taxing jurisdictions; however, there are currently no examinations for any tax periods in progress.

NOTE G - PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants become 100% vested in the value in their accounts.

NOTE H - RELATED PARTY AND PARTY-IN-INTEREST TRANSACTIONS

Plan investments include pooled separate accounts and a guaranteed investment contract managed by Voya or its affiliates and, therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan for investment management services, audit fees, and other services amounted to $3,381 and are included in administrative expenses for the year ended December 31, 2023.

NOTE I - RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Such investment securities are subject to various risks, such as interest rate, market and credit risks, as well as risks related to the financial strength of the insurance company. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of these investments, it is at least reasonably possible that changes in market conditions in the near term could materially affect participants' account balances and the value of investments reported in the financial statements.

Volatility in the financial markets may significantly impact the subsequent valuation of the Plan's investments. Accordingly, the valuation of investments at December 31, 2023 may not necessarily be indicative of amounts that could be realized in a current market exchange.

NOTE J - NONEXEMPT PARTY-IN-INTEREST TRANSACTIONS

During the year ended December 31, 2022, it was discovered that certain amounts withheld were not timely remitted to the Plan. The Plan administrator deposited $24,865 into the Plan in June and October 2023, which includes lost earnings of $2,430, in order to make the affected participants whole.

NOTE K - SUBSEQUENT EVENTS

The Plan's management has evaluated subsequent events through October 1, 2024, the date the financial statements were available to be issued.
