## INDEPENDENT AUDITOR'S REPORT

Plan Administrator  
I & S Group, Inc.  
Employee Stock Ownership Plan  
Mankato, Minnesota

### Opinion

We have audited the accompanying financial statements of I & S Group, Inc. Employee Stock Ownership Plan, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets available for benefits as of December 31, 2023 and 2022, and the related statement of changes in net assets available for benefits for the year ended December 31, 2023, and the related notes to the financial statements.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of I & S Group, Inc. Employee Stock Ownership Plan as of December 31, 2023 and 2022, and the changes in its net assets available for benefits for the year ended December 31, 2023, in accordance with accounting principles generally accepted in the United States of America.

### Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

### Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments; administering the plan; and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

### Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

#### **Supplemental Schedule Required by ERISA**

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental Schedule of Assets (Held at End of Year) as of December 31, 2023, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with generally accepted auditing standards.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedule is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

I & S Group, Inc.  
Employee Stock Ownership Plan  
Notes to the Financial Statements  
December 31, 2023 and 2022

**Note 1: Description of Plan**

The following description of the I & S Group, Inc. (the Company) Employee Stock Ownership Plan (the Plan) provides only general information. The plan documents should be referred to for a more complete description of the Plan's provisions. A complete description of the Plan is available at the Company.

**General**

The Company established the Plan effective January 1, 2016, as a non-leveraged Employee Stock Ownership Plan (ESOP). On January 3, 2017, the Plan began operating as a leveraged ESOP. See Note 5 for additional details.

The Plan is designed to comply with Section 4975(e)(7) and the regulations of the Internal Revenue Code of 1986 as amended (the Code) and is subject to the applicable provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA). The Plan is administered by the Company. The Plan has hired Boulay PLLP as the third-party administrator to assist with various administrative duties for the Plan. The Plan utilizes Alerus Financial N.A. as its trustee.

On January 3, 2017, the Plan purchased 5,000,000 shares of the Company's common stock with a loan of \$1,900,000. See Note 5 for additional details on the loan agreement. The stock was purchased at a price of \$0.38 per share, for an aggregate purchase price of \$1,900,000.

The borrowing is collateralized by the unallocated shares of common stock. The Company has no rights against shares of common stock once they are allocated to participants in accordance with the terms of the ESOP. Accordingly, the financial statements of the Plan as of December 31, 2023 and 2022, and for the year ended December 31, 2023, present separately the assets and liabilities and changes therein pertaining to:

- a. The accounts of employees with rights in allocated common stock (allocated), and
- b. Common stock not yet allocated to employees (unallocated).

**Eligibility**

Employees of the Company age 21 and older are generally eligible to participate in the Plan after their first six months of service, providing they have worked at least 1,000 hours during such period. Eligible employees who do not have at least 1,000 hours of service during their first six months of service will become eligible upon the later of (a) attainment of age 21 or (b) completion of a year of service, defined as 1,000 hours of service over a 12-month period.

**Contributions**

The Plan is noncontributory and therefore does not allow employee contributions. Employer contributions are discretionary and, if elected by the Company, may consist of a) a single discretionary amount or b) a discretionary matching percentage on participant salary deferrals made into the Company's 401(k) plan. Only those participants who are eligible employees of the Company as of the last day of the Plan year will receive an allocation for amounts representing employer discretionary contributions. This rule is not in effect for employer contributions to the Plan made as a match on the participant's salary deferral to the Company sponsored 401(k) plan. Allocations are based on a participant's eligible compensation, relative to total eligible compensation.

The Company is obligated to make contributions in cash to the Plan which, when aggregated with the Plan's dividends and interest earnings, equal the amount necessary to enable the Plan to make its regularly scheduled payments of principal and interest due on its term loan.

