The Benefit Plans Committee
ADM Retirement Plan
ADM Pension Plan for Hourly-Wage Employees

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of ADM Retirement Plan and ADM Pension Plan for Hourly-Wage Employees (the Plans), employee benefit plans subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audits). The financial statements comprise the statements of net assets available for benefits (modified cash basis) as of December 31, 2023 and 2022, and the related statements of changes in net assets available for benefits (modified cash basis) for the years then ended, and the related notes (collectively referred to as the “financial statements”).

Management, having determined it is permissible in the circumstances, has elected to have the audits of the financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor’s Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plans (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor’s Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 2023 and 2022, and for the years then ended, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section

- the amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with the modified cash basis of accounting described in Note 2.
- the information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plans and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Modified Cash Basis of Accounting

We draw attention to Note 2 to the financial statements, which describes the basis of accounting. The financial statements are prepared on the modified cash basis of accounting, which is a basis of accounting other than accounting principles generally accepted in the United States of America. Our opinion is not modified with respect to this matter.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with the modified cash basis of accounting as described in Note 2 and for determining that the modified cash basis of accounting is an acceptable basis for the preparation of the financial statements in the circumstances. Management also is responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plans, and determining that the Plans' transactions that are presented and disclosed in the financial statements are in conformity with the Plans' provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plans' internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plans' ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certifications, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of the modified cash basis of accounting described in Note 2.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with the modified cash basis of accounting.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audits, significant audit findings, and certain internal control related matters that we identified during the audits.

Notes to Financial Statements
(Modified Cash Basis)

1. Description of the Plans

The accompanying financial statements comprise the ADM Retirement Plan (the Retirement Plan) and the ADM Pension Plan for Hourly-Wage Employees (the Hourly Plan) (collectively, the Plans) of Archer-Daniels-Midland Company (ADM or the Company) that participate in the Archer Daniels Midland Master Retirement Trust (the Master Trust).

The Company's funding policy with respect to the Plans is to contribute at least the necessary amount each year to meet the minimum amount required by the Employee Retirement Income Security Act of 1974, as amended (ERISA). The Plans have met the minimum funding requirements established by the federal government for the years ended December 31, 2023 and 2022. The Company did not make any contributions in the Plans for the year ended December 31, 2023. The Company contributed \$26.4 million in September 2023 for the year ended December 31, 2022.

The Company is free to terminate the Plans at any time, subject to the provisions of ERISA and the collective bargaining agreements. In the event of the termination of the Plans, the net assets of the Plans shall be allocated to provide benefits in the order of priority prescribed by ERISA. However, the Pension Benefit Guaranty Corporation guarantees the payment of all nonforfeitable basic benefits, subject to certain limitations prescribed by ERISA.

More complete information about the Plans, including vesting and benefit provisions, is contained in the plan documents available from the Company.

ADM Retirement Plan

The Retirement Plan is a defined benefit plan covering substantially all regular salaried employees of ADM and its participating affiliates.

From time to time, the assets and liabilities of acquired pension plans covering the salaried employees of acquired ADM subsidiaries or locations are merged into the Retirement Plan, as is the policy of ADM.

ADM Pension Plan for Hourly-Wage Employees

The Hourly Plan is a defined benefit plan covering those employees of ADM and its participating affiliates working at participating locations (as described in the plan document) and paid on an hourly rate basis. The Hourly Plan provisions for those locations that are not represented by a collective bargaining agreement, as well as those represented by a collective bargaining agreement, have been modified by the addition of appendices to the Hourly Plan specifying those provisions for the locations that differ from the corresponding provisions of the basic plan provisions.

1. Description of the Plans (continued)

From time to time, the assets and liabilities of acquired pension plans covering the hourly employees of acquired ADM subsidiaries or locations are merged into the Hourly Plan, as is the policy of ADM.

