To the Administrative Committee
BTL Industries, Inc. 401(k) Profit Sharing Plan and Trust
Marlborough, MA 01752

Except as discussed in the following paragraph, in planning and performing our audit of the financial statements of BTL Industries, Inc. 401(k) Profit Sharing Plan and Trust as of and for the year ended December 31, 2023, in accordance with auditing standards generally accepted in the United States of America, we considered BTL Industries, Inc. 401(k) Profit Sharing Plan and Trust's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, we do not express an opinion on the effectiveness of BTL Industries, Inc. 401(k) Profit Sharing Plan and Trust's internal control.

Management has determined it is permissible in the circumstances and has elected to have the audit of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Therefore, as permitted by ERISA Section 103(a)(3)(C), the audit need not extend to any statements of information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Our consideration of internal control was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and, therefore, material weaknesses or significant deficiencies may exist that were not identified. However, as discussed below, we identified a certain deficiency in internal control that we consider to be a material weakness.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control over financial reporting, such that there is a reasonable possibility that a material misstatement of the Plan's financial statements will not be prevented, or detected and corrected on a timely basis. A reasonable possibility exists when the likelihood of an event occurring is either reasonably possible or probable as defined as follows:

- *Reasonably possible.* The chance of the future event or events occurring is more than remote but less than likely.
- *Probable.* The future event or events are likely to occur.

We consider the following deficiency in the Plan's internal control to be a material weakness:

- During our audit, we noted that the financial statements (inclusive of disclosures) in conformity with accounting principles generally accepted in the United States of America ("GAAP") could not be internally prepared by the Company. Due to the complexity of the financial statements and required disclosures it would be difficult for members of the accounting department to prepare the financial statements free from error and in conformity with GAAP.

A significant deficiency is a deficiency, or a combination of deficiencies, in internal control over financial reporting that is less severe than a material weakness, yet important enough to merit attention by those charged with governance. We consider the following deficiency in the Plan's internal control to be a significant deficiency:

- Two participants received bonuses during the year that were improperly excluded from the deferral calculation. The Plan Sponsor is rectifying this issue and will remit the contributions along with lost earnings to the effected participants' accounts.

During our audit, we became aware of deficiencies in internal control other than significant deficiencies or material weaknesses, and the following matters are an opportunity for strengthening internal controls and operating efficiency:

- Plan management did not document its Plan oversight meetings during the year. Meeting minutes serve as important documentation that a fiduciary process was followed, and the Plan is being prudently managed. We recommend that Plan management implement a policy to document their regular meetings and any important decisions or discussions held during these meetings.
- During our audit, we noted that the Plan Sponsor does not conduct periodic cybersecurity awareness trainings with employees. We recommend that the Plan Sponsor implement such trainings to ensure information is kept protected and secured.
- Plan management does not review deferral calculations calculated by a third-party. We recommend that Plan management implement a policy to review and document oversight over third party service providers.
- The Plan Adoption Agreement has the wrong type of entity selected. The Plan Sponsor should consider updating the Adoption Agreement to correct.
- Not all employees had support for salary or rate changes from their initial offer letter. We recommend that salary and rate change forms are maintained to support participant data kept by ADP and the employer.

This communication is intended solely for the information and use of management and those charged with governance and is not intended to be, and should not be, used by anyone other than these specified parties.
