INDEPENDENT AUDITOR'S REPORT

To the Participants and Administrator of
Momentive Performance Materials Inc. Pension Plan
Schenectady, New York

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of the Momentive Performance Materials Inc. Pension Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits and of accumulated plan benefits as of December 31, 2023 and 2022, and the related statement of changes in net assets available for benefits and of changes in accumulated plan benefits for the year ended December 31, 2023, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 2023 and 2022, and for the year ended December 31, 2023, stating that the certified investment information, as described in Note 4 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section:

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- The information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

(Continued)

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year from the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

(Continued)

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter – Supplemental Schedules Required by ERISA

The supplemental schedules of Schedule H, Line 4i – Schedule of Assets (Held at End of Year) as of December 31, 2023 and Schedule H, Line 4j – Schedule of Reportable Transactions for the year ended December 31, 2023, are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedules related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

MOMENTIVE PERFORMANCE MATERIALS INC. PENSION PLAN
NOTES TO FINANCIAL STATEMENTS
December 31, 2023 and 2022

NOTE 1 – DESCRIPTION OF THE PLAN

The following brief description of the Momentive Performance Materials Inc. Pension Plan (the “Plan”) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan’s provisions.

General: Momentive Performance Materials Inc. Pension Plan is a noncontributory defined benefit pension plan for the benefit of eligible employees of Momentive Performance Materials Inc. (the “Company”, and “Plan Sponsor”) and its participating U.S. subsidiaries. The Company’s parent company, MPM Holdings, Inc, was acquired by an investor group consisting of SJL Partners LLC, KCC Corporation and Wonik QnC Corporation on September 13, 2018. The Plan was established January 29, 2007, and is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (“ERISA”).

Effective January 1, 2020, Momentive Performance Materials Quartz, Inc. spun-off from the Company into Momentive Quartz Technologies, as a separate Employer. As a result, the Plan has converted from a single employer plan to a multiple-employer plan. Effective January 1, 2021, the Plan spun off these assets into the Momentive Technologies Pension Plan reverting the Plan back to a single employer plan.

Eligibility: The Plan covers substantially all eligible U.S. employees of Momentive Performance Materials Inc. and Momentive Performance Materials USA Inc. except for those in certain employee classes hired after the effective freeze date for that class. Newly hired employees in an eligible group become participants on the January 1 following their hire date.

Effective August 31, 2012, no new exempt employees may enter the Plan after September 1, 2012.

Effective December 31, 2013, employees covered by the IUE-CWA, The Industrial Division of the Communications Workers of America, AFL-CIO, CLC, (the “IUE Union”) agreement who were hired on or after January 1, 2013 are not eligible to participate in the Plan.

Effective December 31, 2014, employees covered by the Local 698-C of the International Chemical Workers Union Council of the United Food and Commercial Workers (the “Sistersville Union”) agreement who were hired on or after January 1, 2014 and non-exempt employees not covered by a collective bargaining agreement (“NUNE,” or “non-union non-exempt”) will not be eligible to participate in the Plan. As such, the Plan is fully frozen to participation as of December 31, 2014.

Vesting: Participants generally vest in their benefits under the Plan after completing five years of pension qualification service or upon the attainment of normal retirement age, whichever comes first. The Plan recognizes prior employment service with certain predecessor employers of the Company for purposes of vesting and other benefits with service requirements. The Plan was amended effective October 24, 2014, to immediately vest employees who transfer between the Company and Hexion, Inc. (“Hexion”), the Company’s former affiliate, while a Shared Services Agreement is in effect (Cross Company employees) regardless of whether such transfer is at the request of the Company or Hexion.

Retirement Age: Normal retirement is defined under the Plan as age 65. Pension benefits consist of a regular pension monthly annuity and, if applicable, special pension supplements. The Plan permits early retirement at age 60.

The Plan also provides special early retirement benefits as early as age 55 to participants meeting the eligibility criteria, which includes 25 years of service, for certain job loss events. This provision expired July 1, 2013 for exempt and non-bargained hourly associates and was extended with no expiration for certain Union employees, and for certain other bargained associates until July 31, 2014.

December 31, 2023 and 2022

NOTE 1 – DESCRIPTION OF THE PLAN (Continued)

An employee with at least 15 years of pension qualifying service, who becomes disabled while actively employed, and subsequently becomes permanently disabled prior to normal retirement age, may be eligible to receive a disability pension. An employee is considered permanently disabled if he received disability benefits under the federal Social Security Act or under the Company's long-term disability plan. Pre-retirement death benefits are available for beneficiaries of vested and qualified participants under the Plan.