2. Significant Accounting Policies

Basis of Accounting

The accounting records of the Plans are maintained on a modified cash basis, which is a comprehensive basis of accounting other than accounting principles generally accepted in the United States of America. Under the modified cash basis, investments are recorded at fair value, and transactions are recorded when cash is received or paid rather than in the time period in which income is earned or expenses are incurred.

Benefits Paid

Benefits are recorded when paid.

Investments

The Plans' investments held in the Master Trust are stated at fair value. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Further information regarding the valuation techniques used to measure the fair value of investment assets held in the Master Trust is included in Note 4.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded as earned. Dividends are recorded on the ex-dividend date. Net appreciation/(depreciation) includes the Master Trust's gains and losses on investments bought and sold, as well as held, during the year.

Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits (see Note 5) are those estimated future periodic payments, including lump-sum distributions, attributable under the Plans' provisions to services rendered by employees through the valuation date. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries and (b) present employees or their beneficiaries. Benefits payable under all circumstances, including retirement, death, disability and termination of employment, are included to the extent they are deemed attributable to employee service rendered through the valuation date.

2. Significant Accounting Policies (continued)

ADM Retirement Plan

On July 31, 2017, the Company announced that all participants in the Retirement Plan began accruing benefits under the cash balance formula effective January 1, 2022, while maintaining their frozen traditional formula accrued benefit. Salaried employees with less than five years of service before January 1, 2009, participate in a point-based cash balance pension formula with a three-year vesting schedule.

Benefits for retired or terminated employees or their beneficiaries, under the traditional pension formula, are based on the employee's highest average monthly salary for 60 consecutive months out of the last 180 consecutive months of credited service. Benefits for retired or terminated employees or their beneficiaries under the cash balance pension formula are based on the employee's cash balance account.

ADM Pension Plan for Hourly-Wage Employees

Effective January 1, 2009, most non-bargaining hourly employees, as well as those represented by a collective bargaining agreement, who were hired prior to January 1, 2009, that have a pension plan at their location continued with the existing traditional pension formula.

Non-bargaining hourly employees who are hired or rehired on or after January 1, 2009, participate in a point-based cash balance pension formula. Employees represented by a collective bargaining agreement who were hired or rehired on or after January 1, 2009, participate in the pension formula applicable to their respective location.

Benefits for retired or terminated employees or their beneficiaries, under the traditional formula, are based on the applicable benefit level and the employees' credited service as determined by hours worked. Benefits for retired or terminated employees or their beneficiaries under the cash balance pension formula are based on the employee's cash balance account.

Use of Estimates

The preparation of financial statements requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

2. Significant Accounting Policies (continued)

Plan Expenses

All costs and expenses incurred in connection with the operation of the Plans with regard to the purchase and sale of investments, as well as certain professional fees, are paid out of the Master Trust. Other administrative expenses and actuarial and audit fees are paid by ADM, the plan sponsor.

3. Master Trust Investment Information

Certain investment information disclosed in the accompanying financial statements for the Plans and Master Trust, including investments held at December 31, 2023 and 2022, and net appreciation/(depreciation) in fair value of investments, interest, dividends and investment expenses for the years then ended, was obtained or derived from information supplied to the plan administrator and certified as complete and accurate by Northern Trust Company, the custodian.

The Plans' investments are held in the Master Trust established for the investment of assets of the Plans. Each participating retirement plan has an undivided interest in the Master Trust. The Retirement Plan's and Hourly Plan's interest in the net assets of the Master Trust was approximately 72% and 28%, respectively, at December 31, 2023 and 71% and 29%, respectively, at December 31, 2022.

Investment income (loss) and expenses are allocated among the Plans based upon each plan's pro rata share in the net assets of the Master Trust.

4. Fair Value Measurements

The Master Trust assets are valued at fair value as required by ASC Topic 820. ASC 820 establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurement) and the lowest priority to unobservable inputs (Level 3 measurement). The three levels are described below:

Level 1: Inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2: Inputs are observable, including Level 1 prices that have been adjusted, quoted prices for similar assets or liabilities, quoted prices in markets that are less active than traded exchanges, and other inputs that are observable or can be substantially corroborated by observable market data.

