INDEPENDENT AUDITORS' REPORT

Board of Trustees
Plumbers & Steamfitters Local Union No. 33 Retirement Trust
Des Moines, IA

Opinion

We have audited the accompanying financial statements of Plumbers & Steamfitters Local Union No. 33 Retirement Trust, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets available for benefits as of December 31, 2023 and 2022, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of Plumbers & Steamfitters Local Union No. 33 Retirement Trust as of December 31, 2023 and 2022, and the changes in its net assets available for benefits for the years then ended, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Plumbers & Steamfitters Local Union No. 33 Retirement Trust and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Plumbers & Steamfitters Local Union No. 33 Retirement Trust's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments; administering the plan; and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Plumbers & Steamfitters Local Union No. 33 Retirement Trust's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Plumbers & Steamfitters Local Union No. 33 Retirement Trust's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedules Required by ERISA

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedules of assets (held at end of year) and reportable transactions are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with generally accepted auditing standards.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedules is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

PLUMBERS & STEAMFITTERS LOCAL UNION NO. 33 RETIREMENT TRUST
NOTES TO FINANCIAL STATEMENTS
FOR THE YEARS ENDED DECEMBER 31, 2023 AND 2022

NOTE 1 – DESCRIPTION OF THE PLAN

The following description of the Plumbers & Steamfitters Local Union No. 33 Retirement Trust provides only general information. Participants should refer to the Plan Agreement for a complete description of the Plan's provisions.

General

The Plumbers & Steamfitters Local Union No. 33 Retirement Trust is a multiemployer defined benefit pension plan. The Plan was established to provide retirement benefits for employees covered by collective bargaining agreements between employers and the Plumbers and Steamfitters Local Union No. 33. The Plan was revised to conform to the requirements of the Employee Retirement Income Security Act of 1974.

Plan Benefits

The Plan provides four types of pension benefits: 1) Regular, 2) Early Retirement, 3) Disability, and 4) Deferred. The employee's age and the number of pension credits earned during an employee's periods of accrual determine the amount of pension benefit. A better description of these benefits, together with eligibility and vesting requirements, is contained in the summary plan description booklet. Participants should refer to the Plan Agreement for a complete description of the Plan's provisions.

Funding Policy

The funding policy is based on the sum of two cost elements: (1) the normal cost, and (2) amortization of changes in the unfunded actuarial accrued liability measured as of each valuation date. The minimum funding requirements as required by ERISA have been met.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared using the accrual method of accounting in accordance with generally accepted accounting principles.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Receivables

Participating employers' contributions receivable represents accrued contributions from employers for the current year that were received after the end of the year. Delinquent employer contributions are not recorded as revenue until the amounts are known and are considered collectible, or they are actually received.

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

PLUMBERS & STEAMFITTERS LOCAL UNION NO. 33 RETIREMENT TRUST

NOTES TO FINANCIAL STATEMENTS

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, Continued

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Office Equipment and Furniture

Office equipment and furniture are recorded at cost, less accumulated depreciation. Major additions are capitalized, whereas replacements, maintenance, and repairs, which do not improve or extend the useful lives of the respective assets, are currently expensed. Depreciation is computed on the straight-line method over the estimated useful lives of the assets.

Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the financial statements.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

Subsequent Events

Subsequent events were evaluated through September 18, 2024, which is the date the financial statements were available to be issued.

NOTE 3 – RELATED PARTY TRANSACTIONS

The Plan reimburses the Plumbers & Steamfitters Local Union No. 33 Health & Welfare Plan for applicable salaries and benefits of the Health & Welfare Plan personnel. Reimbursements under this arrangement for the years ended December 31, 2023 and 2022 totaled \$263,908 and \$212,193, respectively, and are included in administrative expenses. As of December 31, 2023 and 2022, there was \$0 and \$37,017, respectively, due to the Health and Welfare Plan from the Retirement Plan for applicable salaries and benefits of Plan personnel.

The Plan also reimbursed the Plumbers & Steamfitters Local Union No. 33 Health & Welfare Plan \$26,180 in 2023 and \$26,180 in 2022 for office rental.