Pension Benefits: For service and pay earned January 29, 2007 through December 31, 2007, the benefit under the Plan is an enhanced formula designed to provide a benefit equal to or greater than the benefit provided under the predecessor General Electric Pension Plan.

For service and pay earned on or after January 1, 2008, the Plan generally provides an annual benefit payable at age 65 equal to the greater of a final average pay formula multiplied by years of service earned after December 31, 2007 or a flat dollar amount multiplied by years of service. Pension Benefits also provide for regular and special supplemental payments to eligible participants. Participant eligibility for these supplemental payments is dependent upon their associate classification and benefit commencement date as defined by the Plan and amended from time to time.

Pension qualification service shall be credited to a participant who continues as an employee while receiving worker compensation pay until the earlier of the date benefits commence, or 18 months following the commencement of worker compensation pay.

Beginning September 1, 2012, compensation or service earned by exempt associates will not be taken into account for purposes of determining pension benefits.

Beginning January 1, 2014, IUE Union associates who are hired before January 1, 2013 and are at least 50 years of age and have 10 years of Pension Qualified Service (PQS) may make a one-time irrevocable election (Choice Election) to continue earning benefit accruals under the Plan and remain eligible for supplements under the Plan (Grandfathered IUE Associates), or they may elect to participate in enhanced defined contributions plan benefits under the Momentive Performance Materials Savings Plan (MPM Savings Plan). Beginning January 1, 2014, IUE Union associates hired before January 1, 2013 who are under 50 years of age with less than 10 years of service and all other IUE Union associates who did not make the Choice Election (Non-Grandfathered IUE Associates), any compensation and service earned will not be taken into account for purposes of determining pension benefits.

Beginning January 1, 2015, compensation or service earned by Sistersville Union associates who are under 50 years of age as of December 31, 2014, or who have less than ten years of PQS as of December 31, 2014, ("Non-Grandfathered Sistersville associates"), will not be taken into account for purposes of determining pension benefits.

Effective January 1, 2015, the Company amended the Plan to freeze accruals under the Plan as of December 31, 2015 for NUNE employees, except for eligible NUNE employees who make a Choice Election to either continue accruing benefits under the Plan and remain eligible for supplements under the Plan or to participate in the enhanced defined contribution plan benefits under the MPM Savings Plan in lieu of earning any additional benefit accruals and being eligible for supplements under the Plan after December 31, 2015. Each NUNE Employee who is at least 50 years of age and has at least 10 years of PQS ("Grandfathered NUNE employee") as of December 31, 2015 may make a Choice Election.

NOTE 1 – DESCRIPTION OF THE PLAN (Continued)

Effective December 31, 2015, a Grandfathered NUNE Employee who terminates employment with the Company on or after January 1, 2016, and is rehired by the Company is eligible to recommence active participation in the Plan solely for purposes of earning PQS. Compensation will not be taken into account for purposes of determining final average pay. A Grandfathered NUNE Employee that is placed on temporary lay-off and is reemployed immediately following the temporary lay-off will recommence active participation in the Plan for all purposes.

Grandfathered NUNE Employees will be eligible for the Special Early Retirement Option and Plant Closing Pension Option commencing January 1, 2016 and after; there will be no expiration, except that early retirement supplements are only available until the Supplement Expiration Date, as defined in the Plan document.

Plan Expenses: The Company provides certain administrative services without charge to the Plan. In accordance with the Plan document, all other administrative expenses of the Plan are paid from the Plan assets.

Investment management fees and operating expenses charged to the Plan for investments in mutual funds are deducted from income earned on a daily basis and are not separately reflected. Consequently, management fees and operating expenses of these funds are reflected as a reduction of investment return for such investments.

Funding Policy: The Company will make contributions to the Plan as permitted or required by government laws and regulations. Participant contributions are not permitted under the Plan. The Company's contributions to the Plan for the year ended December 31, 2023 satisfied the minimum funding requirements prescribed by the ERISA.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting: The accompanying financial statements have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

Use of Estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures, and actual results could differ from those estimates. It is at least reasonably possible that a significant change may occur in the near term for the estimate of the actuarial present value of accumulated plan benefits.

Risk and Uncertainties: The Plan's investments are exposed to various risks, such as interest rate, market, liquidity and credit risks. Market risks include risks associated with ongoing global events. Due to the level of risk associated with certain investments and the sensitivity of certain fair value estimates to changes in valuation assumptions, it is at least reasonably possible that changes in the values of investments will occur in the near term and that such changes could materially affect the amounts reported in these financial statements.