Level 3: Inputs are unobservable and are supported by little or no market activity and are a significant component of the fair value of the assets or liabilities.

Following is a description of the valuation techniques and inputs used for investments measured at fair value, including the general classification of such investments pursuant to the valuation hierarchy:

Common stock:

Equity securities are valued based on quoted exchange prices and are classified within Level 1 of the valuation hierarchy.

Mutual funds:

Mutual funds are valued at the closing price reported on the active market on which they are traded and are classified within Level 1 of the valuation hierarchy.

Common collective trust (CCT) funds:

The investments in common collective trust funds are comprised of U.S. and international equity, fixed income, and other securities. Certain CCT funds are valued at the closing price reported on the active market on which they are traded and are classified within Level 1 of the valuation hierarchy. Other investments are valued at net asset value (NAV) provided by administrators of the funds.

U.S. Treasury instruments:

U.S. Treasury instruments are valued at the closing price reported on the active market on which they are traded and classified within Level 1 of the valuation hierarchy.

ADM Retirement Plan
ADM Pension Plan for Hourly-Wage Employees

Notes to Financial Statements
(Modified Cash Basis)

4. Fair Value Measurements (continued)

U.S. government agency, state and local government bonds:

U.S. government agency obligations and state and municipal debt securities are valued using third-party pricing services and are classified within Level 2 of the valuation hierarchy.

Corporate debt instruments:

Corporate debt instruments are valued using pricing models maximizing the use of observable inputs for similar securities. This includes basing value on yields currently available for comparable securities of issuers with similar credit ratings. These debt instruments are classified within Level 2 of the valuation hierarchy.

Other investments:

Other investments include derivatives and commercial securities, which are all valued using pricing models maximizing the use of observable inputs for similar investments. This includes basing value on yields currently available for comparable securities of issuers with similar credit ratings. These investments are classified within Level 2 of the valuation hierarchy.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the plan administrator of the Plans believes the valuation methods are appropriate and consistent with other market participants' methods, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Level 3 gains and losses:

There are no assets in the Plans classified as Level 3 in the fair value hierarchy at December 31, 2023 and 2022.

5. Accumulated Plan Benefits

The Plans' consulting actuaries estimate the actuarial present value of accumulated plan benefits, which is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits earned by the participants to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements for death, disability, withdrawal or retirement) between the valuation date and the expected payment date.

The present values of accumulated plan benefits were as follows as of December 31, 2022:

	<u>December 31, 2022</u>	
	Retirement Plan	Hourly Plan
Actuarial present value of accumulated plan benefits:		
Participants and other beneficiaries

Total actuarial present value of accumulated plan benefits	<u><u>\$ 634,925,408</u></u>	<u><u>\$ 238,706,328</u></u>

The following table shows the changes in accumulated plan benefits for the year ended December 31, 2022:

5. Accumulated Plan Benefits (continued)

The following actuarial assumptions are based on the presumption that the Plans will continue. In the event of a plan termination, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits. Significant assumptions underlying actuarial computations are:

Discount rate and cash balance interest rate:

	<u>December 31, 2022</u>	
	Retirement Plan	Hourly Plan
Discount rate	5.14%	5.10%
Cash balance interest rate	3.97%	3.97%

6. Derivatives

In the normal course of operations, the Master Trust investment managers use derivative financial instruments (swaps, forwards and futures) to mitigate the risk of changes in interest rates and foreign currencies impacting the fair values of certain investments held by the Master Trust. These derivatives may involve, in varying degrees, elements of credit and market risks in excess of more traditional investment holdings, such as equity and debt instruments.

(Modified Cash Basis)

6. Derivatives (continued)

The contract or notional amounts disclosed in this note and the amounts of realized and unrealized gains and losses on derivative instruments during the period presented below provide a measure of the involvement in such instruments but are not indicative of potential loss. The Master Trust fiduciaries do not anticipate any material adverse effect on the financial position of the Master Trust resulting from its use of these instruments.