As of December 31, 2022, the Plan also owed \$133,094 to the Plumbers and Steamfitters Local Union No. 33 Health & Welfare Plan for an investment sweep error that occurred during the year where funds were swept from the incorrect fund. This was paid back in 2023.

PLUMBERS & STEAMFITTERS LOCAL UNION NO. 33 RETIREMENT TRUST

NOTES TO FINANCIAL STATEMENTS

NOTE 4 – TAX STATUS

The Plan has obtained a determination letter in which the Internal Revenue Service states that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code ("IRC"). The Plan's management believes that the Plan is currently designed and operated in compliance with applicable requirements of the Internal Revenue Code and the Plan and related trust continue to be tax-exempt. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

NOTE 5 – PLAN TERMINATION

It is the intent of the Trustees to continue the Plan in full force and effect; however, the right to discontinue the Plan is reserved to the Trustees. Termination shall not permit any part of the Plan assets to be used for or diverted to purposes other than the exclusive benefit of the pensioners, beneficiaries and participants. In the event of termination, the net assets of the Plan will be allocated to pay benefits in priorities as prescribed by ERISA and its related regulations. Whether or not a particular participant will receive full benefits should the Plan terminate at some future time will depend on the sufficiency of the Plan's net assets at that time and the priority of those benefits.

Certain benefits under the Plan are insured by the Pension Benefit Guaranty Corporation (PBGC) if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the plan and the amount of benefit protection is subject to certain limitations. Some benefits may be fully or partially provided for while other benefits may not be provided at all.

NOTE 6 – FAIR VALUE MEASUREMENTS

The framework for measuring fair values provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1	Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
Level 2	Inputs to the valuation methodology include: • quoted prices for similar assets or liabilities in active markets; • quoted prices for identical or similar assets or liabilities in inactive markets; • inputs other than quoted prices that are observable for the asset or liability; • inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.
Level 3	Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2023 and 2022.

Money Market Funds: Valued at cost, which is equal to the net asset value of shares held at year-end.

Mutual Funds: Valued at the net asset value of shares held by the Plan at year-end.

Common and Collective Trusts and Investment Partnerships: Valued at the net asset value (NAV) of units of the fund held by the Plan based on the fair market value of the underlying investments of the fund. The funds do not have a finite life. Unfunded commitments relating to these types of investments and significant restrictions on redemptions can be found on the table under the heading "Fair Value of Investments that Calculate Net Asset Value."

NOTE 6 – FAIR VALUE MEASUREMENTS, Continued

The following table sets forth, by level within the fair value hierarchy, the Plan's investment assets at fair value as of December 31, 2023 and 2022. As required, assets and liabilities are classified in their entirety based on the lowest level of input that is significant to the fair value measurement. In accordance with generally accepted accounting principles, certain investments that are measured at fair value using the net asset value per share (or its equivalent) practical expedient have not been classified in the fair value hierarchy. The fair value amounts presented in the following tables are intended to permit reconciliation of the fair value hierarchy to the amounts presented in the statements of net assets available for benefits.

Accumulated plan benefits are those future periodic payments that are attributable under the Plan's provisions to the service participants have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated participants or their beneficiaries, (b) beneficiaries of participants who have died, and (c) present participants or their beneficiaries.

PLUMBERS & STEAMFITTERS LOCAL UNION NO. 33 RETIREMENT TRUST

NOTES TO FINANCIAL STATEMENTS

NOTE 7 – ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS, Continued

The actuarial present value of accumulated plan benefits is determined by an actuary and is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment. The significant actuarial assumptions used in the valuations as of January 1, 2023 and 2022 were:

- 1) Life expectancy of participants: Pri-2012 Blue Collar Employee Amount-weighted mortality tables (sex distinct) projected generationally from 2012 with the MP-2020 scale.
- 2) Retirement age assumptions: the assumed average retirement age is 60, if eligible for early retirement, age 62 otherwise
- 3) Investment return: the assumed average rate of return is 7.00% for 2023 and 2022
- 4) Average future hourly contribution rates: the rates used ranged from \$4.52 per hour to \$9.55 per hour, depending on locality. The average contribution rate was \$9.51 per hour.
- 5) Average future annual hours worked: estimated 1.4 million total contribution hours

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated Plan benefits. The computations of the actuarial present value of accumulated plan benefits were made as of January 1 each year. Had the valuations been performed as of December 31, there would be no material differences.