**Note 1: Description of Plan (Continued)**

**Payment of Benefits**

No distributions from the Plan will be made until a participant retires, dies (in which case payment shall be made to his or her beneficiary or, if no beneficiary exists, to his or her legal representative), or otherwise terminates employment with the Company, or reaches the normal retirement age. Distributions may be made in cash. However, the Plan Trustees reserve the right to distribute a participant's account balance as shares of stock. Distributions are made in a lump-sum if the participant's account balance is less than \$25,000 or through substantially equal installment payments made over a period of five years, provided that (i) the minimum installment amount shall be the lesser of \$25,000 or the entire balance of the participant's account, and (ii) installments shall not exceed the life expectancy of the participant or the joint life expectancy of the participant and the participant's beneficiary. Unless the participant elects in writing a longer distribution period, distributions to a participant or the participant's beneficiary attributable to Company stock shall be in substantially equal monthly, quarterly, semiannual, or annual installments over a period not longer than five (5) years. In the case of a participant with an account balance attributable to Company stock in excess of \$800,000, the five-year period shall be extended one additional year (but not more than five additional years) for each \$160,000 or fraction thereof by which such balance exceeds \$800,000. The dollar limits shall be adjusted at the same time and in the same manner as provided in Code Section 415(d) of the Internal Revenue Code.

The Plan utilizes forced payouts on the accounts of terminated employees whose account balances are less than \$5,000. If the terminated employee's account balance is greater than \$1,000 the balance will be rolled into an eligible retirement plan on the behalf of the participant if no other election is made.

**Divestiture of Company Stock**

If a terminated participant does not consent to a distribution of his or her account when first eligible to do so, to the extent that the Plan has sufficient unallocated cash or cash equivalents to do so, the trustee will convert the Company stock held in the terminated participant's account to cash or cash equivalents or other investments determined by the plan administrator at any time following such termination from employment using the most recent appraised value for the Company stock, subject to certain conditions as outlined within the Plan document. During the year ended December 31, 2023, the Company contributed to the Plan to convert terminated participant accounts from Company stock into cash or cash equivalents in the amount of \$544,995. As of December 31, 2023 and 2022, the Plan recorded a receivable in the amount of \$633,756 and \$367,427, respectively, for the amount of unfunded divestitures for terminated participants. The divested shares from this conversion were allocated to the remaining participants as of and for the year ended December 31, 2023. The Plan's total balance of cash and cash equivalents as of December 31, 2023 and 2022, was \$1,639,929 and \$1,237,660, respectively.

**Administrative Expenses**

As provided in the Plan agreement, administrative expenses may be paid either by the Plan or by the Company. The Company has historically paid the operating expenses for the Plan. The Plan did not pay any operating expenses during the year ended December 31, 2023.

**Voting Rights**

The Trustee of the Plan will vote all Company stock held by it as a part of the Plan assets. This provision provides that participants (or their beneficiaries) are entitled to direct the Trustee as to the manner in which voting rights on shares of the Company stock, which are allocated to a participant's account, are exercised as to the following: (1) with respect to any corporate matter which involves the voting of such shares with respect to the approval or disapproval of any corporate merger or consolidation, recapitalization, reclassification, liquidation, dissolution, sale of substantially all assets of a trade or business, or such similar transaction; and (2) with respect to all corporate matters if, at the time of the vote, the Company stock is a "registered-type" class of securities. If a participant does not timely exercise his/her right to vote the Company stock, the Trustee will vote such Company stock. The Trustee is required to vote any unallocated shares, if any, on behalf of the collective best interest of plan participants and beneficiaries.

**Note 1: Description of Plan (Continued)**

**Participant Accounts**

The Plan is a defined contribution plan under which a separate individual account is established for each participant. Each participant's account is credited as of the last day of each Plan year with an allocation of shares of the Company's common stock released by the custodians from the unallocated account, if any, recycled shares repurchased by the Plan from terminated participants, and forfeitures of terminated participants' non-vested accounts. Only those participants who are eligible employees of the Company as of the last day of the Plan year will receive an allocation. Allocations of shares released from the unallocated account and forfeitures are based on a participant's eligible compensation, relative to total eligible compensation. Allocations of repurchased and recycled shares from terminated participants are based on a participant's balance in non-segregated other investment relative to the total balance of non-segregated other investments. Plan earnings are allocated to each participant's account based on the ratio of the participant's account balance.