Using derivative financial instruments means assuming counterparty credit risk. Counterparty credit risk relates to the loss the Master Trust would incur if a counterparty were to default on a derivative contract. The amount of counterparty credit exposure is limited to the unrealized gains, if any, on such derivative contracts.

The fair value of forwards and futures and the realized and unrealized gain or loss on forwards and futures were not material to the Master Trust at December 31, 2023 and 2022, and for the years then ended. The Plan has recorded interest rate swaps in an asset position of \$6,022,691 and \$8,545,783, and in a liability position of \$4,281,191 and \$5,774,146 as of December 31, 2023 and 2022, respectively. The fair value of these instruments is included in the investment in Master Trust balance on the statement of net assets available for benefits, and is reflected in the “other” balance in the fair value table in Note 4.

The notional amount represents the contract amount, not the amount at risk. The approximate notional amount of swaps within the Master Trust at December 31, 2023 and 2022, is as follows:

	December 31	
	2023	2022
Swaps	\$ 914,360,359	\$ 886,993,076

The following table presents net gain with respect to swaps. The gains are located on the statements of changes in net assets available for benefits as net investment gain from Master Trust.

	Years Ended December 31	
	2023	2022
Swaps	\$ 2,780,019	\$ 2,896,475

7. Income Tax Status

The Plans have received determination letters from the Internal Revenue Service (IRS) dated June 29, 2021, stating the Plans are qualified under section 401(a) of the Internal Revenue Code (the Code) and, therefore, the Master Trust is exempt from taxation. Subsequent to this determination by the IRS, the Retirement Plan and Hourly Plan were amended. Once qualified, the Plans are required to operate in conformity with the Code to maintain their qualified status. The plan administrator has indicated that it will take the necessary steps, if any, to bring the Plan's operations into compliance with the Code.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plans and recognize a tax liability if the Plans have taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. Plan management has analyzed the tax positions taken by the Plans and has concluded that there are no uncertain positions taken or expected to be taken. The Plans are subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

8. Risks and Uncertainties

The Master Trust invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risks associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Plan contributions are made and the actuarial present value of accumulated plan benefits is reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the assumptions and estimation process, it is at least reasonably possible that changes in these estimates and assumptions in the near term could materially affect the amounts reported and disclosed in the financial statements.

10. Subsequent Events

Management evaluated subsequent events for the Plans through October 7, 2024, the date that these financial statements were available to be issued.

Disability Rates	See Table 8
Decrement Timing	Middle of year decrements (except that retirement is assumed to occur at the beginning of the year for ages where the assumed retirement rate is 100%)
Surviving Spouse Benefit	It is assumed that 70% of males and 70% of females have an eligible spouse, and that males are two years older than their spouses.
Valuation Compensation	2022 Pensionable earnings rolled forward one year with the salary increase assumption

Schedule SB, Part V—Summary of Plan Provisions

History of Plan

A separate pension plan for ADM hourly employees was first established effective September 1, 1952. Effective September 1, 1957, a separate plan for employees represented by the American Federation of Grain Millers was established and the Hourly Trust Fund assets were allocated between the continuing hourly plan and the Grain Miller Plan.

The hourly plan provided for monthly benefits upon retirement of \$2.50 for each year of service. At various dates between September 1, 1963, and December 31, 1976, the plan provisions for those employee units (locations) represented by a union have been modified by the addition of an appendix to the plan specifying those provisions for the employee unit that differ from the corresponding provisions of the basic plan.

Effective January 1, 1968, the basic plan was amended and restated. The benefit rate was increased to \$3.00 for each year of service. The concept of modification of provisions via an appendix was maintained.