The last actuarial reports as of January 1, 2023 and January 1, 2022 indicated the following unfunded accrued liability for the plan:

	<u>January 1, 2023</u>	<u>January 1, 2022</u>
Accrued liability	\$ 301,368,649	\$ 287,471,066
Fund balance - actuarial current value	<u>285,482,930</u>	<u>266,675,232</u>
Unfunded accrued liability	<u>\$ 15,885,719</u>	<u>\$ 20,795,834</u>

NOTE 8 – CONCENTRATION OF CREDIT RISK

At December 31, 2023, the book balance of deposits in local banks was \$1,391,387, while the bank balance was \$1,453,955, of which \$1,203,955 was not insured by the Federal Depository Insurance Company (F.D.I.C.). There is no collateral on these deposits.

Statement of Actuarial Assumptions, Methods and Models

(Schedule MB, Line 6)

Mortality Rates

Non-retired Participants: Pri-2012 Blue Collar Employee Amount-weighted Mortality Tables (sex distinct) projected generationally from 2012 with the MP-2020 scale.

Non-disabled Pensioners and Beneficiaries: Pri-2012 Blue Collar Healthy Annuitants Amount-weighted Mortality Tables, projected generationally from 2012 with the MP-2020 scale.

Disabled Pensioners: Pri-2012 Disabled Retiree Amount-weighted Mortality Tables (sex distinct) projected generationally from 2012 with the MP-2020 scale.

The underlying tables with projection to the ages of participants as of the measurement date reasonably reflect the mortality experience of the Plan as of the measurement date. The mortality tables were then adjusted to future years using generational projection under Scale MP-2020 to reflect future mortality improvement.

The mortality rates are based on historical and current demographic data, adjusted to reflect health characteristics of the area and industry, and estimated future experience and professional judgment. As part of the analysis, a comparison was made between the actual number of deaths by age and the projected number based on the prior years' assumption over the past five years.

The withdrawal rates and disability rates are based on historical and current demographic data, adjusted to reflect economic conditions of the area and industry, and estimated future experience and professional judgment. As part of the analysis, a comparison was made between the actual number of withdrawals and disability retirements by age and the projected number based on the prior year's assumption over the most recent five years.

¹ only applicable to those eligible for early or normal retirement

The retirement rates are based on historical and current demographic data, adjusted to reflect economic conditions of the area and industry, and estimated future experience and professional judgment. As part of the analysis, a comparison was made between the actual number of retirements by age and the projected number based on the prior year's assumption over the most recent five years.

Description of Weighted Average Retirement Age	Age 60, determined as follows: The weighted average retirement age for each participant is calculated as the sum of the product of each potential current or future retirement age times the probability of surviving from current age to that age and then retiring at that age, assuming no other decrements. The overall weighted retirement age is the average of the individual retirement ages based on all the active participants included in the January 1, 2023 actuarial valuation.
Retirement Age for Inactive Vested Participants	Age 60, if eligible for early retirement, age 62 otherwise. The retirement age for inactive vested participants is based on historical and current demographic data, adjusted to reflect economic conditions of the area and industry and estimated future experience and professional judgment.
Future Benefit Accruals	One pension credit per year. The assumed future benefit accruals are based on historical and current demographic data and estimated future experience and professional judgment.
Unknown Data for Participants	Same as those exhibited by participants with similar known characteristics. If not specified, participants are assumed to be male.
Definition of Active Participants	Active participants are defined as those with at least 333 hours in the most recent pension credit year and who have accumulated at least one pension credit, excluding those who have retired as of the valuation date.
Percent Married	85%