**Vesting**

If a participant's employment with the Company ends for any reason other than retirement, permanent disability or death, he or she will vest in the balances in his or her account based on total years of service with the Company. Participants vest based on the schedule below:

<u>Years of Service</u>	<u>Percentage Vested</u>
1	0 %
2	20
3	40
4	60
5	80
6	100

**Put Option**

Under Federal income tax regulations, the Company stock that is held by the Plan and its participants, is not readily tradable on an established market, and/or is subject to trading limitations, including a put option. The put option is a right to demand that the Company buy any shares of its stock distributed to participants for which there is no market. The put price is representative of the fair market value of the stock. The Company can pay for the purchase with interest over a period of five years. The purpose of the put option is to ensure that the participant has the ability to ultimately obtain cash.

**Participant Loans**

The Plan does not allow loans to participants.

**Note 1: Description of Plan (Continued)**

**Diversification**

Diversification is offered to participants close to retirement so that they may have the opportunity to move a portion of the value of their investment in the Company stock into investments which are more diversified. Participants who are at least 55 years of age with at least 10 years of participation in the Plan may elect to diversify a portion of their account. Diversification is offered to each eligible participant over a six-year period. In each of the first five years, a participant may diversify up to 25 percent of the number of post-1986 shares allocated to his or her account, less any shares previously diversified. In the sixth year, the percentage changes to 50 percent. Participants who elect to diversify receive a cash distribution. Participants can elect to roll these cash distributions into the Company maintained 401(k) plan or another qualified retirement plan arrangement. Participants may also elect to take a cash distribution, which may be subject to income taxes and penalties.

**Forfeited Accounts**

Forfeited, non-vested amounts are added to any employer discretionary contribution made for the year and allocated among participants eligible to share for the Plan year. During the year ended December 31, 2023 there were approximately 1,572 shares from forfeited non-vested accounts allocated to participants. There were no forfeitures to be allocated in future years as of December 31, 2023 and 2022.

**Note 2: Summary of Significant Accounting Policies**

**Basis of Accounting**

The financial statements of the Plan are prepared under the accrual method of accounting based on accounting principles generally accepted in the United States of America.

**Use of Estimates**

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts of assets and liabilities at the date of the financial statements and reported amounts of revenue, expenses and disclosures during the reporting period. Accordingly, actual results may differ from those estimates.

**Allocations**

The financial statements of the Plan present separately the assets and liabilities and changes therein pertaining to (a) the accounts of employees with rights in allocated stock (allocated) and (b) stock not yet allocated to employees (unallocated), including shares that are committed to be released. Shares are released from collateral and become allocated generally in the period in which debt service is actually paid.

**Note 2: Summary of Significant Accounting Policies (Continued)**

**Investment Valuation and Income Recognition**

The shares of Company common stock are reported at fair value. See Note 4 for a discussion of the fair value measurements. Dividend income is accrued on the ex-dividend date. Purchases and sales of securities are recorded on a trade-date basis. Realized gains and losses from security transactions are reported on the average cost method. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

**Payment of Benefits**

Benefits are recorded when paid.

**New Accounting Pronouncements**

New accounting standards issued by, but not effective until after, December 31, 2023 are not expected to have a significant impact on the Plan's financial statements.

**Subsequent Events**

The Plan's management has evaluated subsequent events through September 10, 2024, the date the financial statements were available to be issued.

**Note 3: Investments**

The Plan's investments, at December 31, are presented in the following table:

**Note 4: Fair Value Measurements**

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

**Level 1** - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

**Level 2** - Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

**Level 3** - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2023 and 2022:

	2023			Total
	Level 1	Level 2	Level 3	
Investment in I&S Group common stock	\$ -	\$ -	\$ 75,100,000	\$ 75,100,000

Employee Stock Ownership Plan  
Notes to the Financial Statements

**Note 4: Fair Value Measurements (Continued)**

Following is a description of the valuation methodologies used for assets measure at fair value. There have been no changes in the methodologies used at December 31, 2023.

The I & S Group Company common stock held by the Plan is reported at fair value based upon an appraisal. This appraisal was based on a combination of the market and income valuation techniques as illustrated in the following table.