(Continued)

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Contributions to the Plan are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, employee demographics and compensation. Due to the changing nature of these assumptions, it is at least reasonably possible that changes in these assumptions will occur in the near term, and due to uncertainties inherent in setting assumptions, that the effect of such changes could be material to the actuarial present value of accumulated plan benefits or the statements of net assets available for benefits and statement of changes in net assets available for benefits.

Payment of Benefits: Benefit payments to participants are recorded when paid.

Investment Valuation and Income Recognition: Plan investments are stated at fair value. Investment purchases and sales transactions are recognized on a trade-date basis. Dividends are recorded on the ex-dividend date and interest income is recognized on the accrual basis. The net appreciation (depreciation) in the fair value of investments includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Fair value is the price that would be received by the Plan for an asset or paid by the Plan to transfer a liability (an exit price) in an orderly transaction between market participants on the measurement date in the Plan's principal or most advantageous market for the asset or liability. Fair value measurements are determined by maximizing the use of observable inputs and minimizing the use of unobservable inputs. The hierarchy places the highest priority on unadjusted quoted market prices in active markets for identical assets or liabilities (Level 1 measurements) and gives the lowest priority to unobservable inputs (Level 3 measurements). The three levels of inputs within the fair value hierarchy are defined as follows:

Level 1: Quoted prices (unadjusted) for identical assets or liabilities in active markets that the Plan has the ability to access as of the measurement date.

Level 2: Significant other observable inputs other than Level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data.

Level 3: Significant unobservable inputs that reflect the Plan's own assumptions about the assumptions that market participants would use in pricing an asset or liability.

In some cases, a valuation technique used to measure fair value may include inputs from multiple levels of the fair value hierarchy. The lowest level of significant input determines the placement of the entire fair value measurement in the hierarchy.

The following descriptions of the valuation methods and assumptions used by the Plan to estimate the fair values of investments apply to investments held directly by the Plan:

Mutual Funds: The fair values of mutual fund investments are determined by obtaining quoted prices on nationally recognized securities exchanges (Level 1 inputs).

Collective Trusts: The fair values of participation units held in collective trusts are based on the net asset values reported by the fund managers as of the financial statement dates and recent transaction prices. Each collective trust held by the Plan provides for daily redemptions at reported net asset values per share, with no advance notice requirement. No unfunded commitments exist for any of the collective trust funds.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

U.S. Government Securities: Certain U.S. government securities are valued based upon recent bid prices or the average of recent bid and asked prices when available (Level 2 inputs) and, if not available, they are valued through matrix pricing models developed by sources considered by management to be reliable. Matrix pricing, which is a mathematical technique commonly used to price debt securities that are not actively traded, values debt securities without relying exclusively on quoted prices for the specific securities but rather by relying on the securities' relationship to other benchmark quoted securities (Level 2 inputs).

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Investments measured at fair value on a recurring basis are summarized below:

Fair Value Measurements at December 31, 2023 Using				
	<u>Total</u>	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Collective trust funds*	\$ 136,209,766	\$ -	\$ -	\$ -
Total	\$ 136,209,766	\$ -	\$ -	\$ -

Fair Value Measurements at December 31, 2022 Using				
	<u>Total</u>	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Mutual funds	\$ 90,705,995	\$ 90,705,995	\$ -	\$ -
US Government securities	8,412,760	-	8,412,760	-

Total	\$ 127,184,658	\$ 90,705,995	\$ 8,412,760	\$ -

* Investments measured at fair value using net asset value per share (or its equivalent) as a practical expedient have not been classified in the fair value hierarchy. The fair value amounts presented in the hierarchy tables for such investments are intended to permit the reconciliation of the fair value hierarchy to the investments at fair value line item presented in the statements of net assets available for benefits.

NOTE 3 – ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS

Accumulated plan benefits are those future benefit payments that are attributable under the Plan's provisions to the services employees have rendered through the valuation date. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. Benefits under the Plan are based on the current benefit levels and actual service. Benefits are payable under all circumstances (retirement, death and termination of employment) included to the extent that they are deemed attributable to employee services rendered up to the valuation date.

The actuarial present value of the accumulated plan benefits is determined by an independent actuary and is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by decrements such as for death, full and permanent disability, withdrawal or retirement) between the valuation date and the expected date of payment.

The significant actuarial assumptions underlying the actuarial valuations as of December 31, 2023 and 2022 are as follows:

Mortality: For 2023 and 2022, Pri-2012 mortality table for annuitants and non-annuitants with the MP-2021 mortality improvement scale.