Effective January 1, 1973, the basic plan was amended for those employee units not covered by a separate appendix. The amendment included the following changes: the benefit rate increased to \$6.00 for each year of service; the minimum disability benefit increased to \$100.00 and the maximum disability benefit of \$100.00 was deleted; eligibility provisions for vesting were liberalized; and reduction factors for early commencement of benefits were liberalized.

Effective January 1, 1976, the basic plan was amended to comply with the Employee Retirement Income Security Act of 1974 (ERISA). These changes included providing for 100% vesting after ten or more years of service, and the introduction of a preretirement surviving spouse's benefit. In addition, the benefit rate of the basic plan was increased to \$8.00.

Effective January 1, 1983, the North Kansas City, Red Wing, Winona and Atkinson plans were merged into the General Hourly Plan.

Effective August 1984, preretirement death benefit coverage was extended to active vested employees on an employer paid basis and to terminated vested employees on an employee paid basis.

Effective January 1, 1989, in accordance with the Tax Reform Act of 1986, a 5-year cliff vesting schedule was adopted.

Effective December 15, 1990, the Pfizer plan was merged into the General Hourly Plan. Benefits for former Pfizer employees continued under Pfizer plan provisions. As of January 1, 1993, the future benefit rate for these employees was frozen at the rate equal to the accrued benefit divided by credited service.

Effective December 31, 1993, the Supreme Sugar, Cedar Rapids, St. Charles, and Fleischmann Hourly plans were merged into the General Hourly Plan.

Effective December 31, 1995, the Premiere and Jackson Hourly plans were merged into the General Hourly Plan.

Effective September 30, 1996, Southern Cellulose hourly employees were merged into the General Hourly Plan.

Effective January 1, 2009, new hires on or after January 1, 2009 in certain locations (date and age/service requirements may vary by location and union) are eligible for the cash balance formula. All other employees continue to have benefit calculated under the traditional formula.

Effective December 31, 2011, the Grain Miller Plan was merged into the General Hourly Plan. Benefits for former Grain Miller plan participants continued under Grain Miller plan provisions. Also, effective December 31, 2011, hourly employees of the Golden Peanut Pension Plan were merged into the General Hourly Plan. Benefits for former hourly Golden Peanut plan participants will be calculated under the General Hourly Plan's cash balance formula.

ADM amended the Plan and on March 26, 2021 entered into a binding agreement to purchase a group annuity contract from American General Life Insurance Company ("AGL") and The United States Life Insurance Company in the City of New York ("USL"), irrevocably transferring the future benefit obligations and annuity administration for certain retirees and term vesteds from the Plan to AGL and USL. Retirees and term vesteds living in New York had their benefits transferred to USL and non-New York residents were transferred to AGL. Both USL and AGL are member companies of American International Group ("AIG"). The annuity contract purchase was completed on April 1, 2021. AGL and USL will be responsible for payments to these participants due on and after July 1, 2021.

See separate binder of specific provisions by appendix of the current plan provisions.

Schedule SB, Part V—Summary of Plan Provisions

History of Plan

A separate pension plan for ADM hourly employees was first established effective September 1, 1952. Effective September 1, 1957, a separate plan for employees represented by the American Federation of Grain Millers was established and the Hourly Trust Fund assets were allocated between the continuing hourly plan and the Grain Miller Plan.

The hourly plan provided for monthly benefits upon retirement of \$2.50 for each year of service. At various dates between September 1, 1963, and December 31, 1976, the plan provisions for those employee units (locations) represented by a union have been modified by the addition of an appendix to the plan specifying those provisions for the employee unit that differ from the corresponding provisions of the basic plan.

Effective January 1, 1968, the basic plan was amended and restated. The benefit rate was increased to \$3.00 for each year of service. The concept of modification of provisions via an appendix was maintained.

Effective January 1, 1973, the basic plan was amended for those employee units not covered by a separate appendix. The amendment included the following changes: the benefit rate increased to \$6.00 for each year of service; the minimum disability benefit increased to \$100.00 and the maximum disability benefit of \$100.00 was deleted; eligibility provisions for vesting were liberalized; and reduction factors for early commencement of benefits were liberalized.