Instrument	Fair Value	Principle Valuation Techniques	Unobservable Inputs
I & S Group, Inc. Common Stock	\$ 75,100,000	Income	EBITDA Net income Projected cash flow Projected return on assets Projected return on equity Discount rate Discount for lack of marketability
		Market	Market comparables Estimated fair value of Company assets and liabilities Revenue multiple EBITDA multiple Discount for lack of marketability

The valuation process involves the selection of an appraiser under contract with the Plan trustee with the right to cancel such contract at any time. Plan management accumulates the data for the appraiser from historical and projected financial information of the Company. The appraiser prepares a report of estimated per share value that a participant will receive upon distribution. The appraiser prepares a preliminary report which the Plan's trustee reviews and approves.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

*Interest-Bearing Cash:* Comprised of money market mutual funds. The fair value is \$1 per share based on the short-term nature of the investment.

**Note 5: Loan Payable**

Effective as of January 3, 2017, the I & S Group Employee Stock Ownership Trust (the Trust) entered into a pledge agreement with the Company on behalf of the Plan to purchase five million shares of Company stock at a total purchase price of \$1,900,000. The loan bears interest at a rate of 2.75 percent per annum and is repaid through annual installment payments which began in December 2017. The loan is collateralized by unallocated shares of Company stock and is set to expire in December 2051. Unallocated shares of Company stock are released for allocation in accordance with the repayment of the loan. This resulted in approximately 150,380 shares being released and allocated for the plan year ended December 31, 2023. The balance of this loan may be prepaid by the Plan at any time without penalty.

Future scheduled maturities of long-term debt are as follows:

<u>Year Ending December 31,</u>	<u>Amount</u>
2024	\$ 42,023
2025	43,063
2026	44,362
2027	45,582
2028	46,836
Thereafter	<u>1,307,289</u>
Total	<u>\$ 1,529,155</u>

**Note 6: Related Party and Party in Interest Transactions**

Transactions resulting in Plan assets being transferred to or used by a related party and party in interest are considered prohibited transactions under ERISA unless a specific exemption exists. Certain administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan for services rendered. The transactions are not considered prohibited transactions as ERISA regulations provide for a specific exemption for such transactions.

**Note 7: Risks and Uncertainties**

The Plan investments consist primarily of the Company's common stock, which is exposed to various risks, such as interest rate, market, and credit risks, as well as valuation assumptions based on earnings, cash flows, and other such techniques. Due to the level of risk associated with the investment in the common stock and to uncertainties inherent in estimates and assumptions, it is at least reasonably possible that changes in the value of the common stock will occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets available for benefits.

**Note 8: Plan Termination**

Although it has not expressed any intent to do so, the Company has the right to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. Upon termination of the Plan, the interest of each participant in the trust fund will become 100 percent vested and will be distributed to such participant or his/her beneficiary at the time as prescribed by the Plan terms and the Code. Upon termination of the Plan, the Employee Benefits Administration Committee shall direct the Trustees to pay all liabilities and expenses of the trust fund and to sell shares of financed stock held in the loan suspense account to the extent it determines necessary in order to repay any outstanding loans at the time of termination.

I & S Group, Inc.  
Employee Stock Ownership Plan  
Notes to the Financial Statements  
December 31, 2023 and 2022

**Note 9: Tax Status**

The Plan has received a determination letter from the IRS dated May 3, 2018, stating that the Plan is qualified under the IRC and, therefore, the related trust is exempt from taxation. Once qualified, the Plan is required to operate in conformity with the IRC to maintain its qualification. The Plan has been amended since receiving the determination letter. However, the Plan administrator believes that the Plan is currently designed, and being operated, in compliance with the applicable requirements of the IRC. Therefore, they believe that the Plan was qualified, and the related trust was tax-exempt as of the financial statement date.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken a significant uncertain position that more likely than not would not be sustained upon examination by the appropriate regulatory authorities. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

**Note 10: SECURE Act 2.0**

The Securing a Strong Retirement Act (SECURE 2.0 Act) was signed into law on December 29, 2022, and includes mandatory and optional provisions with varying effective dates in 2023 and later. The Plan Administrator will determine the optional provisions to elect and amend the Plan document accordingly.