Annual retirement rate:	<u>Age nearest birthday</u>	<u>Hourly associates</u>	<u>Salary associates</u>
	60	25%	15%
	61	25%	15%
	62	25%	15%
	63	20%	15%
	64	20%	15%
	65-69	30%	30%
	70	100%	100%

Long-term rate of return: 7.50% at December 31, 2023 and 2022

The change in the actuarial present value of accumulated plan benefits for plan actuarial assumptions during 2023 was due to the lump sum conversion rate for certain death benefits being decreased from 5.55% to 5.21%.

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

NOTE 4 – CERTIFIED INVESTMENTS

Certain information related to investments disclosed in the accompanying financial statements and ERISA-required supplemental schedules, including investments held as of December 31, 2023 and 2022, net appreciation (depreciation) in fair value of investments and interest and dividends for the years then ended, was obtained by management and agreed to or derived from information certified as complete and accurate by The Bank of New York Mellon/BNY Mellon, N.A (the Trustee of the Plan) except for the fair value of the Plan's investments in SEI Energy Debt CIT, SEI Structured Credit Collective Fund, and the SEI Special Situations CIT of \$21,573,168 and \$20,223,830 as of December 31, 2023 and 2022, respectively, and the related net appreciation of \$1,349,338 for the year ended December 31, 2023.

NOTE 5 – PLAN TERMINATION

Although it has not expressed any intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA and its related regulations. In the event the Plan terminates, the net assets of the Plan will be allocated among the participants and beneficiaries of the Plan in the order provided by ERISA.

Certain benefits under the Plan are insured by the Pension Benefit Guaranty Corporation ("PBGC") if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for those benefits and may also depend on the financial condition of the Plan sponsor and the level of benefits guaranteed by the PBGC.

NOTE 6 – PARTIES-IN-INTEREST

Parties-in-interest are defined under Department of Labor regulations as any fiduciary of the Plan, any party rendering service to the Plan, the employer, and certain others. Certain Plan investments were managed by Bank of New York Mellon/BNY Mellon, N.A., the trustee of the Plan, therefore, these transactions qualify as party-in-interest investments. Certain Plan investments were issued by SEI Institutional Investments Trust, an affiliate of an investment manager for the Plan, therefore, these transactions qualify as party-in-interest investments. Fees incurred by the Plan to parties-in-interest for investment management, actuarial, audit, and consulting services totaled \$2,840,336 for the year ended December 31, 2023. Various administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan.

NOTE 7 – TAX STATUS OF PLAN

The Internal Revenue Service has determined and informed the Company by a letter dated December 9, 2013, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code ("IRC"). The Plan has been amended since receiving the determination letter. However, the Plan administrator believes the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

NOTE 7 – TAX STATUS OF PLAN (Continued)

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2023 and 2022, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by the Department of Labor or Internal Revenue Service, however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2020.

NOTE 8 – SUBSEQUENT EVENTS

Plan management has evaluated subsequent events for recognition and disclosure through October 8, 2024, which is the date the financial statements were available to be issued.

In June 2024, the Global Benefits Committee approved a lump sum window offering for certain terminated vested participants from September 23, 2024, to November 5, 2024. The total amount paid from the lump sum window offering is not known as of the financial statement date.

Sources of Data and Other Information

The plan sponsor through its third-party administrator, TELUS, furnished participant data as of January 1, 2023. Information on assets, contributions and plan provisions was supplied by the Company or BNY Mellon. Data and other information were reviewed for reasonableness and consistency, but no audit was performed. Based on discussions with the plan sponsor, assumptions or estimates were made when data were not available. We are not aware of any errors or omissions that would have a significant effect on the results of our calculations.

Assumptions Rationale - Significant Economic Assumptions

Interest rate	The basis chosen for PPA purposes was selected by the plan sponsor from among choices prescribed by law, all of which are based on observed market data over certain periods of time.
Salary scale	The assumed annual salary increase rate was chosen by the plan sponsor and represents an estimate of future experience for the portion of the Company's population for whom continued salary-related accruals are provided.

Assumptions Rationale - Significant Demographic Assumptions

Healthy mortality	Assumptions used for funding purposes are prescribed by IRC §430(h).
Disabled mortality	Assumptions used for funding purposes are prescribed by IRC §430(h).
Termination and retirement	<p>Termination and retirement rates are based on an experience study conducted in 2021 with consideration of whether any conditions have changed that would be expected to produce different results in the future.</p> <p>Assumed termination rates differ by age, gender, salary class and service because of observed differences in termination rates by these factors.</p> <p>The termination and retirement rates are based on plan sponsor expectations for the future with periodic monitoring of observed gains and losses caused by termination and retirement patterns different than assumed.</p>
Disability	Disability rates are based on widely accepted disability tables. Actual experience was reviewed during the 2014 experience study and was determined not credibly different from the current assumption.