Effective January 1, 1976, the basic plan was amended to comply with the Employee Retirement Income Security Act of 1974 (ERISA). These changes included providing for 100% vesting after ten or more years of service, and the introduction of a preretirement surviving spouse's benefit. In addition, the benefit rate of the basic plan was increased to \$8.00.

Effective January 1, 1983, the North Kansas City, Red Wing, Winona and Atkinson plans were merged into the General Hourly Plan.

Effective August 1984, preretirement death benefit coverage was extended to active vested employees on an employer paid basis and to terminated vested employees on an employee paid basis.

Effective January 1, 1989, in accordance with the Tax Reform Act of 1986, a 5-year cliff vesting schedule was adopted.

Effective December 15, 1990, the Pfizer plan was merged into the General Hourly Plan. Benefits for former Pfizer employees continued under Pfizer plan provisions. As of January 1, 1993, the future benefit rate for these employees was frozen at the rate equal to the accrued benefit divided by credited service.

Effective December 31, 1993, the Supreme Sugar, Cedar Rapids, St. Charles, and Fleischmann Hourly plans were merged into the General Hourly Plan.

Effective December 31, 1995, the Premiere and Jackson Hourly plans were merged into the General Hourly Plan.

Effective September 30, 1996, Southern Cellulose hourly employees were merged into the General Hourly Plan.

Effective February 28, 1997, Grace Cocoa employees from Plan H (Merkens) and Ambrosia were merged into the General Hourly Plan.

Effective May 31, 1997, Benson-Quinn hourly employees were merged into the General Hourly Plan.

Effective October 1, 1997, participation was extended to former ED&F Man employees. Benefits for these participants will be based on a final average pay formula.

Effective February 1, 1998, participation was extended to former Countrymark employees. Benefits for these participants will be calculated based on a cash balance formula.

Effective December 31, 1999, the Moorman Manufacturing Company hourly employees merged into this plan.

Effective January 1, 2000, ADM unpurchased annuities previously purchased from an insurance carrier for former Moorman employees and will now pay these benefits from this plan.

Effective December 31, 2001, the Consolidated Nutrition hourly employees were merged into the plan.

Effective September 30, 2002, the Minnesota Corn Processing employees were acquired.

Effective January 1, 2009, new hires on or after January 1, 2009 in certain locations (date and age/service requirements may vary by location and union) are eligible for the cash balance formula. All other employees continue to have benefit calculated under the traditional formula.

Effective December 31, 2011, the Grain Miller Plan was merged into the General Hourly Plan. Benefits for former Grain Miller plan participants continued under Grain Miller plan provisions. Also, effective December 31, 2011, hourly employees of the Golden Peanut Pension Plan were merged into the General Hourly Plan. Benefits for former hourly Golden Peanut plan participants will be calculated under the General Hourly Plan's cash balance formula.

ADM amended the Plan and on March 26, 2021 entered into a binding agreement to purchase a group annuity contract from American General Life Insurance Company ("AGL") and The United States Life Insurance Company in the City of New York ("USL"), irrevocably transferring the future benefit obligations and annuity administration for certain retirees and term vesteds from the Plan to AGL and USL. Retirees and term vesteds living in New York had their benefits transferred to USL and non-New York residents were transferred to AGL. Both USL and AGL are member companies of American International Group ("AIG"). The annuity contract purchase was completed on April 1, 2021. AGL and USL will be responsible for payments to these participants due on and after July 1, 2021.

See separate binder of specific provisions by appendix of the current plan provisions.

- A change in the expected return on assets from 5.50% to 6.50% to better reflect future expectations.
- A change in the cash balance interest crediting rate from 1.95% (December 31, 2021 30-year Treasury Rate of 1.90%, but not less than 1.95%) to 3.97% (December 31, 2022 30-year Treasury Rate) to better reflect future expectations.
