To the Board of Trustees
White's Farm Supply Retirement Plan

We have audited the financial statements of White's Farm Supply Retirement Plan, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), for the year ended December 31, 2023, and we will issue our report thereon dated October 7, 2024. Professional standards require that we provide you with information about our responsibilities under generally accepted auditing standards, as well as certain information related to the planned scope and timing of our audit. We have communicated such information in our letter to you dated June 10, 2024. Professional standards also require that we communicate to you the following information related to our audit.

Significant Audit Matters

Qualitative Aspects of Accounting Practices

Management is responsible for the selection and use of appropriate accounting policies. The significant accounting policies used by White's Farm Supply Retirement Plan are described in Note 1 to the financial statements. No new accounting policies were adopted and the application of existing policies was not changed during 2023. We noted no transactions entered into by the Plan during the year for which there is a lack of authoritative guidance or consensus. All significant transactions have been recognized in the financial statements in the proper period.

Accounting estimates are an integral part of the financial statements prepared by management and are based on management's knowledge and experience about past and current events and assumptions about future events. Certain accounting estimates are particularly sensitive because of their significance to the financial statements and because of the possibility that future events affecting them may differ significantly from those expected. The most sensitive estimate affecting the financial statements was:

Management's estimate of the fair value of investments based on the information provided by the trustee. We evaluated the key factors and assumptions used to develop the estimate of fair value in determining that it is reasonable in relation to the financial statements taken as a whole.

The financial statement disclosures are neutral, consistent, and clear.

Form 5500 Procedures

We are required to obtain and read a substantially complete draft of Form 5500 prior to dating our auditor's report. The purpose of this procedure is to identify any material inconsistencies between the draft Form 5500 and the Plan's financial statements. We identified no material inconsistencies in performing and completing our audit.

Difficulties Encountered in Performing the Audit

We encountered no significant difficulties in dealing with management in performing and completing our audit.

Corrected and Uncorrected Misstatements

Professional standards require us to accumulate all misstatements identified during the audit, other than those that are clearly trivial, and communicate them to the appropriate level of management. There were no misstatements detected as a result of our audit procedures.

Reportable Findings and Recommendations

For purposes of this letter, a reportable finding is a matter that includes one or more of the following: (1) noncompliance or suspected noncompliance with laws and regulations, (2) a finding that in our professional judgment is significant and relevant to you regarding your responsibility to oversee the financial reporting process, and (3) an indication of internal control deficiencies identified during the audit that have not been previously communicated to management by other parties and that we determined are sufficiently important to merit management's attention. We have enclosed a memorandum summarizing matters involving the internal control structure and its operations that we feel can be improved and strengthened.

Disagreements with Management

For purposes of this letter, a disagreement with management is a disagreement on a financial accounting, reporting, or auditing matter, whether or not resolved to our satisfaction, that could be significant to the financial statements or the auditor's report. We are pleased to report that no such disagreements arose during the course of our audit.

Management Representations

We have requested certain representations from management that are included in the management representation letter dated October 7, 2024.

Management Consultations with Other Independent Accountants

In some cases, management may decide to consult with other accountants about auditing and accounting matters, similar to obtaining a "second opinion" on certain situations. If a consultation involves application of an accounting principle to the Plan's financial statements or a determination of the type of auditor's opinion that may be expressed on those statements, our professional standards require the consulting accountant to check with us to determine that the consultant has all the relevant facts. To our knowledge, there were no such consultations with other accountants.

Other Audit Findings or Issues

We generally discuss a variety of matters, including the application of accounting principles and auditing standards, with management each year prior to retention as the Plan's auditors. However,

these discussions occurred in the normal course of our professional relationship and our responses were not a condition to our retention.

Other Matters

With respect to the ERISA-required supplemental schedule accompanying the financial statements, we made certain inquiries of management and evaluated the form, content, and methods of preparing the information to determine that the information complies with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA, the method of preparing it has not changed from the prior period, and the information is appropriate and complete in relation to our audit of the financial statements. We compared and reconciled the ERISA-required supplemental schedule to the underlying accounting records used to prepare the financial statements or to the financial statements themselves.

This information is intended solely for the use of Board of Trustees and management of White's Farm Supply Retirement Plan and is not intended to be and should not be used by anyone other than these specified parties.

WHITE'S FARM SUPPLY RETIREMENT PLAN

SCHEDULE OF AUDIT FINDINGS AND RECOMMENDATIONS

For the Year Ended December 31, 2023

A. Employee Deferral

During our audit, we tested participant deferrals by comparing the participants' election forms to the amount of actual withholding for the year according to payroll records. It was noted that 4 of the 28 participants selected for testing had actual deferrals for the year that did not agree to the elections listed in their personnel file, 3 did not have an enrollment form on file and 2 did not have a deferral change form on file.

We recommend that Plan management ensure that all documentation is obtained before participants become enrolled in the plan and deferral change forms are maintained in the personnel files.

B. Employer Contributions

During our test of employer contributions, it was noted that participant's employer contributions were not recalculating at the amounts they were entitled to under plan provisions. It was noted that 7 of 28 participants tested received less employer matching contribution than they were entitled to under plan provisions. In addition, 8 of 28 participants tested received less safe harbor contribution than they were entitled to under plan provisions.

We recommend Plan management implement controls to ensure employer contributions are processed appropriately in the payroll software. In addition, employer contributions in total for all participants should be recalculated at the end of each plan year based on plan provisions to ensure the weekly contributions amount to what the participant is entitled to for the plan year.

C. Beneficiary Forms

During our test of contributions, it was noted that for 2 out of 28 participants tested, there was no beneficiary form on file. Failing to properly complete enrollment beneficiary designations could lead to inaccurate benefit payments.

We recommend that Plan management review documentation on file to ensure that all participants have completed the required forms in their entirety and request updated documentation for those who have not.