The mortality table was updated to include one additional year of projected mortality improvement as required by guidance issued by IRS under IRC §430.

No other changes to assumptions were made since the previous valuation.

Retirement Eligibility Dates

Normal First day of month following age 65.

Early First day of month following age 60.

The plan allows retirement prior to age 60 under limited conditions, as outlined below. Eligibility for these special features is subject to numerous special conditions; some of the key conditions are summarized below.

Special Early Retirement Option (SERO): Legacy Participants terminating on or before July 1, 2013, whose termination is due to an eligible permanent job loss event, may be eligible for early retirement if they are at least age 55 and less than age 60 with at least 25 years of Pension Qualification Service (PQS) on the date of the permanent job loss event.

Plant Closing Pension Option (PCPO): Legacy Participants terminating on or before July 1, 2013, whose termination is connected with an eligible plant closing, may be eligible for early retirement if they are at least age 55 and less than age 60 with at least 25 years of Pension Qualification Service (PQS) at the end of the calendar year of the plant closing.

SERO and PCPO benefits are extended indefinitely for Grandfathered IUE associates, Grandfathered Sistersville Union associates and Grandfathered NUNE associates. For Non-Grandfathered Sistersville Union associates the benefits were extended through July 31, 2014.

Deferred Any time after normal retirement date; payments begin no later than the March 1 following the year the participant attains age 72.

Disability Fifteen or more years of PQS and permanently disabled while an active associate participating in the MPM Pension Plan. For New Plan Participants, no disability pension is available for retirements that occur on or after age 60. Permanently disabled means permanently impaired and unable to perform present job or any other available MPM job for which the associate is reasonably suited by education, training or experience, as determined by the benefits administrator. For eligible recipients, payments generally begin six months after permanent disablement and are discontinued if associate regains work capacity.

Death Benefits

Before retirement Benefits vary with age, marital status and employment status at time of death, as described in the table below. Benefits described are for active participants only; benefits for vested terminations may be different. After Retirement

- Single associates Basic form of benefit is payable for life with a five-year minimum.
- Married associates Unless waived by the associates with spousal consent, the benefit is payable as a 50% spouse option which provides a reduced amount to the associate of 93.5% of the benefit otherwise payable but with 50% of the reduced amount continued to the surviving spouse for life after the associate's death. The 93.5% factor is reduced (increased) by 0.5% for each full year in excess of two years by which the spouse is younger (older) than the associate and increased by 0.2% for each full year the associate's age at benefit commencement is less than age 60; the factor applied will not be less than 90% or more than 100%.

If the spouse predeceases the participant within the first five years after retirement, a fraction of the pension reduction for the spouse option is discontinued. The fraction discontinued depends upon the anniversary of effective date of survivorship option; 100% of reduction is discontinued if spouse dies within one year of effective date, reducing by 20% each year thereafter.

The minimum total payment is five times the associate's pension under the five-year certain form of payment in i. below.

Alternatively, with spouse consent, the associate may elect one of the following forms:

- i. Five-year certain and life annuity; or
- ii. 75% spouse option (available beginning January 1, 2008), which provides a reduced amount to the associate of 90% of the benefit otherwise payable but with 75% of the reduced amount continued to the surviving spouse for life after the associate's death. The 90% factor is reduced (increased) by 0.5% for each full year by which the spouse is younger (older) than the associate in excess of one year and reduced (increased) by 0.3% for each full year the associate's age at benefit commencement is greater (less) than age 60. The factor applied will not be more than 98.5% but will not be less than the factor that pertains under the 100% spouse option. If the spouse predeceases the participant within the first five years after retirement, a pop-up provision similar to that outlined above applies; or

- Married associates (continued)
 - iii. For associates who are not disabled at retirement, 100% spouse option, which provides a reduced amount to the associate of 87% of the benefit otherwise payable but with 100% of the reduced amount continued to the surviving spouse for life after the associate's death. The 87% factor is reduced (increased) by 0.5% for each full year by which the spouse is younger (older) than the associate and reduced (increased) by 0.5% for each full year the associate's age at benefit commencement is greater (less) than age 60. The factor applied will not be more than 98% but will not be less than the factor that would have applied to the 100% portion of the plan's former 50% / 100% spouse option. If the spouse predeceases the participant within the first five years after retirement, a pop-up provision similar to that outlined above applies.