Age of Spouse	Spouses are assumed to be 4 years younger than the male participants and 4 years older than female participants. If not specified, spouses are assumed to be the opposite sex of the participant.
Benefit Election	Married participants are assumed to elect the more valuable of the 50% joint and survivor form of payment and the life annuity. Non-married participants are assumed to elect life annuity. The assumed benefit elections are based on historical and current demographic data and estimated future experience and professional judgement.
Delayed Retirement Factors	Both active and inactive vested participants who commence receipt of benefits after attaining normal retirement age qualify for delayed retirement increases.
Net Investment Return	7.00% The net investment return assumption is a long-term estimate derived from historical data, current and recent market expectations, and professional judgment. As part of the analysis, a building block approach was used that reflects inflation expectations and anticipated risk premiums for each of the portfolio's asset classes as provided by Segal Marco Advisors, as well as the Plan's target asset allocation.
Annual Administrative Expenses	\$675,000 for the year beginning January 1, 2023 (equivalent to \$650,833 payable at the beginning of the year) or 11.2% of Normal Cost. The annual administrative expenses are based on historical and current data, adjusted to reflect estimated future experience and professional judgment.
Actuarial Value of Assets	The market value of assets less unrecognized returns in each of the last five years. Unrecognized return is equal to the difference between the actual market return and the projected market return, and is recognized over a five-year period. The actuarial value is further adjusted, if necessary, to be within 20% of the market value.
Actuarial Cost Method	Unit Credit Actuarial Cost Method. Normal Cost and Actuarial Accrued Liability are calculated on an individual basis and are allocated by benefits accrued.
Benefits Valued	Unless otherwise indicated, includes all benefits summarized in Exhibit L.
Current Liability Assumptions	<i>Interest:</i> 2.55%, within the permissible range prescribed under IRC Section 431(c)(6)(E) <i>Mortality:</i> Mortality prescribed under IRS Regulations 1.431(c)(6)-1 and 1.430(h)(3)-1(a)(2): RP-2014 employee and annuitant mortality tables, adjusted backward to the base year (2006) using scale MP-2014, projected forward generationally using scale MP-2021.
Estimated Rate of Investment Return	<i>On actuarial value of assets (Schedule MB, line 6g):</i> 5.1%, for the Plan Year ending December 31, 2022 <i>On current (market) value of assets (Schedule MB, line 6h):</i> -10.7%, for the Plan Year ending December 31, 2022
FSA Contribution Timing (Schedule MB, line 3a)	Unless otherwise noted, contributions are paid periodically throughout the year pursuant to collective bargaining agreements. The interest credited in the FSA is therefore assumed to be equivalent to a June 30 contribution date.

Actuarial Models

Segal valuation results are based on proprietary actuarial modeling software. The actuarial valuation models generate a comprehensive set of liability and cost calculations that are prepared to meet regulatory, legislative and client requirements. Deterministic cost projections are based on a proprietary forecasting model. Our Actuarial Technology and Systems unit, comprised of both actuaries and programmers, is responsible for the initial development and maintenance of these models. The models have a modular structure that allows for a high degree of accuracy, flexibility and user control. The client team programs the assumptions and the plan provisions, validates the models, and reviews test lives and results, under the supervision of the responsible Enrolled Actuary.

Statement by Enrolled Actuary
To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

- **Delayed Retirement Amount:** Normal pension accrued at Normal Retirement Age, increased by 1.0% per month for the first 60 months, and 1.5% per month thereafter. Delayed Retirement increases use compound interest (rather than simple).

Early Retirement	• <i>Age Requirement:</i> 55 • <i>Service Requirement:</i> 10 pension credits including one earned during the contribution period • <i>Amount:</i> ▪ For benefits accrued prior to January 1, 2021: Normal pension accrued, reduced by 1.5% for each year of age less than 62 • For benefits after December 31, 2020: Normal pension accrued, reduced by 1.5% for each year of age less than 62 for participants with at least 25 years of service, and the actuarial equivalent of the age 62 benefit for participants with less than 25 years of service
Disability	• <i>Age Requirement:</i> None • <i>Service Requirement:</i> Five years of vesting service and at least 200 hours of work in covered employment during the 24 months preceding disability • <i>Amount:</i> Normal pension accrued
Non-Vested Disability Benefit	• <i>Age Requirement:</i> None • <i>Service Requirement:</i> Less than 5 years of vesting service and at least 200 hours of work in covered employment during the 24 months preceding disability • <i>Amount:</i> \$1,000 per pension credit, payable as a lump sum
Vesting	• <i>Age Requirement:</i> None • <i>Service Requirement:</i> 5 years of vesting service • <i>Amount:</i> Normal pension accrued, reduced by 1.5% for each year of age less than 62 for benefits accrued prior to January 1, 2011 and the actuarial equivalent of the age 62 benefit for benefits earned after December 31, 2010 • <i>Normal Retirement Age:</i> 62
Spouse's Pre-Retirement Death Benefit	• <i>Age Requirement:</i> None • <i>Service Requirement:</i> 5 years of vesting service • <i>Amount:</i> 50% of the benefit participant would have received had he or she retired the day before he or she died and elected the 50% joint and survivor option. Benefit commences immediately. Reductions are made to the accrued benefit for early commencement and form of payment. If the participant dies prior to age 55, the benefit is reduced to the amount as if the participant died at age 55. • <i>Charge for Coverage:</i> None
Pre-Retirement Lump-sum Death Benefit	• <i>Age Requirement:</i> None • <i>Service Requirement:</i> At least one pension credit, at least 200 hours of contributions in the 12-month period preceding death, and not eligible for spouse's pre-retirement death benefit • <i>Amount:</i> 100% of contributions made on behalf of the participant.

Post-Retirement Death Benefit	If married, pension benefits are paid in the form of a 50% joint and survivor annuity unless this form is rejected by the participant and spouse. If not rejected, the benefit amount otherwise payable is reduced to reflect the joint and survivor coverage. If not rejected, and the spouse predeceases the participant, and the participant retired January 1, 1994 or later, the participant's benefit amount will subsequently be increased to the unreduced amount payable had the joint and survivor coverage been rejected (pop-up). If rejected, or if not married, benefits are payable for the life of the employee, or in any other available optional form elected by the participant in an actuarially equivalent amount.																																															
Optional Forms of Benefits	• 50% Husband and Wife annuity with pop-up • 75% Husband and Wife annuity with pop-up • 100% Husband and Wife annuity with pop-up • 120 month certain annuity • Level income annuity Partial lump sum (maximum 10% of accrued benefit, for benefits accrued after December 31, 2010, lump sum amount limit to \$10,000)																																															
Participation	Earliest January 1 or July 1 after completion of 1,000 hours in a 12-month period.																																															
Pension Credit	Credit is granted for hours worked in each pension credit year according to the following schedule: <table><thead><tr><th>Hours Worked</th><th>Credit</th><th>Hours Worked</th><th>Credit</th></tr></thead><tbody><tr><td>2,565 or more</td><td>18/12</td><td>998</td><td>8/12</td></tr><tr><td>2,432</td><td>17/12</td><td>865</td><td>7/12</td></tr><tr><td>2,299</td><td>16/12</td><td>732</td><td>6/12</td></tr><tr><td>2,166</td><td>15/12</td><td>599</td><td>5/12</td></tr><tr><td>2,033</td><td>14/12</td><td>466</td><td>4/12</td></tr><tr><td>1,900</td><td>13/12</td><td>333</td><td>3/12</td></tr><tr><td>1,530</td><td>12/12</td><td>200</td><td>2/12</td></tr><tr><td>1,397</td><td>11/12</td><td>67</td><td>1/12</td></tr><tr><td>1,264</td><td>10/12</td><td>Less than 67</td><td>0/12</td></tr><tr><td>1,131</td><td>9/12</td><td></td><td></td></tr></tbody></table> Hours in excess of 1,530 and less than 1,900 in a pension credit year are credited to an hours bank to be used at retirement for years in which at least 1/12 pension credit was already earned. Only the number of hours necessary to receive one full credit will be used for any pension credit year. A maximum of 4,590 hours can be banked. Pension credit for bank hours is credited to each participant on an ongoing basis.
